

Sri Devaraj Urs Academy of Higher Education & Research
A DEEMED TO BE UNIVERSITY

Dept. of Clinical Nutrition and Dietetics (CND)

Declared under Section 3 of UGC Act, 1956, MHRD GOI No.F.9-36/2006-U.3(A) Dt. 25th May 2007

POST BOX NO.62, TAMAKA, KOLAR-563 101, KARNATAKA, INDIA

Ph: 08152-243003, 210604, 210605, Fax: 08152-243008, E-mail: : nutrition@sduaher.ac.in

CO-PO ATTAINMENT REPORT

2019-2024 BATCH

DEPARTMENT OF CLINICAL NUTRITION AND DIETETICS

CONTENT

S.No	Title	Pg.No
1.	Vision and Mission of the University	3
2.	Vision, Mission of the Department	4
3.	Program outcomes	5
4.	Course outcomes	7
5.	Attainment of course outcomes	14

VISION AND MISSION OF THE UNIVERSITY

Vision

- To be a hub of knowledge, innovation and scientific practice in the field of healthcare.

Mission

- To Attain academic distinction in the field of medical education.
- To calculate high moral, ethical & professional standards among the students of healthcare delivery.
- To provide the quality & affordable healthcare facilities & services to all the section of society.
- To provide conducive environment for ethical conduct of meaningful research to broaden the education of health science.

VISION AND MISSION OF THE DEPARTMENT OF CLINICAL NUTRITION AND DIETETICS

Vision

To be a pioneering and leading department in Nutrition and Dietetics, advancing holistic, evidence-based nutrition care through knowledge creation, innovation, and sustainable practices, we strive to enhance global health outcomes by empowering individuals with informed, sustainable dietary choices and by fostering a culture of wellness across healthcare, educational, food industries and community settings.

Mission

- To deliver comprehensive, patient-centred nutrition services across clinical, academic, and community settings, enhancing health outcomes through personalized nutrition therapy and public health initiatives.
- To provide high-quality education and training in nutritional sciences, preparing students and professionals with the knowledge, skills, and leadership required for success in healthcare, research, and industry.
- To advance cutting-edge research in nutrition, food processing, food technology, and public health, generating evidence-based solutions that address diverse nutritional needs and global health challenges.
- To foster community engagement, promote nutrition awareness, collaborate with industries, healthcare institutions, and policymakers, and uphold ethical and scientific integrity while encouraging lifelong learning and professional development.

PROGRAM OUTCOMES (POs)

PROGRAM OUTCOMES		
PO1	Knowledge base	An ability to demonstrate an understanding of • The role of food and nutrients in the prevention of disease and optimization of human health. • Implement the knowledge obtained, to the community through interaction with people (individuals, groups, families, work surroundings, communities, and societies), and their environments (e.g., technology)
PO2	Health care Practitioner / Consultant	• Plays central and critical role in improving access and quality health care for the population. • Provide essential services that promote health, prevent diseases and deliver health care services to individuals, families, and communities
PO3	Critical Thinking	• Essential process for safe efficient and skillful nutrition intervention. • Enhances the Ability of students to examine carefully and logically apply the information and ideas from multiple perspectives to use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
PO4	Analytical Skills	• Able to apply Analytical Skills- ability to collect and analyze information, problem solves and makes decisions. • Knowledge of health behavior, clinical Judgment skills when assessing and evaluating the nutritional status of individuals and communities and their response to nutrition intervention. • Analyze the impact of cultural and economic issues on client needs and dietetic practice. • Ability to use appropriate laboratory techniques in food chemistry, food processing and preservation, food product development and sensory evaluation.
PO5	Communication skills	• An ability and willingness to convey information effectively and respond to feedback using appropriate communication methods, Such methods could include written, verbal, nonverbal, and visual communication, and that the usage of specific methods is dependent upon the audience and context.
PO6	Personal and professional development	• An understanding of, developing attributes and abilities toward applying the professional and ethical behaviors that are required as professionals in their professional area or degree program
PO7	Collaborators / collective efficiency	• Health professionals understand and respect the roles of the other members of the health care team. • They will work effectively with them in order to achieve the best possible outcome for the patient, family and community.
PO8	Clinical Skills	• An ability to Plan and implement individualized, appropriate nutrition therapy for clients.
PO9	Lifelong Learning	• Acquire the skill to be an independent lifelong learner embracing real-time changes in the socio-technological context, promoting continuous development and improvement

		of the knowledge and skills needed for employment and personal fulfillment
PO10	Ethics and equity	• Apply professional ethics, accountability, and equity during functioning effectively as a Health care Practitioner. • Advocate for the provision of food and nutrition services in public policy development.
PO11	Economic Independence & Employability Potential	• Acquire the ability to be involved in economically sustainable employment opportunity and inculcate entrepreneurial abilities.
PO12	Diversity	• Knowledge, personal attributes, and skills needed for living, working, and leading in diverse global societies.

COURSE OUTCOME

I YEAR II SEMESTER	
S.No	Course Outcome

I YEAR I SEMESTER	
S.No	Course Outcome
HUMAN PHYYSIOLOGY (CND 111)	
1.	Earn the Physiological conditions related to Nutrition.
2.	Understand the recent advances in Applied Physiology.
3.	Describe various systems in human body
4.	Describe the physiology of human body and the structure
5.	Describe the physiology of various organs in human
6.	Describe the alterations in physiology and diseases caused in each system due to physiological alterations
NUTRITIONAL BIOCHEMISRY (CND 112)	
1.	Develop an understanding of the principles of biochemistry (as applicable to human nutrition)
2.	Obtain an insight into the chemistry of major nutrients and physiologically important compounds
3.	Understand the biological processes and systems as applicable to human nutrition and its clinical aspects.
4.	Apply the knowledge acquired to clinical nutrition and dietetics.
FUNCTIONAL HUMAN ANATOMY (CND 113)	
1.	Comprehend the normal disposition, inter-relationships, gross anatomy of the various structures in the body. Identify the structures of various tissues, and organs in the human body and correlate the structure with the functions as a prerequisite for understanding the altered state in various disease processes
2.	Describe various systems in human body
3.	Describe the organization of human body and the structure
4.	Describe the functions of various organs
5.	Describe the structures and position of various organs in the human body
FOOD FACTS AND PRINCIPLES – I (CND 114)	
1.	Composition and its properties
2.	Describe the structure and composition of various food groups
3.	Describe the nutritive value of different food groups
4.	Describe the changes that occur during food processing
ENGLISH FOR COMMUNICATION (CND 115)	
1.	Academic and professional purposes - Note taking, note making, bibliography, writing proposals, projects, reports, research articles
2.	Reading and comprehending textbooks, reference books and journals from other subject areas of Clinical Nutrition and Dietetics - Participation in discussion, seminars, meeting, making presentations, interacting with learners and teachers
3.	Social purposes - Becoming aware of the social conventions of conversations - Sensitivity to the emotive aspects of communication - Differentiating between formal and informal, one to one and one to many interactions

ENVIRONMENTAL SCIENCE (CND 121)	
1.	The physical environment and its components and the major issues
2.	The impact of human activities on environment
3.	The action needed for checking environmental threats
ASSESSMENT OF NUTRITIONAL STATUS (CND 122)	
1.	Orient the students with all the important state of the art methodologies applied in nutritional assessment and surveillance of human groups
2.	Develop scientific skills to apply the most widely used methods
HOSPITAL DIETETICS - I (CND 123)	
1.	Know the principles of diet therapy
2.	Understand the modifications of normal diet for therapeutic purpose
3.	Understand the role of a dietitian
4.	Know the normal routine diets served in hospitals and for whom these would be served
5.	To be able to plan diets for therapeutic purposes
APPLIED NUTRITION – I (CND 124)	
1.	Provide in-depth knowledge of the physiological and metabolic role of various nutrients and their interactions in human nutrition.
2.	Enable students to understand the basis of human nutritional requirements and recommendations through the life cycle.
3.	Enable students to understand the pharmacological actions of nutrients and their implications.
4.	Familiarize students with the recent advances in nutrition.
5.	Familiarize students with basic techniques used in Studies and Research in Nutritional Sciences
6.	Acquaint students with the methods of estimating nutrient requirements
7.	Orient students towards planning of metabolic studies
FOOD FACTS AND PRINCIPLES – II (CND 125)	
1.	Describe the various aspects of food composition and its properties
2.	Describe the structure and composition of various food groups
3.	Describe the nutritive value of different food groups
4.	Describe the changes that occur during food processing
5.	Describe the various aspects of food composition and its properties
6.	Describe the structure and composition of various food groups
7.	Describe the changes that occur during food processing
HOME BASED CATERING (CND 126)	
1.	Gain knowledge of the types of food service institutions in India and the factors which have led to their development
2.	Understand the special characteristics of food service establishments
3.	Know the types of resources required for managing food outlets
4.	Maximize resource use
5.	Learn manpower management techniques
6.	Understand human relations and behavior at work
7.	Know the types of costs and how to control them
8.	Maintain and analyze accounting information for decision making
9.	Think of starting a food service establishment

II YEAR I SEMESTER	
S.No	Course Outcome
COMPUTER SCIENCE (CND 211)	
1.	Know the basics of computers
2.	To be able to use computers for education, information and research
3.	Know the basics of computers
4.	To be able to use computers for education, information and research
MEDICAL NURITION MANAGEMENT – I (CND 212)	
1.	To understand food and drug interactions.
2.	To provide nutritional management in febrile conditions, disorders of GI tract, disorders of Liver, Gall bladder and Pancreas.
3.	To provide nutritional management of metabolic disease.
4.	Know the therapeutic diets prescribed in the hospital
5.	To be able to plan diets for therapeutic purposes
NUTRITION THROUGH LIFE SPAN – I (CND 213)	
1.	Know food related approaches for leading a healthy life both in qualitative and quantitative terms.
2.	Translate knowledge into action
3.	Know the therapeutic diets prescribed in the hospital
4.	To be able to plan diets for therapeutic purposes
APPLIED NUTRITION – II (CND 214)	
1.	Provide in-depth knowledge of the physiological and metabolic role of various nutrients and their interactions in human nutrition.
2.	Enable students to understand the basis of human nutritional requirements and recommendations through the life cycle.
3.	Enable students to understand the pharmacological actions of nutrients and their implications.
4.	Familiarize students with the recent advances in nutrition.
5.	Learn the techniques of Body composition Analysis
6.	Plan and Prepare Nutrient dense recipes
FOOD SANITATION AND HYGIENE (CND 215)	
1.	Develop correct habits of personal and environmental hygiene
2.	Learn safe handling of food
3.	To ensure complete safety of raw and processed food.
4.	To introduce the concept of food hygiene, and importance of safe food storage.
5.	To acquaint the students with important food laws.
FOOD STANDARDS AND QUALITY CONTROL (CND 216)	
1.	To familiarize the students with basic methods of quality testing of food.
2.	To familiarize the students with various food laws and standards

II YEAR II SEMESTER	
S.No	Course Outcome
ENTREPRENEURSHIP DEVELOPMENT (CND 221)	
1.	Develop and strengthen the entrepreneurial quality, i.e. motivation or need for achievement.
2.	Analyse environmental set up relating to small industry and small business.
3.	Formulate proposal for the product.
4.	Understand the process and procedure involved in setting up a small enterprise.
5.	Acquire the necessary managerial skills required to run a small-scale industry.
NUTRITION THROUGH LIFE SPAN – II (CND 222)	
1.	Know food related approaches for leading a healthy life both in qualitative and quantitative terms.
2.	Translate knowledge into action
MEDICAL NUTRITION MANAGEMENT – II (CND 223)	
1.	To understand various concepts of medical nutrition management of various disorders.
2.	To provide nutritional management in Coronary Heart Disease, Pulmonary disorders, Renal disorders, Rheumatic Diseases
3.	Impart systematic knowledge of basic and applied aspects of food processing and technology
4.	Provide the necessary knowledge of basic principles and procedures in the production of important food products
5.	Orient the students to potential use of various by-products of food industry
HOSPITAL DIETETICS – II (CND 225)	
1.	To understand the functioning of the dietetics department.
2.	To gain knowledge and practical experience in the nutritional management of various disorders.
3.	To gather clinical experience as a hospital dietitian for indoor patients of various hospital departments
4.	Develop expertise in Nutritional Management (Nutrition Care Process, Screening,
5.	Diagnosis, and Intervention & Follow-up) and Counseling Techniques of Outpatients.
INTEGRATED NUTRITION THERAPY FOR DIABETES (CND 226)	
1.	Formulate personalized Diet plans for various diabetic complications
2.	Will be able to counsel and identify pre-diabetic individuals
PSYCHOLOGY (CND 226)	
1.	Concept and definition of psychology: Perspectives on behavior.
2.	Major subfields of psychology; Psychology in modern India;
3.	Biological basis of human behavior

III YEAR I SEMESTER

S.No	Course Outcome
MEDICAL NUTRITION MANAGEMENT III (CND 311)	
1.	To understand nutritional concepts in neurological and psychiatric disorders and drug interactions.
2.	To provide nutritional management in cancer and HIV/AIDS
3.	To provide nutritional management of metabolic disease.
4.	Know the therapeutic diets prescribed in the hospital
5.	To be able to plan diets for therapeutic purposes
NUTRITION AND FITNESS (CND 311)	
1.	Understand the components of health and fitness and the role of nutrition in these
2.	Make nutritional, dietary and physical activity recommendations to achieve fitness and well-being
3.	Develop ability to evaluate fitness and well-being
NUTRITION THROUGH LIFE SPAN III (CND 311)	
1.	Know food related approaches for leading a healthy life both in qualitative and quantitative terms.
2.	Translate knowledge into action
DIETARY COUNSELLING (CND 311)	
1.	Critically appraise, plan and organize/ supervise preparation and service of different kinds of therapeutic diets in hospital dietary service
2.	Develop skills for patient counselling
3.	Interact effectively with patients and their families and to give dietary advice in the context of the patients socio-cultural and economical milieu.
NUTRITION AND IMMUNITY (CND 311)	
1.	To make the students understand the importance of various nutrients in maintaining and improving the immunity of individuals.
BAKERY SCIENCE (CND 311)	
1.	Understand basic concepts of baking
2.	Acquaint with the role of various major and minor ingredients in baking products
3.	Familiarize with baking process and operations
4.	Learn the quality parameters of bakery products.
5.	Acquire skills in the preparation of different types of cakes and pastries and other bakery products
6.	Be familiarized with the quality evaluation of ingredients and the baked products
COMMUNICATION AND EXTENSION (CND 311)	
1.	To develop understanding about concept, approaches, models and theories of extension and recent advances in communication.
2.	To acquaint students about communication process, recent advances in communication and diffusion and help students acquire necessary communication skills
3.	Developing skills in planning and conducting small group communication.
4.	Review of media on selected issues

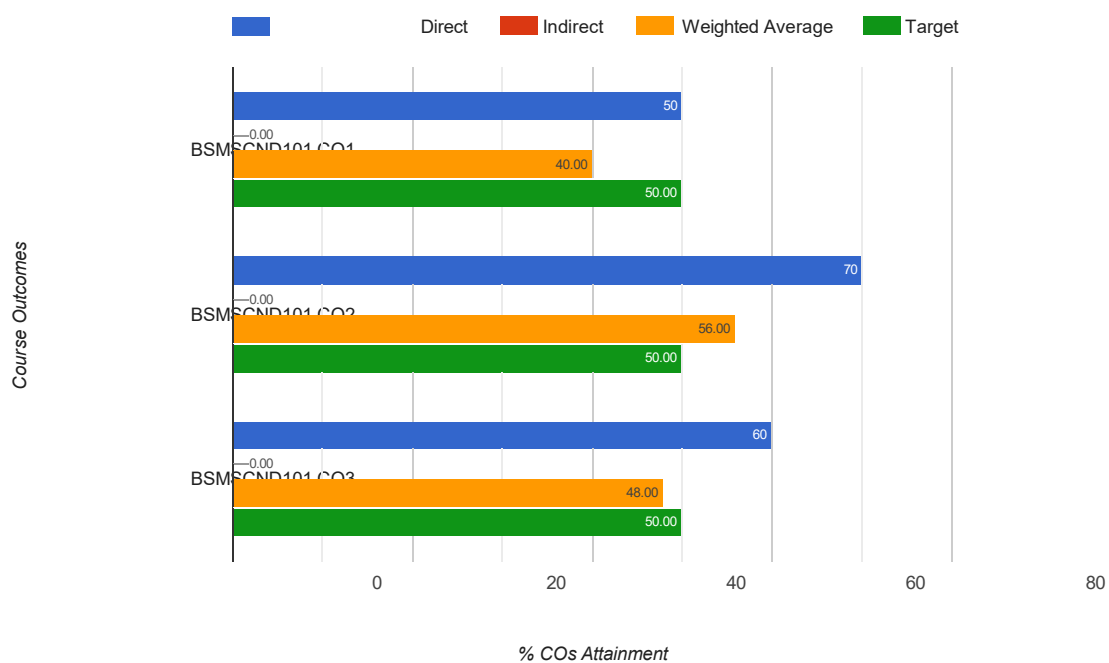

5.	Design and use of graphic media – Audio Visual Aids
SOCIO-ECONOMIC ANALYSIS OF COMMUNITIES (CND 311)	
1.	Understand the socio-economic structures and systems that make up the rural and urban communities
2.	Understand the meaning of social change through development plans and programs in the context of the existing socio-economic structures and systems
3.	Recognize one's own role in the development process.
4.	To develop understanding about Socio-Economic Analysis of community
5.	To provide hands on experience of using PRA/ RRA methods in the community

III YEAR II SEMESTER

S.No	Course Outcome
IMPROVING HEALTH AND NUTRITION : IEC APPROACHES (CND 311)	
1.	Develop understanding regarding the vital aspects of communication and various audio-visual media/ mass media and their use in Nutrition and Health education
2.	Be familiar with important IEC programmes
3.	Develop skills to plan and use IEC
FOOD PRESERVATION (CND 311)	
1.	Develop understanding regarding the vital aspects of communication and various audio-visual media/ mass media and their use in Nutrition and Health education
2.	Be familiar with important IEC programmes
3.	Develop skills to plan and use IEC
PUBLIC NUTRITION (CND 311)	
1.	Develop a holistic knowledge base and understanding of the nature of important nutrition problems and their prevention and control for the disadvantaged and upper socio-economic strata in society
2.	Understand the causes/ determinants and consequences of nutrition problems in society
3.	Be familiar with various approaches to nutrition and health interventions, programmes and policies
ELEMENTARY STATISTICS (CND 311)	
1.	Make use of all the knowledge and skills acquired during the entire course in the practical applications of dietetics.
2.	Undertake situational analysis of nutrition and health problems of the patients.
3.	Devise ways and means to bring about possible improvements in the existing system.
INSTITUTIONAL FOOD ADMINISTRATION (CND 311)	
1.	To provide practical field level experience in Institutional Food Administration
2.	To impart necessary expertise to function as a food service manager
3.	To equip individual to start their own food service unit leading to entrepreneurship
PROJECT CUM INTERNSHIP (CND 311)	
1.	Assess nutritional status and dietary pattern of patients
2.	Plan and prepare therapeutic diets
3.	Develop skills in feeding patients and supervise food services.
4.	Take up dietetics as a profession.
5.	To develop critical abilities and provide basic grounding in research techniques

Attainment of Course Outcomes - Direct & Indirect for BSMS CND101 - 2019 - Human Physiology-I - Sem I

	COs Attainment for Direct Assessments	
	Program Name :	Integrated (Bsc Msc) CND
	Course Code:	BSMSCND101
	Course Title:	BSMSCND101 - 2019 - Human Physiology-I - Sem I
	Batch:	Integrated (Bsc Msc) CND Batch 2019-2024

Course Outcome	Mapping with Program Outcome		Attainment % in		Avg Attainment(80% Direct + 20% Indirect)	Target of Attainment	Attainment	Level of Attainment
