	Certificates were given to speakers E-Certificates issued through Email after successful completion of the course
10	Valedictory Ceremony
	Conducted by Dr. Md Kamran Chisty, Assistant professor, Psychiatry.
11	Highlights of VAC

This course was designed to train all participants (undergraduates, postgraduates, nursing, AHS, PhD scholars including Faculties) of SDUAHER to learn skills to recognize the symptoms of psychiatric illness and ensure quality referral among departments for the benefit of patients. The course duration was 30 hours and the following are the key highlights.

1. Students learnt regarding screening & referral of an individual with symptoms suggestive of psychiatric illness.
2. Importance of need of quality psychiatric care & timely referral has been emphasized in different departments.
3. They were made aware of various behavioral and developmental problems in child and adolescent population and to identify the warning signs.

Overall, the course was aimed at providing students with knowledge and skills that they can apply in their academic and professional lives. The assignments engaged by the students during the course ensured that the objectives are met.
