Constituent college of  
Sri Devaraj Urs Academy of Higher Education and Research  
(A Deemed to be University)  
NH-75, Tamaka, Kolar-563103

*Warm greetings!*

Clinical Biochemistry tests play a crucial role in Uropathology, the branch of medicine focused on diseases of the urinary system. These tests involve the chemical analysis of urine and blood to detect abnormalities that indicate urological conditions.

They provide essential data for diagnosing, monitoring, and managing diseases such as urinary tract infections, kidney stones, and cancers of the urinary system.

By identifying biochemical markers, these tests enable early detection, guide treatment decisions, and monitor the efficacy of therapeutic interventions, ultimately contributing to improved patient outcomes and quality of care.
