SRI DEVARAJ URS MEDICAL COLLEGE		
Tamaka, Kolar		
MEDICAL EDUCATION UNIT		

No.DMC/KLR/MEU/ 31 /2022-23

Date: 28-06-2022

FOUNDATION COURSE REPORT 2021-2022

Foundation Course Goal: The goal of the Foundation Course is to prepare a learner to study Medicine effectively.

Foundation Course was conducted at Sri Devaraj Urs Medical College, Tamaka, Kolar-563103

The objectives are to:

(i) Orient the learner to:

- a. The medical profession and the physician's role in society
- b. The MBBS programme
- c. Alternate health systems in the country and history of medicine
- d. Medical ethics, attitudes and professionalism
- e. Health care system and its delivery
- f. National health priorities and policies
- g. Universal precautions and vaccinations
- h. Patient safety and biohazard safety
- i. Principles of primary care (general and community-based care)
- j. The academic ambience

(ii) Enable the learner to acquire enhanced skills in:

- a. Language
- b. Interpersonal relationships
- c. Communication
- d. Learning including self-directed learning
- e. Time management
- f. Stress management
- g. Use of information technology

(iii) Train the learner to provide:

- a. First-aid
- b. Basic life support
- c. Computer skills

Taking all safety precaution Foundation course was conducted onsite as per the NMC guidelines from 14/2/2022 to 30/3/2022as shown in **Annexure 1**

REPORT ON MODULES OF FOUNDATION COURSE

ORIENTATION MODULE

COMPETENCY ADDRESSED

Demonstrate understanding of the role of doctors in the society and their impact

Demonstrate understanding of the Roles of an Indian Medical Graduate and relate it to the societal impact

Discuss and appreciate the expectations of the students from the Nation, society, Institution, peers, colleagues and patients and vice versa

Demonstrate understanding of the rules and regulations of the institution

Sl. no	Session on	Delivered by	Objectives
1	Opening remarks	Dr. Sreeramulu P.N.	<ul style="list-style-type: none"> • Description about the college • Governance • Policies • Code of conduct
2	Overview of Foundation course and ice breaking	Dr. Prabhavathi K	<ul style="list-style-type: none"> • Goal and objectives of Foundation course • Foundation course schedule • Ice breaking
3.	MBBS curriculum	Dr. Sarala.N	<ul style="list-style-type: none"> • Overview of the CBME Curriculum • Differences between the traditional and CBME c
4	Adaptation to the new environment and Introduction to phase I subjects –Anatomy , Physiology and Biochemistry	HODs, Pre-Clinical Departments Dr. Sreedevi N Dr. Shashidhar KN Dr. Vinuthashankar	<ul style="list-style-type: none"> • Adjusting to the college • Making a transition • New environment and personal relationship • Adaptation to new curriculum • Personal adaptation.
5.	Study skills and learning techniques	Dr. KNV Prasad	<ul style="list-style-type: none"> • Active and responsible role in planning their learning, by interacting with teachers and other students and by researching. • The strategies required for effective learning. • Use learning skills to retain, organize & integrate information. • Support to be successful in medical school.
6	NEP 2020	Dr. Harendra Kumar ML	<ul style="list-style-type: none"> • Key Principles of NEP • Vision of Indias New education system

			<ul style="list-style-type: none"> • Major changes in NEP
7	Pandemic module Physiology	Dr.Shobha M V	<ul style="list-style-type: none"> • Definition of pandemic • Differentiate pandemic from an epidemic • Briefly know about the pandemics that have occurred in the past • List the reasons for occurrence of these pandemics in the past .
8	Pandemic module Anatomy	Dr.Ashwini N S	<ul style="list-style-type: none"> • Preparedness for impending pandemics • Role of the Indian Council of Medical Research (ICMR) • Key strategies (by the State/Central Government, that were adopted in prevention and control of these pandemics. • Role which will be played by National and International bodies like WHO and ICMR, if these events take place
9	Examination – Internal examination / university - rules and regulations	Dr. Shashidhar K	<ul style="list-style-type: none"> • Formative and summative Examination process • Eligibility criteria for university exam
10	Sharing of experience and Guidance from senior students	MrSuryakanthsharma Mr. Uthkarsh Mr. LabeebNisarMs. Menali U D Ms. SreeGaeyathri Ms. Meeramathi Ms. Greeshma	<ul style="list-style-type: none"> • Develop an attitude for success. • Learn to use strategies for staying focused and motivated. • Network with other students to help ensure academic success. • Solve problems and overcome setbacks that threaten your goals.
11	Hospital related information to the students	Dr.K C Prasad	<ul style="list-style-type: none"> • Administration at the hospital • Various health schemes and health related information
12	Information related Sports and cultural activities	Dr. Vidya Sagar Dr. Sunil BN Dr. Shobha M V	<ul style="list-style-type: none"> • Importance of sports among medical students • Fitness and academic performance • Cultural activity- role among medical students
13	Functioning as a part of Health care system in India	Dr. Arun HS	<ul style="list-style-type: none"> • To improve the health status of population • To improve the experience of care • To reduce the economic burden of illness • To improve social justice equity
14	Making most of the lectures	Dr. Ashwini N S	<ul style="list-style-type: none"> • Preparation of prolecture

			<ul style="list-style-type: none"> • Write relevant points • System to be followed
15	Awareness of substance abuse on the professional and personal growth	Dr. Shashidhar K N Dr. Ajay Kumar T S	<ul style="list-style-type: none"> • Drugs • Drugs Of Abuse • Drugs Commonly Abused By Students • Drug Dependence • Physiological, Behavioral And Cognitive Phenomena
16	Gender sensitization	Dr. Shashirekha	<ul style="list-style-type: none"> • Explain the meaning of gender • Develop gender literacy among students • Understand gender relations and gender issues in classroom • Develop positive attitude towards gender.
17	Awareness Talk on mental and emotional health	Dr. Mohan Reddy	<ul style="list-style-type: none"> • What is Mental & emotional health? • Why do you think it is important to have good mental and emotional health? • Characteristics of Good Mental/emotional health
18	Anti-ragging measures	Dr. Swaroop Raj	<ul style="list-style-type: none"> • Anti-ragging policy in accordance to NMC/UGC
19	Research ethics for undergraduate students-Dos & don'ts	Dr. Shashidhar K N	<ul style="list-style-type: none"> • What is research • Why do we conduct research • Components of conducting research • Sensitivity on ethical conduct of research
20	Identifying Challenges and stressors of the first year Student on the campus	Dr. Ruth Sneha	<ul style="list-style-type: none"> • Challenges faced in first year of your college • How to overcome these challenges • What is stress • Impact of medical education on stress and adjustment strategies
21	Hostel related information	Dr. Madhavi Reddy Dr. Swaroop Raj Dr. Sagar V	<ul style="list-style-type: none"> • Policies of the hostel • Do and Don'ts and general discipline to be followed in hostels
22	Indian Medical graduate: Roles and responsibilities	Dr. Harendra Kumar L	<ul style="list-style-type: none"> • Definition of Indian Medical graduate • Roles and responsibilities of IMG to the society.
23	Immunization requirements of health care professionals	Dr. Beere Gowda	<ul style="list-style-type: none"> • Immunization program • prevent premature death and disability • Improve ability of children to

			<ul style="list-style-type: none"> learn, reduce health sector costs for hospital care
24	Disability Competencies Under The Five Roles Of The Indian Medical Graduate (IMG)	Dr B T PrasannaKamath	<ul style="list-style-type: none"> Definition Types of disability Competencies The Five Roles Of The Indian Medical Graduate (IMG)
25	Facilities: Library related information	Dr. Prakasha	<ul style="list-style-type: none"> Importance of Library Library as an information bank How to issue books and policies guiding the same
26	Use of online resources Digital Literacy	Dr.Prabhu E Dr. Harish R Mr.S Lokeshwar.	<ul style="list-style-type: none"> Application of digital technologies by medical professional(CV preparation) Use of digital technology for communication in academics and community services (PPT preparation) Role of Information Communication Technology (ICT) in medical education
27	Professional qualities and roles of a physician	Dr.Raveesha A	<ul style="list-style-type: none"> Qualities of a physician Professional conduct of the physician
28	Principles of primary care	Dr.B T Prasanna Kamath	<ul style="list-style-type: none"> Describe primary care Components of primary care
29	Mentorship program	Dr. Sridevi N. S	<ul style="list-style-type: none"> Mentorship policy in our academy Roles of mentor in their endeavor
30	An exploratory session with the students to find out why they chose to become Doctors	Dr. Vinutha Shankar M S	<ul style="list-style-type: none"> Discussion on why they chose this profession Sensitization about role of the doctor in a society
31	Roles at various levels of health care delivery system	Dr. Muninarayana C	<ul style="list-style-type: none"> Health care, The Provision of different types of health care. Responsibility to provide health care and the aims and objectives of health care.
32	Group Dynamics	Dr. Muninarayana C	<ul style="list-style-type: none"> Definition of a group, types of groups Reasons for joining a group and How to work effectively in a group
33	Social coping skills &counselling-call for help	Mr. GururajRao	<ul style="list-style-type: none"> The development of coping skills The current competition and social scenario & development of coordination skills and working

			as a team member.
34	Career pathways and personal growth	Mr. GururajRao	<ul style="list-style-type: none"> • Progression in career in a Medical Institute • The passion to be a doctor, problems faced in performance, the need to be more adjusting, make sacrifices with respect and regard for all especially parents.
35	Time management	Dr. Bhuvana	<ul style="list-style-type: none"> • What is time management • Describe the need for time management • Various strategies to effectively utilize time.
36	Stress management	Dr.Mohan Reddy	<ul style="list-style-type: none"> • Types of stress • Stress management • Advantages &disadvantages

T-L ACTIVITIES ADOPTED FOR DELIVERY OF THIS MODULE:

1. DIDACTIC LECTURES
2. CASE BASED DISCUSSION
3. PANEL DISCUSSION
4. E-RESOURCES
5. PROBLEM BASED LEARNING
6. ROLE PLAY

SKILLS MODULE

Competencies addressed

Perform Basic Life support in Skills lab

Perform First Aid in a simulated environment

Follow bio-safety and universal precautions

Demonstrate handling and safe disposal of Biohazardous materials in a simulated environment

Demonstrate proper hand washing and use of personal protective equipment

Demonstrate appropriate response to needle stick injuries

Demonstrate Biomedical Waste segregation (BMW), observe and explain the process of management of BMW in accordance with National Regulations

Discuss the Immunization requirements of Health care professionals

Demonstrate awareness of significance of documentation in patient care and the proper method of documentation

Sl.no	Session on	Delivered by	Objectives
1.	Simulation based learning - skill lab visit	Dr. KNV Prasad Dr. Rajesh	<ul style="list-style-type: none"> • Purpose of the skill lab in medical college • Various models that are available at our skill lab • Orientation towards use of the skill lab in their training
2.	Introduction to BLS /CPR and Hands on training	Dr. Ravi M Dr. Vishnu vardhan	<ul style="list-style-type: none"> • Describe the principles of Emergency Care. • Identify the three kinds of life support, four links of survival for adult and pediatric patients.
3.	BLS /CPR demonstration and Hands on training	Dr. Dinesh & team	<ul style="list-style-type: none"> • Demonstrate how to provide rescue breathing alone for an adult, child & infant who show signs of circulation but have inadequate or not breathing. • Demonstrate how to provide cardiopulmonary resuscitation to an adult, child & infant. • Discuss the indications, proper use and maintenance of automated external defibrillator (AED); • Demonstrate how to provide abdominal thrust to conscious adult; chest thrust and backslaps to conscious infant; and chest thrust to unconscious adult, child and infant with obstructed airway.
4.	Needle stick injury	Dr.Arvind Natarajan	<ul style="list-style-type: none"> • To introduce needle stick injury. • To enlist the workers who are on risk for needle stick injury • To enlist areas of sharps injuries. • To enlist devices of needle stick injury • To describe when do sharp injuries occur • To explain Factors that Influence Risk for Acquiring viral infection • To demonstrate how to reduce needle stick injury

5.	Lab safety -chemical safety & Handling	Dr. Prabhavathi K	<ul style="list-style-type: none"> Understand the importance of Material Safety and data Sheets. Interpret the chemical labels Enumerate the Physical Hazards Enumerate the Health Hazards Understand and implement methods of self-Protection while dealing with chemicals
6.	Blood spill management	Dr. Hemalatha A	<ul style="list-style-type: none"> Understand the Best Practice in management of blood and body fluid spillages
7.	Hand wash technique	Dr. Anitha D	<ul style="list-style-type: none"> Identify proper hand hygiene practices Demonstration of Hand wash technique
8.	Lab Safety measures: Group activity	Dr. Susanna T Y Dr. Shilpa M D Dr. Bindu Madhavi	<ul style="list-style-type: none"> Understand various safety measures to be followed in diagnostic laboratory
9.	Biomedical Management: Guidelines	Dr. Bharathi	<ul style="list-style-type: none"> Introduction to waste and types Solid waste Types of solid waste Effects of solid waste Waste management concept Concept of 3R solid waste management storage collection waste handling and transport method of disposal
10.	Sample Collection & handling	Dr. Mamatha Kunder	<ul style="list-style-type: none"> Steps in successful sample collection Equipments required Importance of good sample collection
11.	Confidentiality relating to lab records/ documentation /and the laws	Dr. Subashish Das	<ul style="list-style-type: none"> What are medical records Proper documentation procedures of medical records legal implications of these medical records Confidentiality requirements of the medical records.
12.	First Aid -Aims, skills	Dr. Murali Mohan	<ul style="list-style-type: none"> Able to provide appropriate treatment for the purpose of preserving life
13.	Condition requiring first AID	Dr. Rajesh	

14.	First Aid Symbols		<ul style="list-style-type: none"> • Able to minimize the consequences of injury until the arrival of medical assistance • Able to provide appropriate treatment for an injury which does not require the attention of a medical practitioner or nurse • Familiar with health & safety legislation on first aid in the workplace (e.g. Contents of First Aid Box)
15.	First aid kit		
16.	Safe guarding skills –police safety /fire safety /self defence	Dr. Manjula	Hospital policies, standards, emergency codes, colour codes, safety measures & patient safety

T-L ACTIVITIES ADOPTED FOR DELIVERY OF THIS MODULE:

1. DIDACTIC LECTURES
2. CASE BASED DISCUSSION
3. PANEL DISCUSSION
4. E-RESOURCES
5. PROBLEM BASED LEARNING

Professional Development including Ethics

Demonstrate understanding of the concept of Professionalism and ethics among health care professionals and discuss the consequences of unprofessional and unethical behaviour

Demonstrate understanding that compassion, altruism, integrity, duty, responsibility and trust are the core values that defines the nature of the physician's work

Discuss the value, honesty and respect during interaction with peers, seniors, faculty, other health care workers and patients

Discuss the significance of working in a health care team

Discuss disability competencies

Demonstrate understanding and respect of cultural diversities and interact with those with different cultural values

Discuss the significance and methods of stress management and risk taking behaviour.

Understand the role of Yoga and meditation in personal health

Discuss the significance and appropriate ways of Time management

Demonstrate understanding of importance of interpersonal relationship while working in a health care team

Understand the role of mentoring

Demonstrates understanding of the process of group learning and group dynamics

Comprehend the learning pedagogy and its role in learning skills

Demonstrates understanding of different methods of self-directed learning

Understand collaborative learning

SL.NO	Session on	Delivered by	Objectives
1.	Professional qualities and roles of a physician	Dr.Raveesha A	<ul style="list-style-type: none">• What are the roles and responsibilities of a physician?• What are the qualities of a good physician?
2.	Qualities of Good Professional	Dr. K N V Prasad	<ul style="list-style-type: none">• Professionalism as a student doctor• Basic professionalism, the qualities of good professionals, value of competency, honesty and integrity .
3.	An exploratory session with the students to find out why they chose to become Doctors	Dr.Vinutha Shankar MS	<ul style="list-style-type: none">• Sensitize the students on the roles of the doctor and the qualities required to fulfil the same
4.	Session with students their plans for the next 5 years in order to fulfil their professional and personal roles as doctors	Dr.Jagadamba A	Various career pathway & opportunities for personal growth
5.	History of Medicine	Dr.Prabhakar K	<ul style="list-style-type: none">• Cultural Heritage in Medicine• Medical Specialists in History• History of Medical Educations• History of Attitudes Towards Medicine• Historical Medical Treatments• Significant Contributions To

6.	Bioethics and medical ethics	Dr.Prakash Dave	<ul style="list-style-type: none"> • Explain what Bioethics and Medical Ethics is • Understand about the essential of Hippocrates oath • Explain the role of bioethics in medical profession • Explain the value of good-bad, wright-wrong in community • Identify bioethical problems in medical practice and give the alternative to solve the problems
7.	Theories of Medical Bioethics	Dr.AshwiniK.Shetty	<ul style="list-style-type: none"> • To define the Medical Ethics To understand the theories of Ethics • To apply the ethical principle • To know how to deal with ethical dilemma • To understand the concept of informed consent
8.	Pandemic module Physiology	Dr.Shobha M V	<ul style="list-style-type: none"> • 1.Definition of pandemic • 2.Differentiate pandemic from an epidemic • 3.Briefly know about the pandemics that have occurred in the past • 4.List the reasons for occurrence of these pandemics in the past .
9.	Pandemic module Anatomy	Dr.Ashwini N S	<ul style="list-style-type: none"> • 1.Preparedness for impending pandemics • Role of the Indian Council of Medical Research (ICMR) • Key strategies (by the State/Central Government, Non Government • Organization and society at large) that were adopted in prevention and control of these pandemics. • 4. Role which will be played by National and International bodies like WHO and ICMR, if these events take place

			<ul style="list-style-type: none"> • Organization and society at large) that were adopted in prevention and control of these pandemics. • 4. Role which will be played by National and International bodies like WHO and ICMR, if these events take place
10.	Case discussion on the principles of bioethics: Small group activity	Dr.Srinivas S.V	<ul style="list-style-type: none"> • Sensitisation on the principles of medical ethics like autonomy, beneficence, non-maleficence and justice
11.	Principles of Medical law and Ethics	Dr.Srinivas Reddy	<ul style="list-style-type: none"> • What is medical law and ethics? • Describe the similarities and differences between laws and ethics. • Why Study Law, Ethics, and Bioethics?
12.	Importance of biologic tissues and cadavers in their learning	Dr.Divya	<ul style="list-style-type: none"> • Why are human cadavers important? • Moral and Ethical values of cadaver t for dissection
13.	Ethics of handling tissues and patient samples	Dr.Kalyani R	<ul style="list-style-type: none"> • The ethical use of human biological samples • Different types of human biological material used in research
14.	Medical law & ethics, organ transplantation Cadaver Donors	Dr.Rajkumar M G	<ul style="list-style-type: none"> • Sensitize the students for use of the cadavers with respect and dignity • Sensitization Moral and Ethical values of cadaver for procurement of the cadavers
15.	Principles of communication Importance and techniques of effective communication	Dr.T.N.Suresh	<ul style="list-style-type: none"> • Communication - Definition and concept • Theories of

			<p>communication –</p> <ul style="list-style-type: none"> • Communication cycle. • Barriers to communication - causes of barriers to communication and ways of overcoming them.
16.	Small group or large group discussion with reflective presentations by students on respect for donor families, cadavers and tissues	Dr. T.N Suresh	<ul style="list-style-type: none"> • 1. Definition of donor • 2. Importance of Donor in life of sick people • 3. The value of tissue, blood and cadaver to the medical profession
17.	Communication Skills	Dr. Sudha Reddy	<ul style="list-style-type: none"> • Why is it important for doctors to communicate effectively with the patient? • How do you communicate with medical errors? • What are effective communication skills in healthcare?
18.	Patients as teachers	Dr. Azeem Mohiyuddin	<ul style="list-style-type: none"> • Role of the patients in teaching learning • How empathy plays a role in the doctor patient relationship.
19.	Doctor patient relationship	Dr. Sheela S R	<ul style="list-style-type: none"> • What are the types of doctor patient relationship? • What is the importance of doctor patient relationship? • How do you establish a good doctor patient relationship?
20.	Role of Indian tradition in patient care	Dr. Prabhakar K	<ul style="list-style-type: none"> • What is culture? • Why culture matters? • Cultural views of health, illness and healers • Culture bound syndromes PEN -3 Model

			<ul style="list-style-type: none"> • Cultural competence • Examples of various cultural practices
21.	Case discussion - Trust in the doctor-patient relationship. Rights of a patient, Duties of a doctor	Dr. Azeem Mohiyuddin	<ul style="list-style-type: none"> • Sensitisation of the students regarding doctor patient relationship, duties of doctor and patients
22.	Language Teaching: English	Dr. Deena Mendez	<ul style="list-style-type: none"> • Importance of writing good English • Features and effective writing in English • Improving on writing skills • Basis of English grammar
23.	Language Teaching: Kannada	Dr. Usha Shenoy Dr. Mamatha Kunder Dr. Vinay Kulkarni	<ul style="list-style-type: none"> • Introduction to the language • Importance of Language in communication with the patient • Confidence of patients • Translated English to kannada • Practice kannada in day to day life • Kannada grammar & numbers with activity

T-L ACTIVITIES ADOPTED FOR DELIVERY OF THIS MODULE:

1. DIDACTIC LECTURES
2. CASE BASED DISCUSSION
3. PANEL DISCUSSION
4. E-RESOURCES
5. PROBLEM BASED LEARNING

Community Orientation and field visits(08 hours)

Demonstrate understanding of the National Health Goals and Policies
Discuss the national health scenario, demographic, socio-cultural and epidemiological issues

Demonstrate understanding of the health care systems in India with reference to primary, secondary and tertiary level care

Discuss the basic principles of community health and S SH its impact on health and disease

Demonstrate understanding of the structure and functioning of the community health center

Demonstrate ability to obtain patient experiences through patient and family interactions and relate these experiences to impact of environment and diseases.

SL.NO	Session on	Delivered by	Objectives
1	Health care system in India	Dr. Muninarayana C	<ul style="list-style-type: none">• To improve the health status of population• To improve the experience of care• To reduce the economic burden of illness• To improve social justice equity
2	Role of family in patient care	Dr.Prabhakar K	<ul style="list-style-type: none">• What is Health• What is Disease• What is Family Life Cycle• Family cycle and Stress• What are the Roles of Family in Health And Disease
3	Field visit	Dr. Prasanna Kamath & Team	<ul style="list-style-type: none">• Demonstrate understanding of the structure and functioning of the community health center• Demonstrate ability to obtain patient experiences through patient and family interactions

- Daily Rapporteurs report is enclosed in **Annexure II**

- Feedback on all the sessions were taken by google forms: **Annexure III**

- **White Coat ceremony was conducted on 19-04-2022 for 4 hours**

All the classes were conducted on Onsite mode from 14-02-2022 to 30-03-2022.

Foundation course: A total of 164 hours were conducted

- Classes conducted from 14-2-2022 to 18-2-2022 is for 6 hours per day
(5 daysX 6 hours = 30 hours)
- Classes conducted from 21-2-2022 to 25-2-2022 and 28-2-2022 is for 4 hours per day
(6 daysX 4 hours = 24 hours)
- Field visit on 26-2-2022 for 08 hours (1 day X 8 hours = 08 hours)
- Classes conducted from 02-3-2022 to 30-3-2022 is for 2 hours per day[4:30PM to 6:30PM]
Except on 1st, 6th, 13th, 19th, 20th & 27th of March 2022 (i.e., 24 days X 2 hours = 48 hours)
- Computer & IT Skills were conducted on 19.2.2022 , 13.3.2022 and 19.3.2022 is for 6 hours per day (3 days X 6 hours = 18 hours)
- Sports & Cultural activities were conducted on 20.2.2022 , 27.2.2022, 1.3.2022, 6.3.2022, 20.3.2022 and 27.3.2022 is for 6 hours per day(6 days X 6 hours = 36 hours)
