

Dear Delegates,

On the occasion of World TB Day 2026, the Department of Respiratory Medicine/ NTEP unit in association with Department of General Medicine is celebrating World TB Day on 24th March 2026.

The theme of World TB Day 2026 - **‘Yes! We can end TB!’** - is a bold call to action and a message of hope, affirming that it is possible to get back on track and turn the tide on the TB epidemic, even in a challenging global environment. With decisive country leadership, increased domestic and international investment, rapid uptake of new WHO recommendations and innovations, accelerated action, and strong multisectoral collaboration, ending TB is not just aspirational - it is achievable.

**“Yes! We Can End TB. Led by INDIA.
Powered by NTEP”.**

Let us come together to actively take forward the mission and do our bit. Come join us in the CME on – **TUBERCULOSIS & ITS COMORBIDITIES**
