Dr. Savio Pereira
MBBS, DNB, MS, FPRS
Phaco and Refractive Surgeon
Nethradhama, Bangalore

Dr. Rashmi G
MBBS, MS
Professor,
Department of Ophthalmology
SDUMC, Kolar

Pediatric ophthalmic conditions, including refractive errors, congenital cataracts, and retinopathy of prematurity, can profoundly affect a child's vision, development, and quality of life. Globally, many children face delayed diagnosis and treatment due to limited access to specialized pediatric eye care, especially in underserved regions.

Early detection and timely management are vital to prevent lifelong visual impairment and to support optimal learning and development.

To address these challenges, we are organizing a CME to equip healthcare professionals and raise public awareness about the significance of vision screening, early referral, and the latest advancements in pediatric ophthalmology treatments and interventions.

Registration link:

2 KMC credit points will be awarded to all the participants registering before
29-08-2025
