(A Deemed to be University)

**Sri Devaraj Urs Medical
College Tamaka, Kolar-563103**

We cordially invite you all to a

GUEST LECTURE

On

**PELVIC ORGAN PROLAPSE :
ANATOMY TO ADVANCES IN
MANAGEMENT**

DATE: 5TH MAY 2026

TIME: 9:00 AM – 4 :00 PM

Organized by
**Department of Obstetrics &
Gynaecology**

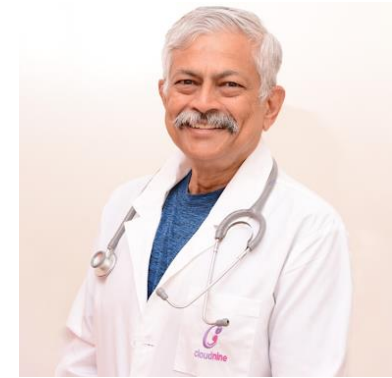

Pelvic organ prolapse is a common condition that significantly affects women's comfort, confidence and quality of life . It occurs due to weakening of pelvic floor muscles , uterosacral ligaments and cardinal ligaments .

Understanding pelvic anatomy forms the foundation for accurate diagnosis and appropriate treatment planning .Management ranges from conservative methods like pelvic floor excercises and pessary use to surgical interventions.

Recent advances include site specific repair , laproscopic sacrocolpopexy and minimally invasive techniques focusing on restoring anatomy while preserving function .Modern management emphasizes individualised care, improved surgical outcomes and better quality of life for women
