	Workshop on ***"Patents and Copyrights: the process and outcome"*****:** 12/6/2024 – Institutional Level
2	**Background / Introduction**
	Intellectual property rights serve as catalysts for innovation, collaboration, and commercialization in medical colleges, driving advancements in healthcare delivery, patient care, and medical science. By leveraging IPR effectively, medical colleges can fulfill their missions of advancing knowledge, improving public health, and addressing global health challenges. In view of the above, the Intellectual property rights committee, SDUAHER, organized an Institutional level workshop for faculty on *"Patents and Copyrights: the process and outcome"* on 12/6/2024
3	**Venue**

Dr. Sangeetha T, Chief Coordinating office of IPR Cell, SDUAHER welcomed all the patrons, committee members and gathering for the workshop and spoke briefly about the importance of Intellectual property rights.

Dr. Kalyani R, Director, R&D Cell introduced the guest speaker **Dr. Lipika Sahoo**, Consultant, Life intellect Bangalore and invited to deliver the talk.

Dr. Lipika Sahoo, sensitized the audience on ***"Patents and Copyrights: Process and outcomes"***

Her talk enriched the audience about the following key points:

- **Indian patent law –** patentable matter, utility, novelty, specification
- **Where to search –** National or international databases
- Patent documents – for technological, legal and commercial relevance
- **Indian patent filing procedure –** application, publication, examination, report, response, application for grant, compliance, grant of patent.
- **Good patent practices –** displaying, disclosing, selling, test marketing, advertising
- **Copyrights –** adaptation, distribution, display, reproduction, public performance
- **Berne convention –** 3 basic principles

There was active participation of the audience in clearing their doubts on patents and copyrights

The session was concluded by vote of thanks delivered by Dr. Manjunath. B, core committee member, R&D Cell, SDUAHER

1	**Name & Level of Event Name of Event: National Webinar on "Clinical Trials: An Update"** **National Level**
2	**Background / Introduction**
	National Webinar on "Clinical Trials: An Update" was conducted on 14-06-2024 on Zoom platform from 9.00am to 12:30pm. The webinar on Clinical Trials commenced at 9:00 am with welcome address by Dr. Sarala N, Professor and Head of Department, who set the tone for the day's insightful sessions. Dr. Rajesh V explained the roles and responsibilities of a Principal Investigator, providing valuable insights into the leadership aspects of clinical research. He shared his expertise on managing clinical research projects. His talk provided a roadmap for new investigators, emphasizing the significance of ethical conduct and meticulous method of carrying out clinical trials. Dr. Harish R deliberated in-depth on the regulatory requirements for clinical trials, highlighting the importance of compliance and ethical considerations in research. His detailed presentation covered various regulatory bodies and guidelines that are essential for maintaining the integrity of clinical research. Dr. Mohammed Raza focused on the software used in Pharmacovigilance, offering a technical perspective on monitoring drug safety. His talk highlighted various software used monitoring adverse drug events/reactions. His session was particularly engaging for those interested in the field of pharmacovigilance in pharmaceutical industry and clinical trials. Dr. Bhuvana K, who discussed the steps involved in registering clinical trials in Clinical Trials Registry- India (CTRI). Her talk on the CTRI was insightful, stressing the need for transparency in clinical trials and availability of data on public domain. This session highlighted the role of CTRI in improving research credibility and prevention of research duplication. The webinar concluded with a vote of thanks by Dr. Arun Hebbar J N, he concluded the webinar by thanking patrons of our institute, expressing gratitude to all speakers acknowledging each speaker's contribution and thanking all participants for active participation and enthusiasm throughout the event.

Welcome address by HOD -Dr. M Usha

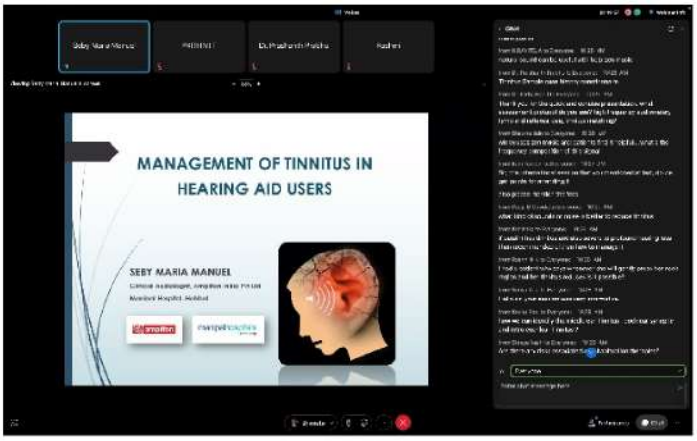

Speaker 1 -Dr Prashanth Prabhu

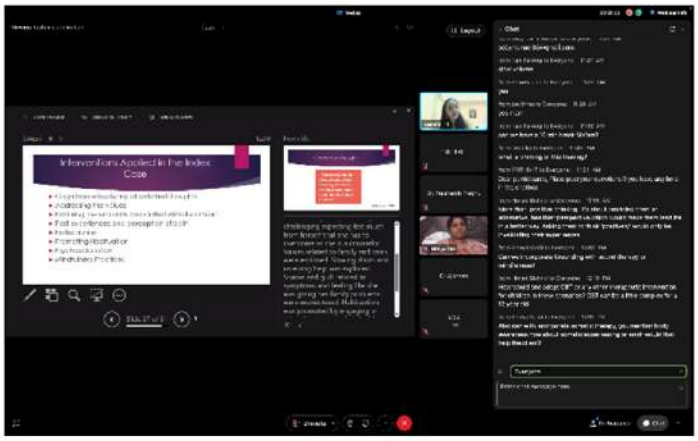

Patient category number	Criteria for the category	Type of TRT treatment
0	Tinnitus is a minimal problem. The tinnitus is weak, < 2 months or short lasting. Patient doesn't have significant hearing loss or hyperacusis.	Basic directive counseling + sound therapy w/o the need for wearable sound generators or hearing aids. Requires fewer follow-ups.
1	Tinnitus is a significant problem/bothersome. Without associated significant hearing loss or hyperacusis.	Directive counseling and sound therapy which includes tabletop sound machine and a wearable sound generator which is set at 'mixing' or blending point.
2	Hearing loss and tinnitus a significant subjective problem. Without hyperacusis nor prolonged worsening of symptoms after sound exposure.	Directive counseling and combination instruments (hearing aids and sound generator)
3	Hyperacusis is a significant problem. Tinnitus or hearing difficulties irrelevant. Prolonged worsening of tinnitus or hyperacusis after sound exposure is not present.	Directive counseling and wearable sound generator or combination instruments.
4	Hyperacusis as dominant complaint, shows worsening of tinnitus or hyperacusis following exposure to sound.	Relatively uncommon, most difficult to treat, slow responses to treatment. Directive counseling + sound generator

Speaker 2 - Ms. Seby Maria Manuel

Speaker 3: Ms. Rashmi Ramesh

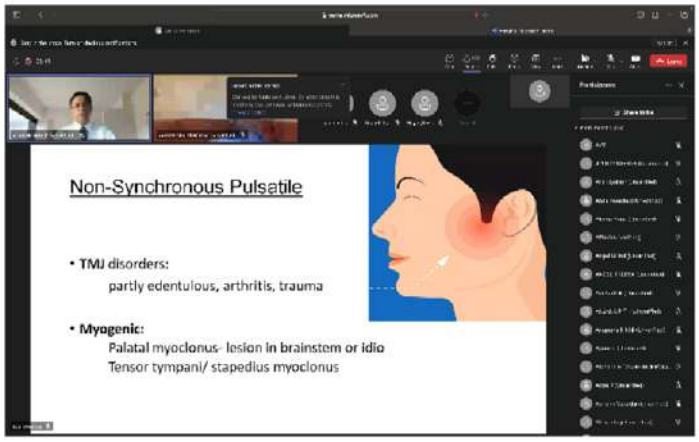

Speaker 4: Dr. Ajithesh N H

	Guest lecture on the occasion of ***"Cataract awareness month"*** at Institutional Level
2	**Background / Introduction**
	Cataracts affect millions, often with age, but can be effectively treated with surgery, restoring clear sight and quality of life. This month serves as a reminder to prioritize regular eye exams and early detection, crucial steps in preserving vision and preventing blindness. Ophthalmology Efforts are needed to expand access to surgical services and raise awareness to reduce the burden of preventable blindness. In response to this challenge, we are organizing a Guest lecture session aimed at educating healthcare professionals and the public alike. This initiative will serve as a practical guideline, emphasizing early detection, timely intervention, and accessible treatment options.

Sl. No.	Event Report- Department of Orthopaedics
1	**Name & Level of Event**
	CME and WORKSHOP on "MENISCUS INJURIES – RECENT UPDATES" on 27/06/2024 **Level of event: State level**
2	**Background / Introduction**
	Each of your knees has two C-shaped pieces of cartilage that act like a cushion between your shinbone and your thighbone. A torn meniscus is one of the most common knee injuries. Any activity that causes you to forcefully twist or rotate your knee, especially when putting your full weight on it, can lead to a torn meniscus. If you've torn your meniscus, it might take 24 hours or more for pain and swelling to begin, especially if the tear is small. A torn meniscus causes pain, swelling and stiffness. You also might feel a block to knee motion and have trouble extending your knee fully. Performing activities that involve aggressive twisting and pivoting of the knee puts you at risk of a torn meniscus. The risk is particularly high for athletes — especially those who participate in contact sports, such as football, or activities that involve pivoting, such as tennis or basketball. So does age and obesity.

Report on Guest Lecture by Dr.R.P.Pai

Department of Community Medicine had invited Dr. R. P. Pai, an eminent personality in the field of Community Medicine to have an interactive session with the post graduates of department of Community.

Title: Scope and Opportunities for Community Medicine Graduates

Date and Time: June 28, 2024, at 10:00 AM

Guest Lecturer: Dr. R. P. Pai MS (Gen. Surg.), PhD. (Rural Surg.) MD (Com. Med.), MD (Hosp. Admin), FAGE, PDF in Exp. Med. &Surg.

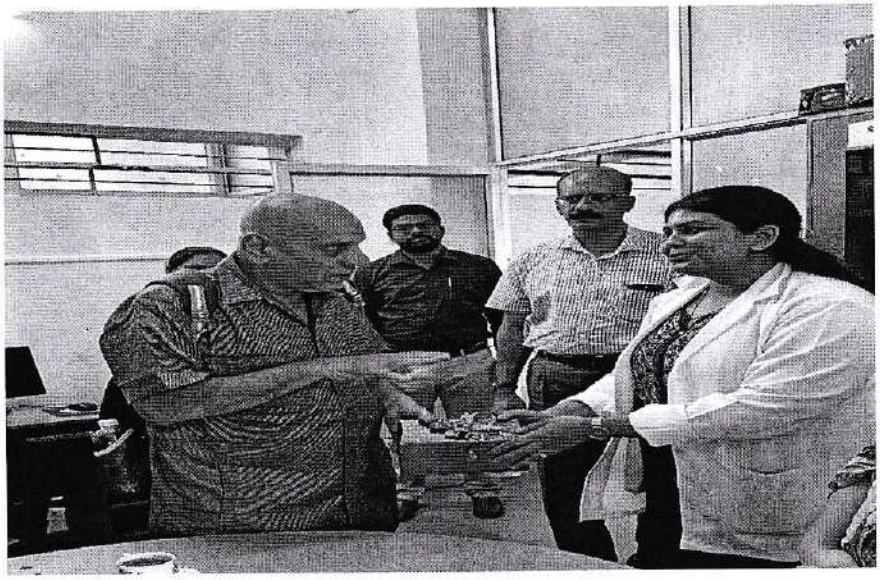

The lecture focused primarily on research in the field of community medicine. Dr. R. P. Pai emphasized the significance of research in advancing community health and the role of community medicine graduates in contributing to this field. Dr. R. P. Pai discussed various research opportunities available for community medicine graduates. He highlighted the importance of engaging in research to address community health issues and improve public health policies.

An intriguing takeaway from the lecture was the importance of learning multiple languages. Dr. Pai explained how being multilingual can enhance communication with diverse populations and facilitate better data collection and community engagement in research projects.

The lecture was attended by students, post graduates and faculty members from SDUMC. The audience showed keen interest in the topics discussed and actively participated in the session.

A lively Q&A session followed the lecture, where Dr. Pai addressed various questions from the audience. Topics ranged from specific research methodologies to career advice for community medicine graduates. The interaction provided valuable insights and practical advice for aspiring community health researchers. The session was highly informative and inspiring. Dr. Pai's expertise and passion for community medicine were evident throughout the session. His emphasis on the importance of research and learning languages left a lasting impression on the attendees, motivating many to explore new opportunities in the field of community medicine.

Concluding the session on a note of gratitude and appreciation, Dr.Angayarkani, Junior Resident in the Department of Community Medicine, stepped forward to deliver a heartfelt vote of thanks.

2.	Background/ Introduction
The webinar explored the transformative power of ChatGPT in competency-based health professions education. This dynamic event delved into core principles, innovative strategies, and global perspectives on integrating ChatGPT into educational frameworks. It provided insights from a distinguished expert and practitioner in the field. Attendees gained a comprehensive understanding of how ChatGPT can revolutionize health professions education, explored practical implementation techniques, heard firsthand success stories, engaged in stimulating discussions on challenges and opportunities, and discovered collaborative initiatives to drive innovation in educational methodologies. It was a vibrant exchange of ideas shaping the future of health professions education.

The webinar began with a warm welcome address by Mr. Naveen, setting a positive tone for the event. Following this, Dr. Vinutha introduced the distinguished speaker, providing an overview of their extensive expertise and contributions to the field.	

The resource person commenced the session with an engaging interaction with the participants, establishing an interactive and inclusive atmosphere. The speaker then delved into the key aspects of ChatGPT, exploring its transformative potential in competency-based health professions education. Throughout the session, the speaker posed thought-provoking questions to the audience, encouraging active participation and deeper reflection on the topic.
As the session progressed, participants had the opportunity to ask questions, to which the speaker responded with insightful and detailed answers, further enhancing the understanding of ChatGPT's applications and implications. The webinar concluded with a thoughtful thank-you note from Mr.Naveen Kumar, expressing gratitude to the speaker and participants for their valuable contributions and active engagement.

The event successfully provided a platform for knowledge exchange, collaborative learning, and insightful discussions, leaving attendees inspired and equipped with new perspectives on integrating ChatGPT into health professions education.

Name of the Event: Guest Lecture on "Acute Coronary Syndromes"

Name of the Department: General Medicine

Sl. No.	Event Report
1	**Name & Level of Event**
	Guest Lecture on "Acute Coronary Syndromes"
2	**Background / Introduction**
	Acute coronary syndrome is a term that describes a range of conditions related to sudden, reduced blood flow to the heart. These conditions include a heart attack and unstable angina. A heart attack happens when cell death damages or destroys heart tissue. A heart attack also is known as a myocardial infarction. Unstable angina occurs when blood flow to the heart decreases. It's not severe enough to cause cell death or a heart attack. But the reduced blood flow may increase your risk of a heart attack. Acute coronary syndrome often causes severe chest pain or discomfort. It is a medical emergency that needs a diagnosis and care right away. The goals of treatment include improving blood flow, treating complications and preventing future problems.

Sl. No.	Event Report
1	**Name & Level of Event**
	CME on "Recent Advances in Stroke Management "
2	**Background / Introduction**
	Stroke is the important cause of mortality and morbidity. In recent years, several landmark trials have transformed acute ischemic stroke care. With the technological advances in acute stroke care, many more patients with the most severe strokes can receive treatments that can reduce death and disability from the disease. Endovascular intervention with mechanical thrombectomy has been shown to improve functional outcomes in select patients with severe stroke and large artery occlusion in the anterior cerebral circulation. Knowledge about recent advances in management of Stroke can reduce mortality and morbidities in Stroke Patients.

TIME: 2:00PM – 4:00PM

Venue: Ophthalmology Seminar Room, PG Block, SDUMC Kolar,

Organized by

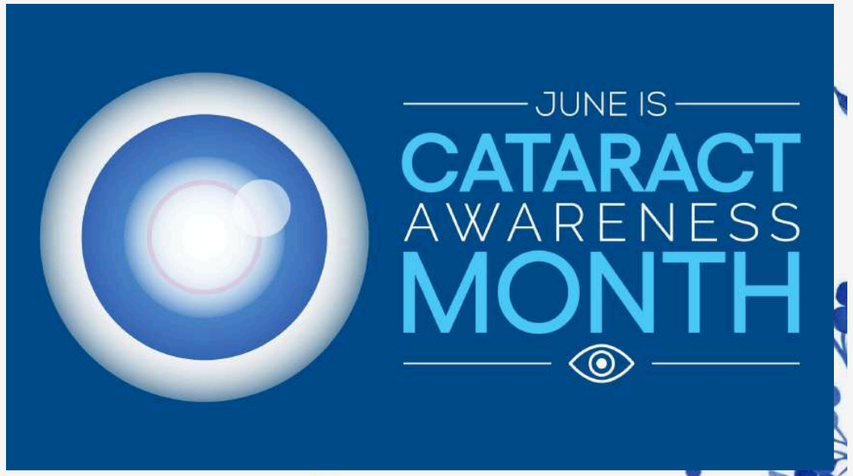

Dept. of Ophthalmology

June marks Cataract Awareness Month, dedicated to spreading knowledge about the most common cause of vision loss worldwide.

Cataracts affect millions, often with age, but can be effectively treated with surgery, restoring clear sight and quality of life.

This month serves as a reminder to prioritize regular eye exams and early detection, crucial steps in preserving vision and preventing blindness.

Cataract remains a significant cause of blindness worldwide, both in urban and rural populations, standing as the primary condition after glaucoma.

It is estimated that cataracts affect millions globally. In India, cataracts are a major public health concern, affecting millions annually.

Despite cataract surgery being highly effective, there is a significant backlog of patients awaiting treatment, especially in rural areas.

Efforts are needed to expand access to surgical services and raise awareness to reduce the burden of preventable blindness.

In response to this challenge, we are organizing a Guest lecture session aimed at educating healthcare professionals and the public alike.

This initiative will serve as a practical guideline, emphasizing early detection, timely intervention, and accessible treatment options.

Event Report

Name of the Event: "Workshop on Good Clinical Practice"

Department: Research and Development Cell

Venue: Sir CV Raman Auditorium, 3rd Floor, University Building, SDUAHER

Date: 10.07.2024

Sl. No.	Particulars
1.	**Introduction**: Good Clinical Practice (GCP) is an internationally recognized set of guidelines and standards for conducting clinical trials involving human subjects. GCP guidelines are established by the International Council for Harmonisation (ICH) of Technical Requirements for Pharmaceuticals for Human Use, specifically under the ICH E6 (R2) guideline. Adherence to GCP ensures that clinical trials are conducted ethically, safely, and scientifically, facilitating the development of new medical treatments and ensuring public trust in the research process. Considering the same Research and Development Cell of Sri Devaraj Urs Academy of Higher Education and Research, Kolar, Karnataka, India organized workshop on **Good Clinical Practice** on 10.07.2024
2.	**Proceedings:** **Inauguration**: Event commenced on 10.07.2024 at 10:00 AM with the invocation song by Mrs Suma & team. Compering was done by Dr. Shashidhar K, Deputy Coordinator, R & D Cell. All the dignitaries, resource persons have inaugurated the ceremony by watering the plant

Welcome Address:

Dr. Kalyani R, Director, Research & Development Cell, SDUAHER, welcomed all the dignitaries of our institution, esteemed speakers and the participants of the event. with great pleasure she welcomed all for the workshop on Good Clinical Practice (GCP) saying active participation of all underscores a collective commitment to upholding the highest standards in our scientific endeavors. And briefed about GCP as an international ethical and scientific quality standard for designing, conducting, recording, and reporting clinical trials that involve human subjects. It ensures that the rights, safety, and well-being of trial subjects are protected and that the clinical trial data is credible.

Opening Remarks:

Dr. Muninarayana C, Registrar, SDUAHER highlighted the need and importance of Good Clinical Practice in the context of Clinical trials and advised all the participants to make use of the new knowledge generated from the workshop.

Dr. B Vengamma, Hon'ble Vice Chancellor, SDUAHER provided the insight about the safety and ethical aspects in the conduct of clinical trials and wished all the participants to have a fruitful experience from the talks of the Resource persons and utilize them in clinical practice.

Talk 1

Dr Denis Xavier: Professor and Head of Pharmacology (Ex Vice Dean), Head, Divn. of Clinical Research, St. John's Medical College, Bangalore. Rendered detailed talk on topic titled **Overview of Principles in GCP** and stressed that the principles in GCP collectively ensure that clinical trials are conducted with the highest ethical standards, maintain participant safety, and produce reliable data that can be used to evaluate investigational products and advance medical knowledge. Compliance with GCP principles is crucial for obtaining regulatory approval and ensuring the credibility and acceptability of trial results.

Talk 2

Dr. Bheemachari: Principal & Professor Dept. of Pharmacology Varadaraja Institute of Pharmaceutical Education and Research, Tumkur**.** Rendered detailed talk on topic titled **GCP in Clinical Trial regulations** and concluded that GCP in clinical trial regulations provides a framework for conducting ethical and scientifically sound research while safeguarding participants' rights and safety. Compliance with GCP guidelines is essential for obtaining regulatory approval and ensuring the reliability of clinical trial data used to support new medical treatments and therapies.

Talk 3

Dr Denis Xavier: Professor and Head of Pharmacology (Ex Vice Dean), Head, Divn. of Clinical Research, St. John's Medical College, Bangalore. Rendered detailed talk on topic titled **Quality assurance and Quality Management in GCP** and emphasized that QA and QM in GCP are essential for ensuring that clinical trials are conducted ethically, adhere to regulatory requirements, and generate reliable data. QA focuses on verifying compliance through audits and reviews, while QM involves strategic planning and continuous improvement to maintain high standards of quality throughout the trial process.

Talk 4

Dr Hoti S L: ICMR-Emeritus Scientist, ICMR-Vector Control Research Centre, Indira Nagar, Puducherry. Rendered detailed talk on topic titled **Ethical and Safety issues in GCP** and emphasized that ethical and safety considerations in GCP are paramount to protect participants' rights and safety, maintain data integrity, and uphold public trust in clinical research. Rigorous adherence to ethical principles and regulatory standards ensures that clinical trials are conducted ethically and with due regard for participant safety throughout the study process.

	 
3.	**Concluding remarks**: The GCP workshop successfully achieved its objective of educating participants on the ethical and regulatory requirements of clinical research. It equipped attendees with essential knowledge and skills to ensure compliance with GCP guidelines, thereby promoting the conduct of ethical and scientifically rigorous clinical trials.
4.	**Participants & delegates:** A total of 140 members participated in the event
5.	**Certificate Distribution**: Distributed to all the participants
6.	**Valedictory Ceremony**: Vote of thanks was proposed by Dr. Sathishbabu P, Core committee member, R & D Cell Followed by Group Photo.

Name of Event: Guest Lecture on RECENT ADVANCES IN ANO RECTAL DISEASES

Name of Department: General surgery
Date: 12.07.2024

Sl. No	Event Report
1.	Level of Event – Institution
2.	Background / Introduction
Anorectal disorders encompass structural, neuromuscular, and functional disorders. They are common, often distressing, and in some cases debilitating, and significantly add to the health care burden. They present with multiple, overlapping symptoms that can often obscure the underlying pathology and can pose significant diagnostic and management dilemmas. A meticulous history and comprehensive digital rectal examination can provide clarity on the diagnosis, appropriate testing, and management of these conditions. Today, with the development of sophisticated diagnostic tools such as high-resolution and high-definition (3-D) anorectal manometry, 3-D anal ultrasonography, magnetic resonance defecography and imaging, and neurophysiological tests such as translumbosacral anorectal magnetic stimulation, it is possible to more accurately define and characterize the underlying structural and functional abnormalities. This lecture aims to provide a brief update on recent advances in various ano rectal diseases.	
3.	Venue – Dr. B.C.Roy Hall (A V Hall, Library 1st Floor)

Date of conduct of event: 12.07.2024

Department of General Surgery had organized a guest lecture on "RECENT ADVANCES IN ANO RECTAL DISEASES" on 12.07.2024 from 11:00AM to 1:00PM in AV Hall, Library 1st Floor.

The gathering was welcomed by Dr. Shashirekha .C.A, Professor & HOD, Department of General Surgery, SDUMC, followed by the invocation song and lighting of the lamp by the dignitaries.

Patrons delivered their valuable insights during the meet – Dr. B Vengamma, The Hon'ble Vice Chancellor, SDUAHER, delivered a speech regarding the importance of adapting recent advances in today's life.
Dr. D V L N Prasad, The Chief Administrative Officer, SDUAHER, appreciated Department of Surgery for conducting the event.
Dr.Prabhakar , principal ,SDUMC, briefed the importance regarding creating awareness on earlier treatment of ano rectal diseases.

Introduction of guest was done by Dr. Pravalika.D. M, Assistant Professor, Department of General Surgery, SDUMC. The guest Dr. Rajeev Premnath, addressed the Residents and interns from the department of General Surgery regarding RECENT ADVANCES IN ANO RECTAL DISEASES.

The guest lecture was received well by all the residents and interns followed by an interactive session.

Dr. Rajeev Premnath, was presented a token of appreciation by Dr. B Vengamma - The Hon'ble Vice Chancellor, SDUAHER, Dr. D V L N Prasad - The Chief Administrative Officer,SDUAHER, Dr.Prabhakar - Principal, SDUMC, Dr. Shashirekha C.A - Professor and HoD of General Surgery, Dr. P.N. Sreeramulu - Professor, Department of General Surgery, Dr. Krishna Prasad K - Professor, Department of General Surgery, Dr. Prakash Dave - Professor, Department of General Surgery.

Vote of thanks was delivered by Dr. Y. Sai Vikram, Senior Resident Department of General Surgery.

Date of the Event: **19th July 2024**

Sl.no	Event Report
1	Level of Event – Institutional level
2	**Introduction-** Biobanking is emerging as a crucial branch of science, playing a pivotal role in biomedical research and precision medicine. It encompasses a wide range of activities, including sample collection, storage, research, education, funding, publishing, biobanking services and analytical services. Biobanks are integral to precision medicine, aiding in patient diagnosis, treatment, follow-up, therapy monitoring and optimization. Biobanks serve as repositories for biospecimens, where biosamples are systematically collected and stored along with their clinical, social and pathological information for research, new drug discoveries and drug development. In recent years, there has been a growing interest in establishing biobanks in both private and government hospitals in India to support advancements in disease prevention, prediction, diagnosis and treatment. The Indian government has also begun providing initial funding to establish biobanks for cancer, liver diseases and rare diseases.
3	**Venue**- Dr. B.C. Roy auditorium, SDUAHER
4	**Sponsors** – NA
5	**Inauguration- NA**
6	**Conducted** Dr. Kiranmayee greeted the audience and invited Dr. Kalyani to formally welcome them and the guest speaker, Dr. Abhishek Mohanty. All the dignitaries were honored with flower bouquets. In her introductory remarks, Dr. Kiranmayee presented Dr. Abhishek Mohanty to the audience and invited him to begin his lecture. Dr. Abhishek Mohanty, the Program Director and Pan-India Head of the Centre for Biorepository and Biobanking at Health Care Global Cancer Hospital, Bengaluru, discussed the significance of tissue banking. He covered the requirements for establishing and maintaining tissue banks, the importance of obtaining patients' consent, and the ethical considerations involved in tissue banking. Dr. Abhishek also addressed questions from the audience.

	Dr. Gopinath felicitated Dr. Abhishek Mohanty, and Dr. Sampath delivered the vote of thanks.

1	**Name & Level of Event**
	National conference on artificial intelligence in healthcare – empowering medical professionals for enhanced healthcare delivery. National Level
2	**Background / Introduction**
	Artificial intelligence (AI) is the ability of machines to mimic human intelligence and perform tasks that require reasoning, learning, or problem solving. AI uses algorithms or a set of rules, to mimic human cognitive functions, such as learning and problem solving. AI finds applications in various fields, including medicine and healthcare. The delegates of the conference gained insights into cutting-edge AI technologies and their applications in healthcare, fostering a deeper understanding of advancements in the field. The conference provided a platform for professionals to connect with experts, researchers, and industry leaders, facilitating collaborations and partnerships that can drive innovation. In association with SAAP, PSI, FPI, APPI (Bangalore) cosponsored by MERT.
3	**Venue**
	R.L Jalappa Silver Jubilee Auditorium
4	**Sponsors**
	SDUAHER, Kolar, MERT, Bangalore
5	**Inauguration**
	The formal inauguration program took place at 10:00am. The dignitaries were invited to occupy their seats on the dais. An invocation song was sung by MBBS student. This was followed by a welcome address by Dr Jagadamba , Professor & HoD Department of Physiology. Opening remarks were by Dr. K. Prabhakar Principal, SDUMC. Chief Guest and keynote speaker - Dr.Nalin Mehta was felicitated. He delivered the keynote address on 'Ethics of AI in healthcare and biomedical research' highlighting the ethical issues of AI in healthcare and the ethical challenges and the importance of developing responsible AI systems. Previous heads of the department of Physiology, Sri Devaraj Urs Medical College, Kolar, Dr.Nachal Annamalai and Dr.Karthiyanee Kutty were felicitated and they responded to the felicitation. Presidential remarks were given by Dr. Vengamma B, Hon'ble Vice chancellor, SDUAHER. Dr. Geetha S professor of Physiology, SDUMC and Organizing secretary of the National Conference gave the vote of thanks.

6	**Speakers**
	Dr.Nalin Mehta, Director, North Eastern Indira Gandhi Regional Institute of Health & Medical Science, Shillong. Dr.Raksha Bhat, Consultant Microbiologist, Infection Control Officer & Head of the Department, Central Laboratory, St. Martha's Hospital, Bengaluru Dr.Lokesh B, Consultant Neurologist, Aster CMI Hospital, Hebbal, Bengaluru, Dr.Pradeep Kumar Sreenivasaiah , Technical Program Manager, AI Research @ Google Deep Mind, Bengaluru
7	**Participants & Delegates in Number**
	148
8	**Awards / Prizes**
	Dr.Panathi R from St.John's Medical College, Bangalore and Dr.Suraj R.S from Bangalore Medical College, Bangalore were awarded the prize for best Oral presentation. Dr.Tanya Anto, from St.John's Medical College, Bangalore and Subaruban U, from Hassan Institute of Medical Sciences were awarded the prize for best e-poster presentation.
9	**Valedictory**
	Dr. Jagadamba A, Professor &HOD, Department of Physiology, SDUMC welcomed all the participants' dignitaries and faculty members to the valedictory programme. Winners of Oral and e-poster presentation were announced and awards were distributed. Dr. Mamatha Shree C , Assistant Professor, Physiology Department, SDUMC gave the vote of thanks.
10	**Any Other Information** Two pre-conference workshops were conducted on 24th July 2024. The resource persons for the workshops were Dr.Jagan Mohan R - Deputy Director, Centre for Digital Resources, Education & Medical Informatics, A Unit of Sri Balaji Vidyapeeth (Deemed to be University), Pillaiyarkuppam, Pondicherry Prof. Sitanshu Sekhar Kar - Professor & Head, Preventive and Social Medicine, JIPMER, Pondicherry Prof. Devi Prasad Mohapatra, Professor, Plastic Surgery, JIPMER, Pondicherry 1"AI in Healthcare: Empowering Clinicians and Researchers in the Digital Age. By Dr.Jagan Mohan and

	2. Use of Digital Tools & Artificial Intelligence in Medical Education by Prof. Devi Prasad Mohapatra & Prof. Sitanshu Sekhar Kar. Feedback from the delegates was overwhelmingly positive. Attendees appreciated the depth and breadth of topics covered, the quality of speakers, and the opportunity to network with peers. Suggestions for future conferences included more hands-on workshops, increased focus on AI in mental health, and discussions on AI integration in rural healthcare systems.

Workshop Report

"Parenteral Nutrition"

A national workshop was conducted by the Department of Clinical Nutrition and Dietetics on July 26, 2024, from 9:00 a.m. to 4:00 p.m. The event began with the inauguration in the presence of Honorable Vice President Shri J. Rajendra, Honorable Secretary Shri Hanumantha Raju, Dr. Aravind Natarajan, Dean of the Faculty of Allied Health and Basic Sciences, and Dr. C.D. Dayanand, Director of Admission & CARE. Following the lamp-lighting ceremony, a traditional event symbolizing the pursuit of knowledge and enlightenment, the welcome address was delivered by Dr. Shivakumara C.S. I/c HOD, Department of Clinical Nutrition and Dietetics. Subsequently, Honorable Vice President Shri J. Rajendra addressed the audience, highlighting the vital role of nutrition in daily life and career perspectives. In sequence, Dr. Aravind Natarajan, Dean of the Faculty of Allied Health and Basic Sciences, delivered a captivating address that impacted the workshop on parenteral nutrition. Respected Dr. C.D. Dayanand, Director of Admission & CARE, has enlightened the students with his thought-provoking speech and encouraged them to conduct more events.

The National Workshop began with one hundred fifteen participants gathered to hear the workshop, including students from PNS Institute of Technology, Bengaluru, Padmashree Institute of Management and Sciences, Bangalore, and the Maharani Cluster University. Participants are undergraduate and postgraduate students, Ph.D. scholars, faculty, and students from the Department of Clinical Nutrition and Dietetics, as well as staff and students from other departments at SDUAHER. The Workshop emphasized a holistic approach, highlighting the interconnection of health's physical, mental, and emotional aspects. The speakers stressed that nutrition shouldn't be viewed in isolation but as an integral part of overall wellness. The concept was thoroughly explored, including types of parenteral nutrition, administration techniques, nutritional components of parenteral nutrition, formulation, and preparation, and the calculation of nutrient requirements for comprehensive health improvement. The presenters offered crucial perspectives on various prospects within the nutrition field and comprehensively discussed the key skills and qualifications needed for success. They also gave information on future chances for working in the nutrition field. Furthermore, the workshop provided valuable insights into total parenteral nutrition factors and the scope of the nutrition profession to utilize while pursuing various career paths. Overall, the national workshop was an invaluable resource for students who aimed for a career in nutrition.

Lamp Lighting Ceremony

Welcome Address

The first speaker, Dr. Sunil Honkalas, MD, Medical Affairs & Pharmacovigilance, South Asia Fresenius Kabi, India Pvt Ltd, presented workshop on the topic "Current Trends and Best Practices in Parenteral Nutrition." He discussed the administration of nutrients directly into the bloodstream through an intravenous (IV) line, addressing when oral or enteral (tube feeding) nutrition is not possible, sufficient, or safe. Examples of different conditions that require the PN were explained, such as gastrointestinal obstructions, Short bowel syndrome, severe malabsorption, and critical illness.

Dr. Sunil Honkalas, MD, Medical Affairs & Pharmacovigilance

The second speaker, Dr. Akshatha N, Co-founder and Managing Director of Ambara Wellness conducted a session on the practical application of parenteral nutrition, providing participants with hands-on experience in this critical area. She explained that Total Parenteral Nutrition (TPN) entailed administering all of a patient's dietary requirements intravenously. This procedure was frequently utilized when a patient was unable to eat or absorb nutrients via the gastrointestinal tract. She described how calculating TPN required finding the optimal mix of macronutrients (carbohydrates, proteins, and fats) and micronutrients (vitamins and minerals) based on the patient's needs.She demonstrated TPN, including IV access, preparation, and infusion processes. It was important for patients receiving TPN to have regular monitoring to adjust the nutritional formula as needed, based on biochemical parameter, weight, and overall health status.

Background/Introduction

Department of Anesthesia and School of Allied Health Sciences, SDUAHER are jointly organizing a CME on ‘Monitoring in Anesthesia from Theory to Practice’. held on 27/07/2024. This CME focuses on Monitoring in the field of Anesthesia and Operation Theatre Technology. This is rapidly expanding and hence the update on knowledge is crucial. This improvises the expertise of technologist who can handle pre-operative monitoring effectively under the medical supervision. The present CME is enriched by the participation of excellent resource persons.

Inauguration

The Inauguration was held at 11.00 A.M. in the sir CV Raman PG Auditorium, University Building, SDUAHER, program commenced with an invocation by Dr. Usha G. Shenoy, followed by the welcome address by the organizing secretary Dr. Lavanya Kaparti. Subsequently, all the dignitaries were invited for Lamp Lighting. Chief Administrative officer Dr. D.V.L. N Prasad, grace the occasion along with the Registrar Dr.C. Muninarayan, Dean, FAHBS Dr.Aravind Natarajan, HOD of FAHBS Dr. C.D.Dayanand Organizing Chairman, and other members of organizing committee. Chief administrative officer Dr. D.V.L.N Prasad addressed the gathering about present scenario of Monitoring in Anesthesia from Theory to Practice' and their importance with few examples.

ANAESTHESIA TECHNOLOGISTS' DAY

All India Association Of Anesthesia And Operation Theatre Technology association celebrating ' Anaesthesia and Operation Theatre Technologist day on July 20th . behalf of this Mr. Manish Kumar president of AIAAOTT New Delhi, and Mr. Feroj Alam, General Secretary, AIAAOTT New Delhi, were spoke few words on the event, in this event Dr. DVLN Prasad Chief Administrative Officer, Dr. Muninarayan C, Dr. Aravind Natarajan Dean of Allied Health Sciences, Dr. C.D. Dayanand , HOD of Allied Health Sciences, Dr Suresh Kumar. N. HOD of Anesthesiology Department SDUMC and Mr.Mahesh M Organizing committee were felicitated

Speakers:

Session - 1:

Dr Amith S
Associate Professor, Department of Anesthesiology, BGS, GIMS, **Bangalore. Deliver the talk on** Pulse oximetry and Capnography

Session - 2:

Dr .Chandana
Assistant Professor, Department of Anesthesiology, BGS, GIMS Bangalore, deliver the talk on Neuromuscular Monitoring

Session - 3:

Dr Shruthi Rao
Assistant Professor, Department of Anesthesiology, BGS, GIMS Bangalore. deliver the talk on Ventilator Setups & intraoperative Monitoring

Session - 4:

Dr. Lavanya Kaparti

Professor, Department of Anesthesiology SDUAHER, Tamaka, Kolar. The talk deliver on Temperature monitoring & maintenance

Session - 5:

Dr. Sujatha, M P

Professor, Department of anesthesiology, SDUAHER. Tamaka, Kolar. The talk deliver on Blood pressure monitoring –invasive & Noninvasive

Session - 6:

Dr. Vishnuvardhan V

Associate Prof. Department of Anesthesiology SDUAHER Tamaka, Kolar. The talk deliver on Intraoperative blood loss Monitoring

Poster Presentation

Department of Anesthesia and operation theatre technology and anesthesiology conducted poster presentation on the topic ‘’ Historical Perspective in art and science of Anesthesia.
We encourage the delegates and students to explore presenters’ creativity and unique perspective to the competition. Poster presentation was inspired our delegates, students, judges and speakers.

Various college students and delegates were participated in the competition of poster presentation, and we are invited Dr. Sujatha M P and Dr. Charan Raj K as judges for poster presentation competition.

Name of the event: Workshop on ELS4: The Rols of Social Media in Health Profession
Date of the event: 31 July 2024
Name of the department: University Centre for Health Profession Education

Sl. No.	Event Report
1	**Level of the event**
	Institute level
2	**Background / Introduction**
	Social media in health profession education enhances learning through interactive engagement, collaboration, and resource sharing. Platforms like Twitter, LinkedIn, and YouTube connect professionals, disseminate knowledge, and provide access to the latest research and trends, fostering a dynamic and supportive learning environment for healthcare practitioners. This workshop targeted the use of social media in health profession education.
3	**Venue**
	Medical Education Unit, SDUMC
4	**Sponsors**
	SDUAHER
5	**Inauguration**
	The event began by invoking God's blessings through a song. Dr. Vinutha Shankar welcomed the gathering and invited Dr. B Vengamma, Honorable Vice Chancellor, SDUAHER to address the gathering. This was followed by a brief talk by Dr. Muninarayana C, Registrar, SDUAHER. Later Dr. Vinutha introduced and welcomed the speakers for the day
6	**Speaker**
	Mr. Lokheshwar S, Assistant Professor, Dept. of Speech Pathology & Audiology, SDUAHER Dr. Shobha MV, Professor, Dept. of Physiology, SDUMC Dr. Ashwini K Shetty, Professor, Dept. of Physiology, SDUMC
7	**Participants & Delegates in Number**
	A total of 25 participants attended the workshop
8	**Awards / Prices**
	Nil
9	**Valedictory**
	The program ended with a vote of thanks by Dr. Vinutha Shankar, Director, UCHPE

10	**Any other information**
	Mr. Lokhesh introduced various social media and educational platforms. Dr. Shobha then discussed the advantages and disadvantages of using social media in health profession education. Further, Dr. Ashwini shared 12 tips for creating content using social media. The session concluded with a group activity where participants developed a topic and selected a social media platform to disseminate information. By the end of the workshop, participants reported increased awareness of various social media platforms and their effective use in health education.

2.	**Background / Introduction**

Health care associated infections or nosocomial infections affect patients in a health care facility and are the most frequent adverse events in health care delivery worldwide. These infections lead to significant mortality, morbidity and financial burden both to the patients and health care system. With the inadvertent use of powerful broad spectrum antibiotics, improper aseptic precautions and inappropriate infection prevention and control practices by health care workers, the rate of hospital acquired infections due to multidrug resistant organisms is on the rise.

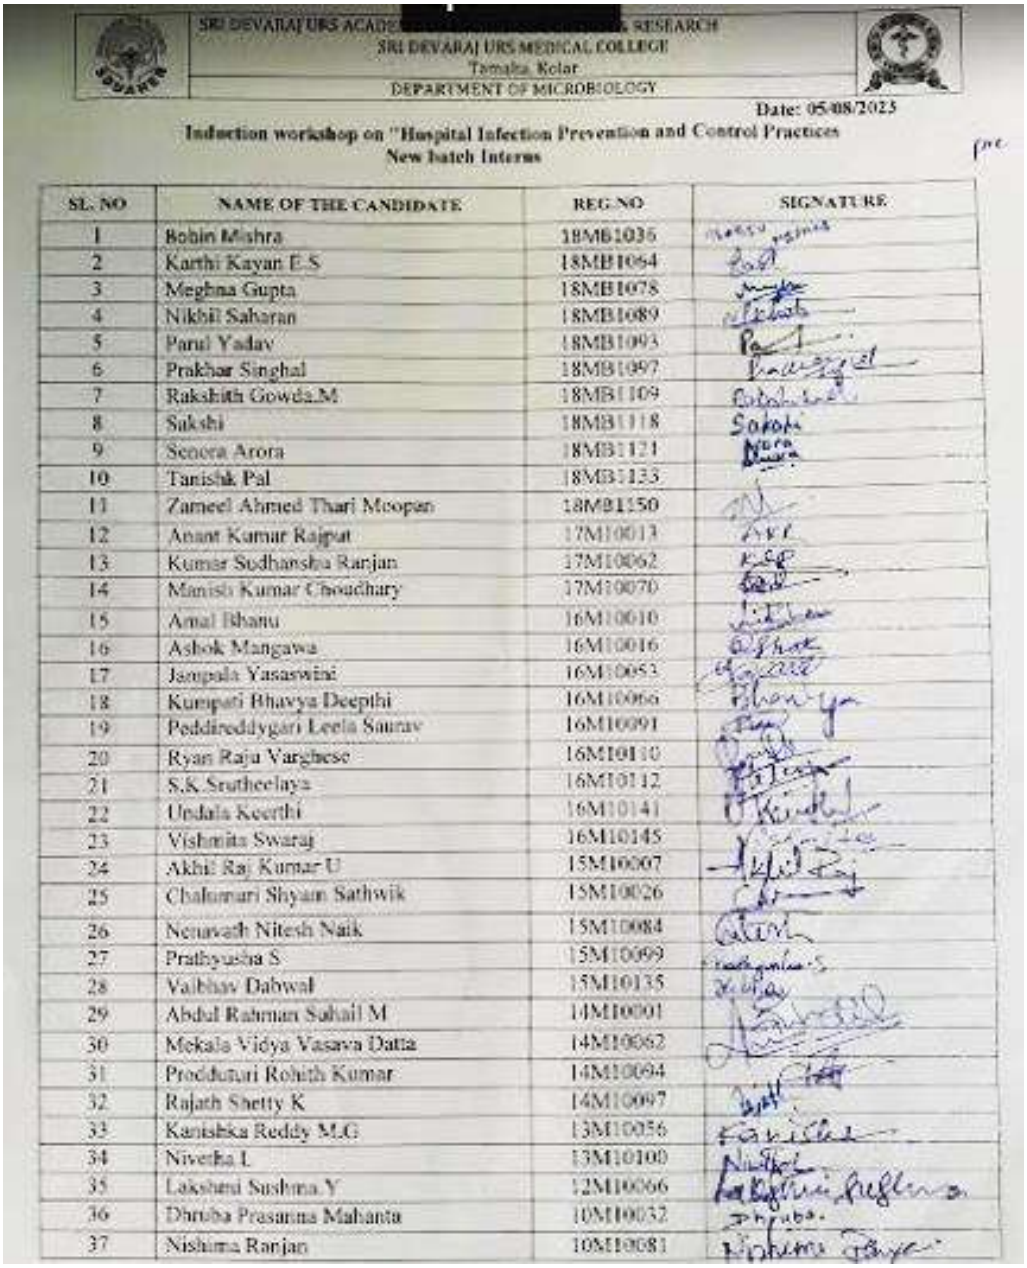

Hence, prevention and control of hospital acquired infections has become essential in health care system for which there is a need for comprehensive infection control measures at all levels of health care delivery and training plays an important role.

This induction workshop for new interns aimed at training them and making them competent enough to carry out infection prevention and control measures effectively in their day to day patient care.

The programme was conducted by Department of Microbiology and Hospital infection control committee (HICC), SDUMC, SDUAHER, Kolar on 05/06/2023 from 9.00 am to 1.30 pm with Dr. Arvind.N as organizing chairman, Dr. Anitha.D as organizing secretary and Dr. Rahil Pasha S.A as organizing co-secretary.

3.	**Venue:** Department of Microbiology, SDUMC, SDUAHER
4.	**Sponsors:** SDUAHER
5.	**Inauguration:** Dr. Rahil Pasha S.A delivered the welcome address and welcomed all the dignitaries, all the resource faculty, infection control nurses, supporting staff and the new batch of interns for the programme. Introductory and opening remarks was given by Dr. Parimala, Professor, Microbiology, SDUMC, SDUAHER.
6.	**Speaker /Judges /Chairman /Panel Team** The scientific sessions were started at 9.30 am with pretest by Dr. Anitha.D, Infection control officer (ICO) and Dr. Rahil Pasha S.A, Assistant professor of Microbiology. **The Interns were divided into 2 Groups having 6 stations:** Hand hygiene, Standard precautions and Personal protective equipment (PPE), Biomedical waste management, Blood and body fluid spill management and Prevention and management of Needle stick injuries and blood and body fluid exposure and Hospital acquired infections and care bundle to prevent infections and Antibiotic policy **Group 1:** Dr.Anitha.D and team **Group 2:** Dr.Rahil Pasha S.A and team **Station 1:** Hand Hygiene The resource faculty explained the need and importance of Hand hygiene in detail with demonstration following which Hands on sessions for all Interns were done in small groups with facilitators. **Station 2:** Standard precautions and Personal protective equipment (PPE) Resource faculty explained the different elements of standard precautions and discussed on Personal Protective equipment in detail with demonstration of Donning and Doffing of PPE following which Hands on sessions on donning and doffing of PPE were done in small groups with facilitators. All the Interns were made to Donn and Doff the PPE appropriately. **Station 3:** Biomedical waste management The guidelines and protocols on Biomedical waste management provided by Government of India, emphasizing on appropriate segregation in color coded containers were explained first following which Hands on session on disposal of BMW was done in small groups with facilitators by using simulated BMW and the color coded containers. Refreshment break was given for 15 minutes. **Station 4:** Blood and body fluid spill management Resource faculty discussed in detail regarding the topic to begin with following which hands on demonstration and activity of spill management was done. **Station 5:** Prevention and management of Needle stick injuries and blood and body fluid exposure Each group was trained about the preventive measures at first and emphasized about DO's and DON'T's after needle stick injuries and blood & body fluid exposure. They were also educated on timing of Post exposure prophylactic drugs (PEP) and its impact.

	Station 6: Hospital acquired infections and Care bundles for prevention and Antibiotic policy Described different types of HAI stressing on their pathogenesis and identification criteria. Trainers highlighted about the care bundles and its significance in preventing the occurrence of HAI through video demonstration. Antibiogram and Antibiotic policy was described in brief. At the end of all the stations and sessions, Post test was conducted and also Hepatitis B vaccine was administered to those who were not vaccinated. The training was concluded by thanking all the administrators, resource faculty, supporting staff and participants by Dr.Anitha.D.

	Data-Driven Decisions: Harnessing Analytics for Continuous Improvement in Health Education

	The webinar began with a warm welcome address by Dr. Naveen, setting a positive tone for the event. Following this, Dr. Usha Shenoy introduced the distinguished speaker, Dr. Jyoti Raghavendra Munavalli, Professor and Research Coordinator in ECE at BNMIT, who earned her B.E. in E & amp;C from Karnataka University Dharwad, providing an overview of her extensive expertise and contributions to the field. The resource person commenced the session with an engaging interaction with the participants, establishing an interactive and inclusive atmosphere. The speaker then delved into the key aspects of data-driven decision-making, exploring its transformative potential in health education. Throughout the session, the speaker posed thought-provoking questions to the audience, encouraging active participation and deeper reflection on the topic. As the session progressed, participants had the opportunity to ask questions, to which the speaker responded with insightful and detailed answers, further enhancing the understanding of data analytics applications and implications in health education. The webinar concluded with a thoughtful thank-you note from Dr. Naveen, expressing gratitude to the speaker and participants for their valuable contributions and active engagement. The event successfully provided a platform for knowledge exchange, collaborative learning, and insightful discussions, leaving attendees inspired and equipped with new perspectives on integrating data analytics into healthcare

Guest lecture on "Risk Management in Laboratory Medicine "by Dr Sujay Prasad - Event report 2024

1. **Name & level of Event**

   Guest lecture on "Risk Management in Laboratory Medicine" by Dr Sujay Prasad,

   12/09/2024

2. **Background/Introduction**

   Risk management in laboratory medicine involves identifying, assessing, and controlling potential risks to ensure accurate, timely, and reliable test results. It aims to minimize errors that can impact patient safety, diagnostic accuracy, and overall healthcare outcomes.

   Effective risk management in laboratory medicine ensures that patient care is not compromised and enhances the reliability and efficiency of laboratory services.

   This Guest Lecture focuses on the need to clarify and enlighten us on this confounding topic.

3. **Venue:** MEU hall (Above department of community medicine) in college building.
4. **Inauguration:** Dr T N Suresh, Prof and HoD, Pathology, welcomed the participants and introduced the session

   Guest speaker was introduced to the audience by Dr.Kalyani R

   Mrs Suma from the dept. of R&D sang an invocation song.

5. **Speaker**

   Dr Sujay Prasad, Professor of Practice, SDUMC Kolar
   Chief Medical Director, Neuberg Anand Reference Laboratory,
   President Of Karnataka Chapter – Indian Association Of Pathologist And Microbiologist (KCIAPM),

6. **PARTICIPANTS & DELEGATES IN NUMBERS:** Total of 45 members attended the event including technicians, postgraduates, consultants of departments of Pathology, Microbiology and biochemistry.

7. The Guest lecture concluded with Vote of Thanks from Dr. Poorni bharathi T, Assistant Professor of Pathology and Organizing Secretary of the CME.
8. **Feedback**: After the event, feedback was taken by Dr. Geetanjali, Joint - organizing Secretary of the CME. The interactive sessions and practical laboratory application

was most appreciated and the attendees have requested for more sessions on the same lines. Overall positive response was given by the attendees.

	CME and WORKSHOP on "ANKLE INJURIES UNRAVELLED: BLUEPRINT FOR EFFECTIVE TREATMENT" on 13/09/2024 **Level of event: Regional level**
2	**Background / Introduction**
	Ankle injuries are extremely common. It is important to have a clear insight of the course of recovery after such injury to evaluate the effective strategies to guide management decisions, and understand the potential risk factors involved in the development of chronic problems and recurrent ankle sprains. When the medial ligament complex (MLC), in particular the anterior fascicle of the deltoid ligament, is involved, rotational ankle instability (RAI) can develop. **Generally, a tear of the anterior fibres of the MCL accompanied by anterior talofibular ligament (ATFL) insufficiency has been associated with RAI.** **Conservative management is the first line of treatment, with surgery reserved for special cases or if rehabilitation has failed.** **Ankle arthroscopy is increasingly used to address ligament insufficiency and to identify and treat intra-articular pathologies. Repair of MLC tears by an arthroscopic all-inside procedure is effective in both MAI and RAI.**

Speaker:

TOPIC	TIME	SPEAKER
Networking	9.00 - 09.15AM	
Introduction & welcome speech	9.00 - 9.40 AM	Dr. Nagakumar J S (Dept. of Orthopaedics)
Surgical anatomy of Ankle	9.40 -10.00 AM	Dr. Sagar V
Classification and clinical features of Ankle Injuries	10.00-10.30AM	Dr. Vinay Kumar
Inauguration	10.30 -10.45 AM	
Decision making conservative or surgical	10.45-11.15 AM	Dr. Abhi Sharma
Tea Break	11.15 AM – 11.30 AM	
Surgical management	11.30 AM - 12.30 PM	Dr. Vinay Kumar Singh
Scope of Arthroscopy in Ankle	12.30PM – 1.00PM	Dr. Sreejith Thampy
Rehabilitation	1.00 – 1.30PM	
Workshop in Anatomy cadaveric Hall	2.30PM - 4.45PM	Dr. Vinay Kumar Singh, Dr. Nagakumar J S
Vote of thanks	4.45 – 5.00 PM	Dr. Vinod Kumar K

7 **Total participants – 72**

Professor & HOD
Dept. of Orthopaedics

EVENT REPORT

Name of the Event: **ZONAL LEVEL HYBRID CME ON "EXPERT INSIGHTS IN OCULOPLASTY" (17th September 2024)**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report
1	**Name & Level of Event –:** ZONAL LEVEL HYBRID CME ON "EXPERT INSIGHTS IN OCULOPLASTY"
2	**Background / Introduction** Oculoplastic conditions, including eyelid deformities and orbital tumors, impact both vision and appearance and remain a significant concern globally. In many regions, access to specialized oculoplastic care is limited, leading to unmet needs for surgery and treatment. Efforts are crucial to enhance awareness, expand access to specialized care, and address the backlog of patients requiring oculoplastic interventions. To address these challenges, CME is conducted to educate healthcare professionals and the public on the importance of early detection, timely intervention, and available treatment options in oculoplasty.
3	**Venue** – William Osler (physiology AV Hall), SDUMC and workshop on cadaveric dissection in Anatomy dissection hall
4	**Sponsors –** SDUAHER, Tamaka, Kolar.
5	**Inauguration**
	• Welcome addresses and introduction by Dr. Sangeetha. T, Prof. & HOD of Ophthalmology, SDUMC. • Chief Patrons – 1. Dr. Muninarayana C, Registrar SDUAHER 2. Dr. Prabhakar K, Principal, SDUMC 3. Dr. Krishnappa J, Medical Superintendent, RLJH & RC 4. Dr. Dinesh. K, Deputy Medical Superintendent, RLJH & RC

6	**Speaker/ Judges / Chairman / Panel Team**
	1. **Dr. Chaitra M C,** Associate Professor SDUMC – *Fundamentals of Oculoplasty.* 2. **Dr Chinmayee J T Professor ,** Minto Eye Hospital Banglore: *Orbital Tumours: Overview And Management* 3. **Dr. Pratheeba Devi N**, Medical Director, M N Eye Hospital, Chennai: *Ptosis: Evaluation And Management.* 4. **Dr. Shruthi G,** Consultant , Sharat maxivision Eye Hospital , Warangal :*Decoding Eyelid Tumors: From Detection to Treatment Strategies.* 5. **Dr. Kavya**, Consultant Vasan ASG Eye Hospital, Kolar - *Workshop on Cadaveric Dissection.*
7	**Participants & Delegates in Number – 183** [Faculty, residents, undergraduates and ptometry students of the academy had participated in this event]
8	**Awards / Prizes -** Certificate of partcipation with KMC Crdit hours is awarded to the participating delegates
9	**Valedictory –** NA
	-
10	**Highlights of the events including photos - ENCLOSED**

First talk was given by our inhouse speaker **Dr. Chaitra M. C**, Associate Professor of Department of Ophthalmology on the topic- ***"Fundamentals of Oculoplasty".*** Dr Chaitra explained about the basic Anatomy of Orbit & highlighted about clinical importance which was beneficial for both undergraduate & postgraduate students. She also gave a detailed explanation of Eyelid anatomy & fundamental principles of lid reconstruction.

Dr Sangeetha T Professor & HOD Department of Ophthalmology, delivered the welcome address.

Medical Superintendent, RLJH & RC Dr Krishnappa J addressing the gathering

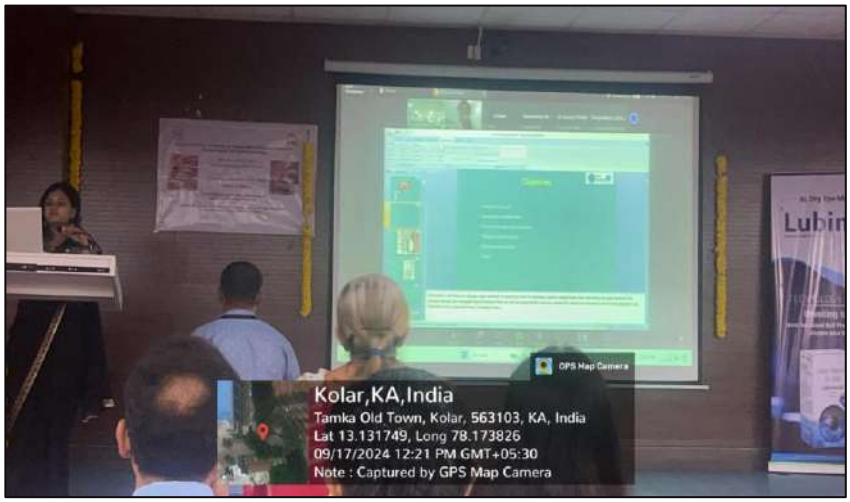

Next session was by guest speaker **Dr. Chinmayee J T**, Professor at Minto Regional Institute of Ophthalmology, Bangalore. Dr Chinmayee gave an outstanding presentation, expanding our knowledge on orbital tumors, covering their clinical features, radiological findings & management approaches. She presented few interesting cases and their management.

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH

This was followed by next session by guest speaker **Dr. Pratheeba Devi N**, Medical Director & Head of Orbit, Oculoplasty & Cataract surgery at M N Eye Hospital, Chennai. Dr Pratheeba Devi spoke about Ptosis Evaluation & Management. She spoke in detail about clinical assessment & practical diagnostic insights, making the presentation both informative & enlightening. She also presented few interesting surgical videos of ptosis surgeries.

Next session was by guest speaker **Dr. Shruthi G**, Consultant Oculoplasty surgeon at Sharath Maxivision Eye Hospitals, Warangal, Telangana, presented about Eyelid tumors & their management which was very informative, providing clear clinical insights & treatment

approaches of lid tumors. She also presented cases she had personally managed, further illustrating her practical experience & expertise in the treatment of eyelid tumors.

Afternoon session was cadaveric dissection by **Dr. Kavya**, chief surgeon at Vasan ASG Eye Hospital, Kolar. This hands on dissection of eyelids and orbit greatly enhanced knowledge & understanding for post graduate students. Postgraduates had hands on experience of lid dissection on cadavers.

Zonal Level CME (Hybrid)

on

"EXPERT INSIGHTS IN OCULOPLASTY"

DATE: 17th September 2024

TIME: 9:00 AM - 4:00 PM

Venue: William Osler Hall, 1st Floor, SDUMC, Kolar.

Oculoplastic conditions, including eyelid deformities and orbital tumors, impact both vision and appearance and remain a significant concern globally.

In many regions, access to specialized oculoplastic care is limited, leading to unmet needs for surgery and treatment.

Efforts are crucial to enhance awareness, expand access to specialized care, and address the backlog of patients requiring oculoplastic interventions.

To address these challenges, we are organizing a CME to educate healthcare professionals and the public on the importance of early detection, timely intervention, and available treatment options in oculoplasty.

SPEAKERS

Dr. Chinmayee J Thrishulamurthy
MS, FAICO
Professor,
Minto Eye Hospital,
Bangalore

Dr. Pratheeba Devi Nivean
DO, DNB, FMRF
Oculoplasty Consultant and Medical Director,
M N Eye Hospital, Chennai

Dr. Shruthi Gunda
MBBS, DNB, FLVPEI
Oculoplasty Consultant,
Sharat Maxivision Eye Hospital,
Hanmakonda, Telangana

Dr. Chaitra M C
MBBS, MS, PGDMLS, PGDQMHHO
Associate Professor,
SDUMC, Kolar

Dr. Kavya
MBBS, DOMS, DNB
Consultant Phaco, Orbit and Occuloplasty Surgeon
Vasan-ASG Eye Care Hospital, Kolar

PROGRAMME SCHEDULE

9:00 - 9:15 AM - REGISTRATION

9:15 - 10:00 AM - DR CHAITRA M C
FUNDAMENTALS OF OCULOPLASTY

10:00 - 10:15 AM - INAUGURATION

10:15 - 10:30 AM - WELCOME ADDRESS AND INTRODUCTION
DR. SANGEETHA T
PROF. & HOD OF OPHTHALMOLOGY, SDUMC.

10:30 - 11:15 AM - DR CHINMAYEE J T
ORBITAL TUMOURS: OVERVIEW AND MANAGEMENT

11:15 - 11:30 AM - TEA BREAK

11:30 AM - 12:15 PM - DR PRATHEEBA DEVI N
PTOSIS: EVALUATION AND MANAGEMENT

12:15 - 1:00 PM - DR SHRUTHI G
DECODING EYELID TUMORS: FROM DETECTION TO TREATMENT STRATEGIES

1:00 - 2:00 PM - LUNCH BREAK

2:00 - 3:50 PM - DR KAVYA
WORKSHOP ON CADAVERIC DISSECTION

3:50 - 4:00 PM - DR RASHMI G
VOTE OF THANKS

Seeking Blessings of

Late Shree. R. L. JALAPPA

Department of Ophthalmology

CME on "Expert Insights in Oculoplasty"

List of Participants ATTENDED for the CME **Date: 17-09-2024**

Sl.No	Name	Department	Designation	KMC No	Signature
1.	Dr. Kavya	Ophthalmology	Junior resident	168775	
2.	Dr. Sangeetha. T	Ophthalmology	Professor of Ophthalmology	57449	
3.	Dr Susmitha Joshy	Ophthalmology	Junior Resident	146877	
4.	Inchara N	Ophthalmology	Associate professor	82755	
5.	Dr Yeddula Venkata Rohith Reddy	Ophthalmology	Junior resident	166350	
6.	Dr. Alisha Alex	Ophthalmology	PG 2 nd year	156455	
7.	Hithesh Isukapalli	Ophthalmology	MBBS , (MS-PG Y2)	156169	
8.	Preethi chava	Ophthalmology	Junior resident	146852	
9.	Dr Sanjana KP	Ophthalmology	Junior resident - 2	144554	
10.	Dr. Ramachandra Himateja	Ophthalmology	Resident	115923	
11.	LEKSHMY M S	OPHTHALMOLOGY	JUNIOR RESIDENT	146895	
12.	Dr Nakkana Rachana	Ophthalmology	Junior resident	165372	
13.	A B Chirag	Ophthalmology	Junior resident	126449	
14.	Sharadhi	Ophthalmology	Junior resident	143986	
15.	SHAIK HASAREEN	OPHTHALMOLOGY	Junior resident	146806	
16.	Divija Karnati	Ophthalmology	Junior resident	147062	
17.	Devi Sindhuja.S	Ophthalmology	Junior Resident	147057	
18.	Dr Purushotham A	Psychiatry	Assistant professor	79735	
19.	Dr Karthik S	Pediatrics	Assistant	120023	

			Professor		
20.	Dr Achala G S	OBG	Assistant Professor	124160	
21.	Bhanu Chand P	Paediatric Medicine	Assistant Professor	30061	
22.	Shivaraja A	Pediatrics	Consultant Pediatrician	94864	
23.	Channakeshvala Srikanth	Pediatrics	Associate Professor	90592	
24.	Sumageethika Pasupuleti	Obg	Consultant	APMC/FM R103089	
25.	DR.SAHANA S MURTHY	Psychiatry	Assistant Professor	110199	
26.	Anees dudekula	Radiology	Associate Professor	KMC94552	
27.	Dr Bindu T	Paediatrics	Senior Resident	125273	
28.	Jaishree K M	Paediatrics	Senior resident	126551	
29.	Jaishree K M	Paediatrics	Senior resident	126551	
30.	NARENDRAN BS	Ophthalmology	Senior Resident	95887	
31.	POSINA SRI SATVIKI	Ophthalmology	Junior resident	168782	
32.	Dr. SAMEEKSHA M	OPHTHALMOLOGY	Junior resident	135765	
33.	Dr Asam Naveena	Ophthalmology	Assistant Professor	156604	
34.	Dr. R Mahima Kale	Radiology	Senior Resident	136406	
35.	K JAI PAVAN SIDDHARTH	OPHTHALMOLOGY	M.S	167336	
36.	Athmika Ramasamy	Ophthalmology	Post graduate	156432	
37.	Srilekha R Mathapati	Ophthalmology	Junior resident	139387	
38.	Pabba harshitha	Ophthalmology	1st year pg resident	167727	
39.	Dr Rachana Nakkana	Ophthalmology	Junior resident	KMC 165372	
40.	Dr Kagitapu OmSaiPriya	OPHTHALMOLOGY	POST GRADUATE - I YEAR RESIDENT	165850	
41.	G.Bhavishya	Ophthalmology	Junior resident	516602	
42.	Raveena	Ophthalmology	Junior resident	143289	

43.	DR.J.MEGHA VARNIKA	OPHTHALMOLOGY	JUNIOR RESIDENT	147017	
44.	haneela nutakki	Ophthalmology	Junior resident	KMC156415	
45.	Dr Usha BR	Ophthalmology	Professor	60295	
46.	Dr. Anunitha Rayapuraju	Ophthalmology	2nd year resident	156456	
47.	Dr Deepak Arora	Ophthalmology	Consultant	125018	
48.	Dr Syeda Shagufta Tabassum	Ophthalmology	Senior specialist	67175	
49.	Dr Susmitha Joshy	Ophthalmology	Junior Resident MS Ophthalmology	146877	
50.	Anjali Lita Roche	Ophthalmology	Associate professor	81350	
51.	Rajashree Prabhu	Ophthalmology	Assistant Professor	90265	
52.	Indu G	Ophthalmology	Assistant Professor	106088	
53.	Dr athira.k	Ophthalmology	Senior resident	166966	
54.	Apoorva N	Ophthalmology	Assistant professor	124483	
55.	Dr Sushmitha M.S	Ophthalmology	Specialtist in ophthalmology	118545	
56.	Anusha Anand K	Ophthalmology	Senior Resident	171308	
57.	Dr Reshma Ravindra	Ophthalmology	Registrar	106098	
58.	Dr.Prabhavathi K	Biochemistry	Professor and Head	51974	
59.	POSINA SRI SATVIKI	Ophthalmology	Junior resident	168782	
60.	E.Prathibha	Ophthalmology	Junior resident-1	166535	
61.	Dr Harshitha C	Ophthalmology	Junior resident	166352	
62.	Dr Yugandhara Patade	Phaco and Refractive	Fellow	MYP20180000136KTK	
63.	Dr Soma Shekar M C	Urology	Urologist	72448	
64.	Pabba harshitha	Ophthalmology	PG 1st year resident	167727	
65.	Dr Deepa K M	OBG	DGO	104733	
66.	Manoz kumar G	Pediatrics	Consultant	ANP20130002152KTK	
67.	Dr Pradeep Kumar M	Ortho	Consultant	110678	

68.	Dr Suraj R Patel	Forensic Medicine	Specialist	110316	
69.	Dr Chaithra S K	OBG	Consultant	83930	
70.	Dr Rashmi G	ophthalmology	Professor and HoU	79612	
71.	Dr.Alisha Alex	Ophthalmology	PG 2 nd year	KMC156455	
72.	Dr. A B Chiraf	Ophthalmology	Junior Resident	126449	
73.	RAJENDRA T M	Radiology	Consultant	76766	
74.	Dr SHARMILA M	Ophthalmology	Senior specialist	79853	
75.	Dr K. RAGHAVENDRA	Critical care medicine	Consultant	76486	
76.	Dr Avinash K	Cardiology	Junior Consultant	76720	
77.	Dr Sneha K	pathology	Assistant professor	119330	
78.	Dr Shwetha S Vernekar	Ophthalmology	Senior Resident	129926	
79.	Rajashree Prabhu	Ophthalmology	Assi Professor	KMC 90265

Sri Devaraj Urs Academy of Higher Education & Research

Tamaka, Kolar – 563 103

University Centre for Health Professions Education

UCHPE SDUAHER
Health Professions Education

Ref: SDUAHER/KLR/UCHPE/ 56 /2024-25 Date: 30.09.2024

Name of the event: Webinar on Enhancing Educational Outcomes with Data Analytics
Date of the event: 19 September 2024
Name of the department: University Centre for Health Professions Education

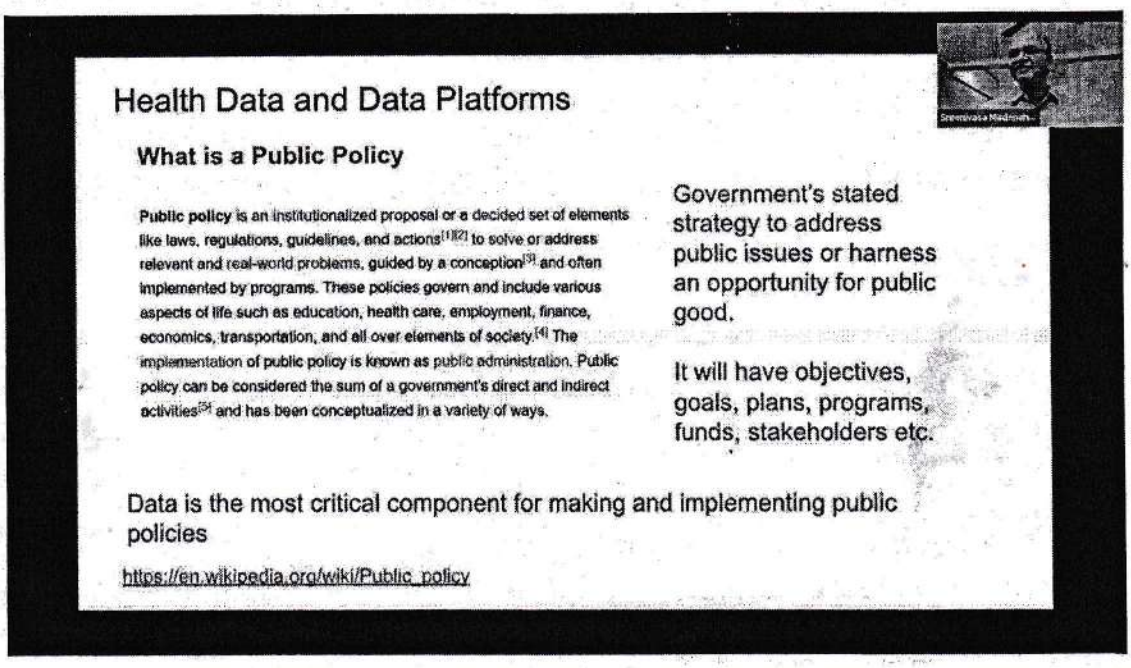

Sl. No.	Event Report
1	**Level of the event**
	International level
2	**Background / Introduction**
	This webinar focused on the strategic use of data to tackle health challenges and inform public policy. Participants learned how data could provide insights into health spending, outcomes, and policy effectiveness. The session explored local and global public data platforms that enhanced decision-making and discussed methods for using data to improve efficiency in health services and public administration.
3	**Venue**
	Online mode through Zoom
4	**Sponsors**
	Sri Devaraj Urs Academy of Higher Education and Research
5	**Inauguration**
	Mr. Lokheshwar welcomed the gathering and briefed the topic of the webinar. Dr. Ashwini K Shetty introduced the speaker.
6	**~~Speakers / Judges / Chairman / Panel Team~~**
	Mr Sreenivasa Madenahally Founding Director S2 Mantra Private Limited
7	**Participants & Delegates in Number**
	51 (list attached)
8	**Awards / Prices**
	Nil
9	**Valedictory**
	Dr. Vinutha Shankar delivered the vote of thanks
10	**Any other information**
	By the end of the session, attendees gained practical tools to leverage data for better health outcomes and policy development.

Academic Year: 2024

Sl. No.	Event Report- World Alzheimer's day
1	**Name & Level of Event**
	National level Webinar on ""Can we prevent Dementia? - Lessons from India
2	**Background / Introduction**
	September is observed as World Alzheimer's month. This year, the theme is – – Time to Act on Dementia, Time to Act on Alzheimer's.' The Department of Physiology, SDUMC is organizing a Webinar on World Alzheimer's day on Friday, 20th September 2024 in association with APPI Bangalore chapter and Physiological Society of India Alzheimer's disease (AD) is the leading cause of dementia, characterized by its progressive, age related, and irreversible nature, leading to significant neuronal death and decline in cognitive functions. The "Time to Act on Dementia, Time to Act on Alzheimer's" campaign aims to shift attitudes towards dementia, addressing the stigma and discrimination that persist. It also highlights the efforts made by organizations and governments worldwide to create a more dementia-friendly society. This webinar will provide an overview of current attitudes towards dementia and explore the stigma associated with the disease

REPORT OF REGIONAL LEVEL CME ON ADOLESCENT MENTAL HEALTH CHALLENGES AND STRATEGIES held on 20-09-2024

Department of Community Medicine had organized a one day regional level CME on 'ADOLESCENT MENTAL HEALTH CHALLENGES AND STRATEGIES' at Sri Devaraj Urs Medical college, Sri Devaraj Urs University (SDUAHER) , Kolar, Karnataka. The official proceedings of the CME program were inaugurated by Dr. Prasanna Kamath B T, Head of the Department of Community Medicine at SDUMC, SDUAHER, at around 10:30 AM. This significant event set the stage for a thought-provoking gathering, emphasizing the pressing need to address adolescent mental health. Following the inauguration, we had the honor of hearing from our esteemed dignitaries. The Hon'ble Vice-Chancellor, Dr. B. Vengamma, along with Principal Dr. Prabhakar K, Principal SDUMC, SDUAHER, delivered a presidential address that underscored the importance of the CME topic: "Adolescent Mental Health Challenges and Strategies." Their insights laid a strong foundation for the discussions that followed, highlighting the urgency of this critical issue in today's society.

The CME was conducted in hybrid mode, A total of 115 participant joined via the Zoom meeting and 200 attended the programme, and total of 315 participants were registered for the CME.

Session-1: Dr.Ruth Sneha, Associate Professor, Department of Psychiatry, SDUMC, SDUAHER Kolar, commenced the first session on the topic "Can we recognise anxiety and depression in children at 11.00am

Chairperson: Dr.Vishwas.S, Associate Professor Department of Community Medicine.

Dr. Ruth Sneha addressed the problem of children under the following patterns: anxiety and depression can be recognized in children, although they may present differently than in adults. Common signs include changes in mood, such as persistent sadness, irritability, or mood swings, along with behavioural changes like withdrawal from friends, loss of interest in activities, or shifts in academic performance. She said that physical symptoms often manifest as complaints of headaches, stomach aches, or other unexplained ailments. Additionally, sleep and appetite changes, including insomnia, nightmares, or altered eating habits, are prevalent. Children may also exhibit excessive worry, with frequent fears about various situations that can lead to avoidance behaviours. She concluded early recognition and intervention are crucial for effective support and treatment, as addressing these signs promptly can significantly improve a child's emotional well-being and overall development.

Session 2 at 11:45 AM with Dr. Subramanyam, a consultant psychiatrist at East Point Medical College in Bangalore, who addressed the crucial links between child development, child psychiatry, and their implications for the teaching profession.

The session was chaired by Dr. Mohan Reddy, Professor and Head of the Department of Psychiatry.

Dr. Subramanyam highlighted the significance of social-emotional development, emphasizing that understanding social skills and emotional regulation can help teachers cultivate a supportive classroom environment. He pointed out the importance of early recognition of mental health issues, noting that educators trained in child psychiatry can identify signs of distress early, which facilitates timely intervention and support.

He also discussed the benefits of collaboration between educators and mental health professionals, advocating for the creation of individualized education plans (IEPs) that address the specific needs of students. Dr. Subramanyam stressed the necessity of developing inclusive learning environments, explaining that awareness of diverse learning needs enables teachers to adapt their methods to accommodate various learning styles and challenges.

Furthermore, he emphasized that knowledge of child development enhances teacher-student relationships by fostering empathy and trust. Engaging families was another key point, as he noted that a better understanding of children's developmental and psychological needs can improve communication between parents and teachers, leading to a more collaborative support system. Finally, Dr. Subramanyam encouraged ongoing professional development in child development and mental health, underscoring that continuous learning helps educators stay informed about best practices and emerging research, ultimately benefiting their students.

Session 3: Caught in the Web: Understanding Behavioral Addictions in the Digital Age," began in the afternoon at 1:45 PM and featured Dr. Lakshmi Sravanti, Assistant Professor in the Department of Child & Adolescent Psychiatry at NIMHANS, Bengaluru, India.

The session was chaired by Dr. Sahana S. Murthy, Assistant Professor of Psychiatry at SDUMC.

Dr. Sravanti began by explaining that behavioral addictions involve an uncontrollable urge to engage in certain behaviors despite the negative consequences that may arise. These addictions often trigger the brain's reward systems in a manner similar to substance abuse. She highlighted how digital addictions, in particular, are fueled by the release of dopamine, driven by constant rewards such as likes, achievements, and virtual wins, which reinforce the addictive behaviors.

The concept of instant gratification was another key point, as Dr. Sravanti noted that the internet provides immediate feedback and rewards, conditioning the brain to anticipate rapid satisfaction. She discussed the significant impact of prolonged exposure to addictive digital environments, which can lead to mental health issues such as anxiety, depression, attention deficits, and social isolation. Withdrawal symptoms, including irritability, restlessness, and discomfort, often occur when individuals are unable to access their digital platforms.

In terms of treatment and interventions, Dr. Sravanti emphasized the role of cognitive-behavioral therapy (CBT) in addressing behavioral addictions. She concluded saying that this therapeutic approach helps individuals recognize and modify problematic behaviors, aiming to restore balance and well-being in their lives.

Fig4: (4a) Dr Sahana S Murthy chairperson delivering her speech; (4b): Dr Lakshmi Sravanti speaker delivering her Speech; (4c) Dr Vivek Jayan presenting memento to Dr Sahana S Murthy: (4d): Dr Sahana presenting memento to Dr Lakshmi

Session 4: "Parenting Styles and Their Impact on Child Development" began at 2:45 PM and featured Dr. A. Purushotham, Associate Professor of Psychiatry at SDUMC.

Chairperson: Dr.Sindhu Shankar S, Senior resident, KIMS, Bangalore

Dr. Purushotham's insightful session on "Parenting Styles and Their Impact on Child Development" focused on how different approaches to parenting shape children's growth, behavior, and emotional well-being. He categorized parenting into four styles: authoritarian, authoritative, permissive, and neglectful.

He said that the Authoritarian parenting will be characterized by strict rules and high expectations, may lead to obedient but anxious children. In contrast, authoritative parenting, which balances structure with warmth, fosters confident, socially adept, and emotionally stable children. He added that Permissive parenting, marked by indulgence and minimal discipline, can result in children who struggle with self-control and authority. Neglectful parenting, defined by a lack of involvement, can severely hinder a child's emotional and cognitive development.

Dr. Purushotham emphasized that authoritative parenting is most beneficial for nurturing well-rounded, resilient children. He also highlighted the need for parents to adapt their styles based on their child's temperament and developmental needs. The session concluded with a call for greater awareness among parents to ensure their approaches foster healthy growth, self-esteem, and independence in their children.

Fig5 (5a): Dr Sindhu Shankar, chairperson delivering her speech; (5b): Dr Purushotham delivering his Speech; (5c) Dr Sindhu presenting memento to Dr Purushotham: (5d): Dr Vivek Jayan presenting memento to Dr Sindhu

Session 5: The session titled "Child and Adolescent Substance Addictions: What We Need to Do?" began at 3:25 PM and featured Dr. Shilpashree, Senior Consultant and In-Charge of the Center for De-addiction at SNR Hospital in Kolar.

Chairperson: Dr.Jagdamba, Prof & HoD Physiology, SDUMC, SDUAHER Kolar

Dr. Shilpashri's session focused on the rising concern of substance addiction among children and adolescents, highlighting the key challenges and necessary interventions. She emphasized that early exposure to substances such as alcohol, tobacco, and drugs can severely impact brain development, leading to long-term physical and psychological issues.

The session witnessed the importance of early detection and intervention through collaborative efforts between parents, educators, and healthcare professionals. Dr. Shilpashri stressed the need for increased awareness and education on the signs of addiction, encouraging open communication between adults and young individuals.

She discussed on the Preventive strategies which included promoting healthy coping mechanisms, fostering resilience, and creating support systems within schools and communities. Dr. Shilpashri also advocated for stronger regulatory measures and access to rehabilitation services tailored to young people.

In conclusion, she emphasized a proactive, multi-faceted approach to combat substance addiction, stating that early action can mitigate the long-term consequences on children and adolescents.

Fig6: (6a) Dr Shilpashri delivering her Speech; (6b) Dr Jagdamba presenting memento to Dr Shilpashri: (6c): Dr Vivek Jayan presenting memento to Dr Jagdamba

Session 6: The session titled "Empowering Adolescents: Creative Approaches to Promote Mental Health" began at 4:00 PM and featured Dr. Latha K, Associate Professor in the Department of Mental Health Education at NIMHANS.

Chairperson: Dr .Sunil B N, Associate professor, Dept of Community Medicine, SDUMC, SDUAHER, Kolar

Dr. Latha K conducted an insightful session on "Empowering Adolescents: Creative Approaches to Promote Mental Health," emphasizing the need to address the unique mental health challenges faced by adolescents today. She highlighted how adolescence is a critical period of emotional and psychological development, making mental health interventions crucial.

Dr. Latha introduced several creative approaches, including art therapy, music, journaling, and mindfulness exercises, as effective tools to help adolescents express their emotions and cope with

stress. These techniques, she explained, offer non-verbal outlets that foster self-expression, emotional regulation, and resilience. She also discussed the role of supportive environments, encouraging schools and families to adopt mental health-promoting practices.

A key takeaway was the importance of early intervention and destigmatizing mental health conversations, helping adolescents develop healthy coping mechanisms before issues escalate. The session concluded with practical tips for parents, educators, and counselors to create safe, open spaces for adolescents to explore their mental well-being.Dr. Latha's session reinforced the idea that creativity, combined with mental health awareness, can empower adolescents to navigate their challenges more effectively.

Vote of Thanks was given by Dr.Vivek Jayan, Joint Organizing Secretary of the CME.

Dr Vivek Jayan delivered the vote of thanks, expressing his gratitude to all the dignitaries, speakers and colleagues. He extended his appreciation to the Medical Education and Research Trust (MERT) and SDUAHER for their financial support. He also thanked the Karnataka Medical Council and its observer for their contributions. The program concluded at 4:30 PM.

Mentally healthy children and adolescents are more likely to go to school/colleges ready to learn, actively engage in school/college activities, have supportive and caring connections with adults and young people, use appropriate problem-solving skills, have nonaggressive behaviours, and add to positive school culture.

Mental disorders can affect classroom learning, such as poor attendance, difficulties with academic performance, poor social integration, trouble adjusting to school/college, problems with behaviour regulation, and attention and concentration issues, all of which is critical to the success of the student.

Day 1 (26-09-2024) Report of DeMedCon 2024

OVERVIEW:

The Day 1 of DeMedCon 2024 welcomed 478 delegates from over 36 medical colleges, beginning with an inspiring inaugural ceremony led by Dr. Prathima Murthy and Dr. Tessy Thomas. The day featured insightful sessions from Dr. R.K. Prasad, Dr. Geeta Jotwani, and Dr. Sharan Srinivasan, as well as academic competitions like quizzes and debates. The evening included creative contests such as Art in Medicine, debates, and medical escape Room, concluding with a lively Social Night, headlined by Dr. Jagadish Chaturvedi's stand-up comedy.

Inauguration:

DEMEDCON 2024 Venue

The inaugural day of DeMedCon 2024 was marked by an impressive turnout of **478 delegates** from over 35 medical colleges internationally and nationally, setting the stage for a memorable and impactful conference. The Theme, ***"*Unveiling Healthcare*: Research to Practice*,"** highlighted the vital progression from medical research to its application in clinical practice, emphasizing the importance of bridging the gap between scientific discovery and real-world healthcare improvements.

RL Jalappa Silver Jubilee Auditorium Stage

Reflecting this visionary theme, the entire event was designed around a **space theme**, symbolizing the limitless potential of medical research and innovation. The venue's decor featured celestial elements and futuristic designs, immersing delegates in an atmosphere that mirrored the vast possibilities awaiting exploration in healthcare. The space-themed decoration not only enhanced the aesthetics but also reinforced the idea of breaking boundaries and reaching new heights in the field of medicine.

9:00 am 26-09-2024: Plenary 1

The day commenced at 9:00 a.m. with an engaging session by **Dr. R.K. Prasad** titled "Decoding the Patient Journey" The Making of an Exemplary Physician", which provided a comprehensive overview of patient care and medical ethics

Dr. R.K. Prasad , Dr. Sharan Srinivasan welcomed by Dr.K Prabhakar & Dr. Ashwini NS

Certificate & Memento presented to Dr. R.K. Prasad by Hon'ble CAO Dr.DVLN Prasad & Principal Dr.Prabhakar

Role play performed under the guidance of Dr. R.K. Prasad during plenary session

Sujith, Rebha ,Shruti Divya Dubey performing role play

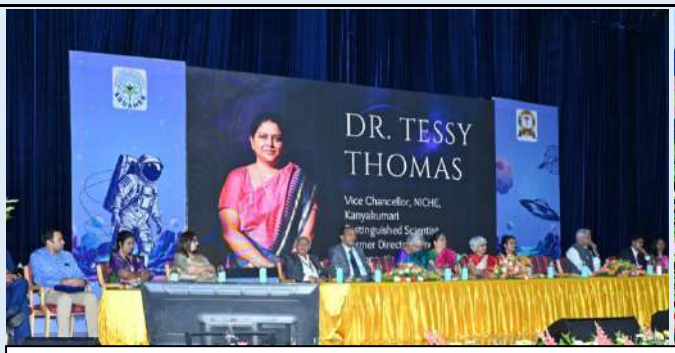

10:00 am 26-09-2024: Inauguration

The proceedings began with a distinguished inaugural ceremony at 10:00 a.m., graced by two eminent guests: **Dr. Prathima Murthy,** *Director of NIMHANS*, and **Dr. Tessy Thomas**, the renowned "*Missile Woman of India*."

Chief Guests : Dr.Tessy Thomas & Dr. Prathima Murthy

Their keynote addresses emphasized the importance of leadership, resilience, and innovation, urging delegates to apply these values not only in healthcare but in all aspects of life.

Dr. Tessy Thomas addressing the gathering at inaugural function

Dr. Prathima Murthy addressing the gathering at inaugural function

Dr.DVLN Prasad, Chief Administrative Officer of the academy addressed the DeMedCon 2024 delegates. Followed by the talk by Dr. Vengamma B, Vice Chancellor of SDUAHER and Dr. Muninarayana.C Registrar of SDUAHER. After which Dr. Prabhakar K Dean Faculty of Medicine & Principal of SDUMC spoke regarding DeMedCon 2024. Dr. Vinutha Shankar Vice Principal SDUMC, Director UCHPE SDUAHER gave her valuable insights regarding DeMedCon journey through the years.

Dr. D.V.L.N Prasad , CAO , SDUAHER

Oral presentation participants and Organizing Committee

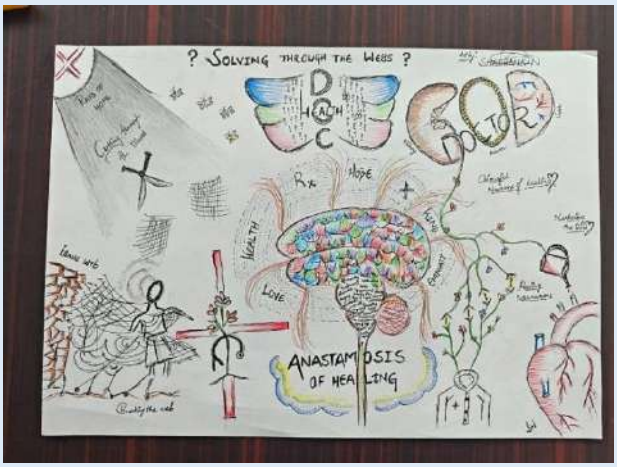

Award of certificates to Oral presentation participants by Dr. Kalyani R, Director, R & D

5:00 p.m. to 7:00 p.m 26-09-2024:

In the evening, from 5:00 p.m. to 7:00 p.m., attendees participated in a diverse range of creative and intellectually stimulating activities. These included "**Art in Medicine**" competition, a **Debate** on critical healthcare topics such as healthcare GDP and doctor safety, and the **Escape Room challenge**, which tested participants' problem-solving abilities in an engaging and interactive setting.

Art in Medicine: Participants showcase their artistic talent in a wonderful way.

Judges and Participants of Art in Medicine Competition

Debate: Participants showcased their medical knowledge with the help of debate. **Debate Topic**: Should Indian medical students be taxed by the Indian government if they decide to practice abroad? An intriguing session.

Debate: Judges with participants and organizing committee

Medical Escape Room: Participants came here with one motive, escape. Participants had to solve the clinical case to get the key out of the room.

Escape Room Venue: Skill lab

Participants

6:30 p.m 26-09-2024: "Glow in the Night." The day concluded with the much-anticipated Social Night, commencing at 6:30 p.m., themed "Glow in the Night."

Stand-up comedy by renowned ENT Surgeon Dr. Jagadish Chaturvedi : The evening offered a platform for delegates to unwind and connect through entertainment and camaraderie. The highlight of the night was a stand-up comedy performance by **Dr. Jagadish Chaturvedi**, whose humor brought the audience together in a moment of collective laughter and relaxation, serving as a fitting conclusion to the day's academic endeavours.

In summary, Day 1 of DeMedCon 2024 was characterized by rich intellectual exchange, active engagement, and vibrant celebration, setting a high standard for the subsequent days of the conference and reaffirming its status as a premier platform for professional and academic growth.

Day 2 (27-09-24) Report – DeMedCon 2024

Overview: Day 2 of DeMedCon 2024 proved to be an enriching experience, balancing educational content with engaging activities. The day was filled with workshops, lectures, and entertaining events that catered to a diverse audience of medical professionals and students.

Day 2 (27-09-2024): Morning Workshops (9 AM – 12 PM)

Basic Surgical Skills: Conducted by Dr. Ramesh TS from Manipal Hospitals in association with Ethicon, this workshop provided participants with essential surgical techniques.

Basic Surgical Skills Workshop

GI Endoscopy: Led by Dr. M P Madhu from Aster RV Hospitals, this session focused on gastrointestinal procedures and practical applications.

Participants of Workshop on GI Endoscopy

ECG Made Easy: Dr. Keshava R, Director of Cardiology at Fortis, taught attendees how to interpret ECG readings effectively.

Cardio Care: Dr. Yashwant A L, Cardiologist at NH, shared advancements in cardiovascular care and best practices in patient management.

Participants of Cardio Care Workshop

Cognition: Presented by Dr. Sushma N from Mindful TMS NeuroCare, this workshop explored the latest research in cognitive health.

Participants of Workshop on Cognition

Research Methodology: Dr. Kamran Zaman from ICMR-NITM provided insights into designing and conducting research studies along with Dr Ravishankar giving more insights of SPSS softwares and biostatistics.

Dr.Pradeep TS & Dr.Kamran Zaman Conducting Research methodology workshop

Triage in Emergencies: Led by Dr. Krishnamoorthy , this essential workshop equipped participants with skills to prioritize patient care in critical situations.

Pediatric Emergencies: Dr. Shivakumar Shamarao from the PICU at Manipal Hospitals focused on common emergencies in pediatric populations, emphasizing treatment nuances.

Dr. Shivakumar Shamarao and his team conducting Pediatric emergencies Workshop

12:00 p.m. 27-09-2024:

Hon'ble Chairman Sri G.H. Nagaraja, along with Vice president Sri. Rajendra and senior administration members including Dr.DVLN Prasad, Chief Administrative officer and Dr.Vengamma, Vice Chancellor, felicitated Dr. Radhakrishnan**,** Dr. V.V. Pillay and other workshop resource persons for their remarkable contributions to medicine.

Token of appreciation to Resource persons by honorable dignitaries

Plenary 4 by Dr. Radhakrishnan and his team:
A highlight of the day was the lecture delivered by Dr. Radhakrishnan, a renowned expert in Microfoam Sclerotherapy (MFST). His team's presentation covered A Newer Outlook about the pathogenesis of Chronic Venous Diseases, leaving attendees with actionable insights and motivating them to apply what they learned in their respective fields.

Afternoon Workshops (2 PM – 5 PM) 27-09-2024:
The afternoon session continued with a diverse array of workshops:
Infertility and IVF: Conducted by Dr. Manjunath CS, Medical Director at Mathrutva Fertility Centre, this session covered modern techniques and ethical considerations in reproductive health.
BLS (Basic Life Support): Participants refreshed their life-saving skills under the expert guidance of Dr. Rajesh K from the Emergency Department at SDUMC.
Oxygen Therapy: Dr. Harshith Rao from Respiratory Medicine at MS Ramaiah MC, Bangalore, focused on the indications and management of oxygen therapy in clinical settings.

Dr. Rajesh and his team with BLS Workshop participants

Infertility & IVF Workshop participants & Resource persons

Oxygen therapy Workshop participants & Resource persons

Tech in Diabetes Management: This workshop by Dr. Prasana Kumar, endocrinologist, highlighted the role of technology in monitoring and treating diabetes, with insights into new technologies for early diagnosis of microvascular complications caused by diabetes.

Dr.Prasanna Kumar Conducting Technology in DM

Analytical Toxicology: Honored by Dr. VV Pillay, this session explored methods for detecting and analyzing toxic substances and drug testing.

Participants & Resource persons of Analytical Toxicology workshop

Radiology Simplified: Dr. Chaitra and Dr. Yaswanth AL from Apollo Hospitals provided an overview of key radiological principles and their applications in clinical practice.

Participants & Resource persons of Radiology simplified workshop

ENT Made Easy: Dr. Vijayagovindrajan from Government Medical College, Vellore, conducted an innovative session on the facial nerve and its branches, utilizing straws and hand models to enhance understanding.

Dr. VijayGovindarajan with Participants of ENT made easy workshop

Day 2 Evening Events (5 PM Onwards): The day concluded with a series of entertaining events:
Spell Bee Competition: Participants showcased their medical spelling prowess in a fun and competitive format.
Block & Tackle: A team-based game that encouraged camaraderie and engagement.
Stage Play & Movie screening: An engaging performance by Team CBI that offered a creative respite from the day's educational activities, particularly poignant on Suicide Prevention Day. Following which, delegates watched movie screened at auditorium.

Day 3 Report – DeMedCon 2024

Overview
Day 3 of the three day National conference was a perfect blend of various events, interactive plenaries and the most awaited valedictory ceremony
Morning (8 AM – 11 AM): Starting early on the final day, at 8 am, three parallel competitions were set to start.

Sri Nagaraj Rao R Jagdale National level MBBS Quiz (Final round):
The KWIZ Club under the guidance of Dr. Geetha S, Professor Department of Physiology, organised the preliminary round and the final round of this National MBBS Quiz.
Total of 5 teams were selected from the preliminary round based on marks scored.

This final round of quiz had 6 rounds: Celestial Choices – MCQs, Planetary Profile – Identification, Stellar Solutions -Case Scenarios, Space Scribbles – Pictionary, Shooting Stars- Buzzer & Stellar Grid-Crossword.

In this competition Shri Atal Bihari Vajpayee Medical College and Research Institute secured first position , and Dr. BR Ambedkar Medical College stood 2nd followed by Sri Devraj Urs Medical College.

Clinic pathological case:
A multidisciplinary event to discuss complex medical cases, featuring diagnostic, pathological, and clinical aspects. Participants were UG medical students. The preliminary round was conducted for 50 students from different medical in a written format wherein a case along with the history, basic examination and laboratory findings was given and the participants has to arrive at differential diagnosis along with the reasoning within a time limit of 30 minutes .5 participants who had the best written answer qualified for the final round Finalists were given a case and had to make a PowerPoint presentation on the same Presentation of the case , discussion of differential diagnoses, pathological findings, and clinical manifestations was done. The winner was decided based on the ppt, communication skills, reasoning ability and intellectual capabilities.
Total no of participants: 50 , No of colleges registered : 07, Winner : Medha Acharya, 2nd MBBS, SDUMC

Treasure hunt
Begin early in the morning with 16 teams participating from different colleges acroos the country. Fist the teams were briefed about the rules of the event at William Osler Hall and then were set on a exciting journey to find the treasure. Event was a grand success under the guidnace Dr. Sudarshan and Dr. Ashwini K Shetty. Student Incharge – KT Arya & Christa. Sri Siddartha Institute Of Medical Sciences were the one to reach to the treasure before anyone could and bagged First Prize.

Day 3: 11 :00am to 1:00pm: Plenary sessions
- Dr. Rakesh Nair – Teaching and learning innovation in Medical Education
- Dr. Jananee M – Data Science in Medicine
- Dr. Savio Pereira – Ophthalmology – The perfect balance of Research and Practice.

Interactive session: Teaching and learning innovation in Medical Education
The first session of the day being an interactive session with Dr. Rakesh Nair, was chaired by Dr. Pradeep TS.

Interactive session with Dr. Rakesh Nair

Day 3 Plenary: Dr. Jananee Muralidharan - Data Science in Medicine
A great opportunity to hear talking about the role of data sciences in Medicine. Ma'am quotes ' that Data is the King but context is the queen.''

Day 3 Plenary: Ophthalmology – The perfect balance of Research and Practice.
Dr. Savio Pereira, sir with his great powerful public speaking skill inspired us all with his outstanding journey throughout MBBS and DM . He emphasised on rational decision making in case of choosing a career. He also put on emphasis on personal and professional life balance. Being an Ophthalmologist he showed us how Ophthalmology is an all in one branch.

Day 3 Plenary: Dr. Somu Sivabalan - Aerosol therapy in children
After a break for lunch, an opportunity to hear from Dr. Somu Sivabalan about the Aerosol therapy in children. Sir emphasised on the necessity of early diagnosis and treatment. He later gave insights upon the recent advancements in the field.

Day 3 Plenary sessions: Dr. Savio Pereira, Dr. Jananee Muralidharan and Dr. Somu Sivabalan

With this exhilarating experience we came to end to our 3 day National Conference . These plenary sessions was followed by valedictory session. Chief Administrative Officer Dr. DVLN Prasad, Registrar Dr. Muninarayana, Principal and Dean SDUMC Dr. K Prabhakar, Vice Principal Dr. Vinutha Shankar MS, Director R&D cell Dr. Kalyani R graced the occasion with their presence.

After the Presidential address and address by the dignitaries we moved forward to distribute prizes to the proud winners. The dignitaries felicitated the proud winners of various event conducted under DeMedCon'24.

Vote of thanks by Sampritha, Faizur Rehman and Pooja.

Organising Chairperson Dr. Vishwas S and Organising Co- chairperson Dr. Ashwini NS along with Organising secretaries, Joint Organising secretaries and team manager presented a 3 day report of the event, took feedback from delegated and concluded the conference with a Vote of thanks.

Date: 08-10-2024

SDUAHER, TAMAKA, KOLAR

EVENT REPORT

NAME OF THE EVENT- Regional CME: PERIPHERAL NERVOUS SYSTEM AND LEPROSY: UNMASKING HIDDEN CLUES"

NAME OF THE DEPARTMENT- DEPARTMENT OF DERMATOLOGY

1. **Level of Event-** Regional
2. **Background/ Introduction-**
   Leprosy or Hansen's disease, primarily affects the peripheral nervous system due to its tropism for nerve tissues. It is caused by bacterium Mycobacterium Leprae leading to significant nerve damage, resulting in sensory damage ,muscle weakness and deformities . To address on early detection methods and discuss advanced strategies for improving treatment outcomes Department of Dermatology, Venereology and Leprosy, SDUMC organized CME titled: Peripheral Nervous System and Leprosy: Unmasking Hidden Clues on 4th October 2024, from 9:00 AM to 1:30 PM under the guidance of Dr. RAJASHEKAR T.S , Organizing Chairman.

3. **Venue-** WILLIAM OSLER HALL (PHYSIOLOGY AV HALL), 1ST FLOOR, SDUMC

4. **Sponsors-** Venue & Internet facility was provided by SDUAHER.

5. **Inauguration-** The event begun with welcoming the speakers and the delegates which was hosted by Dr. Sruthi and Dr. Swathi, Junior Residents , Department of Dermatology. The event was opened s with a invocation song by the students. Later , DR. Rajashekar T.S ,Head of the department, Department of Dermatology, invited the dignitaries onto the stage followed by a welcome speech and then event was inaugurated by Watering of the plants by the honorable dignitaries as it represents hope and resilience and it reflects on our shared responsibility to nurture both our environment and the community we serve. The session was conducted both online/offline (Hybrid).

6. **Speakers/ Judges/ Chairman/Panel Team-**

The first lecture was by Dr. Nanda Kishore. B, Former Professor & HOD, Department of Dermatology, Father Muller Medical College, Mangalore "**Examination of peripheral Nerves in Leprosy & Clinical Signs of Neuritis** " following which Dr. A S Ramaswamy Professor & HOD, Department of Pathology, PES Institute of Medical Sciences & Research, Kuppam. spoke on "**Pathogenesis & Pathology of Neuritis in Leprosy**". DR. Nithin Kumar N, Chief Neurologist, Fortis Hospital, Bengaluru. spoke on the "**All the Thickened Nerves are not due to Leprosy**" and Dr. Varsha M Senior Resident, Department of Dermatology, Kempegowda Institute of Medical Sciences, Bengaluru. spoke **on Indications & Biopsy techniques of peripheral nerves in Leprosy**, DR. G V Seethalakshmi, Professor & HOD, Department of Dermatology, Vinayaka Missions Kirupananda Variyar Medical College, Salem spoke on **Deformities and Disabilities in Leprosy** and lastly Dr.K.Hanumanthayya, Professor, Department of Dermatology, Sri Devaraj Urs Medical College, Tamaka, Kolar, Karnataka spoke on the "**Treatment of leprosy**."

7. **Participants and Delegates-** 180 registered delegates including PGs and faculty of other medicals colleges from all over the state of Karnataka participated in the CME. Hereby attaching a list of the Delegates who attended the CME.

8. **Vote of thanks -** The vote of thanks was delivered by Dr.Vaishnavi B.V, Assistant Professor, and Department of Dermatology.

With regards.

	Feedback was collected from the participants
10	**Any other information**
	This workshop focused on enhancing teaching strategies through technology integration. The workshop was split into two sessions: session 1 – Phase I, Phase II and AH&BS faculty, session 2 – Phase III and nursing faculty. The workshop featured hands-on demonstration, highlighting tools for real-time feedback, multimedia presentations, and interactive lessons. Feedback indicated requirement of more training sessions to maximize the potential of interactive panels.

Event Report

Name of the Event: Symposium on Recent Advances in Acute Stroke

Name of the Department: General Medicine, In Association with Karnataka Stroke Foundation Bengaluru.

Sl. No.	Event Report
1	**Name & Level of Event**
	Symposium on Recent Advances in Acute Stroke
2	**Background / Introduction**
	Stroke is one of the leading causes of disability worldwide despite recent advances in hyperacute interventions to lessen the initial impact of stroke. There have been many advances in stroke care within the past two decades, especially with the acute management of ischemic stroke. Even with these advances alarming that only a fraction of patients receives acute stroke treatment. With the advances in technology, the stroke recovery field is rapidly evolving and various promising novel treatment approaches and technological advances are becoming part of the therapeutic armamentarium to improve post-stroke recovery in both the post-acute and chronic phases. Karnataka Stroke Foundation, Bangalore is a charitable trust founded by 9 eminent neurologists in the City to promote stroke awareness. Stroke is a serious neurological condition resulting in significant number of deaths and disability. Our foundation aims to promote stroke education by educating the doctors on latest developments and advances in stroke treatment. We intend to focus on patients, caregivers and support groups to increase awareness about stroke and the importance of golden hour. We intend to work in coordination with policymakers to establish local policy on latest technologies in stroke treatment so that it becomes affordable to the weaker sections of the society.

1	**Name & Level of Event**
	CME and LIVE SURGERY on "BRACHIAL PLEXUS INJURY" on 24/10/2024 **Level of event: Regional level**
2	**Background / Introduction**
	A brachial plexus injury occurs when the nerves that control the arm and hand are damaged. This can happen due to various reasons, including trauma, such as from a car accident or sports injury, or medical conditions like tumors or infections. Symptoms of a brachial plexus injury can vary depending on the severity of the damage. They may include: □ **Pain** in the shoulder, neck, or arm □ **Numbness** or tingling in the arm, hand, or fingers □ **Weakness** or loss of muscle function in the arm or hand □ **Difficulty** with fine motor skills, such as buttoning clothes or writing □ **Changes** in sensation, like feeling overly sensitive or insensitive to touch Treatment for a brachial plexus injury often involves a combination of physical therapy, occupational therapy, and in some cases, surgery. The goal of treatment is to improve arm function

Academic Year: 2024-2025

Sl. No.	Event Report- Department of Orthopaedics
1	**Name & Level of Event**
	CME and WORKSHOP on "TOTAL KNEE ARTHROPLASTY" on 05/11/2024 **Level of event: Regional level**
2	**Background / Introduction**
	Total knee arthroplasty, commonly known as a **knee replacement**, is a surgical procedure that replaces damaged knee joints with artificial components. This is often done to relieve pain and improve function in people with severe osteoarthritis or other knee joint conditions. 1. **Removal of Damaged Parts:** The surgeon removes the damaged cartilage and bone from the ends of the femur (thighbone), tibia (shinbone), and patella (kneecap). 2. **Implantation of Artificial Components:** Metal and plastic components are then implanted to replace the damaged parts. These components are designed to mimic the natural movement of the knee joint. • **Pain Relief:** Significantly reduces knee pain caused by arthritis. • **Improved Function:** Enables patients to perform activities of daily living more easily. • **Increased Quality of Life:** Can enhance overall well-being and enjoyment of life. Recovery from TKA typically involves a period of rehabilitation to strengthen the muscles around the knee and improve range of motion. This may include physical therapy, occupational therapy, and home exercises.

EVENT REPORT

Name of the Event: **Institutional Level Workshop And Webinar On "Recent Advances In Diabetic Retinopathy " (13th and 14th November 2024)**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report- Ophthalmology
1	**Name & Level of Event –: Institutional Level Workshop And Webinar On "Recent Advances In Diabetic Retinopathy**
2	**Background / Introduction** Diabetes mellitus (DM) poses a major public health challenge in India, affecting over 77 million people and contributing to significant individual and societal burdens. Diabetic retinopathy (DR), a severe complication of DM, is a leading cause of preventable blindness among working-age adults in India, driven by high rates of undiagnosed and poorly managed diabetes. This program addresses the need for awareness, screening, and intervention to prevent DR, particularly in underserved rural areas. Through education, widespread screenings, and accessible treatment, the initiative aims to empower individuals, reduce vision impairment, and lower healthcare costs associated with diabetes complications.
3	**Venue** – PG Block, Seminar Hall, 1st floor , SDUAHER, Kolar.

Dr.Ganne pratyusha, delivered an outstanding virtual guest lecture on World Diabetes Day, focusing on the theme "**“Recent Advances In Diabetic Retinopathy ”**. Her talk enriched the audience knowledge about topics such as recent investigations such as FAF, OCTA, FFA, Wide field imaging, hyperscleral imaging.

She also spoke about recent treatment modalities like newer anti VEGF, nano technology, integrin peptide therapy, pharmacotherapy in PDR, subthreshold diode micropulse , gene therapy, robotics, etcetera. She also highlighted on the role of Artificial Intelligence in diabetes retinopathy.

The session was followed by **poster presentation by undergraduates**

The students of MBBS 3rd phase 7th term actively participated in the preparation and presentation of posters on the following topics:

1. Diabetes mellitus and its complications
2. Ocular manifestations of Diabetes like Diabetic retinopathy
3. Diet management in Diabetics
4. Treatment of diabetic retinopathy.

All the participants received a online certificate of participation after the event.

DEPARTMENT OF PATHOLOGY

Event report: WEBINAR on "Endometrial Lesions" On 15th November 2024

Name & level of Event: WEBINAR on "**Endometrial Lesions**" conducted by Department of Pathology, SDUMC on 15th **November** 2024.

1. **Background/Introduction:** Endometrial lesions can refer to a number of conditions, including endometriosis, endometrial polyps, and premalignant endometrial lesions Enhancing our understanding of the premalignant stages of EC development will allow us to pursue earlier diagnosis and facilitate appropriate stratification of women at risk of developing EC, permitting timely and appropriate therapeutic interventions. This involyes an inter-professional team approach. Patients will often present to their primary care provider with abnormal vaginal bleeding.
2. **Venue:** Conducted on Zoom Platform with organizing team at Louis Pasteur Hall (Gallery III).
3. **Speakers:** Dr S Rajendiran, Adjunct Professor of Pathology, SDUAHER.
   Visiting professor. Sri Ramachandra Institute Of Higher Education And Research, Chennai and St. Peter's Medical College, Chennai.
4. **Participants: Total – 16**, Postgraduates from the department of Pathology, SDUMC, Tamaka, Kolar and SRMC, Chennai.
5. **Total Number of staffs: 2,**Dr T.N Suresh (Professor and HOD Department of pathology) and Dr Ravi Teja CN(Senior Resident).

The webinar concluded with Vote of Thanks from Dr. Ravi Teja CN, Senior Resident, Department of Pathology, SDUMC, Tamaka, Kolar.

	The programme was held at Annihalli High School, Kolar. All the teachers and students were present at school hall. Our AHS students Farheen and Nayana being a comparing, started the program with Dr. Usha Shenoy madam welcome address to high school students. Firstly AHS 1st year students performed a skit indicating importance of education and its impact on every household which create a clear impact on students about imp of education.

	This was followed by a motivating speech by AHS first year student Sudarshan which was a powerpack speech for the students and staff member of the school. Later College of Physiotherapy students performed a skit with home carrying message of scholarship significance and details of some scholarship programmes . The students distributed pamphlets describing importance of education with showing a placard. The AHS students conducted a quiz competition to the school children by asking interesting questions in quiz and appreciated them by distributing pens to the winners. Later AHS student Mr Sameer and Ranjit conducted a career guidance programme which is helpful for tenth standard students regarding the various choices of their carrier after their 10th standard which was an interactive session and liked by all. Finally, MBBS second year students interacted with students and explained about the importance education in the family in the society and the day to day life and also stressed how it is needed for the senior citizens and to adults in the future. Then it was followed by a short speech by the principal of Annihalli High School and then Dr. Usha Shenoy delivered a vote of thanks for all for making the program a grand success. A memento was given to the principal on behalf of Sri Devraj Urs Medical College. Chikkis and stationary kits was distributed among the students.

	Guest Lecture On the occasion of World Diabetes Day – "Comprehensive Diabetes Screening and Awareness"
2	**Background / Introduction**
	Diabetes is potentially the next major pandemic that we will have to face in the future. It is characterized by chronic hyperglycemia but has many other ramifications in the form of retinopathy, nephropathy, and neuropathy. Early screening and appropriate management and help achieve euglycemia. Screening also identifies high risk individuals for micro and macrovascular complications and prevents end organ damage. Here at RL Jalappa Hospital, on the event of World Diabetes Day, we welcome you to be a part of a **Comprehensive Screening Programme** for early detection of Diabetes. Your presence will be highly valued.

CME **ON "*Organ Donation – "From Donor to Recipient"- Policy, Practice & Programs in Health Care*- EVENT REPORT**

Name of the event: *Organ Donation – "From Donor to Recipient"- Policy, Practice & Programs in Health Care*

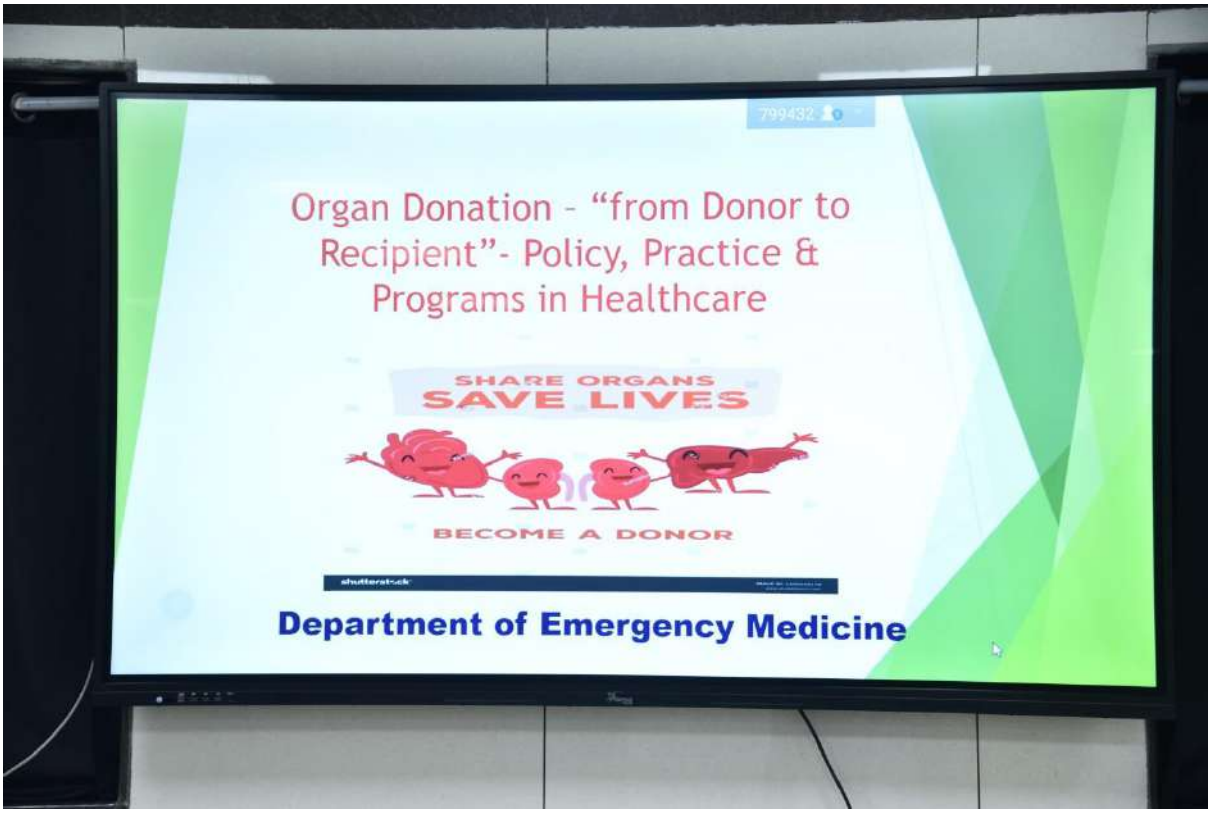

Date of the event: 22nd November 2024

Name of the Department: Department of Emergency Medicine

Sl. No.	Name of the Event	Event Report
1	**Level of Event – Institution/ State/ National/ International**	Institution level
2	**Background/ Introduction**	Organ donation is a critical aspect of modern healthcare, bridging the gap between life and death for patients with end-stage organ failure. The process, spanning from donor to recipient, is complex and involves a network of medical, ethical, and legal considerations. This Continuing Medical Education (CME) program, titled "Organ Donation: From Donor to Recipient - Policy, Practice, and Progress in Healthcare," aims to provide healthcare professionals with an in-depth understanding of the policies and practices governing organ donation, the medical advancements enhancing outcomes, and the ongoing challenges in the field. Participants will gain insights into the comprehensive journey of organ donation, from the moment of donor identification to the successful transplant in the recipient. This CME will also address the latest policy developments, strategies to increase donor rates, ethical dilemmas in decision-making, and the role of healthcare providers in supporting donors, recipients, and their families. By the end of this program, attendees will be equipped to contribute effectively to improving organ donation systems, enhancing patient care, and advancing the field of transplant medicine.
3	**Venue**	Skill lab, 3rd floor, CARE Building, SDUMC
4	**Sponsors**	Manipal Health Enterprises P LTD, Bangalore

5	**Inauguration**	Nil
6	**Speaker/Judges/ Chairman/Panel Team**	<u>The Presenters for the event were: -</u> Dr. Rajesh.K Professor Department of Emergency Medicine SDUMC, Tamaka, Kolar Dr.Sunil Karanth, MD, FNB, EDIC,FCICM Chairman critical care services, Manipal Health Enterprises P LTD, Bangalore Dr Narayana Swamy Moola Consultant, Critical care, Lead advisor, Organ transplant, Manipal Hospitals, Bangalore Dr. Devendra Prasad.K.J Assistant Professor, Department of Emergency Medicine SDUMC, Tamaka, Kolar
7	**Participants & Delegates – Number with names**	Totally 35 participants were attended for this program. (Copy enclosed)
8	**Prize Distribution**	Nil
9	**Valedictory Ceremony**	Nil
10	**Highlights of the event including photos**	Dr. Rajesh welcomed the august audience and gave an introduction talk on current status and statistics of Organ Donation and Transplant in our country. Leading faculty from Bangalore Dr Narayanswamy and Dr Sunil Karanth both critical care consultants from Manipal Health Enterprises P LTD spoke about the latest policy developments, strategies to increase donor rates, ethical dilemmas in decision-making, and the role of healthcare providers in supporting donors, recipients, and their families. Organ donation is a critical aspect of modern healthcare, bridging the gap between life and death for patients with end-stage organ failure. The program had very good interactions from administrators of the Academy and Post

		graduate students. Honourable vice chancellor of the Academy Dr. Vengamma shared her valuable insights and past experiences about the awareness on organ donation and the challenges which were present earlier and which have been corrected through various amendments in the by the Government of India through the THOTA Act 2011. Dr. Suresh, Professor & Head, Critical Care Medicine, SDUMC shared his views with respect to regional and religious challenges in counselling the patient attenders about the organ donation. The program was concluded by vote of thank by Dr. Devendra Prasad and was very well appreciated and acknowledged about the Nobel thought by all the senior faculty, Junior consultant and administrators.

1	**Name & Level of Event**
	Workshop on ***"Intellectual Property Rights"*****:** 22/11/2024 – Institutional Level
2	**Background / Introduction**
	Intellectual Property Rights (IPR) are legal protections granted to creators and inventors to safeguard their original works, inventions, and brands. These rights enable individuals and businesses to control the use of their intellectual creations and to benefit financially from them. Understanding and respecting intellectual property rights is essential in today's knowledge-driven economy. In view of the above, the Intellectual Property Rights Cell, SDUAHER, organized an Institutional level workshop for faculty on *"**Intellectual Property Rights**"* on 22/09/2024

9	**Valedictory**
	At the end of the workshop. The Certificates were distributed to the delegates and organizers by Dr. Manthan D Janodia and Dr. Kalyani R.
10	**Any Other Information**
	Enclosed the highlights of the event including photos

The event commenced by a brief introduction by the program MC Dr. Sameeksha and introduced the resource person, who started the first session on ***"Intellectual Property Rights: An***

Introduction to their importance and impact". A detailed introduction on IPR and Indian and Global Data of Intellectual Property Rights.

Dr. Manthan D Janodia M. Pharm, MDBA, PhD Registrar Malla Reddy Vishwavidyapeeth (Deemed to be University) Hyderabad

Next the MC invited **Dr. Kalyani R, Director, Research** & Development cell, SDUAHER welcomed all the patrons, committee members and gathering for the workshop.

Melodious rendition by the IPR and R & D clerk, **Mrs. Suma** to invoke the blessings of the almighty Lord.

The MC invited all the esteemed guests to water the plant in the spirit of nurturing and fostering growth.

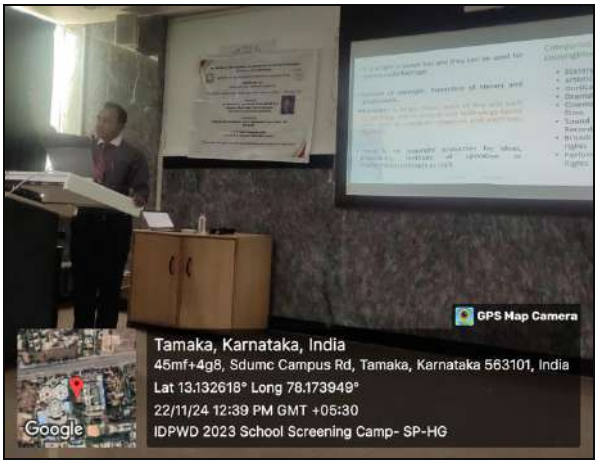

Our honorable Chief Administrative officer **Dr. D V L N Prasad** and **Dr. B. Vengamma** were invited to addressed the gathering.

The esteemed dignitaries **Dr. D V L N Prasad**, **Dr. B. Vengamma, Dr. Prabhakar and Dr. Kalyani. R** felicitated the distinguished guest speaker

Dr. Manthan D Janodia continued with his next session sensitizing the audience on **IPR** with the following key points:

- **"Copyrights, Designs, and Trademarks: Protecting Your Creative Innovations"-** Types of Intellectual Property Rights.
- **"Navigating the Patent Filing Process: From Idea to Protection"** – The explanation of process and duration which patent takes.
- **"Open Forum: Inquiries and Insights"-** Q&A session between the Resource Person and the Delegates.

His enlighten talk was followed by an exciting interactive doubt clearing discussion by the delegates with the speaker. The session was concluded by vote of thanks delivered by **Mr. R Bharath,** Co-organizing Secretary, IPR Cell, SDUAHER.

1	**Name & Level of Event**
	State level CME on High risk Pregnancy
2	**Background / Introduction**
	A High risk pregnancy is one in which a woman and her fetus face a higher than normal chance of experiencing problems. These risks may be due to factors in the pregnancy itself, or they may stem from pre existing maternal medical conditions. There is a rise in obesity that further has increased the risk of hypertension, gestational diabetes and exacerbation of pre existing conditions. There is a need to update ourselves from time to provide qualitative maternal care.

University Library Learning Resource Centre

Date:10/12/2024

Sl. No.	Name & Level of Event **Workshop on "Typeset.io" on 04/12/2024 at Dr. B.C.Roy Seminar Hall, ULLRC, SDUAHER,** Institutional Level
1	Hands-on training on **"Typeset.io" Faculty and Research Scholars organized by UNIVERSITY LIBRARY AND LEARNING RESOURCE & RESEARCH &DEVELOPMENT CELL, SDUAHER**
2	**Background /Introduction**
	To commemorate the centenary celebration of Sri. R. L. Jalappa Founder Chairman, SDUAHER, Kolar, the University Library Learning Resources Centre and Research & Development SDUAHER, jointly organized the workshop on "Typeset.io"**.** The program started with a **welcome speech** by Dr. Kalyni R., professor, the Department of Pathology and Director of R&D Cell, SDUAHER. Dr. Prabhakr K., Dean of SDUAHR and Principal of SDUMC, Tamaka, Kolar, highlighted the significance of research publications of the Academy and make use of the typeset.io AI tool to research publications. The workshop was led by Mr. Raghavendra R (**M.Sc**., LLB, PGDIPR, PGDMCJ), Founder, TechGadi, Bengaluru. He shared his expertise on how **TYPESET.io** can enhance the quality, efficiency, and professionalism of written academic documents. He highlighted all the tools available in the scispace and typeset.io platforms. He emphasised the details of the tool. literature review tool, Abstract, result, summarise, research gap, conclusion, paraphrase, citation generation etc. Apart from downloading the report in multiple file format with 50 columns supported by 75 languages. He explained how to apply the filters available in the tool to restrict and narrow down their search results. In the second phase taken through the Formatting tool, where user can have the option to select the 45K journals format majority of them indexed in the leading indexing database Scopus. This workshop provided valuable insights into improving research papers and publications, making them more polished and impactful.

Event Report on International Conference on Health Professions Education

The University Centre for Health Professions Education, SDUAHER in association with Medical Education and Research Trust conducted three days International Conference on Health Professions Education and preconference workshop from 12-14 December 2024.

The conference offered an enriching platform for knowledge exchange and professional collaboration. The conference theme, *"Adapting to Change for Sustainability in Health Science Education"*, highlighted the need for innovative, resilient, and transformative approaches in health professions education.

Plenary Sessions

The plenary sessions featured distinguished speakers who addressed pressing issues and transformative practices in health education:

1. **Health Profession Education Curriculum: Bridging the Gap Between Global and Regional Contexts** – *Dr. Rashmi Vyas*

   Discussions focused on aligning international best practices with regional educational needs to ensure contextual relevance and quality

2. **Interprofessional Education, Learning, Practice & Care: Exploring Two Core Principles** – *Dr. John H. V. Gilbert*

   Focused on the importance of collaborative learning for collaborative practice and patient-centered care. He discussed how interprofessional education (IPE) enhances teamwork among healthcare professionals, ultimately leading to improved patient outcomes and safety.

3. **Programmatic Assessment for Documenting Competency Acquisition** – *Dr. Gagan Bajaj*

   This session emphasized the importance of programmatic assessment frameworks to ensure systematic tracking of competencies and outcomes among learners.

4. **Entrustable Professional Activities (EPAs): The Way Forward for Competency-Based Education** – *Dr. Olle ten Cate*

   Dr. ten Cate highlighted the role of EPAs in advancing competency-based education, providing educators with tools to assess readiness for independent practice.

5. **Empowering Educators Through Transformative Leadership for Sustaining Change** – *Dr. Vinod Pallath*

   The session focused on building leadership skills to drive continuous improvement and sustain innovation in health education systems.

6. **Artificial Intelligence and Ethics in Health Professions Education** – *Dr. Sudha Ramalingam*

   The session highlighted the transformative potential of AI tools while featuring the importance of responsible, ethical usage to maintain trust and equity in healthcare education.

7. **Need for Quality Initiatives in Interprofessional Education (IPE)** – *Dr. Anand R*

   This talk outlined the significance of enhancing collaboration across health professions to foster patient-centered care and educational excellence.

Panel Discussions

Two interactive panel discussions brought together experts to deliberate on crucial educational challenges and strategies:

1. **Continuous Professional Development (CPD): Opportunities and Significance in Empowering Educators**
   - Panelists emphasized the role of CPD in enhancing the skills of educators, ensuring they remain equipped to handle evolving trends in health education.
2. **Student Engagement: Aligning with the Core Abilities of Millennial Learners**
   - Addressing modern learners' needs, this discussion explored innovative strategies to actively engage students, leveraging technology, active learning methodologies, and curriculum flexibility.

Conference Workshop

A special in-person workshop titled **"Coaching: A Tool to Support the Development of Self-Regulated Learning Skills in Health Professions Learners"** was conducted by **Dr. Maryellen Gusic**. This session provided practical strategies to help educators promote self-directed and reflective learning habits among students, a critical competency in health professions education.

Paper and Poster Presentations

The conference provided a platform for researchers, educators, and practitioners to showcase their work through **paper presentations**. 61 out of 65 research papers were selected for the presentation. The best papers and posters were recognized and awarded during the valedictory session.

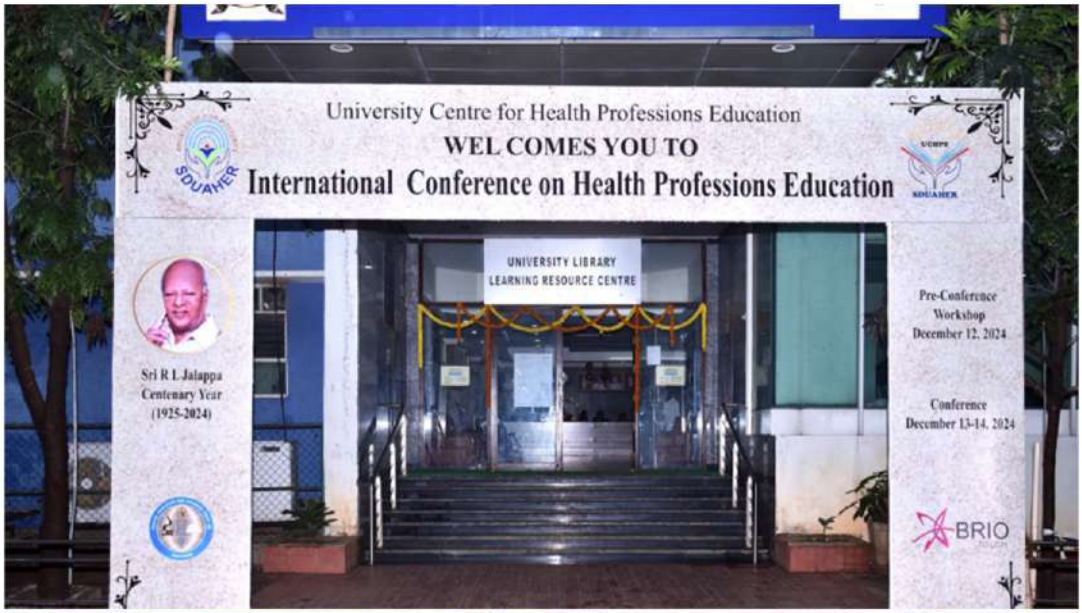

Interactive Sessions and Activities

To further enhance engagement and learning, the conference featured **A Quiz Competition** designed to encourage participation, teamwork, and knowledge sharing. Prizes were distributed during the valedictory session.

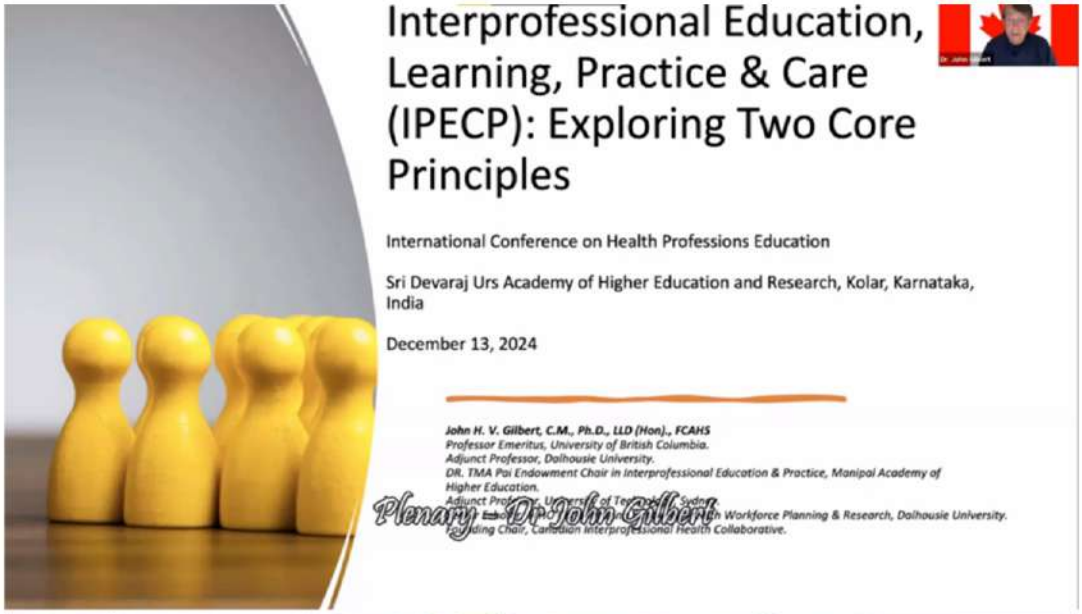

The main conference of **IC-HPE 2024** successfully brought together leaders, educators, and innovators in health professions education to share knowledge, discuss challenges, and explore sustainable solutions. The combination of expert-led sessions, workshops, and interactive discussions ensured a comprehensive and impactful event.

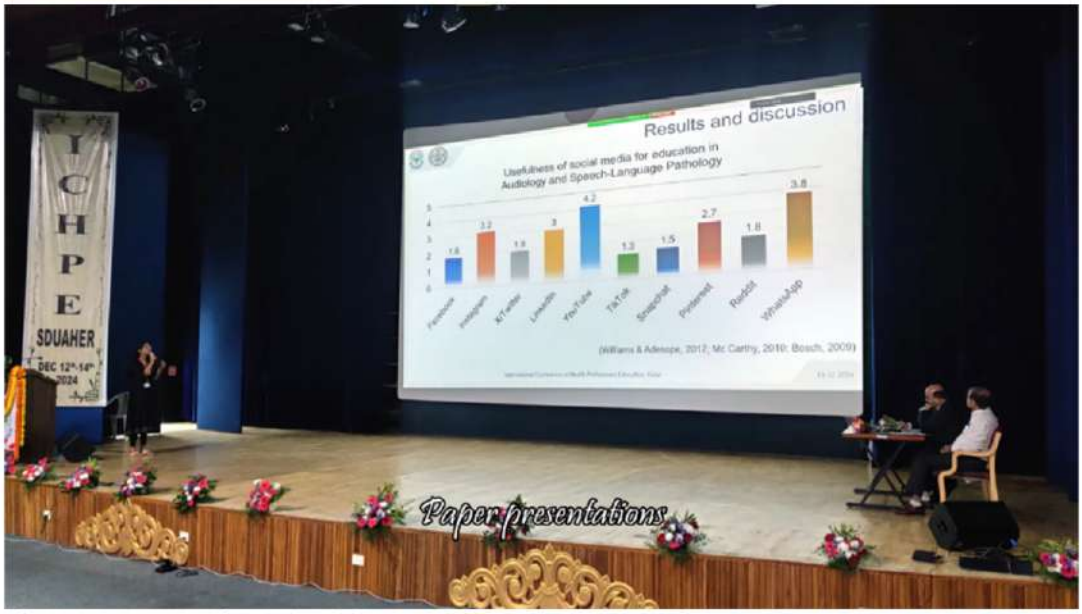

The conference reinforced the importance of adaptability, leadership, and collaboration to drive meaningful change and sustainability in health science education, aligning with global educational priorities while meeting regional needs.

REPORT OF THE TRAINING SESSION ON "Implementation of the Research Project: Setting up of a System for Medical Certification of Cause of Death (MCCD) for Non-Institutional Deaths in a Selected Area of a Taluk of Kolar District, Karnataka: Feasibility and Validity" 18th and 19th December 2024

Introduction

The Research and Development Cell of Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in collaboration with ICMR-NCDIR Bengaluru, successfully organized a two-day training session on the **Medical Certification of Cause of Death (MCCD)**.

The event took place on **18th and 19th December 2024**, from **11:00 AM to 4:00 PM**, at the MEU Conference Hall, SDUMC, SDUAHER, Kolar.

Event Highlights 🎉

The session was inaugurated by esteemed dignitaries:

- **Dr. B. Vengamma**, Vice Chancellor
- **Dr. D. V. L. N. Prasad**, CAO
- **Dr. Muninarayana C.**, Registrar
- **Dr. Prabhakar**, Principal
- **Dr. Krishanappa J.**, Medical Superintendent
- **Dr. Prasanna Kammath**, HOD, Community Medicine

Each dignitary shared their valuable insights, emphasizing the importance of implementing MCCD systems for strengthening public health surveillance.

Fig 1- Esteemed Dignitaries Seated Together During the Inauguration Ceremony

Objective

The training aimed to:

1. Highlight the **public health importance of MCCD**.
2. Demonstrate innovative study tools and procedures for the project.
3. Discuss the feasibility and validity of MCCD systems for non-institutional deaths.

Agenda

Morning Session (11:00 AM – 1:00 PM):

- **Public Health Importance of MCCD**
    - Speaker: **Dr. Sukanya**, Research Scientist, ICMR-NCDIR
    - Dr. Sukanya discussed common errors in MCCD documentation and highlighted the critical role of accurate cause-of-death certification in improving public health surveillance and policymaking. The session included

lively Q&A segment where participants shared challenges they encountered in their respective practices, sparking meaningful discussions.

Fig 2- Dr. Sukanya Addressing the Participants on Public Health Importance and Common Errors in MCCD

Afternoon Session (2:00 PM – 4:00 PM):

- **Demonstration of Study Tools and Questionnaires**
    - Speaker: **Dr. Madhu Sudhan, Research Scientist, ICMR-NCDIR**
    - Dr. Madhu Sudhan presented the MCCD questionnaires, detailing their structure and content. He explained specific questionnaires tailored for maternal, neonatal, children, and adult deaths, emphasizing their role in comprehensive mortality data collection.

Fig 3- Dr. Madhu Sudhan Delivering a Session on MCCD Questionnaires

Participants

The session witnessed participation from **40 doctors** representing various departments, including:

- Medicine
- Surgery
- Pediatrics
- ENT
- Orthopedics
- OBG
- Emergency Medicine

Fig 4. Participants Actively Engaged During the Training Session

Principal Investigator:

Dr. Vivek Jayan, Assistant Professor, Department of Community Medicine

Co PI:

Dr. Chandra Keerthy, Assistant Professor, Department of Emergency Medicine

Impact

This session marked a significant milestone in advancing public health research. It emphasized:

- The role of robust certification processes in improving mortality data.
- Strategies for implementing MCCD systems in rural settings.

Acknowledgments

We extend our heartfelt thanks to all the participants, organizers, and collaborators who contributed to making this training session a grand success.

Sl. No.	Event Report- Department of OBG
1	**Name & Level of Event**
	HEALTHY WOMEN, HEALTHY WORLD -Awareness programme for the women police personnel on common gynaecological conditions.
2	**Background / Introduction**
	WORKSHOP "HEALTHY WOMEN , HEALTHY WORLD" The department of OBG has conducted an awareness programme on common gynaecological problems , the women face and self breast examination for the women police personnel on 28th December, 2024 in the PG auditorium . The chief guest for the programme is the superintendent of police, Sri Nikhil B, IPS. The main aim of the programme is to create awareness about the menstrual health , how to maintain menstrual hygiene, what is screening of cervical cancer, how frequently should one get screened, what is self breast examination, the importance of it in early detection of breast cancer. The programme started with a prayer song by our postgraduates followed by inauguration programme. The inauguration programme was attended by the following 1.Sri Nikhil B – Chief guest 2. Dr.D.V.L.N Prasad – CAO, SDUAHER 3. Dr. Muninarayana – Registrar, SDUAHER 4.Dr. Krishnappa J – Medical Superintendent, RLJH&RC 5.Dr.Dinesh - Deputy medical superintendent, RLJH&RC 6.Dr Munikrishna – HOD & Professor, Dept of OBG , SDUMC 7.Dr Sree Ramulu - Professor, Dept of Surgery, SDUMC Dr Munikrishna has welcomed all the dignitaries. The chief guest has delivered his message on the importance of programmes like this, the necessity for creating awareness among the women especially from the lower economic status and those in the remote and rural areas who are ignorant and most uninformed about the most common causes of mortality and morbidity in women namely cancer cervix and breast cancer. All the dignitaries have shared their message following which the speakers have delivered their talks . Dr Sheela S R – Professor, Dept of OBG, SDUMC spoke about the unhealthy cervix, risk factors of cervical cancer, symptoms of cervical cancer, papsmear screening, how frequently women should be screened, hpv vaccination, colposcopy. Madam has answered all their queries at the end of the session. Dr Rathnamma.P - Professor, Dept of OBG, SDUMC spoke about the menstrual cycles,

	regularity, what is heavy menstrual flow, when to approach the gynaecologist, what is abnormal and normal vaginal discharge, how to maintain menstrual hygiene following which madam had cleared all the doubts of the attendees Dr Sree Ramulu , Professore and Dr Ashwini, Senior resident , Dept of Surgery, SDUMC spoke about the importance of self breast examination, how frequently it should to done, what is nipple discharge, breast lump, how to recognize early signs of breast cancer. They clarified the doubts of the crowd. The session ended with vote of thanks following which the women police personnel had undergone pap smear , vaginal examination and breast examination.

	TOPIC – LABOUR ANALGESIA"
2	**Background / Introduction**
	Advances in the field of labour analgesia have tread a long journey from the days of ether and chloroform in 1847 to the present day practice of comprehensive programme of labour pain management using evidence-based medicine. Newer advances include introduction of newer techniques like combined spinal epidurals, low-dose epidurals facilitating ambulation, pharmacological advances like introduction of remifentanil for patient-controlled intravenous analgesia, introduction of newer local anaesthetics and adjuvants like ropivacaine, levobupivacaine, sufentanil, clonidine and neostigmine, use of inhalational agents like sevoflourane for patient-controlled inhalational analgesia using special vaporizers, all have revolutionized the practice of pain management in labouring parturients. Pain relief in labour has always been surrounded with myths and controversies. Hence, providing effective and safe analgesia during labour has remained an ongoing challeng

A hands-on workshop on **e-Portfolio Preparation** was conducted on 22-01-2025 focusing on the application of digital portfolios in health professional education. The session aimed to enhance participants' understanding of e-portfolios as tools for showcasing competencies, reflections, and evidence-based practice. Participants were introduced to platforms like Google Sites, WordPress, and Mahara, with practical demonstrations on creating and organizing e-portfolios. Interactive activities, including reflective storytelling and case-based discussions, engaged attendees. The workshop concluded with participants confidently designing their personalized e-portfolios, emphasizing their use in professional development, assessment, and career advancement. Feedback indicated high satisfaction and practical utility.

The workshop, **"Empowering Learning and Growth: e-Portfolio Development in Health Professions Education,"** was held on January 22, 2025, at the UCHPE Conference Hall, SDUAHER, Kolar. The event aimed to equip participants with skills to create, customize, and maintain e-portfolios.

Key sessions included:

- **Dr. Vinutha Shankar**: Introduction to e-portfolios in health education as per NMC guidelines.
- **Mr. Naveen Kumar I**: Purpose, structure, and benefits of e-portfolios and customization techniques.
- **Mr. Lokheshwar S**: Hands-on session on platform setup and basics.
- **Mr. Suhas Rao and Dr. Sudha Reddy**: Development and implementation of e-portfolios.

The interactive sessions enabled participants to gain practical insights into leveraging e-portfolios for learning, reflection, and assessment.

2.	**Background/ Introduction**
On the momentous occasion of the **Physiotherapy in Critical Care Unit Hands-On Workshop**, the R.L. Jalappa College of Physiotherapy marked a significant step forward in advancing physiotherapy education and practice. Held on the 24th and 25th of January 2025, the workshop brought together experts, faculty, and students to explore cutting-edge techniques and strategies in ICU physiotherapy. This initiative provided a platform for participants to gain hands-on experience, engage in evidence-based learning, and foster collaboration among peers and professionals. With a focus on enhancing clinical skills in critical care settings, the event underscored the college's dedication to empowering physiotherapists with advanced knowledge and tools to improve patient outcomes. The successful organization of this workshop reflects the institution's commitment to promoting excellence in physiotherapy education and fostering professional growth within the healthcare community.

10. Highlights of the event including photos

On the 24th and 25th of January 2025, the R.L. Jalappa College of Physiotherapy achieved yet another milestone by organizing the **Physiotherapy in Critical Care Unit: Hands-On Workshop** at the Skill Lab, 3rd Floor, CARE Building, SDUAHER. The two-day workshop aimed to bridge the gap between theoretical knowledge and practical application in critical care physiotherapy. With the enthusiastic participation of students from various colleges from Karnataka, faculty, and professionals, the event was a great success, showcasing the institution's commitment to excellence in physiotherapy education and training.

Day 1: Inauguration/Workshop

The workshop began on the morning of January 24th with a warm welcome and registration at 8:30 AM. Participants were greeted by the event organizers, followed by a series of sessions led by esteemed faculty and physiotherapy experts.

The first session, *ICU Assessment & Monitoring*, delivered by **Dr. Senthil Kumar E**, provided participants with valuable insights into patient monitoring and evaluation in intensive care settings. This was followed by an engaging lecture on *ABG & PFT Interpretation* by **Mr. Shaswat Verma**, equipping attendees with the knowledge to interpret arterial blood gas and pulmonary function test results effectively.

After a brief tea break and the ceremonial inauguration of the workshop, the focus shifted to *Chest X-Ray Analysis*, once again led by **Mr. Shaswat Verma**, who demonstrated how imaging techniques play a vital role in ICU physiotherapy.

The **Physiotherapy in Critical Care Unit Hands-On Workshop** was inaugurated on at 11:00 am with a traditional lamp-lighting ceremony graced by esteemed dignitaries, including **Shri. Hanumanth Raju**, Secretary, SDUAHER; **Dr. DVLN Prasad**, Chief Administrative Officer; **Dr. Vengamma**, Vice-Chancellor; **Dr. Muninarayana**, Registrar; **Dr. Arvind Natarajan**, Dean of FAH&BS; and **Dr. K.V.N. Prasad**, Director of the Skill Lab. The event began with an insightful speech by **Dr. Vengamma**, who emphasized the pivotal role of physiotherapy in critical care, focusing on improving respiratory function, early mobilization, and patient recovery. **Dr. DVLN Prasad** highlighted the institutional support for fostering innovation and practical learning in physiotherapy, while **Dr. Muninarayana** underscored the importance of evidence-based practices and interdisciplinary collaboration in ICU settings. The dignitaries commended the R.L. Jalappa College of Physiotherapy for its commitment to excellence, inspiring participants to embrace the workshop's learning opportunities and contribute meaningfully to patient care in critical care units. The day's highlight was the interactive session on *Basic Life Support (BLS)* conducted by **Dr. K.N.V. Prasad**, who provided both theoretical and hands-on training in life-saving techniques.

Day 2: 5 Unique station

The second day of the workshop began with a session on *Enhancing Airway Patency in Artificial Airways* by **Dr. Sankar Ganesh**, which explored techniques to improve respiratory outcomes in ventilated patients. This was followed by **Dr. Anjali Suresh**, who delivered an in-depth session on *Physiotherapy Management in ICU*, highlighting evidence-based strategies for treating critically ill patients.

The second half of the day focused on skill stations, where participants rotated through five hands-on training modules:

- **Station 1: Oxygen Therapy** by **Dr. Suresh Kumar M**.
- **Station 2: Manual Hyperinflation** by **Mr. Pavan Kumar**.
- **Station 3: Airway Clearance Techniques** by **Mr. Mohan Das**.
- **Station 4: Respiratory Muscle Training** by **Dr. Navabharatha Reddy**.
- **Station 5: Mechanical Ventilation Monitoring Perspectives** by **Dr. Sankar Ganesh**.

These practical sessions allowed participants to apply their learning under expert guidance, ensuring they gained confidence and competence in critical care physiotherapy techniques.

Speakers and Experts

The workshop was graced by an eminent panel of speakers and facilitators, including:

- **Dr. Senthil Kumar E**, Principal, R.L. Jalappa College of Physiotherapy.
- **Dr. Anjali Suresh**, Professor, RLJCOPT.
- **Dr. Sankar Ganesh**, Associate Professor, St. John's Medical College.
- **Mr. Shaswat Verma**, Assistant Professor, Ramaiah College of Physiotherapy.
- **Dr. Suresh Kumar M**, Assistant Professor, Sri Venkateshwara Institute of Physiotherapy.
- **Mr. Pavan Kumar**, Lecturer, Kempegowda Institute of Physiotherapy.
- **Mr. Mohan Das**, Senior Pediatric Physiotherapist, Manipal Hospitals.
- **Dr. Navabharatha Reddy**, Professor and Principal, Florence College of Physiotherapy.

The workshop concluded with a valedictory function on the afternoon of January 25th. Participants received certificates of completion, recognizing their commitment to professional growth. During the closing remarks, **Dr. Naveen Kumar** expressed her gratitude to the organizing committee, faculty, and participants for their contribution to the success of the event.

Significance of the Workshop

This workshop provided a comprehensive platform for physiotherapists to enhance their skills in critical care, covering essential topics such as airway management, oxygen therapy, and ventilator monitoring. Participants appreciated the hands-on approach and the opportunity to learn from leading experts in the field.

The **Physiotherapy in Critical Care Unit Hands-On Workshop** exemplified the commitment of R.L. Jalappa College of Physiotherapy to promoting excellence in education and clinical practice. It was a memorable event that strengthened the bridge between academic learning and clinical application, empowering physiotherapists to provide high-quality care to critically ill patients.

1	Hands-on training on **"Cite While You Write: Reference Management Tool- MENDELEY f**or Postgraduate students 2022-23 batch, SDUMC **to familiarise on Citation, Reference and Bibliography organized by UNIVERSITY LIBRARY AND LEARNING RESOURCE & RESEARCH &DEVELOPMENT CELL, SDUAHER**
2	**Background /Introduction**
	To commemorate the centenary celebration of Sri. R. L. Jalappa Founder Chairman, SDUAHER, Kolar, the University Library Learning Resources Centre and Research & Development SDUAHER, jointly organized the workshop on "**Cite While You Write: Reference Management Tool- MENDELEY**". The program started with a **welcome speech** by Dr. Prakash, Asst. Professor / Senior Librarian, ULLRC, SDUAHR, Kolar. Dr. Prof. B.Vengamma, Hon`ble Vice-Chancellor, SDUAHER, Kolar inaugurated the workshop. She highlighted the significance of citations and references in research, especially in Ph.D. thesis and PG dissertation. She emphasised manual citations and references and their difficulty to insert in the PG dissertation and Ph.D. thesis and reference management tools solved the insertion of citations and references. Whether done manually or using specialized tools, proper citation ensures credibility, avoids plagiarism, and organizes research effectively. Dr. Prabhakar emphasized the use of reference management tool and their benefits The workshop was led by Dr. Samudyatha U C, Asst. Professor Department of Community Medicine, SDUMC. She briefed on reference management tools is software designed to help researchers, students, and academics collect, organize, and cite sources in their work. It plays a crucial role in maintaining academic integrity and streamlining the research process. The theoretical aspects of reference management tools involve understanding their significance, functionalities, and impact on academic writing and research Dr. Prakash, Assistant professor/Senior Librarian, ULLRC, SDUAHER, briefed on practical steps for installing the Mendeley reference management tool and Mendeley Cite, creating Folders, adding references to the library from a website, PDF, by identifier,

	Manual entry, Inserting references in documents, Inserting references, Inserting a bibliography, and Changing the style. This workshop provided valuable insights into improving research papers and publications, making them more polished and impactful.

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION & RESEARCH

(A Deemed to be University)
Tamaka, Kolar – 563 103

Welcome To the Monthly Seminar Series organized by SCHOOL OF ALLIED HEALTH SCIENCES on the occasion of Late Sri R L Jalappa Birth Centenary Year celebration.

Resource Person: Dr. Padmapriya, Professor of Physiology, KIMS Bangalore

Topic: Investigations in Respiratory Medicine - an Overview

Venue: C.V Raman Auditorium III floor, SDUAHER. Date: 30-01-2025 Time: 11.00 AM to 12 Noon

ORGANISING CHAIRPERSON
Dr. C. D. Dayanand
Professor. & Head

ORGANISING SECRETARY
Dr. Deena C Harper.
Associate Professor

ORGANISING CO-ORDINATOR
Dr. Usha G Shenoy
Assistant Professor

STAFF MEMBERS
- Mr. Mahesha M
- Ms. Nalini H S
- Ms. Chandini Rao K N
- Ms. Dayyara Greeshma
- Ms. Yogitha S
- Mr. Akash T
- Mr. Naveen K
- Mr. Sabeer S
- Ms. Shalini S
- Ms. Byrisetty Madhavi
- Ms. Shakeela B
- Ms. Nithyasri N
- Mr. Franklin John

PATRONS

SRI G. H. NAGARAJA
Chancellor, SDUAHER & Chairman SDUET Kolar

SRI. J. RAJENDRA
Vice President, SDUET, Kolar

SRI. K. G. HANUMANTHA RAJU
Secretary, SDUET

DR. D.V.L.N. PRASAD,
CAO, SDUAHER

DR. B. VENGAMMA
Vice Chancellor SDUAHER

DR. MUNINARAYANA C,
Registrar, SDUAHER

DR. PRABHAKAR K,
Principal, SDUMC

DR. KRISHNAPPA J
Medical Superintendent, RLJH&RC

DR. ARAVIND NATARAJAN,
Dean, FAH&BS

ABOUT THE SESSION

An investigation in the respiratory medicine involves examining various aspects of respiratory health, the disease, the diagnostic methods and management.

WHO SHOULD ATTEND ?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

1. Know the importance of learning the common respiratory tract diseases
2. Enumerate the common respiratory tract diseases and their causes
3. Have a knowledge of the diagnostic tests
4. Understand their roles and responsibilities in the management of these disorders
5. Be aware of the prevention strategies

Event: Monthly seminar

Date: 30-01-2025

Time: 11:00am to 12:00 Noon

Speaker: Dr. Padmapriya, Professor of physiology, KIMS, Bangalore.

Topic: Investigations in Respiratory Medicine- an Overview.

Event: Inaugural function

- The inaugural function started with an Invocation song

- The following dignitaries presided over the function:

  Dr. C. D. Dayanand, Professor. & Head

  Dr. Padmapriya, Professor of physiology, KIMS, Bangalore

  DR. D.V.L.N. PRASAD, CAO, SDUAHER

DR. B. VENGAMMA, Vice Chancellor SDUAHER

DR. MUNINARAYANA.C, Registrar, SDUAHER

Dr. Deena C Harper, Associate Professor

Dr. Usha G Shenoy, Assistant Professor

- Raised for Nada Geethe

Invited Guest:

Dr. Padmapriya, Professor of physiology, KIMS, Bangalore.

Guests of Honour:

SRI G. H. NAGARAJA Chancellor, SDUAHER & Chairman SDUET Kolar

SRI. J. RAJENDRA, Vice President, SDUET, Kolar

SRI. K. G. HANUMANTHA RAJU, Secretary, SDUET

DR. D.V.L.N. PRASAD, CAO, SDUAHER

DR. B. VENGAMMA, Vice Chancellor SDUAHER

DR. MUNINARAYANA.C, Registrar, SDUAHER

DR. PRABHAKAR. K, Principal, SDUMC

DR. KRISHNAPPA J, Medical Superintendent, RLJH&RC

DR. ARAVIND NATARAJAN, Dean, FAH&BS

ORGANISING CHAIRPERSON

Dr. C. D. Dayanand, Professor. & Head

ORGANISING SECRETARY

Dr. Deena C Harper, Associate Professor

ORGANISING CO - ORDINATOR

Dr. Usha G Shenoy, Assistant Professor

STAFF MEMBERS

- Ms. Nalini H S
- Ms. Chandini Rao K N
- Ms. Duvvuru Greeshma
- Ms. Yogitha S
- Mr. Mahesha M
- Mr. Akash T
- Mr. Naveen K
- Mr. Sabeer S
- Ms. Shalini S
- Ms. Byrisetty Madhavi
- Ms. Shakeela B
- Ms. Nithyasri N
- Mr. Franklin John

- Paying floral tributes to founder chairman Sri R L Jalappa ji.

- This was followed by lamp lighting by dignitaries

- Dr. C. D. Dayanand, Professor. & Head, SDUAHER welcomed all the dignitaries & addressed the gathering.

- Dr. D V L N Prasad, CAO, SDUAHER, addressed the gathering

- Dr. B Vengamma, Hon'ble Vice Chancellor, SDUAHER addressed the gathering & highlighted the importance of Respiratory Medicine.

- Dr. Usha G Shenoy, Assistant Professor, SDUAHER introduced the chief guest.

Speaker: Dr. Padmapriya, Professor of physiology, KIMS, Bangalore.

Topic: Investigations in Respiratory Medicine- an Overview.

Rapporteur report:

The session provided an insightful discussion on common respiratory disorders, diagnostic approaches, and management strategies, with a special emphasis on mechanical ventilation and the critical role of Respiratory Therapists (RTs).

1. Understanding Common Respiratory disorders

Dr. Padmapriya began the session with an overview of major respiratory conditions, including:

• Asthma – A chronic inflammatory disease characterized by airway hyperresponsiveness, leading to episodes of wheezing, breathlessness, and cough.

She emphasized the importance of spirometry in diagnosing asthma by assessing reversible airway obstruction.

• Chronic Obstructive Pulmonary Disease (COPD) – A progressive lung disease that includes chronic bronchitis (characterized by persistent mucus production and cough) and emphysema (marked by alveolar damage leading to air trapping).

The discussion focused on the differentiation between asthma and COPD based on PFT results and the role of long-term oxygen therapy and rehabilitation.

• Acute Respiratory Distress Syndrome (ARDS) – A life-threatening lung condition caused by infections, trauma, or sepsis, leading to severe hypoxemia and pulmonary edema.

She highlighted the importance of early recognition using arterial blood gases (ABG) and imaging techniques to improve patient outcomes.

2. Diagnostic Investigations in Respiratory Medicine

A major segment of the seminar focused on diagnostic methods for respiratory diseases, with an emphasis on:

• Pulmonary Function Tests (PFT) – The gold standard for assessing lung function, including spirometry, lung volumes, and diffusion capacity tests.

The importance of FEV1/FVC ratio in differentiating obstructive and restrictive lung diseases was discussed.

• Arterial Blood Gas (ABG) Analysis – Essential for assessing oxygenation, ventilation, and acid-base status in critically ill patients.

She explained how ABG interpretation helps in adjusting ventilator settings and optimizing patient care.

• Imaging Modalities – Chest X-ray, High-Resolution CT (HRCT), and lung ultrasound were discussed as crucial tools for identifying lung pathology, especially in ARDS and COPD exacerbations.

• Bronchoscopy – A valuable tool for both diagnosis and therapeutic interventions, particularly in cases of suspected malignancy, infections, and foreign body aspiration.

3. Mechanical Ventilation and the Role of RTs:

One of the most crucial aspects of the talk was mechanical ventilation and the role of Respiratory Therapists (RTs) in managing critically ill patients. The discussion covered:

• Indications for Mechanical Ventilation – Dr. Padmapriya explained when to initiate ventilation in conditions like severe ARDS, exacerbated COPD, and respiratory failure based on ABG findings.

• RTs' Role in Patient Management – From optimizing ventilator settings, performing bedside PFTs, pulmonary rehabilitation and managing oxygen therapy, RTs play a vital role in improving patient outcomes.

This seminar served as an invaluable learning experience for healthcare professionals involved in respiratory care, further strengthening their expertise in clinical decision-making.

- The resource person was submitted with a certificate of appreciation

- Dr. Deena C Harper, Associate Professor**,** SDUAHER gave vote of thanks and followed by National Anthem.

- Raised for National anthem.

Group Photo

National Scientific Conclave on Interdisciplinary Research

Revolutionizing Health Outcomes through collaborative efforts across Basic, Allied Health & Medical Sciences

Conference Report

Day 1 – 4th February 2025

Theme: Diabetes

Event: Invited scientific talk - 1

Time: 9.00 AM to 9.45 AM

Speaker: Dr. M Balasubramanyam, ICMR Emeritus Scientist & Professor, Madras Diabetic Research Foundation, Chennai.

Topic: Omics advancements and the road map of precision medicine in diabetes

Chairpersons:

Dr. Prabhakar K
Principal & Dean
SDUMC, SDUAHER

Dr. Sarala N
Professor
Dept. of Pharmacology
SDUMC

The speaker highlighted the following points:

- The burden of diabetes around the world, mainly in India. The statistics of the incidences, age group and regional populations.
- The speaker emphasized recent advancements in diabetes treatment and the importance of adhering to dietary precautions.
- The talk primarily focused on precision medicine in diabetes and advancements driven by omics technologies.

Event: Invited scientific talk - 2

Time: 9.45 AM to 10.30 AM

Speaker: Dr. Sindhu S, Senior Dietician, Ernakulam Medical Centre, Kochi, Kerala.

Topic: Nutrition dynamics for the prevention and management of diabetes

Chairpersons:

Dr. Vidya Sagar
Professor & Head
Dept. of General Medicine
SDUMC, SDUAHER

Dr. Madhavi Reddy M
Professor
Dept. of Clinical Nutrition & Dietetics
SDUAHER

The speaker highlighted the following points:

- The global incidence of diabetes and its prevalence across various states in India.
- The key factors influencing diabetes, along with survey data from different sectors.
- The importance of diabetes and dietary knowledge, noting a lack of awareness in the population.
- The talk addressed gestational diabetes in mothers and children, explaining its impact and intergenerational transmission.
- The information on standard exercise and dietary guidelines at both global and national levels.

Event: Invited scientific talk - 3

Time: 10.30 AM to 11.15 AM

Speaker: Dr. V Vettriselvi, Professor, Dept. of Human Genetics, SRIHER, Chennai.

Topic: Recent advancements in the molecular genetics of diabetes

Chairpersons:

Dr. Venkateswarlu Raavi
Assistant Professor
Dept. of Cell Biology & Molecular Genetics
SDUAHER

Dr. Komal Sanjay Jog
Assistant Professor
Dept. of General Medicine
SDUMC

The speaker highlighted the following points:

- The global burden of diabetes, with a focus on hereditary diabetes, the main types (Type 1 and Type 2), and the genes responsible for Type 2 diabetes.
- The speaker presented and discussed their project findings from a three-generation GWAS analysis, identifying various genes and SNPs associated with diabetes.
- The speaker emphasized that genetic changes can impact future generations.

Event: Inaugural function

Time: 11.15 AM to 12.00 Noon

The following dignitaries presided over the function:

Chief Guest:

Dr. Sundararaman Swaminathan
Department of Nephrology, Indian Institute of Science, Bangalore

Guests of Honour:

- Sri. G H Nagaraja, Hon'ble Chancellor, SDUAHER
- Sri J Rajendra, Vice President, SDUET
- Sri K G Hanumantha Raju, Secretary, SDUET
- Sri. Rajesh N Jagadale, Trustee, SDUET

Presided by:

- Dr. D V L N Prasad, Chief Administrative Officer, SDUAHER
- Dr. Vengamma B, Hon'ble Vice Chancellor, SDUAHER
- Dr. C Muninarayana, Registrar, SDUAHER
- Dr. Prabhakar K, Principal, SDUMC and Dean, FoM, SDUAHER
- Dr. Aravind Natarajan, Dean, FAH&BS, SDUAHER
- Dr. Krishnappa J, Medical Superintendent, RLJH & RC, SDUMC, SDUAHER
- Dr. Vijayalakshmi G, Principal, Sri Devraj Urs College of Nursing, SDUAHER
- Dr. Ashok Kumar B S, Principal, R L Jalappa College of Pharmacy, SDUAHER
- Dr. Kalyani R, Organizing Chairperson, NSC and Director, R&D Cell, SDUAHER
- Dr. Venkateswarlu Raavi, Organizing Secretary, NSC 2025 and Deputy Co-ordinator, R&D Cell, SDUAHER

- The inaugural function started with an Invocation
- This was followed by lamp lighting by dignitaries
- The LED wall with an upgraded digital sound system was inaugurated by Sri. G H Nagaraja, Hon'ble Chancellor of SDUAHER.
- The preamble of the Conference was given by Dr. Prabhakar K, Dean, FoM, SDUAHER
- Dr. D V L N Prasad, Registrar of the Academy welcomed all the dignitaries on the Diaz
- Dr. C Muninarayana, Registrar, SDUAHER introduced the chief guest.
- Dr. Dr. Sundararaman Swaminathan, the chief guest addressed the gathering by highlighting the importance of Interdisciplinary research.
- All the dignitaries released the Souvenir of the National Scientific Conclave - 2025
- Dr. B Vengamma, Hon'ble Vice Chancellor, SDUAHER addressed the gathering
- Dr. Kalyani R, Director, R & D Cell, SDUAHER gave the vote of thanks

---

Event: Invited Scientific Talk **- 4**

Time: 12.00 Noon to 1.00 PM

Speaker: Dr. Prasanna Kumar, Diabetologist, Bangalore

Topic: Current holistic approach in the treatment of Diabetes

Chairpersons:

Dr. Sudha Reddy
Professor & Head
Dept. of Pediatrics
SDUAHER

Dr. Krishnappa J
Medical Superintendent
RL Jalappa Hospital and Research Centre, SDUMC, SDUAHER

The speaker highlighted the following points:

- Integrative Treatment Model – A blend of allopathy, yoga, Ayurveda, and naturopathy for comprehensive diabetes care.
- Role of Lifestyle Modifications – Importance of diet, exercise, stress management, and sleep hygiene in glycemic control.
- Mind-Body Connection – How yoga, meditation, and pranayama enhance insulin sensitivity and regulate stress-induced blood sugar fluctuations.
- Nutritional Science – The significance of low-glycemic, fiber-rich diets, and the role of herbal remedies in managing blood glucose levels.
- Emerging Research & Clinical Evidence – Scientific validation of holistic therapies and their efficacy in improving diabetes outcomes.

- Patient-Centric Approach – Personalizing treatment based on an individual's genetics, lifestyle, and comorbidities for sustainable health benefits.

Scientific free paper presentations

With 80 selected abstracts for presentation, five parallel sessions were conducted - four for oral presentations and one for poster presentations. Of the 80 presenters, 77 attended (Oral_PhD: 12; Oral_Faculty: 14; Oral_PG: 19; Poster: 32). The details are as follows:

Hall 1: Oral presentation from PhD Category

Time: 2.00 PM to 5.15 PM

Venue: R L Jalappa Silver Jubilee Auditorium

Judges:

Dr. Suresh T N
Professor
Dept. of Pathology
SDUAHER

Dr. Anjali Suresh
Professor
Dept. of Physiotherapy
SDUAHER

Total of 12 presenters presented their original research articles. Each presenter had a time limit of 7 min (for presentation) and 3 min (for discussion).

Hall 2: Oral presentation from faculty category

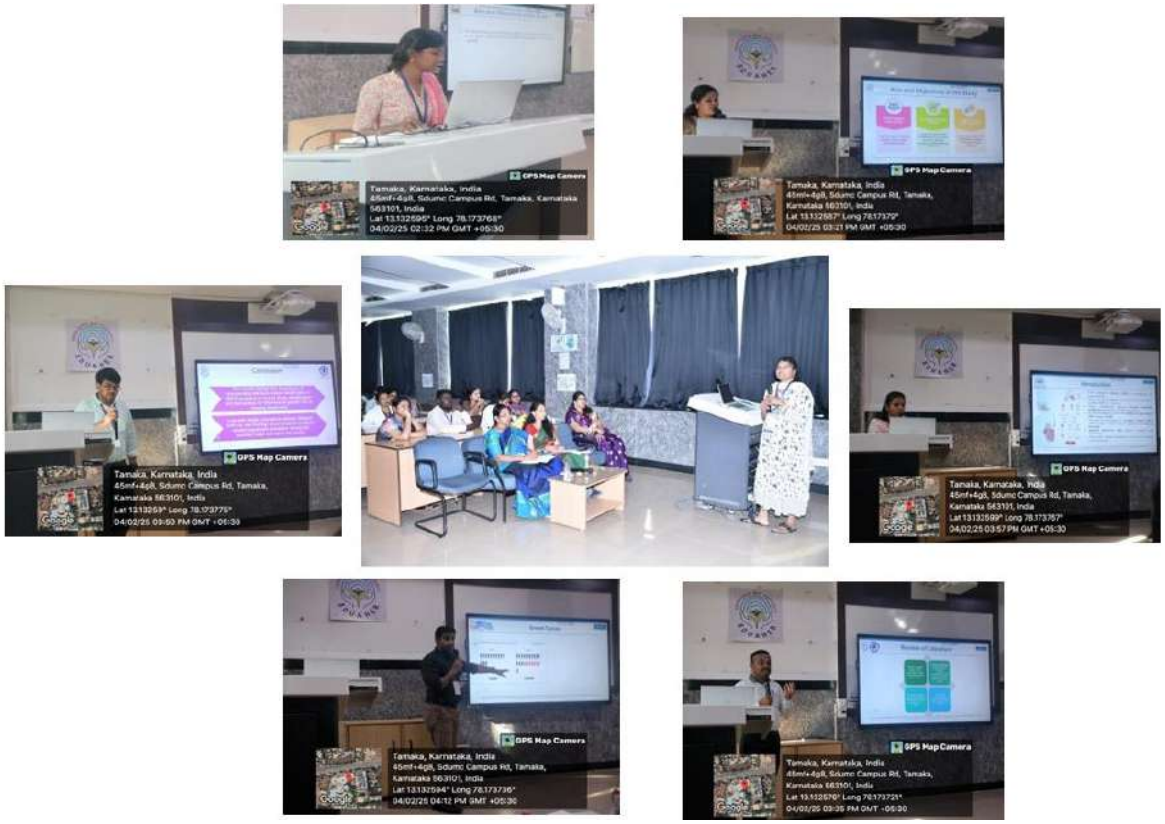

Time: 2.00 PM to 5.15 PM

Venue: Dr. B C Roy Lecture Hall, First floor, Library building

Judges:

Dr. Prabhavathi K
Professor & Head
Dept. of Biochemistry
SDUMC, SDUAHER

Dr. Sarulatha H
Professor
Dept. of Physiotherapy
SDUAHER

Total of 14 presenters presented their original research article. Each presenter had a time limit of 7 min (for presentation) and 3 min (for discussion).

Hall 3 & 4: Oral presentation from Post-Graduate Category

Time: 2.00 PM to 4.15 PM

Venue: Skill Lab, 3rd Floor, CARE Building

Judges:

Dr. Prakash Dave
Professor, Dept. of Surgery
SDUAHER

Dr. Ashok Kumar BS
Principal
RL Jalappa College of Pharmacy, SDUAHER

Dr. Ashwini Shetty
Professor, Department of Physiology
SDUMC,

Dr. Parimala S
Associate Professor
Dept of Microbiology
SDUMC,

Total of 19 presenters presented their original research articles. Each presenter had a time limit of 5 min (for presentation) and 2 min (for discussion).

Event: Poster Presentation for UG, PG, PhD and Faculty

Time: 2.00 PM to 5.15 PM

Venue: 2nd Floor, Central Library, SDUAHER

Judges:

Dr Arvind Natarajan
Dean FAH&BS, SDUAHER

Dr. G. Vijaylakshmi
Principal, Sri Devaraj Urs College of Nursing, SDUAHER

Dr. Ruth Sneha
Associate Professor, Dept. of Psychiatry, SDUAHER

Dr. Lavanya Subhashini
Vice Principal, Sri Devaraj Urs College of Nursing, SDUAHER

Total of 32 presenters presented their original research article/ case report in Poster format. Each presenter had a time limit of 5 min (for presentation) and 2 min (for Question &Answer).

Day 2 – 5th February 2025

Theme: Cancer

Event: Invited Scientific talk - 1

Time: 9:20 AM to 10:30 AM

Speaker: Dr. Anita Nath, Scientist F, ICMR – National Centre for Disease Informatics and Research, Bangalore

Topic: Global burden of cancer

Chairpersons:

Dr. Muninarayana. C
Registrar,
Professor, Department of Community Medicine
SDUAHER

Dr. S M Azeem Mohiyuddin
Professor & HoD,
Department of Otorhinolaryngology
SDUMC

The speaker highlighted some of the following points:

- Cancer poses a major public health and economic challenge globally, accounting for 16.8% of deaths worldwide and 30.3% of premature non-communicable disease (NCD) deaths in people aged 30–69 years.

- The cancer burden in India differs significantly by gender and region, with lung, mouth, and prostate cancers leading among males, while breast and cervical cancers dominate among females.
- Future projections indicate a sharp rise in cancer cases, with low and medium Human Development Index (HDI) regions, including India, facing the steepest relative increases by 2050.
- Also, the speaker highlighted that rising burden requires targeted cancer control measures, focusing on prevention, early detection, and management.

Event: Invited Scientific talk - 2

Time: 10:30 AM to 10:55 AM

Speaker: Dr. Tapas K. Kundu, Professor and Head, Molecular Biology and Genetics Unit, Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore

Topic: Molecular Genetic techniques in the management of cancer

Chairpersons:

Dr. Gopinath K S
Director & Professor
Department of Surgical Oncology
SDUMC

Dr. Kalyani R
Professor & Former HOD
Dept. of Pathology, SDUMC

The speaker highlighted some of the following points:

- An overview of oral cancer, potential therapeutic approaches, recent advancements, and strategies for targeting the brain.
- The FR-targeting strategy and the development of sigma receptor (SR)-targeting anti-brain tumor agents, CH8 and CH8-CRM.

Event: Invited Scientific talk - 3

Time: 10:55 AM to 11:30 AM

Speaker: Dr. B.A. Krishna, Consultant, Department of Nuclear Medicine & PET Imaging, Lilavathi Hospital and Research Centre, Mumbai

Topic: Advances in imaging technology in cancer diagnosis

Chairpersons:

Dr. Manjunath
Professor, Department of Radiation Oncology, SDUMC

Dr. Lokanath
Professor, Surgical Oncology, SDUMC

The speaker highlighted some of the following points:

- Molecular imaging, administration of an imaging agent, and imaging the tissues.
- These scanners have high sensitivity and high spatial, contrast, and temporal resolution and the advent of PET scanners (Positron Emission Tomography) has revolutionized the imaging of entire body in a very short time.
- Also, the speaker highlighted new molecular imaging innovations which have impacted oncological practice immensely. These techniques have given birth to a new approach in cancer treatment namely THERANOSTICS which will play a major role in the next decade as new targets for different types of cancers emerge.
- The practice of oncology will move from non-specific therapies to highly targeted therapies and future is very exciting.

Event: Invited Scientific talk - 4

Time: 11.30 AM -12.15 PM

Speaker: Dr Ayesha Ismail, Scientist F & Head Endocrinology, National Institute of Nutrition, Hyderabad

Topic: Role of nutrition in the prevention and management of cancer

Chairpersons:

Dr. Ashwathappa
Professor and HoD,
Department of Surgical Oncology,
SDUMC

Dr Shivakumara CS
Assistant Professor and I/c Head,
Clinical Nutrition and Dietetics, SDUAHER

The speaker highlighted some of the following points:

- The session emphasized the role of diet in cancer prevention and the non-classical functions of Vitamin D.
- Recent studies indicate that Vitamin D modulates molecular pathways in cardiovascular diseases (CVDs) and other chronic conditions.
- Beyond bone health, Vitamin D impacts metabolic and immune pathways.
- Future research should focus on personalized nutrition approaches for cancer prevention.

Event: Invited Scientific talk - 5

Time: 12.15 PM - 1.00 PM

Speaker: Dr. Vadiraja H S, Research Officer & Nodal Officer, Central Research Institute of Yoga & Naturopathy (CRIYN), Mandya

Topic: Yoga and cancer management

Chairpersons:

Dr. Dayanand CD
Professor and HoD,
Department of Allied Health Sciences,
SDUAHER

Dr Ashwin Bilagi
Assistant Professor and I/c Head,
Integrative Medicine,
SDUAHER

The speaker highlighted some of the following points:

- Yoga plays a significant role in pain management and psychological well-being.
- It has proven benefits in managing stress-related immune disorders.

- Integrating yoga with conventional therapies can enhance patient outcomes.
- Further clinical research is needed to establish standardized protocols for yoga-based interventions.

Event: Invited scientific talk - 6

Time: 2.00 PM - 2.45 PM

Speaker: Dr. Raghavendra R, Lead Consultant, Pain & Palliative Medicine, Aster Hospitals, Bangalore

Topic: Advances in palliative care in cancer management

Chairpersons:

Dr Arun HS
Professor,
Department of Orthopedics,
SDUMC

Dr Vimarshitha P
Associate Professor,
Dept. of Obstetrics and Gynecology,
SDUMC

The speaker highlighted some of the following points:

- Chronic pain management requires a multidisciplinary approach, integrating pharmacological and non-pharmacological therapies.
- Early palliative care interventions improve quality of life for terminally ill patients.
- There is a need for greater awareness and accessibility of specialized pain management services.

Event: Valedictory function

Time: 3.00 PM to 4.30 PM

The Valedictory function was presided over by

1. Prof. Dr. B. Vengamma, Honourable Vice – Chancellor, SDUAHER.
2. Dr. S. Chandrashekar Shetty, Former Advisor, SDUAHER.
3. Dr. Muninarayana C, Registrar, SDUAHER
4. Dr. Prabhakar K, Dean, Faculty of Medicine, SDUAHER and Principal, SDUMC.
5. Dr. Aravind Natarajan, Dean, Faculty of Allied Health and Basic Sciences, SDUAHER
6. Dr. Asok Kumar B S, Principal, R L Jalappa College of Pharmacy, SDUAHER
7. Dr. Kalyani. R, Organizing Chairperson, NSC 2025 and Director, Research and Development Cell, SDUAHER.
8. Dr. S. M. Azeem Mohiyudhin, Organizing Co-Chairperson, NSC 2025, Former Director, Research and Development Cell, SDUAHER.
9. Dr. Venkateswarlu Raavi, Organizing secretary - NSC 2025, Deputy co-ordinator, Research and Development Cell, SDUAHER.

Dr. Ashwini N S, welcomed the gathering

- Dr. Kalyani R, Director R & D cell presented the conference report
- Dr. S. Chandrashekar Shetty, Former Advisor, SDUAHER, Dr. B Vengamma, Honourable Vice – Chancellor and Dr. Prabhakar K, Principal, SDUMC addressed the gathering
- Prizes were distributed to the winners of the oral and poster presentations. The details are tabulated below:

Poster Presentations

UG category

	Name	Institution	Title
1st prize	Yadlapalli Sejal Sai Sree	Sri Devaraj Urs Medical College	Varicella Zoster with Bilateral Orbital Cellulitis - A Rare Case Report
2nd prize	Neeraj C Rajesh	Department Of Speech Pathology and Audiology, SDUAHER	The Diagnostic Odyssey of Auditory Neuropathy Spectrum Disorder: A Case Study
3rd prize	Dr. Prashanth V	Sri Devaraj Urs Medical College	Unveiling Superior Sagittal Sinus Thrombosis Through Papilledema: A Case Report
Consolation	Keerthana S K	Sir M Visvesvaraya Institute of Technology	Extraction, Purification and Characterization of Polysaccharides from Zephyranthes citrina

Others (PG, PhD and Faculty)

	Name	Institution	Title
1st prize	Akshay Kirthan J.P	Dept. Of Biochemistry, JN Medical College, KLE Academy of Higher Education and Research	The Impact of Oral Iron Supplementation on Maternal Iron Indices Among Pregnant Women with Moderate Iron Deficiency Anemia - A Prospective Cohort Study.
2nd prize	Shivaani Srinivasan	Department Of Developmental Biology and Genetics, IISc- Bengaluru	Unravelling The Link Between Deregulated Metabolism and Cancer Stemness- Towards Understanding the Influence of Diabetes on Breast Cancer Progression
3rd prize	Dr. Vishaka Shankar	Paediatrics, SDUMC	Congenital Hyperinsulinemic Hypoglycemia
Consolation	Sahana G Iyer	Indian Institute of Science, Bengaluru	Identifying Biomarkers of Diabetes-Associated Breast Cancer Initiation and Progression

Oral Presentations

PG category

	Name	Institution	Title
1st prize	Dr Nakkana Rachana	Sri Devaraj Urs Medical College	Gestational Type 2 Diabetes Mellitus and Its Influence on Retinopathy of Prematurity.
2nd prize	Dr Srilekha R Mathapati	Sri Devaraj Urs Medical College	Eyeing The Details: Association Between Macular Thickness, Axial Length in Myopic Eyes.
3rd prize	Lokireddy Venkata Sandeep Reddy	Katurba Medical College, Mangalore, MAHE	Quality Of Life Among Adult Type 2 Diabetics on Insulin in Select Tertiary Care Hospitals
Consolation	Kancharla Varun	General Medicine, K.S. Hegde Medical Academy	Study Of Upper Gi Endoscopy and Helicobacter Pylori Infection Among Type 2 Diabetes Mellitus Patients with Dyspepsia
Consolation	Ms. Reshma B	Sri Devaraj Urs College of Nursing Affiliated With RGUHS	Paramedical Staff Knowledge Regarding Revised Cardiopulmonary Resuscitation Guidelines Working at Rural Tertiary Care Medical Teaching Hospital Kolar, Karnataka.

PhD category

	Name	Institution	Title
1st prize	Medha Karnik S R	CEMR Laboratory, Department of Biochemistry, JSS Medical College, JSS AHER	Inverse Association of Lactobacillus and Bifidobacterium Species with Inflammatory Microenvironment in Cervical Cancer
2nd prize	Chaithanya G B	CEMR, Department of Biochemistry, JSS Medical College, JSSAHER	Co-Targeting Key Oncogenic Signalling Cascades Regulating Breast Cancer Development Using Vitamin-D And Anti-Hyperglycemic Agent Phenformin

3rd prize	Rimshia Naaz	Department of Biochemistry, JSS Medical College, JSSAHER	Intraperitoneal Administration of Vitamin D Mitigated the Cognitive Impairment Induced Due to Diabetes by Modulating Pi3k/Akt Signaling in C57bl6 Mice.
Consolation	Dr. Geetha S	Physiology, SDUMC	Behavioral Outcomes of Enriched Housing in MPTP-Induced Parkinson's Disease Mouse Model

Faculty category

	Name	Institution	Title
1st prize	Vidhyashree K	Department of Pathology, St.John's Medical College	Role of Choline Transporter Immunostain in the Diagnosis of Hirschsprung Disease on Formalin Fixed Rectal Mucosal Biopsies
2nd prize	Dr. V. Priyanka	Biotechnology/ Anna University	Mir-21 Exacerbates Foam Cell Formation and Regulates Early Atherogenesis in Periodontitis-Induced Atherosclerosis.
3rd prize	Dr. Ram Mohan Ram Kumar	JSS College of Pharmacy JSS Academy of Higher Education & Research	Engineered Small Extracellular Vesicles as A Therapeutic Carrier Targeting Triple-Negative Breast Cancer
Consolation	Nandita Krishnan	Clinical Nutrition/ SRIHER	Microbial Attributes of Resistant Starch-Based Health Mix Developed for Women with Polycystic Ovarian Syndrome

- The Valedictory function ended with a Vote of thanks by Dr. Venkateswarlu Raavi, Organizing secretary - NSC 2025 and the Deputy co-ordinator, Research and Development Cell, SDUAHER.
- The program ended with the National Anthem

Organizing team

Rapporteurs for Day 1

1. Ms. Indumathi AN, PhD Scholar, Dept of Cell Biology and Molecular Genetics, SDUAHER
2. Ms. Shriya S, PhD Scholar, Dept of Integrative Medicine, SDUAHER

Rapporteurs for Day 2

1. Ms. Chandini Rao, Lecturer, Dept. of Allied Health Sciences, SDUAHER
2. Dr. Soundariya S, Assistant Professor, Clinical Nutrition and Dietetics, SDUAHER

Event Report

Name of Event: Guest Lecture on Melioidosis

Name of Department: Microbiology **Date: 17.02.2025**

Sl. No.	Event Report
1.	**Level of Event –** Institutional; Faculty of Medicine; Guest Lecture
2.	**Background / Introduction**
Melioidosis is one of the serious diseases of the region of North Australia, South East Asia, including the Indian Subcontinent. The disease is caused by a Gram negative bacilli, *Burkholderia pseudomallei*, which is an environmental pathogen commonly found in soil, water bodies of coastal or marshy areas. The clinical spectrum of illness range from pulmonary infections, wound infections, septicemia and complicated CNS infections. A strong clinical suspicion and a robust diagnostic modalities help in early diagnosis of this dreaded illness, thereby prompt initiation of correct management can mitigate the suffering, and provide an extended quality of life to the patients.	
3.	**Venue:** William Osler Hall, First Floor, SDUMC, SDUAHER
4.	**Sponsors:** SDUAHER
5.	**Inauguration:** Presided by Dr. Parimala. S, Head of the Department, and the Speaker was introduced by Dr. S. Muralidharan, Professor of Microbiology.
6.	**Speaker:** Dr. Chiranjay Mukhopadhyay is a distinguished Clinical Microbiologist, and Infectious Disease Consultant from Kasturba Medical College, Manipal. He is also the Director of the Manipal Institute of Virology, MAHE—recognized as the ICMR Coordinating Center of Excellence (ICMR-CCOE). He is a leading expert on Melioidosis, and currently serves as the coordinator of the Center for Emerging and Tropical Diseases and holds the esteemed Dr. T M A Pai Endowment Chair. **Chairperson** Dr. Parimala. S, Professor and Head, Department of Microbiology **Organizing Secretary:** Dr. Sarumathi. D **Joint Organising Secretary :** Dr. Sulaiman Sharieff Assisted by Faculty members and Postgraduates.
7.	Participants & Delegates – 41 members present in person, 2 people participated online

	Attendance sheet shared as Annexure 1.
8	**Brief lecture notes and discussion** The speaker initiated the lecture by describing "Melioidosis": the history, the epidemiology and etiopathogenesis of the disease. He explained how Agriculture, Soil exposures, Recreational activities, Diabetes mellitus, etc could be significant risk factors for the development of this infection. He also explained about how the belt of Northern Australia, South East Asia, including India could be the epicenter of a globally recognized problem. He stressed on the clinical profiles and variations in clinical presentations of the disease, with elaborate illustrations of clinical cases, and diagnostic modalities. He emphasized the need for robust microbiological services, such as blood cultures and also enlightened on new knowledge in early recognition of this infection. This was followed by a discussion on therapeutic management, and prevention aspects of the disease. The academicians in the audience were pleased to put forth their queries. These include questions related to serological tests for early recognition, CNS manifestations of the disease, especially about the severity and complications of infections in the brain. Lastly the alternatives to Co-trimoxazole in chemo-prophylaxis of this disease was also discussed.
9	**Valedictory** Dr. Sulaiman Sharieff delivered the Vote of Thanks. The event was concluded by thanking all the administrators, resource faculty, supporting staff and participants by Dr. Parimala. S

2	**Background / Introduction**
	Preparing essay-type questions and MCQs is essential for assessing a range of skills, from critical thinking and analysis in essays to knowledge recall and problem-solving in MCQs. Essay questions encourage deeper understanding, while MCQs test quick, broad knowledge. Using AI to generate these questions saves time, ensures variety, and maintains quality by tailoring content to specific learning objectives, ultimately enhancing assessment efficiency and accuracy.

10	**Any other information**
	The sessions highlighted the importance of essay-type questions in assessments, emphasizing their role in evaluating critical thinking, analysis, and in-depth understanding. Participants learned how to create essay questions using appropriate verbs and a structured blueprint. The sessions also discussed common mistakes in designing multiple-choice questions (MCQs) and provided guidelines on what to avoid when creating them. Special focus

Ph: 0821-243004 (Extn. 122) Email id: uchpe@sduaher.ac.in Web: www.sduaher.ac.in, www.uchpe.com

	was given to the key factors to consider while designing effective MCQs. Group activities helped participants practice and reinforce these concepts. Additionally, the use of AI tools in question paper generation was explored, with demonstrations of powerful tools such as ChatGPT, DeepSeek, PrepAI, SmallPDF, and Quillions, showcasing how AI can streamline the process, improve quality, and ensure variety in assessments, making them more efficient and accurate.

- Mr. K. Naveen, Lecturer/Course coordinator of EMT, School of allied health science, SDUAHER introduced the chief guest.

Speaker: Dr. Naga Soumya, Assistant Professor of Emergency medicine, SVIMS, Tirupati

Topic: The Role of Allied Health Care Professionals in Managing Health Emergencies

Rapporteur report:

The session provided an insightful discussion on allied Health Professionals role in preparedness and response for effective management

1. Dr. A. Naga Sowmy began the session with an **overview of Disaster,** including: Disaster medicine is a specialized field of medicine that focuses on providing medical care and public health services during and after disasters. These disasters may be natural (e.g., earthquakes, hurricanes, floods, wildfires), man-made (e.g., terrorist attacks, industrial accidents), or complex humanitarian emergencies (e.g., pandemics, refugee crises)

2. A major segment of the seminar focused on Key Principles of Disaster Medicine with an emphasis on

- **Rapid Response and Triage:** Medical teams must quickly assess casualties, prioritize treatment (triage), and allocate limited resources efficiently.

- **Mass Casualty Management:** Disasters often overwhelm healthcare systems, requiring innovative solutions for handling large numbers of patients.
- **Public Health and Disease Control:** Preventing the spread of infectious diseases, ensuring clean water and sanitation, and providing vaccinations are critical in disaster zones.
- **Coordination and Communication:** Collaboration between local, national, and international agencies, including governments, NGOs, and military units, is essential for effective disaster response.
- **Mental Health Support:** Psychological first aid and long-term mental health care for victims and responders are important in disaster recovery.
- **Preparedness and Training:** Disaster drills, emergency planning, and community education enhance readiness for future crises

3. Triaging and the Role of allied health care professionals

One of the most crucial aspects of the talk was Saves lives by ensuring rapid and efficient medical intervention. The discussion covered:

- Minimizes long-term health consequences through preventive measures.
- Strengthens healthcare infrastructure and resilience against future disasters.
- Disaster medicine integrates emergency medicine, trauma care, public health, and crisis management. Professionals in this field include doctors, paramedics, nurses, epidemiologists, and emergency planners who work together to mitigate the impact of disasters on human health.

This seminar served as an invaluable learning experience for healthcare professionals involved in managing health care emergencies, further strengthening their expertise in clinical decision-making.

- Ms. Yogitha, Lecturer of Microbiology, School of allied health science, SDUAHER gave vote of thanks

- The resource person was submitted with a certificate of appreciation
- Followed by National Anthem.

REPORT ON 20TH ANNUAL PATHOLOGY CME- 2025

THEME OF THE PROGRAMME – CME on "Hematology Updates" CONDUCTED – 1st March 2025 (Hybrid mode)

VENUE - 1st floor, William Osler (Physiology) AV HALL, SDUMC, KOLAR

SPONSORS – Sri Devaraj Urs Academy of Higher Education and Research,

Karnataka chapter of the Indian Association of Pathologists and Microbiologists (KCIAPM),

Medical Education Research Trust (MERT),

APR Sales Corporation and Olympus

AIMS AND OBJECTIVES:

The CME was designed to include lectures on various aspects of Hematology by experts in this field. The CME was conducted to help post graduates and teaching faculty to have a better understanding of applied aspects of laboratory Hematology and its quality control.

REGISTRATION:

A total number of two hundred and forty nine delegates had registered for the CME. The programme began by registration of delegates. The delegates were from various private hospitals and medical colleges both within Karnataka and across the States. To name a few JJM medical college, Davangere, RIMS, Raichur, ESIC MC & PGIMSR, Sapthagiri Institute of Medical Sciences and Research Centre, Rajarajeswari Medical College & Hospital, Bengaluru Adichunchunagiri institute of medical sciences, Akash Institute of Medical Sciences and Research Center, Siddaganga medical college and research institute, ESIMC PGIMSR Bangalore, Mysore medical college, St. Martha's Hospital, Bangalore, MVJ Medical College, SNMS Bagalkot and Sri shankara cancer hospital and research center and various other Private labs.

INAUGURATION:

Formal inauguration was done by lighting the lamp, under the presence of dignitaries – Registrar Dr. Muninarayana C, Principal Dr Prabhakar K, Medical Superintendent Dr Krishnappa J, Professor and HoD Dr T N Suresh, Organizing secretary Dr Pradeep MitraV and Co-organizing secretary Dr Mekhala Rao , Organizing Team and all speakers.

We began the sessions with invoking the blessing of the almighty and lighting the lamp for knowledge and prosperity. It was followed by Welcome Speech by Dr TN Suresh, Prof and HOD Pathology, followed by the Presidential Address by our Registrar Dr. Muninarayana C.

Dr Prabhakar K, Dean FoM and Principal ,SDUMC and Dr Krishnappa J, Medical Superintendent, RLJH & RC congratulated the Pathology department for organizing the CME and appreciated the services of the Pathology department. Vote of thanks was proposed by Dr Pradeep Mitra V. He thanked Sri G H Nagaraja, Hon'ble Chancellor, SDUAHER and Chairman, SDUET, Dr DVLN Prasad, Chief administrative officer, SDUAHER and Dr B Vengamma, Hon'ble Vice Chancellor, SDUAHER for contributing to the success of this event.

SESSIONS 1

First session was on "**Cell Counter - Graphical data - The Core in a Patient's Diagnosis" by Dr Pradeep Kumar V, Consultant Pathologist and Head, Hematopathology, Neuberg Anand Laboratory, Bangalore**. This talk was on the basics of interpretation of Scatterplots and histograms.

SESSIONS 2

This session was **on "Basics of Flow Cytometry" by Dr Sandeep Rao, Director Laboratory Services, HCG NCHRI Oncology, Bangalore.** This session covered the components of a flow cytometer, Fluidics, Fluorochromes and optics of Flow cytometer.

SESSION 3

This session was on **"Quality Control in Hematology" by Dr Joy Mammen, Professor, Department of IHBT, CMC Vellore.** This session was on the quality aspects like accuracy, precision, Westgard rules.

SESSION 4

This session was **on "Flow Cytometry in Hematolymphoid malignancies: Case based discussion" by Dr Sandeep Rao, Director Laboratory Services, HCG NCHRI Oncology, Bangalore**. This session covered the antigen expression profile, markers used in acute leukemia, AML with NPM1 mutation, Erythroleukemia and TP53, B- ALL with flow aberrancies.

SESSION 5

This session was on **"Bone marrow –integrated Approach –The Why and How of interpretation" by Dr Pradeep Kumar V, Consultant Pathologist and Head, Hematopathology, Neuberg Anand Laboratory, Bangalore**. This session was on bone marrow findings in hematological diseases along with case based discussion.

SESSION 6

This session was on "**Lab Diagnosis of hemolytic Anemia"** by **Dr Kumar C, Professor, East point medical college, Bangalore**. This session covered the classification of hemolytic anemia, laboratory investigations performed for intravascular and extravascular hemolytic anemias.

The CME concluded with Vote of Thanks by Dr Mekhala Rao, Senior resident, Department of Pathology and Co- Organizing Secretary of the CME. Feedback was taken from all participants.

2.	**Background/ Introduction**
R.L. Jalappa College of Physiotherapy continues to be a hub for excellence in physiotherapy education and research. As part of the First International Conference on Physiotherapy Education and Research, the college organized an insightful pre-conference hands-on workshop on 6th March 2025. This workshop provided an invaluable learning experience, enhancing the skills and knowledge of both students and practitioners. Covering key techniques such as Mulligan mobilization, sensory processing disorder management, proprioceptive neuromuscular facilitation, and sacroiliac joint assessment, the sessions refined clinical expertise and enriched academic understanding. Through such initiatives, R.L. Jalappa College of Physiotherapy reaffirms its commitment to advancing physiotherapy education and professional growth.

Event Report: Pre-Conference Hands-On Workshop at R.L. Jalappa College of Physiotherapy

As a part of the First International Conference on Physiotherapy, Education and Research, R.L. Jalappa College of Physiotherapy organized a pre-conference hands-on workshop from March 6th to 8th. This workshop provided an exceptional platform for students and practitioners to enhance their skills and knowledge in various physiotherapy techniques. With a strong emphasis on practical learning, the event significantly contributed to refining clinical expertise and broadening academic understanding.

The day started with the grand inauguration by the banner revealing of the International Conference by Dr. Vengamma, Vice Chancellor, SDUAHER Kolar, Dr. Muninarayana, Registrar, SDUAHER Kolar, Dr. Aravind Natarajan, Dean of AHS, SDUAHER Kolar, and Dr. Senthil Kumar, HOD, R.L. Jalappa College of Physiotherapy. This was followed by the conference, setting the stage for an engaging and informative workshop.

Workshop Overview: The pre-conference workshop featured multiple hands-on training sessions covering key physiotherapy techniques, including:

- **Mulligan Techniques** – Focused on pain-free mobilization strategies to enhance joint function.
- **Sensory Processing Disorder Management** – Provided insights into assessment and intervention techniques for individuals with sensory processing difficulties.

- **Proprioceptive Neuromuscular Facilitation (PNF) Techniques** – Covered advanced methods to improve neuromuscular control and functional movement.
- **Sacroiliac Joint Assessment and Management** – Highlighted the importance of diagnosing and treating sacroiliac joint dysfunction for effective pain management.

Speakers of the Workshop:

- **Dr. Rakesh Krishna** – Assessment & Management of Sensory Processing Disorders at R.L. Jalappa Hospital and Research, 2nd Floor - Pediatric Rehabilitation.
- **Dr. Prem V, PhD** – Clinical Assessment & Management of Sacroiliac Joint at RLJCOPT Building Seminar Hall.
- **Dr. Karthik Babu S, PT, PhD** – PNF- Clinical Relevance at 3rd Floor MEU, Medical College.
- **Dr. Kiran Satpute, PhD** – Concept of Mulligan Mobilization for Cervicogenic Headache at 3rd Floor, Skill Lab, CARE Building.

Impact and Learning Experience: The workshop served as an invaluable experience for both students and clinicians. Participants had the opportunity to gain hands-on exposure under the guidance of experienced faculty, allowing them to apply theoretical knowledge to real-world clinical scenarios. The interactive nature of the sessions encouraged engagement, discussion, and a deeper understanding of the techniques demonstrated.

Conclusion: R.L. Jalappa College of Physiotherapy continues to set benchmarks in physiotherapy education by organizing events that promote skill development and professional growth. This hands-on workshop not only enhanced clinical competencies but also reinforced the institution's commitment to fostering excellence in physiotherapy practice and research. The success of the event was evident in the enthusiasm of the participants, making it a significant milestone in advancing physiotherapy education and practice.

Event: Monthly seminar

Date: 06-03-2025

Venue: C.V Raman Auditorium III Floor, SDUAHER.

Time: 2:30PM to 3:30PM

Resource Person: MRS. DEEPA G K,

Assistant Professor, Nethradhama School of Optometry, Bangalore

Topic: Digital Eye Strain and its Impact on Vision

Event: Inaugural function

The following dignitaries presided over the function:

- Dr. Sangeetha T, Professor. & Head, Department of ophthalmology, SDUAHER.
- Dr. Usha G Shenoy, Assistant Professor, School of Allied Health Science.
- Mrs. Deepa G K, Assistant Professor, Nethradhama School of Optometry, Bangalore
- Dr. Aravind Natarajan, Dean, FAH&BS
- Dr. C. D. Dayanand, Professor. & Head, School of Allied Health Science.
- Dr. Deena C Harper, Associate Professor, School of Allied Health Science.

Invited Guest:

Mrs. Deepa G K, Assistant Professor, Nethradhama School of Optometry, Bangalore

Guests of Honour:

SRI G. H. NAGARAJA Chancellor, SDUAHER & Chairman SDUET Kolar

SRI. J. RAJENDRA, Vice President, SDUET, Kolar

SRI. K. G. HANUMANTHA RAJU, Secretary, SDUET

DR. D.V.L.N. PRASAD, CAO, SDUAHER

DR. B. VENGAMMA, Vice Chancellor SDUAHER

DR. MUNINARAYANA.C, Registrar, SDUAHER

DR. PRABHAKAR. K, Principal, SDUMC

DR. KRISHNAPPA J, Medical Superintendent, RLJH&RC

DR. ARAVIND NATARAJAN, Dean, FAH&BS

ORGANISING CHAIRPERSON

Dr. C. D. Dayanand, Professor. & Head

ORGANISING SECRETARY

Dr. Deena C Harper, Associate Professor

ORGANISING CO - ORDINATOR

Dr. Usha G Shenoy, Assistant Professor

STAFF MEMBERS

- Ms. Nalini H S
- Ms. Chandini Rao K N
- Ms. Duvvuru Greeshma
- Ms. Yogitha S
- Mr. Mahesha M
- Mr. Akash T
- Mr. Naveen K
- Mr. Sabeer S
- Ms. Shalini S
- Ms. Byrisetty Madhavi
- Ms. Shakeela B
- Ms. Nithyasri N
- Mr. Franklin John

- The event commenced with a warm welcome by **Deepika,** Optometry Intern, who expressed the pleasure of hosting the 3rd Monthly Seminar organized by the School of Allied Health Sciences. She highlighted the growing relevance of digital eye strain in today's world, emphasizing the need for awareness and preventive measures.
- **Mrs. Vaithegi** M, Optom, formally **welcomed the gathering**, paying respect to the late founder Sri R L Jalappa and acknowledging the support of esteemed dignitaries.
- **Mrs. Shakeela**, Optometry Coordinator**, introduced the distinguished resource person**, Mrs. Deepa G K, who is an Associate Professor at Nethradhama School of Optometry, Bangalore, and the first female President of the Karnataka Optometry Association. With 18 years of clinical experience and 12 years of teaching experience*, she has significantly contributed to the field of optometry. She has also published two international research papers and has guided numerous research projects in specialized areas such as Specialty Contact Lenses, Low Vision Aids, Binocular Vision, and Vision Therapy.

Speaker: MRS. DEEPA G K, Assistant Professor, Nethradhama School of Optometry, Bangalore

Topic: Digital Eye Strain and its Impact on Vision

Rapporteur report:

The session provided an insightful discussion on **Computer Vision Syndrome (CVS),** covering: Causes of digital eye strain, Symptoms such as blurred vision, dry eyes, headaches, and fatigue, Preventive measures like ergonomic adjustments, screen-time management, and eye care practices. The role of optometrists in addressing vision-related issues in the digital era. The session was interactive, with participants engaging in discussions.

Career Opportunities and Scope in Optometry:

Another key session was on Career Opportunities and Scope in Optometry, where Mrs. Deepa G K elaborated on: Educational Pathways in optometry, including diploma, bachelor's, master's, and doctoral programs. Career Options, such as clinical practice, research, teaching, and industry roles. Specializations, including Pediatric optometry, geriatric optometry, binocular vision therapy, and ocular diagnostics. Emerging Trends, such as tele-optometry, myopia control, and advanced diagnostic tools. Global Opportunities for optometrists in

research, innovation, and patient care. The panel engaged in an enlightening discussion about best eye-care practices, solutions, technological advancements in vision health, and career development in optometry.

- Ms. Yogitha, Lecturer of Microbiology, School of allied health science, SDUAHER gave vote of thanks

- The resource person was handed over certificate of appreciation

- Raised for National Anthem.

Event Report

Name of the event: 1st International Conference on Physiotherapy Education and Research
Date of the event: 7th and 8th March 2025
Name of the Department: R L Jalappa College of Physiotherapy, SDUAHER

S. no.	**Event Report**
1.	**Level of Event – Institution/ State/ National/ International**
International Level	
2.	**Background/ Introduction**
The International Conference on Physiotherapy Education and Research was organized with the aim of fostering knowledge exchange and collaboration among physiotherapy professionals, educators, and researchers worldwide. The conference served as a platform to discuss the latest advancements, evidence-based practices, and emerging trends in physiotherapy education and research. With the increasing role of physiotherapy in global healthcare, this event provided a valuable opportunity for academicians, clinicians, and students to engage in discussions that shape the future of the profession. The conference brought together distinguished experts, researchers, and educators from various institutions and countries, promoting interdisciplinary dialogue and knowledge sharing. The event was designed to address contemporary challenges in physiotherapy education, integrate modern technology in teaching and clinical practice, and explore novel rehabilitation approaches backed by scientific research.	
3.	**Venue**
Silver Jubilee Auditorium, 2nd Floor, Library, SDUAHER	
4.	**Sponsors**
1. SDUAHER 2. Loban Technologies Pvt Ltd 3. Lifewear Technologies Pvt Ltd 4. Technomed Technologies 5. Axis Bank, 6. Federal Bank	
5.	**Inauguration**

The program was inaugurated by esteemed dignitaries, including Dr. Ifthikar Ali, Chairman of NCAHP; Dr. Vaishali Sreejith, Senate Member of RGUHS; Dr. Arun Maiya, Dean of MAHE; Shri Ranjendra J, Vice Chairman; Shri Hanumantha Raju, Secretary; Dr. Vengamma B, Honorable Vice Chancellor; Dr. DVLN Prasad, CAO; Dr. Muninaraya, Registrar; Dr. Prabhakar K, Principal of FOM; Dr. Aravind Natarajan, Dean of FAHBS; Dr. Chandrasekar Shetty, Founding Vice Chancellor; Dr. Krishnappa, Medical Superintendent; and Mr. Rajaram, CFO.

6.	**Speaker/ Judges ~~– Chairman/ Panel Team~~**

7.	**Participants & Delegates – Number with names**

The International Conference on Physiotherapy Education and Research witnessed an overwhelming response, with a total of **810 delegates** from various institutions actively participating in the event.

A remarkable **190 scientific presentations** were delivered across different categories, including **Undergraduate (UG), Postgraduate (PG), PhD, Academic, and Clinician** sections. These presentations showcased extensive research and innovative findings in physiotherapy education and clinical practice.

In addition to the scientific sessions, the conference also featured **12 innovation presentations**, highlighting groundbreaking advancements and novel approaches in physiotherapy techniques, rehabilitation strategies, and healthcare technology.

List attached as annexure

8.	**Prize Distribution**

Award Winners

Undergraduate (UG) Paper Presentation

- **1st Place:** Chetna Yogesh Bhadane (Dhole Patil College of Physiotherapy, Pune)
    - *Title:* A Comparative Study of Plyometric Training with Eccentric Hamstring Strengthening and Plyometric Training Alone on Sprint Performance of Sprinters
- **2nd Place:** Swaroop Raj P (St. Benedict College of Physiotherapy, Karnataka)

- *Title:* Effectiveness of Aerobic Exercises Versus Resistance Training on Blood Pressure in Hypertensive Patients

Undergraduate (UG) Poster Presentation

- **1st Place:** Jithendra HR (St. Benedict College of Physiotherapy, Karnataka)
  - *Title:* Strengthening Exercises in the Management of Shoulder Pain in the Diabetic Population
- **2nd Place:** C. Pretheka (SVCOPT, Puducherry)
  - *Title:* Pressure Garment Therapy

Postgraduate (PG) Paper Presentation

- **1st Place:** Lakshna Girija Baskaran (SVCOPT, Puducherry)
  - *Title:* Effectiveness of Medium Impact Exercise Program on Thyroid Function and Quality of Life in Subjects with Subclinical Hypothyroidism
- **2nd Place:** Sujata Pujari (Oxford College of Physiotherapy, Bengaluru)
  - *Title:* Identifying Mobility Challenges of Pedestrians at Busy Urban Junctions for Stroke Survivors' Rehabilitation

Postgraduate (PG) Poster Presentation

- **1st Place:** Shreya K S (MS Ramaiah College of Physiotherapy, Bengaluru)
  - *Title:* Effect of Metronome-Guided Motor Imagery on Sensory Thresholds: A Novel Approach for Pain Management
- **2nd Place:** Ramya R. Rao (JSS College of Physiotherapy, Mysuru)
  - *Title:* Impact of Resistance and Aerobic Training Program in Amateur Indian Badminton Players

Academician/Ph.D./Clinician Paper Presentation

- **1st Place:** Meghana SV (JSS College of Physiotherapy, Mysuru)
  - *Title:* Hope in Every Breath: The Role of Pulmonary Rehabilitation in Interstitial Lung Disease – A Case Report
- **2nd Place (Tie):**
  - **Sandeep P H (JSS College of Physiotherapy, Mysuru)**

- *Title:* Impact of Education on Outcomes of Activity, Participation, and Quality of Life in Persons with Spinal Cord Injury and Their Caregivers

- **Nischitha R Rao (St. John's Medical College, Karnataka)**
  - *Title:* Facilitators and Barriers to the Success of the Children with Special Needs Program Under Samagra Shiksha Abhiyan in Southern Districts of Karnataka

9.	**Valedictory Ceremony**

The conference concluded with a grand valedictory ceremony, marking the successful completion of an enriching and insightful event. All participants, including delegates, presenters, and attendees, were awarded **participation certificates** in recognition of their valuable contributions and engagement throughout the conference.

The organizers expressed their gratitude to the esteemed speakers, presenters, and delegates for their active involvement, which made the event a great success. The conference not only facilitated knowledge sharing but also fostered new collaborations and discussions that will drive the future of physiotherapy education and research.

With a commitment to continued learning and innovation, the event concluded on a high note, leaving participants inspired and motivated to contribute further to the field of physiotherapy.

The session ended with National anthem.

10. Highlights of the event including photos

The International Conference on Physiotherapy Education and Research was a remarkable success, bringing together experts, researchers, academicians, and clinicians to exchange knowledge, discuss innovations, and explore the future of physiotherapy education and practice. The event featured thought-provoking keynote sessions, groundbreaking research presentations, and engaging cultural activities.

DAY 1: SCIENTIFIC PRESENTATIONS & INAUGURAL SESSIONS

Morning Sessions: Expert Talks & Inauguration

- **Registration & Breakfast (8:00 AM – 9:30 AM)**
    - **Delegates gathered at the Silver Jubilee Auditorium (Ground Floor) for registration, followed by breakfast at the A.P.J. Abdul Kalam Hostel Basement.**
- **Scientific Keynote Sessions**
    - ***Dr. Bindu Balakrishnan & Dr. Vijaya Prakash – Neurophysiology and Physical Therapy Strategies in Parkinson's Disease: Bridging Science and Rehabilitation***
    - ***Dr. G. Arun Maiya – Exercise as Medicine in Chronic Conditions***
- **Tea Break (11:00 AM – 11:30 AM)**
- **Inauguration Ceremony (11:30 AM – 1:00 PM, Silver Jubilee Auditorium)**
  The conference was officially inaugurated by esteemed dignitaries, setting the stage for two days of academic and research excellence.
- **Lunch Break (1:00 PM – 2:00 PM, A.P.J. Abdul Kalam Hostel Basement)**

Afternoon Sessions: Paper & Poster Presentations (2:00 PM – 5:00 PM)

Expert Talks

- ***Dr. Jagatheesan Alagesan – Research Metrics: A Physiotherapy Perspective***
- ***Dr. Stefan Richelli – How Proprioception Influences Biomechanics and Pathology***
- ***Dr. Nikhil C H – Enhancing Recovery with Neuromodulation and Neuro Rehabilitation***
- ***Dr. Cynthia Srikesavan – Empowering Physiotherapists for Informed Care: Strategies for Success***

Scientific paper and poster presentations took place across multiple venues:

- **BC Roy Hall**
- **Seminar Hall – Physiotherapy**
- **Classroom 1 & 2 – Physiotherapy**

- **Skill Lab – CARE Building**

A total of 190 scientific presentations were delivered across categories including Undergraduate (UG), Postgraduate (PG), PhD, Academic, and Clinician, showcasing high-quality research in physiotherapy.

Additionally, 12 innovation presentations were conducted, highlighting groundbreaking ideas, new rehabilitation techniques, and advancements in physiotherapy technology.

DAY 2: ADVANCED SCIENTIFIC DISCUSSIONS & CULTURAL EVENTS

Morning Sessions: Expert Talks & Research Discussions

- **Keynote Scientific Sessions**
    - ***Dr. Ram Mani – Nociplastic Pain: Implications for Physiotherapy Assessment and Management***
    - ***Dr. Kavitha Raja – Integrating Artificial Intelligence in Community Physiotherapy Programs***
    - ***Dr. Sundar Kumar – Beyond Symptom Management: The Molecular Basis of Physiotherapy in Oncology***
    - ***Dr. K. Madhavi – Role of Advanced Technology in the Physiotherapy Profession***
- **Lunch Break (12:30 PM – 1:30 PM, A.P.J. Abdul Kalam Hostel Basement)**

CONCLUSION

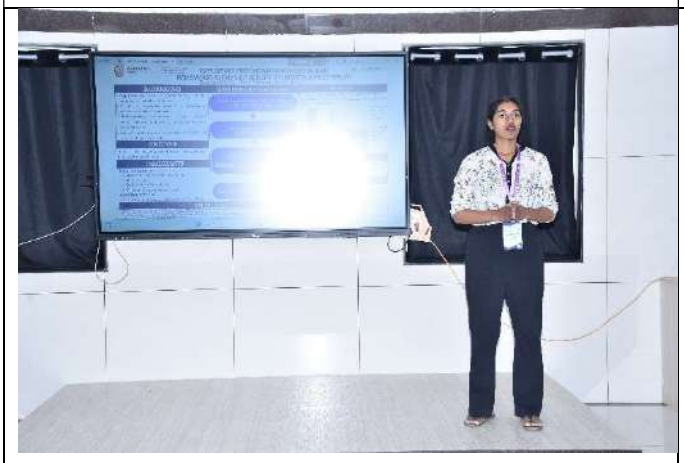

The conference successfully provided a platform for knowledge exchange, collaboration, and innovation in physiotherapy education and research. With a strong emphasis on scientific advancements, technological integration, and professional networking, the event inspired participants to contribute further to the development of physiotherapy as a profession.

EVENT REPORT

Name of the Event: **World Glaucoma Day celebration (18th March 2025)**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report - Ophthalmology
1	**Name & Level of Event –** World Glaucoma Day celebration**:** CME on ***"Practice patterns in Glaucoma"***
2	**Background / Introduction**
	*"**Glaucoma is a Silent Thief of Sight"*** continues to be a second most common cause for blindness in urban and rural population after cataract. It is a group of eye disorders that lead to progressive damage to the optic nerve, characterized by loss of nerve tissue resulting irreversible loss of vision. To tackle this problem, creating awareness among general population is very essential. On this global occasion and with the theme ***"Uniting for a Glaucoma Free World"*** department of Ophthalmology had organised a CME program on ***Practice patterns in Glaucoma*** highlighting the diagnosis, vis visual field interpretation, role of OCT & OCTA, medical and surgical management of the same which was a practical guideline for everyone.
3	**Venue –** B. C. William Oslers hall, SDUMC Kolar
4	**Sponsors –** SDUAHER, Tamaka, Kolar.
5	**Inauguration**
	• Welcome addresses and introduction by Dr. Sangeetha. T, Prof. & HOD of Ophthalmology, SDUMC. • Chief Guest – Dr. Vengamma Vice chancellor, SDUAHER
6	**Speaker/ Judges / Chairman / Panel Team**
	1. **Dr. Shilpa N** – *"Exploring the landscape of vision: Glaucoma and beyond: Interpretation of visual fields"* 2. **Dr. Raksha J Vaishnav –** *"Uncovering Glaucoma: The Role of OCT and OCTA*

	in diagnosis." 3. **Dr. Anuradha. A** – *"Pharmacological approaches in the management of Glaucoma."* 4. **Dr. Mohan kumar. H** – *"Navigating the surgeons touch"*
7	**Participants & Delegates in Number – 165** [Faculty, undergraduates, residents and optometry students of the academy had participated in this event]
8	**Awards / Prizes -** Certificate of participation was awarded to the speakers, faculty & residents
9	**Valedictory –** NA
	-
10	**Highlights of the events including photos - ENCLOSED**

Dr. Rachana second year resident from department of Ophthalmology welcomed the gathering and elaborated on the importance of ***"World Glaucoma Day celebration" with the theme "Uniting for a Glaucoma free world"*** as follows:

Melodious rendition by Dr. Omsaipriya, Dr. Archala and Dr. Bhavyashree to invoke the blessings of the almighty Lord followed by welcome address.

On behalf of the department Dr. Sangeetha. T paid respect to our late founder president, Jalappaji and welcomed everyone for this academic session commemorating the ***"World Glaucoma Week"*** from March 9th– 15th.

As a symbol of growth and prosperity our honorable vice chancellor, registrar and the esteemed guests watered the plant in the spirit of nurturing and fostering growth and success.

Next the MC introduced our honourable Vice Chancellor **Dr. Vengamma** to address the gathering who appreciated the department for organizing the CME in view of ***"Founder's centennial celebration."*** She highlighted the importance of glaucoma and also visual defects in neuro ophthalmic cases sharing her past experience from NIMHANS, Bengaluru.

Next the MC introduced the guest speaker **Dr. Shilpa N** Glaucoma surgeon from Astha Super specialty Eye Hospital, Bengaluru and invited to deliver the talk on ***"exploring the landscape of vision: Glaucoma and beyond: Interpretation of visual fields.*** Her talk enriched the audience knowledge about the interpretation of visual fields. There was active participation of Residents and faculty in different case scenarios.

Following the first session **Dr. Chandrashekar shetty** advisor of the Academy highlighted the importance of creating awareness about glaucoma at the community level and inspired the young ophthalmologists to be policy makers.

The next guest speaker was **Dr. Raksha. J. Vaishnav** from Nethradhama Super specialty eye hospital, Bengaluru who spoke in detail about the ***"Role of OCT and OCTA in diagnosis of Glaucoma, interpretation of images and case scenarios."***

Her suggestions and tips in handling such cases in all the phases was a well appreciated and the take home message was to always correlate clinically. This was followed by doubt clearing session that enriched our faculty.

The next guest speaker was **Dr. Anuradha. A** from Minto eye Hospital, Bengaluru emphasized the *"Pharmacological approaches in the management of Glaucoma"* and its adverse effects of drugs adding a note on newer drugs as well.

The next guest speaker was **Dr. Mohan Kumar H**, Professor and HOD of Dr. Chandramma Dayananda Sagar Institute of Medical Education and Research, Bengaluru. He emphasized in detail about the *indications and surgical approaches in the management of Glaucoma* and newer advances in the glaucoma surgeries.

Felicitation of the speakers by the department faculty

The session concluded by the organising secretary Dr. Inchara. N who thanked all the patrons for their constant support in conducting such academic sessions, guest speakers, faculty and undergraduates and residents for their active participation.

Afternoon session started with fun filled Quiz for residents on glaucoma conducted by Dr. Dr. Narendran B S, Assistant Professor. Prizes and certificates were distributed for the winners.

In today's complex healthcare environment, patient safety remains a top priority. Ensuring safe, high-quality care requires collaboration among healthcare professionals from diverse disciplines. Interprofessional education (IPE) plays a critical role in fostering teamwork, communication, and shared decision-making, ultimately enhancing patient outcomes and minimizing errors. This workshop is designed to bring together healthcare Professionals, educators, and students to explore the principles of interprofessional collaboration in patient safety. Through interactive discussions, case studies, and hands-on exercises, participants will gain insights into how teamwork, leadership, and effective Communication contribute to safer patient care.

The workshop, **" Inter-professional Collaboration(IPC) In Patient Safety"** was held on March 26th , 2025, at the MEU, 3rd floor, College Building, SDUMC. The event aimed to understand the significance of inter-professional collaboration in reducing medical errors and improving patient safety..

Key sessions included:

- **Dr N.T.Murali Mohan**: Importance of patient safety in health care
- **Dr.Sarulatha H**: Inter-professional Collaboration in patient safety need of the hour
- **Dr. K.N.V. Prasad**: Case discussions on role of IPC in patient safety.
- **Dr. Shobha MV & Dr. Ashwini K Shetty**: Develop IPC module to address different issues of patient safety.

- The interactive sessions enabled participants to gain practical insights into how teamwork, leadership, and effective communication contribute to safer patient care.

TAMAKA, KOLAR – 563 103

Department of Microbiology

Event Report Date: 2.4.2025

Name of Event: Antimicrobial resistance (AMR) workshop for MBBS students

Name of Department: Microbiology **Date of the event: 27.3.2025**

Sl. No.	Event Report
1.	**Level of Event –** Institutional; Faculty of Medicine; Workshop
2.	**Background / Introduction**
Antimicrobial resistance (AMR) has emerged as one of the principal public health problems of the 21st century that threatens the effective prevention and treatment of an ever-increasing range of infections caused by bacteria, parasites, viruses and fungi no longer susceptible to the common medicines used to treat them. Students play a crucial role in addressing this AMR crisis. As future healthcare professionals, they need to understand the impact of AMR and take action to prevent its spread. Hence, this event is organized to educate students, to promote responsible antibiotic use and hygienic practices and inspire future generations to take an active role in combating AMR. This event is part of the outreach initiatives undertaken by the National Centre for Biological Sciences (NCBS-TIFR) Bengaluru and Tata Institute of Genetics and Society (TIGS) Bengaluru	
3.	**Venue:** Joseph Lister hall, SDUMC, SDUAHER; **Date and time:** 27.3.2025 9 TO 4.30 PM
4.	**Sponsors:** SDUAHER
5.	**Inauguration:** The event commenced with welcome note by Dr. Sarumathi, the organizing secretary of the event who welcomed the dignitaries to the podium. The program began with a soulful song presented by Ms. Mridula, MBBS student to invoke the blessings of the divine. Dr. Sarumathi called upon Dr. Parimala S, organizing chairperson to welcome the gatherings. Dr. Parimala delivered welcome address for the dignitaries and greeted the distinguished guests and participants. She highlighted the significance of the event and set an enthusiastic tone for the proceedings. Dr. Sarumathi D invited the dignitaries to light the lamp and requested the dignitaries to deliver inaugural speech. Dr. Vengamma (Vice chancellor), Dr. Prabhakar K (Principal) and Dr. Krishnappa S delivered inaugural speech. They emphasized the emerging antimicrobial resistance crisis and motivated the participants to work together to curtail AMR. The inauguration ceremony concluded with a heartfelt vote of thanks by Prof. Dr. Muralidharan S, who expressed gratitude to all the dignitaries, participants, and organizers for their valuable contributions.
6.	**Speaker /Judges /Chairman /Panel Team** **Chairperson** Dr. Parimala. S, Professor and Head, Department of Microbiology **Organizing secretary** Dr. Sarumathi. D **Speakers:** 1. The Certificate of participation was provided to all the above students by the NCBS in digital formats

8	**Topics:** 1. Dr. Sathya, project associate with superheroes against superbugs and NCBS-APSI conducted group activity ' **Break the taboo: AMR edition'.** This interactive fun activity stimulated interested among the students about AMR. **2.** Dr. Dhanasekaran Shanmugam, Senior Principal Scientist (Biochemical Sciences Division) from CSIR-National Chemical Laboratory, Pune delivered a talk on '**Science of AMR and Surveillance Efforts of APSI'**

	3. Dr. James Daniel, Associate Professor, Department: Paediatrics, SDUMC, Kolar delivered talk on '**Clinical Battlefront: Challenges due to AMR in clinical settings**' **4.** Dr. Kavya S, Associate Professor, Department of Microbiology, Sapthagiri institute of Medical Sciences, Bangalore delivered a talk on **'Safe Zones &Watchful Eyes Antibiotic Stewardship and Antibiotic Policy'**
9	**Awards /Prizes and Valedictory** Quiz competition was conducted in two stages 1. **Google form:** Questions are prepared in google form and was shared with all the particpants to respond. Based on the scores obtained in this round, 30 students are shorlisted for the round-2 2. **Jeopardy Jamboree: Group Quiz :** Shortlisted 30 students are divided into 6 teams, 5 in each. Team 6 won the first place and team 1 and 5 both teams shared the second place. Winner and runner teams were awarded with certificates, books and chocolates by Dr. Parimala S and Dr. Muralidharan S.
10	**Vote of thanks** The event was concluded by thanking all the administrators, resource faculty, supporting staff and participants by Dr. Muralidharan. S
10	**Highlights of Events including Photos :**

Alliance for Pathogen Surveillance Innovations- India
APSI-India is a multi-cluster, multi-institutional collaborative network working to create sustainable solutions for environmental surveillance of disease causing pathogens in India.

University Library Learning Resource Centre

Date:10/4/2025

Sl. No.	Name & Level of Event: **Workshop on "How to Use Turnitin Tools- Plagiarism Check" on 01/04/2025 at Dr. B.C. Roy Seminar Hall, ULLRC, SDUAHER,** Institutional Level
1	Hands-on workshop on **"How to Use Turnitin Tools- Plagiarism Check" f**or Postgraduate students 2022-23 batch, SDUMC **by UNIVERSITY LIBRARY AND LEARNING RESOURCE CENTRE, SDUAHER**
2	**Background /Introduction**
	To commemorate the centenary celebration of Sri. R. L. Jalappa Founder Chairman, SDUAHER, Kolar, the University Library Learning Resources Centre SDUAHER, organized the workshop on **"How to Use Turnitin Tools- Plagiarism Check".** The program commenced with a welcome address by Dr. Shilpa M.D., Associate Professor, Department of Pathology, SDUMC and Library Committee Member. The workshop was formally inaugurated by Dr. (Prof.) B. Vengamma, Hon'ble Vice-Chancellor of SDUAHER, Kolar. In her inaugural speech, she emphasised the importance of understanding plagiarism, discussed its various forms, and elaborated on effective strategies to avoid it through proper citations, particularly in the context of Ph.D. theses and postgraduate dissertations. Dr. Prabhakar K. Principal, SDUMC, emphasised that plagiarism is the act of using someone else's work, ideas, or intellectual property without proper acknowledgement, thereby presenting it as one's own and it is regarded as a serious academic and ethical offence. Resources person Dr. Susann T.Y., Professor of Biochemistry, SDUMC, and Library Committee Member. She provided a detailed explanation of the types of plagiarism, the concept of similarity and paraphrasing, and highlighted the importance of avoiding plagiarism through proper citation practices. She explained the key attributes and guidelines laid down by the University Grants Commission (UGC) on plagiarism and emphasised the pivotal role of researchers in maintaining academic integrity by adhering to these regulations and avoiding unethical practices.

	Dr. Prakash, Assistant Professor/Senior Librarian, ULLRC, SDUAHER, provided a practical demonstration of the Turnitin tool. He explained the step-by-step process of: Creating and adding a class, setting up assignments and configuring submission settings, generating and accessing similarity reports Ms. Ashita Khandelwal, Customer Onboarding Consultant, Turnitin, India. She has covered key topics, including what constitutes plagiarism, various aspects and forms of plagiarism, and the role of Turnitin in supporting both students and faculty in maintaining academic integrity. Participants were guided on how to analyse and interpret Turnitin Similarity Reports, along with an understanding of acceptable similarity thresholds and strategies to effectively reduce similarity percentages in academic writing. A segment was also dedicated to AI detection and AI-generated report analysis, providing insights into how AI-generated content is identified. The importance of data security within the Turnitin ecosystem was also emphasised. Overall, the session was highly interactive and well-received by the participants, promoting awareness and best practices around academic honesty

VALUE ADDED COURSE- EVENT REPORT

Name of the event: "**Emergency Trauma Care and Resuscitation Training**"

Date of the event: 1ST APRIL -2025 to 3RD APRIL-2025

Name of the Department: Department of Emergency Medicine

Sl. No.	Name of the Event	Event Report
1	**Level of Event – Institution/ State/ National/ International**	**Institution level**
2	**Background/ Introduction**	The Department of Emergency Medicine is happy to inform you that we have conducted a '**Value added course**' on "**Emergency Trauma Care and Resuscitation Training**". Trauma remains the leading cause of death and disability among children and young adults, presenting significant challenges to healthcare systems around the world. Polytrauma represents one of the most challenging and urgent situations in trauma care. The Golden Hour is a critical period during which timely and effective intervention can dramatically improve patient outcomes. Trauma teams must act swiftly and decisively, utilizing their expertise to stabilize patients, prioritize care, and transfer them to specialized facilities for further treatment. The management of polytrauma requires a team approach, rapid decision-making, and a deep understanding of the complexities involved in caring for critically injured patients.
3	**Venue**	Skill lab, 3rd floor care building, SDUMC
4	**Sponsors**	SDUAHER
5	**Inauguration**	Faculty of Emergency Medicine
6	**Speaker/Judges/ Chairman/Panel Team**	The Presenters for the event were: - Dr. Rajesh.K Professor Department of Emergency Medicine SDUMC, Tamaka, Kolar Dr. Krishna Moorthy DGSR

		Associate Professor, Department of Emergency Medicine SDUMC, Tamaka, Kolar Dr. Devendra Prasad.K.J Associate Professor, Department of Emergency Medicine SDUMC, Tamaka, Kolar Dr. Chandra Keerthy Assistant Professor, Department of Emergency Medicine SDUMC, Tamaka, Kolar
7	**Participants & Delegates – Number with names**	Totally 41 participants were attended for this program. (Copy enclosed)
8	**Prize Distribution**	Nil
9	**Valedictory Ceremony**	Nil
10	**Highlights of the event including photos**	Department incharge and co-ordiantor of the course welcome the delegates and gave a brief overview of the value added course and its objectives. The department incharge highlighted the importance of the course for all undergraduates and postgraduates. The couse was conducted over a period of 30 plus hours with proper hands on training and simulation exercises. It also included quiz programme related to Trauma resuscitation and had practical exams at the end of the course. The delegates were given adequate study materials prior to the course and pre and post test was conducted. The delegates were actively involved by giving kahoot gaming quizes. The course ended with a very good feedback by all the delegates.

University Library Learning Resource Centre

Date:10/4/2025

Sl. No.	Name & Level of Event: **Workshop on "Selection of Journal for Research Publications" on 05/04/2025 at Dr. B.C.Roy Seminar Hall, ULLRC, SDUAHER,** Institutional Level
1	Hands-on training on **"Selection of Journal for Research Publications** for Postgraduate students 2022-23 batch, SDUMC **to familiarise** organised **by UNIVERSITY LIBRARY AND LEARNING RESOURCE, SDUAHER**
2	**Background /Introduction**
	To commemorate the centenary celebration of Sri R. L. Jalappa, Founder Chairman of SDUAHER, Kolar, the University Library Learning Resources Centre at SDUAHER organized a workshop on 'Selection of Journals for Research Publications The program commenced with a welcome speech by Ms. Shamala, Assistant Librarian, SDUCON, SDUAHER, Kolar. Dr. Prof. Muninarayana C., Hon'ble Registrar, SDUAHER, Kolar, inaugurated the workshop, emphasizing the importance of selecting appropriate journals for research publications. He discussed methods for identifying predatory and cloned journals, as well as recognizing genuine journals listed in SCOPUS, Web of Science, and the UGC CARE List using various tools. Additionally, he provided an overview of UGC and NMC norms related to publication and degree awarding Dr. Kalyani R. explained the process of selecting a journal that aligns with the article's title, research scope, and subject area, ensuring a proper match between the manuscript and the journal's focus. She also discussed journal indexing, noting that SCOPUS is the most widely recognized indexing platform, followed by Web of Science, DOAJ, EMBASE, and PubMed—each serving as an indicator of journal quality. Additionally, she outlined methods for verifying a journal's indexation. The workshop was led by Dr. Shilpa M.D., Assoc. Professor, Department of Pathology, SDUMC. Selecting the right journal for publishing medical research is crucial for visibility, credibility, and impact. Here's a brief overview of the process. Scope & Relevance, Indexing & Reputation, Impact Factor & Citations, Avoid Predatory Journals, Journal Guidelines & Review Process, **e**nsure the journal adheres to ethical standards, including COPE (Committee on Publication Ethics) guidelines Dr. Prakash, Assistant Professor/Senior Librarian, ULLRC, SDUAHER, briefed on practical steps, on SCOPUS, Web of Science, UGC CARE list, DOAJ and Journal Finder.

Name of Department; Department of student research committee

1.	**In Collaboration with:** Medical students association of India
2.	**Background / Introduction**: In today's evolving landscape of medical education, research plays a pivotal role in shaping analytical thinking, evidence-based practice, and innovation. Recognizing the growing need to cultivate research aptitude among undergraduate medical students, the Student Research Committee, in collaboration with the Medical Students Association of India (MSAI), organized a focused academic session titled "Research Bootcamp for the Undergraduates." The session aimed to provide students with early exposure to the principles of research methodology, scientific writing, and proposal drafting skills that are essential for academic growth and securing fellowships such as the ICMR STS.
3.	**Date:** 9th April 2025
4.	**Venue:** Joseph Lister hall, SDUMC
5.	**Organized by:** Student research committee in collaboration with MSAI - medical students association of India
6.	**Organizing chairperson:** Dr Vishwas S, Associate Professor, Department of Community medicine, SDUMC, Convenor, student research committee
7.	"Research Bootcamp for the Undergraduates" was successfully conducted with the objective of equipping undergraduate medical students with essential knowledge and skills in research methodology, scientific documentation, and proposal writing. The event witnessed active participation from students with an interest in pursuing research, especially those aiming for ICMR STS
8.	Session highlights 2:00 PM – 2:30 PM: Foundations of Research

Convener
Student Research Committee
SDUMC, Tamaka, Kolar-563103

The event commenced with a session by Dr. Sunil, I/C HOD, Dept. of community medicine who elaborated on the core principles of research. He provided a comprehensive introduction to the research process, covering topics such as the formulation of research questions, types of study designs, and hypothesis development. His session laid a strong conceptual foundation for the students

Dr. Sunil, I/C HOD, Dept. of Community Medicine, introducing the core principles of research

2:30 PM – 2:35 PM: Welcome Address

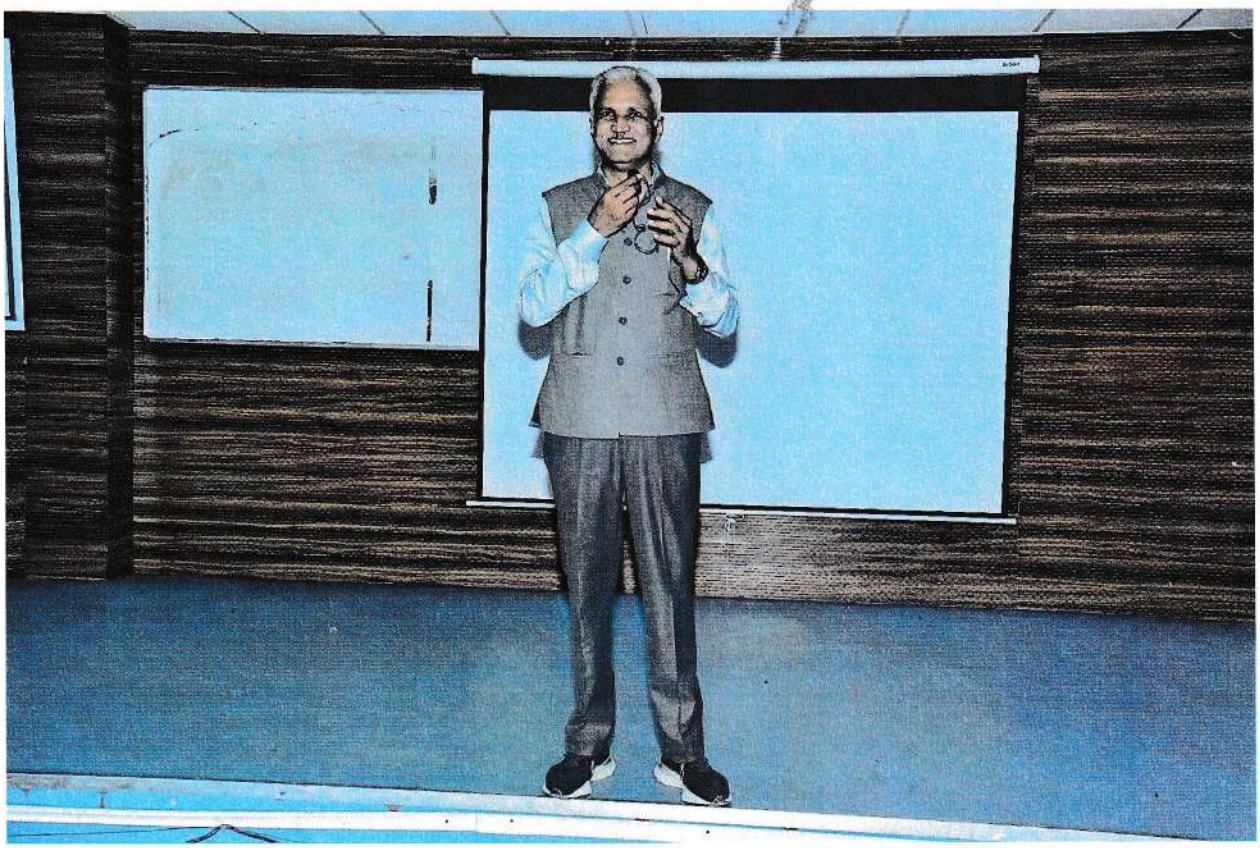

A formal welcome was extended to all delegates and speakers by Dr supreetha M S, assoc. prof, Dept of pathology, SRC Member, highlighting the objective of the session and the importance of inculcating research practices at the undergraduate level

2:35 PM – 2:50 PM: Chief Guest Keynote Address

The keynote address delivered by Dr Muninarayana C, registrar, SDUAHER emphasized the significance of ethical research, the growing role of evidence-based medicine, and the need for more undergraduate involvement in research projects. The keynote inspired the students to view research as a pathway for growth, innovation,

Convener
Student Research Committee
SDUMC, Tamaka, Kolar-563103.

and contribution to society.

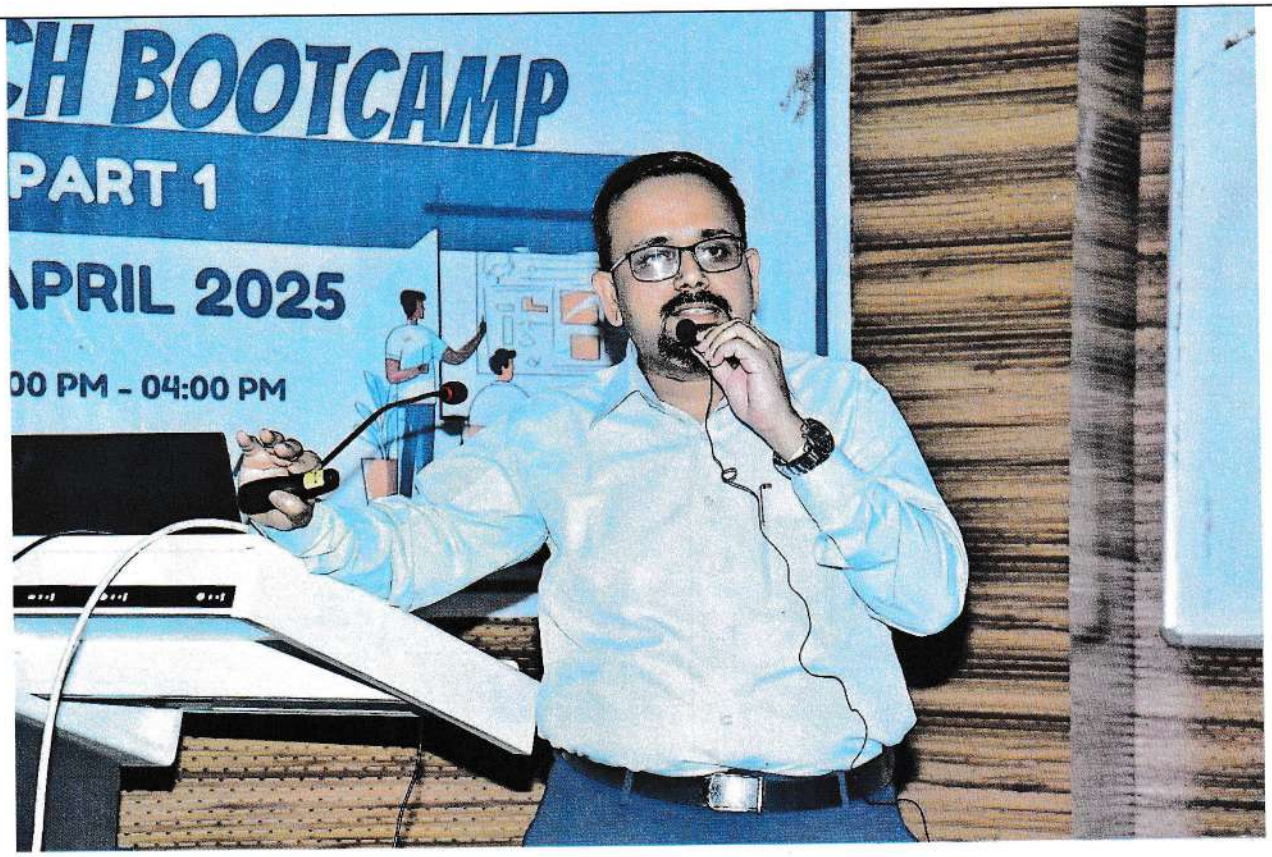

The keynote address delivered by Dr Muninarayana C, registrar, SDUAHER

2:50 PM – 3:30 PM: Essentials of Scientific Report Writing

Dr. Mahendra M, Assist. Prof, Dept of Community Medicine, AIIMS Patna, delivered a session on "Essentials of Report Writing." He covered the structure of a scientific paper, common mistakes in submissions, reasons for ICMR STS rejections, and key dos and don'ts in scientific writing.

Convener
Student Research Committee
SDUMC, Tamaka, Kolar-563103.

Dr. Mahendra M, Assist. Prof, Dept of Community Medicine, AIIMS Patna, delivering a session on "Essentials of Report Writing."

3:30 PM – 4:00 PM: Research Proposal Writing and Ethics

This session was conducted by Dr. Vishwas, Assoc Prof, Dept of Community medicine, SDUMC, Convenor, student research committee who spoke on the process of drafting effective research proposals. He also addressed the ethical considerations involved in research, including obtaining ethical clearance, maintaining participant confidentiality, and upholding scientific integrity.

Convener
Student Research Committee
SDUMC, Tamaka, Kolar-563103

Dr. Vishwas, Assoc. Prof., Dept. of Community Medicine, SDUMC, and Convenor, Student Research Committee, delivering a session on Research Proposal Writing and Ethics

4:00 PM – 4:30 PM: Interactive Discussion with ICMR STS Students

The final segment featured an interactive discussion with students currently undertaking ICMR STS projects,and other funded research projects facilitated by Dr. Mahendra M. They shared insights into their research journeys, report writing experiences, and submission challenges. Students actively participated, asking questions to clarify doubts and gain practical tips

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION & RESEARCH

TAMAKA, KOLAR – 563 103

Department of Microbiology and Infection prevention and control committee (IPCC)

Event Report

Name of Event: Induction workshop on Hospital infection control practices for newly joined PGs

Name of Department: Microbiology **Date: 22.04.2025**

Sl. No.	Event Report
1.	**Level of Event –** Institutional; Faculty of Medicine
2.	**Background / Introduction**

Infection prevention and control (IPC) is a critical component of patient safety and quality healthcare delivery. Hospitals are particularly susceptible to healthcare-associated infections (HAIs), which can lead to increased patient morbidity, extended hospital stays, and elevated healthcare costs. To address these challenges and reinforce best practices, the department of Microbiology and infection prevention and control committee (IPCC) organized an Induction Workshop on *'Hospital Infection prevention and control practices',* which aimed at equipping **newly joined postgraduate students (MD/MS) of 2024-25 batch** with essential knowledge and skills in infection prevention.

The workshop was designed to align with national and international standards for IPC, and covered key areas such as hand hygiene, use of personal protective equipment (PPE), biomedical waste management, spill management, Needle stick injury and antimicrobial stewardship. The program was planned for two days (10.4.2025 and 11.4.2025) to provide hands-on training and interactive sessions covering 165 students. The students were divided into 2 batches, batch 1 included 84 students (on 10.4.2025) and batch 2 included 81 students (on 11.4.2025).

By providing a structured and comprehensive orientation, the workshop sought to build a strong foundation in infection control practices among newly joined postgraduates, thereby enhancing the safety of both patients and healthcare providers across the facility.

3.	**Venue:** Department of Microbiology, SDUMC, SDUAHER
4.	**Sponsors:** SDUAHER
5.	**Inauguration:** The event was inaugurated by Medical superintendent Dr. Krishnappa J on 10.4.2025 and by Principal Dr. Prabhakar K on 11.4.2025
6.	**Speaker /Judges /Chairman /Panel Team**

Th

The scientific sessions were started at 9.15 am with pretest by Dr. Sarumathi.D, Infection control officer (ICO). The schedule of the program for two days is depicted below:

Time	Topic	Resource person

9.00-9.30 AM	Pre-test	Dr. Sarumathi and Infection control team
9.30-10.00 am	Welcome address	Dr. Parimala S
	Inaugural speech	Dr. Prabhakar K, Principal; Dr. Krishnappa J, Medical Superintendent
10-11.15 AM	Introduction to healthcare associated infections and care bundles, Biomedical waste management, Biomedical waste segregation	Dr. Sarumathi D
11.15-11.30 AM	Tea break	
11.30-12.15 PM	Needle stick injury	Dr. Arvind N
12.15 -1 PM	Antimicrobial stewardship and antibiotic policy	Dr. Parimala S
1 PM-2 PM	Lunch break	
2 to 4 PM	**Practical session** **Team 1:** Dr. Parimala S, Mrs. Uma (ICN), Mrs. Bharathi (ICN), Mr. Muniraju **Team 2:** Dr. Sarumathi D, Ms. Mala, Mr. Naveen, Mrs. Geetha **Team 3:** Dr. Arvind N, Mrs. Martha Shirley, Mr. Arun, Dr. Munmun **Team 4:** Dr. Sulaiman, Dr. Niveditha, Mrs. Devika, Mr. Sai srvan kumar	1. Hand hygiene 2. Spill management 3. Biomedical waste segregation practices **4.** Donning of Doffing of Personal protective equipments **5.** Blood collection procedure

Introductory remarks

Healthcare associated infections, Care bundles and biomedical waste segregation

Dr. Sarumathi D, resource faculty for this session initiated with pictures of wrong infection control practices at healthcare. She explained standard precautions and transmission based precautions with special emphasis on judicious use of personal protective equipment to be used at various scenario. She displayed images of care bundle forms, tracking registers etc. and encouraged the students to be compliant in filling those forms.

Refreshment break was given for 15 minutes in morning.

Needle stick injury (NSI):

Dr. Arvind Natarajan, resource faculty for this session elaborated on prevention and management of NSI and blood and body fluid exposure. The participants was trained about the preventive measures at first and emphasized about DO's and DONT's after needle stick injuries and blood & body fluid exposure. They were also educated on timing of Post exposure prophylactic drugs (PEP) and its impact.

Antimicrobial stewardship and Antibiotic policy

Dr. Parimala S discussed about antimicrobial stewardship and various strategies done to curtail injudicious use of antibiotics in our hospital. She displayed antimicrobial use surveillance forms and restricted antimicrobial usage forms and stressed the importance of properly filling the forms. Test request forms are shown to the participants and the imporatance of each components of the form was emphasized. Antibiogram and Antibiotic policy was described in brief.

	<u>Practical sessions</u> **Station 1:** Hand Hygiene The facilitators of each team explained the need and importance of Hand hygiene in detail with demonstration followed by Hands on sessions by all students with facilitators. **Station 2:** Standard precautions and Personal protective equipment (PPE) The facilitators of each team discussed sequence of donning and doffing Personal Protective equipment in detail with demonstration followed by Hands on sessions were done by all students with supervision of facilitators. **Station 3:** Biomedical waste management The guidelines and protocols on Biomedical waste management provided by Government of India, emphasizing on appropriate segregation in color coded containers were explained first following which Hands on session on disposal of BMW was done in small groups with facilitators by using simulated BMW and the color coded containers. **Station 4:** Blood and body fluid spill management The facilitators of each team provided hands on demonstration on spill management by creating real time scenario in their respective halls. **Station 5: Blood collection procedure** The participants were trained about procedure for collection of blood for blood culture investigation. Ms. Geetha listed out step by step procedure for collection of specimen. She mentioned optimum volume of blood to be collected. She also mentioned about existing wrong practices for blood culture at our hospital. At the end of all sessions and, Post test was conducted The training was concluded by thanking all the administrators, resource faculty, supporting staff and participants by Dr.Sarumathi.D.
7.	Participants & Delegates – Number with names: 165 participants & 7 Resource faculty and 6 infection control nurses and 2 technicians

GUEST LECTURE EVENT REPORT

Name of the event: Training and protocol implementation in "Stroke protocols and Thrombolysis in stroke"

Date of the event: 11th April 2025

Name of the Department: Department of Emergency Medicine

Sl. No.	Name of the Event	Event Report
1	**Level of Event – Institution/ State/ National/ International**	**Institution level**
2	**Background/ Introduction**	Stroke remains one of the leading causes of disability and death globally, with India facing a significant burden due to its rapidly growing aging population and changing lifestyle factors. Timely intervention is crucial to minimizing brain damage and improving outcomes in stroke patients, making the application of stroke protocols and thrombolysis a central aspect of stroke care. This session on "Stroke Protocols and Thrombolysis in Stroke" aims to provide healthcare professionals with a comprehensive understanding of the latest developments in stroke management. The session will delve into the importance of recognizing stroke symptoms early, following structured protocols for diagnosis and treatment, and optimizing the use of thrombolysis therapy to dissolve blood clots and restore cerebral circulation. Through this CME, participants will gain insights into the challenges and advancements in stroke care in India, where timely thrombolytic treatment is often hindered by delays in diagnosis, limited infrastructure, and access to specialized care. We will explore the evolving guidelines, case studies, and practical approaches to managing stroke patients in both urban and rural settings. while India is making progress in stroke management, challenges remain in terms of accessibility, awareness, and infrastructure to fully implement stroke protocols and thrombolysis therapy across the country.

3	**Venue**	Dr. B. C. Roy hall, Library building, SDUMC
4	**Sponsors**	Nil
5	**Inauguration**	Nil
6	**Speaker/Judges/ Chairman/Panel Team**	The speaker for the event were: - **Guest Speaker** Dr Harsha.K.J MD, DM Consultant & Head, Stroke & Neurointerventions, Brains super speciality Hospital, Bangalore
7	**Participants & Delegates – Number with names**	Totally 49 participants were attended for this program. (Copy enclosed)
8	**Prize Distribution**	Nil
9	**Valedictory Ceremony**	Nil
10	**Highlights of the event including photos**	The event was started with the welcome address delivered by Dr. Rajesh.K highlighting importance of implementing stroke protocols and creating awareness about Management of Stroke. The Guest speaker highlighted the importance of early Thrombolysis in ischemic strokes and enlightened about various modalities in the early management of the same. Dr.Venkatarama, Chief Neurosurgeon, Brain Superspeciality Hospital, Bangalore also added his valuable insights about stroke management and complications associated with the same. The program was attended by honourable vice chancellor Dr. Vengamma Madam, who also shared her valuable experiences and cleared the apparitions with regards to bleeding manifestations post thrombolysis of ischemic stroke patients. The Dean and Principal, Medical superintendent, Deputy Medical superintendent, Professors and faculty from Department of Medicine, Anaesthesiology and Radiology along with their PG's and Junior doctors attended the event. The session ended with a very good interaction by chairpersons and other faculties.

EVENT REPORT

Name of the Event: **World Optometry Day (12 April 2025)**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report- Ophthalmology
1	**Name & Level of Event –Institutional Level World Optometry Day Celebration: Guest lecture and Workshop** on "Pediatric Amblyopia"
2	**Background / Introduction**
	Pediatric Amblyopia is commonly known as "Lazy Eye". This condition, which affects visual development during the formative years, requires early detection and targeted intervention to ensure that every child can reach their full visual potential. On this global occasion and with the theme "**Eyes to the Future: Optometry Improving Global Wellness**" department of Ophthalmology had conducted a Guest Lecture and Workshop on Pediatric Amblyopia on 12th April 2025
3	**Venue –** Ophthalmology Seminar Hall, PG Block, 1st floor, SDUMC Kolar
4	**Sponsors –** SDUAHER, Tamaka, Kolar.
5	**Inauguration**
	Welcome address and introduction by Mrs. Shakeela B, Optometrist/Lecturer Department of Ophthalmology, SDUMC.
6	**Speaker**
	Mr. Diwakar Rao, Professor & HOD, Vittala College of Optometry, Bengaluru
7	**Participants & Delegates in Number – 40** [Faculty, residents and optometry students of the academy had participated in this event]
8	**Awards / Prizes -** Certificate of participation was awarded to the participating faculty
9	**Valedictory –** NA
	-

10	**Highlights of the events including photos** - ENCLOSED

Mrs. Shakeela B an Optometrist from department of Ophthalmology welcomed the gathering and elaborated on the importance of **"World Optometry Day celebration"** *with the theme* "**Eyes to the Future: Optometry Improving Global Wellness**" as follows:

Melodious rendition by **Dr. Archala** to invoke the blessings of the almighty Lord

Dr. Himateja delivered the welcome address

MC introduced the guest speaker **Mr Diwakar Rao**, Professor and HOD, Vittala College of Optometry, Bengaluru and invited to deliver the talk followed by Hands on Workshop on ***"Pediatric Amblyopia"***.

His talk enriched the audience knowledge about the latest advancements in management and treatment of Pediatric Amblyopia. He delivered an engaging and informative presentation covering, clinical features, assessment, diagnosis and management.

There was active participation of Residents and faculty and Students in the Workshop. He also Demonstrated the recent advancements in Amblyopia Management and Vision Therapy like Brock's String, T V Trainer, Accommodative Flippers, Stereocards, etc.

Event Report

Name of the Event: National Hybrid CME
College: Sri Devaraj Urs Medical College
University: Sri Devaraj Urs Academy of Higher Education and Research
Date: 16.04.2025

Sl. No.	Particulars
1.	**Level of Event**: National Level
2.	**Background / Introduction**: Department of Biochemistry this CME which highlighted latest advances and importance of AGING. As an insight and in a motto of establishing a subspecialty laboratory in Aging and longevity under the banner of Sri Devaraj Urs Academy of Higher Education and Research, this CME was planned. The Eminent speakers from all major departments related to aging are hereby invited for their inputs and support. Aging shall be Cellular or Metabolic. The CME emphasizes on the causes and consequences on both the types of aging with management of the same.
3.	**Venue**: BC Roy Hall, 1st Floor Library Building Zoom link: https://zoom.us/j/98183394122?pwd=w6lw3nSJfLJH51lwQjI4KCKXeCBNuZ.1 Meeting ID: 981 8339 4122 Passcode: 556738
4.	**Sponsors**: SDUAHER and MERT
5.	**Proceedings:** 9:00AM -9:30AM registration and photo session. Dr. Shilpi and Dr. Ankita Kumari PG/Tutor Department of Biochemistry were the Master of Ceremony. At 9:30AM Dr. Shilpi started the program by inviting the 1st speaker and alumnus of the college Dr. Anitha Kota Shenoy, Assoc. Prof of Biomedical Sciences, USA. Speaker stressed upon longevity research and molecules related with. The correlation of medicine with spirituality was the highlight which is present day scenario. Dr. Shashidhar KN, Prof. Department of Biochemistry chaired the session. 10.30AM the session was ended. **Inauguration** at 10:35 AM with the invocation by Dr. Shilpi PG/Tutor, Department of Biochemistry, Dr. Prabhavathi K, HoD and Professor Department of Biochemistry addressed the gathering with Welcome note by briefing about the speakers and their talk on today's topic. All the dignitaries were called upon for watering the plant. Dr. Prabhakar. K, Principal SDUMC highlighted on aging. The Registrar highlighted about the care to be given to the geriatric age group in different circumstances. Honorable VC madam, Dr. B Vengamma joined the CME online and deliberated on common neurological ailments encountered by the Geriatric population. After the official inaugural ceremony tea break was given for all the delegates. The program resumes from 11.30AM. **Speakers:** 2. Dr. Anil S Bilimale, Associate Professor, Chief Coordinator, School of Public Health, JSS Medical College, JSS AHER, Mysuru. The speaker is expertise in longevity with funded projects of 79.5 crores from DHR and ICMR. The link between medicine and AYUSH was deliberated in the 2nd session. 3. Dr. Nileena NKM, Associate Consultant at SRMC and Nithra Institute of Sleep Sciences, Chennai. The interactive session on sleep and geriatric psychiatry was started at 12.45PM. The unique presentation had case scenarios which made the delegates answer the slides. Madam's deep understanding on the subject

	made the session important and essential for clinicians and general population too. Lunch break was called for after the 3rd session at 1.30PM. 4. CME was resumed at 2.00PM with session by Dr. VS Hari Neurosurgeon at RL Jalappa Hospital and Research Centre. His expertise as FRCS highlighted the important surgeries during minor neurological damages in aging. 5. The next session was a talk on legal rights of Geriatrics by Dr. NK Sudhindra Rao, Chairman of Police Complaints Authority, Karnataka from 2.35PM. The excellent narration with suitable examples for each acts and policies were worth listening. 6. Dr. Ashima Badyal, Associate Professor, Department of Biochemistry, GMC Jammu, J&K India talk on the Gerascophobia was interesting to be concentrated in Geriatric age group. The fear of aging was stressed upon and the solutions were deliberated which every clinician must know.
6.	**Conclusive remarks:** The CME elucidated raising concern among Aging from all fields. There were discussion regarding research and collaboration with Dr. Anitha and Anil Bilimale. Dr. Shashidhar KN also stressed upon linking with fluorosis for further MoU.
7.	**Participants & delegates:** A total of 151 delegates participated in the event
8.	**Prize Distribution**: The delegates certificates were distributed during valedictory .
9.	**Valedictory Ceremony**: The CME was concluded with Vote of Thanks by Ms. P. Sharon Rose followed by hi- tea at 4.15PM
10.	**Highlights of events including photos** As an insight and in a motto of establishing a subspecialty laboratory in Aging and longevity under the banner of Sri Devaraj Urs Academy of Higher Education and Research, this CME was planned. The Eminent speakers from all major departments related to aging are hereby invited for their inputs and support. As conclusive remarks Aging shall be Cellular or Metabolic with spiritual modalities. The CME emphasized on the causes and consequences on both the types of aging with management of the same.

2.	Background/ Introduction
Leadership is more than just a title, it's about influence, teamwork, and the ability to drive positive change. In healthcare, strong leadership is critical at every level, and it's never too early to start nurturing these skills. This interactive workshop is designed for educators in health sciences, helping them integrate leadership training into undergraduate programs. The objectives of the workshop 1. Develop a clear understanding of leadership in the context of healthcare education. 2. Learn practical strategies to teach leadership skills to undergraduate students. 3. Explore assessment tools and best practices for evaluating leadership competencies. 4. Design effective and engaging leadership training activities.

University Centre for Health Professions Education

This one-day interactive workshop equipped educators in health sciences with effective strategies to teach and assess leadership skills among undergraduate students. The session startrd with a warm welcome and an engaging icebreaker to set a collaborative tone. Dr. Sarulatha H set the context with a talk on the importance of leadership in healthcare. This followed with insights on practical methods for teaching leadership to undergraduates by Dr. K.N.V. Prasad. Dr. Zeanath Cariena J introduced tools and best practices for assessing leadership competencies. Post-lunch, Mr. Lokheshwar S presented a session on creating impactful leadership training modules and the participants were engaged in a hands-on group activity focused on developing a leadership training modules. The workshop concluded with reflections and a photo session. This event provided a valuable learning experience for faculty aiming to nurture future healthcare leaders.

Sl. No.	**Name & Level of Event :** **Institutional Level**
1	**"Orientation Course For Interns" by Medical Education Unit, SDUMC, Kolar.**
2	**Background /Introduction**
	The Intern Orientation was conducted by Department of Medical Education Unit, SDUMC, SDUAHER, Kolar at Institutional level on **16th April 2025** between 9 am to 4 pm in the PG auditorium University building SDUAHER Kolar, under the guidance of Dr. T.N.Suresh, Convener, with Dr. Parimala, Member of Medical Education Unit, SDUMC as organizing secretary. The programme started at 9 am with registration. Dr.T.N.Suresh welcomed Principal, Dr.Prabhakar . K and congratulated the students for having completed the MBBS course. He spoke about the role of a medical graduate in clinical practice and the objectives for the orientation programme. Pretest was conducted. This was followed by a session on introduction to Internship by our Dean/Principal Dr.Prabhakar K . He congratulated the students for completion of MBBS and emphasized on fixing goals and working towards it. He gave an orientation to the skills, discipline, ethics required during internship. He spoke about interpersonal skills and emphasized on attitude of interns towards the patients, and punctuality. Dr Krishnappa J Medical Superintendent and Professor of Pediatrics explained about the roles and responsibilities of Interns and gave few suggestions regarding the attitude , behavior and usage of mobiles in the hospital premises. Dr Sagayaraj A, Professor in the department of ENT ,discussed about the importance of documentation in medical practice. He briefed on common mistakes in documentation and emphasized on the importance of medical records and their legal aspects. Dr.Ruth Sneha C, Associate Professor, Department of psychiatry, discussed about the need to have good communication and behavioral skills to improve the rapport with the patient, which in turn would help in better management of the patients. She discussed the concepts of sympathy and empathy through videos. Dr Prakash Dave, Professor & HoD, of Surgery discussed about professionalism

No.SDUMC/KLR/MEU/02/2025-26 Date: 28-04-2025

	and integrity of a medical graduate in medical field. After the lunch break Dr. Raj Kumar M.G, Associate Professor of Forensic Medicine, spoke about medical ethics and the importance of autonomy, situation analysis and application of the principle of beneficence and Nonmaleficence in handling ethical issues related to patients. He also emphasized on the concept of Medical negligence. Dr Rashmi, Professor of Ophthalmology explained about the rational in drug therapy with a clinical vignette and encouraged interns to have a clear idea about the diagnosis, rational and the cost before prescription a drug. Further Dr Bhuvana.K, Professor of Pharmacology discussed on Pharmacovigilance and briefly describing about the commonly encountered drug reaction. Finally the programme was concluded by a talk given by Dr. Arvind Natarajan , Professor of Microbiology on the Guidelines to laboratory investigation wherein he discussed about the different sections in Central diagnostic laboratory and the tests done by them and procedure of the sample processing and reporting. This was followed by post test and feedback by Dr Parimala S.

ABOUT THE SESSION

Medical Radiological and Imaging Technologists have expertise in handling advanced Radiological equipment in the field of patient in service delivery sectors. They have wider career opportunities across the Globe. The competencies developed in handling advanced machines like X-ray, CT and MRI are highly employable. Hence, this seminar enlights the awareness among students in global perspectives.

WHO SHOULD ATTEND ?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

1. Opportunities to work as X-Ray, CT and MRI technologist in Multi-speciality hospitals.
2. Opportunities to work as Application specialist in leading manufacturer companies like Philips, Siemens, Toshiba etc.
3. Opportunities to work as Radiographer in overseas like Qatar, Saudi, UAE, UK etc.
4. Opportunities to work as Sonographer in Australia and New Zealand.
5. Scope for Higher Education and Research.

Event: Monthly seminar

Date: 24-04-2025

Venue: C.V Raman Auditorium III Floor, SDUAHER.

Time: 11.00 AM to 12 Noon

Resource Person: Mrs Monika Reddy,

Assistant Professor, Ramaiah University of Applied Sciences, Bangalore

Topic: Global Impact of Medical Radiology and Imaging Technology

Event: Inaugural function

The following dignitaries presided over the function:

- Mrs Monika Reddy, Assistant Professor, Ramaiah University of Applied Sciences, Bangalore
- Dr. C. D. Dayanand, Professor. & Head, School of Allied Health Science.
- Dr. Deena C Harper, Associate Professor, School of Allied Health Science.

Invited Guest:

Mrs Monika Reddy, Assistant Professor, Ramaiah University of Applied Sciences, Bangalore

Guests of Honour:

SRI G. H. NAGARAJA Chancellor, SDUAHER & Chairman SDUET Kolar

SRI. J. RAJENDRA, Vice President, SDUET, Kolar

SRI. K. G. HANUMANTHA RAJU, Secretary, SDUET

- Mr. Naveen K
- Mr. Sabeer S
- Ms. Shalini S
- Ms. Byrisetty Madhavi
- Ms. Shakeela B
- Ms. Nithyasri N
- Mr. Franklin John

- The event commenced with a warm welcome by Abhirami, 2nd year MRIT, Student, who expressed the pleasure of hosting the 4th Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Mr. Akash T, Lecturer/Course coordinator of MRIT, School of allied health science, SDUAHER introduced the chief guest.

Speaker: Mrs Monika Reddy, Assistant Professor, Ramaiah University of Applied Sciences, Bangalore

Topic: Global Impact of Medical Radiology and Imaging Technology

Rapporteur report:

This seminar enlights the awareness among students in global perspectives and competencies developed in handling advanced machines like X-ray, CT and MRI are highly employable.

1. Diagnostic Accuracy and Early Detection

    - Enhanced Diagnostic Accuracy: Medical imaging technologies such as X-rays, CT scans, MRI, and ultrasound provide detailed images of the body's internal structures. This detail enables more accurate diagnosis of conditions ranging from fractures to complex diseases like cancer.

    - Early Detection: Imaging technologies allow for the early detection of diseases, including cancers, cardiovascular diseases, and neurological disorders. Early detection improves prognosis and survival rates.

2. Advances in Treatment and Management

    - Treatment Planning: Detailed imaging is critical for planning surgeries, radiation therapy, and other interventions. It helps in precisely targeting diseased tissues while sparing healthy ones.
    - Minimally Invasive Procedures: Imaging-guided interventions, such as angioplasty and image-guided biopsies, have reduced the need for open surgeries, leading to faster recovery and less risk.

3. Public Health and Accessibility

    - Global Health: Imaging technology contributes to global health initiatives by helping track and manage infectious diseases, providing crucial information during epidemiological studies, and aiding disaster management.
    - Remote Access: Teleradiology and mobile imaging units improve access to radiological services in remote and underserved areas, thereby helping to bridge gaps in healthcare resources.

4. Conclusion:

    Overall, medical radiology and imaging technology continue to be integral to modern healthcare systems, providing crucial support for diagnosis and treatment. As technology evolves, it presents opportunities for improving global health outcomes while also presenting challenges that need to be addressed to ensure equitable access and ethical use worldwide.

- Mr. Akash T, Lecturer/Course coordinator of MRIT, School of allied health science, SDUAHER gave vote of thanks

- The resource person was handed over certificate of appreciation

- Raised for National Anthem.

Sl. No.	Event Report- Department of Pharmacology
1	**Name & Level of Event Name of Event: "CME –Drug Targets in Therapy"** **National level**
2	**Background / Introduction**
	CME on **"Drug Targets in Therapy"** was conducted on 25-04-2025 from 9.00am to 01:30pm at William Osler Hall. Programme commenced with the first speaker Dr KNV Prasad. He explained how childhood obesity is a major public health concern and a precursor to adult non-communicable diseases (NCDs) emphasizing the need for prevention strategies during prenatal life, infancy and childhood period. Dr. Belinda George delivered an insightful talk on Obesity management highlighting the various options available to reduce weight. She explained the extent of weight reduction with lifestyle modifications (exercise and diet) and medications. She explained about the older and newer drugs like Semaglutide (GLP-1 analogue) and Tirzepatide (GLP-1+GIP agonist) in management of obesity. Dr. Lavanya SH focused on the current trends in the treatment of osteoporosis. She explained the role of anti-resorptive and anabolic drugs used in the treatment of osteoporosis. She pointed that anabolic drugs followed by anti-resorptive drugs will help the patients for better quality of life. Dr. Srinivasa C, Rheumatologist discussed the challenges encountered in treatment of Rheumatoid arthritis. He explained the role of various drugs used in rheumatoid arthritis. He emphasized that early diagnosis and treatment with disease modifying anti-rheumatoid drugs will help in prevention of deformities. He expressed the myths associated with the treatment of this condition and how it is a hindrance to remission. All the speakers addressed the queries raised by the participants.

Academic Year: 2025-2026

Sl. No	Event Report
1	**Name & Level of Event**
	State level CME on "World Intellectual Property Rights Day" celebrated on 26/4/'25
2	**Background / Introduction**
	Intellectual Property Rights (IPR) is legal protections granted to creators and inventors to safeguard their original works, inventions, and brands. These rights enable individuals and businesses to control the use of their intellectual creations and to benefit financially from them. Understanding and respecting intellectual property rights is essential in today's knowledge-driven economy. To create awareness of this every year 26th April is celebrated as "World Intellectual Property Rights Day" all over the country. In view of the above, the Intellectual Property Rights Cell and Research and Development Cell of SDUAHER, organized State level CME on "World Intellectual Property Rights Day" on 26th April,2025.
3	**Venue**
	BC Roy Hall, SDUAHER
4	**Sponsors**
	SDUAHER & MERT
5	**Inauguration**
	Chief Patrons: 1) Dr. Muninarayana C, Registrar, SDUAHER. 2) Dr. Prabhakar K, Dean, Faculty of Medicine, SDUAHER.
6	**Speakers / Judges / Chairman / Panel Team**
	Resource Person: 1) Dr. Kalyani R, Director, Research & Development cell, SDUAHER. 2) Dr. Manthan D Janodia M. Adjunct Faculty, IPR Cell, SDUAHER

	3) Dr. Harsh Pangi, Founder, Patent agent – Indian Patent office **Judges for Poster and Paper Competation:** 1) Dr. Srikanth C, Associate Professor of Pediatrics, SDUMC, Kolar. 2) Dr. Vimarshitha, Associate Professor of OBG, SDUMC, Kolar. 3) Dr. Soumya, Assistant Professor of Biochemistry, SDUMC, Kolar. 4) Dr. Ruth Sneha, Associate Professor of Psychiatry, SDUMC, Kolar.
7	**Participants & Delegates in Number**
	• 100 participants [Faculties and PhD Scholars from Faculty of Medicine, FAH & BS, SDU College of Nursing, RLJ College of Pharmacy]. • IPR organizing team and R & D committee members.
8	**Awards / Prices**
	1. Best Poster for Dr. Lavanya, Assistant Professor of Pediatrics 2. Best Paper for Dr Bharghavi Final Year Postgraduate of Pediatrics and Mr Nephi Jones S from Department of Speech Pathology and Audiology
9	**Valedictory**
	At the end of the workshop, the Certificates were distributed to the delegates and organizers by Dr. Kalyani R, Dr Venkateshwara Raavi and Dr Sangeetha T.
10	**Any Other Information**
	Enclosed the highlights of the event including photos

The event commenced by a brief introduction of the program by Dr. Meera who invited Dr Sangeetha T for the introductory talk on the purpose and importance of ***"World Intellectual Property Rights Day"*** celebrated globally on 26th April.

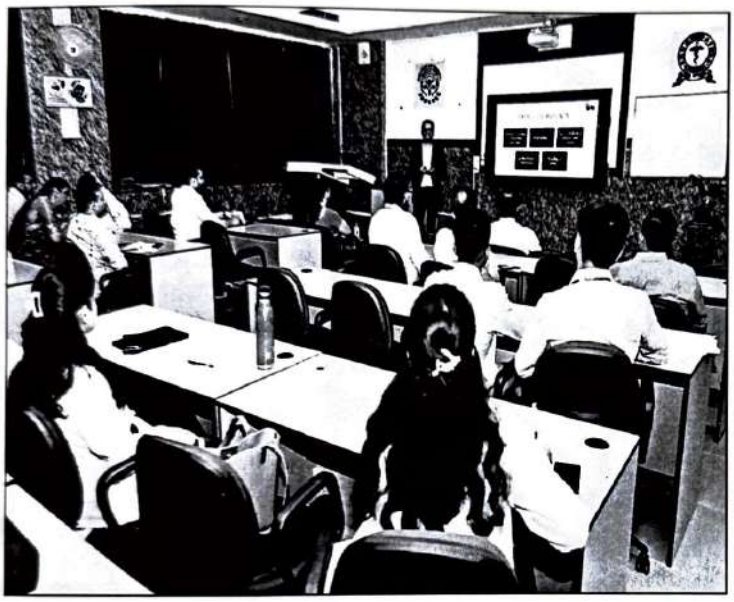

This was followed by first session when Dr Narendra, Assistant Professor of Ophthalmology, SDUMC introduced the speaker Dr. Kalyani. R, Director R & D for her talk on ***"Intellectual Property Rights in medical Sciences".***

In the next session Dr. Harsh Pangi sensitized the audience on **IPR** with the following key points:

- Criteria for granting a patent – Novelty, Utility, Unobvious or non-obvious
- How is patent search done
- Comparison of different IP forms
- Design – requirements for registration of design

This session was followed by inuagural event.

Melodious rendition by the IPR cell member, **Mr. Abhijith,** Assistant professor from the Speech pathology & Audiology department to invoke the blessings of the almighty Lord.

Next the MC invited **Dr. Kalyani R, Director, Research** & Development cell, SDUAHER welcomed all the patrons, committee members and gathering for the workshop.

The MC invited all the esteemed guests to water the plant in the spirit of nurturing and fostering growth.

Our respected Registrar **Dr. Muninarayana. C** and Dean Faculty **Dr. Prabhakar. K** was invited to address the gathering.

The dignitaries Dr. Muninarayana. C and Dr. Prabhakar felicitated the distinguished guest speakers

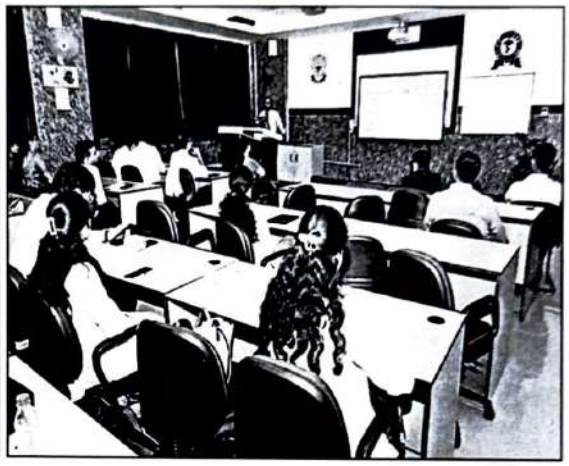

Mr Bharath, co-organizing secretary introduced Dr Dr. Manthan D Janodia the next speaker.

Dr. Manthan D Janodia continued with his next session sensitizing the audience on **IPR** with the following key points:

- **Trade marks**
- **Copyrights**
- **"Open Forum: Inquiries and Insights"**- Q&A session between the Resource Person and the Delegates.

In the next session Dr. Harsh Pangi continued to sensitize the audience on ***"IP protection strategies for medical innovations: opportunities and challenges"*** with the following key points:

- Types of medical innovations and IP framework in India
- Unique challenges for Indian medical innovators
- Practical IP strategies for innovators

His enlighten talk was followed by an exciting interactive doubt clearing discussion by the delegates with the speaker.

After the insightful session Dr. Karthik welcomed all the judges and initiated the research paper and poster presentations by faculty and residents.

Dr. Lavanya.

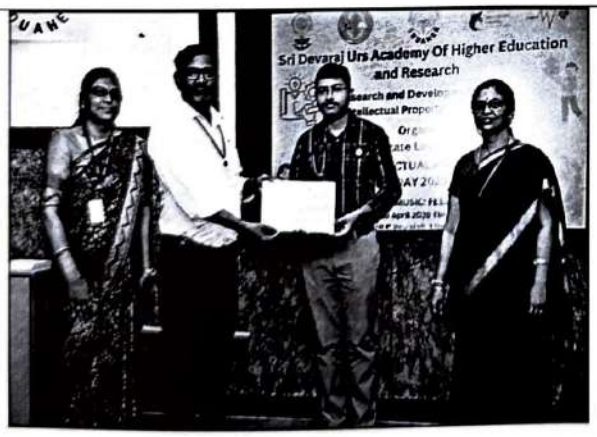

Dr Vishaka

Dr Swethamrutha Dr. Nephi jones

Felicitation of the judges of poster and paper presentations in the program by the IPR committee members

Dr. Srikanth

Dr. Vimarshitha

Dr Ruth Sneha

Dr Soumya N

The session was concluded by vote of thanks delivered by **Dr. Karthik. S**, Co-organizing Secretary, IPR Cell, SDUAHER.

National level event	
2.	**Background/ Introduction**
On the occasion of the Post-Conference Workshop on Fascial Manipulation, the R.L. Jalappa College of Physiotherapy once again demonstrated its unwavering commitment to excellence in physiotherapy education and global collaboration. Held on the 27th of April 2025, this workshop brought together international expertise and local enthusiasm, offering participants a transformative learning experience under the guidance of renowned fascial therapy expert **Kobi Weiss**. Through a perfect blend of theory and hands-on practice, the event enabled students and professionals to delve deeper into the complexities of deep fascia and its role in chronic pain management. The workshop served as a vital platform for evidence-based clinical training and skill development, reinforcing the institution's vision to empower physiotherapists with innovative, patient-centered approaches. This landmark initiative not only enriched the knowledge base of attendees but also highlighted the college's leadership in advancing physiotherapy practices in India and beyond.

10. Highlights of the event including photos

On the 27th of April 2025, the R.L. Jalappa College of Physiotherapy, a constituent college of SDUAHER, hosted a significant post-conference workshop titled **"Introduction to Fascial Manipulation: A Closer Look at Deep Fascia as the Source of Pain."** This workshop was part of the **Karnataka PHYSIOCON 2025** International Physiotherapy Conference and took place at the **Medical Education Unit, Medical College 3rd Floor, Kolar, Karnataka**.

The day began with the ceremonial **lamp lighting at 9:00 AM**, graced by distinguished dignitaries including **Dr. Muninarayana**, Registrar of SDUAHER; **Mr. Kobi Weiss**, Founder of Feel Mobility Clinic, Israel and instructor at the Stecco Institute of Fascial Manipulation; **Dr. Senthil Kumar E**, Principal & HOD of R.L. Jalappa College of Physiotherapy; and the organizing team.
The event commenced with an inspiring address by **Dr. Muninarayana**, who emphasized the evolving role of fascia-focused physiotherapy and the importance of global knowledge exchange in strengthening clinical skills and patient care in India.

Renowned international expert **Kobi Weiss** conducted the hands-on workshop, providing participants with a comprehensive understanding of deep fascia as a critical source of pain. His sessions were rooted in the principles of the Stecco method of Fascial Manipulation, combining theoretical frameworks with practical applications.

The workshop included:

- Detailed insights into fascial anatomy and the role of deep fascia in musculoskeletal pain.
- Interactive demonstrations of fascial assessment techniques.
- Hands-on training where participants actively practiced palpation, point localization, and manipulation strategies under Kobi's guidance.

This immersive learning experience offered a unique opportunity for students, academicians, and clinicians to refine their manual therapy skills and deepen their understanding of fascial dynamics in clinical physiotherapy.

A delicious lunch was served at **1:00 PM**, offering participants a chance to network and share their reflections on the workshop. The program concluded with **high tea at 4:00 PM**, followed by a **valedictory function** in which **Kobi Weiss was felicitated** with a token of appreciation for his invaluable contribution to physiotherapy education.

This international-level workshop served as a landmark event in bridging the gap between conventional physiotherapy practices and emerging fascial science. With Mr. Weiss's expert mentorship, the attendees left empowered with innovative assessment and treatment strategies aimed at addressing chronic pain and improving patient outcomes.The R.L. Jalappa College of Physiotherapy once again demonstrated its unwavering commitment to fostering global collaboration and advancing physiotherapy education in India.

Report 1: Poster Competition – April 24, 2025

Date: April 24, 2025
Event: Poster Competition
Venue: [Venue details can be added if available]
Participants: Undergraduate students, interns, and postgraduate students
Media Coverage: Present

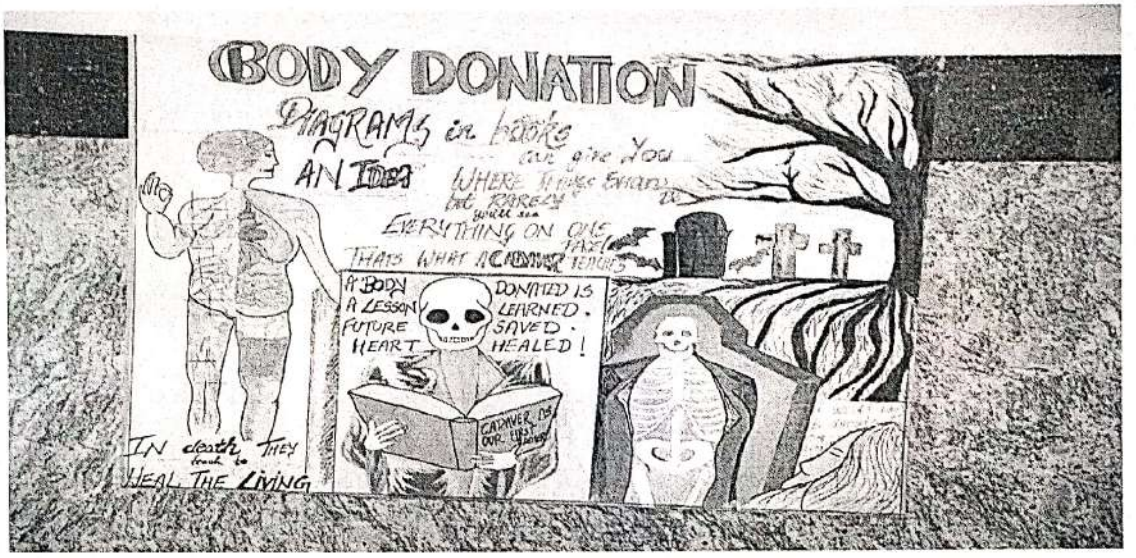

A **Poster Competition** was organized on April 24, 2025, as a precursor to the upcoming CME on Body Donation Awareness. The competition saw enthusiastic participation from students across various disciplines. Posters focused on themes related to **body donation, organ donation, and blood donation,** highlighting the significance of these noble acts in medical education and healthcare.

Scanned with OKEN Scanner

The event served as a platform for students to creatively express the value and impact of body donation. Entries were evaluated by a panel of judges based on **originality, content accuracy, and presentation**. Winners were awarded certificates and prizes to encourage ongoing engagement with socially relevant healthcare topics.

The event received positive feedback from participants and attendees alike. It helped generate curiosity and initiate dialogue among students, laying a strong foundation for the awareness activities that followed in the subsequent week.

Organising Committee Report: CME on Awareness of Body Donation & Poster Competition – April 2025

The **Poster Competition (April 24, 2025)** and the **CME on Awareness of Body Donation (April 28, 2025)** were conceptualized, planned, and executed under the exemplary leadership of a dynamic and dedicated organizing team from the **Department of Anatomy, Sri Devaraj Urs Medical College (SDUMC), Kolar.** The success of these events was the result of meticulous coordination, shared vision, and tireless effort by the organizing committee.

Organising Chairman:

Dr. Ashwini N.S.
Professor & Head, Department of Anatomy, SDUMC
As the **Head of the Organizing Team,** Dr. Ashwini N.S. provided strategic direction and intellectual leadership throughout the planning and execution stages. Her passion for medical education, ethical body donation, and social awareness shaped the academic and humanitarian tone of the event. Under her guidance, the program balanced scientific integrity with social responsibility.

Dr. Ashwini was instrumental in conceptualizing the theme, framing the content of the awareness programs, and ensuring inter-departmental collaboration. She played a central role in liaising with dignitaries, including **Dr. Mahantesh Ramannavar** and **Mr. Auto Raja**, and overseeing every aspect of the event to ensure its success.

Organising Secretary:

Dr. Shantharam
Professor, Department of Anatomy, SDUMC

As the **Organising Secretary**, Dr. Shantharam coordinated logistics, scheduling, and communication across all teams. He played a vital supporting role in event management, overseeing poster submissions, coordinating the judging process, and helping design the awareness campaign materials. He handled critical tasks such as venue arrangements, guest coordination, and resource allocation. His calm and methodical approach ensured that the timeline of the event was adhered to, with each segment unfolding smoothly.

Co-Organising Secretary:

Dr. Azra Mubeen Karnul
Professor, Department of Anatomy, SDUMC

Dr. Azra s attention to detail and proactive follow-ups ensured all participants were well-informed and engaged.mShe delivered the vote of thanks for the event.

Scanned with OKEN Scanner

Joint Organising Secretaries:

- **Dr. Shashidhar**
- **Dr. Venkateshu K.V.**
- **Dr. Poulomi Banik**

These three joint secretaries were pivotal in **task delegation, coordination with student volunteers**, and **management of specific sessions** across both events.

- **Dr. Shashidhar** took charge of managing the student outreach, helping maximize participation in the poster competition.
- **Dr. Venkateshu K.V.** focused on public engagement activities, including the awareness program at RLJH, and oversaw media interactions.
- **Dr. Poulomi Banik** helped design and execute the student session with Dr. Mahantesh Ramannavar, ensuring an academic yet engaging format for attendees.

Each of these faculty members contributed significantly by bringing their expertise and enthusiasm to various segments of the event.

Organising Committee Members:

The core organizing team was supported by a dedicated group of **organising committee members**, including:

1. Dr. Bhagath V

2. Dr. Shiva Kumar B C

3. Dr. Somashekar S

4. Dr. Gagan Kumar H A

5. Dr. Vadhu Chetana R

6. Dr. Sravani V

7. Dr. Jashwanth D

8. Dr. Dharani R U

9.Dr. Ruthvik K Gatti

These members coordinated logistics such as poster competition , venue, seating, catering and refreshments, photography, and maintaining decorum during events. Their seamless behind-the-scenes work ensured that both the poster competition and CME progressed without disruption.

Winners of the competition were announced and certificates were distributed

Report 2: CME on Body Donation Awareness – Inaugural Ceremony (April 28, 2025, 11:00 AM–1:00 PM)

Date: April 28, 2025
Time: 11:00 AM to 1:00 PM
Venue: Silver Jubilee Auditorium
Chief Guests: Dr. Mahantesh Ramannavar and Mr. Auto Raja
Media Coverage: Present

The **CME on Body Donation Awareness** commenced with a grand inaugural ceremony on April 28, 2025, at the Silver Jubilee Auditorium. The event was graced by **Dr. Mahantesh Ramannavar**, a noted advocate for medical education and ethical body donation, and **Mr. Auto Raja**, a renowned social worker, both of whom were **felicitated** for their contributions to society.

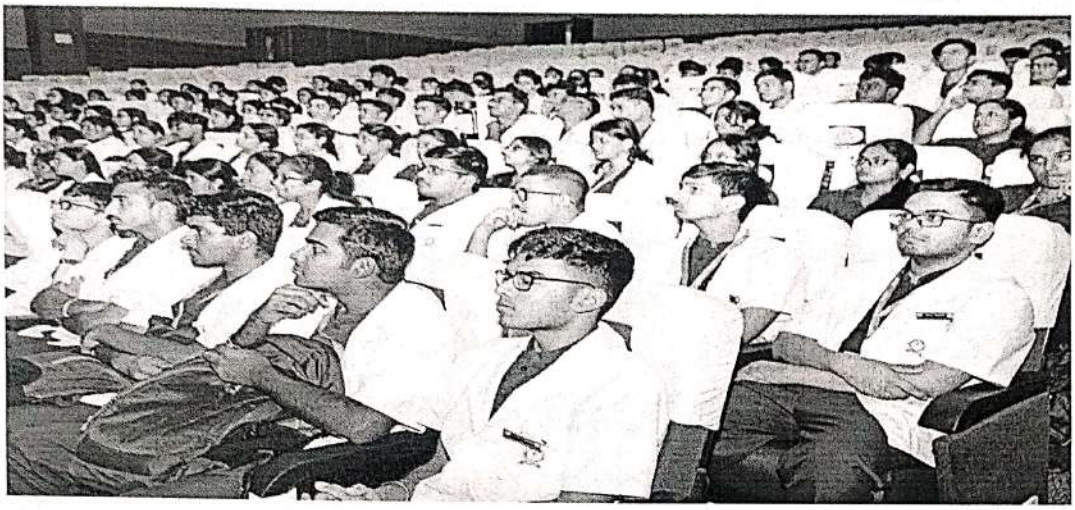

The inauguration was marked by welcome speeches, a brief overview of the event's objectives, and presentations on the importance of body donation in anatomical sciences. **Body donors and their families were honored**, recognizing their immense contribution to medical education. **Non-teaching staff** involved in cadaver management and logistics were also **felicitated** for their dedicated service.

Scanned with OKEN Scanner

The event witnessed **active participation from faculty, students, and staff**, and was well-covered by local media, highlighting the institution's commitment to social responsibility and ethical medical practices.

The **CME on Awareness of Body Donation**, organized by the **Department of Anatomy, SDUMC (Sri Devaraj Urs Medical College), Kolar**, was inaugurated on April 28, 2025, in the **Silver Jubilee Auditorium** of the college. The event, aimed at raising awareness about body donation for medical education, was a grand success, attracting a distinguished audience of dignitaries, faculty, students, and media representatives. It was a truly memorable occasion marked by significant speeches, awards, and the release of a special **Body Donation Logo** called **Akshaya Jyothi**.

Welcome Address:

The event began with a **Welcome Address** by **Dr. Ashwini N.S., Professor & Head of the Department of Anatomy and Dr Shantharam, Organising Secretary , Professor of Anatomy** at SDUMC, Kolar. In her speech, Dr. Ashwini emphasized the importance of body donation as a critical contribution to **medical education** and **scientific advancement**. She spoke passionately about the need for more people to come forward to pledge their bodies for the cause of education, noting that body donors serve as silent heroes for the future of

Scanned with OKEN Scanner

medicine. Dr. Ashwini also highlighted the aim of the CME, which was to create greater awareness and inspire more people to support this noble cause.

Her address set the tone for the day, fostering a sense of respect and responsibility toward the act of body donation.

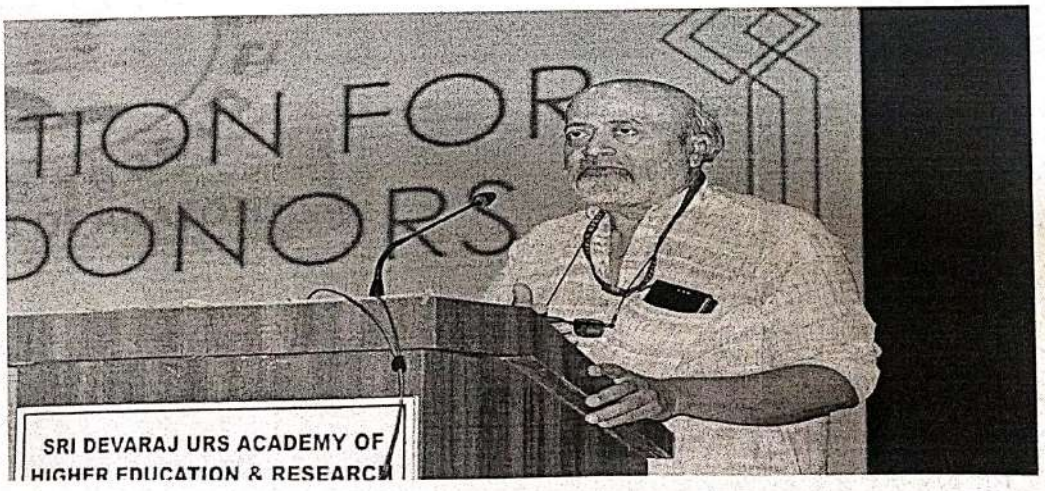

Felicitation of Dignitaries and Body Donors:

Following the welcome address, the ceremony moved into the **felicitation segment**, where **dignitaries and body donors** were honored for their valuable contributions.

- **Dr. Mahantesh Ramannavar**, the chief guest, was felicitated for his ongoing work in promoting medical education and body donation awareness.
- **Mr. Auto Raja**, a renowned social worker and philanthropist, was also honored for his work in raising awareness about social causes, including body donation.

The **Body Donors** and their families were specially recognized for their noble contributions to medical science. Their selfless donations play an indispensable role in advancing the understanding of human anatomy and supporting the training of future doctors.

Scanned with OKEN Scanner

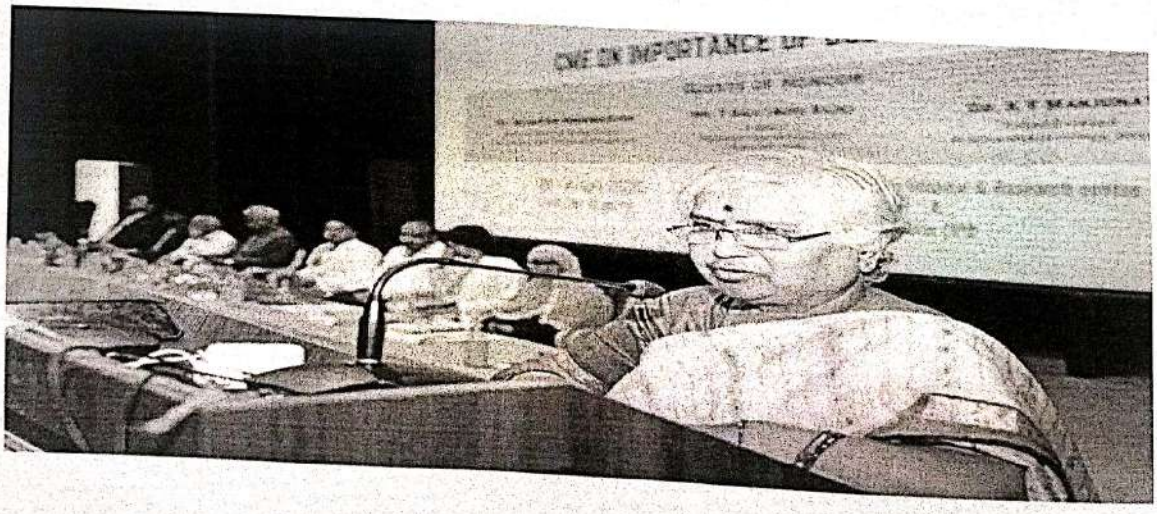

The body donors, who had courageously pledged to donate their bodies for medical education, were presented with **certificates of appreciation** and **mementos**, acknowledging their remarkable gift to society.

Speeches by Dignitaries:

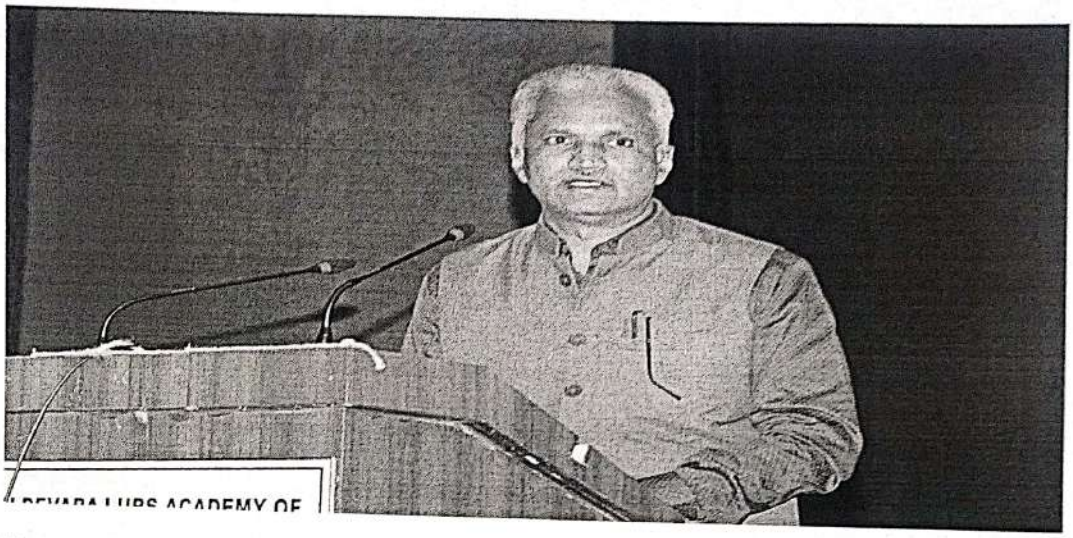

The inaugural ceremony saw a series of **inspirational speeches** by the esteemed dignitaries:

- **Dr DVLN Prasad , Chief Administrative Officer** sent a message and acknowledged the team for conducting a program that focused on the **academic impact** of body donation in medical schools, explaining how it aids in the practical training of students and enriches their theoretical understanding. He further wrote how academic institutions are working to integrate body donation into their curricula to benefit future healthcare professionals.
- **Vice Chancellor (VC) Dr Vengamma B** expressed her deep gratitude toward the body donors and their families. She stressed the importance of body donation in medical education, highlighting how such selfless acts contribute to creating skilled doctors who can better serve society.She also acknowledged the efforts of the organizing team and the college in hosting the event.

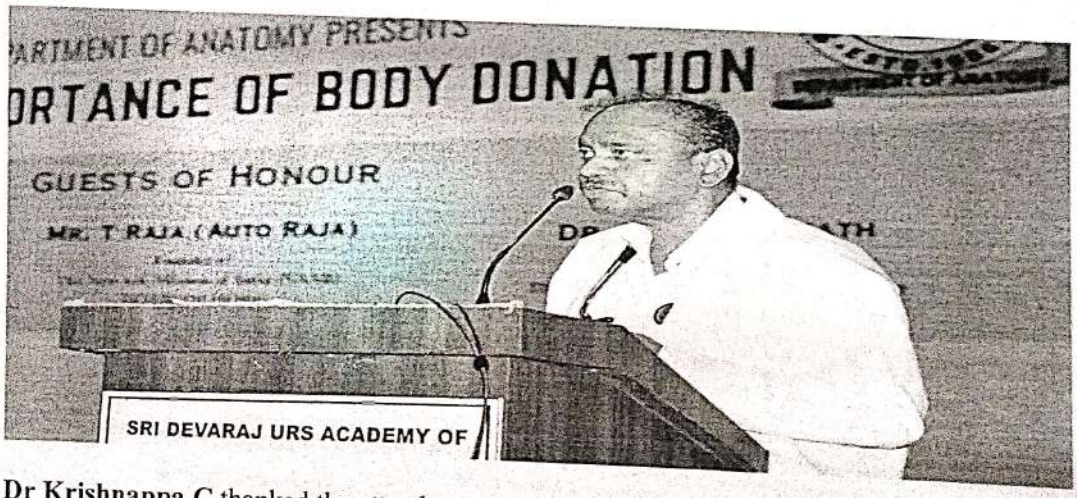

Scanned with OKEN Scanner

- **Registrar, Dr. Muninarayana C**, spoke about the role of **medical institutions** in creating awareness about body donation and the **legal and ethical frameworks** surrounding the donation process. He also thanked the donors for their courage and emphasized the lasting impact of their contributions.

- **Principal, Dr. Prabhakar K** , highlighted the **ethical dimensions** of body donation and how it enables students to understand human anatomy more effectively, which in turn improves patient care in the future. He also spoke about the growing need to involve the community in such initiatives to bridge the gap between medical professionals and society. He also emphasized the importance of research in the field of **anatomical sciences** and how body donations contribute significantly to the advancement of medical research. He also expressed his appreciation for the vision behind the CME and the long-term goals it set in promoting body donation.

- **Dr Krishnappa C** thanked the attendees and acknowledged the **collective efforts** of the organizing committee and faculty members in making the event a success. He reaffirmed the institution's commitment to **integrating ethical medical education** with community outreach.

Scanned with OKEN Scanner

- **Vice Principal, Dr. Vinutha Shankar,**
- **Director of Research & Development (R&D), Dr. Kalyani R ,**
- **Director of Academics, Dr. Sarala N**

Chief Guest Speeches:

- **Dr. Mahantesh Ramannavar**, the chief guest, delivered an impactful speech in which he acknowledged the importance of **body donation** and its role in building **future generations of healthcare professionals**. He expressed his admiration for the body donors, describing them as **true philanthropists** whose contributions go beyond life. He also advocated for a shift in societal attitudes toward body donation, emphasizing its ethical importance in the field of **medical education** and its potential to save lives through **organ donation**.

- **Mr. Auto Raja**, in his speech, expressed his support for initiatives such as these, acknowledging the value of **human resources** in healthcare. He highlighted the need to raise **public awareness** and break societal taboos surrounding body donation. His speech was both motivating and encouraging, urging the audience to consider the **legacy** that can be created through such noble actions.

Scanned with OKEN Scanner

Release of Body Donation Logo – Akshaya Jyothi:

A key highlight of the inauguration was the **official release of the Body Donation Logo**, named **Akshaya Jyothi**. The logo was unveiled by **Dr. Ashwini N.S.** and **Dr. Mahantesh Ramannavar**, symbolizing the light and hope brought by body donors to medical science. The logo will be used in future campaigns to promote body donation and to remind the public of the **immeasurable value** of these donations to the medical community.

Body Donors Speech:

Following the felicitation, a **body donor** family shared their personal experience of how they came to the decision to donate. The speech was both moving and inspiring, offering a **firsthand perspective** on the emotional and ethical considerations behind the decision to donate one's body. The family spoke about the **gratitude** they felt knowing their loved one's body would contribute to improving medical education, and they urged the audience to consider this noble gesture.

Scanned with OKEN Scanner

Media Coverage:

The inauguration was **well-covered by the media**, with local newspapers, television channels, and digital platforms reporting on the event. The media's coverage helped amplify the importance of body donation, ensuring that the message reached a wider audience and contributed to the ongoing dialogue surrounding organ and body donation.

The **Inaugural Ceremony of the CME on Awareness of Body Donation**, held at **SDUMC, Kolar**, was an overwhelming success. The event brought together an esteemed group of dignitaries, faculty, students, body donors, and the community in a shared commitment to advancing **medical education** and **public awareness**. The inspiring speeches, heartfelt felicitation of body donors, and the launch of the **Akshaya Jyothi Logo** served as a powerful reminder of the immense contribution of body donation to the medical field. With the support of all stakeholders and the media's coverage, the event was a significant step forward in promoting the noble cause of body donation

Report 3: Awareness Program – RLJH Cubicle, 2nd Floor Lounge (April 28, 2025, 12:30 PM–1:30 PM)

Date: April 28, 2025
Time: 12:30 PM to 1:30 PM
Venue: RLJH Cubicle, 2nd Floor Lounge
Audience: Public, hospital visitors, and staff
Media Coverage: Present

An **awareness program** on body donation was held in the **RLJH cubicle, 2nd floor lounge**, from 12:30 PM to 1:30 PM on April 28, 2025. This session targeted the **general public and hospital staff**, aiming to dispel myths and educate attendees about the process and importance of body donation.

Information desks, pamphlet distribution, and one-on-one interactions with faculty volunteers helped facilitate a meaningful dialogue. Attendees were encouraged to ask questions and express their concerns, and many appreciated the effort to **make medical knowledge more accessible to the public**.

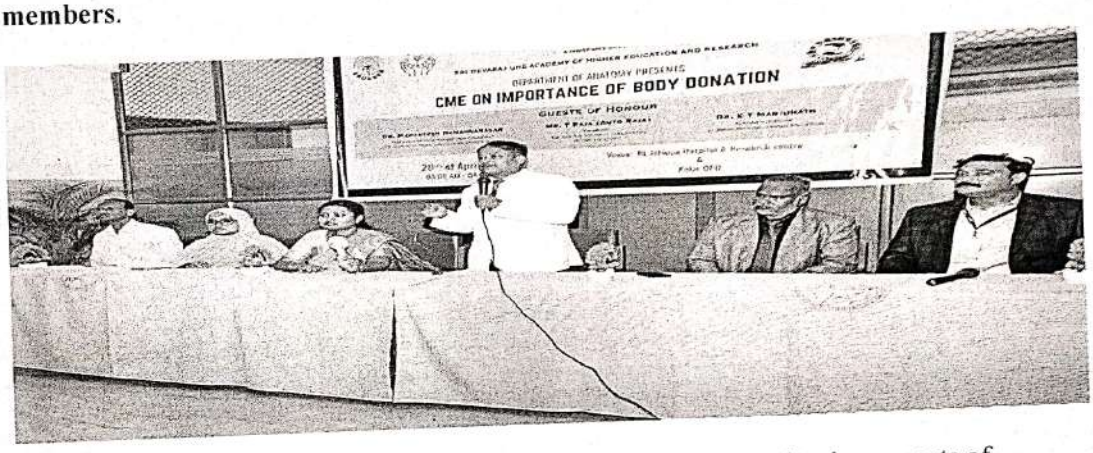

The interactive setup ensured a **high level of engagement**, and the media presence further amplified the reach of the message beyond the institutional walls.

Report 4: Student Session by Dr. Mahantesh Ramannavar – April 28, 2025, 2:00 PM–4:00 PM

Date: April 28, 2025
Time: 2:00 PM to 4:00 PM
Speaker: Dr. Mahantesh Ramannavar
Audience: Medical students and faculty
Media Coverage: Present

In the afternoon session of the CME held on April 28, 2025, **Dr. Mahantesh Ramannavar** delivered an impactful lecture to medical students on the themes of **body donation, organ donation, and blood donation**. The session was held from 2:00 PM to 4:00 PM and was well-attended by **undergraduate and postgraduate students, interns, and faculty members**.

Dr. Ramannavar emphasized the **ethical, educational, and humanitarian** aspects of donation and shared real-life experiences to inspire and motivate the student audience. The interactive Q&A session allowed students to delve deeper into legal, emotional, and procedural aspects of the donation processes

The session concluded with a strong message on the **responsibility of future doctors** to not only understand but also advocate for these life-saving acts. The event was covered by the media, contributing to broader community awareness.

	University level
2.	**Background/ Introduction**
Leadership is more than just a title, it's about influence, teamwork, and the ability to drive positive change. In healthcare, strong leadership is critical at every level, and it's never too early to start nurturing these skills. This interactive workshop is designed for educators in health sciences, helping them integrate leadership training into undergraduate programs. The objectives of the workshop 1. Develop a clear understanding of leadership in the context of healthcare education. 2. Learn practical strategies to teach leadership skills to undergraduate students. 3. Explore assessment tools and best practices for evaluating leadership competencies. 4. Design effective and engaging leadership training activities. To accommodate faculty members from other departments who could not attend the initial session, the workshop was re-conducted on 3rd May, ensuring inclusive participation and interdisciplinary engagement.

This one-day interactive workshop equipped educators in health sciences with effective strategies to teach and assess leadership skills among undergraduate students. The session started with a warm welcome and an engaging icebreaker to set a collaborative tone. Dr. Vinutha set the context with a talk on the importance of leadership in healthcare. This followed with insights on practical methods for teaching leadership to undergraduates by Dr. K.N.V. Prasad. Dr. Zeanath Cariena J introduced tools and best practices for assessing leadership competencies. Post-lunch, Mr. Lokheshwar S presented a session on creating impactful leadership training modules and the participants were engaged in a hands-on group activity focused on developing a leadership training module. The workshop concluded with reflections and a photo session. This event provided a valuable learning experience for faculty aiming to nurture future healthcare leaders.

Sl. No.	Name & Level of Event : **"Synopsis writing Workshop for the First year Postgraduate students for 2024-25 Batch on 09-05-2025 at William Osler Hall, 1st floor, SDUMC, Kolar** Institutional Level
1	Synopsis writing Workshop for the First year Postgraduate students for 2024-25 Batch by Medical Education Unit & Student Research Committee , SDUMC, Kolar
2	**Background /Introduction**
	The program started with **welcome speech** by Dr Suresh T N, Coordinator, MEU & Professor & HOD, Department of Pathology, SDUMC, followed by introductory remarks by Dr Prabhakar, Dean / Principal, SDUMC where he highlighted the importance of Postgraduates knowing about the basic aspects of writing synopsis, dissertation and research paper. The first session was on **Synopsis outline and selection of title** by Dr. Sarala N, Director of Academics and Professor of Pharmacology. She discussed about the components of the synopsis and explained the characteristics of the study title. Dr Geetha S, Professor, Department of Physiology discussed on the **need for the study** wherein she discussed about definition, importance, sources, characteristics of a research problem and derive at the problem statement and explain the need for the study. Dr Suresh T N explained briefly about **review of literature**. He discussed various aspects of need for review of literature, sources for literature search. He also described the quality indicators of journal and differentiate various levels of research evidence. He described how to perform literature search in PubMed and steps in the review of literature. He also discussed on **Reference writing**. He discussed briefly on writing journal and book references in Vancouver style. Post tea session was on **Research hypothesis & Objectives** by Dr Sudha Reddy V R, Director PG Studies & Professor & HOD , Department of Paediatrics, SDUMC, She briefly highlighted about developing research question/s and Formulating Objectives and discussed about applying FINER, SMART and PICOT criteria. The next session was on writing of **materials and methods – designing a study, application of inclusion & exclusion criteria** by Dr. Pradeep T.S, Associate Professor, Dept. of Community Medicine. Following this Mr. Ravishankar S Assistant Professor, Dept. of Community Medicine discussed on **Sample size calculation, application of basic statistical Analysis, and statistical tests** in research work. Last session was on **Ethics in research** by Dr. Chaitra M.C , Associate Professor, Department of Ophthalmology & Member Secretary (SRB). She discussed about various aspects of ethics in research and importance of informed consent. Post lunch all the postgraduates were divided into 16 groups. Moderator was assigned to each group wherein they discussed about their individual synopsis. The session ended with feedback and Post Test

Sl. No.	**Event Report**
1	**Title of the Event:** Seminar on "Body Composition Analysis and Lifestyle Approaches" **Date:** 19th May 2025 **Time:** 10:00 AM **Organized by:** R. L. Jalappa College of Pharmacy, SDUAHER, Tamaka, Kolar-563103
2	**Background / Introduction** The seminar on "Body Composition Analysis and Lifestyle Approaches" was organized with the objective of creating awareness among students about the importance of maintaining optimal body composition through evidence-based lifestyle modifications. With increasing prevalence of lifestyle-related disorders, the seminar aimed to educate students on the interconnection between nutrition, physical activity, and overall body health, highlighting their role in preventive healthcare and professional responsibility.
3	**Event Overview** The event featured expert speakers from the field of clinical nutrition and health sciences who shared insights into body composition analysis, dietary strategies, and sustainable lifestyle changes for long-term wellness. The seminar also discussed the implications of poor lifestyle habits on metabolic health and how early interventions can mitigate risks.
4	**Speakers / Judges / Chairman / Panel Team** The following dignitaries and speakers were present at the event: **Dignitaries:** Dr. Muninarayana C, Registrar, SDUAHER, Tamaka, Kolar – 563103 Dr. Ashok Kumar B S, Principal, RLJCOP, SDUAHER, Tamaka, Kolar – 563103. **Speaker:** Dr. Madhavi Reddy, Professor, Department of Clinical Nutrition and Dietetics, SDUAHER, Tamaka, Kolar – 563103
5	**Participants & Delegates in Number** Delegates – 3 Students – 43 Teaching Faculties – 5 Total – 51 Participants

6	**Execution and Participation** The seminar commenced at 10:00 AM with a welcome address delivered by the Ms. Chaithanya, Asst. Professor, RLJCOP. The keynote speaker, Dr. Madhavi Reddy, elaborated on the principles of body composition analysis and the importance of maintaining a balanced diet. Subsequent speakers enriched the session with real-life case studies, interactive Q&A segments, and practical tips for students to implement in their daily lives. A total of 51 participants (43 students, 5 teaching faculty, and 3 delegates) actively took part in the seminar, demonstrating keen enthusiasm and involvement throughout the session. **Post-seminar Activity** Following the seminar, body composition analysis was conducted for all students and faculty members. Based on the individual reports generated, personalized counseling sessions were offered to guide participants in making informed lifestyle adjustments aimed at achieving and maintaining a healthy body composition. The counseling was provided by the postgraduate students of the Department of Clinical Nutrition and Dietetics (CND), SDUAHER. A felicitation ceremony was also held, during which Dr. Madhavi Reddy was honored by Dr. Muninarayana and Dr. Ashok Kumar B. S. for her valuable contribution. The event concluded with a vote of thanks. Feedback from participants highlighted the seminar as highly informative and applicable to both personal and professional life.

Ms. Chaithanya warmly welcomed all our respected dignitaries.

Event Report

Name of the Event: "CME -Good Clinical Practice"

Level: Local

Department: Clinical Trial Centre (Division of Research & Development Cell), SDUAHER

Venue: Dr. B C Roy Seminar Hall 1st floor, ULLRC, SDUAHER.

Date: 20-05-2025

Sl. No.	Particulars
1.	**Introduction**: Good Clinical Practice (GCP) represents a globally accepted framework of ethical and scientific quality standards for designing, conducting, recording, and reporting clinical trials involving human participants. These standards are defined by the International Council for Harmonisation (ICH) under the ICH E6 (R2) guideline. By adhering to GCP, researchers ensure that the rights, safety, and well-being of trial participants are protected, and that the data generated are credible and accurate, fostering both innovation in medical treatments and public confidence in clinical research. Recognizing the importance of GCP in modern clinical research, the **Clinical Trial Centre** (a unit under the Division of Research & Development Cell), **Sri Devaraj Urs Academy of Higher Education and Research** in collaboration with the **Department of Pharmacology** and **Indian Society for Clinical Research (ISCR), Academic Consortium for Clinical Research in India (ACCRI), South Chapter,** organized CME on Good Clinical Practice. This collaborative initiative aimed to promote high standards of clinical research through knowledge sharing and skill development among researchers and healthcare professionals. The event also was organised to commemorate the celebration of International Clinical Trials Day on 20th May.
2.	**Proceedings:** **Inauguration**: The event commenced on **20th May 2025 at 9:40 AM** with a soulful invocation rendered by **Mrs. Suma**. The proceedings were gracefully compered by **Dr. Bhargavi S**, Deputy Coordinator, Clinical Trial Centre. The inauguration ceremony was marked by a symbolic gesture of **watering the plant** by all the dignitaries and resource persons, signifying growth and sustainability in clinical research.

Welcome Address:
Dr. Kalyani R, Director of the Research & Development Cell, SDUAHER, extended a warm welcome to the dignitaries of the institution, esteemed speakers, and all participants. With great pleasure, she welcomed everyone to the CME on **Good Clinical Practice (GCP)**, emphasizing that the active participation of all attendees which will reflect a shared commitment to maintaining the highest standards in scientific research and clinical excellence.

Opening Remarks:
Dr. B Vengamma, Hon'ble Vice Chancellor, SDUAHER , highlighted the need and importance of Good Clinical Practice in the context of Clinical trials and advised all the participants to make use of the new knowledge generated from the workshop.

Dr. S. R. Prasad, provided the insight about the safety and ethical aspects in the conduct of clinical trials and wished all the participants to have a fruitful experience from the talks of the resource persons and utilize them in clinical practice.

Speaker 1
A video presentation by **Dr. Ananya Chakraborty**, Chair of ISCR ACCRI, was played, offering insights into the Indian Society for Clinical Research (ISCR) and importance of International Clinical Trials Day (ICTD). The video provided an overview of clinical trials and emphasized the critical need for such trials in the Indian context.

Speaker 2
Dr. Bhuvana K : Professor of Pharmacology, Sri Devaraj Urs Medical College, Kolar. Delivered detailed talk on topic titled **GCP Guidelines- An overview** provided a comprehensive introduction to the principles of Good Clinical Practice, focusing on ethical and scientific standards in clinical research. It emphasized the importance of safeguarding the rights, safety, and well-being of trial participants while ensuring the credibility of clinical trial data.

Speaker 3
Dr Sunil Kumar D, Professor and Head, Community Medicine, JSS Medical College, JSSAHER, Mysuru. Delivered detailed talk on topic titled **ICMR National Ethical Guidelines for Biomedical and Health Research involving human participants 2017 – An overview** and offered valuable insights into the ethical framework governing biomedical research in India. The speaker elaborated on the core principles such as respect for persons, beneficence, and justice, which guide ethical research conduct. The importance of informed consent, risk minimization, and the role of ethics committees in safeguarding participant rights were emphasized. This session helped participants understand their responsibilities in upholding ethical standards while conducting human research.

Speaker 4

Dr. Niveditha, Director, Professor and Head, Pharmacology, ESIC Medical College & PGIMSR, Bangalore. Delivered detailed talk on topic titled **Clinical Trial Protocol, Essential Documents, New Drugs and Clinical Trials Rules, 2019** and provided an in-depth understanding of the regulatory framework governing clinical trials in India. The speaker outlined the critical components of a clinical trial protocol and highlighted the importance of proper documentation for regulatory compliance and transparency. Key provisions of the NDCT Rules, 2019, were discussed, including streamlined approval processes, safety reporting, and ethical obligation.

Speaker 5

Dr. Praveen Kumar B.A. Professor of Community Medicine, PESIMSR, Kuppam, Andra Pradesh, delivered an insightful session providing an overview of the Ethics Committee (EC), its constitution, and the applicable regulatory frameworks, particularly those outlined by the Indian Council of Medical Research (ICMR) and Good Clinical Practice (GCP) guidelines. He emphasized the critical role of the EC in the scientific and ethical review of research protocols, aimed at safeguarding the rights, safety, and well-being of research participants. The session underscored the necessity for diverse representation within the EC, comprising clinicians, legal experts, social scientists, and laypersons, to ensure balanced and informed decision-making. A detailed explanation of the informed consent process was provided, covering its essential components, the need for participant comprehension, and proper documentation practices. Dr. Praveen also highlighted the ongoing ethical responsibilities of the EC, including the review of protocol amendments and the monitoring of adverse events throughout the study. The importance of maintaining transparency, confidentiality, and impartiality in all EC activities was strongly reinforced, reflecting the foundational principles of ethical conduct of clinical research.

Speaker 6

Mr. Madhusudhan B Acharya, Associate Director Clinical Safety, Adjudication, Fortrea, Bangalore, presented a comprehensive session on adverse events (AEs) and serious adverse events (SAEs) in clinical research, highlighting their significance in ensuring the safety of study participants and adherence to regulatory standards. He stressed the critical importance of timely and accurate documentation of AEs to facilitate prompt intervention and maintain compliance with both national and international guidelines. The session provided an overview of key concepts such as causality assessment, expectedness, and severity classification, which are essential for evaluating the relationship between investigational products and reported events. Mr. Acharya also discussed the regulatory requirements set forth by agencies such as the Drug Controller General of India (DCGI), International Council for Harmonization - Good Clinical Practice (ICH-GCP), and the Central Drugs Standard Control Organization (CDSCO). He elaborated on best practices in case narrative writing, follow-up reporting, and data reconciliation to ensure comprehensive and coherent safety reporting. He also explained the process of data monitoring by the Clinical Research Associate and sponsor on a regular basis. The presentation concluded by emphasizing the vital roles of clinical investigators and pharmacovigilance teams in upholding data integrity and

	protecting patient safety throughout the course of a clinical trial.
3.	**Panel Discussion:** The panel discussion was effectively led by Dr. Ravi M, Professor of Anesthesiology, who facilitated an engaging and insightful exchange among the distinguished panel members—Dr. Vengamma B, Dr. Niveditha, Dr. Praveen Kumar B.A., and Mr. Madhusudhan B Acharya. The discussion revolved around key ethical and safety considerations in clinical research, with each expert contributing their unique perspectives based on their professional expertise. Dr. Vengamma B and Dr. Niveditha emphasized the institutional challenges and strategies for strengthening ethics committee operations and participant protection. Dr. Praveen Kumar elaborated on the practical implementation of informed consent and the need for continuous ethics training among committee members. Mr. Madhusudhan B Acharya provided critical insights into current trends in pharmacovigilance, regulatory expectations, and the integration of digital tools for adverse event tracking. The session encouraged active audience participation, and the panelists addressed various questions, reinforcing the importance of multidisciplinary collaboration in upholding Good Clinical Practice (GCP) standards.
4.	**Concluding remarks**: The GCP workshop successfully achieved its objective of educating participants on the ethical and regulatory requirements of clinical research. It equipped attendees with essential knowledge and skills to ensure compliance with GCP guidelines, thereby promoting the conduct of ethical and scientifically rigorous clinical trials.
5.	**Participants & delegates:** A total of 75 members participated in the event
6.	**Certificate Distribution**: Distributed to all the participants
7.	**Valedictory Ceremony**: Vote of thanks was proposed by Dr. Sathishbabu P, Organizing Secretary, CME GCP

1.	Level of Event
	International Webinar
2.	Background/ Introduction
This 1.5-hour webinar on **Accreditation in Medical Education** aimed to provide participants with a well-rounded and in-depth understanding of accreditation processes and their crucial role in promoting quality, accountability, and continuous improvement in health professional education. The session featured distinguished **international and national speakers**, offering both **global** and **Indian perspectives** on accreditation standards, practices, and evolving trends. Attendees will gain valuable insights into the foundational principles and strategic importance of accreditation, with emphasis on its influence on curriculum design, faculty development, learner assessment, institutional credibility, and regulatory compliance. The webinar delved into major **international frameworks** such as **WFME** and regional systems, alongside **Indian accreditation bodies** like **MARB (erstwhile MCI), NAAC, and NABH**, providing practical guidance on documentation, self-study preparation, and external review processes. By the end of the session, participants were equipped with knowledge and strategies to actively engage in and strengthen accreditation initiatives within their institutions.

ABOUT THE SESSION

Respiratory therapists play a crucial role in managing critically ill patients, ensuring optimal ventilation strategies, oxygen therapy, and airway management. Their expertise in advanced respiratory care and in the prevention of Respiratory disorders makes them indispensable in multidisciplinary healthcare teams. With evolving technology and clinical approaches, their competencies in handling life-support systems are highly employable across the globe. This seminar aims to enlighten students on the global perspectives of respiratory therapy and its significance in critical care settings.

WHO SHOULD ATTEND?

Faculty and students of Allied Health Sciences

PROGRAM OBJECTIVES

1. Opportunities to work in ICU settings as respiratory therapists specializing in ventilator management, airway care, and oxygen therapy.
2. Opportunities to work with leading medical device manufacturers such as Philips, Dräger, GE Healthcare, etc., as application specialists for respiratory support devices.
3. Opportunities to work internationally in hospitals across Qatar, Saudi Arabia, UAE, UK, and the USA, where respiratory therapy is a well-established field.
4. Opportunities in advanced pulmonary care as specialists in pulmonary rehabilitation, sleep study centers, and neonatal intensive care units (NICU).
5. Scope for higher education and research in respiratory therapy, focusing on innovations in ventilation strategies, airway management techniques, and pulmonary diagnostics.

Event: Monthly seminar

Date: 24-05-2025

Venue: C.V Raman Auditorium III Floor, SDUAHER.

Time: 11.00 AM to 12 Noon

Resource Person: Ms, Saranya J,

Assistant Professor of Department of Respiratory Therapy, Yenepoya University

Topic: The Role of Respiratory Therapist in Critical Care

Event: Inaugural function

The following dignitaries presided over the function:

- Ms, Saranya J, Assistant Professor of Department of Respiratory Therapy, Yenepoya University
- Dr. Aravind Natarajan, Dean, FAH&BS
- Dr. C. D. Dayanand, Professor. & Head, School of Allied Health Science.
- Dr. Guruprasad T J, Assistant Professor & Head - TBCD
- Dr. Deena C Harper, Associate Professor, School of Allied Health Science.
- Dr. Usha G Shenoy, Assistant Professor, School of Allied Health Science

Invited Guest:

Ms, Saranya J, Assistant Professor of Department of Respiratory Therapy, Yenepoya University

Guests of Honour:

SRI G. H. NAGARAJA Chancellor, SDUAHER & Chairman SDUET Kolar

SRI. J. RAJENDRA, Vice President, SDUET, Kolar

SRI. K. G. HANUMANTHA RAJU, Secretary, SDUET

DR. D.V.L.N. PRASAD, CAO, SDUAHER

DR. B. VENGAMMA, Vice Chancellor SDUAHER

DR. MUNINARAYANA.C, Registrar, SDUAHER

DR. PRABHAKAR. K, Principal, SDUMC

DR. KRISHNAPPA J, Medical Superintendent, RLJH&RC

DR. ARAVIND NATARAJAN, Dean, FAH&BS

ORGANISING CHAIRPERSON

Dr. C. D. Dayanand, Professor. & Head

Dr. Guruprasad T J, Assistant Professor & Head - TBCD

ORGANISING SECRETARY

Dr. Deena C Harper, Associate Professor

ORGANISING CO - ORDINATOR

Dr. Usha G Shenoy, Assistant Professor

STAFF MEMBERS

- Ms. Nalini H S
- Ms. Chandini Rao K N
- Ms. Duvvuru Greeshma
- Ms. Yogitha S
- Mr. Akash T
- Mr. Naveen K
- Mr. Sabeer S
- Ms. Shalini S
- Ms. Byrisetty Madhavi
- Ms. Shakeela B
- Ms. Nithyasri N
- Mr. Franklin John

- The event commenced with a warm welcome by Athira K L,3rd year, Respiratory Therapy Student, who expressed the pleasure of hosting the 5th Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Mr. Sabeer S, Lecturer/ Course Coordinator of Respiratory Therapy, introduced the chief guest.

Speaker: Ms, Saranya J, Assistant Professor of Department of Respiratory Therapy, Yenepoya University

Topic: The Role of Respiratory Therapist in Critical Care

Rapporteur report:

Ms. Saranya opened the session by discussing the growing recognition of respiratory therapists globally, particularly after the COVID-19 pandemic. She emphasized the transformation of the RT role from its inception in 1947 (USA) to its current multidisciplinary presence in ICUs worldwide, including in India.

Key Responsibilities in Critical Care:

The speaker detailed the RT's critical care responsibilities using engaging titles like:

- **Detective of the Lungs:** Conducting respiratory assessments
- **Breath Giver:** Administering oxygen therapy and aerosolized medication
- **Guardian of Ventilation:** Managing mechanical ventilators
- **Silent Watcher:** Monitoring patient parameters

- **Emergency Lifeline:** Responding to emergencies like code blue, intubation, ABG sampling

Specialized Therapies:

Ms. Saranya discussed advanced modalities in neonatal and adult critical care including:

- High-Frequency Ventilation
- Surfactant Replacement Therapy
- Liquid Ventilation
- Nitric Oxide Therapy

Education & Regulatory Developments:

She highlighted recent updates from the **National Commission for Allied and Healthcare Professions (NCAHP)**:

- Curriculum notice (April 2025)
- Revised enrollment and registration processes
- Recognition of RT as a key allied healthcare profession

Career Prospects:

She expanded on:

- **Hospital-based Roles:** ICU, NICU, code blue teams
- **Non-hospital Roles:** Sleep labs, rehab homes, telehealth, research
- **Global Opportunities:** Licensure and job roles in the US, UK, UAE, Canada, Australia, Saudi Arabia, Singapore

Research and Higher Studies:

The importance of RTs in clinical research, especially in cardiopulmonary studies, was also emphasized. She encouraged participation in global fellowship programs, master's/doctoral degrees, and collaborative research initiatives.

Challenges & Strategies:

She addressed existing challenges like lack of uniform global licensure and proposed strategic approaches like:

- Simulation-based training
- Curriculum standardization
- Cross-border institutional collaboration

Audience Participation

The seminar concluded with an engaging Q&A session where students and faculty inquired about:

- Preparing for international credentialing exams
- Balancing clinical roles with research
- Future specialization pathways in hyperbaric medicine and neonatal transport

Outcomes

- Enhanced awareness about the multidisciplinary role of RTs in critical care.
- Clarified global career prospects and the need for professional licensure.
- Encouraged attendees to pursue advanced education and research.
- Motivated students to view RT as a dynamic and globally relevant profession.

- Dr. Guruprasad T J, Assistant Professor & Head - TBCD, SDUAHER, SDUAHER gave vote of thank

- The resource person was handed over certificate of appreciation

- Raised for National Anthem.

SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION & RESEARCH

TAMAKA, KOLAR – 563 103

Department of Microbiology

Event Report

Name of Event: Multiplex Molecular Diagnostics in sepsis - Clinical outcomes

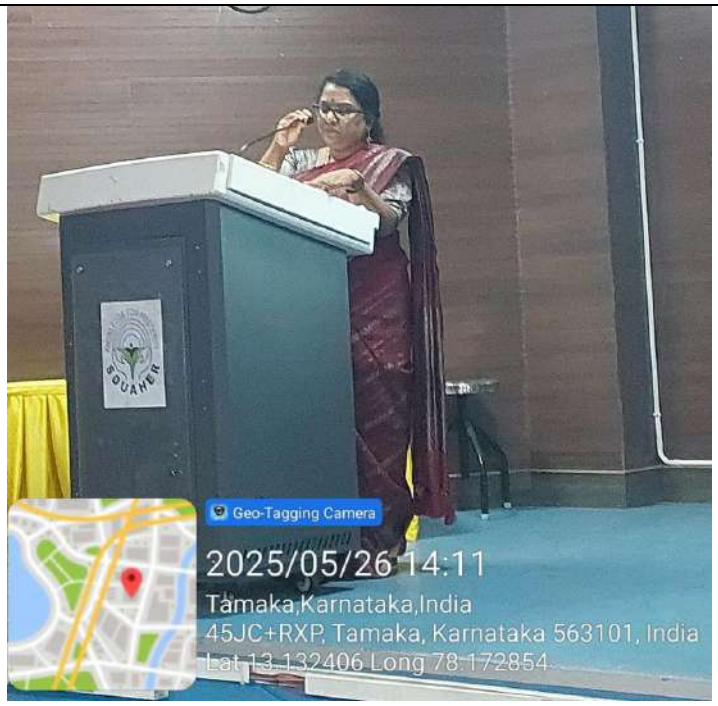

Name of Departments: Department of Microbiology and Department of Medicine

Date: 26.05.2025

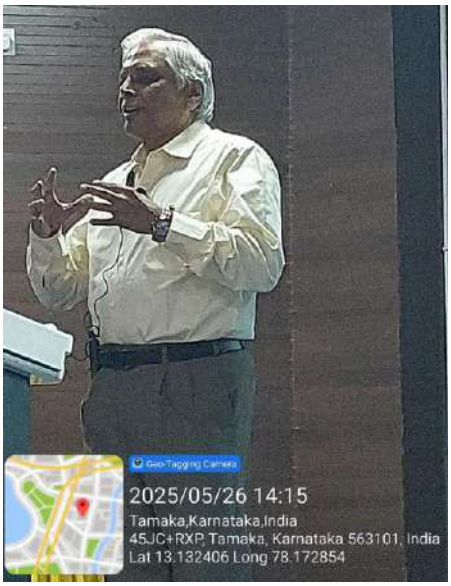

Sl. No.	Event Report
1.	**Level of Event –** Institutional; Faculty of Medicine; Guest Lecture
2.	**Background / Introduction**
	Sepsis is a life-threatening medical emergency resulting from the body's dysregulated and extreme response to an infection. It can lead to tissue damage, organ failure, and death if not treated promptly. Early detection and treatment are crucial to improve survival rates. Sepsis multiplex PCR is a diagnostic tool that utilizes Polymerase Chain Reaction (PCR) technology to rapidly detect pathogens in blood samples of individuals suspected of having sepsis. This technique allows for the identification of multiple bacterial and fungal species simultaneously, aiding in faster and more accurate diagnosis compared to traditional blood cultures.
3.	**Venue:** William Osler Hall, First Floor, SDUMC, SDUAHER
4.	**Sponsors:** SDUAHER
5.	**Inauguration:** Presided by the Dr. Harshitha, postgraduate in Department of Medicine. Dr. Parimala. S, Professor & Head of the Department introduced the Speaker, by Dr. BV Ravi Kumar.
6.	**Speaker:** Dr. B V Ravi Kumar is a distinguished faculty and well-known figure in the field of Diagnostic Research. He completed his MBBS from JIPMER in 1977, and Diploma in Psychiatry from CMC, Vellore in 1979. Following this he achieved his Ph.D from the prestigious Indian Institute of Science, Bangalore in 1985. He is the Founder, Chairman of XCYTON Diagnostics Pvt Ltd, now known as BIGTEC LABS. He has 28 publications, 8 patents and more than 150 oral presentations to his credit. His achievements include the Lockheed Martin Innovation award in 2013, Best Bio-Product award for JEV ELISA 204, and Best Bio-Product award of Biospectrum for SES_eye Infections 2008. He has guided three Ph.D students, and his thesis was adjudged the Best Thesis at IISC in 1986. **Chairperson** Dr. Parimala. S, Professor and Head, Department of Microbiology Dr. Anitha A, Professor, and Second Unit Head in Department of Medicine Co-organizing Secretary: Dr. Rupa K, Senior Resident, Department of Medicine

	Assisted by Faculty members and Postgraduates.
7.	Participants & Delegates – 120 members present in person. Attendance sheet shared as Annexure 1.
8	**Brief lecture notes and discussion** Dr. Ravi Kumar initiated the presentation by sharing his experience on how multiple cases of seizures and sepsis, which resulted in fatal outcomes were diagnosed on autopsy for evidence of Salmonella and Neurocysticercosis which ignited a keen interest in Infectious diseases. He commented that around 18 children die across the globe every minute due to sepsis. Multiplex PCR is a competent high quality tool for early diagnosis of critical infections. He supported this claim thorugh various Syndrome Evaluation Studies. He also suggested that Multiplex PCR and Next generation Sequencing could be the Future of Diagnostics, which not only identified pathogens but also various mutations, causing significant ripples in the critical care, and Antimicrobial resistance programs. The audience member interacted with the speaker, and multiple queries were discussed and clarified. In conclusion, he highlighted the impact on IDSA guidelines on Antimicrobial resistance, Clinical practices and Syndrome Evaluation Studies.
9	**Valedictory** Dr. Harshitha delivered the Vote of Thanks. The event was concluded by thanking all the administrators, resource faculty, and supporting staff.
10	**Highlights of Events including Photos :**
Photos have been shared separately, as jpeg format, and as Annexure 2
