Guest Lecture**

***“Reinventing Human Values-
Need of the Hour”***

on 24th APRIL 2023

Venue: PG Auditorium,

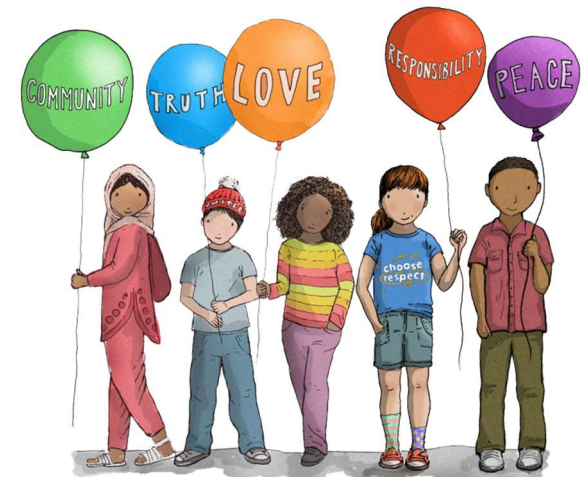

Organized by NAAC Criterion 7

Dear Sir/Madam,

Human values are the features that guide people to take into account the human element when one interacts with another human. They are strong positive feelings for the human essence of the other. These have the effect of bonding, comforting, reassuring and procuring serenity. Human values are the basis for any practical life within society. They build space for a drive, a movement towards one another, which leads to peace. Values are the guiding principles of life that contribute to the all-around development of an individual. Values add quality to life. Growing global poverty, pollution, hunger, disease, unemployment, unsociability, caste system, child labour, gender inequality, ill-treatment of women, violence, disability, exploitation of natural resources and many such evils have caused value- crisis on the globe,

Adversely affecting the core human values such as honesty, sincerity, morality and humanity and, as such, there is a great transition in human society. To overcome the problems of the present era, inculcation of values among individuals and promotion of values in the educational system, as well as society, is highly essential.
