Agenda No. EC /LXXIX -07/24**Subject:**

P G Eligibility criteria to appear for Summative examinations in broad specialty.

Discussion:

Secretary asked the Director, PG Studies to brief the agenda. In response, Dr.Sudha Reddy.V.R, Director, PG Studies explained the Post-Graduate Medical Education Regulation 2023 dated 29-12-2023 about eligibility criteria for a postgraduate student of a degree course in broad specialty /super specialty, accordingly any postgraduate student should do at least one of the following to make him/her eligible to appear in his/her final examination.

1. Poster presentation at a National/Zonal/State conference of his/her specialty;
2. Podium presentation at a National/Zonal/State conference of his/her specialty;
3. Have one research paper published/accepted for publication in journal of his/her specialty as first author.

In response, Mr.Rajesh N.Jagdale stated that to have high standards in postgraduate medical education and research, it is ideal to have all the three criteria as compulsory, however since the NMC PGMER 2023 Regulations mandates any one of the above criteria; The Academy shall follow the NMC Regulations. Further, he also suggested providing necessary Special Casual leave and financial assistance for the postgraduate students to attend the conferences, present papers/posters and publish their research articles. In this regard, a committee shall be constituted to provide financial assistance.

In continuation, Dr.Sudha Reddy.V.R informed the Council that at 48th Academic Council meeting, a clarification was sought with regard to minimum attendance for the postgraduate students and the Academic Council had resolved to follow the NMC Regulations, accordingly eighty percent (80%) attendance in each academic year mandatory for postgraduate students to appear in summative examination. All the members of the Executive Council agreed for the same.

Resolution:

The Executive Council resolved to follow the National Medical Commission Postgraduate Medical Education Regulations 2023 for eligibility criteria of a postgraduate student and 80% attendance is mandatory in each academic year to appear in Summative examinations. A committee shall be constituted to promote quality in postgraduate medical education and research by providing financial assistance and necessary leaves for postgraduate students.

Discussion:

Secretary requested the Director, RDC to brief the agenda. In response, Dr.Kalyani.R, Director, RDC presented the revised Intellectual Property Rights policy and stated that the updated policy aims to enhance our institution's innovation environment, and protect the interests of our researchers and stakeholders.

Our existing IPR policy has been in place since 11th Aug. 2020 and has served as a foundational framework for managing intellectual property generated within the institution.

However, recent developments have highlighted the need for a review and revision of Intellectual Property Rights policy.

Dr.S.Chandrashekar Shetty suggested to follow the standard format for drafting the Intellectual Property Rights policy and to moderate the policy by IPR attorneys.

After discussions, the members agreed for the revised Intellectual Property Rights policy.

Resolution:

The Executive Council resolved to approve the revised Intellectual Property Rights policy.

Agenda No. EC /LXXXI-04/24

Subject:

Syllabus Revision for MBBS Program as per Competency Based Medical Education Curriculum (CBME) Guidelines 2024 for 2024-25 admitted batch.

Discussion:

The Secretary requested the Dean, FoM to brief the agenda. In response, Dr.Prabhakar.K explained that the National Medical Council (NMC) has published the CBME Curriculum Guidelines 2024 along with Competencies Volumes I, II, and III (No. D-11011/500/2024-Academic Cell, dated 31-08-2024). The updated guidelines include changes in competency numbers, AETCOM modules, certifiable skills, and teaching hours. Additionally, there are modifications in the internal assessment marks and eligibility criteria. Specifically, if a student fails to meet the eligibility requirements for the regular exam, they will be detained and offered remedial measures , for supplementary examination of the same batch. For attendance students will be allowed remedial measures only if attendance is more than 60% for each component.

AETCOM-related questions will now be included in both Paper 1 and Paper 2. A revised set of guidelines was issued (No. D-11011/500/2024-Academic Cell, e-8284443, dated 12-09-2024), which mandates changes in the curriculum for Phase I, Phase II, and Phase III (Part 1 and Part 2) subjects.

The internal assessment marks for each subject will now be out of 100 for theory and out of 100 for practical/clinical assessments, with the exception of General Medicine, General Surgery, and Obstetrics & Gynecology, where both the theory and practical assessments will be marked out of 200 each. The existing question paper pattern will continue with modifications, which will be incorporated into the blueprint of the question bank.

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH

(Declared Under Section 3 of UGC Act 1956, MHRD GOI No. F.9-36/2006-U.3 (A), Dt. 25th May 2007)

Further, it was recommended that the syllabus be revised in accordance with the NMC guidelines, and that the curriculum books be submitted as soft copies to the Principal and the Director of Academics according to the following timeline.

Phase I: by 30-11-2024

Phase II and Phase III Part 1: by 31-07-2025

Phase III Part 2: by 31-10-2025

Dr. G. V. Manjunatha and Dr. Vijayakumar suggested the changes to be done on par with NMC guidelines and to crosscheck with other medical universities and later to align the required changes. After discussion, the Executive Council members agreed for the same with principle approval.

Resolution:

The Executive Council resolved to approve Syllabus revision for MBBS Program as per Competency Based Medical Education Curriculum (CBME) Guidelines 2024 for 2024-25 admitted batch onwards and advised concerned HODs to make the required changes and implement the same. Eligibility for supplementary examination is applicable from the date of NMC Notification for all CBME batches.

Agenda No. EC /LXXXI-05/24

Subject:

Competency Based Medical Education Curriculum Regulations 2023-National Medical Commission for 2023-24 admitted batch.

Discussion:

The Secretary requested the Dean, FoM to brief the agenda. In response, Dr. Prabhakar.K explained that the National Medical Commission (Undergraduate Medical Education Board) released the Competency Based Medical Education Curriculum Regulations 2023 on 01-08-2023 (No.U.14021/8/2023-UGMEB). Based on the regulations, Phase II subjects have revised the logbooks to meet the requirements. The objectives, duration of the course, teaching hours, AETCOM modules, assessment guidelines and change in the marks as per NMC guidelines is applicable only for one

Discussion:

The Secretary requested the Dean, FAH&BS to brief the agenda. In response, Dr.Arvind Natarajan stated that the addition and deletion details of practicals in Cell Biology, Biochemistry, Molecular Biology techniques, and Genetic Engineering & Recombinant DNA technology in M.Sc. Molecular Biology and Human Genetics are as under :

1. The proposed changes Cell Biology Practical:

- Introduce the working knowledge of the Microscope.
- Stages of Mitosis in onion root tips.
- Prokaryotic and eukaryotic cell morphology under microscope.

2. Biochemistry Practical:

The proposed modifications in Biochemistry practicals.

The rationale behind introducing and removing certain experiments and noted that some of the experiments are very basic and have already been covered by students during their undergraduate studies.

Deletion

- Analysis of Carbohydrates
- Analysis of Proteins
- Analysis of NPN substances
- Identification of unknown physiological important substances

Addition

- Estimation of serum Creatinine
- Estimation of Triglycerides
- Estimation of HDL Cholesterol

3. Molecular Biology Techniques:

Adding specific experiments to the Molecular Biology Techniques course.

- Introduction of HPLC
- Absorption spectra of nucleic acids and proteins by using Nanodrop

Changing the title to: Purity check of nucleic acids and proteins by using Nanodrop

4. Genetic Engineering and recombinant DNA technology course:

Introduction of the following practicals in Genetic Engineering and recombinant DNA technology course:

- His tagged protein purification by using Ni-NTA agarose beads
- Absorption spectrum of plasmid DNA by using Nanodrop
- Screening of recombinant cells by colony PCR

It was informed that if any practical topics are removed, they should replace the topics that justify the allocated hours and marks. He also emphasized the importance of clearly defining qualitative and quantitative experiments and stress that these aspects must be given due consideration.

Resolution:

Proposal for the establishment of an Ayurvedic College in SDUAHER from the academic year 2025-26 onwards.

Discussion:

The Secretary explained the need of starting the Ayurvedic college. Ayurveda, as one of the oldest and most respected systems of traditional medicine, has been gaining

increasing importance in contemporary health care practices worldwide. With growing interest in holistic health, traditional healing systems, and natural medicine, there is an expanding need for high-quality education and training in Ayurvedic medicine.

The Academy, in its vision to broaden academic horizons and contribute to the development of alternative health sciences, proposes the establishment of an Ayurvedic College. The College will offer degree programs in Ayurveda, with the potential for postgraduate courses in specialized areas, thereby integrating modern medical education with traditional practices.

The establishment of an Ayurvedic College will significantly contribute to the University's reputation and academic diversity. It aligns with the University's mission to offer a diverse array of courses, meet the growing demand for traditional health practices, and provide high-quality education in the field of Ayurveda.

The following programs are enlisted under Ayurvedic College:

1. Undergraduate Program (BAMS – Bachelor of Ayurvedic Medicine and Surgery).
2. Postgraduate Programs (MD/MS in Ayurveda).
3. Ph.D. Program in Ayurvedic Sciences.

Amongst the commencement of BAMS – Bachelor of Ayurvedic Medicine and Surgery is proposed on fulfilling infrastructure, manpower requirements and other approval.

He also explained the requirements for starting the new Ayurvedic College as per the Govt. of India.

After discussions, the Council members agreed the proposal for the establishment of an Ayurvedic College in SDUAHER from the academic year 2025-26 onwards.

Resolution:

The Executive Council resolved to give the principle approval and ratify the proposal for the establishment of an Ayurvedic College in SDUAHER from the academic year 2025-26 onwards and advised for its implementation with required infrastructure and man power and instructed to submit syllabus, required infrastructure for the same.

Proposal to start the following Master of Science (M.Sc.) programs and to create Faculty of Studies in Science.

1. M.Sc. Molecular Biology
2. M.Sc. Chemistry
3. M.Sc. Statistics
4. M.Sc. Biotechnology
5. M.Sc. Environmental Science

Discussion:

The Secretary requested the Dean, FAH&BS to brief the agenda. In response, Dr.Arvind Natarajan stated that as per UGC regulations 2023, the start of the new programs in any field in the existing campus with the prior approval of the Executive/Professional council needed to meet the requirements of the Multidisciplinary Educational institutions. A multidisciplinary institution should not only have different departments, but also should have innovative Programs of a multi- and interdisciplinary nature to help widen learners' thinking and learning capability and train them to address emerging challenges. The Academy wishes to create a Faculty of Studies in Science and offer Master's programs in the concerned departments. Therefore this proposal comprises the following PG programs.

The Faculty of Science is a complete, student-oriented science faculty where research and education are closely related. The Faculty of Science, comprising the Departments Botany, Chemistry, Geology, Mathematics, Molecular Biology and Biotechnology, Physics, Statistics, environmental science etc.

The new programs are being proposed under the faculty of science are :

1. M.Sc. Molecular Biology
2. M.Sc. Chemistry
3. M.Sc. Statistics
4. M.Sc. Biotechnology
5. M.Sc. Environmental Science

Duration of the Programme: 2 years (M.Sc.)

Eligibility: The candidate has passed the B.Sc. Life Science comprises the combination of any botany, Zoology, Biotechnology, Microbiology, chemistry, environmental science, statistics, genetics etc.

In principle approval is required to create Faculty of Studies in Science, establish infrastructure and manpower before commencement and also to keep the syllabus in CBCS pattern as per the UGC guidelines.

He justified the need to start this faculty in regards to attaining status multidisciplinary university.

Further, he said that the subject was circulated among the Executive Council members and approved the same on 30th Nov. 2024.

By looking at the demand for the programs, the Executive Council members agreed the proposal to start the M.Sc. programs only for Bio Chemistry and M.Sc Data Science. The M.Sc. Molecular Biology is already existing in the Department of Cell Biology and Molecular Genetics. Hence, M.Sc. Molecular Biology can be continued.

Resolution:

The Executive Council resolved to ratify the proposal to start the following Master of Science (M.Sc.) programs and to create Faculty of Studies in Science and advised for its implementation with the required infrastructure and manpower. Also instructed the Dean, FAH&BS to submit the proposal, syllabus, required infrastructure and manpower for M.Sc Bio Chemistry and M.Sc. Data Science.

Subject:

Approval of the Policy for Postgraduate Dissertation Guideship in Master of Physiotherapy (MPT).

Discussion:

The Secretary stated that the MPT program is designed to provide advanced training in physiotherapy, preparing students for specialized clinical practice, research and teaching roles. To achieve this, it is essential that qualified and experienced faculty members serve as guides for postgraduate students. The policy will outline the eligibility criteria, roles, responsibilities and expectations for faculty members who wish to assume guideship positions in the MPT program. It will also define the procedures for selecting and appointing guides, along with the guidelines for research mentorship and academic support provided to students. This approach will help uphold high standards of academic integrity and ensure that all students receive the best possible support during their postgraduate studies.

Further, the applicant should have five years of post PG (MPT) Academic Experience (should have worked in a teaching institute) with two original articles published in indexed journals (web of science, SCOPUS, PubMed) and faculty with PhD having two publications can be considered as guides.

The Executive Council Members suggested maintaining uniformity in minimum eligibility requirements for Postgraduate Dissertation Guideship across the Academy within the permitted limits by the respecting governing bodies (NMC, INC, NCAHP, etc).

The Executive Council members accepted the Policy for Postgraduate Dissertation Postgraduate Dissertation Guideship in Master of Physiotherapy (MPT).

Resolution:

The Executive Council resolved to approve the Policy for Postgraduate Dissertation Guideship in Master of Physiotherapy (MPT).

Subject:

Renaming of the Faculty of Allied Health and Basic Sciences to Faculty of Allied and Healthcare Professions.

Discussion:

The Secretary informed that the Faculty of Allied Health and Basic Sciences have played a crucial role in advancing education and research in health-related fields. To better align with the National Allied Health and Healthcare Professions Act 2021 and the evolving scope of healthcare education as well as to accurately represent the diverse professional programs within the faculty, FAH&BS propose renaming it to the *Faculty of Allied and Healthcare Professions*, in line with the National Allied Health and Healthcare Professions framework.

Reasons for the proposed renaming:

1. **Stronger Identity:** The new name more accurately reflects the wide range of programs offered, highlighting both allied health and healthcare professions.
2. **Inclusivity:** It acknowledges the contributions of various healthcare disciplines beyond basic sciences, ensuring greater recognition.
3. **Professional Alignment:** The term "Healthcare Professions" is widely recognized in academia and industry, boosting the faculty's credibility and attractiveness to prospective students and faculty members.
4. **Regulatory Compliance:** This name change aligns the faculty with the National Allied Health and Healthcare Professions guidelines, ensuring compliance with national standards.
5. **Future expansion:** The new name provides flexibility to incorporate additional healthcare-related programs in the future seamlessly.

Following discussions, the Executive Council members agreed for renaming the Faculty of Allied Health and Basic Sciences to Faculty of Allied and Healthcare Professions.

Resolution:

The Executive Council resolved to approve the renaming of the Faculty of Allied Health and Basic Sciences to Faculty of Allied and Healthcare Professions.

Approval of Innovation and Start-up Policy at SDUAHER .

Discussion:

The Secretary briefed that the Innovation and entrepreneurship play a vital role in modern medical education and research. In line with the National Innovation and Start-up Policy (NISP), SDUAHER seeks to promote an innovation-driven culture by supporting faculty and student-led research, technology development and start-up incubation. The proposed Innovation and Start-up Policy will provide a structured framework to encourage research translation, industry partnerships and interdisciplinary innovation.

By integrating innovation into the academic and research framework, SDUAHER seeks to:

- **Empower faculty and students** to translate research ideas into viable healthcare solutions.
- **Encourage entrepreneurship** in medical sciences and allied fields.
- **Facilitate interdisciplinary collaboration** by bringing together medical, engineering and technology expertise.
- **Strengthen industry partnerships** to promote research commercialization and start-up incubation.

Key Components of the Innovation and Start-up Policy:

1. Establishment of an Innovation and Start-up Cell

- A dedicated institutional framework to support **research translation, product development, and start-up incubation.**
- Coordination of training programs, mentorship sessions, and funding opportunities.

2. Financial and Institutional Support for Start-ups

- Provision of **seed grants, incubation funding, and industry partnerships** to help early-stage innovations scale up.
- Establishment of an **Innovation Fund** to support promising projects.

3. Faculty and Student Involvement

- Integration of **entrepreneurship and innovation-related modules** into the academic curriculum.
- Organization of **hackathons, start up boot camps, and industry-led mentorship programs.**

4. Collaboration with RLJIT for an Incubation Centre.

- A strategic partnership with **RLJIT (engineering institution)**.
- Leveraging the expertise of **engineering, medical, and technology domains** to develop cutting-edge healthcare innovations.
- Creating opportunities for joint research, prototyping, and industry-funded projects.

Mr. Rajesh N. Jagdale advised to focus on facilities, faculties & finances (including in-house funding and external funding) with significant attention to be given to hiring sufficient faculties.

After discussions, the Executive Council members accepted the Innovation and Start-up Policy at SDUAHER.

Resolution:

The Executive Council resolved to approve the Innovation and Start-up Policy at SDUAHER.

Approval of the Addendum to be considered for Incentive Policy on Research Publications.

Discussion:

The Secretary asked Dr. Kalyani.R, Director, RDC to brief the agenda. In response, Dr. Kalyani.R stated that the Research and Development Cell of The Academy has prepared an Addendum to be inserted into the Incentive policy on Research Publications.

Dr. M. Vijayakumar suggested to project/re-designate the intramural funding for research as seed funding and to apply for extra mural funding after exhausting the seed funds. He also suggested to state in the policy to enhance the seed funding up to Rs.1,00,000/- (over the existing cap of Rs 25000/-) if the quality of the study is considered to be extra ordinary.

After discussion, the Executive Council members agreed for the Addendum to be considered for Incentive Policy on Research Publications.

Resolution:

The Executive Council accepted the suggestions and resolved to approve the Addendum to be considered for Incentive Policy on Research Publications.

Approval of Shri R L Jalappa Innovation and Incubation Cell (SRLJIIC) Logo.

Discussion:

The Secretary informed that the logo for the Shri RL Jalappa Innovation and Incubation Cell (SRLJIIC) has been designed to encapsulate the centre's mission and vision.

**Logo Features:****1. Text Elements:**

- "SRLJIIC" is prominently displayed at the top of the circle.
- "SDUAHER" is featured at the bottom of the circle.
-

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH

(Declared Under Section 3 of UGC Act 1956, MHRD GOI No. F.9-36/2006-U.3 (A), Dt. 25th May 2007)

2. Central Icon:

- A blue light bulb icon is at the center, emitting rays, symbolizing ideas, innovation, and enlightenment.

3. Decorative Elements:

- Black stars are positioned on either side of the circle, adding a decorative touch and symbolizing excellence or achievement.

4. Supporting Hands:

- Two hands, drawn in a realistic style, are cupping the circle, representing support, care, and a nurturing environment.

5. Colour Scheme:

- The light bulb is prominently coloured blue, signifying clarity and depth of knowledge.
- The rest of the logo, including the hands and text, is in black and white, giving it a professional and timeless appearance.

Feedback and Revisions:

The logo was previously presented to the Academic Council for approval. Based on the valuable suggestions received, few modifications were made to enhance its effectiveness and alignment with the mission.

Mr. Rajesh N. Jagdale said that the Company formation under Sec-8 is under progress, the name and the logo will have to be relooked after incorporation of the Company.

Resolution:

The Executive Council resolved to put this on hold and take it up after incorporation of the Company.

Approval of Logo for Intellectual Property Rights (IPR) Cell, SDUAHER.

Discussion:

The Secretary briefed that the Intellectual Property Rights Cell of The Academy has created a Logo for its cell. In the 51st Academic Council meeting as per the Council members suggestion, the subject was discussed with IPR legal experts on legal consequences of the logo. Accordingly modified the logo and placed before the Executive Council.

This logo represents the Intellectual Property Rights (IPR) Cell of SDUAHER (Sri Devaraj Urs Academy of Higher Education and Research). It symbolizes the institution's commitment to fostering innovation, creativity, and legal awareness regarding intellectual property.

1. **YELLOW** (Light Bulb) – symbolizes ideas, innovation, creativity and enlightenment.
2. **BLACK** (Brain & Gear) – The left half of the bulb contains a brain, symbolizing intellectual and creative thought, while the right half features a gear, representing technology and innovation. Together, they reflect the fusion of knowledge and invention.
3. **RED** (Text "INTELLECTUAL PROPERTY RIGHTS CELL") are in bold red highlighting the focus on protecting and promoting intellectual property.
4. **GREEN** (Leaves at the base of the light bulb) – symbolizes growth, sustainability and nurturing of new ideas.
5. **GRAY/SILVER** (screw base of the light bulb) – Indicates a strong foundation in academia and legal frameworks supporting intellectual property.

6. **BROWN** (Text "SDUAHER") – Represents the academy's role in supporting and facilitating intellectual property rights initiatives.

After discussion, the members of the Executive Council agreed the Logo for Intellectual Property Rights (IPR) Cell, SDUAHER.

Resolution:

The Executive Council resolved to provisionally approve the Logo for Intellectual Property Rights (IPR) Cell, SDUAHER.

Proposal for Innovation and Incubation Centre (IIC) Initiatives – Translating Innovation into Impact.

Discussion:

The Secretary informed that the Innovation and Incubation Centre (IIC) at SDUAHER aims to foster research-driven, commercially viable innovations in healthcare.

As part of this initiative, the IIC proposes three promising projects:

Project Proposals:

A. Development of a Functional Health Drink.

The first project under discussion is the development of a Functional Health Drink, aimed at providing nutraceutical benefits to address specific health concerns. The project will focus on formulation, scientific validation, clinical trials and commercial viability, with potential collaborations in the nutraceutical industry and hospital dietary services. A product (Mango Leaf Hot and Sour Soup) is already in development.

B. Biomedical Device for Clinical Applications.

Next is the Biomedical Device for clinical application. This project seeks to design an affordable, AI-integrated medical device for clinical applications. The focus will be on

identifying a clinical need, prototyping, obtaining regulatory approvals and engaging industry partners to ensure market feasibility.

C. Cancer Screening Markers for Early Detection.

The third initiative involves the development of Cancer Screening Markers for early detection and precision medicine. This project aims to identify novel biomarkers and create non-invasive diagnostic tests. Machine learning will be explored for predictive analysis, and collaborations with biotech firms and diagnostic labs will be sought for commercialization.

Further, The Academy is planning to utilise the services of third-party Consultants who have given Detailed Project Plan on the IIC. The Terms and Conditions and other Commercials are under discussion, Dr.M.Vijayakumar suggested reviewing the administrative hierarchy of the Incubation Centre that needs to be considered while setting up the Sec-8 Company.

Resolution:

The Executive Council resolved to approve the proposal as per the Detailed Project Plan for Innovation and Incubation Centre (IIC) Initiatives, subject to commercial discussion.

training of the students takes place in Create Fertility Academy. The logistics required should be borne by the partner institute (Create Fertility) and also facilitate the admission and placements. Therefore, before getting into MoU, the percentage of fund sharing needs to be finalised based on considering the quantum of involvement of the institution in conducting the program. The proposed fee structure shall be Rs.75,000/- per Semester.

The partner institute i.e., Create Fertility approved ART centre has already entered into MoU with the JSS University to offer the similar program and the program is under progress.

Mr.Rajesh N Jagdale advised on conducting due diligence on the technical and financial aspect of the MoU between SDUAHER and CREATE FERTILITY ACADEMY before further discussions.

Resolution:

The Executive Council resolved to revisit the agenda in the next Executive Council Meeting.

Agenda No. EC /LXXXII-19/25

Subject:

Approval for increase in intake of B.Sc. (Nursing) from 100 to 200 seats.

Discussion:

Secretary informed that as per the Notification received from Indian Nursing Council, New Delhi vide No.-6 of 2024, F.No.1-6/LT/2023-INC dated 06/03/2024, institutions having 500 or more than 500 bedded parent hospital can enhance B.Sc. (Nursing) seats up to 250.

In this context, the Academy had previously requested the Government of Karnataka to upgrade GNM seats to B.Sc. (Nursing) seats. However, as per the response from the Government of Karnataka (Letter No. MED 14 RGU 2025 dated 14/02/2025), Sri Devaraj Urs College of Nursing is allowed to increase B.Sc. (Nursing) seats but cannot upgrade the GNM program instead the GNM program may be closed. Hence, after discussions with the management, The Academy has decided to close the GNM program and increase the intake for B.Sc. (Nursing) from 100 to 200 seats.
