Human metapneumovirus (HMPV) is a virus that usually causes symptoms similar to the common cold. It often causes upper respiratory infections, but it can sometimes cause lower respiratory infections like pneumonia, asthma flare-ups or make chronic obstructive pulmonary disease (COPD) worse. HMPV infections are more common in the winter and early spring.

Most people get HMPV before they turn 5. You can get HMPV again, but symptoms are usually mild after your first infection.

Name of the event: School Health Talk on HMPV virus

Date of the event: 27.01.2025

Name of the department: Department of Student welfare along with NRI Cell

Sl. No.	Event Report
1	Level of the event Institutional level
2	Background / Introduction <p>Department of student welfare along with NRI Cell had organized for school health talk on HMPV virus. This was held at Adarsha school, Mulbagal. 450 students from Middle school and High school took part in the health awareness session. The event was inaugurated by Mr.Krishnappa ,BEO , Mulbagal. This was followed by the talk by NRI student president Dr.Sree Gaeyathri (Intern). She spoke on HMPV virus, signs, symptoms and management of Human metapneumovirus (HMPV) infection. She spoke how this is different from other COVID 19 which was a Novel virus and how it caused a pandemic. She also briefed that HMPV virus has no Pandemic potential and its cannot be a public health concern. She also quoted that Human metapneumovirus (HMPV) is one of the many respiratory viruses that can cause infections in people of all ages particularly during the winter and early spring months. The virus infection is usually a mild and self-limiting condition and most cases recover on their own.</p> <p>This was followed by Dr.Mahima.B.N., MPH consultant spoke on prevention. She said how regular handwashing techniques can prevent spread of infection. She also spoke on cough etiquette. She said that infection can be easily prevented by simple measures such as washing hands often with soap and water; avoid touching their eyes, nose, or mouth with unwashed hands; avoid close contact with people who are exhibiting symptoms of the disease; cover mouth and nose when coughing and sneezing etc. To conclude she also spoke on how to improve immunity adding a note on regular exercise.</p> <p>Dr.Pradeep TS Director student welfare spoke on trends of the HMPV in India and how it will not cause any damage to public health system nor humans. He said When someone is sick, they can avoid making others sick by staying at home if they feel ill, covering nose and mouth with a tissue or bent elbow when coughing or sneezing, wearing a mask when around other people, improving ventilation, especially in shared spaces and regularly cleaning hands and disinfecting frequently touched surfaces. He concluded saying that there is currently no vaccine licensed for use against hMPV, but research is ongoing.</p>
3	Venue Adarsha school, Mulbagal

4	Sponsors SDUAHER
7	Participants & Delegates in Number 450 School students, 10 MBBS students and 02 staff participated in the event
8	Awards / Prices Nil
9	Valedictory The event was inaugurated by Mr.Krishnappa ,BEO , Mulbagal.

World Cancer Day is observed on February 4th every year to raise awareness about cancer and encourage its prevention. The day is led by the Union for International Cancer Control (UICC).

What is the goal of World Cancer Day?

- To reduce the global burden of cancer
- To encourage the prevention, detection, and treatment of cancer
- To reduce the stigma around cancer
- To support people affected by cancer

Name of the event: Cancer awareness program

Date of the event: 21.02.2025

Name of the department: Department of Student welfare along with NRI Cell

	<p>Department of student welfare along with NRI Cell had organized for 21 Feb 2025 AE & CS Ramapriya College of Education, Mulbagal, Kolar</p> <p>Reported to RHTC, Devrayasamudra at 9:20 am, prepared and presented our topics as a mock demo and received corrections.</p> <p>The topics were</p> <ul style="list-style-type: none">CA cervix- Introduction & how common it is. - Khalid ShakeelCA cervix- causes, Risk factors - Priya ChoudharyCA cervix- stages - Divya SrivastavaCA cervix-Screening, Paps smear - GogulCA cervix- vaccinations - Ghali Aditya.CA cervix- Coping with diagnosis Nachiketa Naresh Pandey <p>15mins conclusion talk by Dr Sandra (Intern)</p> <p>Google slide was made.</p> <p>At 2 : 00 PM on reaching the centre students begin the seminar by brief introduction about session by Dr. Mohan. Then later Khalif started with a brief introduction about the female reproductive organs and enquired them what they know about cancer later he made students aware about the incidence and prevalence of CA Cervix.</p> <p>After this Priya talked about the Risk factors and causative factors for CA Cervix, she educated the students about HPV and also simultaneously made them aware about how they can prevent these risk factors.</p> <p>Divya later explained to them the clinical importance of staging . In simple words she educated them about the various stages as per FIGO staging , this later helped the students to understand why, detecting CA Cervix early is very beneficial.</p> <p>Building upon the knowledge Gogul educated them about the screening test like Pap smear , Visual Inspection and further about HPV DNA .</p> <p>Now as the students knew about the risk factors,Aditya talked about the most important aspect of the awareness programme i.e the preventive measures. He emphasized the vaccination, it's types, schedule and educated them about the future plan of getting this vaccination free of cost via NIS.</p> <p>With the above information Naresh talked about how to cope with the diagnosis.</p> <p>Why is it necessary to seek only professional opinion in case women needs a second opinion</p> <p>Also sensitized them about the completely preventable nature of the disease if detected early. Building upon the points of previous speakers, sensitized them that this vaccine is for both male and females against their notion that it's only for females. Educated them about celebrating small wins and seeking support from close people.</p>

	<p>Later Dr. Sandra summarised and added upon points to fill the gaps and ensure that the topic is covered appropriately.</p> <p>Finally Dr. Mohan, concluded the session by sensitising the boys, why it is important for them to know about the CA Cervix.</p> <p>The Principal of the school also gave concluding remarks and added about the importance of doctors in our life.</p> <p>After a while, there was a sole interaction with the girls only to provide them enabling environment to come out and seek help or clear doubt which they might not have done in front of boys.</p> <p>They were sensitized about the menstrual hygiene and their doubts were taken individually and addressed.</p>

**We cordially invite you all to a
Training Program**

**“OLD AGE HOME HEALTH
CAMP”**

On

29-01-2025

**Venue: Ramana Maharshi Old Age
Home, KGF**

**Organized by
NRI Cell**

- People worldwide are living longer. Today most people can expect to live into their sixties and beyond.
- Every country in the world is experiencing growth in both the size and the proportion of older persons in the population.
- Common conditions in older age include hearing loss, cataracts and refractive errors, back and neck pain and osteoarthritis, chronic obstructive pulmonary disease, diabetes, depression and dementia.
- As people age, they are more likely to experience several conditions at the same time.
- Older age is also characterized by the emergence of several complex health states commonly called geriatric syndromes.
- They are often the consequence of multiple underlying factors and include frailty, urinary incontinence, falls, delirium and pressure ulcers.

Program Description

1. To conduct old age health camp at the old age home.
2. To educate regarding healthy aging among old age/elderly
3. To spend time with the elderly inmates, understand them, offer companionship and support

Centenary celebrations

PROGRAMME SCHEDULE

10:00 AM to 10:15 AM

Camp Registration

10:15AM to 10:30 AM

Inauguration of the program

10: 30 AM to 11:00 AM

Welcome Address by Old age home supervisor

11: 00 AM to 11:30 AM

Dr.Sree Gaeyatri ,

NRI Cell student president

Topic: *General Health Talk for old age home*

11:30 AM to 12:00 PM

Dr. Sahana, Assistant Professor,
Department of Psychiatry, SDUMC
SDUAHER, Kolar

Topic: *Mental health issues among old age*

12:00 PM onwards

Old age health camp
