Sl.no	<b>Event Report</b>
1	<b>Level of Event</b> – Guest Lecture “Inflammatory Bowel Disease”
2	<p><b>Background/Introduction-</b>          IBD is predominantly seen in western population, but recently there has been an epidemiological shift to East with increase in incidence in countries like India other Asian countries.          IBD or inflammatory bowel disease is a group of condition characterized by recurrent inflammation of the intestine. In countries like India where infectious condition are much more prevalent, diagnostic dilemma arises in differentiating from other infectious diseases.</p>
