Welcome

About the Academy

In the year 1984, a group of dedicated and like-minded visionaries headed by Sri R L Jalappa, a champion of the Cooperative movement in the state of Karnataka established the Sri Devaraj Urs Educational Trust for Backward Classes with the focus on provisioning of Medical Education and Social Services.

The Ministry of Human Resource Development, Government of India conferred 'Deemed to be University' status to the Sri Devaraj Urs Academy of Higher Education and Research under Section 3 of UGC Act 1956 on 25th May 2007 (vide letter No. F.9-36/2006-U 3(A) dated 25th May 2007). The lush green campus of the University is spread over an area of more than 72 acres of land and houses the medical college, hospital, administrative offices, University and affiliated departments, canteens, and hostels. Currently, the University has Faculty of Medicine, Faculty of Allied Health and Basic Sciences, College of Nursing, College of Physiotherapy and College of Pharmacy.

About Scientific Conclave

Interdisciplinary research is the cornerstone of innovation in the health sciences. It involves integrating thoughts, knowledge, methods, and perspectives from multiple disciplines to address complex health problems that cannot be effectively solved by any single field alone. In today's world, health challenges such as chronic diseases, pandemics, and other multifaceted conditions demand insights from diverse fields.

This National Scientific Conclave, organized by the Research and Development cell at SDUAHER, seeks to bring together experts from Basic Sciences, Allied Health Sciences, and Medical Sciences, as well as faculty, policymakers, and students, with the shared goal of revolutionizing health outcomes. Through collaborative efforts, this conclave aims to foster innovative approaches to health challenges, promote knowledge exchange, and develop comprehensive solutions.
