Total number of Responses from Google Form- 148

Year of the study- 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup> year and internship students

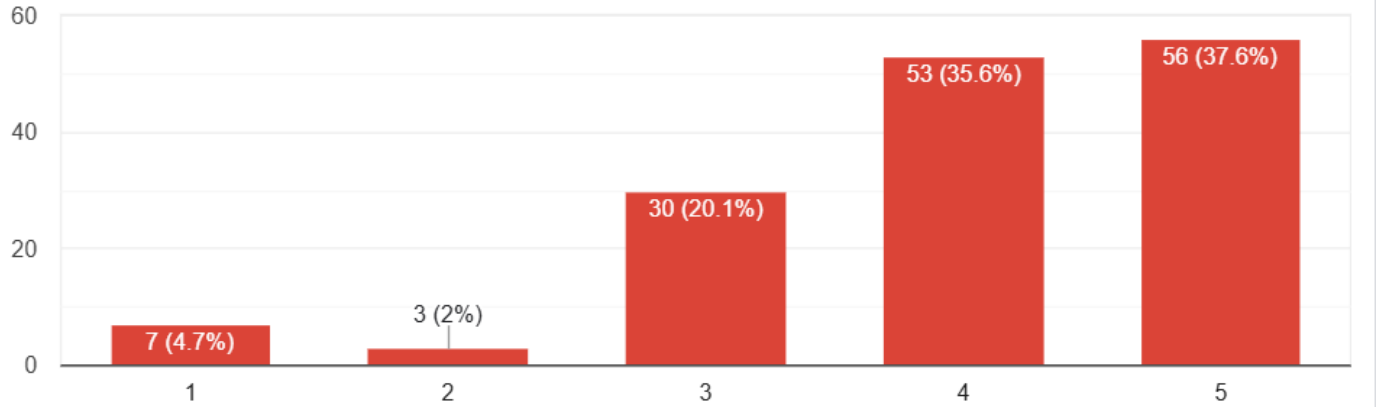

Course Name:

- Anatomy
- Physiology
- Exercise therapy
- Biomechanics
- Microbiology and pathology
- Biochemistry
- Pharmacology
- Electrotherapy
- Exercise physiology
- Clinical orthopaedics
- PT Orthopaedics
- PT sports
- PT Cardiorespiratory conditions
- PT womens health
- PT neurological conditions
- Community based rehabilitation
- Prosthetics orthotics
- Clinical neurology and neurosurgery

1. Acceptable percentage of the curricula and Syllabi are covered in the Discipline in which you were

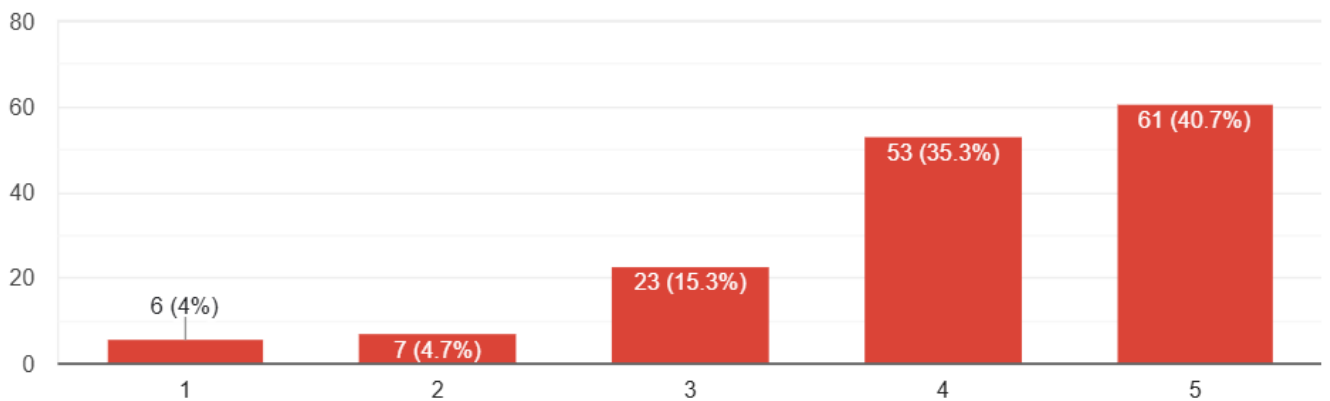

studying

Strongly Disagree- 1

Strongly Agree- 5

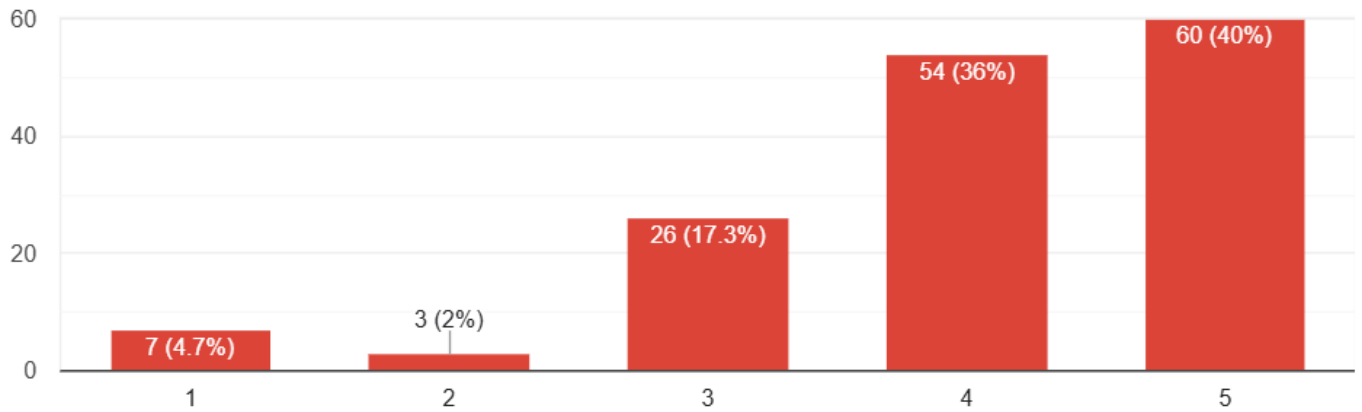

2. Sufficient to Cover Course Outcomes

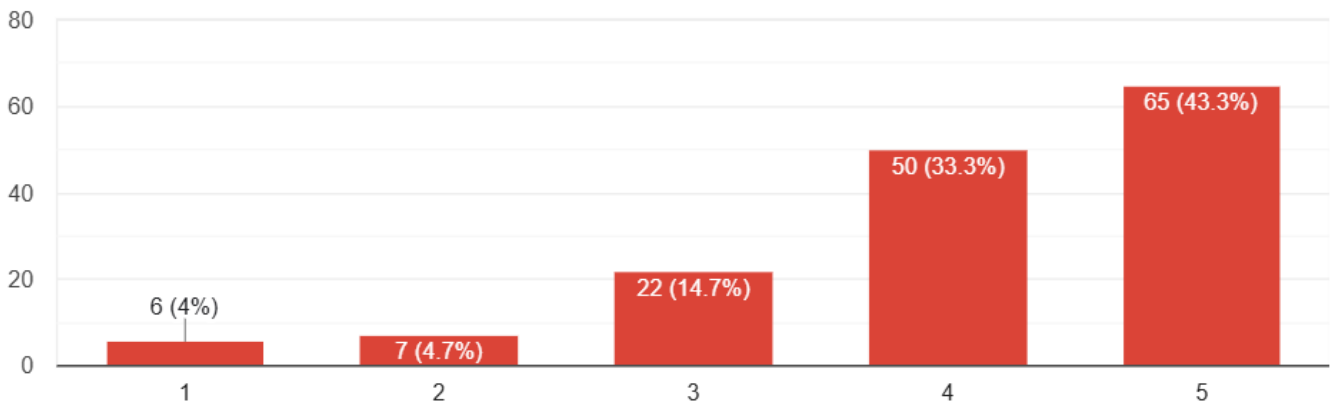

3. The curriculum has been updated from time to time

Strongly Disagree- 1

Strongly Agree- 5

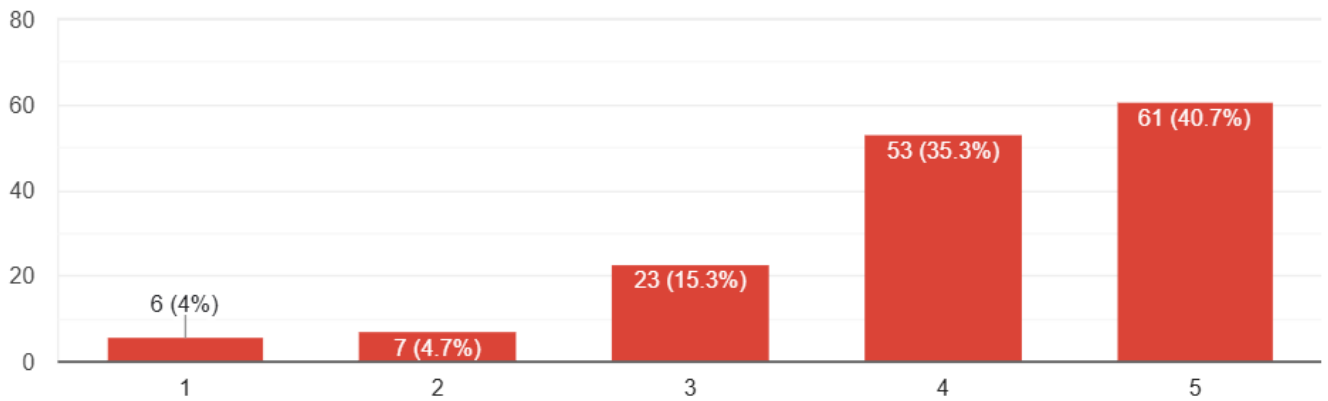

4. The curriculum provides balance between theory and practical application

Strongly Disagree- 1

Strongly Agree- 5

5. The curriculum encompasses areas of professional ethics and values, community service, preventive and rural health care

Strongly Disagree- 1

Strongly Agree- 5

### Suggestions from the Students

More practical based teaching is needed

More classes in practicals is needed

Everything is good noo suggestions

Required more practical hours

Classes was been conducted accordingly

Priority to practical sessions than theory

N

Our posting should be improved

Theory and particles classes should match with the syllabus

Everything is good but little things has to correct to become excellent in clinical set up

1.in ortho - exercises has to be implement other than modalities and mobilisation.same for neuro.in cardio icu teaching is needed nd managing has to teach for students ( little has taught but still on pts we need better)..

And guiding the students nd interns to implement evidence based tx to patients with support of teachers.

Thank you sir.

Curriculum

Information regarding clinical setup

None

Nil

Nothing

Clinical application and differential diagnosis of any particular condition should be taught in a better way. It's better to look a case out of physiotherapy perspective also(from blood sample, MRI, CT

Nothing

Practical knowledge

In this course finding a job is very difficult and also this course is mix of all subjects like microbiology, biochemistry, biotechnology. In job purpose put only molecular biology related subjects only
