# Sri Devaraj Urs Academy of Higher Education & Research

( DEEMED TO BE UNIVERSITY ) KOLAR, KARNATAKA

## DIARY2022

## Genesis of the Academy

In 1984 a group of dedicated and like-minded visionaries headed by Shri.R.L.Jalappa, Champion of Co-operative movement in the state of Karnataka established Sri Devaraj Urs Educational Trust for Backward Classes to focus on Medical Education and Social Service. Sri Devaraj Urs Academy of Higher Education and Research, Tamaka, Kolar is a Deemed to be University declared Under section 3 of UGC Act. Through the colleges/Hospitals and other institutions set up by it, the trust has sought to make significant contribution to Medical Education, Research and Health Care to Rural population.

The establishments of the Academy and the constituent institution are co-located at Tamaka village, Kolar and spread over more than 72.73 acres of lush green campus with several buildings to accommodate the medical college, administrative offices, teaching/training facilities, hospital and hostels with a total built up area of over 1.24 lakh sq. metres. Currently, the Academy has two faculties of studies viz; Faculty of Medicine and Faculty of Allied Health Sciences.

## VISION

The drive towards excellence by providing knowledge for posterity is the central over-riding theme of the Academy, which is derived from the vision statement –

**“ACADEMY OF EXCELLENCE - KNOWLEDGE FOR POSTERITY”**

The Academy intends to realize this vision of providing knowledge for posterity by providing education that is driven by Quality and Excellence.

## MISSION

The Mission is “to be a global centre of excellence for Teaching, Training and Research in the field of Higher education” by “inculcating scientific temper, research attitude and social accountability amongst faculty and students” as well as “to promote value-based education for the overall personality development and leadership qualities to serve the humanity”.

Crusader of Backward Community  
Champion of Co-operative Socialism

# SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH

(A Deemed to be University Declared Under Section 3 of UGC Act, 1956)

Kolar – 563 103, Karnataka, India

## CALENDAR OF EVENTS – 2022

At a glance this logo is an abstract, yet it contains the vital ingredients for an institution like Sri Devaraj Urs Academy of Higher Education and Research, Tamaka, Kolar.

The Institution's medical background, Humanitarian values, Compassion, Approachability, Social Commitment and the subsequent research towards the most precious thing, the human life, is the core theme.

The graphic form of a person in the centre of a bud represents the humanity. It denotes the growing process of life and its existence. And the two hands safeguarding them show the care and a sense of security. It is also capable of holding something within the vast expanse of knowledge by the University for the people's Benefit. Hence, the motto "Knowledge for Posterity" is very appropriate and gives a punch in Red. The four light half blue circles (smaller to bigger) depict the unending quest for knowledge and imparting it to a wider horizon, growing higher and higher.

Sri Devaraj Urs Medical College(SDUMC), a unit of Sri Devaraj Urs Academy of Higher Education and Research, Kolar was started in the year 1986 by group of philanthropists and educationists. The Medical college has started its postgraduate courses from the year 1996 and at present has postgraduate programme in 19 departments.

Sri Devaraj Urs Medical College affiliated to Sri Devaraj Urs Academy of Higher Education and Research in the year 2007 has started Ph.D. programme in 8 departments and Fellowship programme in Head and Neck Oncology.

SDUMC has central formative assessment and evaluation system. Invigilation of formative assessment is also centralized at the college level. This has proved the transparency in the examination and evaluation system of our institution. College has implemented 100% Objective structured practical examination and Objective structured clinical examination in both formative and summative assessments.

SDUMC is attached with the teaching hospital, R.L.Jalappa Hospital and Research Center. It is equipped with 1204 inpatient beds catering to the health care needs of Kolar District, Chikkaballapur district and adjacent states of Tamilnadu and Andhra Pradesh.

## The Institutional values are:

- On par with The Academy Vision and Mission statement and most of the short term goals have been achieved.
- 24 x 7 security to students and faculty and an extra care towards female employees.
- Has in-house student counsellor to take care of students psychological needs.
- To promote unity in diversity college conducts major festivals of all states and culture.
- In addition to regular teaching, learning and evaluation, the students are encouraged in cultural, sports and societal activities.
- Mentorship programme.

Institution has governance, leadership and management at student, faculty as well as non-teaching staff. The students are included in the various committees and are given autonomous to carry out the activities related to sports, cultural, magazine, academic society, student welfare etc. However, the students are monitored and guided by the well experienced faculty.

University Centre for Health Professions Education (UCHPE) was established in April 2020 with a mandate from the Academy to function as a Teaching Learning Centre and conduct Faculty training programs. The Centre aims at providing E Courses in Basic Educational technology topics for faculty & residents & certificate courses in Health Professions Education.

## Vision

To promote quality health care delivery through excellence in health professions education by being a hub for faculty mentoring for capacity building and academic resource center.

## Thrust areas:

Technology in MPE Performance Based Assessments

## Achievements :

- Foundation for Advancement of International Medical Education and Research Faculty (FAIMER) 7
- Advanced Course in Medical Education (ACME) has 11 faculty
- National Teacher Training Centre (NTTC) trained faculty 19
- 80 % of the faculty are trained in Revised Basic Medical Education Technology
- Integrated Foundations of Medical Education (IFME) trained faculty 6
- Twenty One are elected MNAMS

## Activity :

- Triseries Leadership Workshop
- Foundation courses
- Faculty Induction Programme
- Medical Education training
- OSCE and OSPE Training modules
- Outcome based education Training
- Competency based medical education training

A Clinician/Health care provider is defined by skill sets he/she possess. The emphasis on skill acquisition is the one of the fundamental requirement in providing competency based medical education to health sciences students, in fact it is the soul of competency based curriculum around the world. Clinical skills and simulation training is an essential link between medical student training and clinical experience and has proven to be an effective tool for assessing technical skills, critical thinking and team behavior and is termed as Simulation Based Education (SBE). The SDUAHER Centre for Clinical Skills Simulation has been established to provide SBE to learners in obtaining technical skills and also non-technical skills such as leadership, team-work, communication, situational awareness, decision making and awareness of personal limitations.

## VISION

To achieve excellence in imparting simulation based education and in conducting simulation based educational research in training and assessment of healthcare professionals.

## Cell Biology and Molecular Genetic (CBMG)

The vision of this center was to elucidate the genomic landscape of the rural population in the Kolar area. This center then evolved into the Central Research Laboratory of the Academy so as to serve as a hub for interdisciplinary research between the Departments of the Academy. The Centre was elevated as a full-fledged statutory Department in the year 2013 for promoting academic programs in the subjects of genomics and molecular biology. We are mainly involved in three major activities viz., research, teaching and clinical services. We are equipped with state of the art laboratory facilities for research in the area of Genomics, Molecular Biology, Cell Biology, Cytogenetics and Phytochemistry. The department is housed in a dedicated centrally air-conditioned area of 8000 square feet. We offer two degree programmes viz., M.Sc. degree in Molecular Biology and Human Genetics and Ph.D. degree in Cell Biology and Human Genetics.

### Thrust areas

- Human Genetics and Disease Biology
- Phytochemistry
- Radiation Genetics

### Achievements :

- Sixteen publications for the last three years with more than 1 impact factor
- Collaborative interdisciplinary National web conference on “Impact of Environmental Factors for Plant and Human Genetics: Mitigation Strategies”. College of Horticulture, Kolar and Sri Devaraj Urs Academy of Higher Education and Research, Kolar.
- National Training Programme in Genetics, sponsored by Human Resources Department scheme for building capacity for research in medical institutions in India, Dept. of Health Research, Govt. of India

# University Library learning Resource Center (ULLRC)

The University Library & Learning Resource Center (ULLRC) has been established to support the academic progress and standards of its students. It is known across the campus for its hi-tech, environmentally compatible design, coupled with the convenience of a one-stop academic support service center.

The ULLRC, a 3642 square meter facility, consists of two floors with a beautiful lounge connected by stairway and elevator. The Library constitutes collection of print resources of books, journals, back volumes and dissertations. The Digital Library offers desktop computers with internet access, data and power connections. This digital library is available for word processing, instructional software use and Internet research. Adjacent to this, well equipped classrooms and seminar hall are provided for conducting journal club activity, library orientation and library extension programs.

Our fully equipped modern library is staffed with friendly personal and knowledgeable librarians who are always ready to help the users.

## Sri Devaraj Ur Medical College

The Fluorosis Research and Referral Laboratory (FRRL) provide location specific and meaningful strategies to mitigate the fluorosis and it's linked disorders.

### VISION

To involve in diverse aspects of fluoride research in health and disease in Humans and animal models, to extend its services to Horticulture, Agriculture, Animal Husbandry and community at large.

### MISSION

This laboratory was established for the purpose of estimating the fluoride levels in biological fluids as Kolar District is endemic for fluorosis.

To make this Laboratory a Referral Lab for fluorosis

To create a center of excellence with respect to impact of fluoride in health and disease.

### OBJECTIVE:

To estimate the fluoride content in biological fluids as a means of fulfilling a social obligation towards a public health problem.

This would fulfill both societal as well as meet community health services. It can be used for patient care as well as research purposes

MoU titled "Fluoride related research and IPR related activities" pertaining to Fluorosis research was signed between Sri Devaraj Urs Academy of Higher Education and Research, Kolar and Acharya Institutes, Bangalore on 12-07-2017.

Guest lecture titled "Fluorosis" by Dr. Bapuji M and Dr. Krishna Rao on 12 - 04- 2017

State level CME titled " Minerals in health and disease with special emphasis on Fluoride" on 12-05-2017

National webinar titled "Fluorosis and its Global Perspective" was conducted on 06-03-2021 to create awareness on fluorosis and disseminate the information.

New knowledge generated: Academic researchers and advanced practitioners deliberated on fluoride containing dental products like fluoride gel, fluoride varnish, mouth rinses and fluoride containing tooth pastes also contain high amount of fluoride but adolescents and professional's knowledge on this product and their fluoride concentration is very low. defluoridation agents. Seeds of the drumstick, tamarind seeds, tea ash, and egg shell powder are few among them. This new knowledge generated can help in establishing effective ways to mitigate fluorosis.
