Suicide prevention focuses on reducing stigma, encouraging open and compassionate conversations, recognising warning signs, and ensuring timely access to appropriate support and care. Creating a supportive environment where individuals feel heard, understood, and safe to seek help is an important step towards prevention. By promoting awareness, strengthening social support, and encouraging people to reach out when they are struggling, we can help create a culture of hope, connection, and care.

Organised by

Dept. of Psychiatry, SDUMC

In collaboration with

Dept. of Psychiatric Nursing, SDUCON

“It’s okay to ask for help.”

**In case of distress, please reach out
to the helpline for support.**
