National Webinar**

“Clinical trials: An update”

On

14-06-2024

Time: 9:00 am to 1:00 pm

Organized by

DEPT. OF PHARMACOLOGY

INTRODUCTION

We, the Department of Pharmacology at Sri Devaraj Urs Medical College, Kolar are pleased to extend a warm invitation to all researchers to join us for the National Webinar.

Clinical trials are conducted to test medical interventions like drugs, diagnostic kits, biological products, surgical and radiological procedures, devices, behavioral treatments and preventive care. We are bringing various esteemed speakers together to enlighten the various aspects and update the knowledge on clinical trials. We look forward for your active participation.

Objectives

At the end of the webinar the participants should be able to

1. Explain roles and responsibilities of Principal Investigator
2. List the regulatory requirements for academic clinical trials
3. Explain about the software used in Pharmacovigilance
4. Explain process and steps for CTRI registration

SPEAKERS

**Dr. Rajesh
Venkataraman**

Head Clinical Trial Centre,
Adichunchunagiri Hospital &
Research Centre

**“Empathy in focus: Compassionate cataract
surgery”**

**& “Seizing opportunities: The role of hard work in
Resident success”**

DATE: 28th June 2024

TIME: 2:00PM – 4:00PM

**Venue: Ophthalmology Seminar Room, PG Block,
SDUMC Kolar,**

**Organized by
Dept. of Ophthalmology**

June marks Cataract Awareness Month,
dedicated to spreading knowledge about the
most common cause of vision loss worldwide.

Cataracts affect millions, often with age, but
can be effectively treated with surgery,
restoring clear sight and quality of life.

This month serves as a reminder to prioritize
regular eye exams and early detection,
crucial steps in preserving vision and
preventing blindness.

Cataract remains a significant cause of
blindness worldwide, both in urban and rural
populations, standing as the primary condition
after glaucoma.

It is estimated that cataracts affect millions
globally. In India, cataracts are a major public
health concern, affecting millions annually.

Despite cataract surgery being highly effective,
there is a significant backlog of patients
awaiting treatment, especially in rural areas.

Efforts are needed to expand access to surgical
services and raise awareness to reduce the
burden of preventable blindness.

In response to this challenge, we are organizing
a Guest lecture session aimed at educating
healthcare professionals and the public alike.

This initiative will serve as a practical
guideline, emphasizing early detection, timely
intervention, and accessible treatment options.

PROGRAMME SCHEDULE

Welcome Address and Introduction

2:00 PM to 2:15 PM.

Dr. Sangeetha T

Prof. & HOD of Ophthalmology, sdumc.

**“MENISCUS INJURIES – RECENT
UPDATES”**

On

27/06/2024 FROM 9AM TO 4PM

**Venue: LIBRARY AV HALL 1ST
FLOOR**

Organized by

Dept. of ORTHOPAEDICS

INTRODUCTION

Each of your knees has two C-shaped pieces of cartilage that act like a cushion between your shinbone and your thighbone. A torn meniscus is one of the most common knee injuries. Any activity that causes you to forcefully twist or rotate your knee, especially when putting your full weight on it, can lead to a torn meniscus.

If you've torn your meniscus, it might take 24 hours or more for pain and swelling to begin, especially if the tear is small. A torn meniscus causes pain, swelling and stiffness. You also might feel a block to knee motion and have trouble extending your knee fully.

Performing activities that involve aggressive twisting and pivoting of the knee puts you at risk of a torn meniscus. The risk is particularly high for athletes — especially those who participate in contact sports, such as football, or activities that involve pivoting, such as tennis or basketball. So does age and obesity.

Rest, ice and medication is sometimes enough to relieve the pain of a torn meniscus and give the injury time to heal on its own. In other cases, however, a torn meniscus requires surgery.

GUEST SPEAKERS

Dr Sandesh G M (MS Ortho, FAOA-Australia) - Consultant at St John's hospital

Dr Preetham. N (MS Ortho, DNB Ortho, MRCS, FASM, FIFA DSM) Consultant in BMCRI

Dr Anoop P (MS Ortho, DNB Ortho, MNAMS, FIAR (ISAKOS) Consultant at St John's hospital.

Dr Kaushik Y S (MS Ortho, FAS (RGUHS) Consultant at St Martha's hospital.

**“Mastering Thyroidectomy: A
Comprehensive Surgical
Demonstration and Training Session”**

On

29th June 2024

Venue: Anatomy Dissection Hall

Organized by:

Dept. of Otorhinolaryngology

Program Description

Mastering Thyroidectomy: A Comprehensive Surgical Demonstration and Training Session is an innovative program designed specifically for undergraduate medical students aspiring to specialize in ENT. This program aims to provide an in-depth understanding of thyroid surgery through a blend of theoretical knowledge and hands-on experience. Key to this training is the demonstration of thyroidectomy procedures on cadavers, offering students a unique, practical insight into the complexities of ENT surgery.

Program Description

The session features live cadaveric dissections conducted by experienced surgeons, allowing students to observe the meticulous steps involved in performing a thyroidectomy. These demonstrations emphasize crucial anatomical landmarks and surgical techniques, bridging the gap between textbook learning and real-world application. Alongside the practical demonstrations, the program includes interactive lectures, detailed discussions on surgical anatomy and pathology, and Q&A sessions, fostering a collaborative and engaging learning environment.

This comprehensive training not only enhances the students' surgical skills but also instills a deeper understanding of the precision and safety required in ENT surgeries. By practicing on cadavers, students can develop their technical abilities in a controlled, risk-free setting, building confidence and competence that will be invaluable in their future medical careers. "Mastering Thyroidectomy" is an essential stepping stone for undergraduate students committed to excelling in the field of ENT.

TARGET AUDIENCE

Students, interns, and teachers of health science universities

ABOUT THE SESSION

Join us for an enlightening session exploring the transformative power of ChatGPT in competency-based health professions education. This dynamic webinar will delve into the core principles, innovative strategies, and global perspectives on integrating ChatGPT into educational frameworks, providing insights from a distinguished expert and practitioner in the field. Attendees will gain a comprehensive understanding of how ChatGPT can revolutionize health professions education, explore practical implementation techniques, hear firsthand success stories, engage in stimulating discussions on challenges and opportunities, and discover collaborative initiatives to drive innovation in educational methodologies. Don't miss this chance to be part of a vibrant exchange of ideas shaping the future of health professions education. Register now to secure your spot and embark on this transformative learning journey with us!

Expected Outcomes:

1. By the end of the webinar, attendees will understand the principles and benefits of using ChatGPT in health professions education, and can articulate three key integration strategies, as shown by their active participation and survey responses.
2. Within three months, attendees will initiate at least one pilot project incorporating ChatGPT into their educational practices, submitting detailed proposals or plans that demonstrate their commitment to implementing innovative methodologies.

Certificate will be issued only on successful submission of the registration and feedback form

Venue: William Osler Hall
(Physiology A. V Hall) SDUMC

Program Description

Stroke is the important cause of mortality and morbidity. In recent years, several landmark trials have transformed acute ischemic stroke care.

With the technological advances in acute stroke care, many more patients with the most severe strokes can receive treatments that can reduce death and disability from the disease. Endovascular intervention with mechanical thrombectomy has been shown to improve functional outcomes in select patients with severe stroke and large artery occlusion in the anterior cerebral circulation.

Knowledge about recent advances in management of Stroke can reduce mortality and morbidities in Stroke Patients.

Workshop on

Good Clinical Practice (GCP)

Good Clinical Practice (GCP) is an internationally recognized set of guidelines and standards for conducting clinical trials involving human subjects. GCP guidelines are established by the International Council for Harmonisation (ICH) of Technical Requirements for Pharmaceuticals for Human Use, specifically under the ICH E6 (R2) guideline. Adherence to GCP ensures that clinical trials are conducted ethically, safely, and scientifically, facilitating the development of new medical treatments and ensuring public trust in the research process.

cordially invites you to
Guest Lecture on

"RECENT ADVANCES IN ANO RECTAL DISEASES"

By Dr. Rajeev Premnath
General and Laparoscopic Surgeon and
Endoscopist
MBBS, MS (General Surgery), FRCS (Glasg),
FPMAS, FICS, FACS, FEBS, FIAGES, Diploma in
Laparoscopy (France)
On

12th JULY 2024
11am - 1 pm

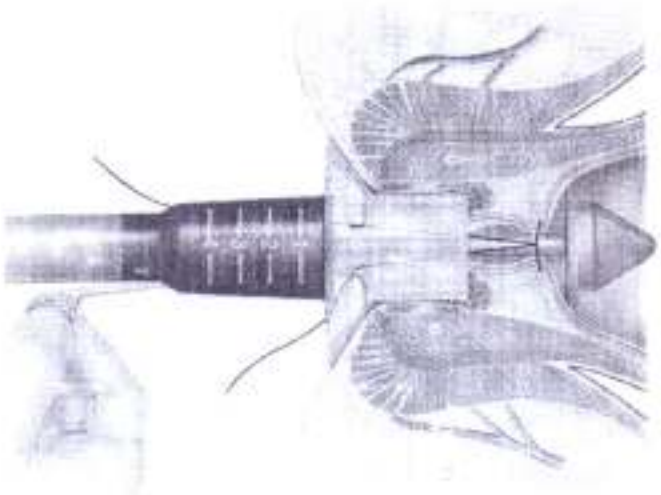

Venue: A. V. Hall, Library 1st Floor

Program Description

Anorectal disorders encompass structural, neuromuscular, and functional disorders. They are common, often distressing, and in some cases debilitating, and significantly add to the health care burden. They present with multiple, overlapping symptoms that can often obscure the underlying pathology and can pose significant diagnostic and management dilemmas. A meticulous history and comprehensive digital rectal examination can provide clarity on the diagnosis, appropriate testing, and management of these conditions. Today, with the development of sophisticated diagnostic tools such as high-resolution and high-definition (3-D) anorectal manometry, 3-D anal ultrasonography, magnetic resonance defecography and imaging, and neurophysiological tests such as transumbosacral anorectal magnetic stimulation, it is possible to more accurately define and characterize the underlying structural and functional abnormalities. This lecture aims to provide a brief update on recent advances in various ano rectal diseases.

Hope this brief lecture provides
all the essential inputs and invites good
interactive discussion regarding recent
updates in anorectal diseases.

Programme Schedule

Welcome address

11:00 AM

Invocation and Inauguration

11:05 AM - 11:10 AM

Introduction of the speaker

11:10 AM - 11:15 AM

on

Artificial Intelligence in Healthcare

Empowering Medical Professionals for Enhanced Healthcare Delivery

DATE: 24TH & 25TH JULY 2024

TIME: 9:00 AM ONWARDS

VENUE

William Osler Hall

1st Floor, College Building, SDUMC

KMC

4 Credit Hours

Organized by

**DEPARTMENT OF PHYSIOLOGY,
SDUMC, Tamaka, Kolar, Karnataka, India**

e-mail: conferencephysiology@sduaher.ac.in

Welcome

About our Institute

In the year 1984, a group of dedicated and like-minded visionaries headed by Sri R L Jalappa, a champion of the cooperative movement in the state of Karnataka established the Sri Devaraj Urs Educational Trust for Backward Classes with the focus on provisioning of Medical Education and Social Services.

The Ministry of Human Resource Development, Government of India conferred 'Deemed to be University' status to the Sri Devaraj Urs Academy of Higher Education and Research under Section 3 of UGC Act 1956 on 25th May 2007 (vide letter No. F.9-36/2006- U 3(A) dated 25th May 2007). The lush green campus of the University is spread over an area of more than 72 acres of land and houses the medical college, hospital, administrative offices, University and affiliated departments, canteens, and hostels.

About the conference

Artificial intelligence (AI) is the ability of machines to mimic human intelligence and perform tasks that require reasoning, learning, or problem solving. AI uses algorithms or a set of rules, to mimic human cognitive functions, such as learning and problem solving. AI finds applications in various fields, including medicine and healthcare. The participants of our workshop will gain insights into cutting-edge.

AI technologies and their applications in healthcare, fostering a deeper understanding of advancements in the field. The conference provides a platform for professionals to connect with experts, researchers, and industry leaders, facilitating collaborations and partnerships that can drive innovation.

Schedule

DAY - 1 (24 th JULY 2024)		
Time	Event	Speaker
Pre Conference Workshops		
08:30AM - 09:30AM	REGISTRATION	
09:30AM - 12:30PM	Leveraging AI in Medical Education and Research	Dr. Jagan Mohan and Team
10:15AM - 11:00AM	Use of Digital Tools & Artificial Intelligence in Health Care	Dr. Sitanshu Sekhar Kar & Dr. Devi Prasad Mohapatra
12:30PM - 01:30PM	LUNCH	
SCIENTIFIC PRESENTATIONS		
Time	Event	Venue
01:30PM - 04:30PM	Oral Presentations	William Osler Hall
	Poster Presentations	Physiology Department
04:30PM	TEA BREAK	

DAY - 2 (25 th JULY 2024)		
Time	Event	Speaker
08:30AM - 09:30AM	REGISTRATION	
09:30AM - 10:15AM	From Data to Diagnosis: "Role of Artificial Intelligence in Modern Medicine"	Dr. Raksha K Bhat
10:00AM - 10:15AM	INAUGURATION	
10:45AM - 11:15AM	Key Note Address	Prof. Dr. Nalin Mehta
11:15AM - 11:30AM	TEA BREAK	
11:30AM - 12:00PM	AI Powered Health Care: Innovations, Challenges and Opportunities	Mr. Pradeep Kumar Srinivasaiah
12:00PM - 01:00PM	"AI and Brain - Myth vs Reality"	Dr. Lokesh B
01:00PM - 02:00PM	LUNCH	
02:00PM - 03:30PM	Panel discussion on AI in Health Care - Promises and Pitfalls	
03:30PM - 04:30PM	Valedictory

ELS4: The Role of Social Media in Health Profession

9:30
AM
TO
1:00
PM

ABOUT THE SESSION

The session will explore how social media impacts healthcare, from patient engagement and education to professional networking and advocacy. The aim is to provide a comprehensive understanding of how social media can be harnessed to enhance healthcare delivery, improve patient outcomes, and foster professional development. The speakers will share insights, strategies, and practical tips on leveraging social media effectively while addressing challenges and ethical considerations. Through interactive discussions and case studies, you'll gain valuable skills to enhance healthcare delivery and professional development.

Program Objectives

- Be aware of various social media platforms and their specific features.
- Explore the unique benefits and challenges of using social media in the healthcare profession.
- Identify best practices for integrating social media into educational curricula and continuing education programs.
- Gain skills in creating engaging and informative content tailored to diverse audiences within the health profession.

PROGRAM SCHEDULE

Time	Program	Resource persons
9:30 am - 9:45 am	Inauguration	
9:45 am - 10:15 am	Social media and platforms	Mr. Lokheshwar S
10:15 am - 11:00 am	Impact of social media on health profession education	Dr. Shobha MV
11:00 am - 11:15 am	Tea break	
11:15 am - 12:45 pm	Social media in HPE - How to develop	Dr. Ashwini K Shetty
12:45 pm - 1:00 pm	Feedback, debriefing, and photo session	

Certificate will be issued only on successful submission of the feedback form

Materiovigilance is a specialized field that focuses on monitoring and ensuring the safety of medical devices and materials. It involves collecting, analyzing, and managing information related to adverse events, risks, and performance issues associated with medical devices. In this session, we will explore the latest advancements in the field of materiovigilance.

ABOUT THE SPEAKER

Dr. Jyoti Raghavendra Munavalli, Professor and Research Coordinator in ECE at BNMIT, earned her B.E. in E&C from Karnataka University Dharwad, M.Tech in Digital Electronics and Communication from VTU, and PhD in Health Informatics from Maastricht University, The Netherlands. She has worked in various engineering colleges and was a research associate at Maastricht University. Currently, she leads the Centre of Excellence in Healthcare and Smart Technology at BNMIT. Dr. Munavalli has mentored award-winning projects, secured significant funding, and holds patents in smart technology. She has organized international conferences, delivered numerous invited talks, and published over 40 papers in Scopus-indexed journals. Her research interests include Health Informatics, AI, Smart Devices, Data Science, and Biomedical Applications.

Passcode: 001754

TARGET AUDIENCE

Students, interns, and teachers of health science universities

ABOUT THE SESSION

Join us for an engaging webinar on the future of healthcare technology and smart devices led by Dr. Jyoti Raghvendra Munavalli. This informative session will cover cutting-edge advancements, innovative applications, and collaborative initiatives in healthcare informatics and smart technology. Attendees will gain insights from a renowned expert, explore practical applications in health tech, and learn about successful projects and case studies. Engage in thought-provoking discussions on the challenges and opportunities in the field, and discover how these technologies are transforming healthcare delivery and outcomes. Don't miss this opportunity to be part of a dynamic conversation shaping the future of healthcare technology. Register now to secure your spot and join us on this enlightening journey!

Objectives:

- To provide participants with a comprehensive understanding of the latest advancements and innovative applications in healthcare informatics and smart technology, highlighting their potential to transform healthcare delivery and outcomes.
- To facilitate engaging discussions and knowledge sharing on the practical implementation, challenges, and opportunities of healthcare technology, encouraging collaborative initiatives and exploring successful projects and case studies in the field.

Certificate will be issued only on successful submission of the registration and feedback form

**“ANKLE INJURIES UNRAVELLED:
BLUEPRINT FOR EFFECTIVE
TREATMENT”**

On

13/09/2024 from 9AM TO 5PM

Venue: SKILL LAB, CARE BUILDING

Organized by

Dept. of ORTHOPAEDICS

INTRODUCTION

Ankle injuries are extremely common. It is important to have a clear insight of the course of recovery after such injury to evaluate the effective strategies to guide management decisions, and understand the potential risk factors involved in the development of chronic problems and recurrent ankle sprains. When the medial ligament complex (MLC), in particular the anterior fascicle of the deltoid ligament, is involved, rotational ankle instability (RAI) can develop.

Generally, a tear of the anterior fibres of the MCL accompanied by anterior talofibular ligament (ATFL) insufficiency has been associated with RAI.

Conservative management is the first line of treatment, with surgery reserved for special cases or if rehabilitation has failed.

Ankle arthroscopy is increasingly used to address ligament insufficiency and to identify and treat intra-articular pathologies. Repair of MLC tears by an arthroscopic all-inside procedure is effective in both MAI and RAI.

cordially invite you all to
Zonal Level CME (Hybrid)
on

“EXPERT INSIGHTS IN OCULOPLASTY”

DATE: 17th September 2024

TIME: 9:00 AM - 4:00 PM

**Venue: William Osler Hall, 1st Floor,
SDUMC, Kolar.**

Oculoplastic conditions, including eyelid deformities and orbital tumors, impact both vision and appearance and remain a significant concern globally.

In many regions, access to specialized oculoplastic care is limited, leading to unmet needs for surgery and treatment.

Efforts are crucial to enhance awareness, expand access to specialized care, and address the backlog of patients requiring oculoplastic interventions.

To address these challenges, we are organizing a CME to educate healthcare professionals and the public on the importance of early detection, timely intervention, and available treatment options in oculoplasty.

<https://forms.gle/97L8N43EwNikCzKE7>

Zoom link:

<https://zoom.us/j/92291700100?pwd=znaBCql6F5Ug1vkLtdDdYBYoqJITob.1>

Meeting ID: 922 9170 0100

Passcode: 174153

TARGET AUDIENCE

Students, interns, and teachers of health science universities

ABOUT THE SESSION

The webinar is focused on the strategic use of data to address health challenges and shape public policy. The session will provide an in-depth analysis of how data can reveal insights into health spending, outcomes, and policy efficacy. Participants will also explore how to effectively utilize both local and global public data platforms to enhance decision-making. Additionally, the webinar will cover methodologies for employing data to optimize processes and improve efficiency in health services and public administration.

Objectives of the session:

1. To understand health challenges, spending, and outcomes to shape effective public policy.
2. To explore local and global public data sources for improved insights.
3. To use data to enhance process efficiency and effectiveness.

Certificate will be issued only on successful submission of the registration and feedback form

Greetings from Physiology department, SDUMC, Kolar.

September is observed as World Alzheimer's month. This year, the theme is – **Time to Act on Dementia, Time to Act on Alzheimer's.**

The Department of Physiology, SDUMC is organizing a National Level Webinar on World Alzheimer's day on Friday, 20th September 2024. Alzheimer's disease (AD) is the leading cause of dementia, characterized by its progressive, age-related, and irreversible nature, leading to significant neuronal death and decline in cognitive functions. The "**Time to Act on Dementia, Time to Act on Alzheimer's**" campaign aims to shift attitudes towards dementia, addressing the stigma and discrimination that persist. It also highlights the efforts made by organizations and governments worldwide to create a more dementia-friendly society. This webinar will provide an overview of current attitudes towards dementia and explore the stigma associated with the disease.

Webinar on Alzheimer's disease

Topic:

"Can we prevent Dementia? - Lessons from India"

Mentally healthy children and adolescents are more likely to go to school/colleges ready to learn, actively engage in school/college activities, have supportive and caring connections with adults and young people, use appropriate problem-solving skills, have nonaggressive behaviours, and add to positive school culture.

Mental disorders can affect classroom learning, such as poor attendance, difficulties with academic performance, poor social integration, trouble adjusting to school/college, problems with behaviour regulation, and attention and concentration issues, all of which is critical to the success of the student.

“GUEST LECTURE”
On

“WORLD HEART DAY”

Date: 30/09/2024

Time: 09:00 A.M to 01.00 P.M

**Venue: Library AV hall (Dr. B C Roy
Hall).**

Organized by
Dept. of General Medicine

Program Description

Cardiovascular disease (CVD) is the world's number one killer. Combined, conditions affecting the heart or blood vessels – such as heart attack, stroke and heart failure – kill more than 20.5 million every year. The majority of these deaths happen in low- and middle-income countries.

We want to bring this number down – way down. And there's hope: 80% of premature deaths from CVD are preventable. By making small changes to our lifestyle – what we eat and drink, how much we exercise, and how we manage stress – we can better manage our heart health and beat CVD.

we will campaign under the theme of Use Heart for Action supporting individuals to care for their heart and empowering them to urge leaders to take cardiovascular health seriously.

This 2024 World Heart Day campaign is dedicated to motivating every country to develop or support national cardiovascular health action plans.

About the Speaker:

1. Dr.Murali babu M

**MBBS, MS (General Surgery),Mch
Consultant cardiovascular and thoracic
Surgeon- Narayana Hrudayalaya , Kolar**

**Topic-Coronary artery disease
(Basics,Indications for Surgery and

Presents

REGIONAL CME ON

**"PERIPHERAL NERVOUS SYSTEM AND
LEPROSY: UNMASKING HIDDEN CLUES"**

FRIDAY, 04TH OCTOBER 2024
Time: 9am to 1.30 pm Venue: William Osler
Hall 1st floor, SDUMC.

WITH BEST COMPLIMENTS FROM,
Organizing Chairman
DR. RAJASHEKAR T.S.

INVITATION

Dear Sir/Madam,

The Department of Dermatology, Sri Devaraj Urs Medical College, Kolar, invites you to attend our Webinar **CME on PERIPHERAL NERVOUS SYSTEM AND LEPROSY: UNMASKING HIDDEN CLUES**".

Join us for an enlightening CME on the impact of leprosy on peripheral nerves. We will delve into how changes in nerve function can reveal critical insights into the disease's progression. This CME will provide valuable information on early detection methods and discuss advanced strategies for improving treatment outcomes. Don't miss this opportunity to deepen your understanding and contribute to better management of Leprosy.

With warm regards,
Organizing Committee

Registration Link for CME:
KMC accredited with one Credit hour
(LAST DATE FOR REGISTRATION-30/09/2024)

Registration Fee-Rs.100/- Scan to Pay:

PROGRAMME

LECTURE-1

9:00 a.m. to 9:40 a.m.

Examination of peripheral Nerves in Leprosy & Clinical Signs of Neuritis
Speaker: Dr. Nanda Kishore. B
Former Professor & HOD,
Department of Dermatology,
Father Muller Medical College,
Mangaluru.

INAUGURATION:

9:40 am to 10:10 am

LECTURE-2

10:10 a.m. to 10:40 a.m.

Pathogenesis & Pathology of Neuritis in Leprosy
Speaker: Dr. A S Ramaswamy
Professor & HOD,
Department of Pathology,
PES Institute of Medical Sciences &
Research, Kuppam.

TEA BREAK:

10.40 am to 11.00 am

LECTURE-3

11:00 a.m. to 11:30 a.m.

All the Thickened Nerves are not due to Leprosy
Speaker: Dr. Nithin Kumar N
Chief Neurologist, Fortis Hospital,
Bengaluru.

LECTURE-4

11.30 a.m. to 12.00 p.m.

Indications & Biopsy techniques of peripheral nerves in Leprosy
Speaker: Dr. Varsha M
Senior Resident,
Department of Dermatology,
Kempegowda Institute of Medical Sciences,
Bengaluru.

LECTURE-5

12.00 p.m. to 12:30 p.m

Prevention of Neuritis – To add a note on Pure Neuritic Leprosy
Speaker: Dr. Ashwini P K
Associate Professor,
Department of Dermatology,
JSS Medical College, Mysuru.

LECTURE-6

12.30 p.m. to 1:00 p.m

Deformities and Disabilities in Leprosy
Speaker: Dr. G V Seethalakshmi
Professor & HOD,
Department of Dermatology,
Vinayaka Missions Kirupananda Variyar
Medical College, Salem.

Q&A SESSION

1:00 p.m. to 1.10 p.m.

VOTE OF THANKS

1:10 p.m. to 1:20 p.m.

Followed by Lunch

Sri Devaraj Urs Academy of Higher Education and Research
(A Deemed to be University), Tamaka, Kolar, Karnataka

organizing
Workshop on Grant Writing

7th October 2024, Time: 9:00 am to 1:30 pm

Venue: Dr. BC Roy Hall (Library building)

About the workshop

This workshop on grant writing is designed by the Research and Development Cell, SDUAHER to equip the faculty with the knowledge and skills needed to write successful research proposals and acquire grants from both government and non-government granting agencies. This workshop on grant writing covers the following key topics such as:

Understanding Grant Sources: Identifying potential funders, including government agencies, foundations, and corporations.

Writing Techniques: Developing clear and persuasive writing skills, with tips on how to engage reviewers and make a compelling case for funding.

Proposal Structure: Learning the essential components of a grant proposal, including the executive summary, needs statement, goals and objectives, methodology, budget, and evaluation plan.

Budgeting: Understanding how to create a realistic budget that aligns with project goals and funder expectations.

Discussion on the faculty proposals and provide valuable suggestion to improve.

Schedule

S. No	Time	Topic	Resource faculty
1.	9:00 am – 9:30 am	Registration	
2.	9:30 am – 10:15 am	Understanding Grant Sources & Writing Techniques	Dr. BS. Dwarakanath Research Advisor, Indian Academy Degree College Autonomous, Bangalore, India. Retired Scientist, INMAS, DRDO, Delhi
3.	10:15 am – 10:45 am	Inauguration	
4.	10:45 am – 11:00 am	Tea Break	
5.	11:00 am – 12:00 pm	Proposal Structure & Budgeting	Dr. Venkatachalam Perumal Professor & Head, Dept. of Human Genetics, Additional Dean, Research, Sri Ramachandra Institute of Higher Education and Research (SRIHER), Porur, Chennai
6.	12:00 pm – 1:00 pm	Discussion	Dr. BS. Dwarakanath Dr. Venkatachalam Perumal
7.	1:00 pm – 1:15 pm	Feedback & Vote of Thanks

ABOUT THE SESSION

Interactive panels in represent a transformative approach to teaching and learning in the healthcare field. These tools develop engagement by allowing students and educators to interact with content in real time, facilitating a deeper understanding of complex concepts. This session will cover essential features of the technology, innovative engagement strategies, and real-world applications through practical exercises.

“WORLD MENTAL HEALTH DAY”

INVITATION

Dear sir/ madam,

The department of Psychiatry, Sri Devaraj Urs Medical College, Kolar invites you to attend our CME program conducted as a part of World Mental Health Day 2024 with the theme “It is time to prioritize mental health in workplace”

We know that employed adults spend more time working, than any other activity during their waking hours. For many people, work falls far short of its potential, failing to enhance our lives & detracting from our mental health & well-being in ways that result in excessive distress & mental ill health. Mental health issues, such as depression & anxiety, are pervasive in workplaces globally, impacting productivity, attendance, & overall performance.

The data shows that prioritizing workplace mental health improves quality of life of people, companies, and communities.

Hence, through this World Mental Health Day we highlight the goal: to champion mental health in the workplace and build best practices that create cultures where workers have the potential to contribute productively and thrive.

PROGRAM SCHEDULE

09:00 AM to 9:30 AM

"WORLD SIGHT DAY 2024: CHILDREN, LOVE YOUR EYES"

DATE: 10 October 2024

TIME: 11:00 AM - 1:00 PM

**Venue: Dr B C ROY Hall, Central library
1st Floor, SDUMC, Kolar.**

**Join us in protecting the vision of our
future generations.
Every child deserves clear sight!"**

World Sight Day is a global campaign to raise awareness about the importance of eye health. This year, we focus on the eye health of our children."

The Importance of Eye Health:

- "Did you know? Uncorrected vision impairment can severely affect a child's education and social interactions."
- "Let's ensure eye health services are accessible, affordable, and available for every child!"

Myths vs. Facts:

- **Myth:** "Wearing glasses makes you look less cool."
- **Fact:** "Spectacles are a simple solution that can significantly improve a child's quality of life and confidence."

**Invest in our children's vision today
for a brighter tomorrow.**

"Small interventions, like getting a pair of spectacles, can change a child's world. With the SPECS 2030 initiative, we aim to provide quality, affordable spectacles for everyone in need."

- **Limit screen time and encourage outdoor play to prevent myopia.**
- **Schedule regular eye checks to catch issues early.**
- **"Remember, eye health matters for everyone. Take breaks from screens, protect your eyes, and avoid smoking and excessive UV exposure."**

Regn. No. RRN-4-00009-2021-22 dated. 23-04-2021 (Regd. under Indian Charitable Trust Act 1882)

ABOUT US

Karnataka Stroke Foundation, Bangalore is a charitable trust founded by 9 eminent neurologists in the City to promote stroke awareness. Stroke is a serious neurological condition resulting in significant number of deaths and disability.

Our foundation aims to promote stroke education by educating the doctors on latest developments and advances in stroke treatment. We intend to focus on patients, caregivers and support groups to increase awareness about stroke and the importance of golden hour.

We intend to work in coordination with policymakers to establish local policy on latest technologies in stroke treatment so that it becomes affordable to the weaker sections of the society.

On**

23/10/2024 from 9AM TO 5PM

**Venue: SKILL LAB, CARE BUILDING
Organized by**

Dept. of ORTHOPAEDICS

INTRODUCTION

A brachial plexus injury occurs when the nerves that control the arm and hand are damaged. This can happen due to various reasons, including trauma, such as from a car accident or sports injury, or medical conditions like tumors or infections.

Symptoms of a brachial plexus injury can vary depending on the severity of the damage. They may include:

- **Pain** in the shoulder, neck, or arm
- **Numbness** or tingling in the arm, hand, or fingers
- **Weakness** or loss of muscle function in the arm or hand
- **Difficulty** with fine motor skills, such as buttoning clothes or writing
- **Changes** in sensation, like feeling overly sensitive or insensitive to touch

Treatment for a brachial plexus injury often involves a combination of physical therapy, occupational therapy, and in some cases, surgery. The goal of treatment is to improve arm function

We cordially invite you for the
Workshop on

28TH
OCT
2024

**“Simulation in Teaching,
Learning, and Assessing
Skills”**

9:30
AM
TO
3:30
PM

ABOUT THE SESSION

This Faculty Development Program (FDP) is designed to train health professions educators in the effective use of simulation-based teaching methods. Using Basic Life Support (BLS) skills as an example, the program will cover best practices in simulation-based education, enabling educators to enhance the learning experience and skill acquisition of their students

Program Objectives

- By the end of the FDP, the health professions educators will be able to:
- Understand Principles of Using Simulation Labs for Teaching Skills
- Teach and Assess Basic Life Support Skills Effectively
- Utilize Simulation Labs for Designing and Implementing a BLS Workshop

Who Should Attend?

All Teaching faculty of Faculty of Allied Health & Basic Sciences, R. L. Jalappa College of Nursing.

PROGRAM SCHEDULE

Time	Session	Objectives
9:00 am – 10:00 am	Session 1: Introduction to Simulation-Based Learning Dr. K N V Prasad	Understand principles of using the simulations lab to teach skills
10:00 am – 11:00 am	Session 2: Teaching Basic Life Support Skills Dr. Sujatha	Teach and assess Basic Life Support skills effectively
11:00 am – 12:00 pm	Session 3: Assessment Strategies Using Simulation Dr. Sarulatha H	Assess skills effectively in a simulated environment
12:00 pm – 1:00 pm	Session 4: Designing a Basic Life Support Workshop Using Simulation Dr. K N V Prasad	Use a simulations lab effectively for designing a BLS workshop
1:00 pm – 2:00 pm	Lunch Break	
2:00 pm – 3:00 pm	Session 5: Developing Assessment Rubrics for Skills Evaluation Dr. Shoba M V	Create effective assessment rubrics for BLS skill evaluation
3:00 pm – 3.30 pm	Session 6: Feedback and Reflection Photo session.	Discuss strategies for providing feedback and promoting reflection

Certificate will be issued only on full attendance and successful submission of the feedback form.

**We cordially invite you all to a
Regional Level CME and WORKSHOP
on
“TOTAL KNEE ARTHROPLASTY”
On**

05/11/2024 from 9AM TO 5PM

Venue: LIBRARY AV HALL

Organized by

Dept. of ORTHOPAEDICS

INTRODUCTION

Total knee arthroplasty, commonly known as a **knee replacement**, is a surgical procedure that replaces damaged knee joints with artificial components. This is often done to relieve pain and improve function in people with severe osteoarthritis or other knee joint conditions.

1. **Removal of Damaged Parts:** The surgeon removes the damaged cartilage and bone from the ends of the femur (thighbone), tibia (shinbone), and patella (kneecap).
2. **Implantation of Artificial Components:** Metal and plastic components are then implanted to replace the damaged parts. These components are designed to mimic the natural movement of the knee joint.
 - **Pain Relief:** Significantly reduces knee pain caused by arthritis.
 - **Improved Function:** Enables patients to perform activities of daily living more easily.
 - **Increased Quality of Life:** Can enhance overall well-being and enjoyment of life.

Recovery from TKA typically involves a period of rehabilitation to strengthen the muscles around the knee and improve range of motion. This may include physical therapy, occupational therapy, and home exercises.

About the program

Hormones play a crucial role in a child's growth and development. An imbalance can have a significant impact on health. Pediatric endocrine problems represent only the tip of the ice berg. Their burden is hidden and unidentified in the society. In this CME, common endocrine disorders in children and adolescents will be discussed by a team of specialists in Pediatric Endocrinology.

on

"WORLD DIABETES DAY 2024: DIABETES AND WELL BEING"

DATE: 13th - 14th NOVEMBER 2024

TIME: 09:00 AM - 4:00PM

Venue: Seminar Hall, Dept. of Ophthalmology,
1st Floor, PG Block, SDUMC, Kolar.

**Join us in safeguarding vision for
tomorrow. Every eye deserves a
bright future!**

- **Diabetic retinopathy** is a common complication of diabetes, causing damage to the blood vessels in the retina, which can lead to vision loss if untreated. It is the leading cause of blindness among working-age adults globally. Early detection and timely treatment are key to preventing vision impairment, with advanced therapies like anti-VEGF injections and laser treatments improving outcomes.
- **World Diabetes Day**, observed every November 14, raises awareness about diabetes and its complications, including diabetic retinopathy. It highlights the importance of early detection, proper management, and the need for global action to reduce the burden of diabetes on individuals and healthcare systems worldwide.

**“ Early Detection Saves Vision -
Don't Wait, Act Now! ”**

RECENT ADVANCES IN DIABETIC RETINOPATHY (DR)

- **AI Screening:** AI improves diabetic retinopathy detection accuracy.
- **OCT & OCT-A:** Advanced imaging for early DR and Diabetic Macular Edema (DME) detection.
- **Anti-VEGF:** Reduces macular edema, improving vision.
- **New Anti-VEGF:** Faricimab lowers injection frequency.
- **Steroid Implants:** Alternative for anti-VEGF non-responders.
- **Gene Therapy:** Targeting root causes of DR.
- **Drug Delivery:** Sustained release reduces injection frequency.
- **Wide-Field Imaging:** Detects peripheral DR.
- **Telemedicine:** Expands DR screening access.
- **Laser Advances:** Subthreshold lasers minimize tissue damage.

SRI DEVARAJ URS MEDICAL COLLEGE

**A constituent of Sri Devaraj Urs Academy of Higher Education
and Research Centre**

Department of Pathology
In view of celebration of

“INTERNATIONAL PATHOLOGY DAY”

Organizing
e-Poster Competition (Group Activity)

**Theme: “Communicable diseases its causes, Life
Diagnosis, symptoms and prevention”**

Awareness among school children
On 13th November 2024

**Venue: Silver Jubilee Auditorium,
Second floor , Library Block
Sri Devaraj Urs Medical College
Kolar-563101
Karnataka, India**

Dear children/delegates,

It is a pleasure to invite you to participate in the awareness programme with the theme of “Communicable Diseases its causes, lab diagnosis, symptoms and Prevention” on the occasion of International Pathology day.

Since 2017 we are celebrating the International Pathology day on 2nd week of November every year by providing the awareness about health care system mainly to the young budding citizens - school children. This Year 2024 the Theme is “Communicable Diseases its causes, symptoms and Prevention”

International Pathology Day marks the contribution and achievements of Pathology and Laboratory Medicine services that address global health challenges and improve the health outcomes of global communities

We take this opportunity to mainly focus on communicable diseases like Tuberculosis, HIV, Hepatitis B, Malaria, Measels, Covid-19, leprosy, Parasitic infection, typhoid, cholera (Gastro enteritis) etc. to create awareness of these deadly disease among the school children and know the preventive measures.

Winners of the poster competition will be awarded with exciting Prizes and the same will be published in the Sankeerna College Magazines and in University Website.

Rules for the e-Poster Competition

Theme: “Communicable Diseases its causes, lab diagnosis, symptoms and Prevention”

1. One e-Poster per 5 participant.
2. 10 groups will be allowed to participate from each school.

3. e-Poster to be done under given template and final poster to be converted to PDF and presented through laptop. Students can use tables images, graphs from internet and make it more creative. (e-Poster Template will be provided by organizers through wats app and Laptop will be provided by organizers on the day of presentation.)

4. Rules of Poster presentation

- Each group will be allotted 3 mins for presentation including question and answer session by judges.
- These poster to be e-mailed to Organizing Secretary on or before 12/11/2024 for arrangement. E-Mail ID: soumyamhadimani@gmail.com

5. All the participants will be awarded with certificate of participation.

6. The best three e-Posters will be awarded first, second and third prize.

PROGRAMME SCHEDULE

Timing	Topic
9.30 am-10:00am	Brief introduction and commencement of Program
10:00 – 11:45 am	e-Poster presentation (Each group 3-5 min)
11:45 – 12:15 pm	Tea and snacks Break
12:15 - 12:20 pm	Welcome Address
12:20 -12:40 pm	Prize distribution
12:45 pm	Vote of Thanks & Museum and Lab tour (Pathology)

Comprehensive Diabetes Screening and Awareness

On the occasion of World Diabetes Day

WEDNESDAY, 20th November 2024

Time: 9am to 4.00 pm

Venue: General Medicine OPD.

WITH BEST COMPLIMENTS FROM,

Organizing Chairman

DR. VIDYASAGAR C R

INVITATION

Dear Sir/Madam,

The Department of General Medicine Sri Devaraj Urs Medical College, Kolar, invites you to our **Comprehensive Diabetes Screening and Awareness Programme on the occasion of World Diabetes Day.**

Diabetes is potentially the next major pandemic that we will have to face in the future. It is characterized by chronic hyperglycemia but has many other ramifications in the form of retinopathy, nephropathy, and neuropathy. Early screening and appropriate management and help achieve euglycemia. Screening also identifies high risk individuals for micro and macrovascular complications and prevents end organ damage. Here at RL Jalappa Hospital, on the event of World Diabetes Day, we welcome you to be a part of a **Comprehensive Screening Programme** for early detection of Diabetes. Your presence will be highly valued.

Warm regards,
Organizing Committee

PROGRAMME

9 AM TO 4 PM:

DIABETES SCREENING AND AWARENESS PROGRAMME

At General Medicine OPD, Room No 11, RL Jalappa Hospital, Kolar.

- Diabetes Information pamphlets
- Diabetes Foot Care Education
- Insulin administration and storage demonstration
- Education on Self-Monitoring of Blood Glucose
- Screening of Diabetes and Hypertension for General Public

10 AM TO 10:30 AM:

INAGURATION CEREMONY

At General Medicine OPD, Room No 11, RL Jalappa Hospital, Kolar

10 30 AM TO 11:15 AM:

ORIENTATION ON INSULIN STORAGE AND ADMINISTRATION FOR POST GRADUATES AND INTERNS

At P. G Audit Room Medicine OPD Room No: 11, Rl Jalappa Hospital, Kolar.

Invitation for CME on

***“Organ Donation – “From Donor to Recipient”-
Policy, Practice & Programs
in Health Care***

**On Friday, 22.11.2024, At 11:10 A.M
Venue: Dr.B.C.Roy hall, Library building, SDUMC**

***Organized by
Department of Emergency Medicine***

Organ donation is a critical aspect of modern healthcare, bridging the gap between life and death for patients with end-stage organ failure. The process, spanning from donor to recipient, is complex and involves a network of medical, ethical, and legal considerations. This Continuing Medical Education (CME) program, titled "Organ Donation: From Donor to Recipient - Policy, Practice, and Progress in Healthcare," aims to provide healthcare professionals with an in-depth understanding of the policies and practices governing organ donation, the medical advancements enhancing outcomes, and the ongoing challenges in the field.

Participants will gain insights into the comprehensive journey of organ donation, from the moment of donor identification to the successful transplant in the recipient. This CME will also address the latest policy developments, strategies to increase donor rates, ethical dilemmas in decision-making, and the role of healthcare providers in supporting donors, recipients, and their families. By the end of this program, attendees will be equipped to contribute effectively to improving organ donation systems, enhancing patient care, and advancing the field of transplant medicine.

Schedule

Time	Name of the speaker	Topic
11:15 TO 11:30 AM	Dr.Rajesh	Introduction with statistics. Where India stand today with respect to organ donation
11:30 TO 11:55 AM	Dr Narayana Swamy Moola	Policy & practice in identifying a potential organ donor
12:00 PM TO 12:25 PM	Dr Sunil karanth	Maintenance of potential organ donor
12:30 TO 12:55 PM	Dr Narayana Swamy Moola	Grief counselling after brain death-
12:55 TO 1:00 PM	Dr.Devendra Prasad.K.J	Vote of thanks
Followed by Lunch

Mission

To promote innovation, creativity, and economic growth by providing legal protections for original works and inventions.

By

Encouraging action: foster an environment where inventors and creators can develop and protect their ideas without fear of unauthorized use.

Expanding access: Encourage knowledge dissemination through licensing agreements and public access initiatives, striking a balance between protection and accessibility.

Dear Sir / Madam,

Intellectual Property Rights (IPR) are legal protections granted to creators and inventors to safeguard their original works, inventions, and brands.

These rights enable individuals and businesses to control the use of their intellectual creations and to benefit financially from them.

Understanding and respecting intellectual property rights is essential in today's knowledge-driven economy.

A high-risk pregnancy is one in which a woman and her fetus face a higher-than-normal chance of experiencing problems. These risks may be due to factors in the pregnancy itself, or they may stem from preexisting maternal medical conditions.

There is a rise in obesity that further has increased the risk of hypertension , gestational diabetes,and exacerbation of pre existing conditions. There is a need to update ourselves from time to time to provide qualitative maternal care

“BONE TUMORS”

On

29/11/2024 from 2PM TO 4PM

Venue: ORTHOPAEDICS OPD BLOCK

Organized by

Dept. of ORTHOPAEDICS

INTRODUCTION

A mass of unusual cells growing in a bone. Most bone tumours aren't cancerous.

Causes of bone tumours include abnormal healing of an injury, inherited conditions and radiation therapy. They can also be caused by bone cancer or another cancer that has spread to the bone from other parts of the body.

A bone tumour may be painful also. Some people have dull, aching pain.

In some cases, a minor injury causes a fracture near the tumor.

Treatments include surgery and radiation. Some non-cancerous tumours go away without treatment

GUEST SPEAKERS

Dr. SRINIVAS CHIRUKURI

MS Orthopaedics, Fellowship in Orthopaedic
Oncology

CEO and CONSULTANT ORTHOPAEDIC ONCO

Guest lecture on

“Overview of Children with HIV”

**By
Dr.Mamatha.M.Lala**

**Professor of Practice
SDUAHER, Kolar**

**On 2nd December, 2024
Timings: 12:00PM to 01:00PM
Venue-C V Raman Hall**

About the event

On the occasion of “World AIDS DAY” Department of Pediatrics is organizing a guest lecture on Pediatric HIV

HIV Transmission is most common due to vertical transmission, Early diagnosis of HIV exposed infants is very important, without treatment about 1/3rd of infants living with HIV will die in their 1st year and 50% by 2nd year of life.

National HIV programme commitment on achieving 90-90-90 target by 2030 which aims at ending the AIDS epidemic, In an attempt to achieve the target, screening of sick infants/children with unknown HIV exposure is important The need of the hour is to have an estimation of HIV disease burden in symptomatic infants/children with risk factors at community level.

Regards
Department Of Pediatrics.

To commemorate the centenary celebration of Sri. R. L. Jalappa Founder Chairman, SDUAHER, Kolar we are organizing a workshop on **“TYPESET.io-SCISPACE”**. It is our immense pleasure to inform you that, the University Library Learning Resources Centre and Research & Development SDUAHER, jointly organizing the workshop **on 4th December 2024 at Dr. B. C. Roy Hall, ULLRC, SDUAHER**

About Typeset.io

Typeset is a platform to help with literature review, chat with PDF, understand papers, write, format, and submit better research papers to journals. Reduces the quality of time in reading papers and helps consume more quality papers. It also helps to create PG Dissertation & PhD thesis, assignments and reports with accuracy and speed.

Journal Templates, Collaborative Writing, Citations and References, Automatic

Benefits

primarily in improving the quality, efficiency, and professionalism of the written documents they produce.

Resource Person:

Mr. Raghavendra R, M.Sc., LLB, PGDIPR
PGDMCJ, Founder, TechGadi,
Bengaluru.

Having 25 years of experience in multiple domains with diversified segments. Technological products and databases to Academic, Healthcare, corporate and School domains. Apart from offering Skill development and training, setting up and renovating of knowledge centres.

Earlier he was heading the Business Development unit of DrillBit SoftTech India Pvt. Ltd. During his tenure done end-to-end sales lifecycle, Training, Strategies, identifying channel partners and integration partners and closing Big-ticket business. Visited 600+ Institutions, Conducted 1500+ training, 18000+ participants, handled 5000 queries during last FY 2023-2024. delivered several Invited talks, guest lectures and product presentations.

Before this engaged in the Information Science domain for more than a decade. He worked at CSIR (NAL)Lab to IISc to Secretariat library (Vidhana Sodha) to Engineering firm to Life Science R&D center.

WELCOME MESSAGE

Welcome to the International Conference on Health Professions Education! We are thrilled to have you join us as we explore the theme, "Adapting to Change for Sustainability in Health Science Education."

We conduct this as a tribute to the educational legacy of Shri R L Jalappa. A visionary leader and champion of learning, Shri Jalappa has dedicated his life to advancing the transformative power of education, recognizing its vital role in empowering individuals and uplifting communities.

Inspired by his commitment, we aim to create an environment that embodies excellence, accessibility, and opportunity for all. Guided by his emphasis on educational equity, we strive to break barriers, nurture talent, and foster ethical leadership, particularly in fields as impactful as health education.

This conference celebrates his belief in education's capacity to drive societal progress and meaningful change. May his vision inspire each of us to contribute to this field with purpose, integrity, and dedication. Welcome to a community that learns, grows, and leads—
together.

Pre-Conference Workshop Schedule

12th December 2024

Workshops Offered:

- **Educational Research:** Discover the latest methodologies and approaches in health professions education research.
- **Interactive Tools:** Explore tools and technologies that enhance learning and engagement.
- **Reflection:** Learn the importance of reflective practice in education and patient care.
- **Inter-professional Communication:** Acquire the art of communicating with other professionals.
- **Skill-Based Learning:** Delve into strategies for effective skill acquisition and assessment.
- **Academic Leadership:** Build leadership skills
- **Gamification:** Explore the various tools involved in gamification for active learning.
- **Conflict Management:** Learn to navigate conflicts in academic settings.
- **Humanities:** Integrate humanities into health professions education to foster empathy and communication.
- **Inter-professional Telehealth Simulation:** Enhance critical thinking and decision-making in telehealth scenarios.
- **Outcome-Based Education:** Focus on designing curricula that meet defined educational outcomes.

Plenary sessions

- Health profession education curriculum: Global to regional - Bridging the gap
- Coaching: An integral component of competence based education
- Programmatic assessment for documenting acquisition of competencies in health profession education
- Entrustable Professional Activities: way forward for embracing competency based education in health science Universities
- Empowering educators through transformative leadership for sustaining change
- Opportunities for educational fellowships in India and abroad for professional development
- Need for quality initiative in educational programs for a robust IPE

Panel discussion

- Continuous Professional Development: Opportunities and Significance in Empowering Educators
- Student Engagement: Aligning with the Core Abilities of Millennial Learners

Conference research categories

- Strategies for integrating emerging technologies
- Approaches to curriculum development and assessment
- Enhancing student engagement and learning outcomes through active teaching learning
- Adapting assessment and feedback mechanisms for continuous learning and improvement
- Leadership approaches to manage change and foster innovation in health education
- Building resilience and adaptability in health education programs
- Sustainability practices and their impact on educational quality
- Other topics related to educational innovation and adaptation in health professions education

Pre-Conference Workshop Schedule

12th December 2024

Time	Workshop Title	Speaker(s)
9:00 AM - 12:00 PM	Educational Research	Dr. Narasimman Swaminathan

We cordially invite you all to a
WORKSHOP

On

**HEALTHY WOMEN, HEALTHY
WORLD**

Organized by

**Department of Obstetrics &
Gynaecology**

When thinking about women's health, there's a lot to consider. Knowing the diseases and conditions that are among the top health risks for women, such as heart disease and breast cancer, is important. But for many women, effectively managing other matters that affect daily health, such as premenstrual syndrome, birth control, fertility, menopause and more, also is key to enjoying a vibrant life.

One topic that often raises many questions is menstrual and breast health. A fundamental component of women's health, menstrual hygiene entails a thorough comprehension of the behaviours intended to preserve health and cleanliness during the menstrual cycle.

Cancer cervix screening plays a major role in early diagnosis of pre malignant and malignant conditions of cervix. Sensitising all the women about screening is important to reduce the cancer related morbidity and mortality

CHIEF GUEST

**SRI NIKHIL B,
IPS
SUPERINTENDENT OF
POLICE, KOLAR**

PROGRAMME DETAILS

DATE: 28th December 2024

TIME: 10:00 am to 11:30 am

Trusted By 3,00,000+ Patients

One Of The Fastest Growing Hearing Care Chain In India

"Expect Growth, Think Aanvii"
Together, We shape a brighter future for your career

 www.aanviihearing.com

 customercare@aanviihearing.com

WHY CHOOSE AANVII HEARING?

See why over **3,00,000+** patients have trusted us with their hearing healthcare since we opened our doors in 2014.

Aanvii Hearing Solutions is dedicated to exceptional customer support. A team of **trusted professional hearing aid experts are here to serve your patients.** Your patients hearing health is our top most priority, so we will do everything, we can help to preserve their **good hearing.**

At **Aanvii Hearing Solutions**, we're here to answer all your patients hearing related concerns and help find the **best hearing solution.** We want to be your lifetime hearing care partner for your patients. We are here to help your patients find the best hearing aid for their lifetime. At Aanvii Hearing, we have a variety of Hearing aids with multiple styles and types to fit the needs and budget of your patients.

At **Aanvii Hearing**, we provide a **wide range of services** which includes **hearing aid consultation, hearing tests, understanding of hearing loss, dispensing of hearing aids, speech therapy and best after sale services.**

Our goal is to **provide a door for everyone with speech and hearing problems**, that they can knock for help anytime! We are committed to **our patients across various stages of their journey that makes us very different from others.**

"A RIDDLE: The Hidden Knowledge",

An initiative designed to offer final-year B.Sc. and M.Sc. students valuable insights into dispensing audiology

"When **"WHY"** is clear, the **"HOW"** is easy".

"If you can't explain it **SIMPLE**, you haven't understood it **DEEP** enough"

Guided by these principles, the **A RIDDLE** project focuses on addressing the practical challenges faced by audiology professionals in Dispensing Audiology, often caused by a lack of understanding the **"WHY"** behind key concepts and layman-friendly counselling techniques.

AANVII CAREER GUIDANCE NAVGYAN

Our Story

At Aanvii Hearing, we understand the importance of leaving a lasting impact and are dedicated to making this dream a reality. We began our journey in 2014 as an authorized distributor of Signia hearing instruments with a clear mission: to assist our customers in finding the best solutions for their hearing needs.

“

**We believe in
"Better Hearing
Through
Innovation"**

”

Founder and entrepreneur, Mr. Vishal Shah, was motivated to start Aanvii Hearing after his father was diagnosed with hearing impairment.

He saw firsthand the difficulties and struggles his father faced in communicating with loved ones and knew there had to be a better solution. This personal experience sparked the idea for Aanvii Hearing – to provide affordable, easy-to-use and accessible hearing aids for everyone.

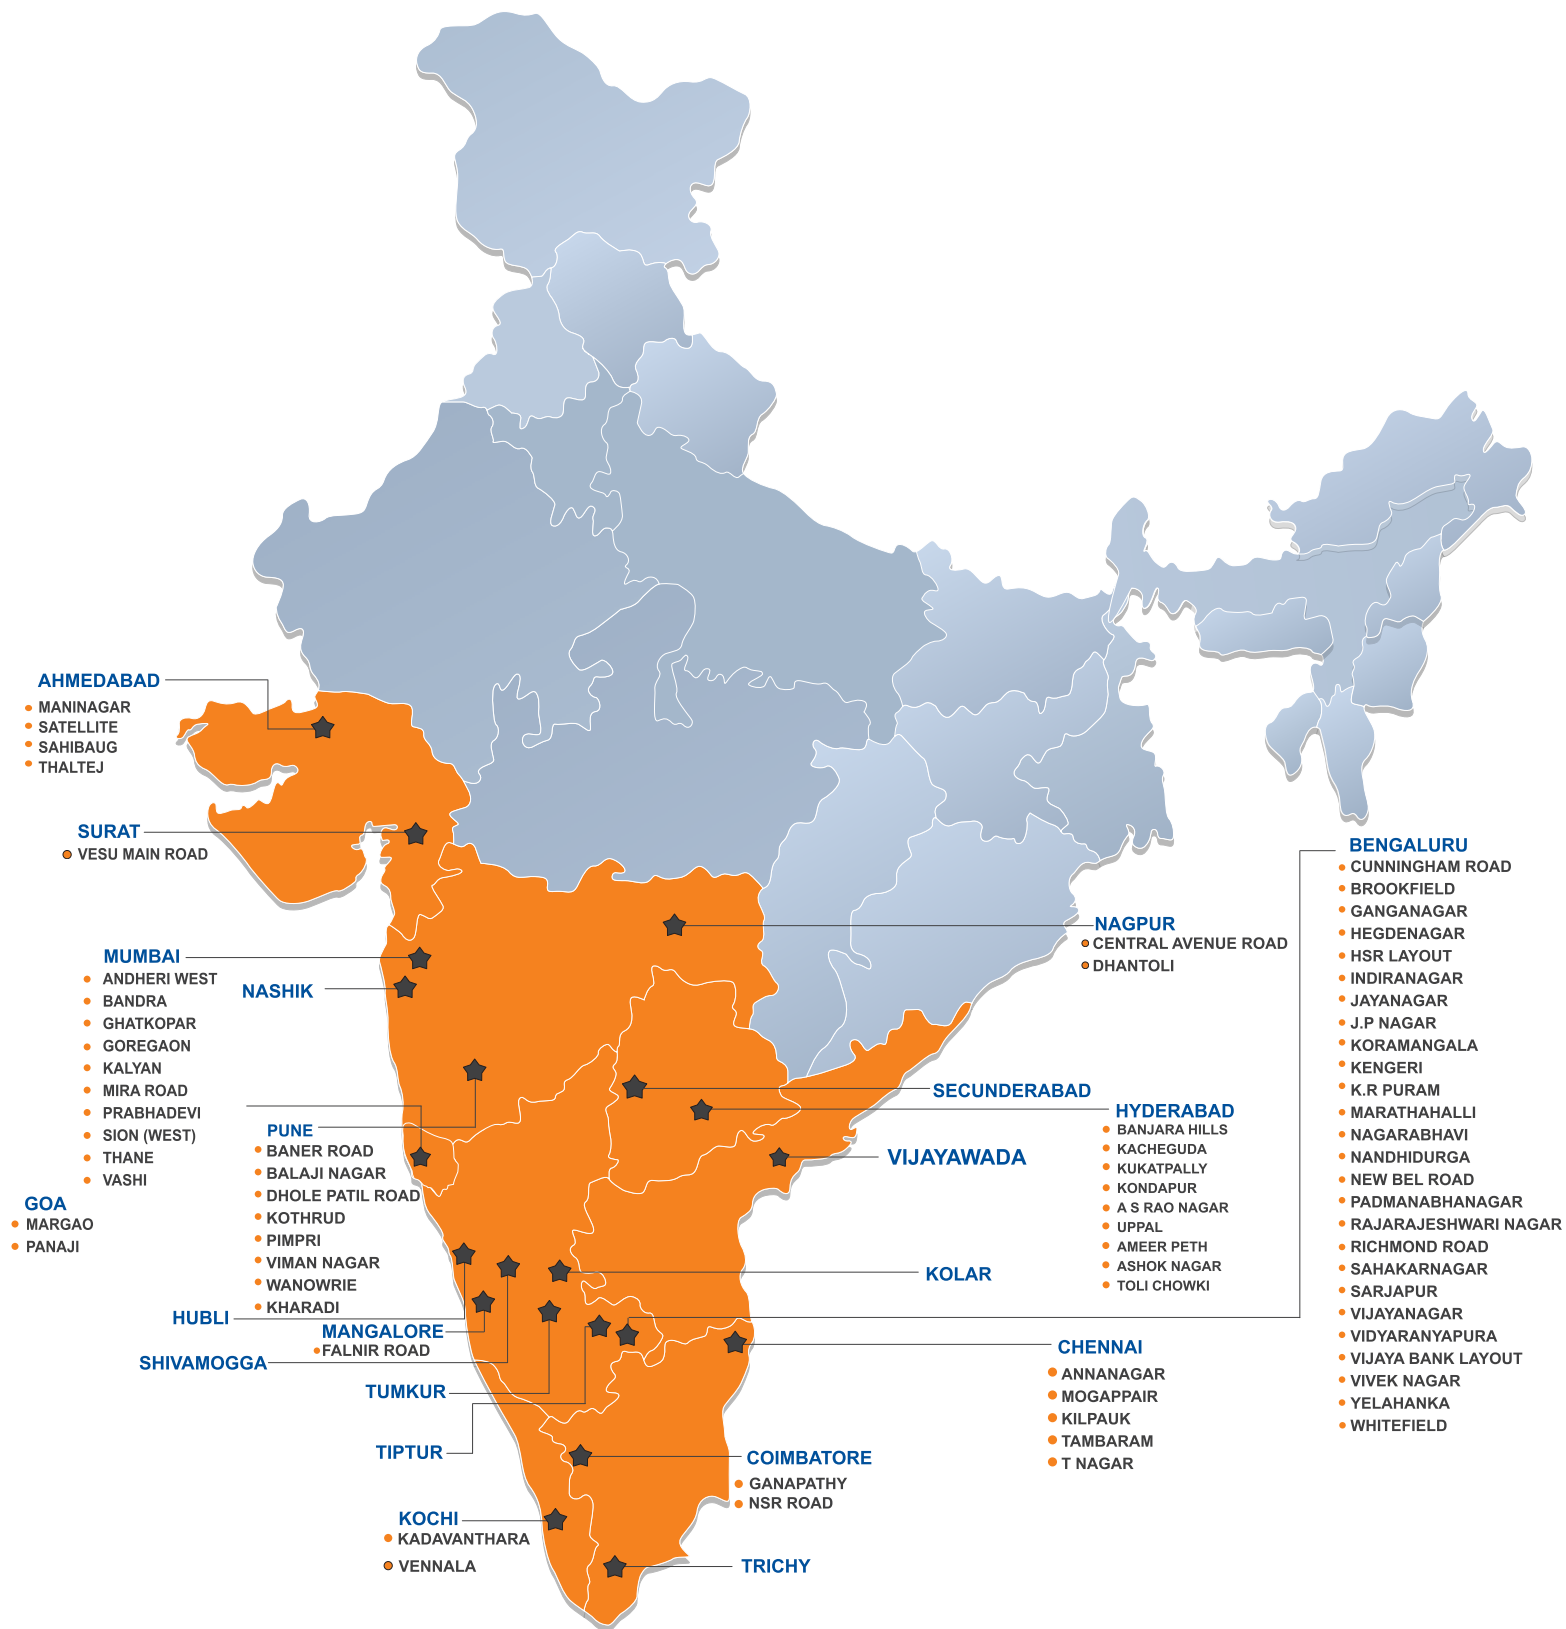

Since our establishment, we have rapidly grown from one clinic in Bangalore to more than **82 clinics across 21 major cities.**

“

Our goal is to continue expanding and improve the lives of 5 lakh Indians by 2025 through our hearing aids

”

Our team of expert and trained audiologists are dedicated to helping our customers connect with their loved ones and providing exceptional service. We are committed to providing the latest technology to our customers at reasonable prices. Let us help you improve your hearing with an Aanvii- developed solution.

GUEST LECTURE

on

"LABOUR ANALGESIA"

DATE: 21 JANUARY 2025

TIME: 2.30AM - 4PM

**Venue: UNIVERSITY BLOCK,
OBG Department, 1st Floor,**

Organized by

Dept. of Obstetrics & Gynaecology

Advances in the field of labour analgesia have tread a long journey from the days of ether and chloroform in 1847 to the present day practice of comprehensive programme of labour pain management using evidence-based medicine. Newer advances include introduction of newer techniques like combined spinal epidurals, low-dose epidurals facilitating ambulation, pharmacological advances like introduction of remifentanyl for patient-controlled intravenous analgesia, introduction of newer local anaesthetics and adjuvants like ropivacaine, levobupivacaine, sufentanil, clonidine and neostigmine, use of inhalational agents like sevoflourane for patient-controlled inhalational analgesia using special vaporizers, all have revolutionized the practice of pain management in labouring parturients.

Pain relief in labour has always been surrounded with myths and controversies. Hence, providing effective and safe analgesia during labour has remained an ongoing challenge.

GUEST SPEAKER:

Dr. Anil Kumar M R

Professor,

**Department of Anaesthesia, Pain &
Critical care**

JSS Medical College, Mysore.

**“Empowering Learning
and Growth: E-Portfolio
Development in Health
Professions Education”**

9:00
AM
TO
4:00
PM

Venue:

Conference hall, UCHPE 3rd Floor, CARE Building, SDUAHER, Kolar.
Transport facility available from Bangalore.

ABOUT THE SESSION

This one-day hybrid workshop on **E-Portfolio Development** aims to empower participants with the knowledge and skills to design and implement effective e-portfolios in health professional education. Through interactive sessions and hands-on activities, participants will explore the significance of e-portfolios as tools for learning, reflection, and assessment, gaining practical insights into creating and customizing their own digital portfolios.

Program Objectives

- To develop skills in creating, customizing, and maintaining e-portfolios.
- To create e-portfolios for self for teaching learning, Appraisal based on student/faculty portfolio.
- To appreciate the role of evaluating e-portfolio for continuous assessment in Competency based education.

Who Should Attend?

Faculty and students in health professions education interested in developing portfolios.

PROGRAM SCHEDULE

Time	Session	Faculty
8:30 AM - 9:00 AM	Registration	
9:00 AM - 9:15 AM	Welcome Address	Dr Vinutha Shankar

Preamble

The field of physiotherapy has seen remarkable advancements in addressing the challenges faced by critically ill patients in intensive care units (ICUs). The role of physiotherapy in ICU settings is pivotal, not only in improving patient outcomes but also in reducing the long-term burden of critical illness. From enhancing respiratory function to promoting early mobilization, physiotherapists contribute significantly to the recovery process of patients with complex medical conditions.

However, the dynamic and multidisciplinary nature of ICU care requires ongoing education, collaboration, and innovation. This workshop serves as a platform to bring together and discuss the latest evidence-based practices, emerging technologies, and strategies for overcoming barriers in ICU physiotherapy.

Program Schedule

Time	DETAILS	FACULTY
24-01-2025		
8.30 am to 9.30 am	Registration	Mr. Likhith M
9.30 am to 10.15 am	ICU Assessment & Monitoring	Dr. Senthil Kumar E
10.15 am to 11.00 am	ABG & PFT	Mr. Shaswat Verma
11.00 am to 11.15 am	Tea break	
11.15 am to 11.30 am	Inauguration	
11.30 am to 12.15 pm	Chest X-ray	Mr. Shaswat Verma
12.15 pm to 1.00 pm	Basic Life Support	Dr. K. N. V. Prasad
1.00 pm to 2.00 pm	Lunch	
2.00 pm to 4 pm	Basic Life Support	Dr. K. N. V. Prasad
25-01-2025		
8.30 am to 9.30 am	Enhancing Airway patency in artificial airways	Dr. Sankar Ganesh
9.30 am to 10.15 am	Physiotherapy Management in ICU	Dr. Anjali Suresh
10.15 am to 10.30 am	Tea break	
10.30 am to 11.15 am	Station - 1 Oxygen Therapy	Dr. Suresh Kumar. M
11.15 am to 12.00 pm	Station 2 Manual Hyperinflation	Mr. Pavan Kumar
12.00 pm to 12.45 pm	Station - 3 Airway Clearance Techniques	Mr. Mohan Das
12.45 pm to 1.45 pm	Lunch	
1.45 pm to 3.30 pm	Station - 4 Respiratory Muscle Training	Dr. Navabharatha Reddy
	Station- 5 Mechanical Ventilation monitoring perspectives for physiotherapy	Dr. Sankar Ganesh
3.30 pm to 4.00 pm	Cerficate & Valedictory Function.

"Cite While you Write: Reference Management Tool- MENDELEY"

On

29th January 2025

2.00 PM

**Venue: Dr. B.C.Roy Hall, Library
Organized**

**University Library Learning
Resource Centre**

Dear Sir/ Madam,

It is our immense pleasure to inform you that, to commemorate the centenary celebration of Sri. R. L. Jalappa Founder Chairman, SDUAHER, Kolar University Library is organizing a workshop on **"Cite While you Write: Reference Management Tool- Mendeley"** on 29th January 2025, from 2.00 P.M. at Dr. B. C. Roy Seminar Hall, ULLRC, SDUAHER

Mendeley: Mendeley is a reference management tool called a citation manager or bibliographic software. This software is designed to help researchers, students, and academics collect, organize, and manage references or citations.

This workshop is aimed to familiarise participants with Mendeley, a reference management tool, and provide hands-on training on effectively organising references, citing sources, and managing research literature using this software. The resource persons of the workshop highlighted the importance of reference management in academic work and explained how Mendeley can streamline the citation process and facilitate literature

The workshop provided step-by-step instructions on creating in-text citations and a list of references using Mendeley. Participants learned how to integrate Mendeley with popular word-processing software and generate citations and bibliographies in different citation styles.

Resource Person:

Dr. Samudyatha U.C., Assistant Professor, Dept. of Community Medicine, SDUMC, Kolar. She has Four years of teaching experience and published scientific research publications in national and international journals indexed in Scopus and Web of Science and book chapters. She conducted many research workshops and research projects.

Dr. Prakash, University Librarian, SDUAHR, Kolar. He has thirty years of experience. He published scientific research articles in national journals. He conducted hands-on training on research methodology, reference management Tools (Mendeley & Zotero), Selection of Journals for research publications and plagiarism (Turnitin), literature search and many more.

ABOUT THE SESSION

An investigation in the respiratory medicine involves examining various aspects of respiratory health, the disease, the diagnostic methods and management.

WHO SHOULD ATTEND ?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

- 1. Know the importance of learning the common respiratory tract diseases**
- 2. Enumerate the common respiratory tract diseases and their causes**
- 3. Have a knowledge of the diagnostic tests**
- 4. Understand their roles and responsibilities in the management of these disorders**
- 5. Be aware of the prevention strategies**

Sri Devaraj Urs Academy of Higher Education and Research

(A Deemed to be University), Kolar, Karnataka, India

National Scientific Conclave on Interdisciplinary Research

Revolutionizing Health Outcomes through collaborative efforts across Basic, Allied Health and Medical Sciences

4th & 5th February 2025

National Conference in Commemoration of Centenary Celebration of Founder Chairman, Sri R L Jalappa

Venue:

Silver Jubilee Auditorium
2nd Floor, Library Building
SDUAHER

Organized by

Research and Development Cell,
SDUAHER, Kolar, Karnataka, India
e-mail: rdc_nsc4525@sduahe.ac.in

Welcome

About the Academy

In the year 1984, a group of dedicated and like-minded visionaries headed by Sri R L Jalappa, a champion of the Cooperative movement in the state of Karnataka established the Sri Devaraj Urs Educational Trust for Backward Classes with the focus on provisioning of Medical Education and Social Services.

The Ministry of Human Resource Development, Government of India conferred 'Deemed to be University' status to the Sri Devaraj Urs Academy of Higher Education and Research under Section 3 of UGC Act 1956 on 25th May 2007 (vide letter No. F.9-36/2006-U 3(A) dated 25th May 2007). The lush green campus of the University is spread over an area of more than 72 acres of land and houses the medical college, hospital, administrative offices, University and affiliated departments, canteens, and hostels. Currently, the University has Faculty of Medicine, Faculty of Allied Health and Basic Sciences, College of Nursing, College of Physiotherapy and College of Pharmacy.

About Scientific Conclave

Interdisciplinary research is the cornerstone of innovation in the health sciences. It involves integrating thoughts, knowledge, methods, and perspectives from multiple disciplines to address complex health problems that cannot be effectively solved by any single field alone. In today's world, health challenges such as chronic diseases, pandemics, and other multifaceted conditions demand insights from diverse fields.

This National Scientific Conclave, organized by the Research and Development cell at SDUAHER, seeks to bring together experts from Basic Sciences, Allied Health Sciences, and Medical Sciences, as well as faculty, policymakers, and students, with the shared goal of revolutionizing health outcomes. Through collaborative efforts, this conclave aims to foster innovative approaches to health challenges, promote knowledge exchange, and develop comprehensive solutions.

Topics Covered

Theme 1: Diabetes

- Precision medicine in diabetes
- Molecular genetics of diabetes
- Nutrition dynamics of diabetes
- Diabetes in children

Theme 2: Cancer

- Global burden of cancer
- Molecular genetic techniques in cancer
- Advances in imaging technology
- Nutrition and cancer
- Yoga and cancer
- Palliative care in cancer management

Speakers

Dr. M. Balasubramanyam

ICMR Emeritus Scientist & Professor
Madras Diabetic Research
Foundation, Chennai

Dr. Tapas K. Kundu

Professor and Head
Molecular Biology and Genetics
Unit, JNCASR, Bangalore

Dr. V. Vettriselvi

Professor
Dept. of Human Genetics,
Sri Ramachandra Institute of Higher
Education and Research, Chennai

Dr. B.A. Krishna

Consultant
Department of Nuclear Medicine
& PET Imaging
Lilavathi Hospital and Research
Centre, Mumbai

Dr. Sindhu S

Senior Dietitian,
Ernakulam Medical Centre,
Kochi, Kerala

Dr. Ayesha Ismail

Scientist F & Head Endocrinology,
ICMR - National Institute of
Nutrition, Hyderabad

Dr. K. M. Prasanna Kumar

Director and Consultant
Endocrinologist, Centre for Dietetics
and Endocrine Care, Bangalore

Dr. Raghavendra Rao M.

Director, CCRY, Ministry of Ayush,
Govt. of India, Delhi

Dr. Prashant Mathur

Director, ICMR – National Centre for
Disease Informatics and Research,
Bangalore

Dr. Raghavendra R

Lead Consultant Pain,
Palliative & Rehabilitation Medicine
Aster Hospitals, Bangalore

Schedule

(Hybrid mode)

Day 1- 04th February 2025- Theme: Diabetes

Time	Topic	Speakers
9.15 am - 10.00 am	Omics advancements and the road map of precision medicine in diabetes	Dr. M. Balasubramanyam
10.00 am - 10.45 am	Inauguration & Tea Break	
10.45 am to 10.50 am	NAMS introduction by NAMS observer	
10.50 am to 11.00 am	Pre-test	
11.00 am - 11.40 am	Recent advancements in the molecular genetics of diabetes	Dr. V. Vettriselvi
11.40 am - 12.20 pm	Nutrition dynamics for the prevention and management of diabetes	Dr. Sindhu S
12.20 pm – 1.00 pm	Diabetes in children as heterogenic as in adults	Dr. K. M. Prasanna Kumar
1.00 pm – 1.10 pm	Post-test	
1.00 pm - 2.00 pm	Lunch Break	
2.00 pm - 4.00 pm	Free papers (both oral and poster)	

Day 2 - 05th February 2025 – Theme: Cancer

Time	Topic	Speakers
8.50 am to 9.00 am	Pre-test	
9.00 am - 9.45 am	Global burden of cancer	Dr. Prashant Mathur
9.45 am - 10.30 am	Molecular genetic techniques in management of cancer	Dr. Tapas K. Kundu
10.30 am - 11.15 am	Advances in imaging technology in cancer diagnosis	Dr. B. A. Krishna
11.15 am - 11.30 am	Tea Break	
11.30 am - 12.15 pm	Role of nutrition in the prevention and management of cancer	Dr. Ayesha Ismail
12.15 pm - 1.00 pm	Yoga and cancer management	Dr. Raghavendra Rao M.
1.00 pm - 2.00 pm	Lunch Break	
2.00 pm – 2.45 pm	Advances in palliative care in cancer management	Dr. Raghavendra R
2.45 pm – 3.00 pm	Post-test and feedback	
3.00 pm - 4.00 pm	Valedictory

About the event

Melioidosis is a potentially serious infectious disease, caused by *Burkholderia pseudomallei*. The disease is mostly missed due to lacunae in clinical suspicion and lack of robust diagnostic methods. The Department of Microbiology is pleased to bridge this gap, by bringing to your doorsteps an excellent Online lecture by world renowned subject expert, who shall lucidly present to you the clinical picture, and the means of diagnosis and management. Looking forward to your active participation.

Tamaka, Kolar - 563 103

University Centre for Health Professions Education

SRI R L JALAPPA CENTENARY YEAR
(1925-2025)

We cordially invite you for the
Workshop on

21
Feb
2025

**“ELS6: Integration
of AI tools in
Question
Paper Setting”**

9:30
AM
to
4:00
PM

ABOUT THE SESSION

This workshop on "Question Paper Setting" is designed for health professional educators to enhance their ability to create effective, fair, and reliable assessments. The focus will be on framing both subjective and objective questions that accurately measure students' knowledge, skills, and critical thinking. Through interactive exercises, participants will refine their question-setting techniques and improve their assessment strategies for health education.

PROGRAM OBJECTIVES

- To develop skills in creating valid and reliable assessments.
- To formulate subjective and objective questions that assess various cognitive levels.
- To frame clear, concise, and unbiased questions for diverse assessment needs.

WHO SHOULD ATTEND?

Faculty in health professions education.

VENUE

Conference hall, UCHPE 3rd Floor, CARE Building, SDUAHER, Kolar.

PROGRAM SCHEDULE

Time	Session	Faculty
9:15 AM - 9:30 AM	Registration	
9:30 AM - 10:00AM	Structuring of essay type questions and blueprint	Dr. Suresh T
10:00 AM - 11:00 AM	Group task and debriefing	
11:00 AM - 11:15 AM	Tea Break	
11:15 AM - 11:45 AM	Framing multiple choice questions	Dr. Sarala N
11:45 AM - 1:00 PM	Group task and debriefing	
1:00 PM - 2:00 PM	Lunch	
2:00 PM - 3:30 PM	Enhancing MCQ construction using AI tools	Dr. Vinutha Shankar Mr. Lokheshwar S
3:30 PM - 4:00 PM	Feedback & Photo Session

**"AGE RELATED MACULAR
DEGENERATION"**

DATE: 28 February 2025

TIME: 2:00 PM - 4:00 PM

**Venue: Dr. B C Roy Hall,
UNIVERSITY LIBRARY LEARNING
RESOURCE CENTRE,
SDUMC, Kolar.**

**Don't be in the dark !
Get tested today !!
There is HOPE !!**

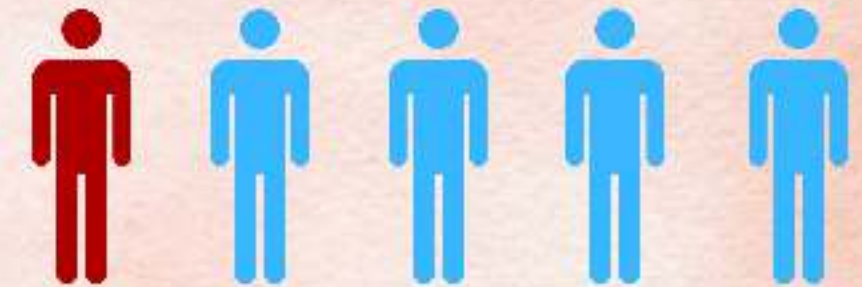

LOW VISION AWARENESS MONTH

People with low vision are typically aged 65 or older. The leading causes of vision loss are age-related macular degeneration, diabetic retinopathy, cataract and glaucoma. For younger people, a few common causes of vision loss are due to inherited eye conditions, infections, autoimmune eye diseases and trauma. Maximizing their remaining sight is the Key.

What is Low Vision?

Low vision is when even with regular glasses, medicines, contact lenses or surgery people still have difficulty seeing, making everyday tasks difficult. Activities like shopping, cooking, reading the mail and writing can become challenging.

AMD AWARENESS GUEST LECTURE
Here is a new stage of opportunity to
strengthen the ageless wisdom on
Age-Related Macular Degeneration.

**1 in 5 people over 50 years will develop
Age-Related Macular Degeneration
(AMD) in their lifetime.**

Age-related Macular Degeneration:

Who is at Risk?

60 and
older, but it
can occur
earlier

Smokers
have double
the risk of
AMD

AMD is
more
common in
Caucasians

Those with a
family history.
There are
nearly 20 genes
linked to AMD

**"AGE GRATEFULLY AND
GRACEFULLY"**

TAMAKA, KOLAR - 563103

We cordially invite you all to

20th Annual Pathology CME
In commemoration of Centenary celebration
of Founder Chairman,
Sri R L Jalappa

“Hematology Updates”

On 01-03-2025

Organized by
Department of Pathology

Sri Devaraj Urs Medical College

The constituent College of Sri Devaraj Urs Academy of
Higher Education and Research
(Declared U/S 3 of UGC act 1956 as Deemed to be university)
Tamaka, Kolar – 563 103

**The Event is being held in association with
KCIAPM & MERT**

About the Department

Department of Pathology, Sri Devaraj Urs Medical College has been actively involved in research activities and committed to enhancing the postgraduate and faculty knowledge by conducting annual CMEs for two decades on relevant topics by engaging eminent speakers across the globe.

Program Description

The CME is designed to include lectures on various aspects of Hematology by experts in this field. The CME will help post graduates and teaching faculty to have a better understanding of applied aspects of laboratory Hematology and its quality control.

REGISTRATION

To register CLICK on the below google form link after making the payment by scanning the QR code as transaction details are

needed to fill the registration form

Registration fee: Rs 200/- (Till February 25th)

Spot registration fee: Rs 300/-

Kindly scan the QR code below to make the payment:

Registration link: [CLICK HERE](#)

TWO KMC Credit points will be awarded to all participants registering before 25th February 2025 after confirmation by KMC.

NO KMC credit points will be awarded for spot Registrations.

Certificates will be issued after the submission of feedback.

Programme Schedule

8.30AM to 4.30PM

TIME	SESSION	SPEAKER
8:30AM to 9:00 AM	Registration	
9:00AM to 10:00AM	Cell Counter - Graphical data - The Core in a Patient's Diagnosis	Dr Pradeep Kumar V, Consultant Pathologist and Head, Hematopathology, Neuberg Anand Laboratory, Bangalore.
10:00AM to 11:00AM	Basics of Flow cytometry	Dr Sandeep Rao, Director Laboratory services, HCG NCHRI Oncology, Bangalore
11:00AM to 11:30AM	Inaugural ceremony	
11:30AM to 12:30PM	Quality control in hematology	Dr Joy Mammen, Professor, Department of IHBT, CMC Vellore
12:30PM to 1:30PM	Flow cytometry in Hematolymphoid malignancies: Case based discussion	Dr Sandeep Rao, Director Laboratory services, HCG NCHRI Oncology, Bangalore
1:30PM to 2:15PM	Lunch break	
2:15PM to 3:00PM	Bone Marrow - Integrated Approach - The Why and How of Interpretation	Dr Pradeep Kumar V, Consultant Pathologist and Head, Hematopathology, Neuberg Anand Reference Laboratory, Bangalore
3:00PM to 3:45PM	Lab Diagnosis of Hemolytic anemia	Dr Kumar C, Professor East Point medical college, Bangalore
3:45PM to 4:30 PM	Valedictory function and Vote of thanks

CALL FOR AWARD APPLICATIONS

Celebrate Excellence in Physiotherapy!

We are proud to honor outstanding contributions in the field of physiotherapy. Apply or nominate deserving individuals for the following prestigious awards:

- **Best Clinician:** Recognizing exemplary clinical skills and patient care.
- **Best Researcher:** Celebrating impactful research that advances physiotherapy knowledge and practice.
- **Best Academician:** Honoring exceptional dedication to teaching and shaping future physiotherapists.
- **Distinguished Professional Award:** Acknowledging lifetime contributions and leadership in the profession.

Eligibility and Submission Guidelines:

- Submit a detailed application or nomination highlighting achievements, credentials, and supporting documents.
- **Deadline:** [Insert Date].
- Awardees will be felicitated during the conference's award ceremony.

Innovation Hub

The Innovation Hub is a unique highlight of the International Conference on Physiotherapy Education and Research, bringing together trailblazing minds and groundbreaking concepts. Aligned with our theme, "Physiotherapy for a Healthier World," this platform is dedicated to showcasing creative solutions and cutting-edge advancements in physiotherapy education, practice, and research.

Call for Innovations

Do you have a novel idea, project, or invention that aligns with our vision? Showcase your work at the Innovation Hub and get the opportunity to:

- Share your innovation with a global audience of professionals and academicians.
- Receive feedback and recognition from industry leaders.
- Network with potential collaborators and investors.

Submission Guidelines:

- Provide a brief description of your innovation, its purpose, and potential impact.
- Submit your entries by 15th Feb 2025
- Submission portal: <https://forms.gle/j1sCA4qpTMedqTb38>
- Selected entries will be notified and provided with exhibition guidelines.

Cultural Competitions

Unleash your creativity and showcase your talent! Our cultural events promise a vibrant platform to express yourself and celebrate art and culture. Join us in the following competitions:

- Group Dance: Synchronize your steps and captivate the audience with your team's energy and coordination.
- Solo Dance: Dazzle the stage with your unique moves and rhythm.
- Group Singing: Harmonize with your crew and serenade us with soulful melodies.
- Solo Singing: Let your voice shine and enchant the audience with your vocal talent.
- Fashion Show: Strut the runway in style! Interpret any theme of your choice and showcase your flair for fashion.
- Miming: Express without words—bring your story to life with the art of silent acting.

Rules and Regulations:

- Participants must register in advance.
- Time limits and specific guidelines for each competition will be shared upon registration.
- Open to all registered conference attendees.

Cultural Registration Portal:

ABOUT THE SESSION

Digital Eye Strain is a significant public concern in the current scenario of digital era. As Computer Vision Syndrome, affecting a large proportion of the population. Hence, Understanding its causes, symptoms and preventive measures have become essential for monitoring the Optimal Eye Health.

WHO SHOULD ATTEND ?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

- 1. To Educate about Digital Eye Strain (DES) and its impact on Vision.**
- 2. To Promote awareness of screen time management techniques.**
- 3. To understand the Role of Optometrist in Public health.**
- 4. To Know the Career Opportunities for Optometrist.**

R. L. JALAPPA COLLEGE OF PHYSIOTHERAPY

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH,
TAMAKA, KOLAR, KARNATAKA 563103

**1st INTERNATIONAL CONFERENCE ON
PHYSIOTHERAPY EDUCATION AND RESEARCH 2025
THEME: PHYSIOTHERAPY FOR A HEALTHIER WORLD**

Pre-Conference Workshop- PCW1

6th March 2025

9:00 AM to 4:00 PM

**Clinical Assessment &
Management of
Sacroiliac joint**

by

Dr. Prem V., PhD

Additional Professor, Manipal College
of Health Professions, MAHE,
Bengaluru

Objectives of the workshop

- Explain the anatomical and biomechanical principles of the sacroiliac joint in relation to dysfunctions.
- Demonstrate clinical assessment techniques for identifying sacroiliac joint dysfunction.
- Value the role of accurate diagnosis and management in improving patient outcomes.

R. L. JALAPPA COLLEGE OF PHYSIOTHERAPY

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH,
TAMAKA, KOLAR, KARNATAKA 563103

**1st INTERNATIONAL CONFERENCE ON
PHYSIOTHERAPY EDUCATION AND RESEARCH 2025
THEME: PHYSIOTHERAPY FOR A HEALTHIER WORLD**

Pre-Conference Workshop- PCW2

6th March 2025

9:00 AM to 4:00 PM

**Proprioceptive Neuromuscular
Facilitation - Clinical Relevance**

by

Dr Karthik Babu S, PT., PhD

Principal & Professor,
KMCH College of Physiotherapy,
Coimbatore, TN

Objectives of the workshop

- Describe the theoretical framework and evidence supporting the use of PNF in rehabilitation.
- Perform key PNF patterns to improve motor control and functional outcomes.
- Recognize the importance of integrating PNF techniques into patient-centered care.

R. L. JALAPPA COLLEGE OF PHYSIOTHERAPY

**SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH,

Pre-Conference Workshop - PCW3

6th March 2025

9:00 AM to 4:00 PM

**Concept of
Mulligan Mobilization For
Cervicogenic Headache**

by

**Dr. Kiran Satpute., PhD, COMT,
CSMT (Australia) MCTA India**

Accredited

Mulligan concept instructor

Objectives of the workshop

- Summarize the principles, indications, and contraindications of Mulligan Mobilization.
- Practice Mulligan techniques such as Mobilization with Movement (MWM) for pain management.
- Appreciate the value of patient involvement and feedback during Mulligan interventions.

R. L. JALAPPA COLLEGE OF PHYSIOTHERAPY

**SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH,

Pre-Conference Workshop - PCW4

6th March 2025

9:00 AM to 4:00 PM

**Assessment and Management of
Sensory Processing Disorders**

by

Dr. Rakesh Krishna Kovala

Associate Professor, NITTE institute
of Physiotherapy, Mangalore.

Objectives of the workshop

- Understanding Sensory Processing and Sensory integration
- Assessment of Sensory Processing Disorders
- Developing Treatment Strategies
- Hands-on Skill Development
- Interdisciplinary Collaboration
- Evaluation of Intervention Outcomes

International Speakers

Dr. Stefan Richelli

Owner of Richelli's Osteopathy and
Physiotherapy Spain.

Abstract results will be announced on or before February 25th 2025

CALL FOR AWARD APPLICATIONS

Celebrate Excellence in Physiotherapy!

We are proud to honor outstanding contributions in the field of physiotherapy. Apply or nominate deserving individuals for the following prestigious awards:

- **Best Clinician:** Recognizing exemplary clinical skills and patient care.
- **Best Researcher:** Celebrating impactful research that advances physiotherapy knowledge and practice.
- **Best Academician:** Honoring exceptional dedication to teaching and shaping future physiotherapists.
- **Distinguished Professional Award:** Acknowledging lifetime contributions and leadership in the profession.

Eligibility and Submission Guidelines:

- Submit a detailed application or nomination highlighting achievements, credentials, and supporting documents.
- **Deadline:** [Insert Date].
- Awardees will be felicitated during the conference's award ceremony.

Innovation Hub

The Innovation Hub is a unique highlight of the International Conference on Physiotherapy Education and Research, bringing together trailblazing minds and groundbreaking concepts. Aligned with our theme, "Physiotherapy for a Healthier World," this platform is dedicated to showcasing creative solutions and cutting-edge advancements in physiotherapy education, practice, and research.

Call for Innovations

Do you have a novel idea, project, or invention that aligns with our vision? Showcase your work at the Innovation Hub and get the opportunity to:

- Share your innovation with a global audience of professionals and academicians.
- Receive feedback and recognition from industry leaders.
- Network with potential collaborators and investors.

Submission Guidelines:

- Provide a brief description of your innovation, its purpose, and potential impact.
- Submit your entries by 15th Feb 2025
- Submission portal: <https://forms.gle/j1sCA4qpTMedqTb38>
- Selected entries will be notified and provided with exhibition guidelines.

REGISTRATION DETAILS

Registration fee

Preconference Workshop:

PCW1- 1000INR/ PCW2- 1000INR/ PCW3- 1000 INR

Conference Early bird:

1500INR for Students/ 2000INR for Ph.D Scholars/
Faculty/ Clinicians

Conference After Feb 15:

2000INR for Students/ 2500INR for Ph.D Scholars/
Faculty/ Clinicians

Spot Registration: 3000 INR for all

Cultural Competitions

Unleash your creativity and showcase your talent! Our cultural events promise a vibrant platform to express yourself and celebrate art and culture. Join us in the following competitions:

- Group Dance: Synchronize your steps and captivate the audience with your team's energy and coordination.
- Solo Dance: Dazzle the stage with your unique moves and rhythm.
- Group Singing: Harmonize with your crew and serenade us with soulful melodies.
- Solo Singing: Let your voice shine and enchant the audience with your vocal talent.
- Fashion Show: Strut the runway in style! Interpret any theme of your choice and showcase your flair for fashion.
- Miming: Express without words—bring your story to life with the art of silent acting.

Rules and Regulations:

- Participants must register in advance.
- Time limits and specific guidelines for each competition will be shared upon registration.
- Open to all registered conference attendees.

Cultural Registration Portal:

Glaucoma is the second leading cause of irreversible blindness globally. The disease is under the radar for many, with symptoms appearing once it's too late.

Glaucoma treatment has considerably evolved over the last decade with the introduction of improved imaging techniques, novel topical medications, minimally invasive glaucoma surgeries, sustained-release drug delivery systems, and wearable devices.

We are thus organizing this CME to educate eye-care providers about the burden of the disease and emerging treatment modalities for better patient care.

Dear Delegates,

On the occasion of World TB Day 2025, the Department of Respiratory Medicine/ NTEP unit in association with Department of General Medicine is celebrating World TB Day on 24th March 2025. The theme of World TB Day 2025 - **“Yes! We Can End TB: Commit, Invest, Deliver”**. – conveys a message of hope that getting back-on-track to turn the tide against the TB epidemic is possible through high level leadership, increased investments and faster uptake of new WHO recommendations. Following the commitments made by Heads of State at the UN High Level meeting in 2023 to accelerate progress to end TB, this year WHO focuses on turning these commitments into tangible actions, and so do we. Building on its massive uptake and success over the last two years, this year’s theme reinforces a powerful collective message of hope, urgency, and accountability. Let us come together to actively take forward the mission and do our bit. Come join us in the CME on –

Workshop on

26
March
2025

**“INTERPROFESSIONAL
COLLABORATION(IPC)
IN PATIENT SAFETY”**

**9:30
AM
to
3.15
PM**

ABOUT THE SESSION

In today's complex healthcare environment, patient safety remains a top priority. Ensuring safe, high-quality care requires collaboration among healthcare professionals from diverse disciplines. Interprofessional education (IPE) plays a critical role in fostering teamwork, communication, and shared decision-making, ultimately enhancing patient outcomes and minimizing errors.

This workshop is designed to bring together healthcare professionals, educators, and students to explore the principles of interprofessional collaboration in patient safety. Through interactive discussions, case studies, and hands-on exercises, participants will gain insights into how teamwork, leadership, and effective communication contribute to safer patient care.

OBJECTIVES OF THE WORKSHOP

- Understand the importance of patient safety in improving health outcomes
- Understand the significance of interprofessional collaboration in reducing medical errors and improving patient safety.

WHO SHOULD ATTEND?

Faculty in health professions education.

VENUE

Medical education unit, Third Floor ,SDUMC, Kolar.

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH

(A Deemed to be University)

TAMAKA, KOLAR - 563103

Cordial invitation for

'Workshop on Antimicrobial resistance'

**In commemoration of Centenary celebration of Founder Chairman,
Sri R L Jalappa**

On 27-03-2025

Organized by

National Centre for Biological Sciences (NCBS)

in collaboration with

Department of Microbiology

Sri Devaraj Urs Medical College

The constituent College of Sri Devaraj Urs Academy of Higher Education and
Research

(Declared U/S 3 of UGC act 1956 as Deemed to be university)

Tamaka, Kolar - 563 103

Background

Antimicrobial resistance (AMR) has emerged as one of the principal public health problems of the 21st century that threatens the effective prevention and treatment of an ever-increasing range of infections caused by bacteria, parasites, viruses and fungi no longer susceptible to the common medicines used to treat them.

The problem of AMR is especially urgent regarding antibiotic resistance in bacteria. Over several decades, to varying degrees, bacteria causing common or severe infections have developed resistance to each new antibiotic coming to market. Faced with this reality, the need for action to avert a developing global crisis in health care is imperative.

About the event

Students play a crucial role in addressing this AMR crisis. As future healthcare professionals, they need to understand the impact of AMR and take action to prevent its spread. Hence, this event is organized to educate students, to promote responsible antibiotic use and hygienic practices and inspire future generations to take an active role in combating AMR.

This event is part of the outreach initiatives undertaken by the National Centre for Biological Sciences (NCBS-TIFR) Bengaluru and Tata Institute of Genetics and Society (TIGS) Bengaluru.

Date of event: 27-03-2025

Timing: 9:00 to 4.00 PM

Venue: Joseph Lister hall (Adjacent to community medicine department)

Participants: Phase III (Part II) 2021-22 batch MBBS students

Program schedule

Date: 27.3.2025

Venue: Joseph Lister hall

Time	Topic
9:30-9:45 AM	Inauguration and Welcome Note
9:45-10:05 AM	Introduction to the Workshop Organisers and Facilitators
10:05-10:45 AM	Break the 'TABOO': AMR Edition
10:45-11:15 AM	Science of AMR and Surveillance Efforts of APSI by Dr. Dhanasekaran Shanmugam , Senior Principal Scientist, Biochemical Sciences Division, CSIR-National Chemical Laboratory, Pune
11:15-11:30 AM	Tea break and crossword
11:30-12:00 PM	Clinical Battlefront: Challenges due to AMR in clinical settings by Dr. James Daniel , Associate Professor, Department: Paediatrics, SDUMC, Kolar
12:00-12:30 PM	Let's play Kahoot
12:30- 1:00 PM	Safe Zones & Watchful Eyes: Antibiotic Stewardship and Antibiotic Policy by Dr. Kavya S , Associate Professor, Department of Microbiology, Sapthagiri institute of Medical Sciences, Bangalore
1:00 -1: 45 PM	Lunch break
1:45-2:15 PM	Group activity
2:15-2:30 PM	Fast-paced quiz (Round 1)
2:30-2: 45PM	Photo session
2:45- 3:30 PM	Jeopardy Jamboree: Group Quiz (Round 2)
3:30-4:00 PM	Curtain call and Prize distribution

Dear Students / Consultants,

The Department of Emergency Medicine is happy to inform you that we are conducting a ‘**Value added course**’ on “**Emergency Trauma Care and Resuscitation Training**”.

Trauma remains the leading cause of death and disability among children and young adults, presenting significant challenges to healthcare systems around the world. Polytrauma represents one of the most challenging and urgent situations in trauma care. The Golden Hour is a critical period during which timely and effective intervention can dramatically improve patient outcomes. Trauma teams must act swiftly and decisively, utilizing their expertise to stabilize patients, prioritize care, and transfer them to specialized facilities for further treatment. The management of polytrauma requires a team approach, rapid decision-making, and a deep understanding of the complexities involved in caring for critically injured patients.

Objectives of the Course:

The “**Emergency Trauma Care and Resuscitation Training**” course provides it learners with a safe and reliable method for the treatment of the injured patients and basic knowledge necessary to

1. Assess a patient’s condition rapidly and accurately.
2. Resuscitate and stabilize patient according to priority.
3. Determine whether a patient’s needs exceeds facility resources.
4. Arrange appropriate patient transfers.
5. Ensure that optimal care provided and that the level of care does not deteriorate at any point during the evaluation, resuscitation or transfer process.

Target Audience: Interns and Postgraduates of Medical and AHS students.

Course Duration: 30 hours

Attendance: for all the session is mandatory for successful completion of the course.

Assessment: Multiple Choice Questions (MCQs)

For Registration:

Please click on the following link to register:

<https://forms.gle/unojmcpfAY3KyjAN8>

Mandatory Registration for the event (Free)

Session - Offline mode only

Certificate will be issued only on successful submission of the feedback form and assessment.

The link for the feedback and assessment form will be shared to registered mail

Course code: ETC 069

Selection of Journal for Research Publications

On

05 April 2025
2.00 PM onwards

Venue:

Dr. B.C.Roy, Seminar Hall
University Library Learning
Resource Centre

Dear Sir/Madam,

It is our immense pleasure to inform you that, to commemorate the centenary celebration of Sri. R. L. Jalappa Founder Chairman, SDUAHER, Kolar. The University Library is organizing a workshop on **"Selection of Journals for Research Publications"** on 05 April 2025 from 2.00 P.M. onwards at **Dr. B. C. Roy Seminar Hall, ULLRC, SDUAHER.**

The main aim of this hands-on workshop is to familiarise on how to identify predatory Journals, features of Predatory and cloned journals.

- Impact Factor (IF): A higher IF indicates greater citation potential.
- SCImago Journal Rank (SJR): Measures journal influence beyond citations.
- Indexing: Prefer journals indexed in PubMed, Scopus, Web of Science, MEDLINE, DOAJ, etc.
- Journal Finder

Resource Persons:

Dr. Shilpa M.D., MBBS, MD. Associate Professor, Dept. of Pathology, SDUMC constituent of SDUAHER, Kolar. She has ten years of teaching experience and has published scientific research articles in National and International Journals indexed in Scopus, PubMed and Web of Science. She is involved in conducting many research projects in her field of expertise.

Dr. Prakash, MLISc, M.Phil., Ph.D.

University Librarian, SDUAHER, Kolar. He has thirty years of experience as a Librarian. He has published scientific research articles in National journals. He has conducted hands-on training on research methodology, reference management Tools (Mendeley & Zotero), Selection of Journals for research publications and plagiarism (Turnitin), literature search and many more.

As a part of centenary celebration of Late Shree R L Jalappa

Student Research Committee

presents

RESEARCH BOOTCAMP

For the undergraduates

Part I : foundations of Research

Date: 09/04/2025

Time: 2:00pm - 4:00pm

Venue: Joseph Lister Hall, 2nd Floor

Kickstart your journey with an insightful talk by our Guest Speaker, a seasoned researcher, who will cover:

- How to choose a research topic.
- Structuring your research.
- Tips for effective data analysis and writing

Next, the symposium will provide you with the essential skills and knowledge to embark on your research journey. By the end of the event, you will have the tools you need to confidently conduct research, analyze data, and present your findings. Whether you are just beginning or looking to improve your research skills, this symposium is the perfect starting point.

Key Topics Covered:

- Introduction to Research Methodologies
- Formulating a Research Question and Writing a Research Title
- Basic Principles of Biostatistics
- Citation, Referencing, and Academic Integrity, Data Collection, Analysis, and Presentation in Research

SPEAKERS

Dr. Mahendra M

Training and protocol implementation in

**“Stroke protocols and Thrombolysis in
stroke”**

On 11.04.2025

Organized by

Department of Emergency Medicine

Stroke remains one of the leading causes of disability and death globally, with India facing a significant burden due to its rapidly growing aging population and changing lifestyle factors. Timely intervention is crucial to minimizing brain damage and improving outcomes in stroke patients, making the application of stroke protocols and thrombolysis a central aspect of stroke care.

This session on "Stroke Protocols and Thrombolysis in Stroke" aims to provide healthcare professionals with a comprehensive understanding of the latest developments in stroke management. The session will delve into the importance of recognizing stroke symptoms early, following structured protocols for diagnosis and treatment, and optimizing the use of thrombolysis therapy to dissolve blood clots and restore cerebral circulation.

Through this CME, participants will gain insights into the challenges and advancements in stroke care in India, where timely thrombolytic treatment is often hindered by delays in diagnosis, limited infrastructure, and access to specialized care. We will explore the evolving guidelines, case studies, and practical approaches to managing stroke patients in both urban and rural settings.

while India is making progress in stroke management, challenges remain in terms of accessibility, awareness, and infrastructure to fully implement stroke protocols and thrombolysis therapy across the country.

Regards

IN VIEW OF THE FOUNDER'S CENTENNIAL CELEBRATION & WORLD OPTOMETRY DAY

Department of Ophthalmology
cordially invite you all to a Guest Lecture
and Workshop on

“PEDIATRIC AMBLYOPIA”

on 12th April 2025

Time: 2:00PM– 4:00PM

Venue: Ophthalmology

Seminar Hall,

PG Block 1st Floor.

Regular Eye Exams: The Key to Healthy Vision.

The first World Optometry Day took place on March 23, 1986, and has continued as an annual celebration ever since, it is observed annually on March 23rd, is a global celebration highlighting the vital role of optometrists in eye health and vision care, and promoting access to quality eye care worldwide.

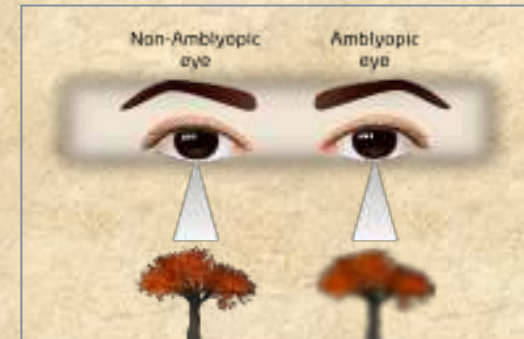

Registration link

<https://forms.gle/2Lk8GhXrENB2XBLr6>

PEDIATRIC AMBLYOPIA

Amblyopia is a functional reduction in visual acuity in one or both eyes, caused by abnormal visual development during childhood.

Amblyopia or “Lazy Eye” is the leading cause of Visual Impairment in Children.

Early treatment of amblyopia is essential to improve vision and prevent long-term impairment. The goal is to strengthen the weaker eye and encourage proper visual development.

PROGRAMME SCHEDULE

Guest Lecture

2:00 PM – 3:00 PM

Workshop

3:00 PM – 4:00 PM

Topic: “Pediatric Amblyopia”

RESOURCE PERSON

NATIONAL HYBRID CME

**Aging and Longevity:
Research to reality with
Uncertainties**

**Wednesday, 16th April
2025**

**Organized By
Department of
Biochemistry**

KMC Credit Points: 2

ABOUT THE PROGRAMME

Dear Delegates,
Department of Biochemistry cordially
invites you for this CME which highlights
latest advances and importance of
AGING.

As an insight and in a motto of
establishing a subspecialty laboratory in
Aging and longevity under the banner of
Sri Devaraj Urs Academy of Higher
Education and Research, this CME is
planned.

The Eminent speakers from all major
departments related to aging are hereby
invited for their inputs and support.

Aging shall be Cellular or Metabolic. The
CME emphasizes on the causes and
consequences on both the types of aging
with management of the same.

Your presence will give us confidence
and encourage reaching society at a
large.

April
2025

**“Teaching and
Assessing
Leadership Skills in
Undergraduate
Programs”**

9:30
AM
to
3:00
PM

Venue:

Conference hall, UCHPE 3rd Floor, CARE Building, SDUAHER, Kolar.

ABOUT THE SESSION

Leadership is more than just a title, it's about influence, teamwork, and the ability to drive positive change. In healthcare, strong leadership is critical at every level, and it's never too early to start nurturing these skills. This interactive workshop is designed for educators in health sciences, helping them integrate leadership training into undergraduate programs.

PROGRAM OBJECTIVES

- Develop a clear understanding of leadership in the context of healthcare education.
- Learn practical strategies to teach leadership skills to undergraduate students.
- Explore assessment tools and best practices for evaluating leadership competencies.
- Design effective and engaging leadership training activities.

WHO SHOULD ATTEND?

Faculty members & educators teaching undergraduate students in health sciences disciplines.

PROGRAM SCHEDULE

Time	Session	Faculty
9:00 AM - 9:30 AM	Registration	
9:30 AM - 9:45 AM	Welcome & Ice breaker	
9:45 AM - 10:15 AM	Why leadership matters in health sciences	Dr Sarulatha H

ABOUT THE SESSION

Medical Radiological and Imaging Technologists have expertise in handling advanced Radiological equipment in the field of patient in service delivery sectors. They have wider career opportunities across the Globe. The competencies developed in handling advanced machines like X-ray, CT and MRI are highly employable. Hence, this seminar enlightens the awareness among students in global perspectives.

WHO SHOULD ATTEND ?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

- 1. Opportunities to work as X-Ray, CT and MRI technologist in Multi-speciality hospitals.**
- 2. Opportunities to work as Application specialist in leading manufacturer companies like Philips, Siemens, Toshiba etc.**
- 3. Opportunities to work as Radiographer in overseas like Qatar, Saudi, UAE, UK etc.**
- 4. Opportunities to work as Sonographer in Australia and New Zealand.**
- 5. Scope for Higher Education and Research.**

We cordially invite you all to CME

"Drug Targets in Therapy"

On

25-04-2025

Time 9:00 am to 1:00 pm

Venue: AV Hall Physiology (William Osler Hall)

Organized by

DEPT. OF PHARMACOLOGY

INTRODUCTION

We, the Department of Pharmacology at Sri Devaraj Urs Medical College, Kolar are pleased to extend a warm invitation to CME on **Drug Targets in Therapy**.

The rising global burden of **non-communicable diseases (NCDs)**, including obesity, osteoporosis, and rheumatoid arthritis (RA), demands a deeper understanding of **targeted drug therapies** and evolving treatment paradigms. Childhood obesity is a critical predictor of metabolic disorders in adulthood, while osteoporosis and RA present unique challenges in long-term patient care.

This CME session will explore **cutting-edge pharmacological advancements**, clinical challenges, and evidence-based strategies to optimize patient outcomes.

Objectives:

At the end of the program the participants should be able to

- ◆ Evaluate the impact of childhood obesity on the development of NCDs and early intervention strategies.
- ◆ Review newer anti-obesity drugs, their efficacy and safety profiles.
- ◆ Analyse current trends in osteoporosis management, and emerging therapies.
- ◆ Describe advances in RA treatment and challenges in patient care

The constituent College of Sri Devaraj Urs Academy of
Higher Education and Research
(Declared U/S 3 of UGC act 1956 as Deemed to be
University
Tanika, Kolar-563103)

IMPORTANCE OF BODY DONATION

Body donation is a profound act of generosity that plays a crucial role in medical education and research. While technological advancements have improved anatomical studies, nothing can replace the learning experience provided by real human bodies. However, misconceptions, cultural beliefs and lack of awareness often prevent individuals from considering body donation.

Dear Delegates,

The Body Donation Awareness Program aims to educate medical professionals, students, and the general public about the significance of body donation. Through inspiring talks, real-life testimonials, and discussions on ethical and legal aspects, this program seeks to break barriers and encourage more people to pledge their bodies for medical education.

Name of the event- Workshop on Teaching and Assessing Leadership Skills in Undergraduate Program”

Date- 3rd May 2025

Time- 9AM to 3 PM

Name of the Department- UCHPE

Sl. No	Event Report
1.	Level of Event University level
2.	Background/ Introduction Leadership is more than just a title, it's about influence, teamwork, and the ability to drive positive change. In healthcare, strong leadership is critical at every level, and it's never too early to start nurturing these skills. This interactive workshop is designed for educators in health sciences, helping them integrate leadership training into undergraduate programs. The objectives of the workshop 1. Develop a clear understanding of leadership in the context of healthcare education. 2. Learn practical strategies to teach leadership skills to undergraduate students. 3. Explore assessment tools and best practices for evaluating leadership competencies. 4. Design effective and engaging leadership training activities. To accommodate faculty members from other departments who could not attend the initial session, the workshop was re-conducted on 3rd May, ensuring inclusive participation and interdisciplinary engagement.
3.	Venue Conference Hall, MEU

10.	Highlights of events including photos

University Centre for Health Professions Education

This one-day interactive workshop equipped educators in health sciences with effective strategies to teach and assess leadership skills among undergraduate students. The session started with a warm welcome and an engaging icebreaker to set a collaborative tone. Dr. Vinutha set the context with a talk on the importance of leadership in healthcare. This followed with insights on practical methods for teaching leadership to undergraduates by Dr. K.N.V. Prasad. Dr. Zeanath Cariena J introduced tools and best practices for assessing leadership competencies. Post-lunch, Mr. Lokheshwar S presented a session on creating impactful leadership training modules and the participants were engaged in a hands-on group activity focused on developing a leadership training module. The workshop concluded with reflections and a photo session. This event provided a valuable learning experience for faculty aiming to nurture future healthcare leaders.

Dear Interns/Postgraduates/Faculty,

The Department of Microbiology is happy to inform that we are organizing a 'Value added course' on **"EVIDENCE BASED MEDICINE"**.

Evidence Based Medicine is a confluence of three spheres: clinical judgement, relevant scientific evidence, and patient values & preferences.

The course is designed to give a detailed understanding of the depths and ramifications of each sphere, at a slow and comfortable pace, without having to interfere with your daily schedules.

Objectives of the Course: At the end of the course,

1. The learner is sensitized to the basics of evidence, types of evidence, surveying of available research, and also the role of statistics in evidence based practices.
2. Gain first-hand knowledge and experience from experts in various clinical and para-clinical fields.
3. Understand the significance of empathy, and respect to patient values and preferences in deciding diagnostic tests and treatment options.

Target Audience: MBBS Interns.

Contact hours: 30 hours

Attendance: all the sessions are mandatory for successful completion of the course.

Assessment: Multiple Choice Questions (MCQs)

For Registration:

Please use the following link to register:

<https://forms.gle/u2zSZd9qzqgqhRxJ6>

Registration is mandatory for participation the event (Free) – Limited seats only

Session - Offline mode only

Certificate will be issued only on successful submission of the feedback form and assessment.

The link for the feedback and assessment form will be shared to registered mail

VALUE ADDED COURSE

For Interns on

**"EVIDENCE BASED
MEDICINE"**

Course code : EBM-072

Organised by

DEPARTMENT OF MICROBIOLOGY

7th May 2025 to 27th May 2025

Venue:

**Edward Jenner Gallery (First Floor),
SDUMC Kolar-563103**

COURSE DETAILS:

DAY 1 (07-05-2025)	TOPICS	PRESENTER
9.00-10AM	Inauguration of the Program by Dignitaries, and Conducting of Pretest	Faculty of Microbiology
10.00 AM-11.00 AM	Understanding the Basics of Evidence Based Medicine	Dr. Parimala.S (Microbiology)
11.00 AM -1 PM	Review of Research in Evidence Based Medicine	Dr. Arvind Natarajan (Microbiology)

DAY 2 (09-05-2025)	TOPICS	PRESENTER
2.00 PM to 3.00 PM	Understanding the role of Evidence Based Medicine in Pre-analytical and Post-analytical examination.	Dr. Sarumathi. D (Microbiology)
3 PM to 4 PM	Role of Statistics in Evidence based medicine	Dr. Pradeep CS (Community Medicine)

DAY 3 (10-05-2025)	TOPICS	PRESENTER
9 AM to 11 AM	Understanding the Laboratory Dynamics – Common errors and challenges	Dr. S. Muralidharan (Microbiology)
11.15 AM to 1.15 PM	Role of Medical Law and Ethics in Evidence Based Medicine	Dr. Ajay (Forensic Medicine)

DAY 4 (12-05-2025)	TOPICS	PRESENTER
11 AM to 12 noon	Role of Review articles and Case reports in Medicine	Dr. Raveesh (Medicine)
12 noon to 1 PM	Evidence based medicine in Orthopaedic clinical practice	Dr. Hariprasad (Orthopaedics)

DAY 5 (16-05-2025)	TOPICS	PRESENTER
10 AM to 12 noon	: Role of Therapeutic drug monitoring – Understanding Pharmacodynamics and Pharmacokinetics with Antibiotics as examples. Evidence based decision on starting a novel drug or continuing with time tested therapies.	Dr. Bhuvana (Pharmacology)
3.30 PM to 5.30 PM	Evidence based Innovation and Rethinking of Classical, time tested Strategies in in OBG Care	Dr. Vimarshitha (OBG)

DAY 6 (19-05-2025)	TOPICS	PRESENTER
10.00-11.00 AM	Evidence based medicine in Microbiology	Dr. Sulaiman (Microbiology)
11.00 AM-12.00 noon	Evidence based medicine in Pathology	Dr. Suresh (Pathology)

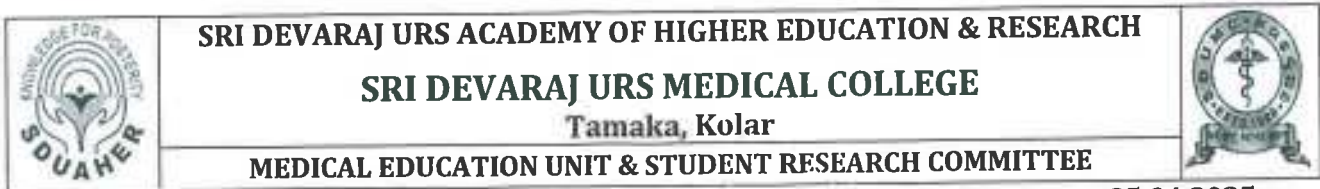

DAY 7 (20-05-2025)	TOPICS	PRESENTER
10.00-11.00 AM	Evidence based practices in Radiology: When to order, and when not to order USG, Xray, CT scan or MRI.	Dr. Anil & team (Radiology)
4 PM - 5 PM	Evidence based medicine in Biochemistry	Dr. Prabhavathi (Biochemistry)

DAY 8 (21-05-2025)	TOPICS	PRESENTER
10.00-11.00 AM	Evidence based practices in Surgical Care	Dr. Prakash Dave (Surgery)

DAY 9 (23-05-2025)	TOPICS	PRESENTER
11.00 AM - 12.00 noon	Evidence based practices in Critical care	Dr. Suresh & team(Anaesthesia)
12.00 noon -1 PM	Evidence based practices in Ophthalmology	Dr. Chaitra (Ophthalmology)

DAY 10 (26-05-2025)	TOPICS	PRESENTER
10.00-11.00 AM	Evidence based practices in ENT care	Dr. Ujval (ENT)
11.00-12.00 noon	Evidence based practices in Pediatrics	Dr. Karthik (Pediatrics)
2 PM to 4 PM	Outbreak Investigation and Management	Dr. Anitha D (Microbiology)

DAY 11 (27-05-2025)	TOPICS	PRESENTER
10.00-11.00 AM	Evidence based practices in Emergency Medicine	Dr. Devendra (EMD)
11.00-12.30 noon	Respect to Patients values and preferences in Diagnosis and Treatment	Dr. Ruth Sneha (Psychiatry)
12.30 PM to 1PM	Post Test, Feedback forms and Valedictory/Vote of Thanks	Faculty of Microbiology

Sub: Conduct of synopsis writing workshop for 2024-25 Post Graduate Batch on 9th May 2025

Medical Education Unit & Student Research Committee, Sri Devaraj Urs Medical College is conducting synopsis writing workshop for 2024-25 Post Graduate Batch on 9th May, 2025 at William Osler Hall (AV hall, next to Department of Physiology) from 9.00 am to 4.00 pm. Attendance of postgraduates for Research Methodology Workshop is mandatory. Postgraduates are instructed to bring a draft copy of their synopsis as per the synopsis template (enclosed), so that the same can be discussed in the workshop.

All the HOD's are requested to relieve the students from their duties and permit them to attend the workshop.

All the resource faculty are requested to participate in the workshop and make the program successful.

Dear Participants,

The Clinical Trial Centre, RL Jalappa Hospital and Research Centre is pleased to extend a warm invitation to CME on Good Clinical Practice.

Good Clinical Practice (GCP) are guidelines and standards for conducting clinical trials involving human subjects, established by the International Council for Harmonization (ICH) of Technical Requirements for Pharmaceuticals for Human Use, specifically under the ICH E6 (R2) guidelines. Adherence to GCP ensures that clinical trials are conducted ethically, safely, and scientifically, facilitating development of new medical treatments and ensuring public trust in the research process.

Objectives

At the end of the program the participants should be able to

1. Explain the GCP, ICMR and NDCT 2019 guidelines for the conduct of clinical trials
2. Explain the process of documentation involved during the conduct of clinical trial
3. Explain the roles and responsibilities of sponsor and investigators in clinical trial

Programme schedule

TIMINGS	TOPICS	SPEAKER
8.45 –9:00 AM	Registration	
9.00 AM – 9.30 AM	About ISCR and ICTD, overview of clinical trials and why trials are needed in India	Dr Ananya Chakraborty Chair of ISCR ACCRI and Team
9:30 AM – 9:40 AM	GCP Guidelines - An overview	Dr Bhuvana K Prof of Pharmacology SDUMC, Kolar
9:40 AM – 10:15 AM	ICMR National Ethical Guidelines for Biomedical and Health Research involving human participants 2017 – An overview	Dr Sunil Kumar D Professor and Head, Community Medicine JSS Medical College, JSSAHER, Mysuru
10:15 AM – 11:00 AM	Clinical Trial Protocol, Essential Documents, New Drugs and Clinical Trials Rules, 2019	Dr Niveditha Director, Professor, Pharmacology ESIC Medical College & PGIMSR, Bangalore
11 –11:30 AM	Inauguration and Tea Break	
11:30 AM– 12:10 PM	Ethics Committee: Guidelines, Constitution, roles & responsibilities and Informed consent Process	Dr. Praveen Kumar BA Professor of Community Medicine, PES Institute of Medical Science and Research, Kuppam, Andhra Pradesh
12.10 PM– 12.50 PM	Adverse events Documentation in Clinical Safety	Mr. Madhusudhan B Acharya, Associate Director, Drug Safety, Adjudication, Fortrea, Bangalore, Member, ISCR South Chapter

“Empowering Innovation and Entrepreneurial Growth in Karnataka”

11 AM
to
1x PM

ABOUT THE SESSION

To inspire and equip participants with a comprehensive understanding of the current innovation and entrepreneurial landscape in Karnataka and the key strategies for fostering its continued growth. Articulate the critical factors that fuel innovation and entrepreneurial success, such as funding, talent, infrastructure, and supportive policies, specifically within the Karnataka context. Feel Inspired and Empowered with the knowledge and insights needed to contribute to and benefit from the growing innovation and entrepreneurial landscape in Karnataka.

PROGRAM OBJECTIVES

- Understand the Current Ecosystem
- Explore Government Initiatives and Support
- Identify Emerging Trends and Opportunities
- Feel Inspired and Empowered

WHO SHOULD ATTEND?

Students and the faculty of SDUAHER interested in developing entrepreneurial skills and development.

VENUE

Dr. BC Roy Hall, (Library 1st floor)

ABOUT THE SPEAKER

Dr. Veeranna S with 15+ years of experience in life sciences domain. Heading the Technical Team, monitoring and tracking the daily activities of central instrumentation facility at Bangalore Bioinnovation Centre. Reviewed & mentored several biotech startups, instrumental in coordinating & managing the seed funds (DPIIT-SISFS, NIDHI-SSP), Idea2Poc/Elevate grants and involved in evaluation and monitoring of Idea2POC/Elevate-100 programs implemented by Karnataka Innovation and Technology Society (KITS) Department of Electronics IT, BT and S&T Government of Karnataka for commercializing technologies in life sciences domain.

ABOUT THE SESSION

This 1.5-hour webinar on **Accreditation in Medical Education** aims to provide participants with a well-rounded and in-depth understanding of accreditation processes and their crucial role in promoting quality, accountability, and continuous improvement in health professional education. The session will feature distinguished **international and national speakers**, offering both **global** and **Indian perspectives** on accreditation standards, practices, and evolving trends. Attendees will gain valuable insights into the foundational principles and strategic importance of accreditation, with emphasis on its influence on curriculum design, faculty development, learner assessment, institutional credibility, and regulatory compliance. The webinar will delve into major **international frameworks** such as **WFME** and regional systems, alongside **Indian accreditation bodies** like **MARB (erstwhile MCI)**, **NAAC**, and **NABH**, providing practical guidance on documentation, self-study preparation, and external review processes. By the end of the session, participants will be equipped with knowledge and strategies to actively engage in and strengthen accreditation initiatives within their institutions.

WHO SHOULD ATTEND?

Faculty members, academic administrators, quality assurance coordinators and curriculum developers.

PROGRAM OBJECTIVES

- To enable participants to understand the key concepts, principles, and the relevance of accreditation in medical education, particularly in the context of recent developments such as the ranking of medical colleges by the National Medical Commission's **MARB**.
- To familiarize participants with both national and international accreditation standards (e.g., **MARB**, **NAAC**, **NABH**, **WFME**) and equip them with the knowledge and skills to effectively contribute to institutional accreditation and quality assurance processes.

ABOUT THE SESSION

Respiratory therapists play a crucial role in managing critically ill patients, ensuring optimal ventilation strategies, oxygen therapy, and airway management. Their expertise in advanced respiratory care and in the prevention of Respiratory disorders makes them indispensable in multidisciplinary healthcare teams. With evolving technology and clinical approaches, their competencies in handling life-support systems are highly employable across the globe. This seminar aims to enlighten students on the global perspectives of respiratory therapy and its significance in critical care settings.

WHO SHOULD ATTEND ?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

- 1. Opportunities to work in ICU settings as respiratory therapists specializing in ventilator management, airway care, and oxygen therapy.**
- 2. Opportunities to work with leading medical device manufacturers such as Philips, Dräger, GE Healthcare, etc., as application specialists for respiratory support devices.**
- 3. Opportunities to work internationally in hospitals across Qatar, Saudi Arabia, UAE, UK, and the USA, where respiratory therapy is a well-established field.**
- 4. Opportunities in advanced pulmonary care as specialists in pulmonary rehabilitation, sleep study centers, and neonatal intensive care units (NICU).**
- 5. Scope for higher education and research in respiratory therapy, focusing on innovations in ventilation strategies, airway management techniques, and pulmonary diagnostics.**

World Emergency Medicine Day

**Theme: "Proud to Provide your
Emergency Care"**

On 27.05.2025

Organized by

Department of Emergency Medicine

The Emergency Medicine Day 2025 Campaign celebrates the dedication and expertise of Emergency Medicine professionals who provide life-saving care across emergency systems worldwide. This year, we not only honor their invaluable contributions but also take pride in the strength, resilience, and impact of our profession. Join us in showcasing the passion and excellence that define Emergency Medicine!

The EM Day 2025 campaign aims to raise awareness of the numerous challenges Emergency Medicine professionals encounter in their daily responsibilities. These challenges affect the quality of their work, directly influencing patient outcomes and hindering the overall efficiency of the emergency medical system.

It also emphasises the importance of addressing the challenges faced by emergency care responders and all Emergency Medicine professionals. Additionally, it underscores why it is essential to provide them with the right conditions, support, and ongoing training to enable them to perform at their best.

Implementing strategies to improve Emergency Department worker's conditions is a necessary step. Focusing on staffing, mental health support, efficient workflows, communication, public education, and creating a supportive work environment can significantly help emergency medical system workers stay focused and function more effectively. It's a team effort involving both the workers and the broader community to ensure that they can provide the best care possible to those in need.

Regards

HIGHER EDUCATION AND RESEARCH

(A Deemed to be University)
TAMAKA, KOLAR - 563101

We cordially invite you all to

CME on the occasion of

“Dementia Action Week

19-25 May, 2025”

On 28-05-2025

SRI DEVARAJ URS MEDICAL COLLEGE

The constituent College of Sri Devaraj Urs Academy of Higher
Education and Research

Tamaka, Kolar - 563101

in association with

DEMENTIA INDIA ALLIANCE

Let's talk
about
dementia

Dementia has physical, psychological, social and economic impacts, not only for people living with dementia, but also for their carers, families and society at large. There is often a lack of awareness and understanding of dementia, resulting in stigmatization and barriers to diagnosis and care.

Raising awareness: Organizations like the *Dementia Indian Alliance* and local dementia support groups will host events and activities to raise awareness about dementia and its preventive strategies in adults.

Providing information: The week will offer opportunities for individuals to learn about dementia symptoms, diagnosis, and available support services.

Promoting early diagnosis: Efforts will be made to encourage individuals to seek medical advice if they are concerned about their memory or cognitive function.

REGISTRATION:

Compassion Meets Competence –
Elevate Dementia Care with CME.
Register for free NOW ,

Workshop on

**“Basic NRP Provider Course”
for Nursing Students**

Department of Paediatrics

Date: 30th May, 2025

Venue: CCSS (Skill Lab), SDUAHER

About the Program

Ninety percent of newborn babies make the transition from intrauterine to extra uterine life requiring little or no assistance to begin spontaneous and regular respirations. Approximately 10% of newborns requires some assistance to begin breathing at birth and only about 1% may need extensive resuscitative measures to survive. Yet, birth asphyxia is a leading cause of mortality and morbidity in newborns and in India it contributes towards one fifth of all neonatal deaths. These deaths can be averted by proper antenatal and intrapartum care along with correct technique and steps of neonatal resuscitation. Hence, this workshop.

After completion of the course, the participants should be able to:

- Assess a newborn baby at birth.
- Perform resuscitation of a newborn baby using standard equipment.
- Provide aftercare if a baby requires help with its breathing at the time of birth.
