Sl. No.	Event Report
1	**Name & Level of Event**
	Hypertension Screening Camp on the occasion of World Hypertension Day
2	**Background / Introduction**
	World Hypertension Day (WHD) is an annual global awareness initiative held on May 17th. Led by the World Hypertension League, the event emphasizes the importance of accurate blood pressure screenings and early detection of high blood pressure **Theme:** "Controlling Hypertension Together: check your blood pressure regularly, defeat the silent killer" World Hypertension Day is observed every year on 17 May and forms part of Hypertension Awareness Month. It aims to raise global awareness about high blood pressure, promote prevention, detection, and control, and encourage action at individual, community, and health-system levels. Hypertension remains the leading preventable cause of premature death worldwide. An estimated 1.4 billion people live with hypertension globally. Despite the availability of effective and affordable treatments, many people are unaware of their condition, and only about one in four people with hypertension have their blood pressure adequately controlled.

Remarks	
Objective (100 of 100 left)	The seminar on *Financial Management for Start-ups* provided budding entrepreneurs and students with practical insights into building sustainable ventures. Resource person CA Eswar Kumar emphasized the importance of structured financial planning, compliance, and effective resource management. He highlighted strategies for balancing innovation with financial discipline, ensuring long-term growth and stability. The interactive session encouraged participants to think critically about budgeting, risk management, and investment decisions. By linking entrepreneurial vision with sound financial practices, the seminar fostered analytical skills, problem-solving abilities, and confidence in navigating start-up ecosystems, thereby strengthening both academic learning and professional competencies.

Benefit in terms of learning /skill/knowledge obtained* (150 of 150 left)	The seminar provided participants with practical knowledge of financial planning and compliance, which is essential for start-up success. Attendees learned how to structure budgets, allocate resources effectively, and manage risks in dynamic business environments. The session emphasized the importance of disciplined financial practices while encouraging innovation-driven entrepreneurship and sustainable business models. Through the expert guidance of CA Eswar Kumar, participants gained insights into balancing creativity with financial responsibility, ensuring long-term stability and growth. The interactive format fostered analytical thinking, enabling students and faculty to critically evaluate financial decisions, investment strategies, and compliance requirements. By engaging with real-world examples, participants enhanced their problem-solving abilities and developed confidence in applying financial concepts to entrepreneurial ventures. Overall, the seminar enriched academic knowledge, strengthened professional competencies, and inspired participants to adopt structured, innovation-oriented approaches to financial management, thereby preparing them to navigate the challenges of start-up ecosystems with clarity and resilience.

BLOOD DONATION CAMP REPORT

Name of the Event: Blood Donation Camp

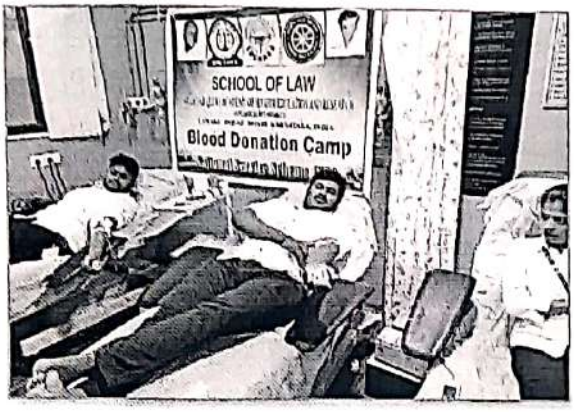

Date of the Event: 29/05/2026

Name of the Department: School of Law, SDUAHER

1. Level of the Event	Department Level
2. Background / Introduction	The School of Law, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), through its National Service Scheme (NSS) Unit, organized a Blood Donation Camp on 29th May 2026 with the objective of promoting humanitarian values, social responsibility, and awareness regarding voluntary blood donation among students. Blood donation is a noble act that helps save precious lives and supports hospitals in maintaining an adequate blood supply for patients in need. The camp was conducted in collaboration with the Blood Bank of R.L. Jalappa Hospital and Research Centre, Kolar. Prior to blood donation, all participants underwent medical screening and fitness evaluation conducted by the medical team to ensure donor eligibility and safety.
3. Venue	Blood Bank, R.L. Jalappa Hospital & Research Centre, Tamaka, Kolar – 563101.
4. Sponsors	Nil
5. Programme Details	The Blood Donation Camp commenced with an orientation session conducted by the medical officers and staff of the Blood Bank. The importance of blood donation, eligibility criteria, health benefits, and precautions were explained to the students. A total of 35 NSS student volunteers and 1 teaching faculty member participated in the programme. All participants underwent preliminary health examinations including blood pressure check, haemoglobin test, weight measurement, and general health assessment. Based on the medical evaluation, 10 participants were found eligible and successfully donated blood. The donated blood units will be utilized for emergency medical treatments, surgeries, and patients requiring blood transfusions. The medical staff ensured safe and hygienic procedures throughout the camp. Following donation, refreshments and certificates of appreciation were provided to all donors. The programme successfully created awareness regarding voluntary blood donation and encouraged students to contribute towards saving lives through this noble cause.
6. Participants	Students Present: 35 Teaching Faculty: 01 Total Participants: 36 Total Blood Donors: 10
7. Any Other Information	The Blood Donation Camp served as a meaningful social service initiative and reflected the commitment of the NSS Unit, School of Law, towards community welfare and humanitarian service. The enthusiastic participation of students and faculty contributed to the success of the programme. The camp reinforced the NSS motto, 'Not Me, But You,' by inspiring students to actively participate in activities that benefit society. The organizers expressed their gratitude to the Blood Bank staff of R.L. Jalappa Hospital and Research Centre for their cooperation and support in conducting the camp successfully.
Outcome of the Programme	The camp successfully collected 10 units of blood, which can potentially help save multiple lives. The programme enhanced awareness among students regarding the significance of voluntary blood donation and encouraged them to become regular blood donors in the future.

Event Report

Name of Event: Guest Lecture by Dr. Sharath Kumar G G (MBBS, MD, DM Neuroradiology and Neurointervention), Professor of Practice(Radiology) SDUAHER

Name of the Department: Radio-Diagnosis

Date of Conduct of Event: 28/05/2026

Level of Event: Institutional

Venue: 1st Floor AV Hall, Library Building

Sponsors: SDUAHER

Inauguration: Professor and Faculty Members of the Department of Radio-Diagnosis.

Speaker: Dr. Sharath Kumar G G, DM Neuroradiology, Professor of Practice, SDUAHER, Kolar.

Participants & Delegates: Faculty Members and Postgraduate Students (Approx. 55 participants)

Highlights of the Event:

A Guest Lecture was conducted by Dr. Sharath Kumar G G on recent advances and practical aspects of neuroradiology. The lecture covered the following topics:

I. Imaging in Spontaneous Intracerebral Hemorrhage (ICH).
II. Spontaneous Intracranial Hypotension (SIH) and Idiopathic Intracranial Hypertension (IIH).
III. Role of Imaging in Demyelinating Disorders.
IV. Stroke Imaging – Current Concepts and Applications.
V. Neuroinfections – Imaging Approach and Differential Diagnosis.
VI. A Mix Bag of Interesting Cases and Case-Based Discussions.

The lecture was highly interactive and provided valuable insights into the imaging evaluation of neurological disorders. The participants actively engaged in discussions and benefited from the expert guidance and practical case reviews presented during the session.

Vote of Thanks: Dr Segu Yamini.

Event Report

1 Name & Level of Event: Workshop on Stress Management

2 Background / Introduction:

The Department of Psychiatry, Sri Devaraj Urs Medical College, Organized A workshop on "Stress Management for Postgraduate Residents" was conducted on 22nd May 2026 from 2:00 PM to 4:00 PM.The program was held at the C V Raman Auditorium.

Postgraduate residents often experience stress due to heavy academic and clinical responsibilities. Long working hours, patient care duties, and examinations contribute to mental and emotional strain. Stress and burnout can negatively affect both personal well-being and professional performance.

The workshop aimed to create awareness about stress, burnout, and mental well-being among residents.

Sessions focused on stress management techniques such as mindfulness, relaxation, time management, and work–life balance.

The workshop encouraged residents to adopt healthy coping strategies and seek support whenever needed.

3 Venue: C V Raman auditorium, SDUMC

4 Sponsors: SDUAHER

5 Inauguration:
Dr. Ruth Sneha (Prof & HOD, Psychiatry) emphasized the importance of recognizing and managing stress among postgraduate residents. And highlighted the need for increased awareness about mental well-being, burnout prevention, and healthy coping strategies during residency training.

6 Speakers / Judges / Chairman / Panel Team

The workshop featured expert sessions delivered by eminent speakers

Dr Sharan Roy Chowdhury,Senior Consultant,Sukoon health,Bangalore delivered a lecture on 'Identification of Stressors and Their Impact on Mental Health'.

Ms Swayntika Adavi, Clinial Psychologist, Sukoon health,Bangalore, conducted 'Hands on techniques for stress management and emotional resilience'.

7 Participants & Delegates in Number: Total=76

8 Valedictory function:
The vote of thanks was given by **Dr M Kamran Chisty, Assistant professor**, department of Psychiatry.

Objective (100 of 100 left)	Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in collaboration with the Jalappa Foundation for Innovation and Incubation (JFII) and the Institution's Innovation Council (IIC), organized a seminar on "Artificial Intelligence in Medical Education: Opportunities and Ethical Applications." The session was delivered by Mrs. Akshaya Thulasi, Assistant Professor, Department of Mind, Body & Medicine, SRIHER. The seminar highlighted the transformative role of AI in medical education through personalized learning, virtual simulations, intelligent tutoring systems, and enhanced clinical training. It also emphasized ethical considerations, including data privacy, patient confidentiality, algorithmic bias, transparency, accountability, and equitable access to AI technologies.

Benefit in terms of learning /skill/knowledge obtained* (150 of 150 left)	The Participants gained knowledge about the applications of Artificial Intelligence in medical education, including personalized learning, virtual simulations, intelligent tutoring systems, and clinical decision support. The session enhanced understanding of how AI can improve teaching, learning, assessment, and research practices in healthcare education. Attendees also developed awareness of key ethical considerations such as data privacy, patient confidentiality, algorithmic bias, transparency, accountability, and equitable access. The seminar strengthened participants' ability to critically evaluate AI tools and encouraged responsible, ethical, and effective integration of AI technologies into medical education and healthcare practice.

2	**Background/Introduction-** In commemoration of the International Day of Yoga 2026, the Department of Integrative Medicine, SDUAHER, Kolar, in collaboration with Bengaluru North University, organized a dedicated Yoga Awareness Camp for students at Talakayalabetta, Chikkaballapur District. The collaborative event aimed to educate and inspire youth about the importance of integrating traditional wellness practices into modern lifestyles. **Key Highlights of the Event:** * Expert Address: **Dr. Ashween Bilagi** conducted an extensive and insightful session titled "Yoga for Health and Wellbeing," exploring the medical and psychological benefits of consistent yoga practice. * Practical Session: Following the lecture, participants engaged in a rejuvenating, hands-on yoga practice. The session was skillfully instructed by Mrs. Sunitha L and Shriya, ensuring students learned the correct posture, breathing techniques and meditation. The camp successfully concluded with enthusiastic participation from the students, reinforcing the institutions' shared mission of "Promoting holistic health, one asana at a time"

Event Report

Name of Event: **KANGAROO MOTHER CARE DAY**
Name of Department: **PEDIATRICS**
Date of Conduct of Event:**15th MAY,2026**

Sl. No	Event Report
1.	**Level of Event – Institutional**
The International Kangaroo Mother Care (IKMC) Day Celebration was inaugurated under the guidance of Dr. Sudha Reddy V. R., Professor & Head, Department of Pediatrics. The inaugural address emphasized the importance of Kangaroo Mother Care in improving neonatal survival, promoting breastfeeding, enhancing mother–infant bonding, and supporting optimal growth and neurodevelopment of preterm and low birth weight infants.	
2.	**Background / Introduction**
Kangaroo Mother Care Day is observed globally to create awareness regarding the importance of Kangaroo Mother Care. KMC involves prolonged skin-to-skin contact between the caregiver and infant, exclusive breastfeeding support, and early discharge with appropriate follow-up. It is a simple, cost-effective, and evidence-based intervention that improves thermoregulation, breastfeeding rates, bonding, weight gain, and survival among preterm and low birth weight babies..	
3.	Venue
Venue: OPD Block, Department of Pediatrics, RL Jalappa Hospital & Research Centre, Tamaka, Kolar..	
4.	Sponsors
Department of Pediatrics.	
5.	Inauguration
The celebration was inaugurated by faculty members of the Department of Pediatrics. The importance of Kangaroo Mother Care in improving neonatal outcomes was highlighted during the inaugural session.	
6.	6. Resource Persons / Organizers
Faculty members, Senior Residents, Postgraduate students, and NICU nursing staff of the Department of Pediatrics actively organized and conducted the event.	
7.	Participants
Faculty members, postgraduate students, interns, nursing staff, mothers of newborns, caregivers, and patients attending the Pediatric OPD participated in the event..	
8.	Prize Distribution
Certificates and gifts were distributed to participating mothers and caregivers in appreciation of their involvement and commitment to Kangaroo Mother Care practices.	
9.	Valedictory Ceremony
The event concluded with a summary of key messages emphasizing the importance of Kangaroo Mother Care. Participants were encouraged to continue practicing KMC and serve as advocates for neonatal health in their communities	
10.	Highlights of Events including Photos
The program included awareness talks regarding the benefits of Kangaroo Mother Care, demonstrations of proper KMC positioning, counseling on breastfeeding support, and interaction with mothers of preterm and low birth weight infants. Educational materials were distributed, and participants actively engaged in discussions. Certificates and gifts were	

presented to mothers practicing KMC. The event successfully promoted awareness rega
the importance of Kangaroo Mother Care in neonatal health and development.

1	**Level of the event**
	Institutional level
2	**Background / Introduction**
	On the occasion of Mother's Day 2026, celebrated globally to honor motherhood, maternal bonds, and the invaluable contributions of mothers, the Women Empowerment Cell of Sri Devaraj Urs Academy of Higher Education organized a special program on 14-05-2026 at R.L. Jalappa Hospital and Research Centre, in front of the Histopathology Ward. The theme for this year's celebration was "Recognizing the Invisible Labor of Mothers and Promoting Maternal Wellness." The program was conducted for mothers admitted in the wards as well as those attending the OPD. The event commenced with an invocation by Miss Samuktha, an AHS student, followed by the welcome address delivered by Dr. Usha G. Shenoy, Chairperson of the Women Empowerment Cell. She warmly welcomed the dignitaries and all the mothers by presenting them with rose cones. The program was formally inaugurated by the dignitaries and staff through a symbolic plant-watering ceremony. Miss Mrudula, a third-year MBBS student, served as the compere for the event. The dignitaries present on the dais included Dr. DVLN Prasad, Chief Academic Officer; Dr. Vengamma, Vice Chancellor; Dr. Dinesh, DMS of the hospital; Dr. Sheela, Professor from the Department of OBG; and Mrs. Sunitha from the Department of Integrative Medicine. As part of the celebration, a poetry competition was organized for the students of the university on the theme "Rooted in Care, Rising in Strength." A total of 14 students participated enthusiastically. The winners were: • First Prize: Kushmitha G • Second Prize: Shreya Maurya • Third Prize: Krishnangee The prizes were distributed by the Vice Chancellor, Dr. Vengamma, who also encouraged the winners to recite their poems before the audience. Dr. Chaitra, Member Secretary of the Women Empowerment Cell, introduced the guest speaker, Dr. Sheela, Professor from the Department of OBG, who delivered an informative talk on "Postpartum Nutrition and Work-Life Balance." She emphasized the importance of adequate food and water intake during pregnancy and lactation. She also highlighted the need to prioritize nutrient-rich and easily digestible foods such as proteins, whole grains, and healthy fats to support recovery and lactation. Addressing work-life balance, she advised new mothers to establish healthy boundaries, delegate responsibilities, and utilize flexible work arrangements whenever possible. The second session was conducted by Mrs. Sunitha, Yoga Demonstrator from the Department of Integrative Medicine, who demonstrated simple and practical postpartum exercises suitable for all mothers. The participants actively joined and practiced the exercises during the session. Both speakers were honored with mementos and certificates as tokens of appreciation for their valuable contributions. On this special occasion, students of the institution also conducted an engaging activity titled "Intelligent Mom Contest." They visited mothers in various wards and interacted with them through a short survey consisting of 15 questions to be answered within two minutes. The questionnaire focused on health awareness, nutrition, current affairs, and general knowledge. Mothers who performed exceptionally well were awarded cash prizes.

	The program concluded on a joyful note with the distribution of dry fruit packets and juice packs to all mothers and staff members by the Chief Academic Officer, Vice Chancellor, and the Women Empowerment Cell. The thoughtful gesture and the entire event were highly appreciated by everyone present

Remarks	
Objective (100 of 100 left)	Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in collaboration with the Jalappa Foundation for Innovation and Incubation (JFII) and the Institution's Innovation Council (IIC), hosted a seminar on the Role of Aldehyde Dehydrogenase in maintaining PARP inhibitor resistance in ovarian cancer. Delivered by Dr. Kousalya Lavudi from The James Cancer Hospital and Solove Research Institute, Ohio, USA, the session provided advanced insights into drug resistance biology and its clinical implications. It emphasized translational oncology, global collaboration, and innovation-driven approaches to strengthen cancer research and improve therapeutic strategies.

Benefit in terms of learning /skill/knowledge obtained* (150 of 150 left)	The seminar offered participants a comprehensive learning experience by deepening their understanding of drug resistance biology, with a particular focus on the role of aldehyde dehydrogenase in sustaining PARP inhibitor resistance in ovarian cancer. Through the expert insights of Dr. Kousalya Lavudi, attendees gained valuable skills in translational oncology, learning how molecular mechanisms can be effectively applied to clinical practice. The session also broadened knowledge of innovation-driven cancer research, highlighting the importance of interdisciplinary collaboration in addressing complex therapeutic challenges. Participants were encouraged to critically evaluate emerging strategies, fostering analytical thinking and problem-solving skills. Overall, the seminar enriched scientific knowledge, strengthened clinical application skills, and provided practical insights into overcoming treatment barriers in precision oncology, thereby enhancing both academic and professional competencies.

Date of the event: 07th May 2026
Name of the department: University Centre for Health Professions Education

Sl. No	Event Report
1.	Level of the event-
	Institutional level
2.	Background/ Introduction

Leadership skills are essential for undergraduate health professional students, but integrating them into the curriculum can be challenging. This workshop helps faculty design, implement, and assess a structured leadership module using competency-based education principles. Based on Van Melle's framework and aligned with national and global standards, the workshop offers a practical, hands-on approach to curriculum planning, teaching methods, and assessment. Participants will develop leadership competencies, plan year-wise progression, and create implementation strategies suited to their program.

The objectives of the workshop

1. Describe competency-based approaches to leadership development
2. Identify and map leadership competencies using standard frameworks
3. Design a year-wise leadership curriculum for UG students
4. Apply appropriate teaching-learning methods for leadership training
5. Develop assessment strategies using programmatic assessment principles
6. Create an implementation roadmap for integrating leadership into existing curricula

This one-day interactive workshop equipped educators in health sciences

The session started with a warm welcome and an engaging icebreaker to set a collaborative tone. The sessions focused on competency-based leadership training, curriculum integration, teaching-learning methods, and assessment strategies. Participants engaged in interactive group activities on competency mapping, year-wise curriculum planning, and assessment blueprint design. Discussions highlighted practical approaches for implementing leadership modules within existing curricula. The workshop promoted collaborative learning and sharing of best practices in leadership education. Faculty participants developed preliminary implementation plans for leadership training in their respective programs.

Sl. No.	Event Report- Department of Orthopaedics
1	**Name & Level of Event**
	WEBINAR ON "PELVI- ACTABULAR SYMPOSIUM" on 06/05/2026 **Level of event : institutional**
2	**Background / Introduction**
	The first session webinar of the Pelvi-Acetabular Symposium focused on the foundational principles of pelvi-acetabular trauma management. The session commenced with an introductory address by the moderator, highlighting the importance of systematic evaluation and timely management of pelvic and acetabular fractures. This session primarily emphasized radiological interpretation of pelvi-acetabular fractures, enabling participants to understand fracture patterns, classifications, and preoperative planning strategies. Expert faculty members discussed the role of standard radiographs, Judet views, and CT imaging in accurate diagnosis and surgical decision-making. The session also covered indications and surgical relevance of the iliofemoral approach along with operative video demonstrations, providing practical insight into exposure techniques and fracture fixation principles. Interactive discussions and case-based learning during the session enhanced participants' understanding of anatomy, imaging correlation, and approach selection in complex pelvi-acetabular injuries. - The Pelvi-Acetabular Symposium was organized with the objective of enhancing academic knowledge and surgical expertise in the management of pelvic and acetabular fractures, which remain among the most complex injuries encountered in orthopaedic trauma practice. The symposium served as a dedicated platform for postgraduate students, orthopaedic surgeons, and trauma specialists to interact with experienced faculty members and gain updated insights into contemporary concepts of diagnosis, classification, imaging, surgical approaches, fixation strategies, and postoperative rehabilitation. The program aimed to bridge the gap between theoretical understanding and practical surgical application through expert lectures, case-based discussions, radiological evaluations, operative planning sessions, and interactive panel discussions. Special emphasis was placed on evidence-based management, complication avoidance, decision-making in complex trauma scenarios, and recent advances in pelvi-acetabular surgery. The symposium also promoted interdisciplinary collaboration and academic exchange, encouraging participants to discuss challenging cases and evolving treatment protocols. By bringing together renowned experts and enthusiastic learners under one academic forum, the event contributed significantly toward improving trauma care standards and strengthening orthopaedic education in the field of pelvi-acetabular surgery.

Date of the event: 05/05/2026

Name of the department: **School of Law, SDUAHER**

Sl. No.	Event Report
1	**Level of the event**
	Department level
2	**Background / Introduction**
	The School of Law, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in association with the Legal Aid Clinic and NSS Unit, in collaboration with the District Legal Services Authority (DLSA), Kolar, organized a One Day NSS Review Camp at Ramasandra Village, Kolar District, on 06th May 2026. The programme was organized as a follow-up review to the NSS Annual Camp 2025-26 held from 21st to 26th April 2026 at the same village. The primary objective of this Review Camp was to assess the ground-level impact of the NSS Annual Camp on the villagers, and to conduct a comprehensive village survey across all households in Ramasandra. NSS student volunteers used structured survey forms to collect data on general information, socio-economic status, education, health and sanitation, government schemes, basic facilities, social issues, and the impact of NSS programmes on the community.

5	**Programme Details**
	Inaugural Ceremony: The One Day NSS Review Camp commenced with a formal Inaugural Ceremony at Government Primary School, Ramasandra. Sri. Nanjundegowda, a respected villager of Ramasandra, graced the occasion as the Chief Inaugurator and formally inaugurated the programme. The Incharge Principal, School of Law, SDUAHER, presided over the inaugural function and addressed the

	gathering, highlighting the importance of community outreach, post-camp review, and the role of NSS volunteers in creating lasting social impact. The NSS Coordinator, SDUAHER, was also present and delivered a brief address on the objectives of the Review Camp and the significance of the village survey exercise. In his inaugural address, Sri. Nanjundegowda appreciated the efforts of the School of Law and NSS students for their dedicated service during the Annual Camp and welcomed the Review Camp as a meaningful initiative to assess the progress and impact of previous NSS activities on the village community. **Village Survey:** Following the formal inaugural function, NSS volunteers were organized into survey teams and deployed across Ramasandra Village to conduct a structured house-to-house survey. Each team was equipped with the NSS Village Survey Form, designed by the School of Law, covering the following key areas: • General Information (Name, Age, Gender, Family Size, Contact) • Socio-Economic Details (Occupation, Monthly Income, House Ownership) • Education Details (School attendance, Literacy status of family) • Health & Sanitation (Drinking water source, Toilet facility, Common health issues, Nearest health centre) • Government Schemes (Awareness and benefits received) • Basic Facilities (Electricity, Road condition, Waste disposal, Public transport) • Social Issues (Unemployment, Alcohol/Drug abuse, Child labour, Women safety) • Suggestions from villagers • Impact of NSS Programmes (Awareness on cleanliness, health, fire safety, environment, and overall rating of NSS activities) The NSS volunteers surveyed a total of 83 households in Ramasandra Village, engaging directly with villagers, understanding their needs, and creating awareness about legal rights, government welfare schemes, and NSS activities. Each survey form was duly filled and signed by the student volunteer along with the date. The exercise provided students with invaluable practical experience in community engagement, data collection, and social service. The data collected will be compiled and analyzed to understand the socio-economic conditions of the village and to plan future NSS activities accordingly.
6	**Participants**
	Students Present: 44 out of 48 | Teaching Faculty: 05| Total: 49 Total Households Surveyed: 83
7	**Any other information**
	The One Day NSS Review Camp served as an important bridge between the NSS Annual Camp and the community, enabling students to assess the real-world impact of their efforts. The village survey data covering 83 households will be compiled into a comprehensive Village Survey Report to be submitted to the School of Law administration and the District Legal

Scanned with OKEN Scanner

	Services Authority, Kolar. The survey highlighted key aspects of the socio-economic conditions of Ramasandra village including household facilities, health awareness, government scheme awareness, and villagers' feedback on NSS programmes. The camp reaffirmed the NSS motto — "Not Me, But You" — by encouraging students to look beyond the classroom and contribute meaningfully to rural development and community welfare. The enthusiastic participation of villagers and the encouraging response from Sri. Nanjundegowda and other village members made the Review Camp a grand success.

Name of the department: Department of Speech Pathology and Audiology

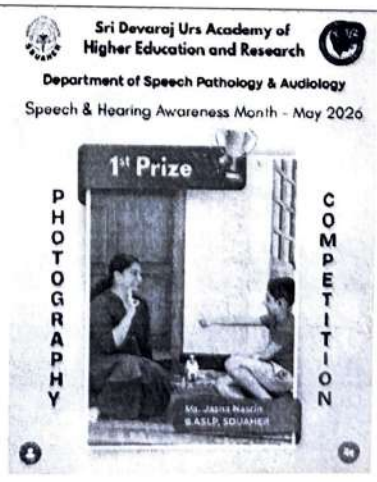

Sl. No.	Event Report
1	**Level of the event**
	Department level
2	**Background / Introduction**
	Speech and Hearing Awareness Month is usually observed in May to increase public awareness about communication disorders, hearing loss and the importance of early identification and intervention. It also highlights the role of audiologists and speech-language pathologists in improving communication and quality of life. As part of this awareness month, the department of Speech Pathology and Audiology conducted a series of events to spread awareness about disorders of speech, language, swallowing, hearing and balance. The events observed were • 31 Days 31 Myths- Social media posts on myths and facts in speech and hearing. • Short Film Competition • Photography Competition • Quiz competition • Innovation in Speech & Hearing Sciences Interactive Lecture • Awareness Program for New Mothers • Awareness Program for Nurses on Dysphagia Care in ICU and wards
3	**Venue**
	• 31 Days, 31 Myths and Facts Campaign – Online awareness posts spread through social media platforms throughout May 2026. • Short Film Competition – Entries submitted online and released through social media platforms. • Photography Competition – Conducted online with submissions received digitally and showcased through social media platforms. • Innovation in Speech & Hearing Sciences Interactive Lecture – Department of Speech Pathology and Audiology, SDUAHER, Tamaka, Kolar (07 May 2026). • Awareness Program for New Mothers – Obstetrics and Gynaecology (OB) Ward, R. L. Jalappa Hospital and Research Centre, Kolar (13 May 2026). • Awareness Program for Nurses on Dysphagia Care – R. L. Jalappa Hospital and Research Centre, Kolar (20 May 2026).

	• Quiz Competition – Department of Speech Pathology and Audiology, SDUAHER, Tamaka, Kolar (27 May 2026). • Valedictory Function – MEU Hall SDUMC, Tamaka, Kolar (29 May 2026).

9	**Valedictory**
	The month-long awareness programme concluded with a Valedictory Function held on 29 May 2026. The programme commenced with the ceremonial lighting of the lamp, followed by the Welcome Address delivered by Dr. Usha M. The Awareness Month Report was then presented by Ms Anu Lokheshwar, highlighting the various activities conducted throughout the month and their outcomes. This was followed by the release of public education materials developed as part of the awareness initiative. The event also featured the screening of the winning entries from the Short Film Competition and photography competition, showcasing the creativity and awareness efforts of the participants. Subsequently, prizes were distributed to the winners of the Short Film Competition, Photography Competition, and Quiz Competition. The dignitaries present on the occasion included Dr. B. Vengamma, Vice Chancellor, SDUAHER; Shri. Rajendra J, Vice President, SDUET; Dr. D.V.L.N. Prasad, Chief Administrative Officer; and Dr. Muninarayana C., Registrar. The gathering was addressed by Shri. Rajendra J and Dr. B. Vengamma, who appreciated the efforts of the organizers and emphasized the importance of creating awareness on speech, language, and hearing health. The programme drew to a close with a Vote of Thanks delivered by Dr. H. M. Apoorva, expressing gratitude to the dignitaries, participants, organizers, and attendees for their valuable contributions to the success of the awareness month celebrations.

DEPARTMENT OF COMMUNITY MEDICINE

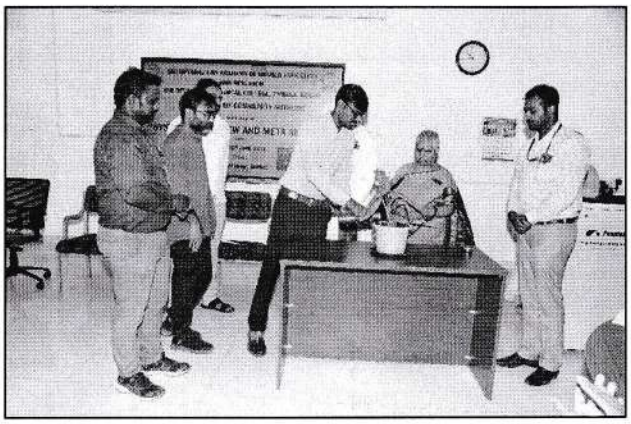

DATE – 11.05.2026

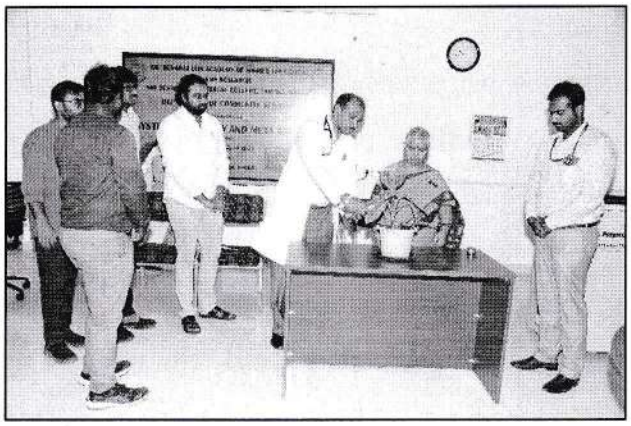

Sl No.	EVENT REPORT
1	**Name & Level of Event**: **EVENT REPORT ON "SYSTEMATIC REVIEW AND META ANALYSIS" WORKSHOP**
2	**Background / Introduction:** It is a research method used in evidence-based medicine to comprehensively identify, evaluate, and synthesize results from multiple independent studies on a specific research question using a predefined and systematic approach. A systematic review involves a structured search, selection, and critical appraisal of relevant studies, while a meta-analysis statistically combines the results of these studies to produce a pooled estimate of effect. SRMA helps increase the reliability and precision of research findings and provides high-quality evidence for clinical decision-making, guideline development, and public health policy. To make the participants confident in taking up SRMA in their future endeavors, Department of Community Medicine, SDUMC had arranged for this 3-day hands-on workshop in the campus. The workshop was accredited by Karnataka Medical Council (KMC) and was awarded **3** credit points. **Objectives of the workshop.** 1. To develop participants' skills in literature search strategies, use of appropriate software tools, and hands-on learning through practical sessions. 2. To promote interactive learning and encourage evidence-based practices among the participants.
3	**Venue (Detailed schedule of the event)**

Name of the Event: Summer camp for school students -2026

Name of the Department: **Integrative Medicine, SDUAHER in collaboration with Ramakrishna Math Halsuru, Bengaluru, and Sri Devaraj Urs College of Nursing**

Sl. no	Event Report
1	Level of Event – Academy
2	**Background/Introduction-** Summer vacation provides an excellent opportunity for children to explore activities beyond academics and support their overall development. However, the growing trend of increased screen time and reduced outdoor engagement can negatively impact their physical, mental, and social well-being. To address this concern, a structured summer camp was organized to promote holistic health development in a healthy, engaging way. The camp focused on nurturing discipline, creativity, and inner well-being through activities such as chanting Shlokas, yoga practices, and creative sessions. These activities were designed to install positive habits, enhance concentration, build self-confidence, and encourage social interaction among children. The Department of Integrative Medicine conducted this program in collaboration with Ramakrishna Math, Halsuru, Bengaluru, and Sri Devaraj Urs College of Nursing. The camp was held from 27th April to 2nd May 2026, between 7:30 AM and 10:30 AM, at the Library Silver Jubilee (2nd Floor), SDUAHER. Over the course of the program, children actively participated and benefited from a well-balanced blend of traditional and modern developmental practices in a joyful learning environment.

2.	**Background / Introduction**
	Intellectual property (IP) rights are legal rights granted to creators for their creations, giving them exclusive control over the use of their work for a specific period. These rights protect intangible assets like inventions, literary and artistic works, designs, symbols, and names, and are crucial for fostering innovation and economic growth by rewarding creativity. Key types of IP rights include patents, copyrights, trademarks, and industrial designs. This CME was targeted to discuss about Intellectual Property and its importance in academic institutions.

2	**Background / Introduction**
	Self defence is about awareness, preparation and empowerment. We live in an unpredictable world and safety is not just a luxury,it is our right. The trainers were Mr Gurudeep S Gowda and pooja ML. They have given insights on practical techniques, understanding surroundings and mental strength to stay calm and prepared under pressure. The event was open for all the students of SDUAHER. Techniques Different techniques were taught including elbow strikes, palm strikes, knee strikes,along side situational awareness, 1.Palm strike: strike the nose or chin upward 2.elbow strike:effective in close range to the jaw or ribs 3.groin strike:kick to the groin 4 Escape moves:breaking away from grabs or wrist holds 5. bending a finger backward against the joint will cause a strong pain,making it easier to escape attackers grip 6.if your grabbed from behind ,besides using a stomp kick you can strike the attacker with your elbow or pinch him Conclusion In self defence there are NO RULES,if you are in danger ,in trouble or in anyway threatened , you do anything and everything you can to get away and get to safety

Hemophilia Awareness Programme Event report 2026

1.Name & level of Event

Institutional CME titled " Hemophilia Awareness Programme " was conducted on 24-04-2026

2.Background/Introduction

Hemophilia is a hereditary coagulation disorder resulting from deficiency of factor VIII (in Hemophilia A) and Factor IX (in Hemophilia B). Incidence in India: 1300 diagnosed cases per year (Hemophilia A>>Hemophilia B). We have 32 registered cases of hemophilia in Kolar district. It is X-Linked Recessive. Manifests only in males. Females are carriers and transmits the disease. Symptoms of Hemophilia – frequent nosebleeds, bleeding gums, swollen or tight joints, bruising, hematuria and hematochezia, hemoptosis, prolonged bleeding form cuts or injuries. Diagnostic findings in Hemophilia – positive family history, presentation in early childhood, bleeding time, clotting time- Normal. Activated partial thromboplastin time (APTT)- prolonged, Prothrombin time- normal. Therapy option for Hemophilia A- FactorVIII concentrate, cryoprecipitate, Desmopressin (DDAVP).

2	**Background / Introduction**
	The School of Law, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), Kolar, in collaboration with Ramasandra villagers, organized a six-day National Service Scheme (NSS) Annual Camp from 21st April 2026 to 26th April 2026 at Government Primary School, Ramasandra, Kolar District. The camp was conducted under the aegis of the NSS Cell, IQAC, and the Students' Executive Council (2025-26). The programme aimed to promote social responsibility, environmental awareness, legal literacy, health consciousness, and community service among law students. The camp provided participants with hands-on experience in village outreach, voluntary service (Shramadana), cultural engagement with villagers, and exposure to lectures by eminent resource persons on diverse themes including legal aid, health, fire safety, and environmental protection. The camp reinforced the NSS motto — "Not Me, But You" — by fostering a deep commitment to selfless service and nation-building among the student volunteers.

	Sri. Muni Venkatappa (complete grocery supplies for the entire camp), Sri. Manjunath, Village Leader (daily morning and evening milk supply), Sri. Shivanna, Sri. Chidananda, Sri. Ravindra, Sri. Chandru & Sri. Manu, and the villagers of Ramasandra.
5	**Events (Day-Wise Detailed Report)**
	Day 1 (21/04/2026) — Inauguration Ceremony, Ramasandra Village, Kolar. The NSS Annual Camp 2025-26 was inaugurated at 10:30 AM. The inauguration was conducted in the presence of village leaders, senior community members, and distinguished guests who were invited on to the dais and formally welcomed. The Chief Guest, Dr. Muninarayana C., Registrar, SDUAHER, who is also a proud son of Ramasandra village,

Scanned with OKEN Scanner

inaugurated the camp. He reminisced about his childhood memories in the village and spoke about the origin, vision, and significance of the National Service Scheme.

Dr. Koushik C., Principal, School of Law, SDUAHER, elaborated on the origin, growth, and various dimensions of NSS and explained the motto "Seva hi Jayate" (Service is Victory). The Camp Officer, Sri. Rajendraprasad K.M., Assistant Professor, delivered the keynote introductory address explaining the objectives, motto, and methods of community service under NSS. He explained how the NSS programme influences students' lives and teaches social responsibility.

Sri. G. Nagarajappa (former Gram Panchayat President and senior village leader), Sri. Pratap (village leader), Sri. Ravindra R.S. (Gram Panchayat member), Sri. Revanna, and Sri. Praveen Narayanashetty were present on the dais and shared their experiences. In the afternoon (3:00-4:00 PM), Sri. Munegowda, Advocate, Kolar, delivered a special lecture on the Motor Vehicles Act. The evening cultural programme featured Tanush Academy and a Mimicry artist (Karnataka Guinness Book Record holder) who enthralled villagers with an outstanding performance.

Sri. Muni Venkatappa, a senior leader and social worker, generously donated the complete grocery supplies for the entire one-week camp. Sri. Manjunath, village leader, provided daily milk supply throughout the camp.

Day 2 (22/04/2026) — Legal Aid and Awareness Programme, Ramasandra Village.

The programme was inaugurated at 10:00 AM by Sri. Srinivas Patel, Principal Civil Judge and JMFC, Kolar. Chief Guests: Sri. R. Natesh, Hon'ble Senior Civil Judge and Member Secretary, DLSA, Kolar, and Sri. C. Subramani, Vice-President, District Bar Association, Kolar. Dr. Koushik C., Principal, School of Law, presided over the event. The Camp Officer delivered the introductory address on the Legal Aid and Awareness programme.

Sri. Srinivas Patel spoke about disciplined legal education and the qualities of restraint and discipline for law students. Sri. R. Natesh delivered a comprehensive talk on government welfare schemes and how citizens can avail them. Sri. C. Subramani motivated students by sharing his life's success story through disciplined practice. Dr. Koushik C. and Sri. Rajendraprasad K.M. shared insights on legal awareness as a social necessity.

Afternoon special lecture: Sri. Venkatesh Chalapathi, Senior Advocate, Kolar, delivered an outstanding lecture on the Consumer Protection Act. Evening cultural programme: Smt. Ashwini G., a senior-level exponent of Karnataka classical music, entertained villagers and students through music and Bharatanatyam. Notably, Sri. R. Natesh visited the camp a second time the same evening to continue legal aid and awareness for villagers, continuing despite two power cuts.

Day 3 (23/04/2026) — Free Health Check-Up Camp (in association with Sri Devaraj Urs Medical College, SDUAHER).

A Free Health Check-Up Camp was organized at 10:00 AM. Sri. G. Nagarajappa, senior village leader, along with the Primary Health Officer, graced the occasion. Camp Officer Sri. Rajendraprasad K.M. delivered the introductory address. A representative from the Medical College explained the available medical facilities, free medicine distribution (particularly for diabetes patients), and requested villagers to bring Aadhaar card copies.

A team of six senior medical officers and three assistant doctors from SDUAHER participated across all departments, providing free check-ups and distributing medicines to all villagers of Ramasandra. Afternoon special lecture: Sri. Bhairegowda, Senior Advocate, delivered a

Scanned with OKEN Scanner

profound lecture on real-world law. Evening cultural programme: Surya Kshatriya and team gave a magnificent performance. Camp volunteers Sri. Chandru and Sri. Manu contributed buttermilk and panaka for participants.

Day 4 (24/04/2026) — Fire Extinguisher Awareness Programme.

The Fire Extinguisher Awareness Programme was inaugurated at 10:30 AM by the Fire Brigade personnel. The Camp Officer delivered the introductory address on the importance and danger of fire. Fire Brigade officers conducted a detailed 40-minute awareness session on the Fire Triangle. The Principal spoke about the elements of fire, air, and water. A live demonstration was conducted using the fire engine, practically showing how to extinguish fires using various equipment.

After lunch, volunteers carried out Shramadana to clean the school premises. The evening cultural programme (7:15 PM) featured games for villagers — Musical Chair, Table and Spoon, and Passing Ball — for all age groups, along with a Rangoli competition (34 households participated). The programme saw massive participation and continued until 10:00 PM. Contributors: Sri. Chidananda (financial aid), Sri. Manjunath & Sri. Shivanna (dinner for volunteers), Sri. Ravindra (bajji, chillies, tomatoes).

Day 5 (25/04/2026) — Tree Plantation Festival (Van Mahotsav).

At 10:30 AM, Sri. Natesh visited for the second time and delivered an extensive seminar on land safety and protection. Chief guests Sri. G. Nagarajappa and Sri. Shivanna, village leaders, were present. Sri. Rajendraprasad K.M. delivered the introductory address on the importance of the environment. A tree plantation programme was successfully conducted by planting saplings. Due to unavoidable circumstances, the special lecture programme could not be held.

The evening cultural programme (8:00 PM) highlighted the importance of folk songs over western music. As this was the last evening, all students drew the map of India, lit lamps on it representing Bharat Mata, and shared their NSS experiences and reflections on how the camp helped them overcome selfishness and taught social responsibility.

Day 6 (26/04/2026) — Valedictory Ceremony (10:00 AM to 1:00 PM).

The Valedictory Ceremony was presided over by Dr. Muninarayana C., Registrar, SDUAHER. Chief Guests: Dr. Koushik C., Principal, School of Law, and Smt. Anjum Mohammed, Student Welfare Officer, School of Law. Camp Advisors: Sri. Sumanth A.V. (NSS Coordinator, SDUAHER). Camp Officer: Sri. Rajendraprasad K.M. presented the comprehensive camp report and distributed certificates.

Coordinators: Dr. Nathyakumari H., Smt. Vidhya C., Sri. Madan D.D. Student Coordinators: Sri. Chandru S.K. & Ku. Bhavana S. Honoured Guests: Sri. G. Nagarajappa (Former GP President), Smt. Lakshmi (PDO, Hutturu GP), Sri. Pratap, Sri. Ravindra R.S., Smt. Vanajakshy, Sri. Shivanna, Sri. Praveen, Sri. J. Narayana Shetty, Sri. Yuvaraj, Sri. Manjunath, Sri. Madhu Kumar (Secretary, Milk Co-operative), Sri. Srinivas (Head Teacher, Govt. Primary School, Ramasandra), Smt. Subbamma (Anganwadi Teacher, Ramasandra). Certificate distribution and camp report presentation by Sri. Rajendraprasad K.M.

Individual Awards:

All Rounder Male — Prakash | All Rounder Female — Ashwini | Best NSS Volunteer Male — Shiva G.R. | Best NSS Volunteer Female — Vaishnavi | Best Server Male — Prithviraj.

6	**Participants**
	Day 1 to Day 6 (21/04/2026 to 26/04/2026): Students: 45, Teaching Faculty: 5, Non-Teaching Staff: 2 — Total: 52
7	**Any other information**
	Each day of the camp focused on a distinct theme: Inauguration and community introduction (Day 1), Legal Aid and Awareness with judicial officers from DLSA Kolar (Day 2), Free Health Check-Up Camp in association with SDUAHER Medical College (Day 3), Fire Extinguisher Awareness with live demonstration by the Fire Brigade (Day 4), Tree Plantation Festival / Van Mahotsav (Day 5), and Valedictory Ceremony with awards and certificate distribution (Day 6). The daily routine included Shramadana (voluntary labour), Pattana Savari (village awareness rally), yoga, games, flag hoisting ceremony, special lectures by resource persons, and evening cultural programmes engaging both students and villagers. The camp instilled a deep sense of social responsibility, selfless service, discipline, teamwork, and leadership among the students, reinforcing the NSS motto — "Not Me, But You." The camp received generous support from the villagers of Ramasandra, including Sri. Muni Venkatappa (complete grocery supplies), Sri. Manjunath (daily milk), and several other contributors. The School of Law, SDUAHER, extends its heartfelt gratitude to the SDUET Management, SDUAHER administration, all faculty, staff, students, village leaders, contributors, and the people of Ramasandra for making this camp a grand success.

Event Report

Name of the Event: National Hybrid CME
College: Sri Devaraj Urs Medical College
University: Sri Devaraj Urs Academy of Higher Education and Research
Date: 17.04.2026

Sl. No.	Particulars
1.	**Level of Event**: National Level
2.	**Background / Introduction**: Department of Biochemistry this CME which highlights latest advance markers and importance of Diabetic Kidney Disease. This CME under the banner of Sri Devaraj Urs Academy of Higher Education and Research, explores cutting edge biomarkers and therapeutic targets, focusing on early detection and management. Eminent speakers discuss clinical applications, lifestyle interventions and emerging treatments to slow progression and improve outcomes.
3.	**Venue**: BC Roy Hall, 1st Floor Library Building Zoom link: https://us06web.zoom.us/j/83915210665?pwd=sO7SgkYaaf0QNjdFDNqNy6ZYOJagaM.1 Meeting ID: 839 1521 0665 Passcode: 306216
4.	**Sponsors**: SDUAHER and MERT
5.	**Proceedings:** 9:00AM -9:30AM registration and photo session. Dr. Sana Iftikhar PG/Tutor Department of Biochemistry were the Master of Ceremony. At 9:30AM Dr. Sana started the program by inviting the 1st speaker Dr. Balachandra Prof. Dept. Of General Medicine from Sapthagiri Institute of Medical Sciences and Research Centre.Speaker stressed uponRecent Advances and treatment modalities in management of Diabetic kidney Disease. The correlation of treatment and dietary modifications was the highlight which is present day scenario. Dr. Prabhavathi K, Prof. & Head Department of Biochemistry chaired the session. 10.15AM the session was ended. **Inaugurationat** 10:20AM with the invocation by Dr. ShilpiPG/Tutor, Department of Biochemistry, Dr. Prabhavathi K, HoD and Professor Department of Biochemistry addressed the gathering with Welcome note by briefing about the speakers and their talk on today's topic. All the dignitaries were called upon for watering the plant. Honorable VC madam, Dr. B Vengamma deliberated on diabetes and associated complications along with eGFR and newer biomarkers. Honorable vice president of the trust Sri. Rajendra. J highlighted on diabetes. After the official inaugural ceremony tea break was given for all the delegates. The program resumes from 11.00AM. **Speakers:** 2. Dr. Prasanna Kumar N, Associate Professor, Nephrologistat RL Jalappa Hospital and Research Centre. The speaker deliberated about Role of Newer Biomarkers in Kidney Disease Detection in the 2nd session. 3. Dr. Anitha Devanath Prof. at St. Johns Medical College Bangalore Madam's deep understanding on the subject as biochemist made the session more understanding and useful.

	4. Gokul Kesavan Director, Cas Core Bio Pvt. Ltd., Bangalore deliberated on CRISPR- Based Gene Correction for Monogenic Diabetes (MODY): A Precision Medicine Approach linking of diabetes to molecular gene level for better understanding on epigenetics Lunch break was called for after the 4th session at 1.15PM. CME was resumed at 2.00PM with session by Mr. Santhosh Pothram 5. The next session was a talk on Insulin resistance a risk factor CKD by Mr. Santhosh Potharam. The narration with studies done by them made session more active. 6. Dr. Narendranath S, Professor, Department of Pharmacology, JJM medical College Davangere concentrated on dosage and impact of drugs in diabetic kidney disease which every clinician must know.
6.	**Conclusive remarks**: The CME elucidated raising concern in newer biomarkers for diabetic kidney disease. There was discussion regarding research and collaboration with Dr. Gokul Kesavan and Dr. Anitha Devanth.Dr. Shashidhar KN also stressed upon linking with fluorosis for further MoU.
7.	**Participants & delegates:** A total of 155 delegates participated in the event
8.	**Prize Distribution**: The delegates certificates were distributed during valedictory
9.	**Valedictory Ceremony**: The CME was concluded with Vote of Thanks by Ms. P. Sharon Rose followed by hi- tea at 4.00PM
10.	**Highlights of events including photos** This CME explores cutting edge Biomarkers and therapeutic targets, focusing on early detection and management and therapeutic targets, focusing on early detection and management. Eminent speakers discuss clinical applications, lifestyle interventions and emerging treatments to slow progression and improve outcomes.

Event Report

Name of Event: **CME - Gut Liver Kaleidoscope**

Name of Department: **Pediatrics**

Sl. No	Event Report
	Level of Event
	State level
	Background / Introduction
	The relationship between the gut and liver—often referred to as the **gut–liver axis**—plays a crucial role in pediatric health and disease. In children, this connection is particularly significant because both the gastrointestinal system and the liver are still developing, making them more vulnerable to environmental influences, nutritional factors, and infections. Early recognition and management of gut–liver interactions are essential in pediatric care. Understanding this intricate relationship not only aids in the diagnosis and treatment of diseases but also supports a more holistic approach to child health and development. Byp fostering collaboration and knowledge exchange, the Gut–Liver Kaleidoscope reflects a commitment to advancing awareness, improving patient outcomes, and inspiring continued innovation in the study of the gut–liver connection.

	Highlights of Events including Photos

The Department of Pediatrics conducted a state level CME on "Gut Liver Kaleidoscope " on 23/3/26 at William Osler Hall, SDUMC, Kolar.The CME started with a lecture on **"Interpretation of Liver Function Tests"** by Dr. Abhijith, which provided a structured and practical approach to analyzing biochemical parameters and correlating them with clinical conditions. This was followed by an insightful session on **"Cholestatic Jaundice"** by Dr. Srikant, where the emphasis was on early diagnosis, etiological evaluation, and timely management, especially in the pediatric age group.Following this was the Inaugural function with invocation, watering of Plant, welcome speech by Dr James Daniel S and Speech by Dr. Vengamma , Vice Chancellor, SDUAHER, Dr. Krishnappa .J, Prof & HoU, Department of Pediatrics, Medical Superintendent, RLJH&RC and Dr Prabhakar Principal, SDUMC. This was followed by tea break.
Subsequent sessions covered a wide range of important pediatric gastrointestinal and hepatological topics. The discussion on **Gastroesophageal Reflux Disease (GERD)** highlighted its clinical spectrum, red flag signs, and stepwise management. The session on **Chronic Liver Disease** focused on early recognition, etiological workup, and prevention of long-term complications.
A hallmark of the event was the **panel discussion on Acute Liver Failure**, presented in a case- based format by a postgraduate (PG). This session stood out for its interactive and practical approach, where a real-life clinical scenario was discussed in depth. The panel of experts provided valuable insights into early recognition, diagnostic challenges, and evidence-based management strategies, including timely referral and critical care support
Practical and clinically relevant topics such as **Gastrointestinal Bleeding in Children** were

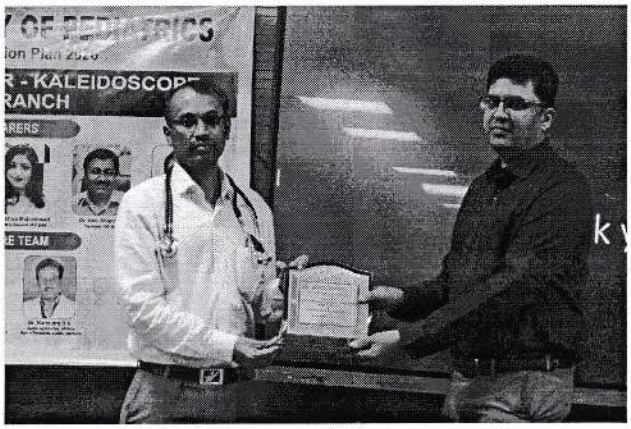

addressed with a systematic approach to evaluation and emergency management. Additional sessions on **Constipation** emphasized common causes, evaluation, and evidence-based management in children, while **Gastrointestinal Foreign Body Ingestion** provided guidance on timely identification and appropriate intervention strategies.

The topic of **Nutrition in Critical Illness** was particularly insightful, highlighting the importance of early nutritional support, appropriate feeding strategies, and its impact on recovery and outcomes in critically ill children.The event concluded with a vote of thanks, followed by a tea break that provided an opportunity for informal discussions and meaningful interactions with the experts..

EVENT REPORT

Name of the Event: **OPTOCON 2026 (26-3-2026)**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report - Ophthalmology
1	**Name & Level of Event –** OPTOCON 2026 **State level conference –Hybrid**
2	**Background / Introduction**
	OPTOCON 2026 is an academic State Level conference organized in celebration of World Optometry Day, in Collaboration with Karnataka Optometry Association and Prakruthi College of Allied Health Sciences with a Theme: "A Shared Vision: Collaboration in Global Eye Care" to recognize the significant contributions of optometrists in improving vision and promoting global eye health. The conference aims to bring together optometry students, academicians, researchers, and eye care professionals to exchange knowledge and discuss recent advancements in optometry and vision science. By celebrating World Optometry Day through OPTOCON 2026, the conference highlights the importance of accessible, affordable, and quality eye care for all, while inspiring future optometrists to play an active role in preventing visual impairment and blindness.
3	**Venue –** C V Raman Auditorium, SDUAHER, Kolar Workshop – William Osler Hall, SDUAHER, Kolar
4	**Sponsors –** 1. Bausch and Lomb, Bengaluru 2. Lenskart, Bengaluru 3. The Best Opticals, SDUAHER, Tamaka, Kolar.
5	**Inauguration**

	• Welcome addresses and introduction by Dr. Sangeetha. T, Prof. & HOD of Ophthalmology, SDUMC. • Chief Guest – 1. Dr. Vengamma - Vice chancellor, SDUAHER 2. Dr. Muninarayana C – Registrar, SDUAHER 3. Dr. C D Dayanand – Dean, FAH&BS, SDUAHER
6	**Speaker/ Judges / Chairman / Panel Team**
	1. Optom. Deepa G K– Myopia management: From detection to control 2. Optom. Karthik M– Spectacle design and prescription effect on Visual quality 3. Dr. Narendran B S– Nutrition and it's impact on Eye Health 4. Optom. Nishad Begum A P – Common disorders encountered in Low Vision & it's management and Hands on Session.
7	**Participants & Delegates in Number – 233** [Delegates, Faculty, undergraduates, residents and optometry students of the academy and other Institutes had participated in this event]
8	**Awards / Prizes -** Certificate of participation was awarded to the speakers, delegates, faculty & residents Winners and Participants of Quiz and poster Competition.
9	**Valedictory –** NA
	-
10	**Highlights of the events including photos – ENCLOSED**

Optom Shakeela B from department of Ophthalmology and Optom. Shaguftha Khanum from Prakruthi College of Allied Health Sciences welcomed the gathering and elaborated on the importance of "**World Optometry Day, with a Theme: "A Shared Vision: Collaboration in Global Eye Care"** as follows:

MC started the first session by introducing the guest speaker **Optom. Deepa G K,** KOA President, Assistant Professor, Nethradhama School of Optometry, Bangalore and invited to deliver the talk on ***"Myopia management: From detection to control".*** Her talk enriched the audience knowledge about the vision and eye care. There was active participation of Residents and faculty.

Inauguration started with Melodious rendition by Dr. Anjali and Dr. Darshini kattula to invoke the blessings of the almighty Lord followed by welcome address.

On behalf of the Department Dr. Sangeetha. T paid respect to our late founder president, Jalappaji and welcomed everyone for this academic session commemorating the ***"World* Optometry Week"** from March 23rd – 28th.

The event commenced with the traditional lighting of the lamp, by Vice Chancellor, Registrar, Dean and Speakers symbolizing the triumph of knowledge over ignorance and the invocation of an auspicious beginning for the day's proceedings.

Our honourable Vice Chancellor **Dr. Vengamma** was introduced and invited to address the gathering who appreciated the department for organizing the conference in view of ***"World Optometry Day celebration."*** She highlighted the importance of vision, advancements in Refractive Surgeries and Global Eye Care.

Winners of Poster Competition

Winners of Quiz Competition

Prizes and certificates were distributed for the winners of Quiz and Poster Competition

Next the MC introduced the guest speaker ***Optom. Karthik M,*** Professional Executive Services, Bausch + Lomb, and invited to deliver the talk on ***"Spectacle design and prescription effect on Visual quality".*** His talk enriched the audience knowledge about the spectacles and frames and about multifocal lens. There was active participation of Residents and faculty in different case scenarios.

Guest speaker **Dr Narendran B S** Assistant Professor, Department of Ophthalmology, and invited to deliver the talk on ***"Nutrition and it's impact on Eye Health".*** His talk enriched the audience knowledge about the food habits and eye care. There was active participation of Residents, faculty and delegates.

Guest speaker **Mr. Japin Charan** was invited to deliver the talk on ***"AI in retail optometry".*** His session enriched the audience with a deeper understanding of AI interpretation and highlighting its growing importance in modern eye care practice. There was active participation from residents, faculty, and delegates.

Felicitation of the speakers and Sponsers by the department faculty

Sl. No.	Event Report- World sleep day
1	**Name & Level of Event**
	The Department of Physiology, SDUMC is organizing a Guest lecture on "Sleep, melatonin and hormonal balance"
2	**Background / Introduction**
	Sleep is one of the most fundamental biological processes essential for maintaining physical, mental, and metabolic health. In today's fast-paced lifestyle, irregular sleep patterns, increased screen exposure, and stress have significantly disrupted our natural sleep–wake cycle. These disturbances can affect the secretion of melatonin, a key hormone produced by the pineal gland that regulates circadian rhythm and plays a crucial role in maintaining hormonal balance

Academic Year: 2025 - 2026

Sl No.	Event Report-Department of Pharmacology
1	**Name & Level of Event:** Institutional Guest Lecture on **"Medication Use and Patient Safety".**
2	**Background /Introduction** In the complex ecosystem of contemporary medicine, medication management represents one of the most frequent—and high-stakes—interventions performed by healthcare professionals. While pharmacological therapy is a primary tool for healing, it carries an inherent risk of error that can undermine patient outcomes and erode institutional trust. A medication error is any **preventable** event that leads to inappropriate medication use or patient harm while the drug is in the control of a professional or consumer. **Where Errors Occur:** While they can happen during prescribing, transcribing, or dispensing, and administration. **Root Causes:** Most errors are "system failures" rather than individual negligence. Primary drivers include **communication breakdowns** (illegible handwriting), **LASA (Look-Alike/Sound-Alike)** drugs, and **human factors** like fatigue and burnout. **Prevention (Providers):** Focuses on technology like **CPOE** (computerized ordering) and **BCMA** (barcode scanning), as well as fostering a **"non-punitive culture"** to encourage the reporting of near-misses. **Prevention (Patients):** Patients are encouraged to use a **single pharmacy**, maintain an active medication list, and use **precise dosing tools** (oral syringes) instead of household spoons. **Adherence to Medication**: Adherence is not just about memory; it is a complex interplay of a patient's identity, their trust in the medical system, and their internal calculation of risk versus reward. **Preventive Measures for Non-Adherence** To address the complex interplay of identity and risk-calculation mentioned above, preventive strategies must be multifaceted: **Behavioral & Environmental (Unintentional)** • Habit Stacking: Linking medication to an existing daily anchor (e.g., placing the bottle next to a toothbrush). • Technological Aids: Using smart pill bottles or mobile apps that send nudges and track dosage history. • Simplification: Working with providers to reduce "pill burden" through once-daily dosing or combination therapies. **Cognitive & Educational (Intentional)** • Concordance Building: Shifting from "telling" to "sharing," where the patient and provider agree on the treatment goals together.

Dasala.G. 25/03/2026

	• Addressing "Silent" Conditions: For asymptomatic issues (like hypertension), using biofeedback or regular monitoring to make the "invisible" benefit of the drug visible.
3	**Venue**

Name of the Departments: General Medicine and Respiratory Medicine

Sl. No.	Event Report
1	**Name & Level of Event**
	CME on the occasion of World TB Day (Tuberculosis & Its Comorbidities)
2	**Background / Introduction**
	On the occasion of World TB Day 2026, the Department of Respiratory Medicine/ NTEP unit in association with Department of General Medicine is celebrating World TB Day on 24th March2026. The theme of World TB Day 2026 - ***'Yes! We can end TB!'*** - is a bold call to action and a message of hope, affirming that it is possible to get back on track and turn the tide on the TB epidemic, even in a challenging global environment. With decisive country leadership, increased domestic and international investment, rapid uptake of new WHO recommendations and innovations, accelerated action, and strong multisectoral collaboration, ending TB is not just aspirational - it is achievable. "Yes! We Can End TB. Led by INDIA. Powered by NTEP".

DEPARTMENT OF COMMUNITY MEDICINE

No: SDUMC/KLR/COMM/ 602 /2025-26 Date:24-03-2026

Sl No:	Event Report
1.	**Name & Level of Event**: Observation of World TB Day 2026.
2.	**Date**: 23rd March 2026
3.	**Conducted by**: Department of Community Medicine, Sri Devaraj Urs Medical College, Kolar.

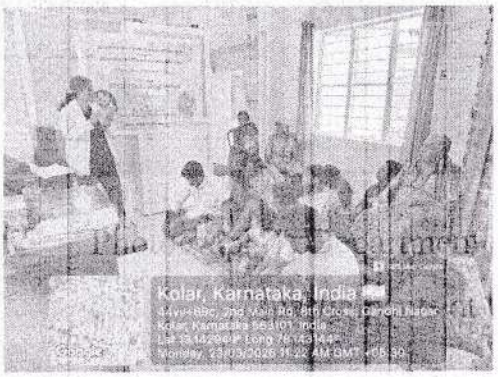

4.	**Background / Introduction**: Each year we commemorate World TB Day on 24th March to raise public awareness about the devastating health, social and economic consequences of tuberculosis (TB) and to step up efforts to end the global TB epidemic. The date marks the day in 1882 when Dr. Robert Koch announced that he had discovered the bacterium that causes TB, which opened the way towards diagnosing and curing this disease. The theme of World TB Day 2026 - **Yes! We can end TB!**' - is a bold call to action and a message of hope, affirming that it is possible to get back on track and turn the tide on the TB epidemic, even in a challenging global environment. With decisive country leadership, increased domestic and international investment, rapid uptake of new WHO recommendations and innovations, accelerated action, and strong multisectoral collaboration, **ending TB is not just aspirational - it is achievable**.
5.	**Venue**: UHTC, Gandhinagar, Kolar, Karnataka.
6.	**Sponsors**: Sri Devaraj Urs Academy of Higher Education and Research.
7.	**Date**:23-03-2026 **Health awareness**: **World TB Day 2026** was observed through an awareness program focusing on the identification of symptoms, the importance of timely treatment, and adherence to anti-tubercular therapy. The session also highlighted key aspects of disease prevention, the role of adequate nutrition in recovery, and the significance of community participation in reducing stigma associated with tuberculosis. Special emphasis was placed on the utilization of the National Tuberculosis Elimination Program (NTEP) and the supportive role of *Nikshay Mitra* in patient care and treatment adherence.

Photograph 1: Department of Community Medicine with the participants at UHTC, Gandhinagar.

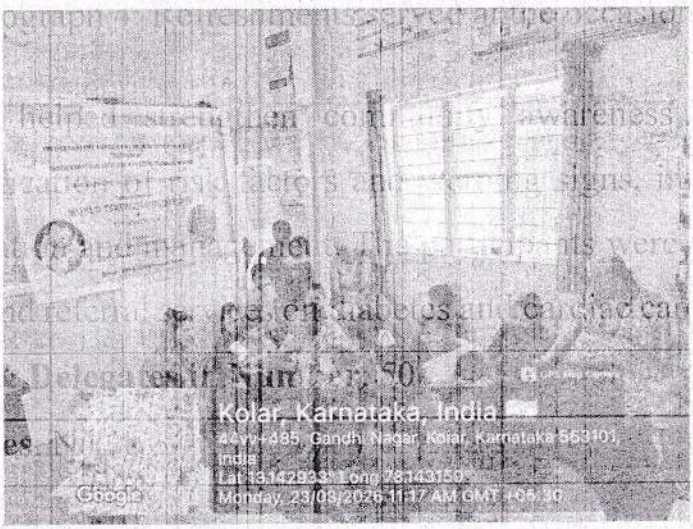

Photograph 2: Dr. Chanditha K Reddy and Dr. Amal. Joy, postgraduates, educating people about the symptoms of TB and importance of early diagnosis and treatment..

Photograph 3: Dr. Pruthvi.P, postgraduate, explaining about the National Program, NTEP, Nikshay Poshan and role of Nikshay Mithra and access to Nikshay Sampark.

Photograph 4: Refreshments served at the occasion.

The program helped strengthen community awareness on disease burden, identification of risk factors and warning signs, importance of early identification and management. The participants were educated on better access and referral services on diabetes and cardiac care in RLJH.

8	**Participants & Delegates in Number**: 50
9	**Awards / Prices**: Nil

10	**Any Other Information**: The program was conducted as part of the institutional outreach efforts. Photographs were taken for documentation.

The theme of World TB Day 2026 - **Yes! We can end TB!**' - is a bold call to action and a message of hope, affirming that it is possible to get back on track and turn the tide on the TB epidemic, even in a challenging global environment. With decisive country leadership, increased domestic and international investment, rapid uptake of new WHO recommendations and innovations, accelerated action, and strong multisectoral collaboration, **ending TB is not just aspirational - it is achievable**.
5.	**Venue**: Government polytechnic college, Kantharaj circle
6.	**Sponsors**: Sri Devaraj Urs Academy of Higher Education and Research.
7.	**Date**:28-03-2026 A health awareness program on Tuberculosis (TB) was conducted at Government Polytechnic College, Kantharaj Circle, for approximately 120 students. The program was organized by Dr. Sudhakar through the RHTC, Department of Community Medicine, SDUMC. As part of the activity, interns delivered an informative health talk covering important aspects of TB including causes, symptoms, mode of transmission, prevention, and availability of free diagnosis and treatment under national programs. To enhance understanding and engagement, a role play on TB awareness was also performed by the interns, effectively highlighting the importance of early diagnosis, treatment adherence, and reduction of stigma associated with TB. The

	session was interactive and helped improve awareness among students regarding prevention and control of tuberculosis, thereby promoting better health-seeking behaviour in the community.  *Figure 1Health awareness talk to polytechnic college students by our postgraduate*  Figure 2The Organizing team
8	**Participants & Delegates in Number**: 120
9	**Any Other Information**: The program was conducted as part of the institutional outreach efforts. Photographs were taken for documentation.

EVENT REPORT

Name of the Event: National Level CME on "**RETHINKING GLAUCOMA: BEYOND PRESSURE AND PROGRESSION"**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report- Ophthalmology
1	**Name & Level of Event –:** National Level Hybrid CME **RETHINKING GLAUCOMA: BEYOND PRESSURE AND PROGRESSION** conducted on 18-3-2026
2	**Background / Introduction** This CME program, ***"Rethinking Glaucoma: Beyond Pressure and Progression,"*** is significant because it goes beyond just managing intraocular pressure, which is currently the only treatable risk factor for glaucoma. The program acknowledges the need to look "beyond" this traditional focus and explore other aspects of the disease. Not everyone with high eye pressure develops glaucoma, and some people with normal pressure still suffer damage. The CME aims to deepen the understanding of other underlying mechanisms. Early Detection: Improved methods for earlier diagnosis are vital to prevent vision loss. Innovations in Treatment: New drug delivery systems and surgical techniques, like minimally invasive glaucoma surgery (MIGS), are emerging, which can offer better management options. Beyond slowing progression, the program addresses how glaucoma affects a patient's overall quality of life.
3	**Venue** – William Osler (physiology AV Hall), SDUMC Kolar

Dr. Chhavi and Dr Archala, second year residents from department of Ophthalmology welcomed the gathering and elaborated the importance of conducting this CME.

The academic program commenced with an insightful session by our in-house speakers, **Dr. Hithesh I** and **Dr. Anunitha R**, Senior Residents from the Department of Ophthalmology, on the topic *"A to Z Gonioscopy: Mastering Angle Evaluation in Glaucoma."* The session was moderated by **Dr. Padmini A**, Associate Professor, SDUMC.

Dr. Hithesh opened with the essential anatomy of the anterior chamber angle, emphasizing why gonioscopy remains an irreplaceable tool for both undergraduate and postgraduate students in differentiating glaucoma types. He also elaborated in detail on various gonioscopic grading systems, enhancing the conceptual clarity of the audience.

Dr. Anunitha followed this with a highly impactful live demonstration. Utilizing a 3-mirror Goldmann lens, she performed a real-time examination on a patient, offering postgraduates a front-row view of the technical nuances required for accurate visualization.

Melodious rendition by first year residents from Department of Ophthalmology Dr. Darshini, Dr. Lalithya & Dr. Anjali to invoke the blessings of the almighty Lord

The next session was delivered by our esteemed guest speaker, **Dr. Arutpriya A**, Consultant in Anterior Segment, Glaucoma, and Uvea, PSG Institute of Medical Sciences and Research, Coimbatore. The session was moderated by **Dr. Rashmi G**, Professor, SDUMC.

Dr. Arutpriya presented an excellent talk on ***"Progression in Glaucoma: Understanding Disease Dynamics."*** She provided valuable insights into the factors influencing glaucoma progression and emphasized the importance of timely diagnosis and monitoring. The session was enriched with case-based discussions, which made it highly interactive and engaging for postgraduate students, encouraging critical thinking and clinical application.

The third session was delivered by **Dr. Parul Goel**, Senior Consultant in Glaucoma and Squint, Om Prakash Eye Institute and Hospital, Amritsar. The session was moderated by **Dr. Chaitra MC**, Professor, SDUMC.

Dr. Parul Goel delivered an insightful lecture on ***"Glaucoma Beyond IOP: Vascular and Neurodegenerative Factors."*** She highlighted the multifactorial nature of glaucoma, focusing on vascular dysregulation and neurodegenerative mechanisms beyond intraocular pressure. This session broadened the perspective of the audience regarding the pathophysiology and that managing glaucoma requires looking beyond the tonometer to address the underlying systemic and neurological health of the optic nerve.

The next session featured **Dr. Soumya Krishna**, Senior Consultant in Anterior Segment and Glaucoma, Nethradhama Superspeciality Eye Hospital, Bengaluru, and was moderated by **Dr. Usha BR**, Professor, SDUMC.

Dr. Soumya Krishna delivered an informative online lecture on ***"Recent Advances in Glaucoma Surgeries."*** This enlightening session bridged the gap between traditional filtration surgeries and modern interventions. Dr. Soumya Krishna shared high-definition surgical videos detailing MIGS and newer shunt technologies. Her clear clinical insights into patient selection and post-

operative management provided the audience with a practical roadmap for adopting these advance surgical approaches, making the session informative and visually engaging for all.

Following the lunch break, **Dr. Sangeetha T** explored the cutting edge of digital health. This session was moderated by Dr, Narendran BS, Associate Professor, SDUMC. Her presentation on **Artificial Intelligence (AI)** demonstrated how deep-learning algorithms are now being used to screen for glaucomatous changes in optic disc photos and OCT scans. The session sparked a vibrant discussion on how AI can enhance early detection in community outreach programs.

The session also highlighted emerging technologies, their applications in early diagnosis, disease monitoring, and management, and their potential to revolutionize ophthalmic practice in the future.

The academic sessions were followed by a lively and intellectually stimulating **Postgraduate quiz**. The quiz was designed to assess and reinforce the knowledge gained throughout the day. It included a variety of rounds such as rapid-fire questions, case-based scenarios, and image-based identification, which encouraged active participation and critical thinking.

The competition fostered a spirit of healthy academic rivalry among postgraduate students and provided an engaging platform to test their clinical knowledge in glaucoma. The quiz session was highly interactive and well-received by both participants and the audience.

Undergraduate Poster Competition -The theme "Uniting for a Glaucoma-Free World" was vividly brought to life by the undergraduate students. Students presented well-prepared and informative posters covering various aspects of glaucoma, including awareness, early detection, risk factors, and management strategies.The posters were evaluated based on scientific content, clarity, creativity, and presentation skills. This activity encouraged undergraduate students to actively participate in academic learning and helped improve their understanding of glaucoma in a visually engaging manner. The competition also provided a platform for students to showcase their knowledge and communication skills.

Dear Sir,

Subject: Submission of event reports of Gudakesha Meditation workshop.

Concerning the above subject, I would like to bring the following information to your attention. The Department of Integrative Medicine SDUAHER, in collaboration with the Gudakesha Trust, Hyderabad, organized a Gudakesha meditation workshop on 15th March 2026. Herewith, I am submitting the event report in a prescribed format.

Thanking you

Yours Sincerely

(Dr. Ashween Bilagi)

Sl.no	Event Report
1	**Level of Event** – Regional
2	**Background/Introduction-** The Department of Integrative Medicine at Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in collaboration with the Gudakesha Trust, Hyderabad, organized a comprehensive meditation workshop today at the RL Jalappa Auditorium. The event was inaugurated by a distinguished panel, including **Dr. B. Vengamma** (Vice-Chancellor, SDUAHER) and **Dr. Muninarayana C** (Registrar), who welcomed the gathering. Chief Guest Hon. **Smt. B. S. Jayashree,** Hon'ble 1st Additional Judge, shared her personal journey with Gudakesha Meditation, emphasizing its profound impact on mental clarity. In her presidential address, Dr. B. Vengamma highlighted the critical role of meditation in modern health and disease management. Guest of Honour Hon. **Sri R. Natesha,** Member Secretary of the District Legal Services Authority. The highlight of the day was a three-hour intensive session led by **Grandmaster Prabhodh Achyutha**, Founder of the Gudakesha Trust, and **Sri Pradeep M**. The Grandmaster introduced participants to a revolutionary one-minute technique designed for immediate stress relief. The workshop provided research-backed insights into how meditation aids in treating chronic diseases and improving student focus. The event concluded with a strong call to integrate these ancient mindfulness practices into daily academic and professional routines for holistic well-being.

2.	Background / Introduction
The Department of Pathology, Sri Devaraj Urs Medical College, Tamaka, Kolar, organized the **21st Annual National Pathology CME titled "Immunohistochemistry Update: Patterns, Panels and Practical Insights" on 14th March 2026**. The program aimed to enhance the knowledge and diagnostic skills of pathologists and postgraduate students by providing updated insights into the applications of immunohistochemistry in surgical pathology. The CME featured expert lectures, case-based discussions, and slide seminars delivered by eminent speakers from reputed institutions. This academic event provided a valuable platform for participants to understand practical approaches to IHC interpretation and its role in accurate tumor diagnosis and patient management. CME was conducted in both online and offline mode.

Name of the event: Workshop on Objective Structured Practical Examination & Objective Structured Clinical Examination

Date of the event: 12 March 2026

Name of the department: University Centre for Health Professions Education

Sl. No.	Event Report
1	**Level of the event**
	Institute level
2	**Background / Introduction**
	OSCE (Objective Structured Clinical Examination) and OSPE (Objective Structured Practical Examination) are structured, station-based assessment methods widely used in medical and health sciences education. In OSCE, students rotate through timed stations to demonstrate clinical competencies such as patient examination, history taking, communication, and clinical decision-making using standardized scenarios or simulated patients. In OSPE, the station format is used to assess practical or laboratory skills, including performing procedures, identifying instruments or specimens, making observations, and interpreting results. Both methods aim to provide objective, reliable, and comprehensive evaluation of students' practical and clinical competencies.

9	**Valedictory**
	Feedback was collected from the participants
10	**Any other information**
	The workshop focused on familiarizing participants with the OSPE and OSCE assessment formats and their role in evaluating clinical and practical competencies. Sessions provided an overview of the structure, purpose, and implementation of these station-based examinations. Faculty members were

	trained in the design and development of OSPE and OSCE stations, with emphasis on constructing clear tasks, structured checklists, and balanced distribution of activities across cognitive, affective, and psychomotor domains. Participants also visited nine demonstration stations prepared by different departments, where examples of well-designed stations were displayed. This activity helped participants observe how various skill domains and content areas can be effectively integrated into structured assessment stations.

ALL SENIOR RESIDENTS AND POST GRADUATE STUDENTS IN SURGICAL ONCOLOGY,GENERAL SURGERY , OBG, PATHOLOGY DEPT

Date of conduct of event: 10.03.2026

The R.L. Jalappa Institute of Oncology, a constituent unit of Sri Devaraj Urs Academy of Higher Education and Research, conducted a CME on "NATIONAL UPDATE ON BREAST CANCER" in the department of Department of Surgical Oncology and R&D, CO-SPONSORED BY: National Academy of Medical Sciences New Delhi. in Collaborative Departments of General Surgery, Radiology, Community Medicine, OBG, Pathology ,CBMG . This significant event took place on the 10th March 2026, hosted within the College campus premises. Esteemed dignitaries from the Academy adorned the occasion with their presence. Notably, the distinguished presence of , Dr Usha Rani Asst. prof. department of radiology sdumc, kolar Dr Prashant Mathur ICMR Director, Bangalore Dr. S.M Bose Department of General Surgery, Chairman, Academic Council, NAMS, New Delhi. Dr. Harish K Professor and head Dept of Surgical Oncology, MSR Bangalore Dr. Anil Kumar Consultant Medical Oncologist , SPARSH Hospitals Bangalore Dr. Seema Gullia Prof & HOD Dept of Medical Oncology Punjab Dr G K Rath Retired director national cancer institute New Delhi Dr. Usha Kini Professor, dept of pathology National Cancer Institute Bangalore Dr. Kavitha Jain Consultant Surgical oncology Dasappa Memorial Hospital Bangalore added to the prestige of the event as the chief guests and speakers .

Dr Usha Rani emphasized the importance of Breast cancer in Semi – Urban india: Bridging the Gap Between Awareness and Early detection. Dr Prashant Mathur discussed the Breast Cancer in India: Insights from National Cancer Registry Program State wise Estimated Crude Incidence Rate (per 100,000) for Breast Cancer in India- 2024. . Dr. S.M Bose discussed what is early Breast Cancer ?? Breast cancer that ha not spread beyond the breast or axillary lymph nodes. This includes in situ breast cancer (stage O) and stage I, Stage IIA breast cancers. Dr. Harish K

brought out the various conditions that can Surgical Management of the Axillary Nodes in Breast Cancer Navigating the Shift from Radical Clearance to Precision De-escalation . Dr. Anil Kumar discussed Evolution of Adjuvant Therapy, Historical Evolution of Adjuvant Chemotherapy Risk Stratification for Adjuvant Chemotherapy Molecular Subtypes & Adjuvant Strategy Triple Negative Breast Cancer (TNBC) Role of Neoadjuvant Therapy**.** Dr. Seema Gullia discussion of the latest available armamentarium for the management of Her 2 neu positive metastatic Breast cancer. Dr G K Rath discussed role of RT Literature Review indian studies AIIMS experience RECENT Advances Multi- ion therapy, Brachytherapy, protons, carbon ions, Boron Neutron capture Therapy Hyperthermia Higher rates of LR in BCT arm (8.8% vs 2.3%), no difference in OS/ DFS at 20yr follow up. Dr. Usha Kini discussed Tumor affecting Breast (cont..) Epithelial tumors, Myoepithelial lesions, Mesenchymal tumors, Fibroepithelial tumors, tumors of the nipple, Malignant lymphoma, Metastatic tumors, tumors of the male breast. Dr. Kavitha Jain discussed Every patient undergoing breast cancer surgery deserves , Ideal oncologic outcome – DFS, OS, Best aesthetic result possible. Things to remember : Prioritize oncological safety, Involve patient in decision making , Appropriate patient and technique selection, Clip the cavity, Consider negative pressure dressing in high risk.

Dr. Vengamma B, the Honorable Vice Chancellor, emphasized the significance of evidence-based medicine in cancer care. Dr. Prabhakar K, the principal of SDUMC, emphasized the importance of research in the field of oncology.

The R.L. Jalappa Institute of Oncology plays a vital role in providing comprehensive cancer care to patients seeking treatment at the R.L. Jalappa Hospital. With fully equipped surgical, medical, and radiation oncology facilities, the institute operates with a unified mission: to deliver accessible and high-quality cancer care to deserving patients.

The Department of Surgical Oncology has garnered commendable expertise over the years, successfully conducting numerous complex major and supra-major surgeries with favourable outcomes. This integrated approach allows patients to receive all necessary treatments under one roof, eliminating the need for referrals to other institutions.

S. no.	**Event Report**
1.	**Level of Event – Institution/ State/ National/ International**
Institute level	
2.	**Background/ Introduction**
The four-day Dry Needling Workshop was successfully conducted from 10/03/2026 to 13/03/2026, aimed at enhancing the clinical skills and knowledge of participants in evidence-based physiotherapy practice. The workshop included comprehensive theoretical sessions, hands-on training, cadaveric needling exposure, and ultrasound-guided needling techniques. Participants gained practical insights into safety precautions, anatomical considerations, and clinical applications of dry needling. The program was highly interactive and well-received, contributing significantly to the professional development of all attendees.

10. Highlights of the event including photos

Day 1 – 10/03/2026

The first day of the Dry Needling Workshop commenced at 9:00 AM at the MEU, SDUMC, with a welcome address and introduction of the resource person, setting the tone for the program. This was followed by an in-depth theoretical session on dry needling conducted by Dr. Subanjan, where participants were introduced to the fundamental concepts, indications, contraindications, and clinical reasoning behind the technique. The inauguration ceremony was held mid-morning, marking the formal commencement of the workshop. After a short tea break, the session transitioned into demonstration and practical training, allowing participants to observe and practice basic dry needling techniques under expert supervision. Post-lunch, extensive hands-on sessions continued, enabling participants to refine their skills and gain confidence in needle handling, patient positioning, and safety protocols. The day concluded with intensive practical exposure, ensuring a strong foundation in dry needling principles.

Day 2 – 11/03/2026

The second day began with a specialized cadaveric dry needling session in the Department of Anatomy, offering participants a unique opportunity to understand anatomical structures in depth and practice needling with precision. This session significantly enhanced the participants' anatomical orientation and safety awareness. Following a tea break, the workshop continued at the MEU with further demonstration and practical sessions led by Dr. Subanjan. Participants engaged in supervised practice, focusing on identifying trigger points and applying appropriate techniques. After the lunch break, the afternoon session emphasized advanced practical applications, reinforcing previously learned concepts and improving clinical competence. The day provided a valuable blend of anatomical learning and skill-based training.

Day 3 – 12/03/2026

The third day of the workshop was conducted at the Department of Radiology, where the focus shifted towards diagnostic and ultrasound-guided dry needling. The day began with a theoretical session on diagnostic ultrasound by Dr. Guru, introducing participants to imaging principles and their relevance in physiotherapy practice. This was followed by a combined session on ultrasound-guided dry needling conducted by Dr. Subanjan and Dr. Guru, demonstrating the integration of imaging techniques with needling procedures for enhanced accuracy and safety. After the tea break, participants returned to practical sessions at RLJCOPT, where they continued to develop their needling skills. Post-lunch sessions further emphasized hands-on practice, allowing participants to consolidate their learning and gain exposure to advanced techniques. The integration of ultrasound added a significant dimension to the workshop, enhancing clinical precision.

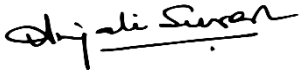

Day 4 – 13/03/2026

The final day of the workshop focused on consolidating the knowledge and skills acquired over the previous days. The morning sessions at MEU, SDUMC included continued demonstration and practical training in dry needling, allowing participants to practice independently under guidance and clarify any remaining doubts. Following a tea break, additional hands-on sessions ensured thorough skill reinforcement. After lunch, participants attended another cadaveric dry needling session in the Department of Anatomy, revisiting anatomical landmarks and refining their techniques with improved confidence and accuracy. The workshop concluded with a valedictory session, where participants reflected on their learning experience. Overall, the four-day workshop was highly informative and skill-oriented, providing comprehensive training in dry needling with a strong emphasis on safety, anatomy, and clinical application.

DEPARTMENT OF PSYCHIATRY

S/N	EVENT REPORT
1	**Name & Level of Event:**
	CME on "Resilient Hearts, Restless Minds: Women's Mental Health Reconsidered."
2	**Background / Introduction:**
	The Department of Psychiatry, Sri Devaraj Urs Medical College, Organized a Continuing Medical Education (CME) programme on **7th March 2026** in observance of **International Women's Day**. The programme focused on **Women's Mental Health**, highlighting the unique psychological, emotional, and social challenges faced by women across different stages of life. The CME aimed to raise awareness regarding gender-specific mental health issues, promote early identification, and discuss effective management strategies. The programme commenced with registration followed by the inauguration and a series of expert lectures, panel discussions, and academic interactions addressing various aspects of women's mental health.
3	**Venue**: Physiology AV Hall, SDUMC
4	**Sponsors**: SDUAHER
5	**Inauguration:** The programme was inaugurated in the presence of distinguished dignitaries including **Dr. Muninarayana C (Registrar, SDUAHER), Dr. Prabhakar K (Dean, Faculty of Medicine & Principal, SDUMC), Dr. Krishnappa J (Medical Superintendent, RLJH&RC), Dr. Dinesh (Deputy Medical Superintendent), Dr. Ruth Sneha (Prof & HOD, Psychiatry) and Dr, Mohan Reddy M (Prof, Psychiatry).** The dignitaries emphasized the importance of recognizing and addressing women's mental health issues and the need for increased awareness and access to mental health services.
6	**Speakers / Judges / Chairman / Panel Team**
	The CME featured several expert sessions delivered by eminent speakers. **Dr. Vimarshitha Professor, Department of OBG, SDUMC** delivered a lecture on *"The Mind-Body Bridge."* **Dr. Prakruthi, Consultant Psychiatrist, Thanu Mana Clinic, Whitefield** spoke on *"From Resilience to Recovery."* **Dr. Keya Das, Professor and HOD, Department of Psychiatry, PES Medical College, Bangalore** discussed *"Medication, Metabolism & Women's Brains."* **Dr. Vedha N Shetageri, Professor, Department of Psychiatry, East Point Medical College, Bangalore** presented on *"Trauma That Doesn't Leave Bruises."* The programme also included a **panel discussion on "Stigma, Silence & Access to Care"** followed by **case vignettes and academic interaction**, encouraging active participation and discussion among the attendees. Also Women's Badminton league was conducted to stress on the importance of physical health, which was a grand success.
7	**Participants & Delegates in Number: Total= 236**
8	**Valedictory function:** The vote of thanks was given by Dr Sahana S Murthy, Assistant professor, department of Psychiatry.

Event Report

Name of the Event: MALE INFERTILITY AND IUI: BRIDGING SCIENCE AND SUCCESS- A STATE LEVEL HANDS ON WORKSHOP

Department: OBG

Venue: WILLIAM OSLER HALL

Date: 5/3/2026

Sl. No.	Particulars
1.	**Introduction**: Infertility affects nearly 10–15% of couples worldwide, and in almost 40–50% of these cases, male factors contribute either solely or in combination with female factors. Despite this significant contribution, discussions around infertility have traditionally focused more on women, while male reproductive health remains relatively neglected due to social stigma, lack of awareness, and limited screening. Early diagnosis, appropriate evaluation, lifestyle modifications, medical therapy, and modern reproductive techniques now offer many couples the hope of parenthood. Hence this workshop was conducted to provide a comprehensive overview of etiology, evaluation, and management of male infertility, while encouraging interdisciplinary collaboration between gynecologists, embryologists, and infertility specialist. This workshop was conducted in association with GENEA FERTILITY CENTRE BANGALORE.
2.	**Proceedings:** **Inauguration**: The programme was inaugurated by Dr B Vengamma, Hon'ble Vice Chancellor , Dr Munikrishna M Professor and HOD department of OBG , Dr Sheela S R Professor and Unit Chief , and Dr Vimarshitha P Professor and Unit chief Department of OBG .

	Welcome Address: Dr. Munikrishna M welcomed the crowd and gave a brief note on male infertility. Mr Hemanth Kumar, Embryologist Genea Fertility Center and Dr Chaitra Sathyanarayana, Consultant in High Risk Pregnancy and Reproductive Medicine, Genea Fertility Centre gave us brief inights regarding evaluation and management of male infertility. Dr Divyashree P S , Medical Director, Genea Fertilty Centre gave a talk on tips and tricks of IUI. Dr Lakshmi Embryologist , introduced about semen preparation techniques. Afternoon, IUI WORKSHOP Hands on was conducted which involved active participation of all the volunteers followed by Case Based Discussions on Male Infertility which involved interactive discussions among the postgraduates.
3.	**Concluding remarks**: session concluded with awareness of male infertility
4.	**Participants & delegates:** A total of 150 members participated in the event
5.	**Certificate Distribution**: Nil
6.	**Valedictory Ceremony**: Vote of thanks was proposed by Dr. Divya J Patil , associate professor Department of OBG Followed by Group Photo.

Academic Requirements by Dr.Sarala N.

- NMC PG regulations amended
- Training program -attendance requirements
- BCBR requirements
- Sensitisation of District residency program
- Examination pattern and passing criterion
- Components of PG CBME curriculum defining roles and responsibilities ,various terminologies
- Difference between traditional and CBME curriculum
- Entrustable professional activity program
- Academic activities-Journal club, CPC, symposium ,dissertation and research activity, clinical audits ,log book submission
- PG students appraisal form

Roles & Responsibilities of Postgraduates by Dr Krishnappa.J

- Vision ,mission of hospital
- Ward management :conduct daily rounds, assess patients, and update treatment plans
- Patient Monitoring: regularly check the vitals , lab reports and clinical progress.
- Case Documents : notes, discharge summaries, and records.
- emergency care: handle casualty cases, perform resuscitation , and stabilize critically ill patients
- ICU duties: Manage critically ill patients ventilators and life support systems.
- Procedure : Perform and assist in diagnostic and therapeutic procedures (e.g) IV lines ,lumbar puncture surgeries)
- OPD: services : evaluate and treat outpatients, provide follow-up care and counselling
- Medico-legal work: handle MLC cases, maintain legal documentation, and follow reporting protocols
- Team coordination: work with nurses, interns and other departments for smooth patient care .
- Infection Control and patient safety: Follow aseptic precautions, hospital protocols , and ensure quality care.

NABH Documentation Guidelines By Dr.Rajkumar M G

- International patient safety goals as per joint commissions international: identify the patient, effective communication, safety of high alert medications, Ensure correct site, procedure patient surgery decrease risk of health care associated infections, Reduce risk of patient harm resulting from fall.
- NABH accreditation-5th Edition .standards which has 10 chapters,100 standards,651 objective elements
- Patient documentation with color coding for various departments, SOAP(subjective, objectives, assessment plan) ,FARM (findings, assessment, recommendations and

	management) • Purposes of documentation • Guidelines for good documentation and reporting • Sensitised about various forms and formats used for documentation ,Consent forms **Ethics Professionalism By Dr. Ashwini K Shetty** • Principles of medical ethics • Theories of medical ethics • Case Scenarios of Ethical dilemmas • Definition of professionalism • Pillars of Professionalism **Guidelines to laboratory Investigations : Dr TN Suresh** • Workflow in CDLS • Sample collection and sample transport • Test request form • Lab report dispatch • Do's and Don'ts in lab investigations • Critical value reporting **Medical Negligence and Medical certificate of cause of death By Dr. Srinivasa Reddy P** • What is medical negligence • Various laws pertaining to medical negligence • Examples of medical negligence • Medical certificate of cause of death **Communication skills by Dr. Purushotham A** • Principles of communication • Barriers in communication • Common causes for miscommunication **Library resources By Dr. Prakasha & Dr. Shilpa M D** • Description about various resources in the library • How to use library resources • Rules and regulations pertaining to library resources Demonstration of M library and knimbus mobile app
10.	**Awards / Prices: Not Applicable**

11.	**Valedictory:** Dr Rashmi G, Professor of Ophthalmology, delivered the vote of thanks. Feed back was taken from all students

Sl. No.	Event Report- Department of Orthopaedics
1	**Name & Level of Event**
	GUEST LECTURER on "ENTRAPMENT NEUROPATHIES OF UPPER LIMB & ELBOW INJURIES". ON DATE : 26-02-2026 **Level of event: Institutional Level**
2	**Background / Introduction**
	Entrapment neuropathies of the upper limb occur due to compression of peripheral nerves at anatomical narrowings. The most common is Carpal Tunnel Syndrome, involving median nerve compression at the wrist, presenting with numbness, paresthesia, and thenar weakness. Cubital Tunnel Syndrome affects the ulnar nerve at the elbow, causing sensory symptoms in the ring and little fingers with intrinsic muscle weakness. Radial Tunnel Syndrome presents with lateral forearm pain and motor weakness without sensory loss. Diagnosis is clinical, supported by nerve conduction studies. Management includes splinting, NSAIDs, physiotherapy, and surgical decompression when conservative treatment fails. Elbow injuries include supracondylar fractures in children, radial head fractures, olecranon fractures, and dislocations. Complications may involve nerve injury (median, ulnar, radial), stiffness, and instability. Early diagnosis, appropriate imaging, and timely intervention are essential to restore function and prevent long-term morbidity

Name of Department: **PEDIATRICS**
Date of Conduct of Event:**26th February,2026**

Sl. No	Event Report
1.	**Level of Event – Institutional**
Guest Lecture on "**ABC'S of Neuro Developmental Disorders**" by Dr Rachana Gopalakrishna Consultant- Developmental & Behavioral Pediatrics, Aster Whitefield Hospital, Bengaluru, was on 26th February, 2026.	
2.	**Background / Introduction**
Neurodevelopmental disorders (NDDs) are conditions that affect how the brain grows and works, starting in early development (usually before school age). They mainly impact learning, behavior, communication, and social skills. Think of them as "wiring differences" in the brain that show up as a child grows. Neurodevelopmental disorders are life long, but with early intervention and support, many people live productive and independent lives.

1.	**Name of the Event:** Food Adulteration Workshop
2.	**Topic:** Food Adulteration
3.	**Background/ Introduction:** Food adulteration is a growing public health concern that affects the safety, quality, and nutritional value of food. Lack of awareness about common adulterants can lead to serious health risks among consumers. Creating awareness among school children helps them understand safe food practices and simple methods to detect adulterated foods. In this context, the Department of Clinical Nutrition and Dietetics, SDUAHER, organized a Food Adulteration Workshop on 23 February 2026 to educate students about common adulterants and their detection. The program aimed to promote food safety awareness and responsible consumer behavior.
4.	**Venue:** Prakriya International School, Chiyandahalli, Holali Gate, Mulbagal Taluk, Kolar
5.	**Participants and Delegates:** A total 52 Students of Classes VII, VIII & IX of participants attended the program,

REPORT ON FOOD ADULTERATION WORKSHOP

Date:23-02-2026
Venue: Prakriya International School, Chiyandahalli, Holali Gate, Mulbagal Taluk, Kolar
Organized by: Dept.Of.CND (SDUAHER)
Target Group: Students of Classes VII, VIII & IX

Introduction

A Workshop on **"Food Adulteration"** was conducted to create awareness among students about the dangers of food adulteration and simple household methods to detect common adulterants. This awareness program also supports Sustainable Development Goal 2 (SDG 2: Zero Hunger) by promoting safe, unadulterated, and nutritious food for all.

The program aimed to create awareness about common food adulterants. It focused on demonstrating simple detection methods and educating students about the health risks of consuming adulterated foods.

PRAKRIYA INTERNATIONAL SCHOOL

Program Proceedings

Welcome Address

The session formally commenced with a warm welcome by the **School Principal**, who appreciated the initiative and emphasized the importance of food safety awareness.

Welcome Address By Mr.Shiva Kumar
(School Principal)

Address by HOD and Faculty

This was followed by an inspiring speech by our **Head of the Department (HOD)** and faculty members, highlighting:

- The seriousness of food adulteration
- Its impact on health
- The importance of consumer awareness

Address By HOD and Faculty of Clinical Nutrition and Dietetics Department

Demonstration of Food Adulteration Tests

Practical demonstrations were conducted by **PhD scholars** to detect various adulterants in commonly used foods. The following tests were demonstrated:

1. Sugar syrup in honey:-

Pure honey settles at the bottom of water.

Adulterated honey dissolves quickly due to added sugar syrup.

1. Starch in milk:-
Iodine solution was added.
Appearance of blue colour indicated presence of starch.

2. Starch in butter:-
Melted butter was tested with iodine.
Blue coloration confirmed starch adulteration.

3. Rhodamine B in ragi:-
Cotton soaked in liquid extract showed pink/red color indicating artificial dye (Rhodamine B).

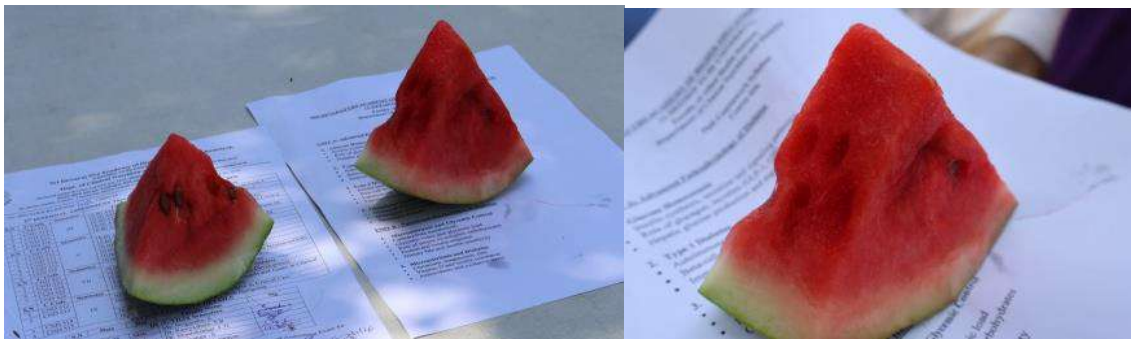

4. Sawdust and artificial colour in chilli powder:-
Sawdust floated on water surface.
Artificial colour diffused quickly in water.

5. Malachite green in green chillies and green peas:-
Cotton rubbed on surface showed green stain indicating artificial colouring.

1. Artificial colour in watermelon:-
Cotton rubbed on pulp showed color transfer, indicating artificial dye.

2. Chalk powder in sugar:-
Effervescence on adding dilute acid indicated presence of chalk powder.

3. Determination of age of egg and Air sac test in egg:-
Float test demonstrated freshness.
Larger air sac indicated older egg.

Each test was explained with:
The procedure, Observation, Result interpretation, Health hazards associated with the adulterant.
The demonstrations were interactive and highly engaging for the students. Students actively asked questions. The session was informative and encouraged active participation.

Interactive Session With School Children

Certificate Distribution

Students were awarded with certificates in recognition of their participation

Feedback

The program concluded with a heartfelt **feedback speech by a school student**, expressing gratitude and sharing how informative and interesting the session was.

Feedback by a school student

The event ended with a **group photograph** capturing the memorable moments of the awareness program.

Group Photograph

Conclusion

The school visit was a successful initiative in spreading awareness about food adulteration and consumer safety. The students showed great enthusiasm and actively participated in all activities. Such programs play a vital role in empowering young minds to become responsible and informed consumers.

Department Of IHBT

REPORT ON 1st ANNUAL NATIONAL IHBT CME- 2026

THEME OF THE PROGRAMME – CME on **"Safe Transfusion practices- Current Perspectives"**

CONDUCTED – 18TH Febraury 2026 (Hybrid mode)

VENUE - 1st floor, Library AV HALL, SDUMC, KOLAR

SPONSORS – Sri Devaraj Urs Academy of Higher Education and Research,

Karnataka chapter of the Indian Association of Pathologists and Microbiologists (KCIAPM),

Quidel Ortho

Medical Education Research Trust (MERT),

APR Sales Corporation

AIMS AND OBJECTIVES:

The CME was designed to include lectures on various aspects of Immuno Hematology and Blood Transfusion by experts in this field. The CME was conducted to help post graduates, technical staff and teaching faculty to have a better understanding of applied aspects of of Immuno Hematology and Blood Transfusion

REGISTRATION:

A total number of one hundred and Ninety delegates had registered for the CME. The programme began by registration of delegates. The delegates were from various private hospitals, blood centers and medical colleges both within Karnataka and across the country. To name a few JJM medical college, Davangere, Madras Medical College , King George's Medical University , Grant Government Medical College , D. Y. Patil Medical college, Raichur, ESIC MC & PGIMSR, Rajarajeswari Medical College & Hospital, Bengaluru, Adichunchunagiri institute of medical sciences, Akash Institute of Medical Sciences and Research Center, Siddaganga medical college and research institute, ESIMC PGIMSR Bangalore, Mysore medical college, SVIMS Tirupati, Teerthankar mahaveer medical college, MVJ Medical College and Sri shankara cancer hospital and research center and various other Private blood centers.

INAUGURATION:

Formal inauguration was done by lighting the lamp, under the presence of dignitaries – Hon'ble Vice Chancellor Dr B Vengamma, Registrar Dr. Muninarayana C, Principal Dr Prabhakar K, Medical Superintendent Dr Krishnappa J, Professor and HoD Dr Subhasish Das, Organizing secretary Dr Pradeep MitraV and Co-organizing secretary Dr Dharani A , Organizing Team and all speakers.

We began the sessions with invoking the blessing of the almighty and lighting the lamp for knowledge and prosperity. It was followed by Welcome Speech by Dr Subhasish Das, Prof and HOD Pathology, followed by the Presidential Address by our Hon'ble Vice Chancellor Dr B Vengamma.

Dr Prabhakar K, Dean FoM and Principal ,SDUMC and Dr Krishnappa J, Medical Superintendent, RLJH & RC congratulated the IHBT department for organizing the CME and appreciated the services of the IHBT department. Vote of thanks was proposed by Dr Pradeep Mitra V. He thanked Sri G H Nagaraja, Hon'ble Chancellor, SDUAHER and Chairman, SDUET, Dr DVLN Prasad, Chief administrative officer, SDUAHER, Dr B Vengamma, Hon'ble Vice Chancellor, SDUAHER, Dr. Muninarayana C, Registrar for contributing to the success of this event.

SESSIONS 1

First session was on "**Blood safety: NAT and Beyond" by Dr Ankit Mathur, Assistant Director TTK Rotary Blood Bank Bengaluru** . This talk was on the basics of interpretation of NAT and its importance in safe blood tansfusion practices.

SESSIONS 2

This session was on "**Building your Hospital hemovigilance Programme" by Dr C Shivaram Consultant Transfusion Medicine Manipal Hospitals , Bengaluru** . This session covered the components of a Hemovigilance programme and importance of reporting any adverse events in Blood transfusion.

SESSION 3

This session was on "**Clinical applications of therapeutic Apheresis**" by D **Dr Vijay Kumawat Professor & Head Department of Transfusion Medicine & Hematology NIMHANS, Bengaluru** . This session was on the patient and therapeutic indications, procedure and importance of Apheresis.

SESSION 4

This session was **on "Approach to DAT Positive Sample" by Dr Ayesha Sinha Consultant IHBT Manipal Hospitals, Bangalore**. This session covered topics on Direct Antiglobulin test, principle and importance of DAT.

SESSION 5

This session was on "**Current Trends in Neonatal and Paediatric Transfusion**" by Dr **Dr K V Sreedhar Babu HoD, IHBT SVIMS, Tirupati**. This session emphasized on importance of paeditric and neonatal transfusion in different age groups and exchange transfusion.

SESSION 6

This session was on "**Role of AI in Transfusion Practice**" by **Dr Joy Mammen Professor Transfusion medicine & Immunohematology (Hematology) CMC Vellore**. This video session covered the classification of Artificial intelligence, basics and how AI can help in safer transfusion practices..

The CME concluded with Vote of Thanks by Dr Pradeep Mitra V, Associate Professor, Department of IHBT and Organizing Secretary of the CME. Feedback was taken from all participants.

Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in association with the **University Centre for Health Professions Education (UCHPE)**, organized a one-day workshop titled **"Capacity Building and Mentorship to Strengthen Teaching Competencies among Entry Level Faculty"** on **17 February 2026** at the **MEU Conference Hall**. The workshop focused on strengthening faculty skills in innovative teaching-learning methods, effective assessment strategies, portfolio development, and structured mentorship. Through interactive sessions, group activities, and presentations, participants were encouraged to engage in reflective teaching practices and collaborative learning. The workshop was organized under the leadership of **Dr. Vinutha Shankar M.S.** (Organising Chairman) and **Dr. Ashwini N.S.** (Organising Secretary), along with the organizing committee members. Faculty from various departments of SDUAHER participated actively in the sessions.

Teaching Learning Methods – Large Group Teaching

The first academic session was delivered by **Dr. Vinutha Shankar M.S., Vice-Principal and Director, UCHPE**, along with **Mr. Naveen Kumar I., Department of Physiotherapy, SDUAHER**.

The speakers discussed the principles of **large group teaching**, highlighting methods to improve engagement and learning outcomes in lecture-based settings. Strategies such as interactive lectures, questioning techniques, use of audiovisual tools, and incorporation of active learning approaches were emphasized. This was followed by a **group task and participant presentations**, where faculty members discussed practical ways of applying these methods in their classrooms.

Teaching Learning Methods – Small Group Teaching

The next session on **small group teaching** was conducted by **Dr. Ashwini K. Shetty, Professor, Department of Physiology, SDUMC**, and **Dr. Usha G. Shenoy, Assistant Professor of Physiology, Faculty of Allied Health Sciences & Basic Sciences, SDUAHER**.

The session focused on the advantages of small group teaching in improving critical thinking, collaboration, and student participation. The speakers explained different small group learning methods such as **tutorials, problem-based learning (PBL), case discussions, and team-based learning with group activity on Jigsaw method**. Participants engaged in **group activities** and later presented their ideas on implementing small group teaching strategies effectively in their respective disciplines.

Competency Based Assessments

The post-lunch academic session was delivered by **Dr. Hemalatha A., Professor, Department of Pathology, SDUMC**. She explained the framework of **Competency Based Medical Education (CBME)** and its emphasis on outcome-based learning and assessment. The session highlighted the importance of **formative and summative assessments**, workplace-based assessments etc. Group activities helped participants understand how competency-based assessment can be integrated into their teaching practice.

Portfolio Development

The session on **portfolio development** was conducted by **Mr. Lokheshwar S., Assistant Professor, Speech Pathology & Audiology, SDUAHER**.

The speaker emphasized the role of **academic portfolios** in documenting student progress, reflections, and competency achievement. He discussed the structure of portfolios, their role in assessment, and how they can support reflective learning. The

session provided practical guidance on designing and evaluating portfolios within CBME.

Mentor–Mentee Matching

The concluding session involved **mentor–mentee matching**, where faculty members discussed the importance of mentorship in academic and professional development. The activity facilitated interaction among participants and helped establish potential mentorship relationships within the institution.

Detailed Event Report 1: Design Thinking, Critical Thinking & Innovation Design

Date & Time: 14 February 2026, 9:30 am – 10:15 am

Venue: B.C. Roy Hall, SDUAHER

Resource Person: *Mrs. Chaitanya Sree, Founder & CEO, Naturehunt Innovation*

Participants: Approximately 35 attendees from Medicine, Physiotherapy, Nursing, Allied Health Sciences, and Research departments.

Session Overview

The inaugural session of the workshop focused on Design Thinking, Critical Thinking, and Innovation Design. Mrs. Chaitanya Sree introduced participants to structured frameworks that foster creativity, problem-solving, and innovation in healthcare and entrepreneurship.

He emphasized the five stages of design thinking (Empathize, Define, Ideate, Prototype, Test) and demonstrated how these stages could be applied to healthcare challenges. Critical thinking was highlighted as a complementary skill, enabling professionals to evaluate evidence, challenge assumptions, and make informed decisions.

Key Highlights

- **Empathy in Design:** Participants were guided to consider patient perspectives and unmet needs as the foundation of innovation.
- **Iterative Innovation:** Mrs Chaitanya explained how iterative prototyping and feedback loops accelerate solution development.
- **Healthcare Applications:** Case studies illustrated how design thinking has been applied to improve patient care pathways, medical devices, and digital health solutions.
- **Entrepreneurship Linkages:** The session bridged innovation design with entrepreneurial strategy, showing how ideas can be transformed into viable healthcare startups.

Participant Engagement

- **Medical sciences participants** explored applications in diagnostics and clinical decision-making.
- Attendees from **Physiotherapy** discussed how design thinking could improve rehabilitation protocols and patient adherence.
- **Nursing faculty and students** reflected on its role in patient education and workflow optimization.
- **Allied Health Sciences and Research members** contributed perspectives on innovation in laboratory processes and translational research.

The multidisciplinary presence enriched the dialogue, with participants sharing diverse departmental insights. Interactive case discussions allowed attendees to apply design thinking principles to real-world healthcare scenarios.

Outcomes

- Participants gained a structured understanding of design and critical thinking frameworks.
- Awareness was created on how innovative design can be systematically applied in healthcare and entrepreneurship.
- The session fostered cross-departmental collaboration, encouraging attendees to integrate innovation into their academic, clinical, and research activities.
- Feedback indicated that participants valued the practical examples and interactive format, which made the concepts relatable and actionable.

Conclusion

The session successfully set the tone for the workshop by combining conceptual clarity with practical application. It empowered participants to think beyond traditional boundaries, encouraging them to adopt innovation-driven approaches in healthcare and entrepreneurship.

The multidisciplinary participation of ~35 attendees ensured that the discussion was rich, diverse, and aligned with the institution's vision of fostering innovation across all domains.

Name of the event: World Leprosy Day
Date of the event: 10 February 2026
Name of the department: Dermatology, Venereology and Leprosy

Sl. No.	Event Report
1	**Level of the event**
	RLJH & RC (Hospital based Event about Leprosy Awareness)
2	**Background / Introduction**
	World Leprosy Day 2026 was commemorated with great enthusiasm and sensitivity by the Department of Dermatology ,Venereology and Leprosy, RLJH on February 10th, 2026. The event aimed to raise awareness, educate the community, and offer a platform for those affected by leprosy to share their experiences and challenges. The theme for this year, *"Leprosy is curable, The real challenge is stigma"*, was highlighted throughout the Event. **Event Highlights:** *1. Inaugural Session and Faculty Speeches:* The Event began with a warm welcome and introduction to World Leprosy Day 2026 by **Dr. Suresh Kumar K(Professor & HOD of the Department of Dermatology)**, emphasizing unity in raising awareness and support of patients affected by Leprosy. This was followed by insightful speeches by senior faculty members, including: • **Dr. Rajashekar T S , (Professor of Dermatology)** highlighted the clinical aspects and importance of early detection of leprosy. • **Dr. Hanumanthayya K , (Professor Emeritus of Dermatology)**, who shared his vast experience and insights on leprosy management and elimination efforts. • **Dr. Dayananda M , (Professor of Community Medicine)** emphasized the public health perspective, national programmes and the role of community participation. • **Dr. Krishnappa J, Medical superintendent**, emphasized the institutional responsibility and integrated care for patients affected by Leprosy along with discrimination associated with leprosy. • **Dr.Muninarayana, registrar , SDUAHER and Professor of community medicine ,** addressed the gathering highlighting about leprosy and the need to elimate stigma. Their speeches reflected a strong commitment to patient care, research, and breaking the stigma surrounding skin conditions. --- *2.Leprosy Awareness Pledge:* As a mark of solidarity and commitment toward eliminating stigma and discrimination, a Leprosy Awareness Pledge was administered to all attendees. The pledge was led by **Dr. Dayananda M (Professor of Community Medicine)**, who inspired the gathering to reaffirm their social and professional responsibility in the fight against leprosy. Students, healthcare professionals, faculty members, and staff collectively pledged to spread awareness that *leprosy is completely curable*, to promote early detection and timely treatment, and to treat persons affected by leprosy with dignity, respect, and compassion.

29/4/26
Dr. SURESH KUMAR K
Professor & Head
Dept. of Dermatology
Sri Devaraj Urs Medical College
Tamaka, Kolar

	Participants further pledged to actively combat myths, misconceptions, and discrimination associated with the disease, thereby contributing toward building an inclusive and stigma-free society. The pledge strongly reinforced the theme of the event, "Leprosy is curable, The real challenge is stigma," and served as a powerful reminder of the shared responsibility in achieving a leprosy free and discrimination-free community. *3. Skit –"Highlighting awareness about Leprosy, and the need to eliminate stigma":* A powerful and emotionally resonant skit titled *"THE NEED TO ELIMINATE STIGMA"* was performed by medical students. The skit portrayed real-life scenarios of individuals facing discrimination and isolation due to Leprosy. It concluded on a hopeful note, reinforcing the message that Leprosy does not define a person and that society must be educated to see beyond appearances. *4. Vote of Thanks and Educational leaflets Distribution:* The Event concluded with a heartfelt vote of thanks by Dr. Madhukiran C, Associate Professor of Dermatology, who acknowledged the efforts of all participants, students, faculty, patients, and supporting staff. Educational leaflets on Leprosy—covering causes, myths, treatment options, and support resources—were distributed among attendees to further raise awareness and encourage community dialogue. *Outcome:* The World Leprosy Day Event 2026 was a resounding success, combining education, empathy, and empowerment. It provided a meaningful platform for patients to voice their stories and for the medical fraternity to reaffirm their commitment to holistic and stigma-free care.
3	**Venue**

.

Day 1 – 10th February 2026

The program commenced with registration and breakfast, followed by sessions covering:

- Overview of Pulmonary Rehabilitation
- Assessment of Patients for Pulmonary Rehabilitation (PT Perspective)
- Physiotherapy Management in Pulmonary Rehabilitation

The afternoon hands-on workshop stations included:

- Spirometry – Patient preparation and manoeuvre techniques
- Exercise Testing – Step Test
- Shuttle Test
- ABG Interpretation

The inaugural ceremony was conducted in the presence of esteemed dignitaries and faculty members.

Day 2 – 11th February 2026

The second day focused on multidisciplinary aspects of pulmonary rehabilitation, including:

- Mental Health and Smoking Cessation
- Nutritional Management in Pulmonary Rehabilitation
- Bronchial Hygiene in Chronic Lung Disease
- Outcome Measures in Pulmonary Rehabilitation

Hands-on stations included:

- Chest Physiotherapy – Assistive Devices
- Airway Clearance Techniques (PEP Devices, Cough Assist)
- Respiratory Muscle Training

The workshop concluded with a valedictory ceremony and distribution of certificates.

FEEDBACK

Wonderful practical knowledge is acquired, thank you so much for this amazing opportunity. The infrastructure here is very nice and helpful in understanding the clinics very nice
It was really good and especially the practical session's
Thanks for all the students who helped especially keshav, nizam, gayatri and one more sister
The practice session are very good
It was really good and learned alot from this workshop.
Waiting for more workshops like this
I have to acknowledge efforts from the whole organising committee as well as the trained speakers
Nil
It was good interactive session the speakers alsoo was talking and more information with limited time

Tamaka, Kolar - 563103,

(Through: The Principal, SDUMC)

Respected Sir,

Sub: Submission of Event Report – AUTIZ Workshop (10–11 February 2026)

Kindly find enclosed the Event Report of the "Hands-on Workshop for Training Nodal Officers in AUTIZ–FAP e-Logbook" conducted by the Department of Community Medicine, Sri Devaraj Urs Medical College on 10th and 11th February 2026. The workshop, supported by the Department of Health Research, witnessed participation from 74 delegates across various medical colleges in India and focused on capacity building for effective implementation of the Family Adoption Programme. The report is submitted for your kind perusal.

This is for your kind information & needful,
Thanking You,

Yours Sincerely

DEPARTMENT OF COMMUNITY MEDICINE

EVENT REPORT ON AUTIZ WORKSHOP

Hands-on Workshop for Training Nodal Officers in AUTIZ–FAP e-Logbook

10–11 February 2026
Department of Community Medicine
Venue: Medical Education Unit, Sri Devaraj Urs Medical Collegess

1. Introduction

The Family Adoption Programme (FAP) is an important initiative under Competency-Based Medical Education (CBME) in India aimed at strengthening community-based medical training and providing experiential learning opportunities for undergraduate medical students. Through longitudinal engagement with families in the community, students gain insights into social determinants of health, preventive care, and public health practice.

To facilitate systematic documentation, monitoring, and evaluation of FAP activities, the AUTIZ–FAP e-Logbook was developed at Sri Devaraj Urs Medical College with financial support from the Department of Health Research. The platform provides a structured, digital mechanism for tracking student activities, documenting field visits, and managing programme data efficiently.

The **AUTIZ** platform represents an **Automated, User-friendly, Time-saving, Indigenous and Zero-cost** digital solution designed to streamline the implementation of the Family Adoption Programme. After successful piloting at Sri Devaraj Urs Medical College and other medical colleges in India with support from IAPSM and subsequent refinement was made based on user feedback, the software has been upgraded to AUTIZ Version 2.

In order to disseminate the platform and train faculty members responsible for implementing the programme, a two-day hands-on workshop for training nodal officers in the AUTIZ–FAP e-Logbook was organized on 10th and 11th February 2026 at Sri Devaraj Urs Medical College, Kolar.

2. Objectives of the Workshop

The workshop was conducted with the following objectives:

1. To train Community Medicine faculty in the effective use of the AUTIZ FAP e-Logbook.
2. To provide access to the complete AUTIZ e-Logbook package for implementation of the Family Adoption Programme.
3. To share practical insights into organization, coordination, and team building required for effective implementation of FAP at the institutional and field levels.

3. Participants

The workshop received an encouraging response from medical colleges across the country. A total of 74 delegates attended the programme, comprising faculty members, senior residents, and postgraduate students from Departments of Community Medicine from various states of India.

Participants attended the workshop as prospective nodal officers responsible for implementing the AUTIZ e-Logbook in their respective institutions. During the training, they were oriented to both the conceptual framework of the Family Adoption Programme and the practical aspects of digital documentation through the AUTIZ platform.

The AUTIZ core team also assured participants of continued online technical and academic support during the initial stages of implementation at their institutions.

4. Workshop Proceedings

The two-day workshop consisted of expert lectures, hands-on demonstrations, group activities, and interactive discussions. The sessions were designed to provide both theoretical understanding and practical exposure to the AUTIZ platform and the operational aspects of the Family Adoption Programme.

Day 1 Proceedings (10th February 2026)

The first day of the workshop focused on the conceptual framework of the Family Adoption Programme and hands-on training in the AUTIZ e-Logbook system.

The programme commenced with registration of participants and an inaugural session, during which the objectives and expected outcomes of the workshop were introduced.

Scientific Sessions on Day 1:

1. **Family Adoption Programme in Competency-Based Medical Education (CBME)**
   Speaker: **Dr. Annarao G. Kulkarni**
   Senior Professor, Sri Madhusudan Sai Institute of Medical Sciences and Research, Karnataka

Dr. Kulkarni elaborated on the significance of the Family Adoption Programme within the CBME framework and emphasized the importance of community-based training in shaping socially responsible medical graduates. He also emphasised that the Family Adoption Programme as a cornerstone of Competency-Based Medical Education (CBME). The session focused on how FAP bridges the gap between clinical medicine and community health, ensuring students develop empathy and longitudinal care skills from their first year of MBBS.

2. **Evolution of the Family Adoption Programme Concept**
   Speaker: **Dr. Lavanya KM**
   Professor, GSL Medical College, Rajamahendravaram, Andhra Pradesh

The session highlighted the evolution and relevance of the Family Adoption Programme in modern medical education and its role in improving community engagement. This session

traced the transition from traditional community postings to the current FAP model. Dr. Lavanya also highlighted the shift toward "proactive" healthcare where students "adopt" families to monitor health trends over time rather than just performing cross-sectional surveys.

3. **Need for an e-Logbook and Introduction to AUTIZ–FAP e-Logbook**
   Speaker: **Dr. Sunil BN**
   Professor and Head, Department of Community Medicine, Sri Devaraj Urs Medical College

Dr. Sunil BN presented the need for a structured digital platform for documenting FAP activities and introduced the key features of the AUTIZ e-Logbook. Acknowledging the administrative burden of physical records, he discussed the need for a digital solution. He introduced the AUTIZ-FAP e-Logbook, designed to streamline data entry, track student progress in real-time, and provide a standardized platform for faculty monitoring

4. **Hands-on Demonstration of AUTIZ e-Logbook**
   Resource Persons: **Dr. Samudyatha UC and Dr. Prithvick BG**
   Associate Professor, Department of Community Medicine, Sri Devaraj Urs Medical College.

The afternoon sessions were interactive. Dr. Samudyatha and Dr. Prithvick guided participants through the interface of the e-Logbook. Later, a panel discussed the logistical "on-the-ground" strategies required to implement this digital tool at the institutional level, including overcoming faculty resistance and ensuring data privacy. Participants were guided through hands-on session the various modules of the AUTIZ platform, including family registration, student activity documentation, and data management.

Dr. Samudyatha interacting with the delegates through a hands-on session an AUTIZ interface.

5. **Field Implementation Strategy of AUTIZ at Institutional Level**
   Interactive Session (Group Activity / Case Scenarios)
   Facilitators: **Dr. Seethal Rose**

This session involved group discussions and case-based scenarios, field level difficulties and how to overcome them which aimed at helping participants plan the implementation of AUTIZ within their own institutions.

Day 2 Proceedings (11 February 2026)

The second day of the workshop focused on practical implementation strategies, experience sharing, and the future direction of the Family Adoption Programme.

Scientific Sessions on Day 2:

1. **Organizing, Team Building and Effective Implementation of FAP at Field Level – Challenges and Pragmatic Approaches**
   Speaker: **Dr. SK Golam Mortuja**
   Head of the Department, Jalpaiguri Government Medical College, West Bengal

The session addressed real-world challenges in field-based implementation and strategies for effective coordination of programme activities. Dr. Mortuja addressed the "Pragmatic Approach" to field implementation. He emphasized the importance of coordinating with local

health workers (ASHAs/ANMs) and building student teams that can effectively navigate community dynamics and cultural sensitivities

2. **Experience Sharing, Best Practices and Challenges**
   Speaker: **Dr. Jarina Begum**
   Professor, Manipal Tata Medical College, Jamshedpur, Jharkhand

Dr. Jarina Begum sharing valuable experiences and best practices related to community-based medical education.

Dr. Jarina Begum interacting with the delegates during the session and sharing insights on best practices and challenges in the implementation of the Family Adoption Programme. Drawing from real-world examples, She shared success stories and common pitfalls. She discussed how to maintain student motivation over the multi-year adoption period and shared "best practices" for meaningful family engagement

3. **FAP – Strategies and Future Plan (Way Forward and Scale-up Plan)**
   Speakers: **Dr. Malatesh Undi,** ***Assistant Professor Karwar Institute of Medical*** *Sciences and* ***Dr. Abhishek Garg, University College of Medical Sciences, Delhi***

The speakers discussed the potential for expanding the implementation of FAP and strengthening institutional collaboration across medical colleges. This forward-looking session explored the "Way Forward." The speakers discussed how the data collected through the FAP could eventually inform larger public health policies and the potential for scaling the AUTIZ e-Logbook across multiple states to create a unified database.

4. **FAP Integration into NMC Curriculum – Opportunities and Complexities**
   Speaker: **Dr. Aruna V. Vanikar**
   Past President, Undergraduate Medical Education Board, National Medical Commission

Dr. Vanikar discussed the opportunities and policy perspectives for integrating the Family Adoption Programme within the **National Medical Commission curriculum framework**. In a high-level concluding session, she discussed the complexities of officially embedding these requirements into the National Medical Commission (NMC) guidelines. She highlighted the opportunities for academic credit and the long-term impact of FAP on the quality of Indian medical graduates

5. **Feedback and Valedictory Session**

The workshop concluded with an interactive feedback session, during which participants shared their experiences and suggestions for improving the implementation of the AUTIZ platform.

Participants appreciated the practical orientation of the workshop, the hands-on training sessions, and the opportunity to interact with experts from various institutions.

At the conclusion of the programme, certificates of participation were awarded to all 74 delegates in recognition of their successful completion of the training.

Dr. Aruna V. Vanikar was felicitated by the organizing committee in recognition of her distinguished contributions to medical education and her valuable participation in the workshop.

Group photograph of delegates, resource persons, and the organizing team at the conclusion of the AUTIZ Workshop.

AUTIZ Development and Implementation Core Team and organizing team

The AUTIZ workshop was developed and implemented by the following team from Sri Devaraj Urs Medical College:

Dr. Sunil BN – Professor and Head
Dr. Samudyatha UC – Associate Professor
Dr. Seethal Rose – Assistant Professor
Dr. Mohsina Shaik – Senior Resident
Dr. Varun R – Senior Resident

Department of Community Medicine
Sri Devaraj Urs Medical College

9. Acknowledgement

The organizers gratefully acknowledge the financial support provided by the Department of Health Research for the development of the AUTIZ–FAP e-Logbook and successful implementation of workshop.

The Department of Community Medicine also expresses sincere gratitude to all resource persons, delegates, and organizing committee members, Faculty and Post Graduates of Community Medicine whose contributions ensured the successful conduct of the workshop.

Professor & HoD
Dept. of Community Medicine
SDUMC, Kolar-563103

10. Conclusion

The two-day hands-on workshop successfully achieved its objective of training faculty members and postgraduate trainees in the use and implementation of the AUTIZ–FAP e-Logbook.

The programme facilitated knowledge exchange, capacity building, and collaborative discussions on strengthening the Family Adoption Programme under the CBME framework. Participants are expected to initiate implementation of the AUTIZ platform in their respective institutions, which will contribute to standardized documentation and improved monitoring of FAP activities across medical colleges in India.

Event Report for Online Orientation Session on AUTIZ–FAP e-Logbook

Dated: 18 February 2026 (Virtual Mode on Zoom Platform)

Time: 2:00 PM onwards

Department of Community Medicine

Sri Devaraj Urs Medical College

1. Background

Following the successful conduct of the Hands-on Workshop for Training Nodal Officers in AUTIZ–FAP e-Logbook held on 10–11 February 2026, an online orientation session was organized to extend the reach of the AUTIZ platform to a wider group of faculty members across the country.

The session aimed to orient nodal officers from various medical colleges in India who could not attend the in-person workshop and to reinforce key concepts related to the implementation of the AUTIZ–FAP e-Logbook.

2. Objectives

The online session was conducted with the following objectives:

1. To provide an overview of the AUTIZ–FAP e-Logbook and its key features.
2. To orient nodal officers regarding the implementation process at the institutional level.
3. To address queries and facilitate discussion regarding practical challenges in adoption and use of the platform.

3. Participants

The session was attended by nodal officers and faculty members from Departments of Community Medicine across various medical colleges in India through the Zoom platform. Participants represented institutions from different states and expressed interest in implementing the AUTIZ e-Logbook in their respective colleges. Participants attendance sheet attached.

4. Proceedings of the Session

The online session was conducted in an interactive format, combining presentations, demonstrations, and discussion.

The session was led by **Dr. Samudyatha U.C**, who provided a comprehensive overview of the AUTIZ–FAP e-Logbook, including its structure, functionalities, and relevance in facilitating systematic documentation of the Family Adoption Programme.

A live demonstration of the platform was conducted, highlighting key components such as:

- Student and family registration
- Activity documentation
- Report generation

The session also emphasized institutional implementation strategies, including faculty coordination, student engagement, and integration into existing FAP workflows.

5. Interaction and Discussion

An interactive discussion session followed, during which participants actively engaged with Dr. Samudyatha UC. Queries related to technical aspects, implementation challenges, and operational feasibility were addressed in detail.

The session enabled participants to clarify doubts and gain confidence in adopting the AUTIZ e-Logbook in their respective institutions.

6. Conclusion

The online orientation session was well-received and successfully achieved its objective of expanding awareness and building capacity for the implementation of the AUTIZ–FAP e-Logbook.

The session complemented the hands-on workshop by enabling participation from a wider audience and reinforcing the commitment to standardizing and digitizing the Family Adoption Programme across medical colleges in India.

Participants expressed keen interest in adopting the platform and appreciated the initiative taken by Sri Devaraj Urs Medical College.

Organising team and core members of AUTIZ FAP e-log book implementation.

Date: 13-02-2026

Sl. No.	Name & Level of Event: **Institutional Level**
1	Hands-on training on **"How to Use Turnitin Tools – Plagiarism Check"** for 2023-24 Batch Postgraduate students, & PG/Ph.D. Guides and Research Scholars SDUMC organized by ULLRC, SDUAHER, 04/02/2026
2	**Background /Introduction**
	The University Library Learning Resource Centre (ULLRC), SDUAHER, Kolar organised a hands-on workshop on **"Cite While You Write: Reference Management Tool – Mendeley"** on **4th February 2026** at **Dr. B. C. Roy Seminar Hall**, ULLRC, SDUAHER. The workshop was conducted for **Faculty members, Research Scholars, and PG students (2023–24 batch) of SDUMC**. The main objective of the programme was to familiarise participants with reference management tools such as **Mendeley** and **Zotero**, enabling them to: Organise research articles and references systematically Insert citations while writing research papers and dissertations Generate bibliographies automatically in various citation styles Avoid plagiarism through proper referencing practices Enhance research efficiency and academic writing skills The session included live demonstrations, practical exercises, and interactive discussions to ensure participants gained hands-on experience in managing references effectively. The programme commenced with a welcome address by Dr. Ujval M., Assistant Professor of Otorhinolaryngology, SDUMC and Library Committee Member, who welcomed the dignitaries and participants and emphasised the importance of academic integrity in research and publication. This was followed by introductory remarks from Prof. Dr. Vengamma, Hon'ble Vice Chancellor, SDUAHER, Tamaka, Kolar, who highlighted the significance of avoiding plagiarism in academic institutions. She elaborated on the consequences and

impact of plagiarism, particularly in the preparation of PG dissertations, and stressed the need for originality and ethical research practices among scholars.

Dr. Muninarayana C., Registrar, SDUAHER, addressed the gathering and stated that students should strictly adhere to the similarity levels prescribed by the University Grants Commission (UGC) and SDUAHER. He mentioned that the workshop would cover the merits and drawbacks of plagiarism-detection tools and provide practical guidance on using Turnitin effectively to maintain academic standards.

Morning Session: Faculty and Research Scholar

Mr. Avinash Kumar, Technical Support, Turnitin India, delivered an informative session on the effective use of **Turnitin tools**, including the integration of AI features and the use of the plagiarism checklist. He explained the concept of plagiarism and its various forms in detail. The session highlighted how Turnitin assists students and faculty members in maintaining academic integrity. He also demonstrated how to analyze and interpret Similarity Reports, explained acceptable similarity percentages, and provided practical guidance on reducing similarity in academic manuscripts.

Further, he elaborated on AI detection features, AI report generation, and data security aspects within Turnitin. Overall, the session was highly interactive and engaging, with active participation from the attendees.

Afternoon Session: Postgraduate Students

Mr. Avinash Kumar, delivered a comprehensive **overview of Turnitin tools** for postgraduate students. He reiterated the key concepts covered in the morning session, including plagiarism awareness, similarity report interpretation, AI detection features, and best practices to reduce similarity in dissertations and research manuscripts. The session was well-rereceived by the postgraduate students and helped them gain clarity on using Turnitin effectively for their academic submissions.

Second Session, **understanding and avoiding plagiarism** was delivered by **Dr. Susann T.Y., Professor of Biochemistry, SDUMC and Library Committee Member**, served as the resource person for the session. She explained the various types of plagiarism, along with the concepts of similarity and paraphrasing in academic writing. She emphasized the importance of proper citation practices to avoid plagiarism. She also discussed the key guidelines and regulations issued by the University Grants Commission (UGC) regarding plagiarism. She highlighted the

	crucial responsibility of researchers in upholding academic integrity by strictly adhering to these regulations and avoiding unethical practices. The third session on **"Overview of Plagiarism"** was delivered by **Dr. Prakash, Assistant Professor and Senior Librarian, SDUAHER**. He demonstrated the practical aspects of using Turnitin, including adding classes, creating assignments, configuring optional settings, creating user profiles, submitting documents, generating reports, and analyzing similarity results. He also explained the UGC regulations regarding similarity checks, including permissible exclusions from plagiarism. Further, he discussed the zero-tolerance policy in core research areas, acceptable levels in non-core areas, and the prescribed penalties for students and faculty in cases of plagiarism

How to Use Turnitin Tools – Plagiarism Check

On

04 February 2026

11.00 AM onwards

Venue:

Dr. B.C.Roy, Seminar Hall

University Library Learning Resource Centre

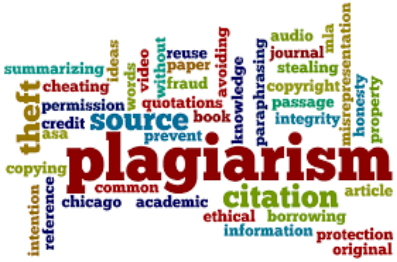

Dear Sir/Madam,

It is our immense pleasure to inform you that the University Library Learning Resource Centre, SDUAHER, Kolar, is organising a workshop on "***How to Use Turnitin Tools – Plagiarism Check***" on 4th February 2026, from 11.00 AM at Dr. B. C. Roy Seminar Hall, ULLRC, SDUAHER, for 2023-24 batch PG students & PG Guides, SDUMC.

The main aim of this hands-on workshop is to familiarise participants with the Turnitin Tools, exploring the benefits and effective usage of Turnitin tools, staying updated on new developments, promoting academic integrity of plagiarism, types of Plagiarism, Verbatim, paraphrasing.

It covers the UGC guidelines in academic and professional settings, the consequences of plagiarism, including academic penalties, loss of credibility, damage to reputation, and even legal action in severe cases.

Resource Persons:

Dr.Susanna T.Y., MBBS. MD. Ph.D. PGDGT. MNAMS, Professor of Biochemistry, SDUMC constituent of SDUAHER, Kolar. She has eleven years of teaching experience and has published scientific research articles in National and International Journals indexed in Scopus, PubMed and Web of Science and book chapter. She is involved in conducting many research projects in her field of expertise.

Dr. Prakash, MLISc, M.Phil.,Ph.D. University Librarian, SDUAHER, Kolar. He has thirty years of experience as a Librarian. He has published scientific research articles in National journals. He has conducted hands-on training on research methodology, reference management Tools (Mendeley & Zotero), Selection of Journals for research publications and plagiarism (Turnitin), literature search and many more**.**

Ms. Ashita Khandelwal, Customer Onboarding Consultant, Turnitin, India. She is a trainer and implementation of software, has ten years of experience and has conducted many trainings at the national level.

Event report

Name of the Event: Ratha saptami (21 rounds of SuryaNamaskara)

Name of the Department: Integrative Medicine

Sl.no	Event Report
1	**Level of Event** – Academy level
2	**Background/Introduction-** The Department of Integrative Medicine, in collaboration with Sri Devaraj Urs College of Nursing (SDUCON), organized a Rathasaptami celebration on 28th January, 2026, from 4:30 PM to 5:30 PM at Library 2nd floor. Rathasaptami, is a traditional festival honoring the sun's journey in a chariot, symbolizes renewal, vitality, wellbeing, and the life-giving energy of the sun, perfectly aligning with integrative medicine's emphasis on holistic health. The celebration witnessed enthusiastic participation of 74 students. All the participants actively practiced 21 rounds of Suryanamaskara (Sun Salutation), a dynamic yoga sequence of 12 postures that honors the sun while enhancing flexibility, strength, and wellbeing. This practice not only fosters physical well-being but also integrates mind-body harmony into daily routines, making a tangible difference in participants' energy levels and overall wellness. The session began with an opening prayer and Surya mantra led by Mr. Nikhil. Dr. Ashween then explained the importance of Rathasaptami and its health benefits, followed by 12 rounds of Suryanamaskara instructed by Mr. Nikhil and demonstrated by Ms. Shriya. Mrs. Sunitha introduced pranayama and Nadanusandhana practices, and the programme concluded with the Shanti mantra. The program was seamlessly coordinated by Dr. Ashween Bilagi, Mrs. Sunitha L, Mr. Nikhil, and Ms. Shriya, whose dedicated efforts ensured its smooth execution and success.

University Library Learning Resource Centre

Date:13/02/2026

Sl. No.	Name & Level of Event: **Workshop on "Selection of Journal for Research Publications" on 24/01/2026 at Dr. B.C.Roy Seminar Hall, ULLRC, SDUAHER,** Institutional Level
1	Hands-on training on **"Selection of Journal for Research Publications f**or Postgraduate students 2023-24 batch, SDUMC **to familiarise** organised **by UNIVERSITY LIBRARY AND LEARNING RESOURCE, SDUAHER**
2	**Background /Introduction**
	The University Library Learning Resource Centre, SDUAHER, Kolar organised a hands-on workshop on "**Selection of Journal for Research Publications"** on 24th January 2026, from 2.00 PM at Dr. B. C. Roy Seminar Hall, ULLRC, SDUAHER for 2023-24 batch PG students, SDUMC. The main objective of the workshop was to familiarise on how to identify predatory Journals, features of Predatory and cloned journals. Impact Factor (IF): A higher IF indicates greater citation potential. SCImago Journal Rank (SJR): Measures journal influence beyond citations. Indexing: Prefer journals indexed in PubMed, Scopus, Web of Science, MEDLINE, DOAJ, etc. Journal Finder. The program commenced with a welcome address by Ms. Pooja, MBBS, 2023-24 Batch, SDUMC, Kolar. The workshop was inaugurated by Dr. Prof. Muninarayana C., Registrar, SDUAHER, Kolar. In his inaugural address, he emphasised the importance of selecting appropriate journals for research publications. He explained the significance of journal indexing in databases such as SCOPUS, Web of Science, and the UGC CARE List, and expressed importanance of verifying indexed journals using various tools. Additionally, he provided an overview of UGC, NMC, and NIRF norms related to research publications and degree awarding, highlighting their relevance in maintaining academic standards and institutional rankings. The workshop was led by Dr. Shilpa M.D., Professor, Department of Pathology, SDUMC. She emphasized that selecting the right journal for publishing medical research is crucial for ensuring visibility, credibility, and academic impact. She provided a brief overview of key factors to consider while choosing a journal, including scope and relevance to the research topic, indexing and reputation, impact factor and citation metrics, avoidance of predatory journals, and adherence to journal guidelines and peer-

	review processes. She also stressed the importance of ensuring that journals follow ethical standards, including the COPE (Committee on Publication Ethics) guidelines. She highlighted that selecting an appropriate journal enhances the reach and recognition of research work, improves citation potential, and strengthens academic profiles for promotions and regulatory compliance. Publishing in indexed and ethically governed journals also safeguards the integrity of research and contributes to institutional rankings and accreditation standards. Dr. Prakash, Assistant Professor and Senior Librarian, ULLRC, SDUAHER, briefed the participants on the practical steps for verifying journals using platforms such as SCOPUS, Web of Science, UGC CARE List, DOAJ, and Journal Finder tools. He demonstrated how to check journal indexing status in SCOPUS and Web of Science databases, verify approved journals through the UGC CARE List, and identify open-access journals through the Directory of Open Access Journals (DOAJ). He also explained the use of Journal Finder tools to match research manuscripts with suitable journals based on subject scope, keywords, and publication criteria. The session helped participants understand how to select credible journals and avoid predatory or non-indexed publications.

1	Hands-on training on "Cite While You Write: Reference Management Tool-MENDELEY" - **students for 2023-24 Batch organized by ULLRC, SDUAHER**
2	**Background /Introduction**
	The University Library Learning Resource Centre, SDUAHER, Kolar organised a hands-on workshop on "**Cite While you Write: Reference Management Tool-Mendeley"** on 21st January 2026, from 2.00 PM at Dr. B. C. Roy Seminar Hall, ULLRC, SDUAHER for 2023-24 batch PG students, SDUMC. The main objective of the workshop was to familiarise the participants with reference management tools such as Mendeley and Zotero. The program commenced with a welcome address by Dr. Prakash, Assistant Professor and Senior Librarian, ULLRC, SDUAHER, Kolar. The workshop was inaugurated by Dr. Prof. Muninarayana C., Registrar, SDUAHER, Kolar. In his inaugural address, he highlighted the significance of citations and references in research, particularly in Ph.D. theses and postgraduate dissertations. He emphasized the challenges involved in manually inserting citations and references in PG dissertations and Ph.D. theses, and explained how reference management tools simplify and streamline this process. He further stated that whether citations are prepared manually or using specialized tools, proper referencing ensures credibility, prevents plagiarism, and helps organize research effectively. The workshop was led by Dr. Ujval M., Assistant Professor, Department of Otorhinolaryngology, SDUMC. He provided an overview of reference management tools, explaining that they are software applications designed to help researchers, students, and academicians collect, organize, manage, and cite sources efficiently in their scholarly work. He emphasized their crucial role in maintaining academic integrity and streamlining the research process. He also discussed the theoretical aspects of reference management tools, including their

	significance, key functionalities, and their impact on academic writing and research documentation. Dr. Prakash, Assistant Professor and Senior Librarian, ULLRC, SDUAHER, demonstrated the practical steps involved in installing the Mendeley reference management tool and Mendeley Cite plugin. He explained the process of creating folders, adding references from websites and PDFs, importing by identifier, manual entry of references, inserting citations in documents, generating bibliographies, and changing citation styles as per journal requirements. The workshop also introduced features such as synchronizing libraries across devices, collaborating through shared groups, annotating PDFs, and backing up references securely in the cloud. It emphasized how reference management tools save time, reduce errors in citations, and ensure consistency in formatting. The session highlighted their importance in enhancing the quality of research manuscripts and meeting journal submission standards. Overall, the workshop empowered participants to produce well-organized, credible, and publication-ready research work

REPORT ON WORLD DIETETICS DAY

The Department of Clinical Nutrition & Dietetics, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), Tamaka, Kolar, successfully organized a Workshop on the occasion of World Dietetics Day on 12 January 2026 at Sir C. V. Raman Auditorium, SDUAHER, from 10:00 AM to 4:00 PM.

The workshop was conducted under the theme **"From Microbiome to Metabolism: Exploring the Gut–Organ Axes in Chronic Diseases"**, emphasizing the evolving role of gut microbiota in health and disease, particularly chronic metabolic disorders. The event was aligned with the Global Agenda for Sustainable Development, specifically **SDG 3: Good Health and Well-being**, by addressing the prevention and management of non-communicable diseases through gut health.

Ms. Rohini Prasad serves as the Lead Nutritionist at Leucine Rich Bio, bringing over ten years of expertise in preventive health and microbiome science. She holds a Post-Graduate degree in Food Science and Nutrition (2nd Rank) from the University of Mysore.

Her professional background includes clinical roles at Maiyas and Radha Krishna Hospitals, alongside significant contributions to the corporate sector in metabolic disease management and functional food development. Ms. Prasad is a Monash University-certified Low FODMAP expert and a trained specialist in Diet Therapy for Autism and ADHD. As a life member of the Indian Dietetic Association and the Colitis & Crohn's Foundation, she is a recognized authority on managing gut dysbiosis through precision nutrition.

The event commenced with a formal inauguration in the presence of the **Honorable Vice Chancellor, Dr. B. Vengamma**, the **Registrar, Dr. Muninarayana C**, and **Dr. C.D. Dayanand**, Dean of the Faculty of Allied and Healthcare Professions.

Following the dignitaries' arrival, the traditional **lamp lighting ceremony** was held, symbolizing the collective pursuit of knowledge and enlightenment. **Ms. Seethalakshmi** then delivered the welcome address, setting a gracious tone for the proceedings.

The highlight of the morning featured addresses from the Honorable Vice Chancellor and the Registrar. Both speakers shared **thought-provoking insights**, offering the students valuable guidance and inspiration for their academic journeys.

Ms. Rohini Prasad, Senior Nutrition Expert, Microbiome & Gut Health Specialist, BugSpeaks, delivered an insightful and evidence-based session focusing on:

- The role of gut microbiota in human metabolism
- Gut–organ axis interactions (gut–brain, gut–liver, gut–immune axis)
- Microbiome alterations in chronic diseases such as diabetes, obesity, and gastrointestinal disorders
- Dietary strategies and lifestyle interventions to improve gut health

The session highlighted recent research findings and practical clinical applications, making it highly relevant for students and professionals in nutrition and allied health sciences.

The workshop centered on a specialized case study involving a patient with a compromised gut-organ axis. Under expert guidance, students and professionals engaged in:

- **Clinical Assessment:** Analyzing biochemical markers and patient history to identify specific microbial imbalances.
- **Case-Specific Diet Formulation:** Developing personalized nutrition intervention plans, focusing on the integration of prebiotics, probiotics, and fiber-adjusted diets.
- **Practical Troubleshooting:** Discussing real-world challenges in patient compliance and the monitoring of dietary interventions.

This interactive session allowed participants to apply the morning's insights into microbiome science directly to medical nutrition therapy (MNT), fostering a deeper understanding of **precision nutrition.**

To conclude the practical segment, a dedicated evaluation was held to identify the most effective clinical approaches developed during the workshop. **Ms. Rohini Prasad** personally presented gifts to the winners of the case study competition, rewarding their analytical skills and innovative diet planning strategies. This gesture underscored the importance of precision and evidence-based practice in the field of clinical nutrition.

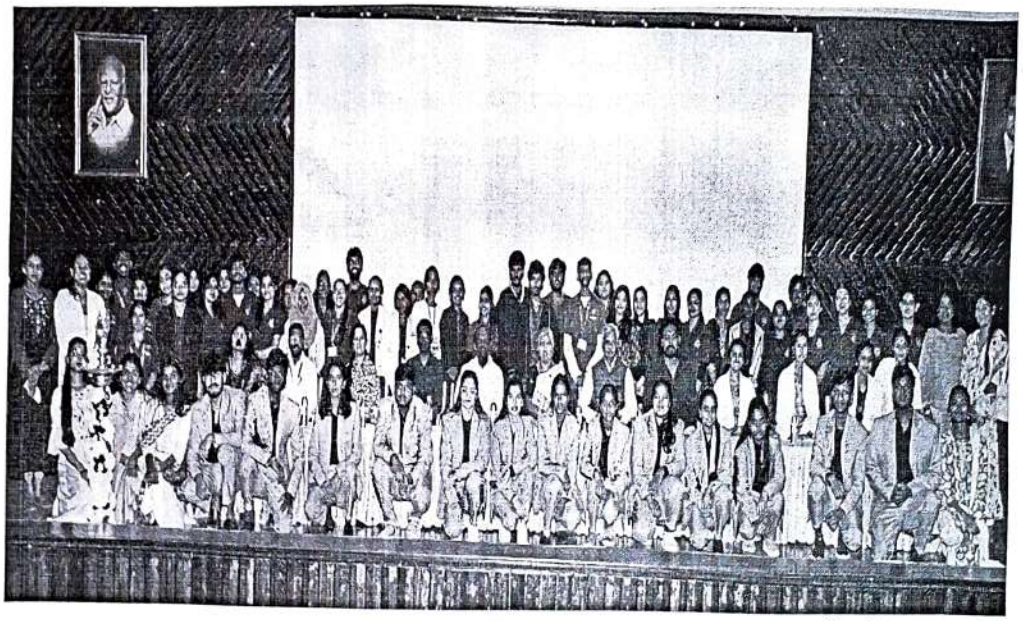

The event drew to a successful close with a formal **Vote of Thanks** delivered by **Ms. Nithya Talluri**. In her address, she expressed profound gratitude to the Honorable Vice Chancellor, the Registrar, and the Dean for their unwavering support and presence, which added immense value to the proceedings.

She extended special appreciation to the guest speaker, **Ms. Rohini Prasad,** for sharing her expertise and providing the students with a clear roadmap for clinical applications in gut health. Acknowledgments were also made to the organizing committee, faculty members, and the enthusiastic student participants whose engagement made the hands-on sessions particularly impactful.

"Alignment with Sustainable Development Goals" to highlight the academic and social impact of the workshop. The day concluded on a high note, leaving participants with a renewed perspective on the vital role of the microbiome in clinical nutrition and the practical tools to implement this knowledge in their future professional practice.

10.	Highlights of events including photos

The conference aimed to address the evolving needs of health professions education in the context of competency-based curricula. The conference brought Around 176 delegates, 7 international and 11 national speakers the sessions focused on competencies, learning & Assessment for advancing CBE into practice. Through 3 workshops, 5 plenary sessions and a symposium and panel discussion, with 64 scientific presentations this conference brought together national and international educators, researchers, clinicians, and academic leaders to deliberate on outcome-oriented education, learner-centred approaches, and robust assessment frameworks.

- Eminent international and national speakers from Canada, USA, Brazil, Oman, Indonesia, Rwanda, and India
- Three hands-on workshops on simulation design, competency-based assessment, and integration of global frameworks
- Plenary sessions, keynote address, panel discussions, and symposium on contemporary issues in health professions education

Day 1 workshop on Simulation Design Covered strategies for integrating simulation into CBE curricula, focusing on design, implementation, and assessment.
Assessment Frameworks Workshop Stressed structured competence evaluation for meaningful learning and equitable high-stakes decisions.
Symposium on The Holistic Clinician: Integrating Communication, Ethics, and Professionalism, highlighted challenges in consistently applying these principles in real clinical environments, emphasizing practical strategies for holistic clinician development.
Dr. Sandeep Khanna shared best practices for effective implementation, with ACGME Frameworks for Competency-Based Assessment.
Dr. Deena, keynote address on provided dialogues and learning strategies for CBE advancement.
Day 2 started with Dr. Ciraj talk on Competency Framework for IPE & Collaborative Practice outlined structures for interprofessional teamwork.

Dr. VN Mahalakshmi plenary session on Redefining Clinical Skills in CBE: focused on enhancing performance through innovative TL methods.
The panel discussion deliberated the challenges in the local adaptation of these frameworks and proposed possible solutions.
Workshop 3, Integrating various global competency Frameworks and plans into PG assessment design for local CBE context. Various Assessment methods aligning to NCAHP Curriculum were deliberated.

- Scientific paper presentations with attractive cash prizes for best papers
- Virtual format enabling wide participation and interactive learning
- Opportunity for faculty development, networking, and scholarly exchange

SDUAHER

Through: proper channel

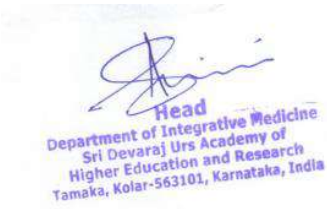

Dear Sir,

Subject: Submission of event reports of Poster Drawing Competition (National Youth Day)

Concerning the above subject, I would like to bring the following information to your attention. To commemorate Swami Vivekananda Jayanti (National Youth Day), the Department of Integrative Medicine, in association with the National Service Scheme (NSS) Unit, and in collaboration with Sri Devaraj Urs College of Nursing (SDUCON), conducted a **Poster Drawing Competition** on 12th January 2026. Herewith, I am submitting the event report in a prescribed format.

Thanking you

Yours Sincerely

(Dr. Ashween Bilagi)

Name of the Department: Integrative Medicine

Sl.no	Event Report
1	**Level of Event** – Academy level
2	**Background/Introduction-** The Department of Integrative Medicine, in association with the National Service Scheme (NSS) Unit, and in collaboration with Sri Devaraj Urs College of Nursing (SDUCON) and R. L. Jalappa College of Pharmacy (RLJCOP), organized the celebration of National Youth Day on 12th January 2026 from 3:00 PM to 5:00 PM. The event was conducted in the form of a Poster Drawing Competition with the theme "Ignite the Self, Impact the World", aimed at inspiring youth to recognize their inner potential and contribute positively to society. The competition witnessed the enthusiastic participation of 34 students, who creatively expressed the theme through impactful artwork reflecting self-development, social responsibility, and nation-building. The event was successfully coordinated by Dr. Malathi, Dr. Vani, Mrs. Komala, Mrs. Sunitha L, Mr. Nikhil, Mrs. Shriya, and Mrs. Kavitha, whose collective efforts ensured the smooth conduct of the programme. The celebration effectively highlighted the role of youth in shaping a resilient and responsible future, in alignment with the ideals of National Youth Day.

1	**Name of Event:**
	Freshers Day – Aadhya
2	**Background / Introduction:**
	Freshers Day is an important academic and cultural event organized to welcome newly admitted students into the institution and to provide them with a platform to interact, showcase their talents and feel a sense of belonging. With this objective, Freshers Day "Aadhya" for B. Pharmacy students was organized at R. L. Jalappa College of Pharmacy on 07 January 2026, commencing at 10:00 AM onwards at the C. V. Raman Auditorium. The program was designed to foster unity, confidence and cultural harmony among students of different academic years, while creating a warm and memorable welcome for the first-year B. Pharmacy students.

6	**Report:**
	1. The Freshers Day "Aadhya" for B. Pharmacy students was successfully conducted on 07 January 2026, commencing at 10:00 AM. 2. The program was anchored by Ms. Sushmitha and Mr. Sudharshan, students of II Year B. Pharmacy, who efficiently coordinated the flow of events. 3. The event began with a welcome dance performed by the first semester students, setting an energetic and festive tone for the program. 4. This was followed by the formal welcoming of all dignitaries, the dignitaries addressed the gathering, sharing their valuable insights, words of encouragement and best wishes to the freshers. 5. The cultural segment included a variety of performances by 1st & 2nd year students, showcasing dance, music and other creative talents. 6. A lunch break was observed from 01:00 PM to 02:00 PM. 7. The afternoon session resumed at 02:00 PM, featuring continued cultural activities along with fun games and interactive sessions organized especially for the freshers, which enhanced student participation and enjoyment. 8. The event concluded on a joyful note, leaving the freshers with memorable experiences and a warm welcome into their academic journey at the institution.

Date of the event: **27th & 28th December, 2025**

Name of the department: **School of Law, SDUAHER**

Sl. No.	Event Report
1	**Level of the event**
	International Level
2	**Background / Introduction**
	The School of Law, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in collaboration with the Global Academy of Juridical Sciences, organized a two-day International Conference on "Exploring Approaches and Practices of Human Rights Institutions in Protection of Human Rights" on 27th and 28th December, 2025 in hybrid mode. The conference aimed to provide an academic platform for scholars, academicians, practitioners, and students to deliberate on the role, challenges, and effectiveness of human rights institutions at national and international levels.
3	**Venue**
	Silver Jubilee Auditorium, SDUAHER (Hybrid Mode)
4	**Sponsors**
	Nil
5	**Inauguration**
	The conference commenced with an Inaugural Session held on 27th December, 2025. The session began with an introductory and welcome address by Ms. Anjum Mohammadi, Assistant Professor, School of Law, SDUAHER. The inauguration was followed by the inaugural address delivered by Prof. Kokila L. Konasinghe, Professor of Law, Faculty of Law, University of Colombo, Sri Lanka. The abstract book of the conference was formally released by the dignitaries. Addresses were delivered by Mr. Giorgi Amiranashvil, Assistant Professor, Ivane Javakhishvili Tbilisi State University, Georgia, Dr. D. V. L. N. Prasad, CAO, SDUAHER, and Dr. Muninarayana C., Registrar, SDUAHER. The Presidential Remarks were given by Dr. B. Vengamma, Vice-Chancellor, SDUAHER. The inaugural session concluded with a vote of thanks by Ms. Vidhya C., Assistant Professor, School of Law, SDUAHER.
6	**Participants**
	Students: 150, Faculty members, research scholars, advocates, and students from various national and international institutions through the hybrid mode.
7	**Any other information**
	The two-day International Conference was conducted successfully and witnessed active participation from scholars and students. The deliberations contributed significantly to understanding contemporary challenges faced by human rights institutions and explored innovative approaches for effective protection of human rights. The conference strengthened academic collaboration and reaffirmed the commitment of the School of Law, SDUAHER, towards promoting research and discourse in the field of human rights.

2	**Background / Introduction**

Empowering a Culture of Safety: Gender Sensitization and Awareness of the POSH Act

"Empowering a Culture of Safety: Gender Sensitization and Awareness of the POSH Act" was the theme of the day for women workers. A **Gender Sensitization Awareness Program along with awareness of the POSH Act** was conducted for the **teaching and non-teaching staff** on **13-12-2025** by the **Women Empowerment Cell (WEC)**.

The program commenced with a **welcome address by Ms. Parvathi**, followed by an **invocation to the Almighty**. **Dr. Pallavi** then introduced the speaker **Dr. Vanaja**, the External Member of the Women Empowerment Cell, to the gathering. She emphasized the need for **gender sensitivity in fostering a safe, respectful, and inclusive work environment**, particularly in **healthcare and academic institutions**. She engaged the staff members and students through an **interactive and thought-provoking session**, captivating their attention with a **detailed explanation of gender sensitization from a legal perspective** In recognition of her contribution, a **Certificate of Appreciation** was presented to the speaker by **Dr. Deena Mendez**, the former Member Secretary of the committee.

This was followed by a dedicated session on the **Prevention of Sexual Harassment (POSH) Act**, once again led by **Dr. Usha G. Shenoy** in her capacity as the **Chairperson**. Dr. Shenoy was formally introduced to the staff members by **Ms. Parvathi**. The session comprehensively covered:

- Why POSH matters to every working professional
- Where and to whom the POSH Act applies
- Key provisions and understanding of the POSH Act
- Steps to be taken if harassment occurs
- The role and functioning of the Internal Complaints Committee (ICC)
- The process of reporting complaints
- Roles and responsibilities of the ICC
- Rights and duties of every staff member

Dr. Shenoy also addressed **common myths and facts related to female behavior**, dispelling misconceptions and reinforcing the importance of **professional conduct and ethical**

	responsibility in the workplace. The program concluded with the **felicitation of Dr. Deena Mendez**, who has rendered **31 years of dedicated service** to the institute in the **Department of Biochemistry** and served the **Women Empowerment Cell for 10 years**. Dr. Deena Mendez was introduced by **Dr. Pallavi, Assistant Professor, Department of Dermatology**, after which a **video presentation** showcasing messages and experiences shared by her colleagues was screened, conveying heartfelt wishes on the occasion of her retirement. The felicitation ceremony included **cake cutting** and the presentation of a **fruit bowl and memento**. The event concluded with a **pledge**, wherein the students collectively affirmed their commitment to **upholding gender sensitization, dignity, and respectful practices in healthcare and professional environments**.

Sl. No.	Event Report
1.	**Name & Level of Event:** Two-Day Workshop on "Role of Nutrition in the Reversal of Metabolic Diseases" and "Technicality of Effective Milk Transfer from Mother to Baby" – Institutional Level
2.	**Date:** 9th & 10th December 2025
3.	**Conducted by:** Department of Community Medicine, in collaboration with the Department of Hospital Administration,Sri Devaraj Urs Medical College, Kolar
4.	**Background / Introduction:** The Department of Community Medicine organized a two-day workshop focusing on nutritional interventions for metabolic health and maternal–child nutrition. The programme aimed to strengthen knowledge and practical skills among healthcare professionals on the role of nutrition in reversing metabolic diseases and ensuring effective breastfeeding practices. The workshop was conducted as part of the centenary year celebration of the Founder Chairman, Shri R. L. Jalappa. Day 1 focused on metabolic health, covering NFHS and CNNS data on malnutrition, mitochondrial function, macronutrient counting, fasting, and lifestyle factors influencing metabolic balance. Day 2 emphasized maternal and child health, with sessions on antenatal nutrition, effective breastfeeding techniques, PNC ward–based breastfeeding assessment, complementary feeding, and growth monitoring as a tool for behaviour change communication.
5.	**Venue:** B. C. Roy Hall, Central Library, SDUAHER, Tamaka, Kolar  **PHOTOGRAPH 1:** Faculty and Organizing Team of the Two-Day Workshop
6.	**Sponsors:** Sri Devaraj Urs Academy of Higher Education and Research.
7.	**Inauguration:** The workshop was inaugurated in the presence of esteemed dignitaries from the university administration. The inaugural addresses emphasized the importance of nutrition in preventing intergenerational transmission of metabolic diseases and improving maternal and child health outcomes.

8.	**Speakers:** • Dr. Rupal Dalal, MD, FAAP, IBCLC, Consultant, Health Spoken Tutorials Initiative, IIT Bombay • Dr. Devaji Patil, MBBS, MHA, Consultant, Health Spoken Tutorials Initiative, IIT Bombay  **PHOTOGRAPH 2:** Interactive session on the role of physical activity, sunlight exposure, and sleep in metabolic health by Dr. Devaji Patil
9.	**Participants:** Faculty members, postgraduates, interns, and nursing staff from Community Medicine, Paediatrics, Obstetrics & Gynaecology, and allied departments Total participants:60
10.	Any Other Information: Nil
11.	**Awards / Prices: Not Applicable**
12.	**Valedictory:** The programme concluded with a valedictory session and certificate distribution to participants and resource persons
13.	**Any Other Information: Nil**

DEPARTMENT OF COMMUNITY MEDICINE

Date: 15-12-2025

REPORT OF TWO-DAY WORKSHOP

"ROLE OF NUTRITION IN THE REVERSAL OF METABOLIC DISEASES"

&

"TECHNICALITY OF EFFECTIVE MILK TRANSFER FROM MOTHER TO BABY"

ON 9th & 10th DECEMBER 2025

The **Department of Community Medicine**, in collaboration with the **Department of Hospital Administration**, RLJH & RC, organized a **two-day workshop** titled ***"Role of Nutrition in the Reversal of Metabolic Diseases"*** **and** ***"Technicality of Effective Milk Transfer from Mother to Baby"*** on **9th and 10th December 2025** at **B. C. Roy Hall, Central Library, SDUAHER**, Tamaka, Kolar.

The programme was conducted as part of the **centenary year celebration of the Founder Chairman, Shri R. L. Jalappaji**, with the objective of enhancing knowledge and practical skills related to nutrition, metabolic health, and maternal–child health.

Organizing Team

The workshop was organized by 2 Resource Faculty from IIT Bombay Health Spoken Tutorials namely Dr Rupal Dalal, Adjunct Professor and Dr Devaji Patel Vasanth.

Organizing Team with Delegates of the Two-Day Workshop

Inauguration

The official proceedings of the workshop commenced in the morning with registration followed by the inaugural session. The programme was inaugurated in the presence of esteemed dignitaries from the university administration, including the Hon'ble Vice-Chancellor, Registrar.

The inaugural addresses emphasized the importance of nutrition in preventing intergenerational transmission of metabolic diseases and strengthening breastfeeding practices for improved maternal and child health outcomes.

Inaugural session of the workshop with inaugural address and felicitation of dignitaries

DAY 1 – ROLE OF NUTRITION IN THE REVERSAL OF METABOLIC DISEASES

Session 1: NFHS & CNNS Data-based Problem Statement of Child and Adult Malnutrition by Dr.Devaji Patil

This session highlighted the current burden of malnutrition in India using NFHS and CNNS data. The speaker emphasized the dual burden of undernutrition and overnutrition across life stages and discussed their implications on metabolic health. The importance of early nutritional interventions to prevent long-term metabolic consequences was underscored.

Dr. Devaji Patil delivering the session on NFHS & CNNS data-based problem statement of child and adult malnutrition

Session 2: Role of Mitochondria in Metabolic Health by Dr.Rupal Dalal

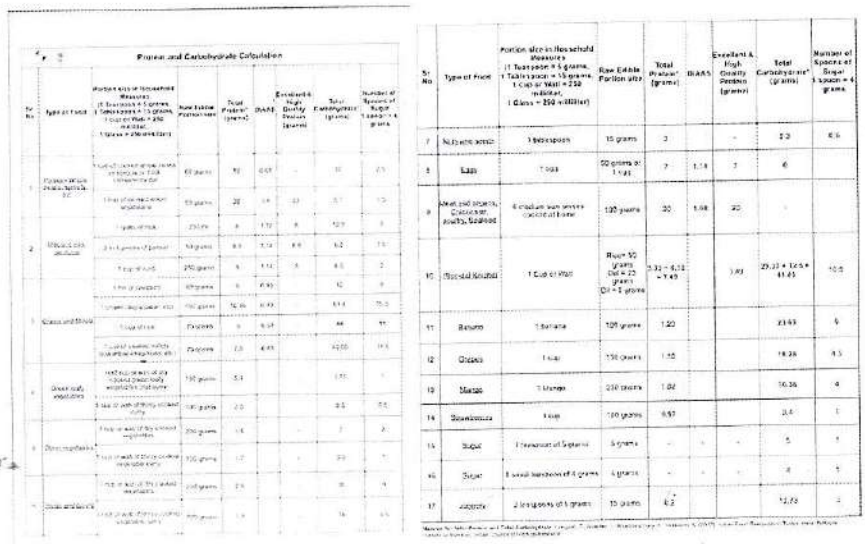

The session focused on the role of mitochondria in energy metabolism and metabolic regulation. The speaker explained mitochondrial dysfunction as a key contributor to metabolic disorders such as obesity, diabetes, and metabolic syndrome. Nutritional strategies to improve mitochondrial efficiency were also discussed.

Dr.Rupal Dalal delivering the session on the role of mitochondria in metabolic health

Session 3: Macronutrient Counting by Dr.Devaji Patil

This session provided insights into macronutrient composition and its role in metabolic balance. The importance of appropriate distribution of carbohydrates, proteins, and fats based on individual metabolic needs was emphasized. Practical approaches to macronutrient counting in clinical and community settings were discussed.

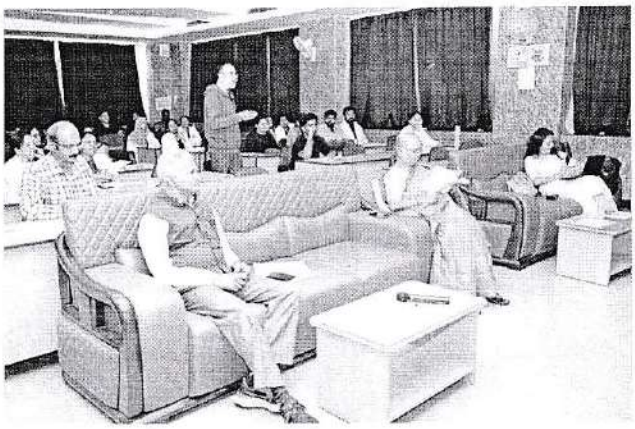

Protein and Carbohydrate Calculation

Sr. No	Type of Food	Portion size in Household Measures (1 Teaspoon = 5 grams, 1 Tablespoon = 15 grams, 1 Cup or Vatti = 250 millilitar, 1 Glass = 250 millilitar)	Raw Edible Portion size	Total Protein* (grams)	DIAAS	Excellent & High Quality Protein (grams)	Total Carbohydrate* (grams)	Number of Spoons of Sugar 1 spoon = 4 grams
7	Nuts with Jaggery	1 tablespoon	15 grams	3		-	2.3	0.6
8	Eggs	1 nos	50 grams or 1 nos	7	1.18	7	0	
9	Meat, and products, Chicken or poultry, Seafood	6 medium size pieces or 1 bowl	120 grams	20	1.66	20	-	
10	Skimmed Milk/Dahi	1 Cup or Vati	River 90 grams Dal = 25 grams Oil = 5 grams	3.33 + 6.33 + 1.43		1.43	29.33 + 12.5 + 61.43	10.5
11	Banana	1 banana	100 grams	1.23			23.63	6
12	Chikoo	1 nos	150 grams	1.65			18.26	4.5
13	Mango	1 Mango	250 grams	1.82			16.36	4
14	Strawberries	1 cup	100 grams	0.67			3.4	1
15	Sugar	1 teaspoon of 5 grams	5 grams	-	-	-	5	1
16	Sugar	1 small handful of 4 grams	4 grams	-	-	-	4	1
17	Jaggery	2 teaspoons of 5 grams	10 grams	0.2			12.73	3

Dr.Devaji Patil delivering the session on macronutrient counting and metabolic balance

Session 4: Role of Physical Activity, Sunlight Exposure, and Sleep in Metabolic Health by Dr.Devaji Patil

This session highlighted lifestyle factors influencing metabolic health. The speaker elaborated on the role of regular physical activity, adequate sunlight exposure for vitamin D synthesis, and quality sleep in maintaining metabolic balance. The session reinforced the need for holistic lifestyle modification alongside nutritional interventions.

Interactive session on the role of physical activity, sunlight exposure, and sleep in metabolic health by Dr. Devaji Patil

Session 5: Fasting and Metabolic Health by Dr.Rupal Dalal

The speaker discussed the physiological basis of fasting and its role in metabolic reset and insulin sensitivity. Different fasting patterns and their potential benefits in metabolic disease reversal were explained. Emphasis was placed on individualized and medically supervised fasting practices.

Scientific session on fasting and metabolic health by Dr. Rupal Dalal

Session 2: Role of Mitochondria in Metabolic Health by Dr.Rupal Dalal

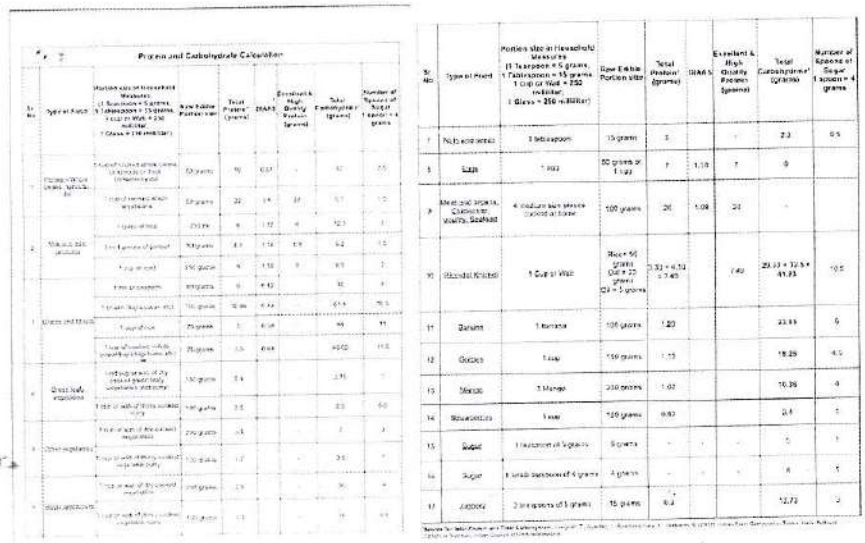

The session focused on the role of mitochondria in energy metabolism and metabolic regulation. The speaker explained mitochondrial dysfunction as a key contributor to metabolic disorders such as obesity, diabetes, and metabolic syndrome. Nutritional strategies to improve mitochondrial efficiency were also discussed.

Dr.Rupal Dalal delivering the session on the role of mitochondria in metabolic health

Session 3: Macronutrient Counting by Dr.Devaji Patil

This session provided insights into macronutrient composition and its role in metabolic balance. The importance of appropriate distribution of carbohydrates, proteins, and fats based on individual metabolic needs was emphasized. Practical approaches to macronutrient counting in clinical and community settings were discussed.

Dr.Devaji Patil delivering the session on macronutrient counting and metabolic balance

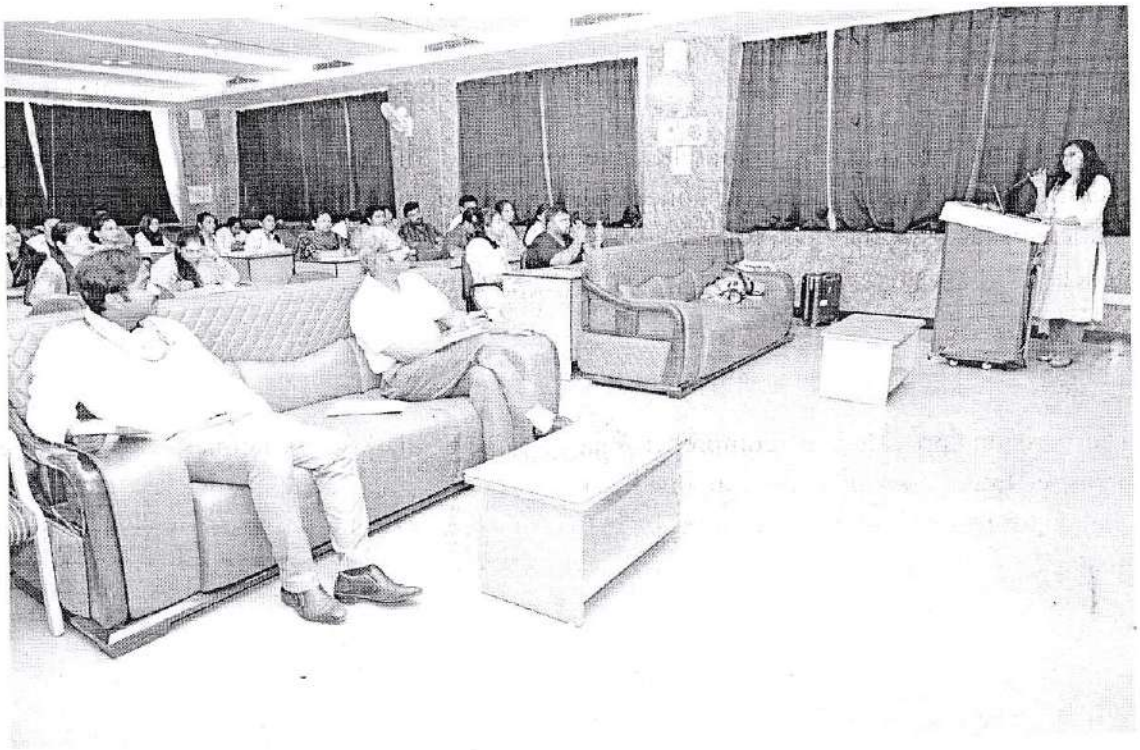

Session 6: Role of Physical Activity, Sunlight Exposure, and Sleep in Metabolic Health by Dr.Devaji Patil

This session highlighted lifestyle factors influencing metabolic health. The speaker elaborated on the role of regular physical activity, adequate sunlight exposure for vitamin D synthesis, and quality sleep in maintaining metabolic balance. The session reinforced the need for holistic lifestyle modification alongside nutritional interventions.

DAY 2 – TECHNICALITY OF EFFECTIVE MILK TRANSFER FROM MOTHER TO BABY

Session 1: Role of Antenatal Nutrition and Breastfeeding Counselling on Child Health by Dr.Devaji Patil

This session emphasized the importance of adequate maternal nutrition during pregnancy and effective antenatal breastfeeding counselling. The speaker discussed how early counselling improves breastfeeding initiation and continuation, thereby positively influencing infant growth and development.

Scientific session on the role of antenatal nutrition and breastfeeding counselling on child health by Dr. Devaji Patil

Session 2: Effective Breastfeeding – 45 Points by Dr.Rupal Dalal

The session provided a comprehensive overview of key principles of effective breastfeeding. The speaker explained correct positioning, attachment, and common challenges faced by mothers. Practical tips to ensure effective milk transfer were discussed in detail.

Scientific session on effective breastfeeding – 45 counselling points by Dr. Rupal Dalal

Session 3: PNC Ward – Breastfeeding Assessment by Participants and Growth Monitoring

This interactive session involved practical assessment of breastfeeding techniques in the postnatal ward. Participants were trained to identify common breastfeeding problems and assess growth parameters. The session enhanced hands-on skills in breastfeeding support and monitoring.

Hands-on training on breastfeeding assessment and growth monitoring in the PNC ward

Session 4: Effective Complementary Feeding – Guidelines and Foods by Dr.Rupal Dalal

The speaker discussed recommended guidelines for complementary feeding, including timing, food diversity, and meal frequency. Emphasis was laid on locally available, nutritionally adequate foods to ensure optimal infant and young child feeding practices.

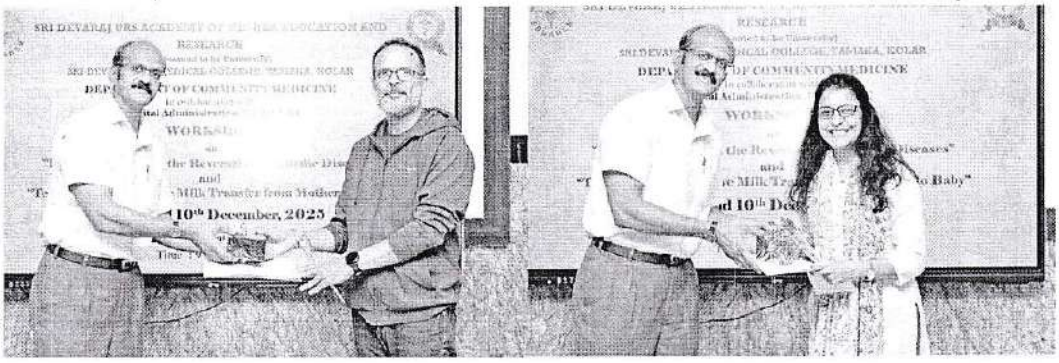

Session 5: Growth Monitoring – Tool for Behaviour Change Communication by Dr.Devaji Patil

This session highlighted growth monitoring as an effective tool for behaviour change communication. The use of growth charts for early detection of growth faltering and counselling caregivers was explained. The role of frontline health workers in promoting optimal child growth was emphasized.

Scientific session on growth monitoring as a tool for behavior change communication by Dr. Devaji Patil

Valedictory and Certificate Distribution

Certificate & Memento distribution during the valedictory session of the workshop

Outcome of the Workshop

- Improved understanding of nutritional strategies for metabolic disease reversal
- Enhanced skills in breastfeeding assessment and counselling
- Strengthened interdisciplinary collaboration
- Increased awareness of evidence-based maternal and child nutrition practices

Conclusion

The two-day workshop was successfully conducted and achieved its stated objectives. The programme provided a valuable platform for knowledge exchange and skill development, reinforcing the critical role of nutrition in metabolic health and early-life care. The Department of Community Medicine extends sincere gratitude to the resource persons, dignitaries, participants, and organizing team for making the programme a success.

Sl. No.	Event Report
1	**Name of Event:**
	NSS Activity – Grow Green in Memory of Saalumarada Thimmakka
2	**Background / Introduction:**
	The NSS Unit of R.L. Jalappa College of Pharmacy organized a plantation activity themed "Grow Green in Memory of Saalumarada Thimmakka", honoring the environmentalist renowned for planting thousands of trees in Karnataka. The objective of this event was to create awareness about environmental conservation, promote plantation of medicinal plants and encourage students to contribute actively to sustainability initiatives. The activity aligned with the mission of NSS to nurture social responsibility and environmental consciousness among students. The event also supported the institute's vision for a greener and healthier campus.
3	**Venue :**
	Dhanvantri Herbal Garden, SDUAHER
4	**Sponsors:**
	NSS Unit, SDUAHER
5	**Participants & Delegates in Number:**
	Delegates-6, Teaching Staff- 10, NSS Student Volunteers- 101, Non-Teaching Staff-10 = 127
6	**Report:**
	1. The NSS Plantation Activity began at 11:30 AM on 9th December 2025 at Dhanvantri Herbal Garden, SDUAHER. 2. The program was graced by the presence of the dignitaries from SDUAHER: • Sri J. Rajendra, Vice President, SDUET • SRI. K.G. Hanumantha Raju, Secretary, SDUET • Dr. B. Vengamma, Hon'ble Vice Chancellor, SDUAHER • Dr. D.V.L.N. Prasad, Chief Administrative Officer, SDUAHER • Dr. C. Muninarayana, Registrar, SDUAHER 3. The dignitaries actively participated in the plantation activity and planted medicinal plants, symbolizing their commitment towards environmental sustainability. 4. Dr. Ashok Kumar B.S, Principal, RLJCOP, joined the plantation and encouraged students to actively take part in the initiative. 5. Faculty coordinators Ms. Mamatha H S and Mr. Akhilesh Kumar facilitated the smooth execution of the program. 6. Students from RLJCOP planted a variety of medicinal plants, enriching the herbal garden with species of therapeutic and academic importance. 7. The activity emphasized the preservation of medicinal flora and the involvement of youth in promoting green initiatives.

	8. After the plantation, refreshments were served to all the dignitaries, faculty, staff and students as a gesture of appreciation and to conclude the event on a pleasant note. 9. The program ended with dignitaries appreciating the efforts of the NSS volunteers and encouraging them to continue participating in environmental conservation activities.

EVENT REPORT – ALUMNI REUNION 2025 (29th November 2025 (10:30 AM)

Venue: PG Auditorium

The **Alumni Reunion 2025** of R.L. Jalappa College of Physiotherapy was successfully conducted on **29th November 2025** at the PG Auditorium, bringing together former students, faculty, and dignitaries to celebrate the college's legacy and strengthen alumni connections. The program commenced at **10:30 AM** with a warm **Welcome Address by Dr. Saniksha**, followed by **welcoming the dignitaries** by Dr. Sandhya. The ceremony continued with an **Invocation and Lamp Lighting** by all dignitaries, marking an auspicious beginning to the event. This was followed by an **address by the Alumni Representative, Dr. Pavan Kumar**, who shared inspiring reflections on the college's growth and alumni achievements.

The event proceeded with an **address by the Registrar, Dr. Munirayanna**, and an encouraging message from **Dr. Aravind Natarajan, Dean, Faculty of Allied Health Professions**, appreciating the alumni's continued contribution to the institution. A significant highlight of the reunion was the **signing of the MOU with SPECTRUM**, led by the Registrar, marking a new chapter of collaboration and professional advancement. This was followed by the **presentation of the Certificate of Patronage** from the alumni to the Registrar as a gesture of gratitude and ongoing support. A formal **Vote of Thanks** concluded the official ceremony segment.

From **11:35 AM to 12:10 PM**, the gathering was addressed by the **Chief Guest, Dr. Dhanajeyan Jayavel**, Founder & MD–CEO of Spectrum Physio Pvt. Ltd., who delivered an insightful and motivating session on

professional growth and evolving opportunities in physiotherapy. The program concluded with the **felicitation of the Chief Guest**, followed by a joyful and memorable **photo session** capturing the spirit of togetherness and celebration.

The Alumni Reunion 2025 served as a meaningful platform for reconnecting, reflecting on shared journeys, and strengthening the bond between the institution and its alumni community.

1	**Name & Level of Event**
	One Day Workshop on 28.11.2025 on "Integrated Quality Assurance and Performance Enhancement Framework for Higher Education: Aligning NAAC, NIRF, Academic Audit and Sustainable Institutional Rankings"
2	**Background / Introduction**
	IQAC plays a central role in promoting institutional quality culture, continuous improvement in academic and administrative processes, and alignment with accreditation and ranking frameworks such as NAAC, NIRF and sustainability-based evaluations. With NAAC transitioning to a simplified binary accreditation system of Accredited or Not Accredited, followed by the Maturity-Based Graded Level (MBGL) model and increased emphasis on digital readiness, outcome-based learning and AI-enabled validation, institutions are required to recalibrate their systems towards transparency, efficiency and performance-driven outcomes. Considering these evolving requirements, IQAC organised a one-day workshop to build institutional preparedness, streamline quality processes and provide strategic guidance for accreditation and ranking readiness.

Event Report: CELEBRATION OF CONSTITUTION DAY, 2025

Date:26th November 2025

Venue: Silver Jubilee Auditorium, Sri Devaraj Urs Academy of Higher Education and Research, Kolar, Karnataka

Introduction:

The Department of School of Law, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in association with the District Legal Services Authority (DLSA), Kolar, organized a meaningful and insightful celebration of *Constitution Day, 2025* in commemoration of the adoption of the Constitution of India. The programme was conducted on **26th November 2025** at the **Silver Jubilee Auditorium**, SDUAHER, Kolar, Karnataka. The event aimed to create awareness among students and faculty about the values, spirit, and significance of the Indian Constitution and to reaffirm commitment towards justice, liberty, equality, and fraternity. The celebration served as an academic and civic platform to promote constitutional literacy and strengthen democratic ideals among the participants.

Inauguration:

The program was inaugurated by Dr. M. R. Ravi, IAS, Deputy Commissioner, Kolar; Sri R. Natesh, Member Secretary, & Senior Civil Judge District Legal Services Authority, Kolar; Sri J. Rajendra, Vice Chairman, SDUET; Dr. B. Vengamma, Hon'ble Vice Chancellor, SDUAHER; Dr. D.V.L.N. Prasad, Chief Administrative Officer, SDUAHER; Dr. Muninarayana C. Registrar, SDUAHER; Dr. Prabhakar K. Principal, SDUMC; Dr. Arvind Natarajan Dean, Allied Health Sciences; Dr. G. Vijayalakshmi, Principal, SDUCON; Dr. Ashok Kumar B. S. Principal, RLJCOP; Dr. Koushik C. Principal, School of Law.

CELEBRATION OF CONSTITUTION DAY, 2025

Welcome Speech:

Ms. Anjum Mohammedi, Student Welfare Officer & Assistant Professor, Department of School of Law, SDUAHER welcomed the gathering.

Expert Talks:

Chief Guest Dr. M. R. Ravi, IAS, Deputy Commissioner, Kolar, in his address as the Chief Guest, emphasized the vital role of the Constitution in shaping responsible citizenship and good governance. He highlighted the relevance of constitutional values in public administration and urged students to uphold the principles of justice, equality, and integrity in both personal and professional life.

Sri R. Natesh, Member Secretary and Senior Civil Judge, District Legal Services Authority, Kolar, delivered an insightful talk on the legal significance of the Constitution. He explained the fundamental rights and duties enshrined in the Constitution and stressed the importance of legal awareness among students to strengthen democracy and access to justice.

Sri J. Rajendra, Vice Chairman, SDUET, addressed the gathering and spoke about the visionary leadership behind the institution and the responsibility of educational institutions in nurturing constitutionally conscious citizens. He encouraged students to actively participate in nation-building activities guided by constitutional ideals.

Dr. B. Vengamma, Hon'ble Vice Chancellor, SDUAHER, in her presidential address, highlighted the academic and social importance of celebrating Constitution Day. She emphasized the need to inculcate constitutional morality, ethical values, and social responsibility among students through education and institutional initiatives.

Date: 25-11-2025

Sl. No	Event Report
1.	Level of Event
Institution	
2.	Background / Introduction

The presentation **"Artificial Colorants and the Rise of Bioderived Alternatives & Their Application"** by **Dr. Antony V. Samrot** provided an in-depth overview of synthetic food dyes, their health implications, and the global transition toward natural, sustainable pigments. Dr. Samrot outlined the commonly used artificial colorants permitted in foods and the growing evidence linking several of them—such as Ponceau 4R, Carmoisine, Erythrosine, and Tartrazine—to adverse effects including hyperactivity in children, allergic reactions, and potential toxicity. These concerns have fuelled public demand and regulatory interest in safer colour alternatives. Dr. Samrot explained how natural pigments derived from plants, microbes, and other biological sources—such as carotenoids, anthocyanins, curcumin, chlorophyll, paprika, and beetroot pigments—offer safer, environmentally friendly colour solutions with antioxidant and functional benefits. The presentation highlights the expanding market potential for these natural dyes, driven by consumer preference for clean-label products and global shifts toward eco-friendly manufacturing. A significant part of the talk showcases research on pigments extracted from onion peel, mangosteen peel, duckweed, and red cabbage, detailing their characterization through UV–Vis, FTIR, TGA, and their

application in textile dyeing, UV protection, and silver nanoparticle synthesis. The session concludes by emphasizing innovation, sustainability, and patentability in advancing bioderived pigments for industrial use.

Dr. Indran Suyambulingam explained about the ethical use of AI in scientific publication requires transparency, integrity, and accountability. Dr. Indran emphasised AI tools may assist with language refinement, data analysis, and idea organization, but they must not replace original scientific thinking or authorship. Researchers should clearly disclose any AI assistance, ensure accuracy of AI-generated content, and verify all references and data. AI must not be used to fabricate results, manipulate images, or generate misleading information. Human oversight is essential, and responsibility for the final work rests with the authors. Upholding these principles ensures credibility, protects scientific integrity, and promotes responsible advancement of AI in research.

ALL SENIOR RESIDENTS AND POST GRADUATE STUDENTS IN GENERAL SURGERY DEPT

Date of conduct of event: 06.09.2025

The R.L. Jalappa Institute of Oncology, a constituent unit of Sri Devaraj Urs Academy of Higher Education and Research, cordially greeted its first-year postgraduate students in the department of urology through an orientation cum inauguration program. This significant event took place on the 24th of November 2025, hosted within the College campus premises. Esteemed dignitaries from the Academy adorned the occasion with their presence. Notably, the distinguished presence of Dr. H K NAGARAJ, Consultant Urologist and Former Professor and HOD Urology M.S.Ramaiah Medical College, Saptagiri Institute of Medical Sciences and Research institute, Karnataka added to the prestige of the event as the chief guest.

This momentous occasion signifies the enrollment of the 1st batch of three MCh postgraduate students in the program which started from 2025. It reflects the Academy's successful transition from a service-providing department to an esteemed teaching institution. The Academy's commitment to dedicated patient care, comprehensive health education, and pioneering cancer research has been pivotal in achieving this significant milestone.

Dr. H K NAGARAJ speaking on the occasion emphasized the importance of ethics in clinical practice, stressed the need for empathy towards patients, and inspired young doctors to pursue urology as a specialization. Dr. B.Sivaramakrishna, spoke about the raise of department from a clinical service providing department to teaching department. Dr. Prabhakar K, the principal of SDUMC, provided guidance to the students regarding the latest NMC guidelines and emphasized the importance of research in the field of oncology. Dr Muninarayana C , Registrar SDUAHER has given brief history of challenges of establishment of department and given his assurance for development of department, Dr DVLN Prasad , the CAO of SDUAHER has given appreciation on development and inspired young residents to work hard. Dr. Vengamma B, the Honorable Vice Chancellor, emphasized the significance of evidence-based medicine and importance of neuro urology and functional urology for better patient quality of life.

The Urology department plays a vital role in providing comprehensive urological care to patients seeking treatment at the R.L. Jalappa Hospital. With fully equipped surgical equipment and

facilities, the institute operates with a unified mission: to deliver accessible and high-quality urological care to deserving patients at affordable costs.

The Department of Urology has garnered commendable expertise over the years, successfully conducting numerous complex major and supra-major surgeries with favorable outcomes. This integrated approach allows patients to receive all necessary treatments under one roof, eliminating the need for referrals to other institutions.

Academic Year-2025

SN	EVENT REPORT
1.	**NAME AND LEVEL OF EVENT** **Pediatric Advanced Life Support – Mandatory Module** Organized by Department of Pediatric Nursing, SDUCON
2.	**BACKGROUND/ INTRODUCTION** The Department of Pediatric Nursing, Sri Devaraj Urs College of Nursing (SDUCON), conducted a **Pediatric Advanced Life Support (PALS)** mandatory module for **III Year B.Sc. (N) VI Semester students** and **2nd Year GNM students** as per curriculum requirements on **22nd November 2025**. The programme focused on improving students knowledge and skills in identifying pediatric emergencies and implementing effective life-saving interventions. **Objectives of the programme:** • To understand the importance of early recognition and resuscitation in pediatric emergencies. • To update knowledge on Pediatric Advanced Life Support standards. • To practice airway management, CPR, and emergency care protocols. • To enhance quick decision-making and team coordination during pediatric resuscitation.
3.	**VENUE:** C.V. Raman Auditorium, SDUAHER 22nd November 2025**,** 8:30 AM – 12:30 PM
4.	**SPONSORS:** Department of Pediatric Nursing, SDUCON
5.	**INAUGURATION** The programme began with an Invocation Song by **Aleena Thomas and team (VI Sem.)**, followed by a Welcome Address by **Mrs. Saritha V, Assistant Professor, Dept. of Pediatric Nursing**. Dignitaries delivered their remarks highlighting the importance of pediatric emergency competency among nursing students. The inauguration set a strong foundation for a day of engaging academic activities related to pediatric life support.
6.	**SPEAKERS/ JUDGES/ CHAIRMAN/PANEL TEAM** • **Dr. Karthik S.** Assistant Professor, Dept. of Pediatrics, SDUMC

	• **Dr. Karthik Kanangi** Senior Resident, Dept. of Pediatrics, SDUMC • **Dr. Sudha Reddy V.R** Professor, Dept. of Pediatrics & Director of PG Academics, SDUMC • **Dr. Lavanya Subhashini** Vice Principal & HOD, Dept. of Pediatric Nursing, SDUCON
7.	**PARTICIPANTS & DELEGATES** Total Participants: **117 students,** 94 – III Year B.Sc. Nursing, V Semester,23 – II Year General Nursing and Midwifery (GNM). All participants actively took part in the learning sessions and demonstrations.
8.	**VALEDICTORY** The programme concluded with a Vote of Thanks by **Mrs. Uma V.,** Nursing Tutor, Dept. of Pediatric Nursing**,** expressing gratitude to all dignitaries, speakers, and participants. The event ended successfully at **12:30 PM**.
9.	**ANY OTHER INFORMATION** • Students appreciated the practical demonstrations. • Improved understanding of PALS protocols and emergency algorithms. • Encouraged clinical readiness and confidence in handling paediatric emergencies.

Undergraduate Induction Program - 21st November 2025

Shubharambh 2025, the Undergraduate Induction Program, was a meaningful and memorable event organised to welcome the new batch of undergraduate students stepping into their academic journey at R.L. Jalappa College of Physiotherapy. The program aimed to provide the freshers with motivation, guidance, and a sense of belonging as they begin their professional education.

The event was held on **21st November 2025** and commenced at **12:00 PM**. It was graced by esteemed dignitaries, including **Dr. Vengamma**, Vice Chancellor; **Dr. Muninarayana**, Registrar; **Dr. Aravind Natarajan**, Dean, FAHP; **Dr. Bharath**, Student Welfare Committee Member; and faculty members of the institution.

The programme began with a warm **welcome address by Dr. Shashwath P. Naidu**, who extended heartfelt greetings to the new students and highlighted the purpose of the induction

initiative.

This was followed by insightful speeches from the dignitaries:

- **Dr. Vengamma** emphasized the importance and evolving role of physiotherapy in healthcare.
- **Dr. Muninarayana** spoke about the wide scope and professional opportunities available in physiotherapy.
- **Dr. Aravind Natarajan** addressed the students on institutional values, ethics, and code of conduct.
- **Dr. Bharath** encouraged students to actively participate in sports and cultural activities to showcase their talents and develop well-rounded skills.

The event concluded with a formal **Vote of Thanks delivered by Dr. Senthil Kumar**, HOD, R.L. Jalappa College of Physiotherapy, who expressed gratitude to all dignitaries, faculty members, and students for making the program successful.

Shubharambh 2025 served as a platform to welcome new students with warmth and inspiration, helping them transition smoothly into their academic and cultural environment. The event not only motivated the freshers but also instilled a sense of pride and belonging as they begin their journey toward becoming future physiotherapy professionals.

DEPARTMENT OF COMMUNITY MEDICINE

No: SDUMC/KLR/COMM/ 273/2025-26 Date:26-11-2025

Sl No:	Event Report
1.	**Name & Level of Event**: World Diabetic day Awareness Program & Heart Screening.
2.	**Date**: 17th November 2025
3.	**Conducted by**: Department of Community Medicine, Sri Devaraj Urs Medical College, Kolar.
4.	**Background / Introduction**: World Diabetes Day 2025 is observed on November 14th under the global theme "Diabetes and Well-being", with this year's focus on "Diabetes and the Workplace." The campaign, led by the International Diabetes Federation (IDF) and supported by the World Health Organization (WHO), emphasizes creating supportive and healthy work environments for people living with diabetes. It highlights the need for regular screening, stress management, healthy eating, and physical activity during work hours. Ensuring workplace awareness and early detection can help prevent complications, promote well-being, and empower employees to manage diabetes effectively.
5.	**Venue**: RHTC, Devarayasamudra.
6.	**Sponsors**: Sri Devaraj Urs Academy of Higher Education and Research
7.	**Date**:17-11-2025 1. **Health awareness**: World Diabetes Day 2025 was observed with a diabetes awareness and screening program organized by the Department of Community Medicine in collaboration with R.L Jalappa Narayana Heart Centre. The event aimed to create awareness on diabetes prevention and provide early screening

services for the rural community. A health education session was conducted on the importance of lifestyle modification, early detection, and the link between diabetes and heart disease.

Photograph 1: Community participation for the program. People from surroundings were mobilized by ASHA and our staff.

2. **Diabetes screening**: Free GRBS (Random Blood Sugar) testing was carried out for 110 people. People with deranged values were counseled and referred for further evaluation.

Photograph 2: GRBS screening for diabetes.

3. **Heart screening**: With reference to above individuals, 46 individuals underwent screening for heart health with Echo and spirometry. Individuals with impaired reading or cardiac risk factors were counselled and referred for further evaluation.

Photograph 3: Spirometry screening.

The program helped strengthen community awareness on disease burden, identification of risk factors and warning signs, importance of early identification and management. The participants were educated on better access and referral services on diabetes and cardiac care in RLJH.

Photograph 4: Dr. Varun. R, Senior Resident, giving health awareness on lifestyle modification and early diagnosis and management of diabetes and cardiac diseases.

8	**Participants & Delegates in Number**: 110
9	**Awards / Prices**: Nil
10	**Any Other Information**: The program was conducted as part of the institutional outreach efforts. Photographs were taken for documentation.

To,
The Principal,
Sri Devaraj Urs Medical College,
Tamaka, Kolar – 563103,

Respected Sir,

Sub: Report for Orientation Programme on "Vaccine Preventable Diseases (VPDs) and Adverse Events Following Immunization (AEFI)" was organized by the Department of Community Medicine on 14-11-2025 - Reg.

With reference to the above subject, hereby submitting the report on Orientation Programme on "Vaccine Preventable Diseases (VPDs) and Adverse Events Following Immunization (AEFI)" was observed by the Department of Community Medicine on 14-11-2025 in collaboration with RCHO, Kolar, Government of Karnataka & World Health Organization (WHO). A detailed report of the same has been attached.

This is for your kind information and needful.
Thanking you,

Yours Sincerely

Professor & HoD

No: SDUMC/KLR/COMM/ 327 /2025-26 Date: 14-11-2025

Sl. No.	Event Report
1.	**Name & Level of Event: Orientation Programme on "Vaccine Preventable Diseases (VPDs) and Adverse Events Following Immunization (AEFI)"**
2.	**Date:** 14th November 2025
3.	**Conducted by:** Department of Community Medicine, Sri Devaraj Urs Medical College, Kolar in collaboration with RCHO, Kolar, Government of Karnataka & World Health Organization (WHO)
4.	**Background / Introduction:** The Department of Community Medicine, SDUMC, organized an Orientation Programme on Vaccine Preventable Diseases (VPDs) and Adverse Events Following Immunization (AEFI) to strengthen the knowledge and skills of medical students regarding immunization practices, vaccine safety, and surveillance. This programme was conducted in collaboration with the World Health Organization (WHO) and RCHO, Kolar, emphasizing the importance of early detection, prompt reporting, and management of AEFI in alignment with national and global immunization strategies.A total of 33 participants attended the session.
5.	**Venue:** Library AV Hall, Sri Devaraj Urs Medical College, Tamaka, Kolar
6.	**Sponsors:**RCHO, Kolar, Government of Karnataka & World Health Organization (WHO)
7.	**Inauguration:** The programme began with a warm Welcome Address by Dr. Sunil B.N., Professor & Head, Department of Community Medicine, who highlighted the importance of immunization as one of the most effective public health interventions.Dr. Sunil also highlighted the need for more active case notification from private healthcare sectors, noting that private hospitals must be as vigilant and proactive as public institutions in reporting vaccine-preventable diseases and AEFI to ensure comprehensive surveillance and timely public health action.He encouraged participants to actively engage in learning and contribute to strengthening vaccine safety initiatives.

8.	**Speakers** / Judges / Chairman / Panel Team: 1. **Dr. Misbha Hani**, WHO–NPSP Consultant – *Resource Person for VPD & AFP* 2. **Dr. Kamalakar**, Paediatrician, District Hospital ,Kolar – *Resource Person for NIS & AEFI* 3. **Dr. Sunil B.N.**, Professor & HOD, Department of Community Medicine – *Programme Lead & Welcome Address* 4. **Faculty Members & Postgraduates, Department of Community Medicine** – *Session Support & Coordination*
9.	**Participants & Delegates in Number :** A total of 33 participants attended the programme, including undergraduate MBBS students, postgraduates from Dermatology, Paediatrics, ENT, Microbiology, and faculty members from the Department of Community Medicine. All participants were actively engaged throughout the sessions, interacting with the resource persons and taking part in discussions and learning activities.
10.	**Any Other Information**: Before the commencement of the technical sessions, a **pre-test** was conducted to assess the baseline knowledge of the participants on VPDs, NIS, and AEFI. To support structured learning, **booklets containing comprehensive information** on Vaccine Preventable Diseases, the National Immunization Schedule, and Adverse Events Following Immunization were distributed to all attendees. The technical sessions commenced with Dr. Misbha Hani delivering an insightful presentation on Vaccine Preventable Diseases (VPD) and Acute Flaccid Paralysis (AFP), providing clarity on disease burden, surveillance strategies, and WHO guidelines. This was followed by an in-depth session by Dr. Kamalakar, who elaborated on the National Immunization Schedule (NIS) and the reporting and management of Adverse Events Following Immunization (AEFI). Throughout the programme, participants interacted actively with the speakers, sought clarifications, and discussed field-level challenges related to immunization practices and surveillance, making the sessions highly engaging and informative.
11.	**Awards / Prices: Not Applicable**
12.	**Valedictory:** The valedictory session included the **felicitation of the resource persons, Dr. Misbha Hani and Dr. Kamalakar, by Dr. Dayananda**, as a mark of appreciation for their valuable contributions to the orientation programme. Their sessions on VPD, AFP, NIS, and AEFI were acknowledged for being highly informative and impactful for the participants. The programme concluded with a brief thank-you note, expressing gratitude to the speakers, organizing faculty members, and the enthusiastic participation of students. This was followed by a **group photograph**, capturing the successful completion of the event, and the programme ended with **lunch for all participants.**

13.	**Any Other Information:** The session contributed significantly to strengthening the understanding of VPDs, NIS, and AEFI among students and reinforced the importance of efficient vaccine safety practices and surveillance in alignment with national and WHO guidelines.

(A Deemed to be University)

Sri Devaraj Urs Medical College
Tamaka, Kolar-563103

We cordially invite you to the

"Vaccine Preventable Diseases Surveillance (VPDS) and Adverse Events Following Immunization (AEFI)".

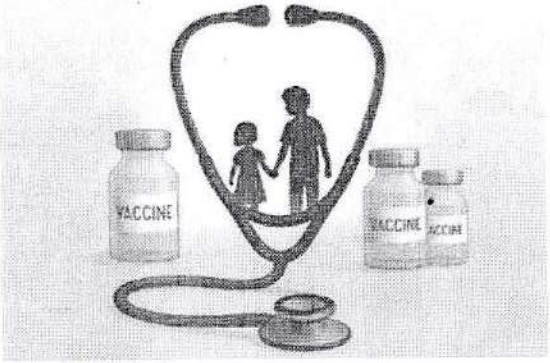

An **Orientation Programme** on *"Vaccine Preventable Diseases Surveillance (VPDS) and Adverse Events Following Immunization (AEFI)"* will be held on **14th November 2025**, from **11:00 AM to 1:00 PM**, at the **B.C. Roy Lecture Hall**, 1st Floor, Central Library, **Sri Devaraj Urs Medical College, Tamaka, Kolar.**

The Orientation Programme on ***"Vaccine Preventable Diseases*** *Surveillance (VPDS)* ***and Adverse Events Following Immunization (AEFI)"*** aims to enhance awareness and build the capacity of healthcare professionals and students in effective immunization practices and AEFI surveillance. Immunization continues to be one of the most impactful and cost-effective public health strategies, protecting millions of lives every year. The session emphasizes the importance of vaccine safety, prompt AEFI reporting, and community-level awareness to strengthen public confidence and support the goals of **the Universal Immunization Programme (UIP)** in alignment with the **WHO's Global Vaccine Action Plan**.

One vaccine can protect a lifetime of dreams.

Be the reason someone smiles again – through prevention, not cure.

International Conference on Translational and Technological Advances in Health Sciences (ICTAHS 2025) - 13th – 15th November 2025

Organised by - Dayananda Sagar University, Bengaluru

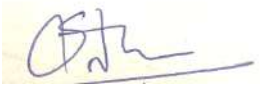

A total of 38 students from R.L. Jalappa College of Physiotherapy actively participated in the International Conference on Translational and Technological Advances in Health Sciences (ICTAHS 2025), hosted by Dayananda Sagar University from 13th to 15th November 2025. The conference, as highlighted in the brochure's introductory pages , served as an interdisciplinary platform bringing together researchers, practitioners, industry professionals, doctoral scholars, and students to explore the latest scientific, clinical, and technological advancements in health sciences. The event featured keynote sessions, invited talks by internationally renowned speakers, scientific presentations, panel discussions, and thematic sessions on emerging areas such as predictive analytics, interventional therapeutics, rehabilitative medicine, AI-powered innovations, and clinical research. Students had the opportunity to interact with experts from global institutions including the University of Montpellier, University of Utah, Stanford University, and Oman Medical College, gaining valuable academic exposure and research insights. Participation in ICTAHS 2025 allowed our students to broaden their professional perspectives, understand cutting-edge advancements in physiotherapy and allied health sciences, and strengthen their motivation toward research and evidence-based practice. The conference also included cultural showcases and networking opportunities that enriched the overall learning experience. The involvement of 38 students reflects the strong academic spirit and commitment to continuous learning upheld by our college.

2.	Background / Introduction
Type 1 Diabetes Mellitus (T1DM) is a chronic illness characterized by the body's inability to produce insulin due to the autoimmune destruction of the beta cells in the pancreas. Most pediatric patients with T1DM and a lifetime dependence on exogenous insulin. Considering the psychological issues of the children, apart from medications, management of T1DM needs a collaborative approach with lifestyle management. To create enhanced awareness on these issues, World Diabetes Day is celebrated on the 14th of November each year. Department of Pediatrics, SDUMC, celebrated World Diabetes Day on the 16th of November, 2023 with the theme "Access to Diabetes Care". Children with TIDM took an active part in cultural activities. Representatives from "Make a wish Foundation" Bangalore fulfilled the wishes of these children by distributing gifts of their (children's) choice.	
3. Event and Venue	
It was celebrated in the Pediatric wing of R L Jalappa Hospital & Research Centre. The event started with an invocation song by a child with T1DM (Miss Manasa). It was followed by welcome address by Dr. Sudha Reddy V R, Head of Department of Pediatrics. Dr. Chandrasekhar Setty, University Advisor, SDUAHER, Dr. Vengamma, Honorable Vice Chancellor, SDUAHER, Dr. Prabhakar, Principal, SDUMC, Dr. Krishnappa J, Medical superintendent, RLJH &RC and Dr. K N V Prasad, Professor, SDUMC addressed the children and parents, emphasizing on the diet and discipline needed for T1DM. Parents of children with T1DM expressed views on their experiences in managing their children and also the care provided by RLJH &RC. This was followed by cultural events performed by children with T1DM. Drawing competition was conducted and prizes were distributed. Dr. Tejasvi Seshadri, Pediatric Endocrinologist, along with Mrs Ayesha Mulani, PhD student	

and Ms Kavya imparted health education to the parents and children. Representatives from "Make a Wish Foundation", Bengaluru were involved in the event and they fulfilled the wishes of the children. The event ended with vote of thanks by Dr. Abhishek, Assistant Professor, Department of Pediatrics, SDUMC. In the afternoon session, Dr. Tejasvi Seshadri spoke on "Ambulatory Management of Type I Diabetes" educating the Pediatric post graduates in Seminar Hall, Pediatric PG block.

Students from R.L. Jalappa College of Physiotherapy participated with great enthusiasm in the **Anti-Ragging Day Celebration** organized by the Anti-Ragging Cell of Sri Devaraj Urs Academy of Higher Education and Research on **12th November 2025**, held at Sri Devaraj Urs Medical College, Tamaka, Kolar. The event, cantered around the theme **"Zero Tolerance to Ragging,"** followed a structured and impactful schedule featuring a warm welcome, an inspiring address by the Chief Guest, a motivating message from the Hon'ble Vice Chancellor, and the collective recitation of the **Anti-Ragging Oath**, reinforcing the institution's commitment to creating a safe, respectful, and inclusive academic environment. The program also included a visual display of anti-ragging themes aimed at raising awareness among students about the consequences of ragging and the importance of mutual respect on campus. As part of the celebration, creative competitions such as *Poster Palooza* and *Catchphrase Clash* were conducted to encourage students to express their understanding of anti-ragging values through art and powerful slogans. In the **Catchphrase Clash competition**, our students showcased remarkable creativity, originality, and clarity of thought, ultimately securing **2nd by VINOTH and 3rd place by EDWIN**, a proud achievement that highlighted their strong advocacy for an anti-ragging culture. Their success not only reflects their individual talent but also demonstrates the college's commitment to fostering responsible, aware, and socially conscious physiotherapy professionals. Overall, the event served as a meaningful platform for learning, self-expression, and reinforcing the message of a ragging-free campus.

1	**Level of the event**
	National level
2	**Background / Introduction**
	National Education Day is observed in India on November 11th every year to commemorate the birth anniversary of Maulana Abul Kalam Azad, the first Education Minister of independent India. Celebrated since 2008, this day aims to highlight the importance of education and its role in shaping the future of the nation. Maulana Azad was a prominent freedom fighter, scholar, and a key architect of the Indian education system. National Education Day serves as a reminder of his contributions and encourages people to prioritize education as a fundamental tool for individual and societal development. Topic of the webinar – Bridging NEP 2020 and CBME: Transforming Medical Education for the Future

10	**Any other information**
	Dr. Madhu outlined NEP's vision for multidisciplinary learning, improved

	governance, strengthened teacher training, and enhanced research capacity supported by significant national funding. Her talk emphasized transforming undergraduate programs into flexible, research-oriented formats, expanding international collaborations, and integrating Indian knowledge systems such as Ayush and yoga into medical curricula. She also highlighted the growing importance of digital health, AI, precision medicine, and interdisciplinary skills to develop future-ready physician-scientists. Dr. Madhu described NEP implementation at JSS Academy, including its four-year BSc structure, academic flexibility, internships, and cross-department research projects, along with ICMR-funded yoga research.

National Education Policy 2020

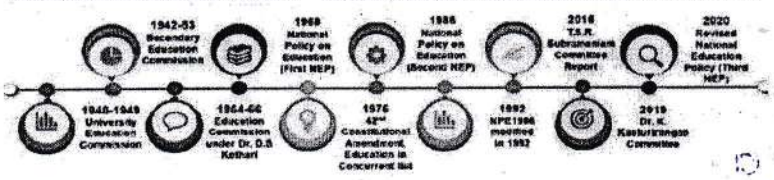

The revival after a gap of 34 years is much needed. With time and advancement, there has to be a transformation in all sector s and education is no exception. Creating a fresh, diversified, inclusive, and advanced educational vision was, therefore, necessary and urgent. The NEP committee under Dr. Kasturirangan's leadership recognizes this fundamental differentiator, and has laid out a far-reaching vision to create learning environments that are multidisciplinary, that cater to a well-rounded education for all individuals, and has the immense potential to transform India's human capital development.

It is after three decades that India received its new education policy which has set the pace for a sector that caters to 25% of the country's population.

Below is a brief history of the national education policy:

Highlights of education sector in India before NEP 2020

- 2.7% of GDP was India's public spending on education
- $121 billion was the value of education market of India in 2019
- 50,000 higher educational institutions, 907 universities and over 1.4 million schools are operational in India
- Nearly 300 million students were pursuing education in India

Workshop on

APPLICATION OF NURSING THEORIES

Date: 11th & 12th November, 2025

Venue: A.V Hall, SDUCON

Timing: 8.00AM to 5.30PM

About Workshop

Nursing theories provide a structured framework for understanding the principles of Nursing care. They guide clinical decision-making, enhance patient outcomes, and shape Nursing education and research.

By connecting theory with practice, students can deliver more holistic, Evidence-Based Care. Join us for an insightful workshop designed to deepen your understanding of Nursing theories and their application in Clinical practice, Education, and Research.

This interactive session will cover key theoretical frameworks, from Florence Nightingale to contemporary models, empowering student nurses to enhance patient care through theory-based practice.

TARGET AUDIENCE:

PG Nursing Students, and Faculties.

OBJECTIVES:

By the end of the workshop, the delegates will be able to:-

1. Analyze the Nursing Theories, trace their historical development, and explain their relevance to Contemporary Nursing Practice.
2. Enhance understanding of how Nursing Theories guide Clinical Practice, Education, and Research.
3. Develop the ability to apply Theoretical Models to real-world Nursing Scenarios.
4. Encourage Critical Thinking and Reflective Practice based on theoretical frameworks.
5. Promote the integration of Theory into Evidence-Based Nursing Care.

6	**Report:**
	The seminar commenced with a welcome address and an introduction of the guest speaker, Dr. Koushik. C, School of Law, SDUAHER. Dr. Koushik delivered an engaging and insightful session highlighting the importance of understanding laws that affect every citizen's daily life. He elaborated on the following key areas: • **Child Protection Laws:** Explained the *Protection of Children from Sexual Offences (POCSO) Act* and emphasized the responsibility of society in safeguarding minors from abuse and exploitation. • **Prohibition of Child Marriage:** Discussed the *Prohibition of Child Marriage Act*, clarifying that marriage below 18 years for girls and 21 years for boys is illegal, and highlighted the social and legal consequences of child marriage. • **Workplace Conduct and Ethics:** Focused on the *Prevention of Sexual Harassment (POSH)*

	Act 2013 and general workplace ethics. He guided students on how to maintain professionalism, mutual respect, and proper behaviour in academic and professional environments. • **Laws Related to Abortion and Women's Rights:** Explained the *Medical Termination of Pregnancy (MTP) Act*, women's rights in healthcare decisions, and the importance of consent and confidentiality in reproductive matters. Dr. Koushik. C also shared real-life examples and encouraged students to seek awareness about their legal rights and responsibilities. The session was followed by an interactive Q&A, where students clarified doubts regarding everyday legal issues. The Principal thanked Dr. Koushik. C for his valuable insights and encouraged students to be responsible citizens aware of their rights and duties.
7	**Felicitation:**
	At the conclusion of the seminar, Dr. Koushik. C was felicitated by the Principal and faculty members of R. L. Jalappa College of Pharmacy as a token of appreciation for his valuable contribution. A Certificate of Appreciation was presented to the speaker acknowledging his efforts in delivering an informative and thought-provoking session.

Sl. No.	Event Report
1.	**Name & Level of Event: One Health Awareness Rally – Community Level Outreach Programme**
2.	**Date:** 7th November 2025
3.	**Conducted by:** Department of Community Medicine, Sri Devaraj Urs Medical College, Kolar
4.	**Background / Introduction:** The One Health concept emphasizes the interconnection between human, animal, and environmental health—promoting collaborative efforts to prevent and control diseases that arise at their interface. As part of the IAPSM–ICMR One Health Initiative, the Department of Community Medicine, SDUMC, organized a community-level awareness rally on *7th November 2025* at RHTC, Devarayasamudra. The objective was to sensitize the local community about maintaining a clean environment, preventing zoonotic diseases, and promoting sustainable health practices. The rally aimed to strengthen community awareness of how protecting animals and the environment contributes to human well-being.
5.	**Venue:** Rural Health Training Centre (RHTC), Devarayasamudra, Mulbagal Taluk, Kolar District
6.	**Sponsors:** Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER)
7.	**Inauguration:** The rally was inaugurated by the Gram Panchayat President of Devarayasamudra, who hoisted the rally flag and addressed the gathering. The event began with a brief introduction about the *One Health* approach by Dr. Varun R and Dr. Mohsina Shaik, Senior Residents, Department of Community Medicine.
8.	**Speakers** / Judges / Chairman / Panel Team: 1. **Dr. Varun R**, Senior Resident – *Coordinator* 2. **Dr. Mohsina Shaik**, Senior Resident – *Coordinator* 3. **Postgraduates and Faculty of Community Medicine Department** – *Supervision*

	4. **RHTC Staff** – *Community Coordination and Local Support*
9.	**Participants & Delegates in Number :** Event-100 participants – including *first-year MBBS students, faculty members, postgraduates, and RHTC staff.*
10.	**Any Other Information**: The rally began from RHTC Devarayasamudra and concluded at Kellu Hollai village, covering approximately 1 km. Students carried 40 colorful bilingual placards with messages such as ***"Healthy People, Healthy Animals, Healthy Environment"*** **and** ***"One World, One Health – Let's Protect Together."*** They delivered short health talks to villagers on waste management, clean drinking water, prevention of zoonotic diseases, personal hygiene, and environmental protection. The villagers showed active interest, engaging with the students and acknowledging the importance of maintaining a clean environment and healthy surroundings. The event concluded with refreshments and a group interaction session.
11.	**Awards / Prices: Not Applicable**
12.	**Valedictory:** The programme concluded with closing remarks and acknowledgment by Dr. Varun R, who thanked the Gram Panchayat President, RHTC staff, faculty, postgraduates, and participating students for their active involvement and successful execution of the event.
13.	**Any Other Information:** The programme was conducted as part of the institutional community outreach initiatives under the Department of Community Medicine. It formed a component of the IAPSM–ICMR One Health Initiative, aimed at promoting collaboration between human, animal, and environmental health sectors. Photographs were taken for documentation and reporting purposes, and the event received active support from the RHTC staff and local community leaders.

Name of the event: State CME & WORKSHOP on BOTOX AND SKIN BOOSTERS
Date of the event: 31st October 2025
Name of the department: Dermatology, Venereology and Leprosy

Sl. No.	Event Report
1	**Level of the event** RLJH & RC (State CME & WORKSHOP on BOTOX AND SKIN BOOSTERS)
2	**Background / Introduction** The Department of Dermatology, Sri Devaraj Urs Medical College, Kolar, successfully organized a **State-level Continuing Medical Education (CME) and Workshop on "Botox and Skin Boosters"** on **31st October 2025**. The event aimed to enhance knowledge and practical skills among dermatologists and postgraduate students regarding the latest advancements and applications in aesthetic dermatology, particularly focusing on **Botox and Skin Boosters**. The program witnessed enthusiastic participation from dermatologists, postgraduates, and faculty from across the state. ***Highlights of the Event :*** The **State CME and Workshop on "Botox and Skin Boosters"**, organized by the Department of Dermatology, Sri Devaraj Urs Medical College, Kolar, proved to be an enriching academic and practical experience for all participants. The program was meticulously planned to provide both a strong theoretical foundation and hands-on exposure to the use of botulinum toxin and skin boosters—two cornerstone treatments in modern aesthetic dermatology. ***1.Inaugural Session*** The State CME and Workshop on *"Skin Boosters and Botox in Today's World"* commenced at 10:00 a.m. with registration of delegates, followed by the formal inauguration ceremony. The program opened with a **welcome address** by **Dr. Rajashekar T. S**, Professor and Head, Department of Dermatology, Venereology & Leprosy. He warmly welcomed the dignitaries, faculty, postgraduate students, and delegates, emphasizing the growing importance of aesthetic dermatology in modern clinical practice and the need for structured academic exposure in this field. Next, **Dr. Prabhakar K, Principal, Sri Devaraj Urs Medical College**, addressed the gathering. He commended the Department of Dermatology for organizing a state-level CME on such a relevant and fast-evolving topic. He highlighted the significance of continual learning to provide safe, evidence-based aesthetic procedures and to bridge the gap between traditional dermatology and modern cosmetology. Following this, **Dr. Krishnappa J, Medical Superintendent, RL Jalappa Hospital & Research Centre**, congratulated the organizers for their commitment to academic excellence. He spoke about the increasing patient demand for aesthetic treatments and how such educational events enable clinicians to combine artistry with medical expertise, ensuring optimal patient outcomes. The **Registrar of SDUAHER, Dr. Muninarayana C**, then addressed the audience,

Dr. RAJASHEKAR T S
Professor & HOD
Dept. of Dermatology
SDUMC, Tamaka, Kolar

appreciating the department's initiative and the enthusiastic participation of delegates from various institutions. He emphasized the university's vision of fostering innovation and multidisciplinary collaboration. He further encouraged young dermatologists to pursue aesthetic dermatology ethically and responsibly, aligning clinical practice with both scientific rigor and patient safety.

Finally, **Dr. Rajashekar T. S**, as Organizing Chairman, formally inaugurated the CME and expressed gratitude to the management, Dermatology Society of Kolar, guest speakers, and sponsors for their invaluable support and cooperation in making the event successful.

2. Lecture 1: "Basics of Botox & Skin Boosters" – Dr. Sravya Tipirneni

The first academic session was delivered by **Dr. Sravya Tipirneni**, Senior Consultant Dermatologist and HOD, Manipal Hospital, Varthur Road, Bangalore.

Dr. Tipirneni provided a comprehensive overview of **Botulinum toxin (Botox)**, covering its pharmacology, mechanism of action, reconstitution techniques, dosage considerations, and injection protocols for common aesthetic concerns such as forehead lines, glabellar frown lines, and crow's feet.

She also elaborated on **skin boosters**, focusing on their role in skin hydration, collagen stimulation, and improvement of skin texture and luminosity. The session emphasized **patient selection, product safety, and post-procedure care**, helping attendees build a strong conceptual foundation. Her lucid presentation and clinical insights set the tone for the rest of the CME.

3. Lecture 2: "Off-label Indications of Botox" – Dr. Vaishnavi B V

The second lecture, presented by **Dr. Vaishnavi B V**, Assistant Professor, Department of Dermatology, Sri Devaraj Urs Medical College, explored the **off-label applications of Botox** beyond its conventional cosmetic uses.

Dr. Vaishnavi discussed therapeutic and aesthetic indications such as **hyperhidrosis, migraine, bruxism, gummy smile, platysmal bands, and facial asymmetry**. She emphasized evidence-based practice and ethical considerations when using Botox for non-traditional purposes. The session was particularly appreciated for bridging the gap between **academic knowledge and real-world application**, encouraging participants to adopt a scientific and cautious approach while exploring newer uses of botulinum toxin.

4. Lecture 3 & Live Workshop: "Practical Demonstration of Botox and Skin Boosters" – Dr. Deepthi T N

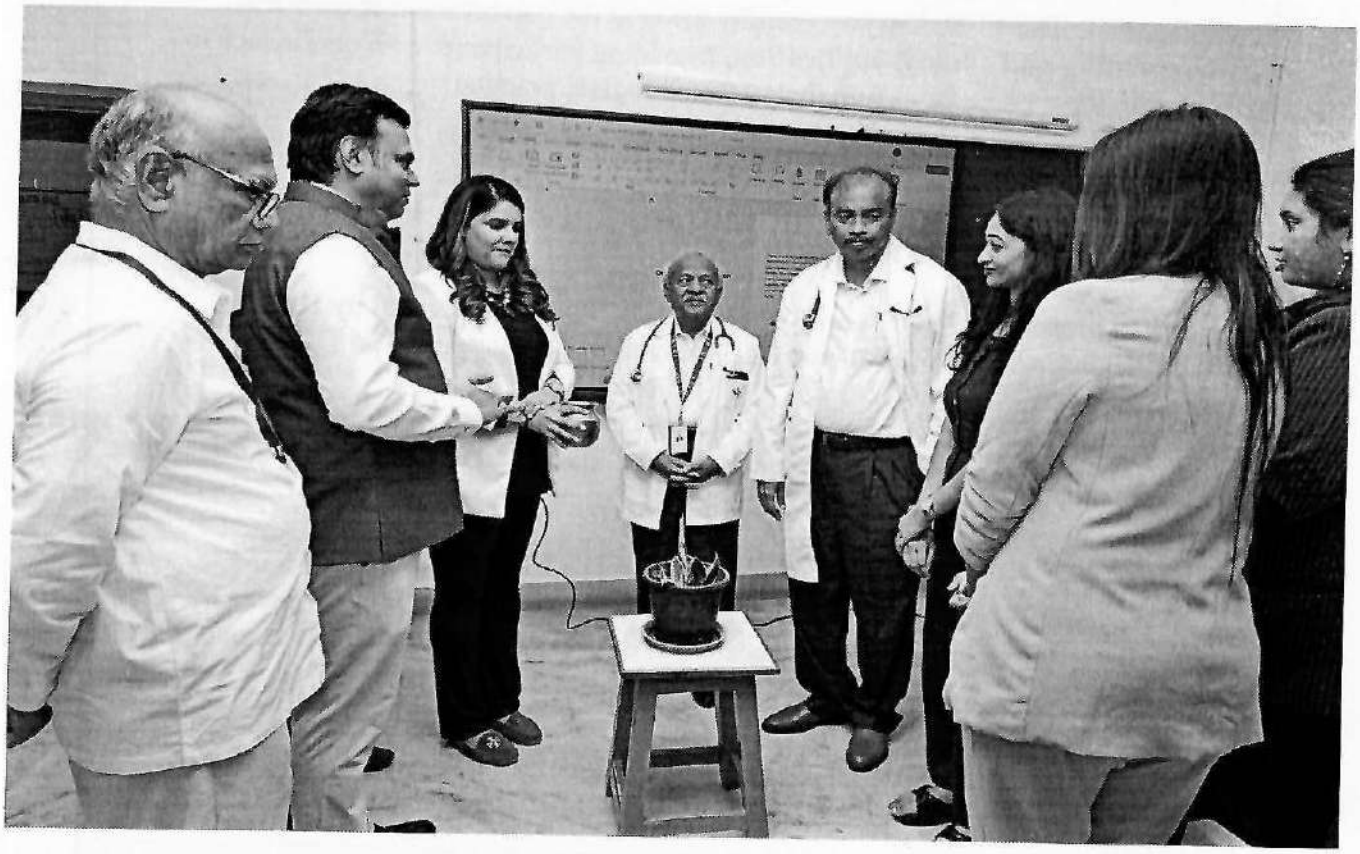

The highlight of the day was the **hands-on live demonstration** session led by **Dr. Deepthi T N**, Dermatologist, Manipal Hospital, Varthur Road, Bangalore.

Dr. RAJASHEKAR T S
Professor & HOD
Dept. of Dermatology

	Dr. Deepthi conducted a **step-by-step live demonstration** on the administration of Botox and skin boosters. Participants observed techniques for patient evaluation, identifying injection points, maintaining aseptic precautions, dilution and reconstitution of the product, and post-procedure management. The demonstration was highly interactive, with attendees engaging in case-based discussions and receiving practical tips for achieving optimal results while minimizing complications. The workshop successfully bridged the gap between **theoretical understanding and clinical application**, providing participants with confidence to incorporate these procedures into their dermatological practice. *5. Vote of Thanks and Conclusion* The formal proceedings concluded with a **Vote of Thanks** delivered by **Dr. Madhukiran C**, Assistant Professor, Department of Dermatology, Sri Devaraj Urs Medical College. Dr. Madhukiran expressed heartfelt gratitude to all the speakers, participants, organizing team members, and supporting staff for making the event a success. A **group photograph** marked the successful completion of the CME, followed by a **networking lunch**, which fostered academic exchange and camaraderie among participants.

Sri Devaraj Urs Medical College
Department of Anatomy

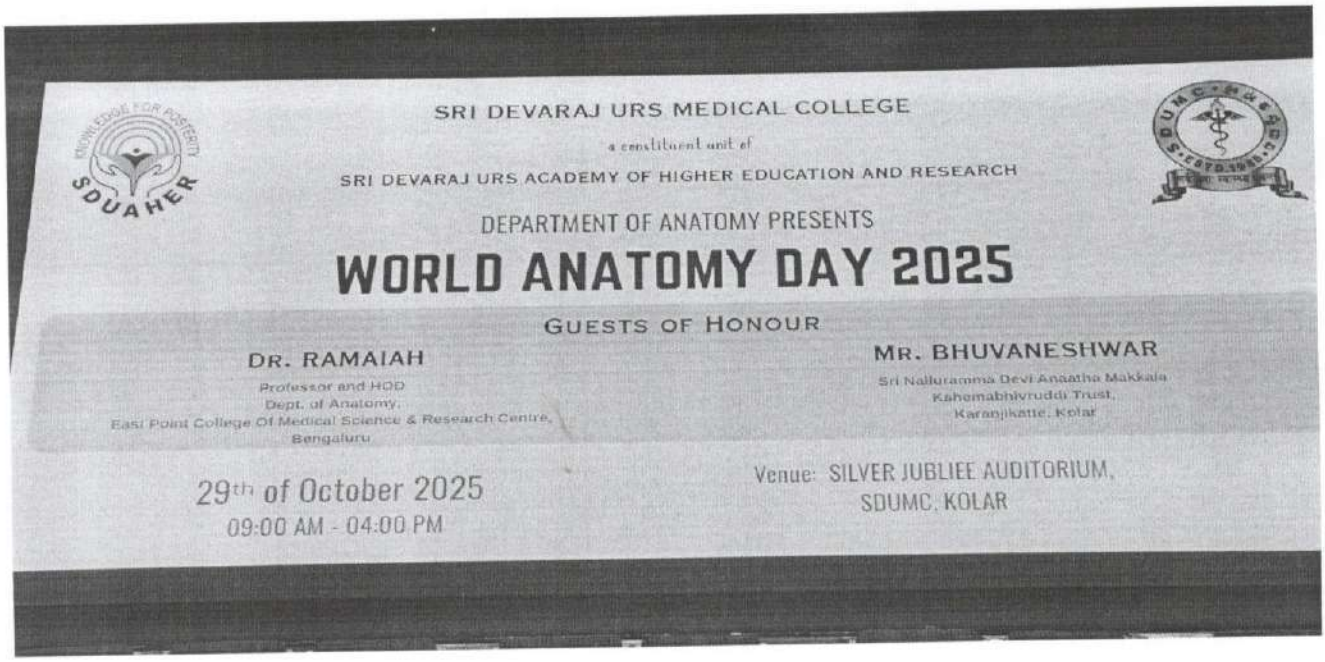

REPORT ON WORLD ANATOMY DAY – 2025

Venue: Silver Jubilee Auditorium, SDUMC, Kolar

Date: 29th October 2025

Time: 11:00 AM – 2:00 PM

Sri Devaraj Urs Medical College, under the aegis of Sri Devaraj Academy of Higher Education and Research, celebrated World Anatomy Day 2025 with great enthusiasm and academic spirit, honouring the legacy of Andreas Vesalius, the Father of Modern Anatomy. The theme for this year's celebration was **"Global Perspectives of Anatomy – Bringing Together the Global Community and Recognising Differences while Celebrating Similarities."**

The programme began with an invocation song, followed by the lighting of the ceremonial lamp, symbolising the illumination of wisdom and knowledge. The welcome address warmly greeted the

gathering and set the tone for the day's proceedings.

The event was graced by distinguished guests –

Chief Guest: Dr. Ramaiah, Professor and Head, Department of Anatomy, East Point College of Medical Sciences and Research Centre, Bengaluru – a distinguished anatomist and eminent educationalist.

Guest of Honour: Mr. Bhuvaneshwar, a dedicated social worker managing the Sri Nalluramma Devi Anaatha Makkala Kshema Abhivruddhi Trust, Karanjikatte, Kolar, who has been serving orphaned and underprivileged children with compassion and commitment.

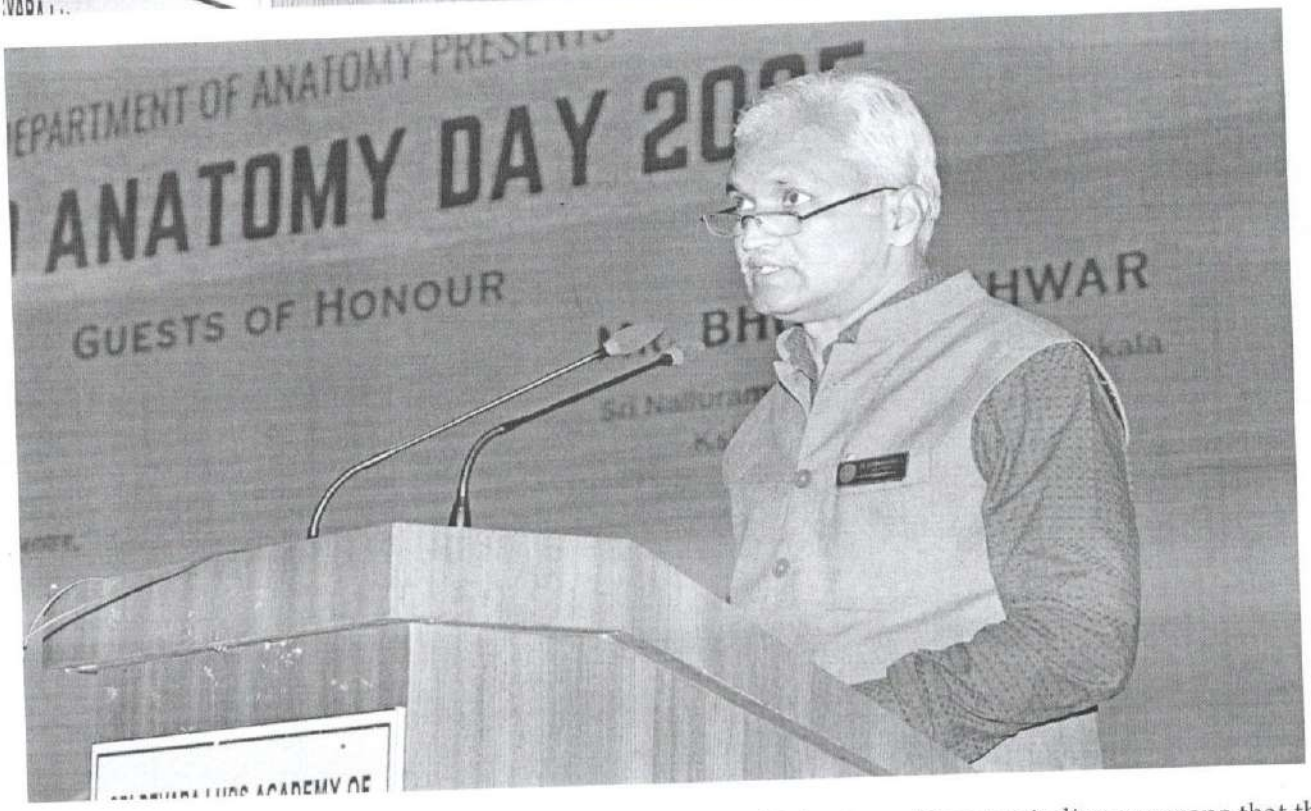

In his address, Dr. Ramaiah delivered an excellent and insightful talk on the history of anatomy, tracing its evolution from the era of Vesalius to the present day. His address highlighted how anatomical knowledge forms the cornerstone of medical science and continues to inspire generations of doctors and researchers.

Mr. Bhuvaneshwar, in his heartfelt speech, spoke about the value of empathy and service in the medical profession, motivating students to blend compassion with scientific excellence.

The programme was further enriched by brief yet inspiring addresses from Dr. B. Vengamma, Hon'ble Vice Chancellor, Dr. D.V.L.N. Prasad, Chief Administrative Officer, and Dr. Muninarayana C, Registrar, SDUAHER. They emphasised the relevance of anatomy in integrating fundamental medical knowledge with patient care and applauded the department's efforts in nurturing a strong academic foundation.

The event also featured a session on the Importance of World Anatomy Day, reminding everyone that this day is not merely a tribute to the past but also a reaffirmation of the vital role anatomy plays in modern medical education and research.

A felicitation ceremony followed, honouring the chief guest and guest of honour for their valuable contributions to academia and society.The event concluded with a vote of thanks, extending heartfelt gratitude to all dignitaries, faculty members, and students. The successful coordination of the programme was led by Dr. Ashwini N S (Chairperson), Dr. Shantharam V (Organising Secretary), and Dr. Venkateshu K V (Joint Secretary), along with the enthusiastic tutors of the Department of Anatomy.

Date of conduct of event: 28.10.2025

The R.L. Jalappa Institute of Oncology, a constituent unit of Sri Devaraj Urs Academy of Higher Education and Research, conducted a CME on Breast cancer in the department of Surgical Oncology in association with the department of general surgery , pathology, OBG . It was held during the month of October which is also Breast cancer awareness month. This significant event took place on the 28th October 2025, hosted within the College campus premises. Esteemed dignitaries from the Academy adorned the occasion with their presence. Notably, the distinguished presence of Dr Shantanu Chowdhury, chief scientist CSIR- Institute of Genomics and Integrative Biology,Delhi , Dr Ganesh MS HOD Surgical Oncology, Vydehi Medical College, Dr Naveen T , Director and Professor of Radiation Oncology Kidwai Memorial Institute of Oncology, Dr. Shilpa Prabhudesai, Consultant and Head of operations-Centre for Oncopathology (supported by Tata Trusts) Mumbai, Dr. Nita Nair, Breast Oncosurgeon , Apollo Hospital , Navi Mumbai, added to the prestige of the event as the chief guests and speakers.

Dr Sunil BN emphasized the importance of screening , early detection of breast cancer. Dr. Ganesh discussed the latest advances in axilla management in breast cancer. Dr. Naveen T discussed the latest radiation techniques available for breast cancer management. Dr Shilpa P brought out the various conditions that can mimic breast cancer as routinely encountered by oncopathologists. Dr Nita Nair discussed application of latest surgical techniques in the era of precision oncology. Dr. Sampth K led a panel discussion of the latest available armamentarium for the management of Her 2 neu positive metastatic Breast cancer. Dr. Vengamma B, the Honorable Vice Chancellor, emphasized the significance of evidence-based medicine in cancer care. Dr. Prabhakar K, the principal of SDUMC, emphasized the importance of research in the field of oncology.

The R.L. Jalappa Institute of Oncology plays a vital role in providing comprehensive cancer care to patients seeking treatment at the R.L. Jalappa Hospital. With fully equipped surgical, medical, and radiation oncology facilities, the institute operates with a unified mission: to deliver accessible and high-quality cancer care to deserving patients.

The Department of Surgical Oncology has garnered commendable expertise over the years, successfully conducting numerous complex major and supra-major surgeries with favourable outcomes. This integrated approach allows patients to receive all necessary treatments under one roof, eliminating the need for referrals to other institutions.

Guest lecture on "Approach to Bone Marrow Biopsy "by Dr. Shilpa Prabhudesai - Event report 2025

1. **Name & level of Event**

   Guest lecture on "Approach to Bone Marrow Biopsy" by Dr. Shilpa Prabhudesai, 28/10/2025

2. **Background/Introduction**

   Bone marrow examination is a highly essential test to diagnose and monitor disorders of bone marrow. The indications of bone marrow examination, adequacy of sample, normal localisation of cells, abnormalities of all the precursor, were explained in simple terms. The basics of reporting of bone marrow examination was rekindled with a new perspective. Interesting and diagnostically challenging cases were shared by the guest speaker.

3. **Venue:** Joseph lister Hall (Next department of community medicine) in college building.

4. **Inauguration:** Dr T N Suresh, Prof and HoD, Pathology and organising chairperson welcomed the participants and introduced the session.

   Guest speaker was introduced to the audience by Dr.Shilpa M.D

5. **Speaker**

   Dr Shilpa Prabhudesai,
   Consultant Pathologist at Centre for Oncopathology, Mumbai,

6. **PARTICIPANTS & DELEGATES IN NUMBERS:** Total of 45 members attended the event including, postgraduates, consultants of departments of Pathology, consultants of departments of Pediatrics, undergraduate students.

7. The Guest lecture concluded with Vote of Thanks from Dr. Poorni bharathi T, Assistant Professor of Pathology and Organizing Secretary of the CME.

8. **Feedback**: feedback was taken after the event. The interactive session and practical laboratory application was most appreciated and the attendees have requested for more sessions on the same lines. Overall positive response was given by the attendees.

5	**Inauguration**
	Day 1 (27/10/2025) – Doddahasala Village, Kolar. Inaugural Ceremony of the Legal Aid and Awareness Camp. The Chief Guest was Sri. R. Natesh, Senior Civil Judge and Secretary, DLSA, Kolar. Dr. Koushik C., Principal, School of Law and Presided by Dr. Muninarayana. C, Registrar, SDUAHER. Sri. C.M.R. Srinath Social Worker and Ms. Kalavathi, Legal Aid Defence Council were the Chief Guests. Sri. R. Natesh about **"The National Legal Services Authority (NALSA)"** and its vital role in ensuring access to justice for all, especially the underprivileged sections of society. The programme aimed to familiarize the local community with the functioning of legal services institutions and the free legal aid mechanisms available to them. **Day 2 (28th October 2025) - Thoralakki Village, Tekal Hobli, Malur Taluk, Kolar District**. The event aimed to promote legal literacy, and social responsibility among rural communities through interactive sessions and awareness drives mainly about the POCSO Act. Dr. Koushik C., Principal, School of Law presided over the event. Sri. Naveen Maharaj, Advocate, Thorlakki has emphasized about the **"Child Rights and Laws Relating to It"**, aiming to educate the local community about the legal safeguards available for children and the importance of protecting child rights. **Day 3 (29th October 2025) - Hunasikote Village, Tekal Hobli, Malur Taluk**. The programme was inaugurated by Sri. Ramesh Kumar, Taluk Health Inspector, Malur, who emphasized the importance of health awareness and its connection with legal rights and responsibilities based on the theme **"Mental Health and Physical Health Awareness"**. Dr. Koushik C., Principal, School of Law presided over the event. The event also featured a free medical health camp organized by the Department of Community Medicine, SDUMC, where doctors conducted basic health checkups and distributed medicines. Students of the School of Law engaged in awareness campaigns and one-on-one interactions with villagers.

	Day 4 (30/10/2025) – Nayakarahalli Village, Kolar. The session was presided over by Dr. Koushik C., Principal, School of Law, SDUAHER. The Resource Person was Sri. Choudareddy N., who delivered an enlightening lecture on the **Panchayath Raj Act, 1993,** explaining the evolution of the Panchayath system, its constitutional basis under the 73rd Amendment, and the roles of Gram Panchayaths, Taluk Panchayaths, and Zilla Panchayaths. He emphasized the importance of transparency, accountability, and citizen participation in local self-governance. **Day 5 (31/10/2025) – Bethamangala, Kolar** - The session was presided over by Dr. Koushik C., Principal, School of Law, SDUAHER. The Resource Persons for the session were: • Sri. Muzaffar, Addl. Senior Civil Judge & JMFC, K.G.F. • Sri. Vinod Kumar M, Prl. Civil Judge & JMFC, K.G.F. • Smt. Shemida K., I Addl. Civil Judge & JMFC, K.G.F. They collectively addressed the legal framework ensuring protection and justice for women and children. The speakers discussed key provisions of the POCSO Act, the Domestic Violence Act, and the Dowry Prohibition Act, stressing the importance of awareness, timely reporting, and legal aid for victims.
6	**Participants**
	Day 1 (27/10/2025) – Students: 38, Teaching faculties – 5, Others - 42 **Day 2 (28/10/2025) – Students: 38, Teaching faculties – 5, Others - 42** **Day 3 (29/10/2025) – Students: 38, Teaching faculties – 5, Others - 42** **Day 4 (30/10/2025) – Students: 38, Teaching faculties – 5, Others - 42** **Day 5 (31/10/2025) – Students: 38, Teaching faculties – 5, Others - 42**
7	**Any other information**
	Each day focused on a distinct legal theme such as the National Legal Services Authority and its functions, Child Rights and Laws Relating to Children, Panchayat Raj Act, 1993, and Women and Children Laws including the POCSO Act. The sessions were graced by judicial officers, advocates, and officials from DLSA, Kolar, who provided valuable insights into the working of the justice delivery system at the grassroots level. Students from the School of Law actively participated in conducting awareness sessions, street plays, and interactive discussions with villagers, thereby applying theoretical legal knowledge to practical, real-life situations. The camp not only strengthened the students' understanding of access to justice but also fostered their commitment to community service, legal empowerment, and ethical legal practice.

WORLD CEREBRAL PALSY AWARNESS DAY 2025

Event Report

Name of the Event: "World Cerebral Palsy Awareness Day'2025"
Department: Department of Paediatrics
Venue: Child Rehabilitation Clinic and S N R Hospital, Kolar
Date: 15.10.2025

Sl. No.	Particulars
1.	**Introduction**: World Cerebral Palsy Awareness Day was commemorated at the *Child Rehabilitation Clinic, Department of Paediatrics*, on 15th October 2025, from 11:00 a.m. to 12:30 p.m. The observance aimed to enhance awareness and understanding of Cerebral Palsy (CP)—a group of permanent disorders affecting movement and posture due to non-progressive disturbances in the developing infant brain. The event sought to highlight the importance of providing comprehensive, multidisciplinary, and quality care to children living with Cerebral Palsy, in alignment with global advocacy for inclusivity and early intervention. The program commenced with an inaugural session, followed by a keynote lecture and an awareness role play. These sessions were strategically designed to engage and sensitize parents, caregivers, healthcare professionals, medical students, and community members regarding the multifaceted challenges faced by children with Cerebral Palsy and their families. The event emphasized the critical role of early identification and timely intervention in improving developmental outcomes. A particular focus was placed on parental empowerment, encouraging caregivers to actively observe developmental milestones, seek early medical consultation, and approach the diagnosis with acceptance and proactive engagement. The program further reinforced that such empowerment represents the foundational step toward effective rehabilitation, community inclusion, and enhanced quality of life for children with Cerebral Palsy. 

2. **Proceedings:**

Inauguration:

The inaugural ceremony of the event was held on 15th October 2025 at 11:00 AM. The program commenced with a welcome address. The event was graced by esteemed dignitaries including:

Dr. Vengamma, Vice-Chancellor, SDUAHER, Dr. C. Muninarayana, Registrar, SDUAHER, Dr. J. Krishnappa, Medical Superintendent, R. L. Jalappa Hospital and Research Centre, Dr. James Daniel, Professor and Head, Department of Paediatrics, Dr. V. R. Sudhareddy, Professor, Department of Paediatrics, Dr. K. N. V. Prasad, Professor, Department of Paediatrics, Dr. Pallavi G.S. Assistant Professor, Department of Paediatrics, Mr. Murali Mohan B. A., Clinical Psychologist, Department of Paediatrics, Miss Lavanya, Nutritionist, Department of Paediatrics, Ms. Bhoomika, Speech-Language Pathologist, Department of Speech Pathology & Audiology, Mrs. Sumalatha, Assistant Professor, College of Nursing, Mrs. Anitha and Mrs. Shubhashini, Physiotherapists, Spastic Society of Karnataka. Following the welcome address, the gathering was addressed by the dignitaries. A role play on caregiver awareness and early intervention was performed by the VI Semester B.Sc. Nursing students, which was well appreciated by the audience for its educational and engaging content. The program also included a prize distribution ceremony to recognize outstanding contributions and participation, followed by refreshments.

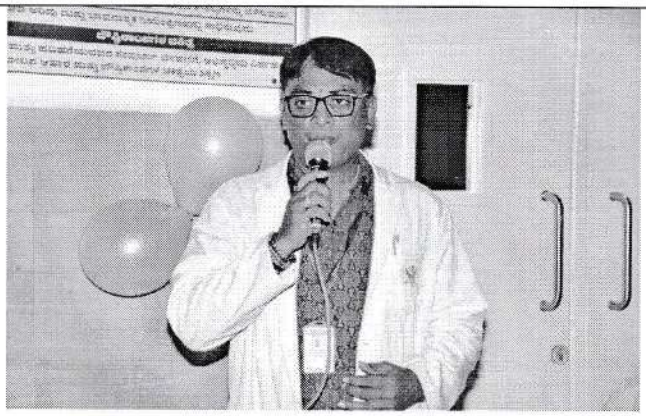

The programme concluded with a vote of thanks, expressing gratitude to all dignitaries, faculty members, students, and staff for their active participation and support in making the event a success.

Welcome Address:

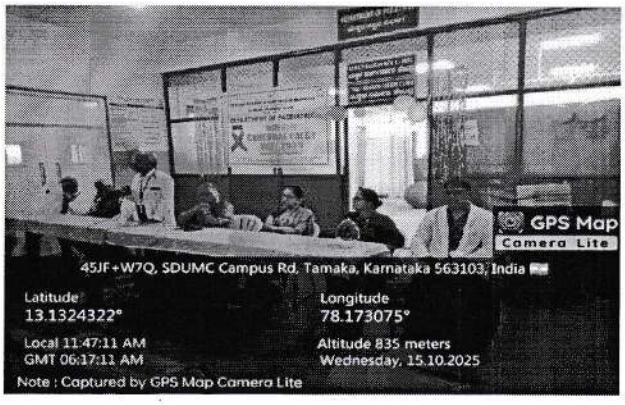

Mr. Murali Mohan B. A., Clinical Psychologist, formally welcomed the dignitaries of the institution, the distinguished guest speakers, and all participants to the clinical session. In his introductory remarks, he highlighted the significance of adopting an evidence-based framework in the management and rehabilitation of children with Cerebral Palsy.

WORLD CEREBRAL PALSY AWARNESS DAY 2025

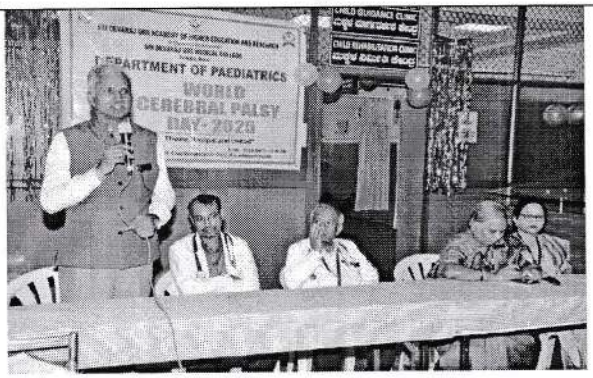

Opening Remarks:

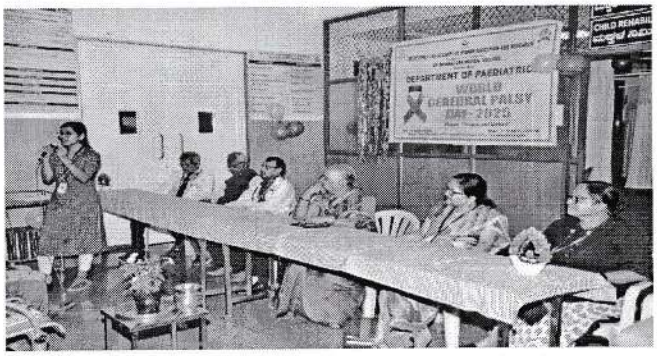

Dr. Krishnappa J, (Medical Superintendent of R. L. Jalappa Hospital and Research Centre), underscored the critical importance of enhancing awareness and ensuring the delivery of high-quality, multidisciplinary care for children with cerebral palsy (CP). He emphasized that the complex medical, psychological, and social needs of these children necessitate a comprehensive, sensitive, and family-centered approach. Dr. Krishnappa highlighted that structured and integrated services within the **Child Rehabilitation Clinic**—encompassing therapeutic, nutritional, and psychosocial interventions—plays a crucial role in promoting optimal outcomes with continuous home-based therapy combined with accessible, multidisciplinary institutional rehabilitation.

Dr. Muninarayana. C, Registrar of SDUAHER, emphasized that ensuring patient safety in children with cerebral palsy presents a multifaceted challenge. These children are particularly vulnerable due to their long-term dependence on pharmacological treatments, psychotherapeutic interventions, and the management of comorbid conditions, including epilepsy and behavioral disorders. Medication-related risks—such as polypharmacy, inappropriate prescribing, and inadequate monitoring—are of particular concern in rural contexts, where access to child-appropriate formulations and consistent follow-up services is often limited.

Ms. Bhoomika, Speech-Language Pathologist in the Department of Speech Pathology and Audiology, delivered an informative session on the significance of safety and multidisciplinary treatment management for parents of children with cerebral palsy (CP), with a particular focus on addressing both physical and speech delays. She provided an overview of the comprehensive services available at the Child Rehabilitation Clinic and highlighted the role of the necessity of adherence to evidence-based treatment protocols and the collaborative involvement of multidisciplinary teams, including paediatricians, psychologists, speech-language pathologists, occupational therapists, physiotherapists and nutritionists, to optimize therapeutic outcomes. This session highlighted the pivotal role of early, coordinated, and holistic care in improving functional outcomes and quality of life for children with cerebral palsy.

Dr. Vengamma, Vice-Chancellor, SDUAHER, As part of the observance of **World Cerebral Palsy Awareness Day 2025**, highlighted the significance of raising awareness about cerebral palsy (CP), a complex neurodevelopmental disorder characterized by permanent impairments in movement, posture, and motor function. She emphasized that World Cerebral Palsy Awareness Day is observed annually on October 6th, a practice initiated to foster global awareness, early diagnosis, and intervention for individuals affected by CP. Regarding treatment, she noted that cerebral palsy management is multidisciplinary, aimed not at curing the condition but at optimizing functional outcomes, enhancing quality of life, and promoting independence. Available interventions include Physiotherapy and Occupational Therapy, Speech and Language Therapy, Pharmacological Management, Surgical Interventions, Assistive Devices and Adaptive Technologies, Psychosocial Support. She urged the medical community, caregivers, and policymakers to collaborate in expanding access to evidence-based therapies, enhancing public awareness, and fostering inclusive environments for individuals living with CP.

ACTIVITY-1

Role Play:

As part of the observance of **World Cerebral Palsy Day 2025, VIth semester nursing students from R. L. Jalappa Nursing College**, performed an educational role play aimed at raising awareness about cerebral palsy among parents and the broader community. The primary objective of the role play was to enhance understanding of cerebral palsy, including its causes, clinical features, challenges faced by children with the condition, and the importance of early identification and intervention. The activity also aimed to sensitize caregivers and community members about the psychosocial and rehabilitative needs of children living with cerebral palsy.

Activity-2

Distribution of complimentary gifts:

As part of the observance of **World Cerebral Palsy Day 2025**, the **VIth semester nursing students from R. L. Jalappa Nursing College** presented an **educational role play** focusing on creating awareness about **Cerebral Palsy** among parents and the broader community. The role play performance effectively conveyed key messages on early intervention, nutrition, physiotherapy, and family support. The students' effort was appreciated by all attendees for their engaging and informative presentation. The event concluded with the **distribution of complimentary gifts** to participants and parents by the **dignitaries present**, who also emphasized the need for continued

community education and support for children with special needs.

Overall, the program successfully promoted awareness, compassion, and understanding of cerebral palsy, aligning with the global theme of inclusion and empowerment for individuals with disabilities.

World Cerebral Palsy Awareness Day – Outreach Program Report

The **Department of Pediatrics, SDUMC**, in collaboration with **SNR Hospital** and **KDAP, Kolar**, organized an outreach program to mark **World Cerebral Palsy Awareness Day**, observed annually to raise awareness about **Cerebral Palsy (CP)**—a group of neurological disorders affecting movement, posture, and coordination. The day emphasizes the significance of **early diagnosis, timely intervention, and inclusive support systems** for individuals with cerebral palsy and their families. The awareness program was conducted on **15th October 2025**, from **2:30 p.m. to 3:30 p.m.**, with the objective of educating **healthcare professionals, caregivers, and the public** about the condition, its management, and advancements in ongoing research. The event featured **informative sessions and speeches** by eminent medical professionals and dignitaries in the fields of **paediatrics and rehabilitation**, who shared valuable insights on comprehensive care approaches, multidisciplinary management, and community-based support for children with cerebral palsy.

Overall, the program successfully promoted awareness, understanding, and advocacy for individuals living with cerebral palsy and their families, reinforcing the commitment of the Department of Pediatrics toward holistic child development and inclusive healthcare.

Concluding Remarks

The observance of **World Cerebral Palsy Awareness Day 2025** was a highly significant and intellectually enriching initiative, characterized by active engagement among students, faculty, healthcare professionals, and community members. The event served as a platform to advance awareness regarding the multidimensional challenges associated with cerebral palsy (CP) and underscored the collective responsibility in promoting safe, evidence-based, and inclusive healthcare practices for affected individuals. Cerebral palsy, a non-progressive neurodevelopmental disorder arising from damage to the developing brain, manifests as a spectrum of motor impairments, often accompanied by sensory, cognitive, communicative, and behavioral challenges. The condition originates in infancy but has lifelong implications, necessitating comprehensive, multidisciplinary interventions that address physical, psychosocial, and environmental factors. The culmination of the program with a collective pledge under the theme **"Unique and United"** symbolized a shared commitment to advocacy, inclusivity, and holistic support for people living with cerebral palsy.

Overall, the 2025 observance fostered an environment of knowledge exchange, professional development, and community engagement, reinforcing the imperative to integrate safety, empathy, and scientific rigor in promoting the well-being of individuals with cerebral palsy. Such initiatives contribute significantly toward building a healthcare culture that is inclusive, preventive, and responsive to the unique challenges of neurodevelopmental disorders.

3. **Participants & delegates:**

A total of 215 members participated in the event

4. **Valedictory Ceremony**:

Vote of thanks was proposed by Ms. Sonia, VIth semester nursing students from R. L. Jalappa Nursing College.

Followed by refreshments to all Parents and Caregivers.

1.	Level of Event – Institutional level
2.	Background / Introduction

To commemorate the birth anniversary of the former President of India and Bharat Ratna, **Dr. A.P.J. Abdul Kalam**, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER) celebrated **Innovation Day** under the aegis of the Institution's Innovation Council, SDUAHER, Research and Development Cell, SDUAHER in association with Jalappa foundation for Innovation and Incubation, SDUAHER.

The event highlighted Dr. Kalam's vision of promoting innovation and creativity among young minds. It was organized under the leadership of **Dr. Kalyani R**, Director, Research and Development Cell, as the Organizing Chairperson, and **Dr. Ashwini N S**, Chief Coordinating Officer, IIC, SDUAHER as the Organizing Secretary.

Dr. Sudarshan K, Deputy Coordinator, IIC, SDUAHER gave the reminiscence of the Dr A P J Abdul Kalam.

	The program was graced by distinguished dignitaries of SDUAHER including **Dr. Vengamma B**, Vice Chancellor, SDUAHER; and other academic leaders of the institution. A total of **72 students** from various faculties participated enthusiastically in the celebration. The sessions emphasized innovation-driven education, research translation, and incubation opportunities within the campus. Interactive discussions inspired students to pursue novel ideas and contribute to societal development through innovation. The event successfully reflected the institution's commitment to nurturing a culture of creativity and entrepreneurship among its students while paying tribute to Dr. Kalam's legacy as the "People's President" and champion of youth innovation.

Sl. No	Event Report
1.	Level of Event – Institutional level
2.	Background / Introduction

The session on "Cultivating a Culture of Innovation: Join the Movement" was designed to introduce 1st MBBS undergraduate students of SDUMC to the foundational concepts of innovation and incubation, inspiring them to actively contribute to and foster an innovative environment within the institution.

The session aimed to:

- Define innovation and incubation as key pillars for building a vibrant innovation culture.
- Explain the importance of cultivating a pervasive culture of innovation.
- Discuss the integral role of incubation centres and higher education institutions in nurturing and sustaining such a culture.
- Highlight national frameworks like the National Innovation and Start-up Policy (NISP) and institutional mechanisms like the Institution's Innovation Council (IIC) that support and drive an innovation culture.

- Showcase success stories of innovative companies as inspiring examples of a thriving innovation culture in action.
- Outline the practical steps to create a supportive incubation ecosystem and emphasize the benefits for students engaging with and contributing to this culture of innovation.

Dr. Sudarshan K began the lecture by defining innovation as the process of translating ideas into goods or services that create value, and incubation as the systematic process of nurturing early-stage ideas or startups to help them grow and succeed. He emphasized how these processes are fundamental to establishing and promoting a genuine culture of innovation.

The importance of fostering an innovation culture was emphasized, highlighting its contribution to economic growth, positive societal change, and the development of critical thinking and problem-solving skills among students. The lecture further elaborated on how a strong innovation culture fosters new industries, creates jobs, boosts productivity, addresses real-world challenges, improves quality of life, creates competitive advantages, and empowers individuals to become change-makers.

The role of incubation centres in supporting startups through mentorship, funding, and resources was discussed as a critical component of the innovation culture, detailing key features such as access to infrastructure, expert guidance, and networking opportunities. The ways in which higher education institutions can actively cultivate innovation, including building robust incubation centres, organizing hackathons and workshops, and integrating entrepreneurship courses

into the curriculum, were also highlighted as essential for embedding innovation into the institutional fabric. Government initiatives designed to nurture this culture, such as the National Innovation and Start-up Policy (NISP) and the role of the Institution's Innovation Council (IIC), were presented. The NISP provides a guiding framework for higher education institutions to promote student-driven innovations and startups, while IICs are instrumental in organizing events and activities that build and support a campus-wide innovation culture.

5.	**Participants and Delegates:** A total of 75 participants attended the program, including 45 Anganwadi workers, along with faculty members, Ph.D. scholars, and undergraduate students from the Department of Clinical Nutrition and Dietetics.

REPORT ON NATIONAL NUTRITION MONTH 2025 CELEBRATION

THEME: EAT RIGHT FOR A BETTER LIFE

11.10.2025

Background / Introduction

Every year, the month of September is observed as National Nutrition Month ("Poshan Maah") across India, under the initiative of the Ministry of Women and Child Development, Government of India, to raise awareness about the importance of nutrition and to promote healthy dietary practices among all age groups. The initiative focuses on improving nutritional outcomes for children, adolescents, pregnant women, and lactating mothers through education, community participation, and behavior change communication.

In line with this national initiative, the Department of Clinical Nutrition and Dietetics, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), Kolar, organized a National Nutrition Month Celebration on 11th October 2025 at Dr. B.C. Roy Hall. The program aimed to create awareness about balanced diets, the prevention of nutritional deficiencies, and the importance of adopting healthy lifestyle practices for overall well-being. It also served as a platform for students and community health workers to exchange knowledge, showcase their learning, and promote nutrition education through interactive activities.

Event Summary

The event was graced by Dr. D.V.L.N. Prasad, Chief Administrative Officer, and Dr. Munninarayana, Registrar, SDUAHER, who attended as Patrons and delivered the Presidential Address. In their address, they emphasized the crucial role of nutrition in maintaining good health and preventing chronic diseases. They highlighted how balanced diets, nutrient-rich foods, and mindful eating habits are essential for enhancing immunity and promoting overall well-being. The dignitaries also appreciated the Department of Clinical Nutrition and Dietetics for its sustained efforts in spreading nutrition awareness among students and the community. Both encouraged the students to apply their academic knowledge to real-life situations and to promote healthy dietary practices within society. They further emphasized the significance of such initiatives in aligning with national efforts to

reduce malnutrition and lifestyle-related disorders through education and community engagement.

Dr. Shivakumara C.S., Head, Department of Clinical Nutrition and Dietetics, addressed the gathering and highlighted the vital role of a balanced diet, proper nutrition, and healthy eating habits in maintaining good health and preventing lifestyle-related disorders. He emphasized that nutrition plays a foundational role in physical, mental, and social well-being, and that awareness about dietary choices should begin early in life. Dr. Shivakumara further elaborated on the need to integrate nutrition education into everyday practices to combat the rising prevalence of obesity, diabetes, and other non-communicable diseases. He motivated the students to act as ambassadors of nutrition knowledge, promoting healthy practices in their families and communities.

The program was efficiently anchored by Mrs. Soundarya, Ph.D. Scholar, who served as the Master of Ceremony, ensuring a smooth and engaging flow of events throughout the celebration.

The event was meticulously organized under the guidance of the Organising Secretaries – Dr. Satish A. and Dr. Komathy Nagarajan, who coordinated the activities and ensured the successful conduct of the program.

Participation and Activities

A total of 75 participants attended the program, including 45 Anganwadi workers, along with faculty members, Ph.D. scholars, and undergraduate students from the Department of Clinical Nutrition and Dietetics.

The celebration witnessed enthusiastic participation, with students showcasing their creativity and knowledge through presentations, informative charts, slogans, and a skit centered on the theme *"Nutrition and Health Awareness."*

As part of the exhibition, the students explained their charts on various nutrition-related topics, including the ill effects of excessive fats and sugars, the importance of a balanced diet, and iron deficiency anemia. They highlighted how unhealthy dietary habits contribute to lifestyle diseases and emphasized the role of nutrient-rich foods in maintaining good health.

The students also presented thought-provoking slogans promoting healthy eating and awareness about nutritional deficiencies.

The Anganwadi workers actively interacted with the students, sharing their field experiences and discussing practical approaches to improve nutritional practices at the community level. This interactive exchange enriched the learning experience and emphasized the importance of collaboration between academic institutions and community workers in promoting public health.

Conclusion

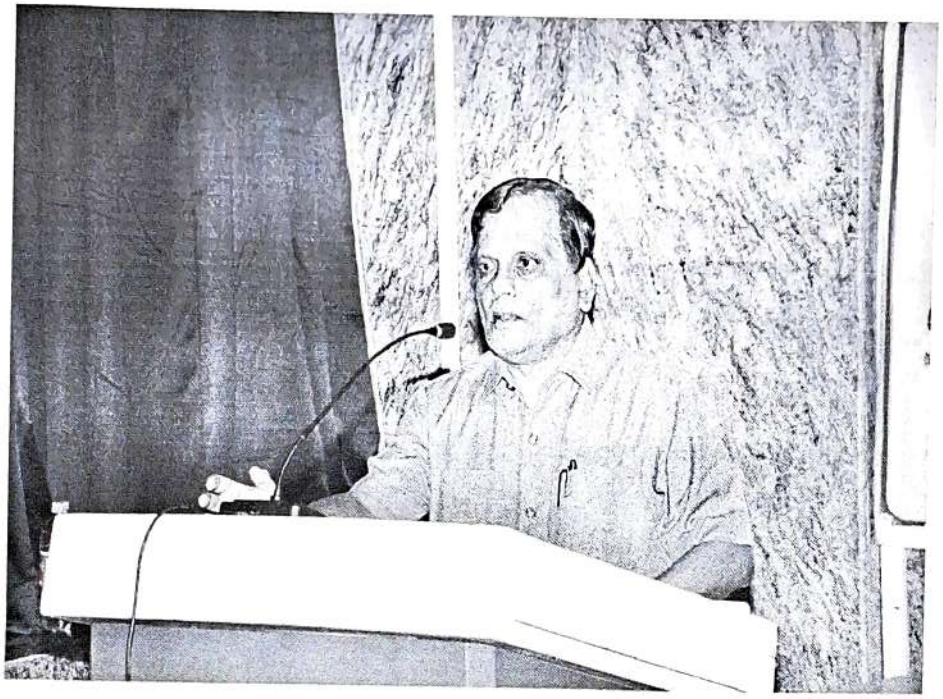

The program served as an excellent platform to promote nutrition education, raise awareness about healthy dietary practices, and motivate the community to make informed lifestyle choices for better health. The celebration concluded with a vote of thanks, expressing gratitude to all the dignitaries, faculty members, students, and supporting staff whose contributions made the event a grand success.

Name of Department: Microbiology **Date of Event: 10.10.2025**

Sl. No.	Event Report
1.	**Level of Event –** Institutional; Faculty of Medicine; State level CME
2.	**Background / Introduction**
Sepsis, a life-threatening condition caused by a dysregulated response to infection, remains a significant global health challenge, especially in critically ill patients. Despite advancements in medical science, sepsis continues to be a leading cause of morbidity and mortality. The Department of Microbiology was pleased to organize the Continuing Medical Education (CME) session titled **"Unmasking Sepsis: From Early Clues to Expert Care."** The session aimed to: • Enhance awareness of sepsis in healthcare settings. • Improve diagnostic skills and knowledge of early sepsis recognition. • Update healthcare professionals on evidence-based strategies for effective management. • The session brought together leading experts and clinicians to discuss innovative approaches to diagnosis and treatment, and to address gaps in current clinical practice, ultimately contributing to better patient outcomes and saving lives.	
3.	**Venue:** Silver Jubilee Auditorium, SDUAHER
4.	**Sponsors:** SDUAHER,
5.	**Inauguration:** was presided by • Dr. Parimala. S, Professor and Head of the Department of Microbiology; • Dr. S. Muralidharan, Professor of Microbiology; • Dr. Prabhakar K, Principal, SDUMC; • Dr. B Vengamma, Hon'ble Vice Chancellor, SDUAHER • Dr. Krishnappa J, Medical Superintendent, RLJ Hospital & RC • Dr. Arvind Natarajan, Professor of Microbiology and Dean AHS
6.	**Speakers:** 1. **Dr. Carol Shayne D'Silva**: Profesor in Critical Care Medicine, St.Johns Medical College, Bengaluru. 2. **Dr. Jayalakshmi J**: Professor & HOD, Microbiology. 	Panel Discussion Speakers 5. **Dr. Arvind Natarajan:** Professor in Microbiology, SDUMC, and Dean AHS 6. **Dr. Sandeep T :** Medical Microbiologist and ID Physician, BGS Medical College · Bengaluru 7. **Dr. Ravikumar**: Senior Scientist. Bigtec Private Limited, Bengaluru 8. **Dr. Anitha D:** Professor in Microbiology, SDUMC, Kolar 9. **Dr Zeenath Carina:** Chief Nursing officer, RL Jalappa Hospital **Chairperson** Dr. Parimala. S, Professor and Head, Department of Microbiology **Organizing Secretary:** Dr. S. Muralidharan, Professor in Microbiology **Co-Organising Secretary :** Dr. Rahil Pasha S A **Members of Organising committee:** Dr. Arvind Natarajan, Dr. AnithaD, Dr. Ashmita Banik, Dr.Sulaiman Sharieff, Ms. Repati Gowri and Mr. Sai Sravan Kumar. **Postgraduates**: Dr Munmun Mutha, Dr. R J Keerthana, Dr. Nivedita Priyadarshini, Dr. Hari Prasanth, Dr. Praveen E and Dr. Arvind Singh Aswal.
7.	**Participants & Delegates** – 71 out of the 103 registered Delegate members were present in person, 1 Guest speaker participated online. Attendance sheet shared as Annexure 1. Students of Final year MBBS were also present
8	**Brief lecture notes and discussion** Dr. Carol Shayne initiated the first session by defining the concept of Sepsis, and its various categorizations. She enlightened the audience on Sequential Organ Failure Assessment (SOFA) score, Systemic Inflammatory Response syndrome (SIRS), and the Breakpoint to MIC Quotient (BMQ) in the context of sepsis, to predict the therapeutic efficacy of an antibiotic for severe infection like sepsis. Dr. Jayalakshmi J described the pathophysiology of sepsis, and enlightened the audience about the sample collection procedures for Blood culture, with special emphasis on antisepsis, blood volume, use of automation, interpretation of flaggings, and significance of biomarkers. Dr. Sunil Karanth brought to light the clinical perspectives in diagnosing and management of Sepsis. He emphasized the need for site specific cultures, therapeutic drug monitoring and also shed light on advanced technologies such as Nanotherapies for sepsis by regulating inflammation and RONS (reactive oxygen and nitrogen species) Dr. Arun Kaushik presented the comparative analysis of Conventional methods with that of automated systems for Early Identification of organism, and its antibiotic susceptibility patterns. He then elaborated on the extended Syndromic testing methods for various systems, like respiratory panel covering a plethora of viruses, and atypical bacterial pathogens.

	Dr. Arvind Natarajan initiated the panel discussion, by categorizing the sessions into clinical discussion, current diagnostics, and advances in technology in the pipeline. The live interaction of the panelists emphasized the need for strong clinical suspicion, better communication with clinicians and diagnosticians, significance of site specific cultures, correlation with biomarkers and lastly appropriate bundle care, and other Infection Control measures by the Nursing staff. The scientific session was followed by Oral presentation by faculty and postgraduates of various colleges. Topics related to antimicrobial resistance, TB diagnosis, and rapid molecular diagnostics were presented. Dr. Livin J Tessy bagged the First Prize, while Dr. Mamtha V secured the second prize in Oral presentation.
9	**Valedictory** Dr. Parimala delivered the Vote of Thanks. The event was concluded by thanking all the administrators, resource faculty, supporting staff and participants.

Speaker: Dr. Koushik C. Principal, School of Law, Sri Devaraj Urs Academy of Higher Education and Research

Topic: Constitutional Rights

Rapporteur report:

- Dr. Koushik C. Principal, School of Law, Sri Devaraj Urs Academy of Higher Education and Research**,** delivered an engaging and insightful talk on the theme.
- What is the Constitution? A Constitution is the main rulebook of a country. It tells us how the government should work, who has what power, and what rights the people have. Just like every game has rules - a country also needs rules to run smoothly. Those rules are written in the Constitution.
- The Constitution of India is the supreme law of the land. It lays down the framework that defines: The political principles, Structure, powers, and duties of government institutions,

and Fundamental rights, directive principles, and duties of citizens. It is the longest written constitution in the word.

- Formed in December 1946
- Total Members: 389 (later 299 after Partition)
- First Meeting: 9 December 1946 -
- Drafting Committee Chairman: Dr. B. R. Ambedkar
- Adopted: 26 November 1949
- Came into force: 26 January 1950 (celebrated as Republic Day)
- Total expenditure: 76.4 crore (Rs. 6,30,00,000 approximately)
- Duration of work: 2 years, 11 months, and 18 days > Total sittings: 165 sessions
- Cost per day (approx.): 71 lakh per sitting
- The Constituent Assembly was established on 9th December 1946.
- The final draft was completed on 26th November 1949.
- It took almost 3 years to debate, draft, and adopt the Constitution.

Right to Equality (Articles 14-18)

- Everyone is equal before the law - no one can be discriminated against based on religion, race, caste, gender, or place of birth.
- **Everyday examples:** * A college or employer cannot reject you because of your caste or religion.
- Everyone has the same legal protection, whether Rich or poor.

Right to Freedom (Articles 19-22)

- You have several freedoms, but all come with reasonable limits: Speech and Expression - You can express your ideas and opinions freely.
- Assembly - You can gather peacefully (e.g., peaceful protests).
- Association - You can form or join groups or unions.
- Movement & Residence - You can travel and live anywhere in India.
- Occupation - You can choose any lawful profession.

Right to Life and Personal Liberty (Article 21)

- You have the right to live with dignity, safety, and respect. It's not just about survival - it includes health, education, and environment.
- Right to clean air and water.
- Right to privacy and safety.
- Protection from police harassment or unfair detention.

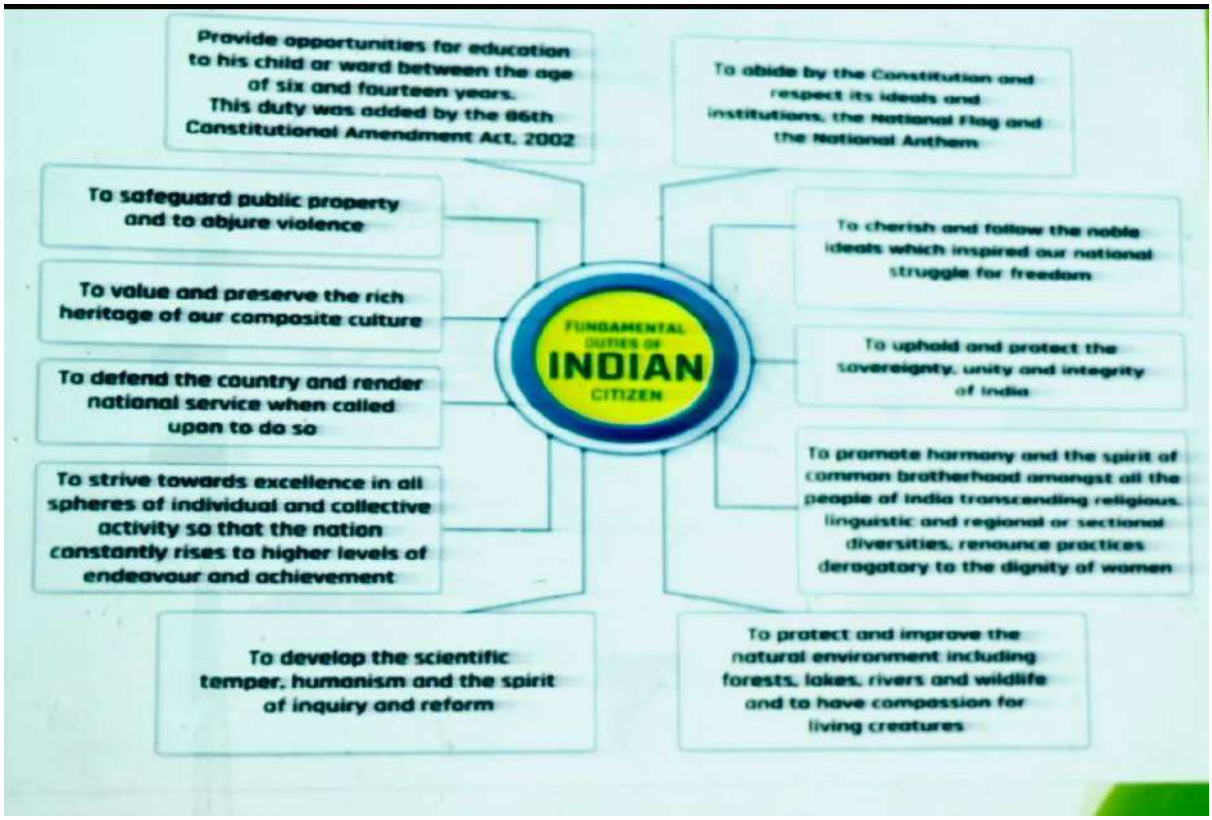

Right to Privacy (Derived from Article 21 - Supreme Court 2017)

- Your personal life, data, and choices are your own. No one - including the state - can intrude without legal reason.

Right against Exploitation (Articles 23-24)

- Protects individuals from being forced into labour or human trafficking

Sl.no	Event Report
1	Level of Event – Academy
2	**Background/Introduction-** The Department of Integrative Medicine, SDUAHER, successfully organized a Workshop on "Use of Props and Ropes in Yoga Practice" on 4th October 2025, from 10:00 AM to 4:00 PM. The event commenced with a welcome address by Dr. Arvind Natarajan, Dean, Faculty of Allied & Healthcare Professions (FAHP), followed by an address by Dr. Muninarayana, Registrar, who emphasized the significance of yoga and highlighted the role of props in enhancing the effectiveness of yoga practice. He formally inaugurated the workshop, setting the stage for an insightful and engaging learning experience. The workshop featured Mr. Sudhakar S, a renowned Iyengar Yoga teacher, as the resource person. He shared his extensive expertise through detailed demonstrations and practical training sessions, focusing on the effective use of props and ropes to deepen individual practice and refine instructional methods. The workshop was attended by 25 enthusiastic participants, who actively engaged in interactive discussions and hands-on exercises throughout the day. The event concluded with a vote of thanks delivered by Dr. Ashween Bilagi, who expressed sincere gratitude to the management and officials of the academy for their support and appreciated the active involvement of all participants. The Department reaffirmed its commitment to organizing similar initiatives in the future to promote professional development and advance excellence in yoga education and practice.

5	**Inauguration**
	• Welcome Address was delivered by Dr. Koushik C, Principal, School of Law. • The Inaugural Address was delivered by Sri. Ashwath Narayana, Retd. District and Sessions Judge and Sri. Natesh, Secretary, DLSA, Kolar who emphasized the importance of mooting as a bridge between academic learning and real-world legal application. • Ms. Vidhya C., Faculty Coordinator of the Moot Court Society, briefed the gathering on the objectives, structure, and upcoming activities of the Society.
6	**Participants**
	Students: 38, Teaching faculties – 5 = 42
7	**Any other information**
	The inauguration marked the launch of the Moot Court Calendar for the academic year, including intra-moot competitions, judgment writing workshops, and training sessions on research methodology and oral advocacy. Students were encouraged to participate in national and international moot competitions. The event successfully inspired students to hone their advocacy skills and engage actively in legal research and debate.

Sl,No	Event Report
1	**Name of Event:** Durga Pooja & Ethnic day
2	**Background / Introduction:** Durga Pooja is one of the most significant cultural and religious festivals in India, symbolizing the triumph of Goddess Durga over evil forces. To commemorate this auspicious occasion and promote cultural unity, R.L. Jalappa College of Pharmacy, SDUAHER, organized the Durga Pooja and Ethnic Day Celebration on 30th September 2025 with great devotion and enthusiasm. The event aimed to foster a spirit of togetherness, encourage cultural appreciation, and provide an opportunity for students and staff to showcase the rich diversity of traditional attire as part of Ethnic Day celebrations.
3	**Venue :** R L Jalappa College of Pharmacy, SDUAHER, Tamaka, Kolar- 563103
4	**Sponsors:** SDUAHER
5	**Participants :** Faculty Members, Non-teaching Staff, and Students of the College (Approx. 140 participants)
6	**Report:** • The Pooja commenced at 11:00 AM on 30th September 2025 in the college premises. • All dignitaries, faculty members, and students participated with deep reverence and enthusiasm. • Rituals were conducted in a traditional and devotional manner, accompanied by chanting and offerings. • As part of Ethnic Day, students and staff attended the event dressed in traditional attire representing diverse cultures of India. • The venue was beautifully decorated with flowers, rangoli, and cultural motifs reflecting the festive spirit. • The event fostered unity, spirituality, and joy among all participants, creating a vibrant and harmonious atmosphere on campus. • The celebration concluded with blessings, group photographs, and expressions of gratitude to all who contributed to the success of the event.

1	**Name & Level of Event**
	State Level CME and WORKSHOP on RECENT ADVANCES IN ORTHOBIOLOGICS on 26/09/2025 **Level of event: State level**
2	**Background / Introduction**
	INTRODUCTION Orthobiologics are biological substances and therapies, such as platelet-rich plasma (PRP), stem cells, Platelet rich fibrin (PRF), Bone Marrow Aspirate Concentrate (BMAC) etc, used in orthopaedics to enhance the natural healing process of musculoskeletal injuries like fractures, ligament tears, and osteoarthritis. These treatments leverage the body's own cells and growth factors to accelerate healing and regeneration, offering a minimally invasive alternative or complement to surgery. What are orthobiologics? □ Biological substances: They are natural materials derived from the patient's own body (autologous) or from a donor (allogeneic). □ Purpose: To speed up the healing of bone and soft tissue injuries by delivering concentrated growth factors, cells, or other healing components to the injured area. Common types of orthobiologics: a) Platelet-Rich Plasma (PRP) b) Bone Marrow Aspirate Concentrate (BMAC) c) Adipose-derived products d) Extracellular Matrix (ECM) products e) Platelet rich fibrin (PRF) f) Growth factor concentration (GFC) g) Autologous Conditioned Serum (ACS)

	Institute level
2	**Background / Introduction**
	NHEQF usually refers to the National Higher Education Qualifications Framework. It's a system used by many countries (South Africa, Australia, etc.) to classify qualifications based on levels of learning outcomes. The framework provides consistency across universities, colleges, and training institutions by describing what a student should know, understand, and be able to do after completing a qualification. This event explored its significance for higher education institutions, with a focus on its relevance to SDUAHER.

DEPARTMENT OF COMMUNITY MEDICINE

No: SDUMC/KLR/COMM/523/2025-26 · Date: 03-10-2025

Sl No:	Event Report
1.	Name & Level of Event: REGIONAL LEVEL CME ON UPDATES ON ORGAN TRANSPLANT 2025
2.	Date: 19th September 2025
3.	Conducted by: Department of Community Medicine, Sri Devaraj Urs Medical College, Kolar
4.	Background / Introduction: The Department of Community Medicine had organized a one day regional level CME on 'UPDATES ON ORGAN TRANSPLANT' at Sri Devaraj Urs Medical college, Sri Devaraj Urs University (SDUAHER) , Kolar, Karnataka. We extend our sincere gratitude to the Medical Education and Research Trust (MERT) for their generous support in organizing the CME
5.	Venue: Sir Joseph Lister Hall, 2nd floor Community Medicine Department,
6.	Sponsors: Sri Devaraj Urs Academy of Higher Education and Research, Medical Education and Research Trust (MERT)
7.	Date:19-09-2025 Inauguration and Welcome Address: The official proceedings of the CME program were inaugurated by Dr.Sunil B.N, Head of the Department of Community Medicine at SDUMC, SDUAHER, at around 10:00 AM. This significant event set the stage for a thought-provoking gathering, emphasizing the pressing need to address organ tran splant. The CME was conducted in hybrid mode, A total of participant joined 180 via the Zoom meeting and 80 attended the programme, and 260 total of participants were registered for the CME. **Session-1:** Dr. Rajesh. K, Professor, Department of Emergency Medicine, SDUMC, , commenced the first session on the topic "Brain Death to New Life at 10:10 am Dr. Rajesh K delivered a session on "Brain Death to New Life." He outlined the historical evolution of brain death criteria, the clinical tests and ancillary studies required for accurate diagnosis, and the importance of distinguishing brain death from its mimickers. He also highlighted the ethical and legal aspects under the THOTA Act, 1994, stressing respect for human dignity, clear communication with families, and

voluntariness in decision-making. The session concluded with an emphasis on organ donation, underscoring that while death is inevitable, donation can give new life to others.

Session-2: Dr. Deepak.H, Professor, Department of Plastic Surgery, SDUMC, SDUAHER Kolar, commenced the 2 session on the topic "Skin can Save Role at Skin Bank11:11 am

Dr. Deepak addressed common myths about skin donation, clarifying that only a thin superficial layer is taken, without pain or disfigurement, and that age is not a barrier. He highlighted the high burden of burn injuries in India, particularly among women and children, and explained the critical role of skin donation in improving survival, reducing infections, and lowering treatment costs. The concept and workflow of skin banking were discussed, including donor screening, harvesting within six hours, preservation methods, and distribution protocols. He also emphasized contraindications, the importance of proper documentation, and the need for awareness through media, government initiatives, NGOs, and burn survivors. The session concluded with the message that skin donation is a simple, dignified, and life-saving act that can bridge the treatment gap for burn patients.

Session-3: Dr.Suresh Raghavaiah R , Liver Transplant Surgeon ,Institute of Gastroenterology & Organ Transplant , Bangalore , commenced the 3rd session on the topic "Liver Transplantation : Share Hope ,Share Life" at 11:30 am

Dr. Suresh Raghavaiah R delivered Session 3 on "Liver Transplantation: Share Hope, Share Life." He explained the two main types of transplantation—deceased donor and living donor—and highlighted their growing availability in India. The session noted current success rates of around 85–90% at one year and 70–75% at five years. Indications include end-stage liver disease, cirrhosis, metabolic disorders, and acute liver failure. He emphasized that timely referral, patient selection, and organ donation are vital to restoring life and hope through transplantation.

Session-4: Dr, Arun Kumar D P, Deputy Director, e-Health, Arogya Soudha, Bangalore commenced the 4th session on the topic "e-Health in Organ Transplantation "at 12:15 pm

Dr. Arun Kumar D P elaborated on the Jeevasarthakathe Organizational Structure, explaining its objectives, operational hierarchy, and the roles of various stakeholders in promoting organ donation awareness. He described the functioning of the Brain Stem Death Certifying Board, highlighting the medical, legal, and ethical criteria involved in certifying brain death. The session also covered the established Organizational Framework and Organ Allocation System, demonstrating how organs

	Christiaan Barnard's first human-to-human heart transplant in 1967, where the heart of brain-dead accident victim Denise Darvall was transplanted into Louis Washkansky. The session covered key aspects of organ donation, supported by relevant statistics, and outlined the mission and objectives of the Jeeva Sarthakathe program. Historical developments in deceased donor transplantation in India were discussed, along with the principles of organ preservation and best practices for ensuring successful transplantation outcomes. **Session-8:** Dr. Dileep Kumar K B Associate Professor, Department of Forensic Medicine, Shri Atal Bihari Vajpayee Medical college and Research Institution, Bangalore, commenced the 8th session on the topic "Legal Aspects of Organ Donation" at 3: 15 pm Dr. Dileep Kumar K B began the session on Legal Aspects of Organ Donation by discussing the origin and objectives of the organ transplant legislation, emphasizing its role in regulating the removal, storage, and transplantation of human organs and tissues for therapeutic purposes, and in preventing commercial dealings. He addressed complex issues such as the Brain Stem Death (BSD) conundrum, the functioning of tissue banks, and the responsibilities of transplant coordinators. The session also covered the legal status of donor cards, highlighting that they are facilitative but not legally binding, and outlined the penalties for violations. Finally, recent policy updates (2023–2024) were discussed, providing participants with current regulatory insights and best practices in organ donation law The CME concluded with a Vote of Thanks by Dr. Varun R. Dr. Prabhakar K, Principal, SDUMC, received the official transplantation procedure approval certificate from Dr. Arun Kumar D P, and the department expressed sincere gratitude to Medical Education & Research Trust for supporting the CME, facilitating learning, collaboration, and advocacy in organ transplantation

Session-3: Dr.Suresh Raghavaiah R , Liver Transplant Surgeon ,Institute of Gastroenterology & Organ Transplant , Bangalore , commenced the 3rd session on the topic "Liver Transplantation : Share Hope ,Share Life" at 11:30 am

Chairperson: Dr. Raveesha.A , Professor, Department of General Medicine , SDUMC,

Dr. Suresh Raghavaiah R delivered Session 3 on "Liver Transplantation: Share Hope, Share Life." He explained the two main types of transplantation—deceased donor and living donor—and highlighted their growing availability in India. The session noted current success rates of around 85–90% at one year and 70–75% at five years. Indications include end-stage liver disease, cirrhosis, metabolic disorders, and acute liver failure. He emphasized that timely referral, patient selection, and organ donation are vital to restoring life and hope through transplantation.

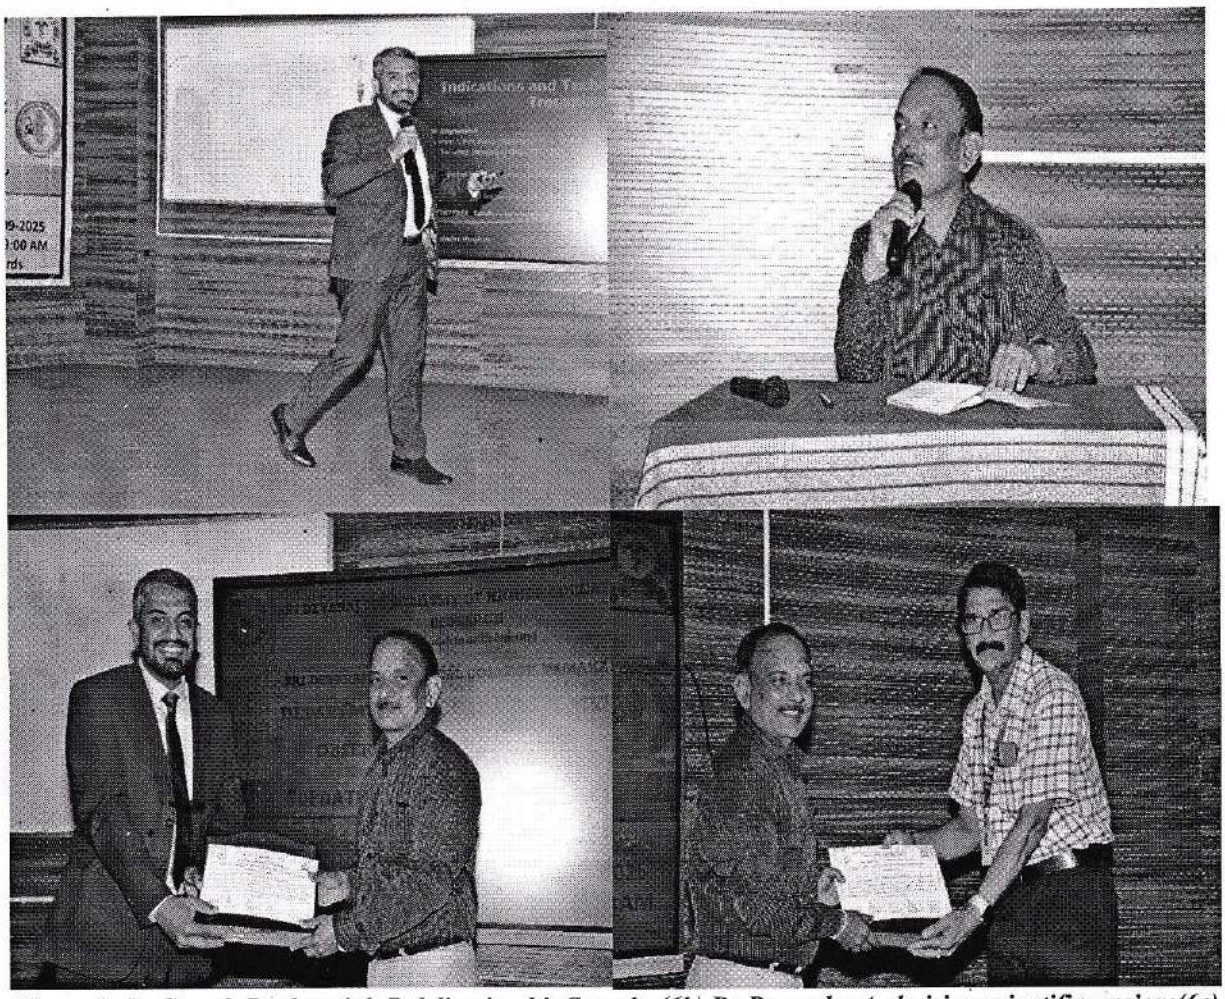

Figure 6a Dr Suresh Raghavaiah R delivering his Speech; (6b) Dr Raveesha.A chairing scientific session;(6c) Dr. presenting memento to Dr Suresh Raghavaiah R ;(6d) Mr. Ravishankar presenting memento to Dr. Raveesha.A

Session-4: Dr, Arun Kumar D P, Deputy Director, e-Health, Arogya Soudha, Bangalore commenced the 4th session on the topic "e-Health in Organ Transplantation "at 12:15 pm

Chairperson: Dr. Dayananda.M Professor, Department of Community Medicine, SDUMC

Dr. Arun Kumar D P elaborated on the Jeevasarthakathe Organizational Structure, explaining its objectives, operational hierarchy, and the roles of various stakeholders in promoting organ donation awareness. He described the functioning of the Brain Stem Death Certifying Board, highlighting the medical, legal, and ethical criteria involved in certifying brain death. The session also covered the established Organizational Framework and Organ Allocation System, demonstrating how organs are systematically allocated based on urgency, compatibility, and equity. Participants were guided through the Forms for Registration as per THOTA Rules, 2014, including step-by-step instructions for digitally registering consent for organ donation. Dr. Arun Kumar further discussed strategic allocation and coordination, emphasizing the use of e-Health platforms and digital tools for real-time communication between hospitals, transplant coordinators, and regulatory authorities, which ensures efficient tracking and optimal utilization of organs. The session concluded with the interactive segment "Register Your Wish: Pledge for Donation", motivating participants to pledge their willingness to donate organs, thereby fostering a culture of life-saving altruism and demonstrating the impact of technology in modern transplantation processes.

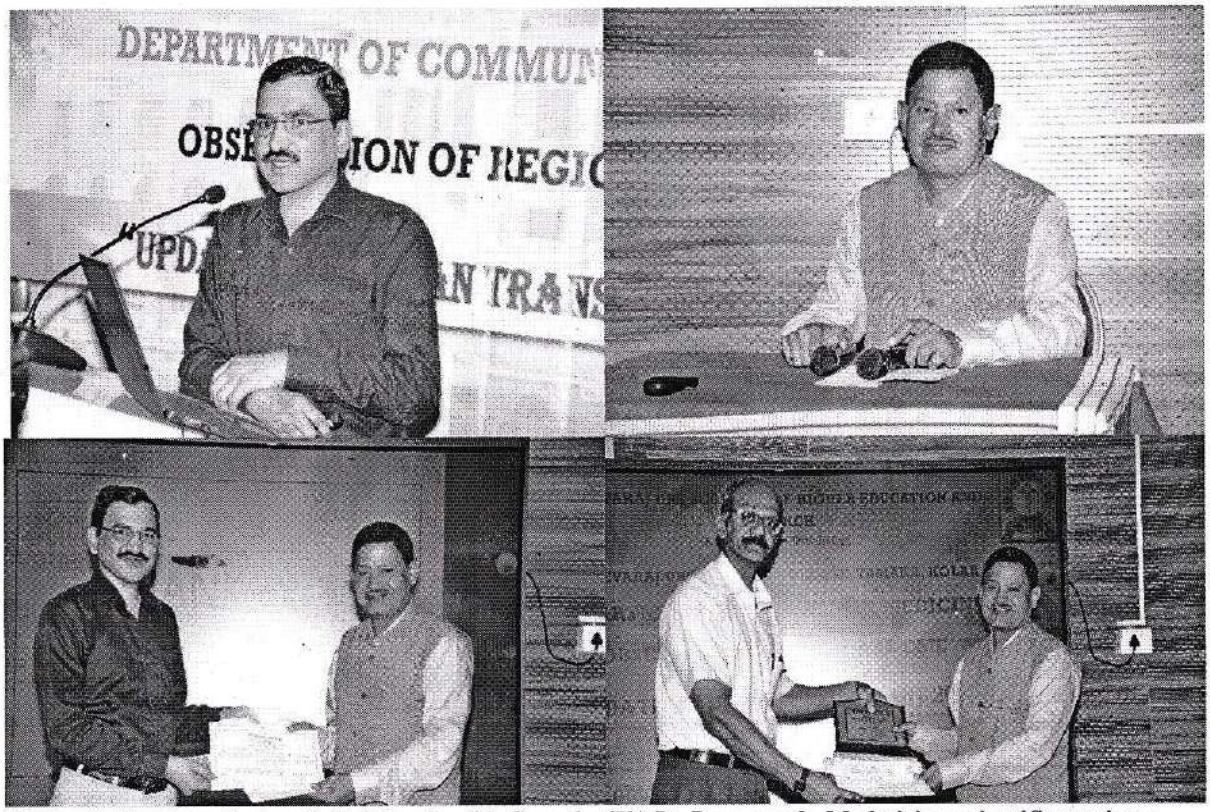

Figure 7a Dr Arun Kumar D P delivering his Speech; (7b) Dr Dayananda.M chairing scientific session ; (7c) Dr Dayananda.M. presenting memento to Dr Arun Kumar ;(7d)Dr.Prasanna Kamath.B.T presenting memento to Dr. Dayananda.M

Session-5: Dr. Jagadeesh M, District surgeon, SNR Hospital, Kolar commenced the 5th session on the topic "Roles and Responsibilities of a District Organ Transplant Officer "at 12:40 pm

Chairperson: Dr. Prasanna Kamath .B.T Professor, Department of Community Medicine

Dr. Jagadeesh M elaborated on the Roles and Responsibilities of a District Organ Transplant Officer, highlighting key aspects such as coordination and process management, ensuring smooth functioning of organ donation activities at the district level. He discussed the importance of inter-agency and inter-departmental liaison for seamless collaboration between hospitals, authorities, and regulatory bodies. The session also covered awareness and advocacy initiatives to promote organ donation in the community, post-donation support and follow-up for donor families and recipients, and the significance of accurate reporting and documentation to maintain transparency and accountability throughout the transplantation process.

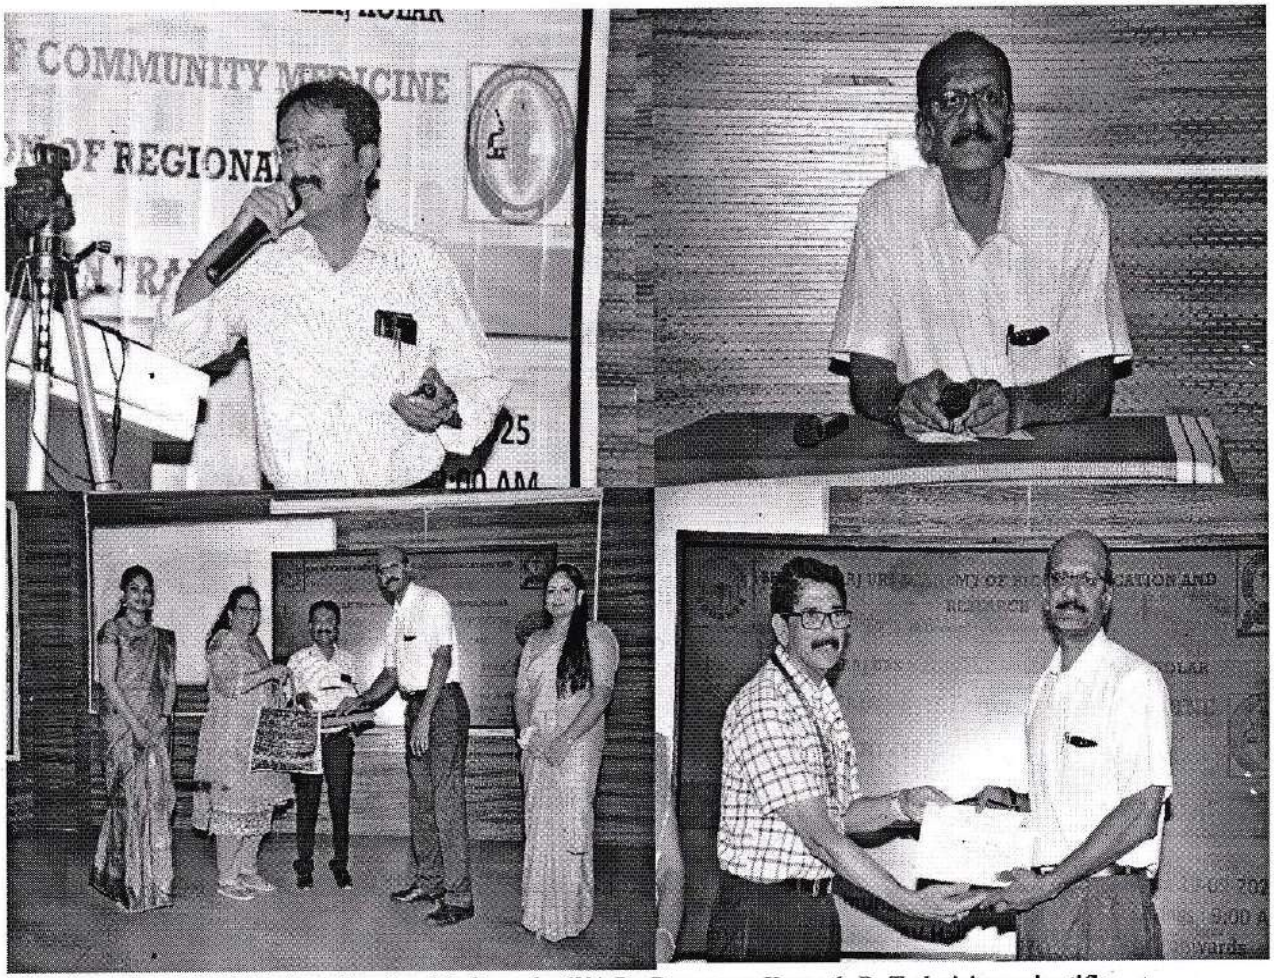

Figure 8a Dr Jagadeesh M delivering his Speech; (8b) Dr Prasanna Kamath.B..T chairing scientific session;(8c)Dr.Prasanna Kamath.B.T presenting memento to Dr Jagadeesh M;(8d) Mr. Ravishankar presenting memento to Dr. Ravi Dr.Prasanna Kamath.B.T

Session-6: Dr. Inchara N, Associate Professor, Department of Ophthalmology, SDUMC, SDUAHER, Kolar, commenced the 6th session on the topic "Corneal Transplant-Pro and Cons" at 2:15 pm

Chairperson: Dr. Sangeetha .T Professor, Department of Ophthalmology , SDUMC,

Dr. Inchara N began the session with an overview of corneal blindness, its epidemiology, and basic corneal anatomy. She elaborated on the different types of keratoplasty, discussing their indications, outcomes, and potential benefits. The discussion highlighted the pros and cons of corneal transplantation, focusing on the transformative impact of eye donation as well as the associated medical and logistical challenges. Practical aspects of donor and recipient management were demonstrated, and the session concluded with a call to action, encouraging participants to actively promote eye donation and help restore vision in the community.

Figure 9a Dr Inchara N delivering his Speech; (9b) Dr Sangeetha. T chairing scientific session;(9c) Dr. Sangeetha. T presenting memento to Dr Inchara N ;(9d) Dr. Sunil.B.N presenting memento to Dr. Sangeetha. T

Session-7: Dr. Ranganath T S Professor, Department of Community Medicine, BMCRI, Bangalore commenced the 7th session on the topic "Jeevana Sarthakathe Initiative" at 2:40 pm

Chairperson: Dr. Dayananda.M Professor, Department of Community Medicine, SDUMC

Ranganath T S began the session on the Jeevana Sarthakathe Initiative by highlighting the historical milestones in organ transplantation, including Dr. Christiaan Barnard's first human-to-human heart transplant in 1967, where the heart of brain-dead accident victim Denise Darvall was transplanted into Louis Washkansky. The session covered key aspects of organ donation, supported by relevant statistics, and outlined the mission and objectives of the Jeeva Sarthakathe program. Historical developments in deceased donor transplantation in India were discussed, along with the principles of organ preservation and best practices for ensuring successful transplantation outcomes.

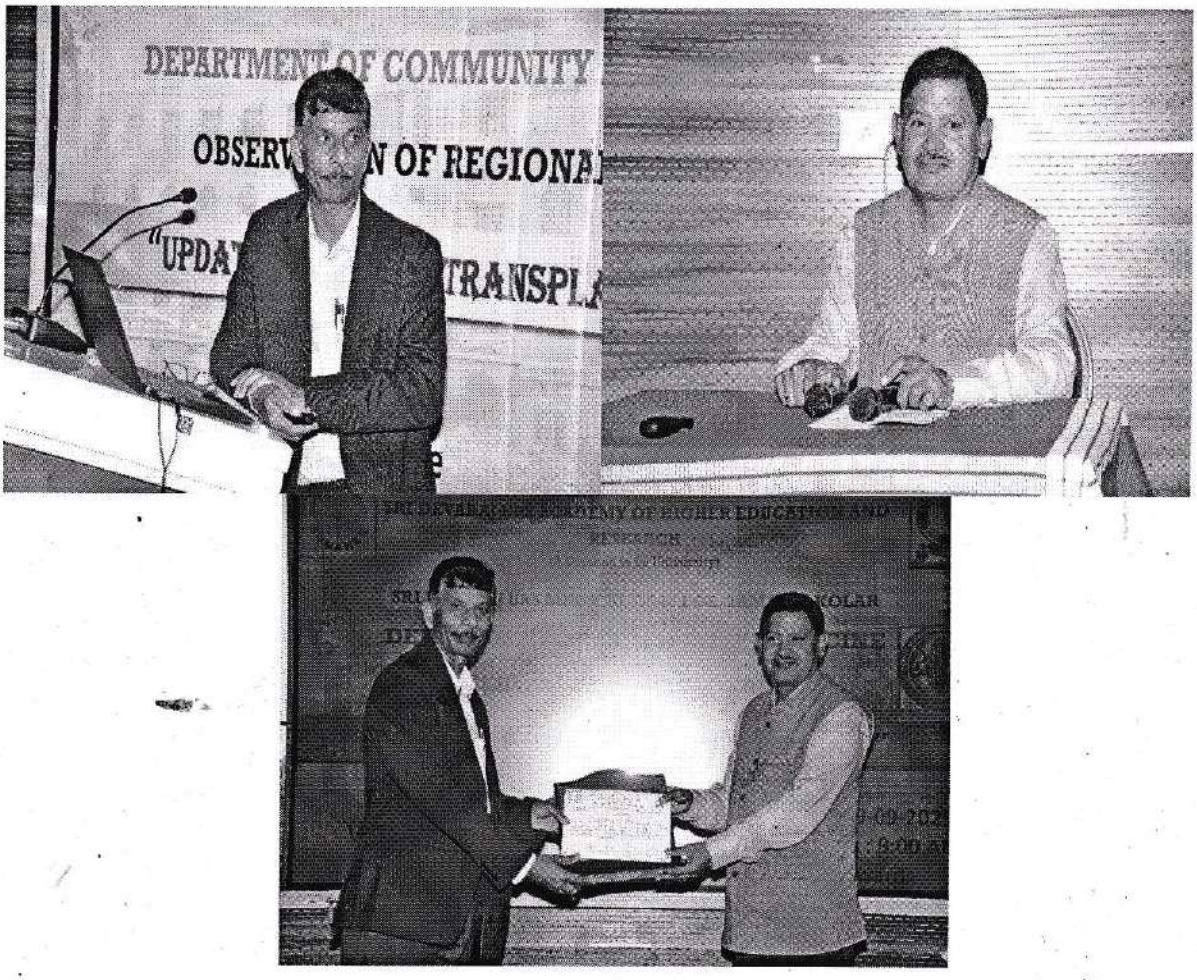

Figure 10 Dr.Ranganath T S delivering his Speech; (10b) Dr) Dr Dayananda.M chairing scientific session;(10c)Dr.) Dr Dayananda.M presenting memento to Dr Ranganath T S

Session-8: Dr. Dileep Kumar K B Associate Professor, Department of Forensic Medicine, Shri Atal Bihari Vajpayee Medical college and Research Institution, Bangalore, commenced the 8th session on the topic "Legal Aspects of Organ Donation" at 3: 15 pm

Chairperson: Dr. Ajay Kumar T S , Professor, Department of Forensic Medicine, SDUMC

Dr. Dileep Kumar K B began the session on Legal Aspects of Organ Donation by discussing the origin and objectives of the organ transplant legislation, emphasizing its role in regulating the removal, storage, and transplantation of human organs and tissues for therapeutic purposes, and in preventing commercial dealings. He addressed complex issues such as the Brain Stem Death (BSD) conundrum, the functioning of tissue banks, and the responsibilities of transplant coordinators. The session also covered the legal status of donor cards, highlighting that they are facilitative but not legally binding, and outlined the penalties for violations. Finally, recent policy updates (2023–2024) were discussed, providing participants with current regulatory insights and best practices in organ donation law.

DEPARTMENT OF COMMUNITY MEDICINE

REPORT OF REGIONAL LEVEL CME ON UPDATES ON ORGAN TRANSPLANT held on 19-09-2025

The Department of Community Medicine at Sri Devaraj Urs Medical College, Kolar, organized a one-day regional CME on "Updates on Organ Transplant" on 19/09/2025. Inaugurated by the Hon'ble Vice-Chancellor Dr. B. Vengamma, Chief Administrative Officer Dr. D.V.L. Prasad, Principal Dr. Prabhakar K, and Registrar Dr. Muninarayana C, the event highlighted the vital role of awareness, coordination, and technology in organ donation and transplantation.

Conducted in hybrid mode, the CME had 260 registered participants, including 80 in-person and 180 online attendees. The sessions covered key areas such as brain death certification, liver and corneal transplantation, skin banking, district-level transplant coordination, and legal aspects of organ donation. A special focus was placed on the Jeevasarthakathe framework, THOTA registration, and the use of digital platforms for efficient organ allocation, real-time tracking, and coordination among hospitals and regulatory authorities.

Esteemed speakers, including Dr. Rajesh K, Dr. Deepak H, Dr. Suresh Raghavaiah R, Dr. Arun Kumar D P, Dr. Jagadeesh M, Dr. Inchara N, Dr. Ranganath T S, and Dr. Dileep Kumar K B, shared practical insights, challenges, and best practices in organ donation, emphasizing the transformative impact of organ and eye donation on patients' lives.

The CME concluded with a Vote of Thanks by Dr. Varun R. Dr. Prabhakar K, Principal, SDUMC, received the official transplantation procedure approval certificate from Dr. Arun Kumar D P, and the department expressed gratitude to mert.org.in for supporting the CME. The event successfully promoted awareness, knowledge sharing, and advocacy for efficient organ transplantation practices.

S/N	EVENT REPORT
1	**Name & Level of Event:**
	AWARENESS PROGRAM ON WORLDS ALZHEIMERS DAY Institutional Level
2	**Background / Introduction:**
	The Department of Psychiatry & General Medicine, SDUMC in collaboration with Dementia India Alliance conducted an awareness program from 8:30 pm onwards, as a part of "WORLD ALZHEIMER'S DAY" on 23-09-2025 with the theme "Ask About Dementia. Ask About Alzheimer's". The program began with Welcome Address, and inauguration.
3	**Venue**: IMA Hall, Kolar
4	**Sponsors**: Dementia India Alliance
5	**Inauguration:** By Guest Speakers and Chief guests Dr B Vengamma (Vice chancellor, SDUAHER),Dr Prabhakar (Principal, SDUMC), Dr Narayanaswamy (IMA President),and Dr Mohan Reddy (Prof & HOD dept of Psychiatry).
6	**Speakers / Judges / Chairman / Panel Team**
	Dr B Vengamma, started the day with an overview of dementia and its pharmacological management, and further emphasized the importance of early detection of reverible causes of dementia and reference to respective departments.She also emphasized newer treatment options are available to delay the progression of illness . The Guest speakers, Mr . Sumith addressed regarding psychological management of Dementia, both sessions chaired by Dr K Prabhakar , Dr. M Narayanaswamy and Dr. Mohan Reddy.M.It was highly interactive session with audience asking questions and active participation.The participants appreciated the informative session by DR Vengamma.Dr Prabahakr,Principal emphasized the importance of early identification of cognitive deficits and reference to Neurology/Psychiatry for further management.
7	**Participants & Delegates in Number: Total=65**
8	**Valedictory function:** The vote of thanks was given by Dr. K Prabhakar , principal , Department of Medicine , SDUMC, Kolar

	National level Webinar on "Breaking Silence, Reducing Stigma, Enabling Timely Care : Ask About Dementia, Ask About Alzheimer's"
2	**Background / Introduction**
	September is observed as World Alzheimer's month. The Department of Physiology, SDUMC is organizing a webinar on World Alzheimer's day on 19th September 2025. Alzheimer's disease (AD) is the widespread cause of dementia, and is an age-related, progressive and irreversible neurodegenerative disease that results in massive neuronal death and deterioration of cognitive functions. The Alzheimer's day campaign aims to underscore the pivotal role of identifying risk factors and adopting proactive risk reduction measures to delay, and potentially even prevent, the onset of dementia. Thus this webinar aims to provide an insight on the identifying risk factors and to adopt the measures to prevent dementia.

	The World Pharmacists Day
2	**Background / Introduction**
	World Pharmacists Day, observed every year on 25th September, is dedicated to honoring and promoting the vital role of pharmacists in improving global health. To mark this occasion, R.L. Jalappa College of Pharmacy, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER) organized a week-long celebration filled with academic, cultural, sports, and social activities. From 18th to 24th September 2025, various events including sports, cultural competitions, scientific exhibitions, and a blood donation camp were conducted on the RLJCOP campus, providing opportunities for students to showcase their skills, creativity, and community spirit. The celebrations culminated on 25th September 2025 with the formal observance of World Pharmacists Day at the C.V. Raman Auditorium, SDUAHER. The final day was graced by eminent dignitaries, resource persons, and professionals from the field of pharmacy and healthcare, highlighting the importance of the pharmacist's contribution to society and reinforcing the commitment of the institution toward excellence in pharmacy education and healthcare service.

8	**Report:**
	The World Pharmacists Day 2025 was celebrated with great enthusiasm and active participation at

R.L. Jalappa College of Pharmacy, SDUAHER. The week-long celebrations were conducted from 18th to 25th September 2025, encompassing sports, cultural, scientific, and social events.

- **18–19 September 2025 – Sports Events**
  The celebrations commenced with sports competitions, encouraging teamwork and physical fitness among students.
- **22–24 September 2025 – Cultural and Scientific Events**
  - 22 September: A Science Exhibition and Essay Writing Competition were conducted, showcasing students' innovative ideas and writing skills.
  - 23 September 2025 – Blood Donation Camp
    A full-day Blood Donation Camp was organized at RLJCOP, SDUAHER from 10:00 AM to 4:00 PM. The event witnessed enthusiastic participation from students, staff, and members of the public.

The camp was graced by eminent dignitaries:

1. Mr. G. H. Nagaraja, Chancellor, SDUAHER
2. Mr. Rajendra J., Vice President, Sri Devaraj Urs Educational Trust (SDUET)
3. Dr. D. V. L. N. Prasad, Chief Administrative Officer (CAO), SDUAHER
4. Dr. B. Vengamma, Vice Chancellor, SDUAHER
5. Dr. Muninarayana C., Registrar, SDUAHER

The dignitaries appreciated the noble initiative and motivated the donors.In total, 75 people donated blood, making the camp a successful social outreach program.

- 24 September: Various cultural competitions such as Vegetable Carving, Cooking without Fire, Rangoli, and Face Painting were held. Eminent judges were invited to evaluate and encourage the participants.
- 25 September 2025 – World Pharmacists Day Celebration
  The valedictory function was held at C.V. Raman Auditorium, SDUAHER. The program began with a formal inauguration and was graced by distinguished dignitaries:

Chief Guest & Dignitaries:

1. Dr. B. Vengamma, Vice Chancellor, SDUAHER
2. Dr. Muninarayana C, Registrar, SDUAHER
3. Dr. Prabhakar, Principal, SDUMC
4. Dr. Aravind Natarajan, Dean & Principal, FABHS, SDUAHER
5. Dr. Ashok Kumar, Principal, RLJCOP
6. Dr. Kousik, School of Law, SDUAHER
7. Mr. Surendranath, Chief Pharmacist, Jalappa Hospital

Resource Persons:

1. Mrs. Shyamala J, ADC, Kolar
2. Mr. Prasanna Kumar K, Chief Pharmacist, KMC Hospital, Mangalore
3. Mr.Dr Rakesh C, Designated Officer, food safety and Drug administration.

The program included keynote talks by the resource persons, highlighting the role of pharmacists in healthcare. Felicitations were offered to all the invited resource persons by the dignitaries. Judges of various competitions were also honored with certificates.

Awards & Recognitions:

- Certificates and mementos were distributed to pharmacists, sports winners, and cultural winners.
- Judges received certificates in recognition of their contribution.

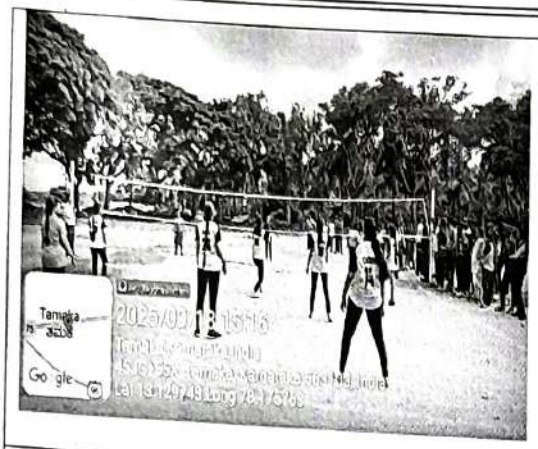

The celebration concluded with a Vote of Thanks, followed by the National Anthem. To mark the occasion of the 5th National Pharmacovigilance Week, a Walkathon was organized, promoting awareness about safe use of medicines and the importance of pharmacovigilance.

Highlights of Events including Photos:

"RESEARCH METHODOLOGY WORKSHOP REPORT 2025"

Date: 17th September 2025
Venue: Dr. BC Roy hall (Library AV hall 1st floor
Organized by: Research and Development Cell & JCBS

Research And Development Cell (RDC) in association with Journal of Clinical & Biomedical Sciences, conducted a Research Methodology workshop on 17th September 2024 from 9.00 am to 1.30 PM.

The Master of Ceremony was Dr Shilpa MD, Associate Professor & Organizing secretary. The program began with the formal inauguration with an invocation song by Mrs. Suma S, Computer Operator, Department of R & D. cell.

Dr. Kalyani R, R & D, SDUAHER gave the welcome address which was followed by the watering of the plant by the dignitaries, Dr Muninarayana C,Registrar, SDUAHER,

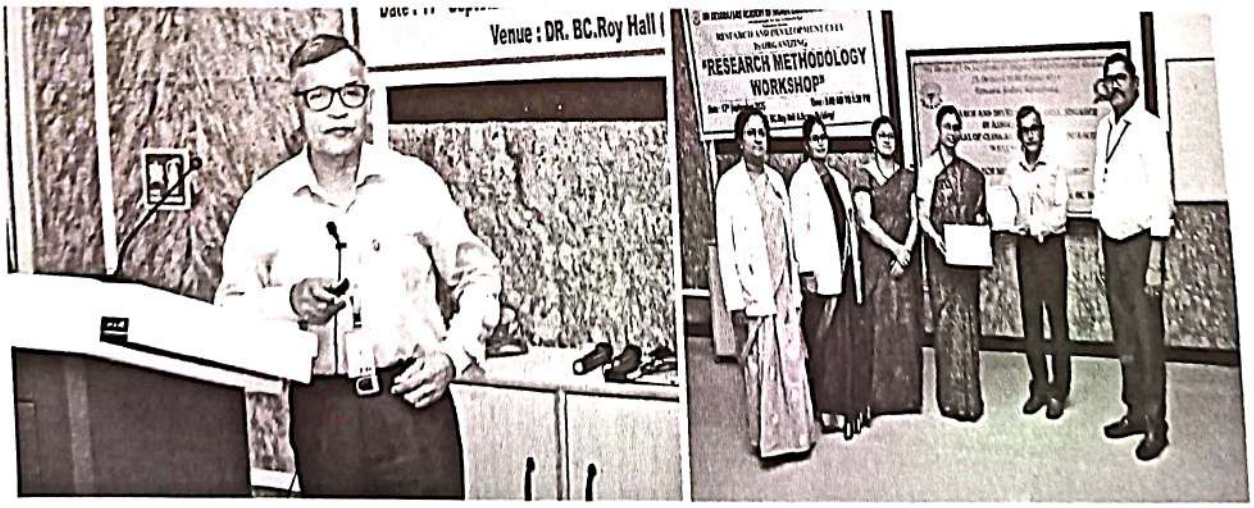

This was followed by the Presidential address by Dr B Vengamma, Vice Chancellor, SDUAHER

The first session was on **"Importance of Medical research"** by Dr Muninarayana C, Registrar, SDUAHER. He mentioned that the workshop was conceptualized with the intention of knowledge building in the fundamentals of Research concepts, methodologies and essentials of academic writing.

The second session was on **"Review of Literature & Formulating objectives"** by Dr. BS Dwarakanath Research Advisor IIADC, Bangalore Retired Scientist, INMAS, DRDO, Delhi. The review of literature was explained with quality indicators of journals, levels of research evidence, sources of literature search. The flow in designing hypothesis was discussed. Research problem was taught by considering FINER criteria for a good research question.

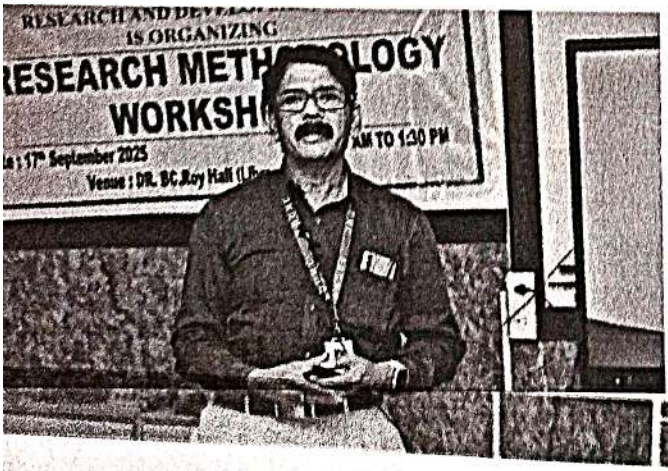

This was followed by a the third session was on **"study design"** by Dr Kalyani R,Director R& D cell. The outline of the section was discussed with study design, description of interventions, study population,sampling procedure , data collection and analysis plan.

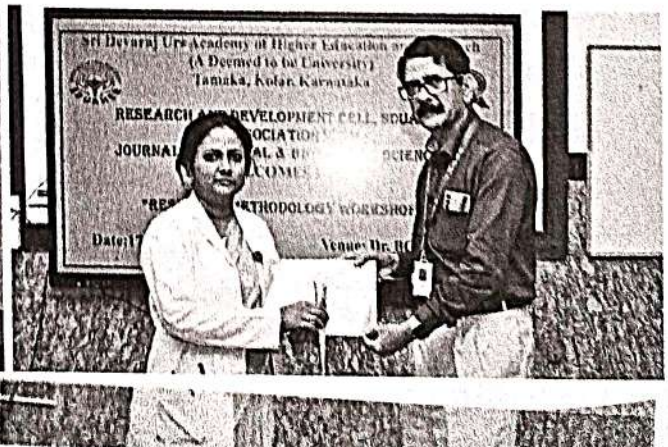

The fourth session was on **"Research Protocol writing"** by Dr. BS Dwarakanath Research Advisor IIADC, Bangalore Retired Scientist, INMAS, DRDO, Delhi. In this parts & process of writing a research protocol was discussed.

Fifth session was by Dr Ravishankar, Assistant Professor of Community medicine, SDUMC on **"Sample size calculation, Randomization &Basics of Statistical analysis".** In this session estimation of sample size in differentstudies: descriptive, case-control, randomized control trial with suitable examples & also in brief about sampling and its type, randomization and statistical analysis.

The session was concluded by feedback and vote of thanks by Dr Madhavi Reddy. All the resource persons,and participants were thanked for the successful completion of the workshop and Cooperation.

Sl. No.	Event Report- Department of Pharmacology
1	**Name & Level of Event: 5th National Pharmacovigilance Week 2025** **National Level**
2	**Background / Introduction**

5th NATIONAL PHARMACOVIGILANCE WEEK was celebrated from 17th to 23rd SEPTEMBER 2025 with the Theme: **" Your Safety, Just a Click Away: Report to PvPI".** The following events were organized and completed successfully.

Events	Date
Inauguration Program	*17-09-2025*
Competitions organized for students of SDUAHER • *Short movie making competition* • *Essay competition* • *Debate competition*	*16-09-2025* *17-09-2025* *18-09-2025*
Community level awareness-cum sensitization program • *Chintamani* • *Dodballapur* • *Malur (Namma Clinic)*	*10-09-2025* *13-09-2025* *18-09-2025*
Sensitization of Pharmacovigilance Program of India (PvPI) to Nursing Students	*19-09-2025*
Awareness-cum-sensitization programs for school children • *C Muniswamy High School, Tamaka*	*19-09-2025*
Closing ceremony	*23-09-2025*

A) INAUGURATION OF PHARMACOVIGILANCE WEEK:

An official inauguration to flag off the 5th National Pharmacovigilance Week 2025 was organized. Students, faculty and Nonteaching staff attended the program.

Dr. Sarala N, Co-ordinator, AMC – Sri Devaraj Urs Medical College spoke about the importance of Adverse drug Reaction (ADR) reporting, and explained the concept behind the theme "**Your Safety, Just a Click Away: Report to PvPI**". Dr. Imran Khan, Assistant Professor, Department of Pharmacology informed about the events that were scheduled during the week-long program with rules and guidelines of the competition. The students were encouraged to participate in the competitions and told them to communicate to their friends. The function concluded after thanking every one.

B) GUEST LECTURE

An online guest lecture was organized on the topic "Is Pharmacovigilance moving towards Prevention rather than just Detection of Adverse Events" in which the guest speaker, **Dr S Seethalakshmi**, Director, Professor & HOD, Department of Pharmacology, ESI Medical College and Hospital, Hyderabad, emphasized on the changing paradigm of Pharmacovigilance from detection to prevention of adverse events with the utility of various tools including artificial intelligence. A total of 85 participants from all over India had attended the online lecture.

C) ESSAY WRITING COMPETITION

An official circular prepared by the Pharmacology department for essay writing competition (circular attached) and circulated among students of various disciplines (MBBS, Nursing and Allied & Healthcare Professions). Fifteen students participated in the competition. Judges Dr. Narendran BS from Department of Ophthalmology and Dr. Soumya Aravind from Department of Biochemistry evaluated the essays based on the checklist and winners were finalized.

D) SHORT MOVIE COMPETITION

An official circular prepared by the Pharmacology department for short movie competition (circular attached) and circulated among students of various disciplines (MBBS, Nursing and Allied & Healthcare Professions). Five teams registered for short movie competition and submitted their short movies. Judges Dr. Sneha K from Pathology and Dr. Shivkumar from Clinical Nutrition and Dietetics evaluated the short movies based on the checklist and winners were finalized.

D) DEBATE COMPETITION

An official circular prepared by the Pharmacology department for debate competition (circular attached) and circulated among students of various disciplines (MBBS, Nursing and Allied & Healthcare Professions). Eight students participated in the competition. Judges Dr. Karthik S from Pediatrics and Dr. P. Kiranmayee from Cellular Biology and Molecular Genetics assessed the debate based on the checklist and winners were finalized

E) COMMUNITY LEVEL AWARENESS CUM SENSITIZATION PROGRAM CAMP- 1, 2, 3

Community level sensitization /awareness camps were organized for three days at Chintamani, Kolar district, on 10-09-25, Dodballapur on 13-09-25 and Namma Clinic, Malur on 18-09-2025. Dr. Pragathi was the faculty who visited the camp on Day-1, Dr. Adarsh Reddy was the faculty who visited the camp Day-2 and Dr. Abhinav, Dr. Krishnan Prem and Dr. Faisel were the faculty who visited the camp on Day - 3. The banner of

National Pharmacovigilance Week with its theme and college details was displayed in the camp. Laminated handouts containing pictures of side effect of medications and ADR reporting form were distributed to consumers for reporting. The patients were explained regarding the importance of ADRs, how, what and where to report them. Their doubts were clarified and patients were encouraged to report ADRs. Toll free PvPI contact numbers and also SDUMC-AMC contact numbers were provided to them.

F) SENSITIZATION OF PHARMACOVIGILANCE PROGRAM OF INDIA (PVPI) TO NURSING STUDENTS

Dr. Imran Khan, Assistant Professor, Department of Pharmacology – Sri Devaraj Urs Medical College, Kolar conducted a program for the nursing students regarding adverse drug reactions and Pharmacovigilance Program of India on 19-09-2025. Nursing students were encouraged to identify and report any and all adverse reactions which they come across in future. The ADR reporting form was distributed, the process of filling the same was highlighted and the queries raised were clarified.

G) AWARENESS-CUM-SENSITIZATION PROGRAMS FOR SCHOOL CHILDREN

A skit was performed at C Muniswamy High School, Tamaka, Kolar on 19-09-2025 by tutors and postgraduates of Pharmacology Department under the guidance Dr. Jayakumar J K. Awareness for students was created by performing role play to showcase the need for identifying and reporting adverse drug reactions. They utilized a case scenario to highlight the importance and timely reporting and also dissemination of information regarding ADRs.

H) CLOSING CEREMONY

Closing ceremony was organized for the official closure of National Pharmacovigilance week in SDUMC, Kolar. The Chief Guests were Dr. Suresh TN, Dr. Dr. Sudha Reddy, and Dr. Vinutha S, Pharmacovigilance committee member Dr Manohar Gowda, Judges of the competitions Dr. Karthik S, Dr. P. Kiranmayee, Dr. Shivkumar and Dr. Sneha K and faculty and non-teaching staff from Department of Pharmacology attended the program.

The program started with welcome address by Dr Sarala N, Prof & HOD, Department of Pharmacology. This was followed by presentation of summary of events conducted during 5th National Pharmacovigilance week in Sri Devaraj Urs Medical College. Dr Imran Khan announced the winners of competitions and Certificates were awarded to them by the dignitaries present in the function. Cash prize amount will be deposited to the winner's bank account directly. Judges were acknowledged with certificates and mementos. This was followed by vote of thanks by Dr. Faisel, final year resident, Pharmacology.

Name of the Department: General Medicine

Sl. No.	Event Report
1	**Name & Level of Event**
	Guest Lecture on "ABG and POCUS".
2	**Background / Introduction**
	ABG (Arterial Blood Gas) refers to a blood test that measures oxygen and carbon dioxide levels in the blood to assess a patient's acid-base balance and respiratory function. POCUS (Point-of-Care Ultrasound) is an ultrasound imaging method used to provide immediate diagnostic information at the patient's bedside, helping to answer specific clinical questions and guide treatment. ABG and POCUS are complementary diagnostic tools, with POCUS often used to non-invasively assess respiratory structures and gas exchange, while ABG provides detailed blood-based physiological data for definitive assessment.

Department of Radiodiagnosis

No. DMC/KLR/ / 2022-23 **Date: 23/09/2025**

S. No.	Event Report
1.	**Name & Level of Event: CME on 'Abdominal Imaging'** **(State level in association with IRIA).**
2.	**Date:** 13/09/2025
3.	**Conducted by:** Department of Radiodiagnosis
4.	**Background / Introduction:** Abdominal imaging in radiology uses different modalities based on clinical needs, each with specific strengths and limitations. Plain X-rays are quick and helpful for detecting obstruction, perforation, calcifications, or foreign bodies. Ultrasound is safe and real-time, commonly used for abdominal organs and as the first-line tool in trauma (FAST/eFAST). CT is the main modality for emergencies, cancer staging, stone disease, and vascular evaluation. MRI provides excellent soft-tissue detail without radiation, with specialized sequences like DWI, MRCP, MR enterography, and MR elastography valuable for liver, pancreas, biliary system, and bowel. For trainees, understanding the right modality, optimizing protocols, interpreting systematically, and keeping up with advances is essential for accurate and patient-centered care.
5.	**Venue:** Physiology AV Hall, Sri Devaraj Urs Medical College, Tamaka, Kolar.
6.	**Inauguration:** Welcome address was delivered by Dr. Anil Kumar Sakalecha
7.	**Speakers:** Dr. H T Narayan, Dr Richa Jain, Dr Mahesh Kumar R, Dr Bharath K S, Dr Manjunath Y C, Dr Diwakar, Dr Sandeep M B Desai, Dr Sahana The medical event included 9 sessions. The first session, from 9.00am to 9.40 am, focusing on Essentials of abdominal radiograph from Dr. H.T Narayana The second session, from 9.40 am to 10.10 am, on Endovascular management of GI bleed, presented by Dr. Mahesh Kumar.

	The third session, from 11:30 AM to 12:15 PM, discussed Imaging of acute pancreatitis and its complications by Dr. Diwakar The fourth session from 11.40 AM to 12.20 PM on Relevance and present status of barium contrast procedures in evaluation of GIT disorders by Dr H T Narayana The fifth sessions from 12:20 PM to 1:00 PM was about CT Hepatobiliary interventions by Dr Bharath K S. The sixth session was conducted from 1-00to 1.30 PM on CT and MRI in adrenal lesions by Dr Sandeep Desai. The seventh session was done by Dr Richa Jain on Imaging biomarkers in NAFLD from 2.15 to 2.55 PM. The eight session was regarding Model PC and PNDT Acts done by Dr Manjunath Y C from 3.00 to 3.50PM. The ninth session Zoomed in burned out: Mental health in diagnostic shadows was by Dr Sahana Moorthy from 3.50PM to 4.30PM. **Chairpersons:** Dr Sriramulu, Dr Purnima, Dr Srinivas Babu, Dr. Suresh, Dr. Anil Kumar Sakalecha, Dr Harini Bopaiah, Dr. Adarsh, Dr Anees Dudekula, Dr Manjunath Y C, Dr Vijayasaradhi, Dr Puttaraju, Dr Pravin G U,.Dr Ravindra Nayak, Dr Usha Rani, Dr Jagannathan, Dr Hemanth Kumar.

University Library Learning Resource Centre

Date:15/09/2025

Sl. No.	Name & Level of Event **Guest Lecturer on "*Advancing Medical Education and Medical Curriculum Transition*" How to Use Access Medicine- McGraw- Hill" at 11.00 AM to 1.00 PM, on 012/09/2025 at Dr. B.C. Roy Seminar Hall, ULLRC, SDUAHER,** Institutional Level
1	Guest Lecture on **"*Advancing Medical Education and Medical Curriculum Transition*"** jointly organised by Medical Education Unit & University Library Learning Resource Centre, SDUAHER in association with McGraw-Hill, Publishers.
2	**Background /Introduction**
	The program commenced with a welcome address by Dr. Suresh T. N., Professor of Pathology and Coordinator, MEU, SDUMC. The event was inaugurated by Dr. Prof. Prabhakar K., Dean, Faculty of Medicine and Principal, SDUMC, Kolar. In his inaugural address, he emphasized that Advancing Medical Education and Medical Curriculum Transition focuses on enhancing the quality of medical training to meet global standards and evolving healthcare needs. He highlighted the importance of competency-based learning, integration of technology, research orientation, and outcome-driven teaching methods. He further stated that the curriculum transition ensures that students are better equipped with clinical skills, critical thinking, and professionalism, enabling them to deliver patient-centred care in a rapidly evolving healthcare environment. **Dr. Reem Zakaria, Ph.D., M.Sc., M.D., CPHQ,** Medical Education Consultant, McGraw-Hill, delivered a session on "Advancing Medical Education and Medical Curriculum Transition." She highlighted how medical education is evolving to meet the changing demands of healthcare systems and society. She discussed the differences in learning styles across generations, noting that Generation Z learners, as digital natives, prefer flexible, collaborative, and technology-supported learning environments. Dr. Reem emphasized the need for educators to adapt their teaching strategies to create more engaging and interactive learning experiences. She explained key trends in

	modern medical education such as competency-based learning, technology integration, and outcome-driven teaching methodologies that better prepare students for clinical practice. She also stressed the importance of transitioning from traditional content-heavy curricula to learner-centered approaches that promote critical thinking, problem-solving, and lifelong learning. She concluded by highlighting innovative strategies including simulation-based training, problem-based learning, and digital platforms, which play a vital role in preparing future healthcare professionals for the evolving healthcare landscape. **Mr. P. Pradeep Kumar, Director – Sales India, McGraw-Hill Education**, provided an overview of the digital resources published by the company. He highlighted the key features of their digital learning platforms and demonstrated the **Navigator tool**, explaining how it supports students and faculty in accessing educational content efficiently and enhancing the learning experience

Name of the event: **AWARENESS PROGRAMME AND POSTER PRESENTATION COMPETITION ON WORLD SUICIDE PREVENTION DAY.**

Date of the event: 10th September 2025

Name of the department: Department of Psychiatry , SDUMC.

Sl. No.	Event Report
1	**Level of the event**
	district level
2	**Background / Introduction**
	The department of Psychiatry ,SDUMC, conducted awareness program on 10/09/2025 on the event of world suicide prevention day with the theme, "Changing The Narrative On Suicide-Start The Conversation". This triennial theme is with the call to action "Start the Conversation". It is about transforming how we perceive this Complex issue and shifting from a culture of silence and stigma to one of openness, understanding, and support. By initiating these vital conversations, we can break down barriers, raise awareness, and create better cultures of support. The program was held in government first grade collage, kolar. With gathering of students of about 200 in number. The program began with the welcome address by Prof. Patrick. This was followed by inauguration ceremony with watering of plants. The keynote speech was given by Dr. jagadeash (clinical psychologist) and Dr. Mohan Reddy, (professor and HOD dept. of psychiatry). Points such as markers for identification of a person prone to suicide and ways to identify them, how to prevent suicide, the reason for increasing incidence of suicide that too mainly in younger population , how can they seek for help during these problems have been mainly highlighted.

R.L. Jalappa College of Physiotherapy celebrated World Physiotherapy Day on 8th and 9th September 2025 with a blend of academic enrichment, community service, and health promotion. The two-day program began with a 3 km Walkathon spreading awareness on public health, followed by a CME at BC Roy Auditorium with expert sessions on Healthy Aging. Day two featured the inauguration of the Women's Health Physiotherapy Clinic at RLJHRC, fitness evaluations for the elderly, assistive device distribution, engaging skill games, Zumba fitness, a handbook release on Healthy Ageing, and an Orthotics & Prosthetics display. Graced by esteemed dignitaries, the celebrations reflected the college's commitment to advancing physiotherapy education, public health, and community outreach.

R.L. Jalappa College of Physiotherapy celebrated *World Physiotherapy Day* on the **8th and 9th of September 2025**, with two days of impactful programs focusing on the theme *Healthy Aging, Service, and Community Outreach*. The event combined academic enrichment, health awareness, and community service, reflecting the institution's ongoing commitment to education, patient care, and social responsibility.

Day 1 Overview

The celebrations commenced with a **3 km Walkathon**, led by students and faculty, and graced by **Dr. Muninarayana, Registrar, SDUAHER**, with support from the **Kolar Traffic Police**. With energetic slogans, the walkathon spread the message of *public awareness and health promotion*.
Following this, a **CME at BC Roy Auditorium** was inaugurated by distinguished leaders – **Dr. Vengamma (Vice Chancellor, SDUAHER)**, **Dr. DVLN Prasad (Chief Academic Officer)**, **Dr. Muninarayana (Registrar)**, and **Dr. Aravind Natarajan (Dean, AHS)**. Eminent speakers, including **Dr. Pretesh Kiran (St. John's College, Bangalore)** and **Dr. Kiran Babu M (HOD, KITES)**, delivered insightful lectures on *Healthy Aging*, enriching the academic dimension of the celebrations.

Day 2 Overview

The second day was dedicated to service, outreach, and healthy living activities. The program was graced by the presence of **Shri G H Nagaraja (President, SDUET & Hon'ble Chancellor, SDUAHER)**, **Sri J Rajendra (Vice President, SDUET)**, **Sri K G Hanumantha Raju (Secretary, SDUET)**, and other esteemed academic leaders. Key highlights of the day included:

- **Inauguration of the Women's Health Physiotherapy Clinic at RLJHRC**
- **Fitness evaluation programs** for the geriatric population
- **Engaging skill-based games** for participants
- **Donation of walkers and canes** to differently-abled individuals, generously sponsored by Dyna Company
- **Assistive device distribution** to support community members
- A lively **Zumba fitness session for the elderly**
- **Release of the Physiotherapy for Healthy Ageing Handbook**

- **Orthotics & Prosthetics product display**, aimed at student learning and patient awareness

The two-day celebration not only created awareness about the role of physiotherapy in promoting healthy aging but also provided valuable outreach services to the community. Students and faculty actively engaged in both academic and service-oriented activities, gaining practical exposure and reinforcing the relevance of physiotherapy in real-life contexts.

Through these celebrations, R.L. Jalappa College of Physiotherapy once again demonstrated its dedication to advancing physiotherapy education, improving community health, and empowering future professionals. The enthusiasm of the participants and the support of esteemed dignitaries made *World Physiotherapy Day 2025* a memorable and meaningful milestone in the institution's journey of service and excellence.

ALL SENIOR RESIDENTS AND POST GRADUATE STUDENTS IN GENERAL SURGERY DEPT

Date of conduct of event: 06.09.2025

The R.L. Jalappa Institute of Oncology, a constituent unit of Sri Devaraj Urs Academy of Higher Education and Research, cordially greeted its second cohort of first-year postgraduate students in the department of Surgical Oncology through an orientation cum inauguration program. This significant event took place on the 6th of September 2025, hosted within the College campus premises. Esteemed dignitaries from the Academy adorned the occasion with their presence. Notably, the distinguished presence of Dr. Sharad Desai, Consultant Surgical Oncologist and Director of Mahatma Gandhi Cancer Hospital, Miraj, Maharashtra, added to the prestige of the event as the chief guest.

This momentous occasion signifies the enrollment of the 2nd batch of three MCh postgraduate students in the program which started from 2024. It reflects the Academy's successful transition from a service-providing department to an esteemed teaching institution. The Academy's commitment to dedicated patient care, comprehensive health education, and pioneering cancer research has been pivotal in achieving this significant milestone.

Dr Desai speaking on the occasion emphasized the importance of ethics in clinical practice, stressed the need for empathy towards patients, and inspired young doctors to pursue oncology as a specialization. Dr. Sreeramulu , emphasized the crucial role of outreach programs in oncology to raise awareness about cancer among the general population. Dr. Vengamma B, the Honorable Vice Chancellor, emphasized the significance of evidence-based medicine in cancer care and underscored the importance of innovations such as minimally invasive surgeries. Dr. Prabhakar K, the principal of SDUMC, provided guidance to the students regarding the latest NMC guidelines and emphasized the importance of research in the field of oncology.

The R.L. Jalappa Institute of Oncology plays a vital role in providing comprehensive cancer care to patients seeking treatment at the R.L. Jalappa Hospital. With fully equipped surgical, medical, and radiation oncology facilities, the institute operates with a unified mission: to deliver accessible and high-quality cancer care to deserving patients.

The Department of Surgical Oncology has garnered commendable expertise over the years, successfully conducting numerous complex major and supra-major surgeries with favourable outcomes. This integrated approach allows patients to receive all necessary treatments under one roof, eliminating the need for referrals to other institutions. In 2024 alone, the department conducted over 400 major cancer surgeries, with the numbers steadily increasing each year.

1	**Name & Level of Event**
	SPINAL CORD INJURY DAY celebration on 09/09/2025 **Level of event : Institutional**
2	**Background / Introduction**
	I am pleased to address this year's slogan, **"Fall Prevention, Spinal Cord Protection."** We come together under this important theme to raise awareness and take action against one of the leading causes of spinal cord injuries worldwide. Falls, whether at home, in the workplace, or in public spaces, remain a significant yet preventable risk factor for SCI. Falls can happen to anyone, at any age, and in any setting. However, with the right knowledge, tools, and interventions, we can significantly reduce their occurrence and impact. For those living with SCI, preventing secondary injuries caused by falls is equally critical to maintaining independence and well-being. Together, we can make a difference. By preventing falls, we not only protect spinal cords but also preserve dreams, aspirations, and the ability to live life to its fullest. Let us unite in our efforts to create a world where spinal cord injuries caused by falls are a rarity, not a reality. This year, let us focus on: ***Education and awareness***: Spreading knowledge about the risks of falls and how to reduce them through public campaigns, community programmes, and educational resources. ***Safe environments***: Advocating for safer design of homes, workplaces, and public spaces to reduce the risk of falls. ***Empowerment***: Providing people with SCI and their careers with the tools and training to prevent falls and manage risks effectively. ***Research and innovation***: Supporting advances in technology, rehabilitation, and prevention to protect spinal cord health.

EVENT REPORT

Name of the Event: **State Level CME on "Foundations & Frontiers in Pediatric Ophthalmology"** (3rd September 2025)

Name of the Department: **Ophthalmology**

Sl. No.	Event Report
1	**Name & Level of Event:** CME on ***"Foundations & Frontiers in Pediatric Ophthalmology"***
2	**Background / Introduction** Pediatric ophthalmic conditions, including refractive errors, congenital cataracts, and retinopathy of prematurity, can profoundly affect a child's vision, development, and quality of life. Globally, many children face delayed diagnosis and treatment due to limited access to specialized pediatric eye care, especially in underserved regions. Early detection and timely management are vital to prevent lifelong visual impairment and to support optimal learning and development. To address these challenges, we organized a CME to equip healthcare professionals and raise public awareness about the significance of vision screening, early referral, and the latest advancements in pediatric ophthalmology treatments and interventions.

Event Report: Cervical Cancer Screening Awareness and Challenges

The event was organized by Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER) under the aegis of the Research and Development Cell, in association with the Departments of Obstetrics and Gynaecology, Pathology, Community Medicine, Oncology, Cell Biology & Molecular Genetics (CBMG), and Microbiology.

The program brought together experts, faculty, and students to deliberate on the pressing issues of cervical cancer prevention, screening, and future strategies.

A distinguished highlight of the event was the keynote address by Dr. Devanshi Somaiya, an eminent Obstetrician-Gynaecologist, Robotic Surgeon, Program Director, and Senior Research Physician at PHRI, Mysore who adressed the first session on cervical cancer screening in low resource settings chaired by Dr Munikrishna M , HOD , department of Obstetrics and Gynaecology and Dr Sunil B N , Incharge HOD of department of community medicine.

Dr. Somaiya delivered a powerful keynote highlighting the stark realities of cervical cancer screening in Karnataka, where the screening rate remains as low as 0.5%, underscoring the urgent need for systemic interventions. She shared that the PHRI Mysore initiative has successfully screened over 10,000 women, setting a precedent for large-scale, community-driven preventive healthcare.

In her address, Dr. Somaiya emphasized the critical role of HPV vaccination in primary prevention, while also elaborating on the natural history of HPV disease:

- Nearly 90% of HPV infections regress spontaneously,
- 50% of persistent HPV infections progress to dysplasia, and
- Remarkably, 40–50% of CIN 3 lesions may regress, reinforcing the value of both early detection and vigilant follow-up.

The session also revisited the impactful observance of International HPV Awareness Day, celebrated on March 4th, 2024, which brought together premier institutions of Mysore — Mysore Medical College, JSS Medical College, and Adichunchanagiri Institute of Medical Sciences — in a collective mission to amplify awareness and advocacy.

Looking ahead, the Mysore Consortium Against Cervical Cancer (MCACC) is poised to scale its initiatives through:

- A Hub-and-Spoke Model for cervical cancer screening and detection, enabling equitable access and standardized care delivery across regions.
- Leveraging the ECHO platform for knowledge dissemination, mentoring, and skill-building among healthcare providers.
- The formal inauguration of MCACC scheduled for September 26, 2025, which will serve as a pivotal moment in consolidating collaborative action against cervical cancer.

Dr. Somaiya's visionary talk highlighted not only the epidemiological challenges but also the path forward — rooted in innovation, collaboration, and public health leadership. The event concluded with a strong call to action for stakeholders across academia, research, and clinical practice to join hands in driving cervical cancer elimination in Karnataka and beyond.

This was followed by inauguration and welcome address and NCD online inauguration by Dr Indira , consultant gynaecologist, Shamu health care , Dr Kalyani R , director , research and development cell , SDUAHER , professor of pathology, SDUMC , Dr Sunil BN , incharge HOD , department of community medicine

Session II: Advances in Cervical Cancer Screening and Extended Genotyping

The second session was addressed by Dr. Vijayalakshmi Ramshankar, Professor and Head, Cancer Biology and Molecular Diagnostics, Cancer Institute (WIA), Adyar, Chennai chaired by Dr Kalyani R and Dr Sheela S R , professor , depar of OBG, director of infertility centre .. With her extensive expertise and global exposure, Dr. Ramshankar delivered a compelling lecture on extended HPV genotyping, its clinical utility, and challenges, enriched with her experience in cervical cancer screening protocols during her tenure in the USA.

She elaborated on the establishment of a molecular testing laboratory for HPV DNA testing, describing in detail the COBAS 4800 system — a fully automated, real-time PCR platform for amplification and detection. Drawing from large-scale data, she reported that the laboratory had processed 25,395 samples, of which 159 were invalid and 1,601 tested positive for HPV.

Dr. Ramshankar highlighted the comparative accuracy of the COBAS 4800 assay vis-à-vis cytology, emphasizing its reliability in detecting high-risk HPV types. Importantly, the results revealed a broader spectrum of prevalent high-risk HPV subtypes beyond HPV-16 and 18, including 31, 58, 33, and 45, underscoring the importance of region-specific genotyping data. She further explained that HPV-59 emerged as the most prevalent genotype, followed by 35, 31, 33, 51, 16, 56, 66, and 39, while HPV-18 showed the lowest prevalence. Interestingly, HPV-68, now being reconsidered for removal from the carcinogenic HPV group, also demonstrated negligible prevalence.

The session also illuminated cutting-edge diagnostic technologies:

- Next-Generation Sequencing (NGS) approaches and comprehensive HPV–STI assays employing single-tube, single-PCR methods with type- or species-specific primers for uniform amplification.
- qPCR platforms and the ALLPLEX SEEGENE assay, offering advanced multiplex diagnostic capabilities.

She noted that while COBAS HPV DNA testing shows high concordance with NAS-derived HPV subtypes, particularly in HSIL cases, the need for cost-effective alternatives remains pressing to enable large-scale population screening in resource-limited settings.

Finally, Dr. Ramshankar emphasized the clinical implications of extended genotyping: if HPV-31, 33, or 35 are detected, colposcopic evaluation should be pursued promptly to ensure early detection and intervention.

Her talk seamlessly integrated bench-to-bedside perspectives, demonstrating how advances in molecular diagnostics and genotyping technologies are reshaping the landscape of cervical cancer screening and paving the way for precision prevention strategies in India.

Session III: HPV Vaccines – Evolution and the Promise of Single-Dose Protection

The third session was delivered by Dr. Rohini Kulkarni, Associate Professor, Department of Gynaecologic Oncology, Tata Memorial Centre, Mumbai , chaired by Dr Loknath D, HOD , department of medical oncology and Dr Parimala S , HOD , Department of microbiology. , Dr. Kulkarni provided an illuminating overview of the evolution of HPV vaccines, underscoring their pivotal role in the global strategy to eliminate cervical cancer.

She highlighted the importance of single-dose vaccination schedules, a transformative step toward expanding access and coverage, especially in low- and middle-income countries where logistical and financial barriers often limit completion of multi-dose regimens.

Drawing on the latest evidence and global policy recommendations, Dr. Kulkarni emphasized the endorsement by the World Health Organization’s Strategic Advisory Group of Experts on Immunization (WHO SAGE), which has validated the efficacy of single-dose HPV vaccines as comparable to the traditional two-dose regimen.

She stressed that this paradigm shift has the potential to:

- Dramatically improve vaccine uptake,
- Simplify implementation in public health programs, and
- Reduce overall costs, making vaccination campaigns more sustainable and impactful.

Dr. Kulkarni's session not only traced the scientific journey of HPV vaccines but also contextualized their public health importance in India, where cervical cancer remains a major cause of morbidity and mortality. Her talk resonated with a strong message — that scaling up vaccination, particularly through single-dose strategies, represents a cornerstone of cervical cancer elimination efforts.

Session IV: Multiplex HPV High-Risk Genotype Screening – Innovations and Frontline Solutions

The fourth session was addressed by Dr. Satyaprakash Pandey, Senior Scientist at the Tata Institute for Genetics and Society (TIGS), Bengaluru chaired by Dr Manjunath G N , HOD , department of radiation oncology and Dr Venkateshwarlu Raavi , assistant professor , CBMG . Dr. Pandey delivered a forward-looking lecture on multiplex screening for high-risk HPV genotypes, drawing from both global advances and groundbreaking research being conducted at TIGS.

He began by outlining the burden and diversity of high-risk HPV types, stressing the need for comprehensive genotyping platforms to guide clinical decision-making and public health

strategies. Dr. Pandey then turned attention to the practical barriers in HPV screening, particularly in resource-limited and geographically challenging settings, where lack of laboratory infrastructure continues to impede widespread implementation.

In response to these challenges, he showcased innovative outreach models, including the concept of mobile laboratories designed to deliver HPV screening and molecular diagnostics to difficult-to-reach terrains, thereby bridging accessibility gaps.

A highlight of his presentation was the discussion of novel diagnostic technologies for self-sampling, which have the potential to revolutionize women's participation in screening programs:

- Do-It-Yourself (DIY) sample collection kits based on RT-PCR qualitative assays.
- The M-Strip kit, developed by an Ahmedabad-based company and even commercially available on Amazon, which enables HPV testing through menstrual blood samples — offering a discreet and user-friendly alternative for women.
- The ALLPLEX kit, a multiplex molecular assay for detecting high-risk HPV genotypes.
- The LFA (Lateral Flow Assay) device specifically designed for rapid detection of HPV-16 and HPV-18, representing a point-of-care innovation.

Dr. Pandey's session brilliantly captured the intersection of molecular research, public health innovation, and user-centric diagnostic solutions, underscoring the potential of next-generation technologies to democratize cervical cancer screening in India. His emphasis on community-driven, accessible, and affordable diagnostics provided a clear roadmap for integrating science, technology, and equity into cervical cancer prevention strategies.

The event culminated in a dynamic panel discussion and interactive Q&A session, which provided participants with the opportunity to engage directly with experts and clarify key challenges in cervical cancer prevention, screening, and management.

The distinguished panel comprised:

- Dr. Devanshi Somaiya – PHRI, Mysore
- Dr. Indira
- Dr Kalyani

- Dr. Abhay K Kattepur
- Dr. T. N. Suresh
- Dr. Vimarshitha
- Dr Chathurvedi
- Dr. Satyaprakash Pandey – TIGS, Bengaluru

- Mr. Satyanarayana

The session was moderated by Dr. Sunil B. N. and chaired by Dr. Gopinath K. S., who ensured a balanced and insightful discourse.

Event report

Name of the event: Orientation Program "Shubharambham"
Date of the event: 01 September 2025

Background/ Introduction:

The orientation program titled "Shubharambham" was organized to welcome incoming first-year B. Pharm students to RL Jalappa College of Pharmacy, SDUAHER, marking the commencement of their academic journey for the 2025–26 session. The event was designed to introduce new students and their parents to the college environment, academic expectations, campus resources, and support services. Through informative sessions and interactive activities, "Shubharambham" fostered a sense of belonging, encouraged personal and professional development, and helped students and parents understand the institution's vision, standards, and culture.

Venue: R. L. Jalappa College of Pharmacy, SDUAHER, Tamaka, Kolar-563103
Sponsors: SDUAHER

Participants: First Year B. Pharm Students - 48, Teaching Staff - 8, Non-Teaching Staff - 12 and Student's parents – 50, Dignitaries – 5 Total of - 123.

Report:

- The program began at 10:30 AM, with snacks served to all attendees upon arrival.
- The event was hosted by Durga Priya, who welcomed everyone to the orientation.
- A welcome song was presented by Banupriya and Chethana, setting a warm tone for the program.
- Lamp-lightening ceremony was performed, symbolizing the start of an enlightening academic journey.
- All dignitaries of SDUAHER attended and addressed the gathering with encouraging words.
- A college glimpse was showcased, introducing students and parents to the institution's facilities and culture.
- The event followed with a heartfelt vote of thanks by N S Disha to acknowledge the contributions of every participant.
- The program concluded at 12:15 PM with the singing of the National Anthem.
- After the program, lunch was provided to all participants and a group photograph was taken to commemorate the event.

Photographs of the event:

This image shows the RLJCOP staff warmly welcoming the dignitaries for Orientation Day.

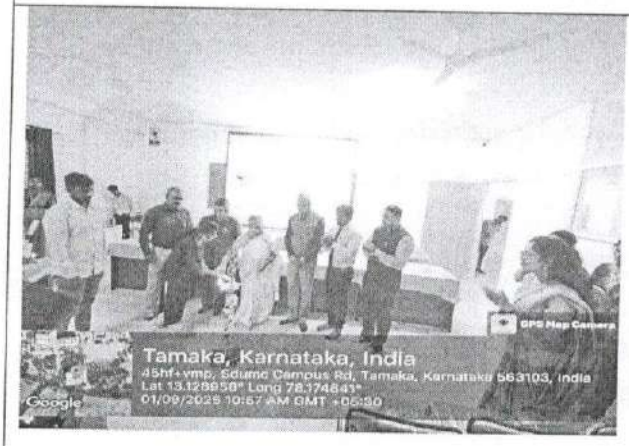

This image shows Ms.Durga Priya hosting the Orientation Day event.

The image shows the dignitaries being welcomed on Orientation Day.

EVENT REPORT

Name of the Event: **Institutional Level Guest lecture on Recent Advances in Keratoconus (26 August 2025)**

Name of the Department: **Ophthalmology**

Sl. No.	Event Report- Ophthalmology
1	**Name & Level of Event –:** Institutional Level Guest lecture on " **Recent Advances in Keratoconus** "
2	**Background / Introduction**
	Keratoconus is a progressive, non-inflammatory corneal ectatic disorder that significantly affects the vision of young adults. In recent years, its management has advanced with improved diagnostic tools, refined cross-linking techniques, and evolving treatment options. To create awareness and update knowledge on screening, intervention, and recent developments in keratoconus, a guest lecture on **"Recent Advances in Keratoconus"** was organized by the Department of Ophthalmology on 26th August 2025.
3	**Venue** – PG Block Seminar Hall Dept Of Ophthalmology, SDUMC Kolar
4	**Sponsors** – SDUAHER, Tamaka, Kolar.
5	**Inauguration**
	Welcome address and introduction by Dr. Sangeetha. T, Professor & HOD of Ophthalmology, SDUMC.
6	**Speaker**
	Dr. Bhavya Reddy MBBS, MS, FCED ,Consultant Ophthalmologist, Aster Whitefield Bangalore, Alumni of SDUMC
7	**Participants & Delegates in Number – 50** [Faculty, residents and interns of the academy had participated in this event]
8	**Awards / Prizes** - Certificate of participation was awarded to the participating faculty
9	**Valedictory** – NA
10	**Highlights of the events including photos** - ENCLOSED

Dr. Hasareen Shaik, senior resident from department of Ophthalmology welcomed the gathering and introduction of guest speaker, Dr.Bhavya Reddy was warmly welcomed, following which she began her lecture on Recent Advances on keratoconus as follows:

Dr. Sangeetha. T delivered the welcome address

Dr. Bhavya Reddy MBBS, MS, FCED, Consultant Ophthalmologist, Aster Whitefield Bangalore, Alumni of SDUMC addressed the gathering.

The guest lecture provided an in-depth overview of the evolving landscape of keratoconus management.

- Detailed insights were shared on corneal evaluation with advanced imaging modalities like Scheimpflug imaging, AS-OCT, and corneal biomechanics.

- Various contact lens options including scleral, hybrid, and PROSE lenses were discussed.
- Newer cross-linking techniques such as accelerated, pulsed light, iontophoresis-assisted, and lenticule-assisted CXL were highlighted.
- Surgical advances like intracorneal ring segments, topography-guided CXL, and lamellar keratoplasty were elaborated.
- A special emphasis was given to corneal stromal regeneration using mesenchymal stem cells and gene therapy as future therapeutic possibilities.
- The role of Artificial Intelligence in screening, detecting early keratoconus, and predicting ectasia progression was also discussed

The interactive session saw active participation from faculty, residents, and interns. The talk concluded with a lively case based Q&A session with case based, where practical aspects of clinical management and recent innovations were discussed.

The session ended with a vote of thanks delivered by the organising secretary Dr. Shaik Hasareen, appreciating the speaker's contributions and acknowledging the support of the department.

Dr. Hasareen Shaik delivered vote of thanks

Sl. No.	Event Report
1	**Level of the event**
	Community level
2	**Background / Introduction**
	Gender Sensitization awareness programme was held on 23rd August 2025 at Morarji Desai Residential School and arranged by Women Empowerment Cell. The programme was hosted by Miss Sri Parvathy and the invocation song by Miss Mrudula V Purohit the MBBS 3rd year student set the tone for the event. It was followed by the welcome address by the Miss. Durga, Sri Devaraj Urs College of Pharmacy who extended greetings to the dignitaries, teachers and students. Dr. Usha G Shenoy engaged the students and captivated their attention by her detailed explanation about Gender sensitization and stressing on the topic "Breaking barriers". She inspired the students with her depth of knowledge which enhanced the student's understanding about the topic. She was felicitated by the authorities of the school. Many activities were conducted with active involvement by the students. Principal of the school Mr. Abdul Naveed A was felicitated on behalf of WEC and concluded the programme on happy note .

EVENT REPORT

Name of the Event: **Guest Lecture – "Looking at human diseases through GENETICS lens"**

Name of the Department: **Cell Biology and Molecular Genetics (CBMG), SDUAHER**

Date of the Event: **August 22, 2025**

Sl.no	Event Report
1	Level of Event: Institutional
2	**Introduction** The Department of Cell Biology and Molecular Genetics, SDUAHER, organized a guest lecture titled "Looking at human diseases through GENETICS lens" on Friday, 22.08.2025. The session was led by the esteemed resource person, Dr. Parveen Jahan, Professor at the Department of Zoology, Maulana Azad National Urdu University, Hyderabad, and an Adjunct Faculty at CBMG, SDUAHER. The lecture was organized to provide faculty, research scholars, and students with deeper insights into the genetic basis of various human pathologies.
3	**Venue** - B C Roy Hall (Library AV hall)
4	**Sponsors** - NA
5	**Inauguration** - NA
6	**Conducted** The event began at 10:30 AM. Dr. Kiranmayee P., Head of the Department of CBMG, welcomed all the members and introduced the guest speaker. Following her introduction, Dr. Jahan addressed the attendees and proposed several initiatives to advance research and collaboration within the department. Dr. Jahan commenced her talk by explaining the fundamental role of genetics in the medical field, outlining how genetic information is central to understanding human health and disease. She comprehensively covered the causes of genetic disorders, detailing various types of mutations such as chromosomal abnormalities, single-gene defects, and complex multifactorial inheritance patterns. To illustrate these concepts, she presented several compelling case studies and examples, discussing classic Mendelian disorders like Sickle Cell Anemia and Cystic Fibrosis, as well as the genetic predispositions to complex diseases like type 2 diabetes and certain cancers. The lecture highlighted the evolution and vast scope of modern genetics, from basic research to its powerful applications in diagnostics, pharmacogenomics, and personalized medicine. A significant portion of her talk was dedicated to the crucial role of genetic counselling. Dr. Jahan described it as an essential bridge between clinicians and patients, emphasizing how counsellors help individuals and families understand complex genetic information, navigate diagnostic options, and make informed decisions about their health. Q&A session was held and faculty members who attended the session shared their research perspectives, and Dr. Jahan suggested submitting initial research proposals. Dr. Jahan also mentioned that she would be happy to participate in mentoring research programs and conducting workshops for training medical graduates. Dr. Kiranmayee P. concluded the meeting by thanking all the members.

2	**Background / Introduction**
	Conducting and publishing health research is an essential endeavor for students, researchers, and academic institutions. It contributes to the advancement of knowledge, informs policy, and drives improvements in public health. However, the path to publication is often complex, time-consuming, and fraught with challenges. Studies show that 6–60% of manuscripts are rejected by journals, frequently due to issues that can be addressed through early guidance and adherence to established best practices. In response to these challenges, this workshop was organized to highlight the most critical best practices in health research publication. It aimed to equip researchers with practical strategies to enhance the quality and impact of their work, increasing their chances of successful publication. In addition to expert guidance, the session also gathered valuable input from participants regarding their specific goals and obstacles. These insights will be used to tailor future workshops and resources to better meet the evolving needs of the research community.

Date: 13-08-2025

Sl. No.	Particulars
1.	**Introduction:** Recognizing the importance of Good Laboratory Practice (GLP) in modern clinical research, the **Clinical Trial Centre** (a unit under the Division of Research & Development Cell), **Sri Devaraj Urs Academy of Higher Education and Research** in association with the **Department of Pharmacology** organized CME on Good Laboratory Practice. This collaborative initiative aimed to promote high standards of clinical research through knowledge sharing and skill development among researchers and healthcare professionals. The event also was organised to commemorate the celebration of National Pharmacology Day on 13th August 2025.
2.	**Proceedings:** **Preamble** **Dr Sarala N,** Professor & HOD, Department of Pharmacology, SDUMC, started the event relating the motive for celebrating the **National Pharmacology Day,** as a tribute to the contributions of Dr. Ram Nath Chopra to Pharmacology and Science, widely regarded as the Father of Indian Pharmacology. This set the tone for the CME session on Good Laboratory Practices, emphasizing its pivotal role in ensuring quality, reliability, and regulatory compliance in non-clinical research. The opening remarks highlighted how GLP principles aligned with OECD (Organization for Economic Co-operation and Development), USFDA, and CDSCO standards to safeguard data integrity (ALCOA+), promote patient safety, and facilitate global acceptance of research outcomes. By linking Dr. Chopra's legacy to modern pharmacological advancements, the preamble reinforced the need for continuous learning, interdisciplinary collaboration, and ethical rigor in India's scientific community. **Speaker 1** Presentation by **Dr. Vyas S,** Dean School of Biosciences, Apeejay Stya University, Haryana on

Good Laboratory Practices Regulations and OECD principles, emphasized that GLP ensures reliable, reproducible non-clinical safety data through standardized OECD guidelines, covering test systems, personnel roles, data integrity and regulatory compliance to prevent misconduct and enhance scientific credibility.

Inauguration:
The event pursued with a soulful invocation rendered by **Dr. Karthik** and the proceedings were gracefully compered by **Dr. Narendra.** The inauguration ceremony was marked by a symbolic gesture of **watering the plant** by all the dignitaries and resource persons, signifying growth and sustainability in clinical research.

Welcome Address:
Dr. Kalyani R, Director of the Research & Development Cell, SDUAHER, extended a warm welcome to the dignitaries of the institution, esteemed speakers, and all participants. With great pleasure, she welcomed everyone to the CME on **Good Laboratory Practice (GLP),** emphasizing that the active participation of all attendees will reflect a shared commitment to maintaining the highest standards in scientific research and clinical excellence.

Opening Remarks:
Dr. B Vengamma, Hon'ble Vice Chancellor, SDUAHER, highlighted the need for and importance of Good Laboratory Practice in the context of research and patient care and advised all the participants to make use of the new knowledge generated from the sessions.

Speaker 1
Second presentation by **Dr Vyas** on **Implementation of GLP regulations** underscored that effective GLP implementation requires compliant facilities with controlled environments, proper personnel training, calibrated equipment, documented SOPs, strict study plan adherence, traceable test items, contamination-free sample handling and readiness for audits to ensure regulatory compliance.

Speaker 2
Dr. Raghunandan HV, Founder and Chief Technical Consultant, RC2 Pharma Solutions, Mysore, delivered a talk on **Requirements for reporting and regulatory approval** which highlighted that GLP compliance is mandatory for regulatory approval of pharmaceuticals, chemicals, and medical devices, requiring adherence to standards like USFDA 21 CFR Part 58 and ISO/IEC 17025. Non-clinical studies (toxicity, PK/PD, etc.) must be conducted in accredited facilities (e.g., India's 61 NGCMA-approved centers) by trained personnel, ensuring ALCOA-compliant data integrity. Study reports must include detailed methodology, raw data, and QA review, with proper archiving of records and retention samples. Compliance with both local and international regulations facilitates faster approval.

	Speaker 3 **Mr C R Ravi**, Technical consultant, Former Director, Abbott Healthcare, Mumbai, delivered a detailed talk on "**Application of GLP principles for testing Medical Devices**" elucidated that GLP principles are critical for preclinical evaluation of medical devices (classified by risk under CDSCO/USFDA), ensuring biocompatibility, safety, and efficacy through vitro, in vivo, and bench testing. Regulatory approval requires GLP-compliant preclinical data, pilot/pivotal clinical studies, and post-marketing surveillance. Proper GLP documentation accelerates reviews, reduces delays, and enhances patient safety by meeting global standards
3.	**Panel Discussion:** The interactive session featured three distinguished speakers who engaged with participants to clarify critical aspects of GLP implementation in regulatory testing and approvals. Through an open dialogue format, the discussion focused on real life issues of applying the GLP principles in preclinical and device assessments, approaches to bring laboratory investigations in line with CDSCO, USFDA and OECD standards and practical preparations to avoid loss of data and compliance penalties. The audience participated with case examples, and the Panelists addressed different case-specific questions, by sharing their multidisciplinary views on the intersection between GLP compliance and Good Clinical Practice (GCP) as well as with the rest of the product lifecycle. The interactive format of the session served as a reminder of the importance of functional perspectives when working within the complex world of regulation.
4.	**Concluding remarks:** This CME has highlighted how Good Laboratory Practices (GLP) serve as the foundation for reliable, reproducible, and regulatory-compliant non-clinical research. By implementing OECD-aligned GLP principles, laboratories ensure data integrity & credibility, regulatory acceptance, risk-based testing and efficient approvals
5.	**Participants & delegates:** A total of 47 members participated in the event
6.	**Certificate Distribution:** Certificates were distributed to all the participants
7.	**Valedictory Ceremony:** Vote of thanks was proposed by Dr. Lavanya S, Organizing Secretary, CME.

Eleventh Event: Monthly seminar

Date: 13-08-2025

Venue: C.V Raman Auditorium III Floor, SDUAHER.

Time: 11.00 AM to 12 Noon

Resource Person: Ms. Glory Mini Mol A, Assistant Professor, Department of Perfusion Technology - SOAHS Manipal

Topic: Role of Perfusionist in Cardiac Surgery & Global opportunities for Perfusionist

Event: Inaugural function

The following dignitaries presided over the function:

- Ms. Glory Mini Mol A, Assistant Professor, Department of Perfusion Technology - SOAHS Manipal
- Dr. C. D. Dayanand, Professor. & Head, School of Allied Health Science.
- Dr. Deena C Harper, Associate Professor, School of Allied Health Science.
- Dr. Usha G Shenoy, Assistant Professor, School of Allied Health Science.

Invited Guest:

Ms. Glory Mini Mol A, Assistant Professor, Department of Perfusion Technology - SOAHS Manipal

Guests of Honour:

SRI G. H. NAGARAJA Chancellor, SDUAHER & Chairman SDUET Kolar

SRI. J. RAJENDRA, Vice President, SDUET, Kolar

SRI. K. G. HANUMANTHA RAJU, Secretary, SDUET

- Ms. Duvvuru Greeshma
- Ms. Yogitha S
- Mr. Akash T
- Mr. Sabeer S
- Ms. Shalini S
- Ms. Byrisetty Madhavi
- Ms. Shakeela B
- Ms. Nithyasri N
- Mr. Franklin John

- The event commenced with a warm welcome by Vyshnavi,3rd year CPT student, who expressed the pleasure of hosting the Eleventh Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Ms. Hoor Saba 3rd Year, CPT student, introduced the chief guest.

- **Speaker**: Ms. Glory Mini Mol A, Assistant Professor, Department of Perfusion Technology - SOAHS Manipal

Topic: Role of Perfusionist in Cardiac Surgery & Global opportunities for Perfusionist

Rapporteur report:

- Ms. Glory Mini Mol A, Assistant Professor, Department of Perfusion Technology - SOAHS Manipal**,** delivered an engaging and insightful talk on the theme.
- Explained the role of perfusionist in cardiac surgery & various other setup.
- Explained the role of perfusionist in intensive care unit
- Explained the role of perfusionist in transplantation.
- Shared about the growing demands.
- The growth and popularity of ECMO and ECPR in India.
- Shared information about global opportunities & demands

- Emphasized the scope for research in perfusion field.
- Explained & highlighted about the competencies for various roles of perfusion technology.
- Explained about various certifications available for global opportunities.
- Explained the requirements for the job opportunities abroad
- Explained the importance of additional skills to enhance the weightage of CV.
- Explained the importance of higher studies and research.
- Explained about various myths regarding the women's role in perfusionist.
- Also gave an outline about the salary packages worldwide.

- Ms. Yogitha S, Lecturer of Microbiology, School of Allied Health Science, SDUAHER gave vote of thank.

- The resource person was handed over certificate of appreciation.
- Raised for National Anthem.

REPORT ON CULTURAL PROGRAM "UNITED INDIA; DIVERSIFIED CULTURE"

The Department of Clinical Nutrition and Dietetics, SDUAHER, successfully organized a cultural program on the occasion of 79th Independence Day titled "United India Diversified Culture" on 12th August 2025 from 10:00 am to 4:00 pm. The event aimed to celebrate the rich cultural heritage of India and promote the spirit of unity in diversity among students.

The theme "United India Diversified Culture" depicted India is a land of unity in diversity, where people of different languages, religions, traditions, and cultures live together as one nation.

The program began with a **welcome address at 10:00 AM**, followed by a series of cultural competitions:

- **Poster Presentation (Theme: Duty-Bound to the Nation)** – Students showcased their creativity and patriotism through thought-provoking posters.
- **Speech Competition (Theme: Pride in Our Heritage)** – Participants delivered inspiring speeches highlighting India's rich traditions and cultural values.
- **Solo and Group Songs (Theme: Spirit of Freedom)** – Melodious performances filled the auditorium with patriotic feeling.
- **Solo and Group Dance (Theme: True to the Soil)** – Students presented graceful and energetic dances reflecting India's unity in diversity.
- **Skit (Theme: Love for the Motherland)** – A powerful performance conveyed the importance of patriotism and responsibility towards the nation.

The event not only provided a platform for students to express their creativity but also fostered teamwork, confidence, and cultural awareness. Faculty members and students actively participated, making the program lively and memorable. All students actively participated with great enthusiasm, reflecting the spirit of Independence Day. The program concluded with the distribution of certificates and prizes to the winners of various cultural competitions, appreciating their efforts and enthusiasm.

Overall, "United India and Diversified Culture" was a grand success, inspiring students to cherish and preserve the nation's cultural wealth while strengthening the bond of unity.

Ms. Sara Suzain and Ms. Chandana hosted the Cultural Program under the theme of "United India; Diversified Culture"

Poster Presentation

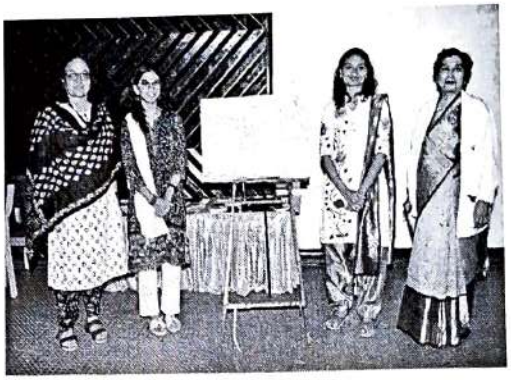

The cultural program commenced with a **Poster Presentation** on the theme **"Duty Bound to Nation"**. The event was organized on **12th August 2025 at 10:00 AM in the PG Auditorium** and witnessed enthusiastic participation from students. The aim of the competition was to encourage creativity, patriotism, and awareness about the responsibilities of every citizen towards the nation.

A total of **four teams** took part in the event, each presenting unique ideas and artistic skills through their posters. **Students actively participated in the competition with great enthusiasm and commitment,** making the event more lively and meaningful.

The participating teams were:

1. Hani Farnaz & Kubra Fathima (Bsc. 2nd year)
2. Sara Suzain & Syeda Nimra Tasneem (Bsc.1st year)
3. Krishna Raj & Avinash Nandan (Bsc. 1st year)
4. Thanu.T & Sonika.V (Bsc. 2nd year)

The posters were evaluated based on creativity, relevance to the theme, presentation, and overall impact. The judging panel consisted of **Dr. Deena Harper and Dr. Anjali** who appreciated the efforts of all the participants.

Speech

The cultural program continued with a **Speech Competition** on the theme **"Pride in Our Heritage"**. The event was held on **12th August 2025 at 11:00 AM in the PG Auditorium** and provided a platform for students to showcase their oratory skills while reflecting on the richness of our cultural legacy.

A total of **five participants** took part in the competition, each presenting their ideas with confidence and clarity. **Students actively participated in the event with great enthusiasm, highlighting the importance of preserving and celebrating our heritage.**

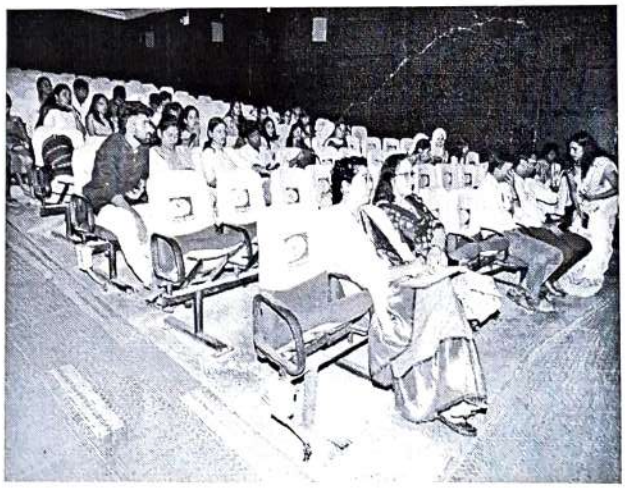

The participants were:

1. Meruna.K.M (Bsc.1st year)
2. Hani Farnaz (Bsc.2nd year)
3. Sara Suzain (Bsc.1st year)
4. Thanu.T (Bsc.2nd year)
5. Reshma.A (Bsc.3rd year)

The speeches were evaluated based on content, expression, confidence, and relevance to the theme. The competition was judged by **Dr. Deena Harper and Dr. Anjali** who appreciated the sincere efforts and encouraged the students.

Solo Song

The cultural program featured a **Solo Song Competition** on the theme **"Spirit of Freedom"**, held on**12th August 2025 at 12:00 PM in the PG Auditorium**. The event gave students an opportunity to showcase their vocal talent and express the emotions of patriotism through music.

A total of **three participants** performed patriotic songs, each highlighting the spirit of independence and national pride. **Students actively participated with passion and melody, filling the atmosphere with patriotic feeling.**

The participants were:

1. Chalana.R
2. Athulya.R.S
3. Kusumitha.B.N

The competition was judged by **Dr. Usha G Shenoy and Dr. Charulatha** who evaluated the participants on voice quality, expression, song choice, and overall presentation. The judges praised the efforts of the singers and motivated them with encouraging remarks.

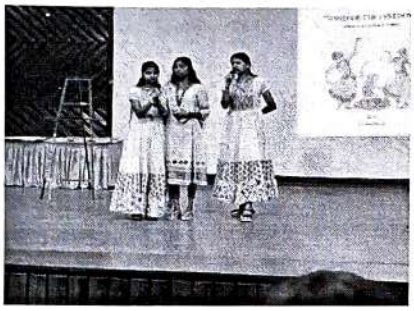

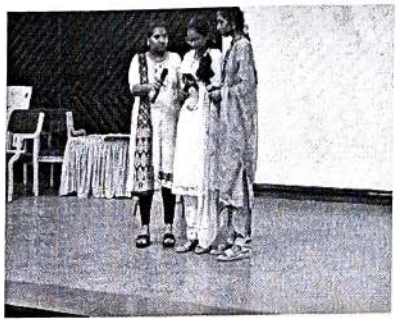

Group Song

Following the solo performances, the program moved on to the **Group Song Competition** with the theme **"Spirit of Freedom."** The event was held on **12th August 2025 at 12:30 PM in the PG Auditorium** and created a harmonious environment where voices blended to celebrate independence. A total of **four groups participated** in the competition, each delivering powerful patriotic renditions that showcased teamwork, unity, and musical talent. **Students actively participated with enthusiasm and harmony, reflecting the essence of freedom and togetherness.**

The participating groups were:

1. Khousen Pasha.Y, Noor Shabi & M.A.Fathima
2. Bhuvana, Vandana.P & Athulya.R.S
3. Shalini.C.R, Lakshmi & Deepa.B.M
4. Meruna.K.M, Chalana.R & Chandana.S

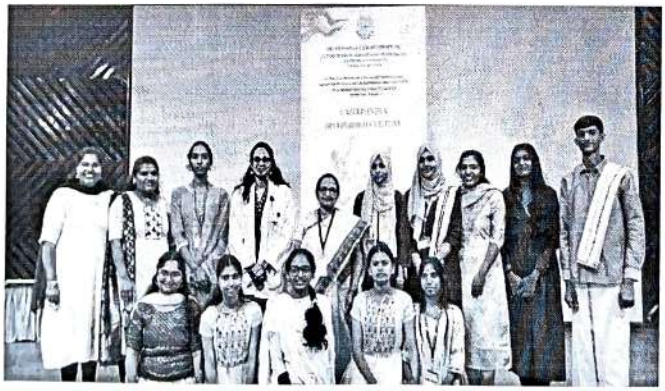

The groups were judged by **Dr. Usha G Shenoy and Dr. Charulatha** based on synchronization, melody, coordination, relevance to the theme, and stage presence. The judges appreciated the collective effort of the teams and commended their performances.

Solo Dance

The cultural program included a vibrant **Solo Dance Competition** based on the theme **"True to the Soil"**, organized on 12th **August 2025 at 2:30 PM in the PG Auditorium**. The competition encouraged students to express their connection to culture and traditions through classical and contemporary dance forms.

A total of **four participants** performed with confidence and creativity, each narrating stories of patriotism, tradition, and love for the motherland through graceful movements. **The participants showcased remarkable enthusiasm and talent, making the event lively and memorable.**

The performers were:

1. Seetha Lakshmi (Bsc. 1st year)
2. Sona.S (Bsc. 2nd year)
3. Abhinaya.L (Bsc. 2nd year)

The event was judged by **Dr. CD Dayanand and Dr. Deena Harper,** who evaluated the participants on choreography, expression, stage presence, and theme presentation. The judges appreciated the variety of styles and applauded the dedication of the performers

Group Dance

Another highlight of the cultural program was the **Group Dance Competition** on the theme **"True to the Soil."** Conducted on 12th **August 2025 at 2:30 PM in the PG Auditorium** the event added energy and vibrancy to the celebrations.

A total of **two groups participated**, delivering powerful and synchronized performances that depicted unity, cultural richness, and love for the nation. **Students participated with zeal and perfect coordination, spreading a strong message of patriotism and rootedness to the soil.**

The groups were:

1. Seetha Lakshmi, Aswini & Vandana.N,
2. Sona.S, Vandana.P, Yamuna.B, Avani.P & Sneha.R

The judging panel, comprising **Dr. CD Dayanand and Dr. Deena Harper** assessed the teams based on synchronization, expressions, choreography, costumes, and overall impact. The judges were impressed with the teamwork, creativity, and the way the theme was brought alive through dance.

The group dance competition concluded with much applause from the audience, adding a colourful and unifying note to the cultural program.

Skit

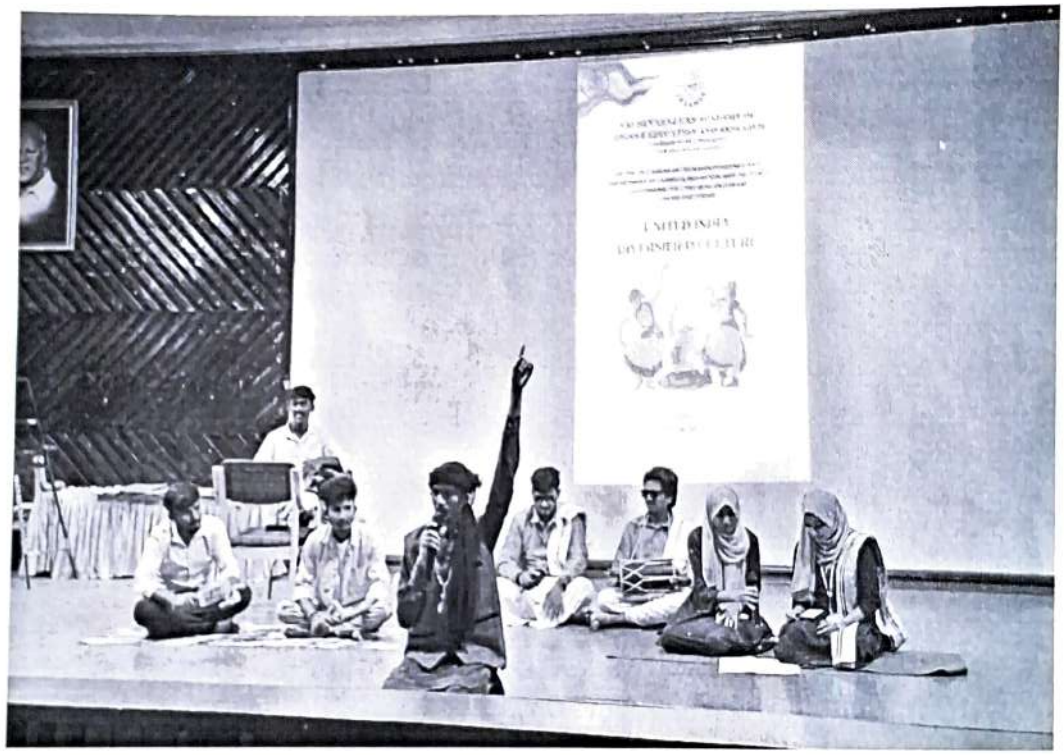

The cultural program also featured a **Skit Performance** on the theme **"Love for the Motherland"**, organized on 12th **August 2025 at 3:30 PM in the PG Auditorium.** The purpose of the event was to instill patriotism and highlight the responsibilities of citizens through drama and enactment.

Unlike other events, this segment had **one group participation,** where students presented a thought of provoking and emotional skit. **The participants actively performed with dedication, using expressions, dialogues, and actions to portray the spirit of love and sacrifice for the nation.**

The participants were:

- Khousen Pasha.Y, Avinash Nandan, Vijendra.J, Yashwanth.C.S, Koushik, Linge Gowda.C.A, Poojith, Noor Shabi, M.A. Fathima.

The skit concluded with loud applause from the audience, leaving a deep impact on everyone and making it a memorable highlight of the cultural program.

Prize Distribution

The cultural program concluded with the **Prize Distribution Ceremony**, which was graced by **Dr. Aravind Natrajan, Dean FA&HP**. He distributed the cash prizes (Rs.1000 for winners and Rs. 500 for Runners) and certificates to the winners and Runners of all events — Poster Presentation, Speech, Solo Song, Group Song, Solo Dance, Group Dance, and Skit.

1. Poster Presentation

1st Prize (Hani Farnaz & Kubra Fathima)

2nd Prize (Sara Suzain & Syeda Nimra Tasneem)

2. Speech

1st Prize (Sara Suzain)

2nd Prize (Hani Farnaz)

3. Solo Song

1st Prize (Chalana.R)

2nd Prize (Athulya.R.S)

4. Group Song

1st Prize (Athulya & Group)

2nd Prize (Khousen & Group)

5. Solo Dance

1st Prize (Seetha Lakshmi)

2nd Prize (Sona.S)

6. Group Dance

1st Prize (Sona & Group)

2nd Prize (Seetha & Group)

7. Skit

Special Prize

Following the distribution of prizes, Dr. Aravind Natrajan delivered an inspiring speech.

In his address, he congratulated the winners and acknowledged the enthusiastic participation of all students. He emphasized the importance of cultural activities in developing creativity, confidence, and teamwork along with academic excellence. He also reminded the students of their duty towards the nation and encouraged them to uphold values of discipline, unity, and patriotism in their lives.

His motivating words left a lasting impression on the audience and added significance to the conclusion of the cultural celebrations. The event ended with applause, joy, and a renewed spirit of dedication among the students.

REPORT ON STUDENT SENSITIZATION PROGRAM ON PERSONALITY DEVELOPMENT

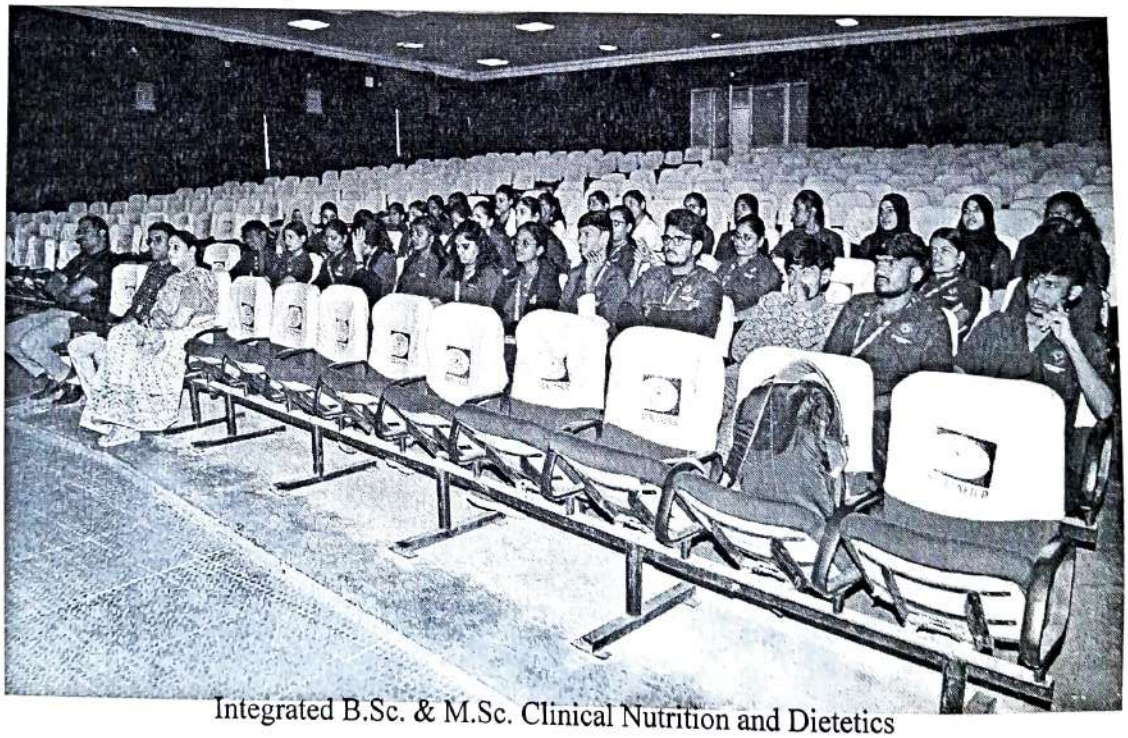

11.08.2025

The Department of Clinical Nutrition and Dietetics, in collaboration with the Career Counselling and Placement Cell, organized a Student Sensitization Program on Personality Development on 11th August 2025, from 10:30 a.m. to 1:30 p.m. The program was conducted for all batches of Integrated B.Sc. and M.Sc. Clinical Nutrition and Dietetics students at SDUAHER.

The primary objective of the program was to enhance the overall personality of students by developing key skills such as communication, professional etiquette, teamwork, leadership, time management, and other essential soft skills required for personal and professional growth.

The session comprised a series of engaging and interactive components, including presentations, expert lectures, hands-on activities, role plays, group discussions, and video demonstrations on teamwork. These activities were designed to provide both theoretical insights and practical exposure, enabling students to apply the learned skills in real-life situations.

The program received active participation from all attendees and successfully created an encouraging platform for students to reflect on their strengths, identify areas of improvement, and work towards becoming competent and confident professionals.

Integrated B.Sc. & M.Sc. Clinical Nutrition and Dietetics

Ms. Priyanga S, Lecturer, delivered the Welcome address during Inaugural Session

Welcoming the Guest speaker Dr. Pallavi Hoskote, MBBS, MBA, Director of Medileaders &

Dr. Shivakumara C S, I/c HOD, Department of Clinical Nutrition and Dietetics, SDUAHER

Welcoming the Dr. Satish A, Placement officer, SDUAHER

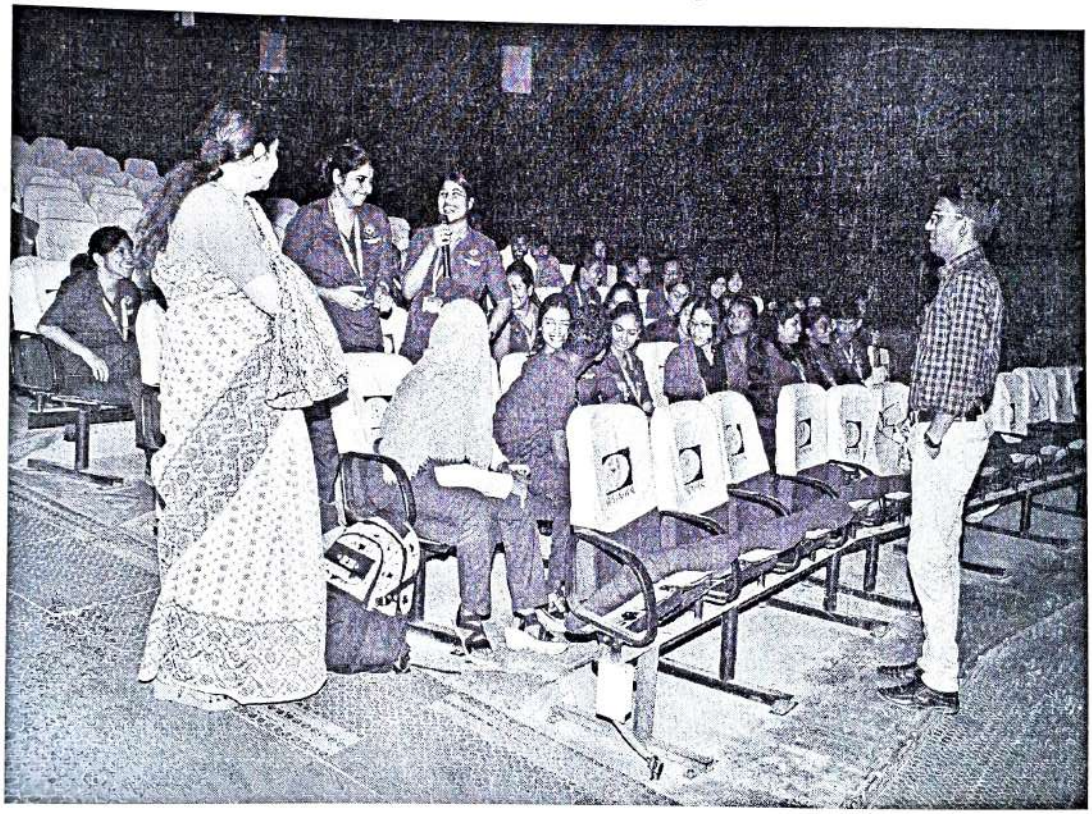

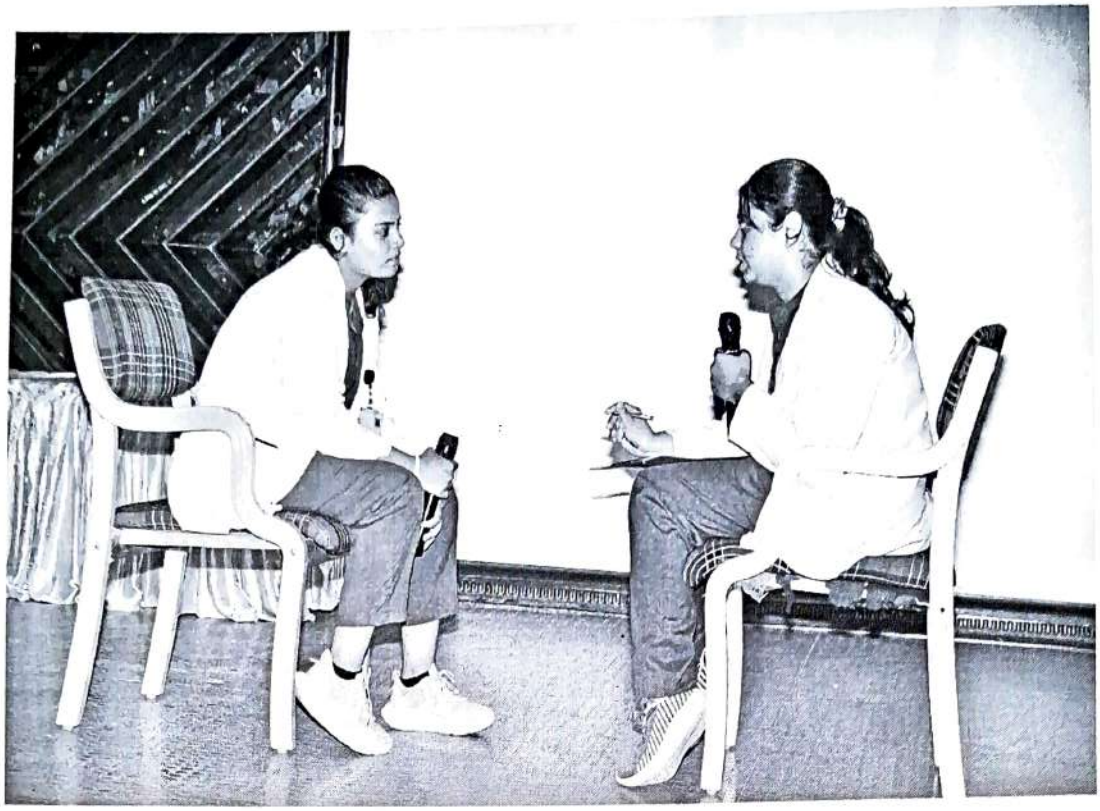

Dr. Pallavi Hoskote, Guest Speaker, delivered speech on Soft skill Development

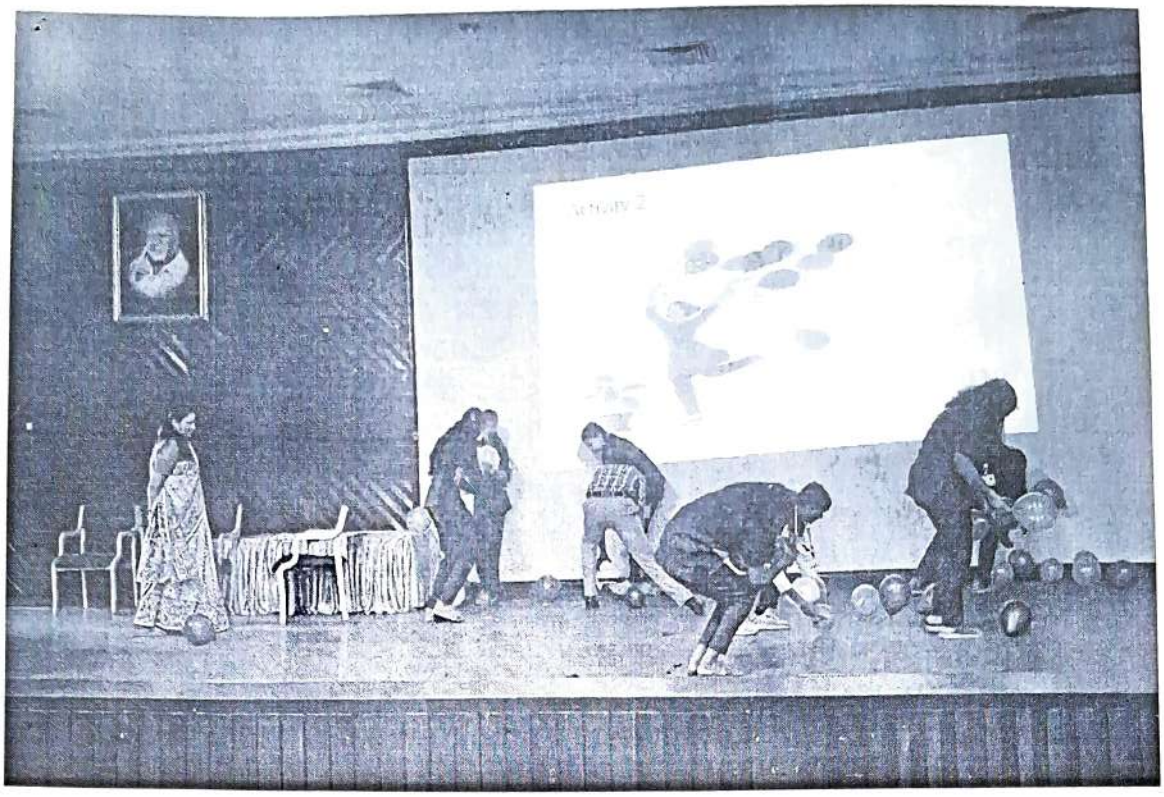

Dr. Pallavi Hoskote interacting with students to develop the communication skills

Students are participating in the Role play –
one acted as a Dietitian and other acted as a patient

Students Participated in the activity to build the team work and leadership skill

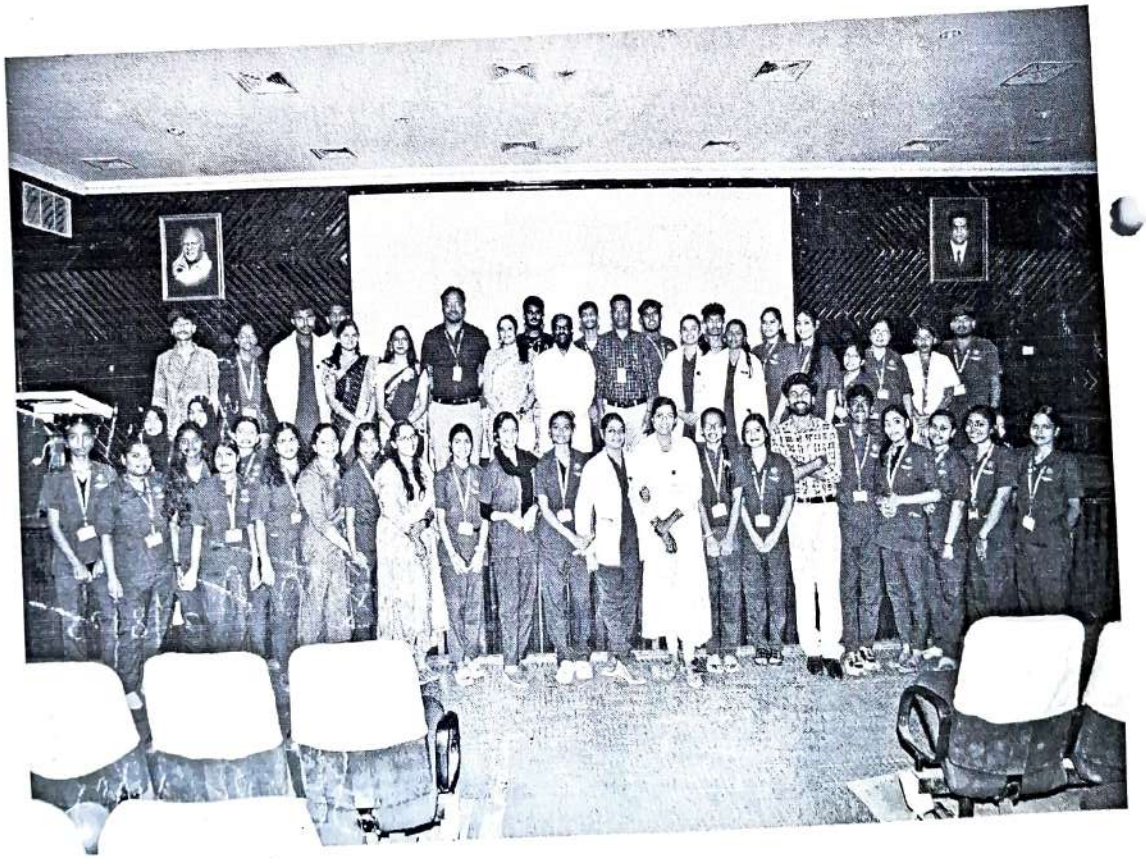

Dr. C D Dayanand, Director of CARE honoured the guest Speaker, Dr. Pallavi Hoskote with the token of appreciation.

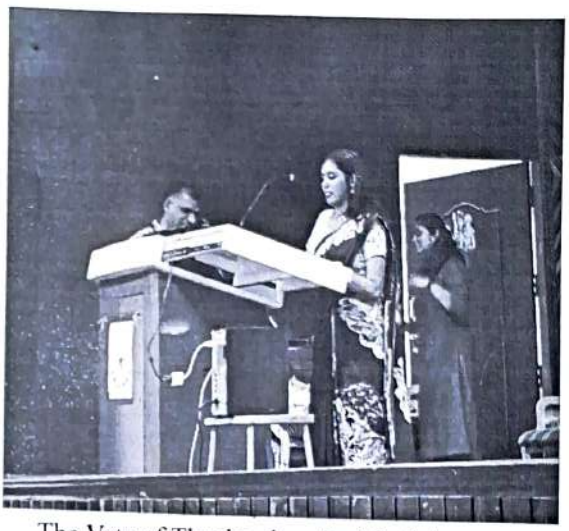

Dr. C D Dayanand, Director of CARE honoured the guest Speaker, Dr. Pallavi Hoskote with the token of appreciation.

	To commemorate the centenary celebration of Sri. R. L. Jalappa, Founder Chairman, SDUAHER, Kolar, the University Library Learning Resources Centre SDUAHER, organised the workshop on **"How to Use Access Medicine- McGraw-Hill".** The program started with a **welcome speech** by Dr. Ujval M., Asst. Professor. Dept. of ENT SDUMC, Lib. Committee Member. Dr. Prof. B.Vengamma, Hon`ble Vice-Chancellor, SDUAHER, Kolar inaugurated the workshop. Medical learning resources are vital for all healthcare professionals to strengthen their knowledge of medical subjects. In today's digital era, e-resources play an important role because of their accessibility, convenience, and ability to deliver the most up-to-date information for education, clinical practice, and research. Our library currently provides access to leading digital medical platforms, including ClinicalKey – a comprehensive clinical reference with textbooks, journals, guidelines, and multimedia. UpToDate – an evidence-based, point-of-care resource widely used for clinical decision support. AccessMedicine – recently added to our collection, this premier digital platform offers authoritative, current, and interactive medical content designed to support students, educators, and healthcare professionals. Dr. Muninaraya C., Registrar, SDUAHER, emphasized the importance of training sessions that provide practical tips and tricks for effectively using AccessMedicine. He highlighted that such training will greatly enhance users' ability to acquire and apply medical knowledge. Dr. Prabhakar K., Principal, SDUMC, urged stakeholders to utilise the subscribed e-resources in their day-to-day teaching activities actively. He emphasized that consistent use of these tools will enrich both teaching and learning outcomes. He further stated that optimum use of these resources requires the Librarian to conduct department-level orientations for all stakeholders, including MBBS students of SDUMC, and encouraged publishers to organize

	such training programs. He also congratulated the Library team for their efforts in enhancing access to digital learning resources.
3	**Venue: Dr. B.C.Roy Seminar Hall, ULLRC, SDUAEHR**
4	**Sponsors**
	ULLRC, SDUAHER
5	**Inauguration**
	Welcome Address by Dr. Ujval.M, Asst. Professor. Dept. of ENT SDUMC, Lib. Committee Member. Dr. (Prof.) B.Vengamma, Hon`ble Vice-Chancellor, SDUAHER, Kolar & Dr. Prabhakar K. Principal, SDUMC, inaugurated and enlightened the workshop.
6	**Speakers / Judges / Chairman / Panel Team** Mr. Vasanth Senior Customer Success Specialist at McGraw- Hill Dr. Prakash, Asst. Professor / Librarian, ULLRC, SDUAHER, Kolar,
7	**Participants & Delegates in Number:**
	290
8	**Awards / Prices:**
9	**Valedictory** To conclude Mr. Devaraj B.V., Deputy Librarian delivered the vote of thanks.
10	**Any Other Information**
	Programme Co-ordinator: Dr. Prabhakar K, Principal, SDUMC Dr. Prakasha Librarian, ULLRC, SDUAHER Mr. Devaraj B.V, Deputy Librarian, ULLRC, SDUAHER Mr. Ganga Reddy. A, Asst. Librarian, ULLRC, SDUAHER Mrs. Udayavani.G, Asst. Librarian, ULLRC, SDUAHER Ms. Amrutha M. Asst. Librarian, SDUCON Ms. Shamala M. Asst. Librarian, SDUCON Mr. Sudeep D.K. Librarian, RLJCOP, SDUAHER

Name of Event: Breast feeding week (1st to 7th August, 2025)
Name of Department: PAEDIATRICS

Sl. No	Event Report
1.	Level of Event – Institution
Breast feeding week	
2.	Background / Introduction
"Breast feeding week" campaign is celebrated every year in the first week of August, to support all the breast feeding mothers. It highlights the role of family and society in supporting the mother. As health care professionals, it is our duty to educate the mother, her family and the society about the importance of breast feeding. The current activities are planned to spread this awareness and close the gaps in promotion of Breastfeeding. This year theme is "Prioritize Breastfeeding: Create Sustainable Support Systems"	
3.	Venue –Post natal wards, HDU, PG Seminar Hall, PG Auditorium (CV Raman Hall), Gandhinagar Anganwadi , PHC Avani.
4.	Sponsors – SDUAHER
5.	Inauguration –Dr Vengamma B Vice Chancellor, Dr Muninarayana Registrar, Dr Prabhakar K Principal, Dr.Krishnappa J Medical Superintendent, Dr.Sudha Reddy V R, Professor and HoD, Department of Paediatrics, Dr Vijayalakshmi G Nursing college Principal, Dr Lavanya Nursing Vice Principal.

- The event commenced with a warm welcome by Mr. Christy, 6th semester ATOT Student, who expressed the pleasure of hosting the ninth Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Ms. Byrisetty Madhavi, Lecturer of ATOT, introduced the chief guest.

Speaker Dr. Sahana S Murthy, Assistant Professor, Department of Psychiatry, R L Jalappa Hospital and Research Centre

Topic: Stress Management in Students.

Rapporteur report:

Dr. Sahana S Murthy, Assistant Professor, Department of Psychiatry, R L Jalappa Hospital and Research Centre, delivered an engaging and insightful talk on the theme.

Stress is the way human beings react both physically and mentally to changes, events, and situations in their lives. People experience stress in different ways and for different reasons. The reaction is based on your perception of an event or situation. If you view a situation negatively, you will likely feel distressed—overwhelmed, oppressed, or out of control. Distress is the more familiar form of stress. The other form, eustress, results from a "positive" view of an event or situation, which is why it is also called "good stress."

Causes of Stress:

Common Sources of Stress in Students

- **Academic pressure**: Exams, assignments, grades, deadlines
- **Time management issues**: Balancing study, extracurriculars, part-time jobs
- **Social pressure**: Friendships, peer comparisons, bullying
- **Family expectations**: Pressure to succeed or choose certain careers
- **Uncertainty**: Future plans, college admissions, or job opportunities
- **Health habits**: Poor sleep, bad diet, little exercise

Effects of Stress on Students:

1. **Physical Effects:**
   - Fatigue
   - Headaches, stomach-aches
   - Sleep problems
   - Weakened immune system
2. **Emotional Effects:**
   - Anxiety, depression

- Mood swings or irritability
- Low self-esteem

3. **Behavioral Effects:**
   - Lack of motivation
   - Withdrawal from activities or friends
   - Unhealthy habits (overeating, skipping meals, excessive phone use)
4. **Academic Effects:**
   - Decreased concentration and memory
   - Poor performance in exams or class
   - Avoidance of school or assignments

Effective Stress Management Techniques for Students

1. Time Management

- Use a planner or app to track classes, assignments, and exams

- Break large tasks into smaller steps (use the Pomodoro technique: 25 mins work, 5 mins rest)
- Prioritize with the “must do” vs. “nice to do” method

2. Healthy Study Habits

- Study in a distraction-free environment
- Take breaks every hour to avoid burnout
- Don’t cram the night before—start revision early and space it out

3. Self-Care Routine

- **Sleep**: Aim for 7–9 hours per night—avoid all-nighters
- **Exercise**: Even 15–30 minutes daily can improve mood and focus
- **Nutrition**: Eat regular meals; avoid junk food and too much caffeine

4. Emotional & Mental Strategies

- **Mindfulness or meditation**: Apps like Headspace, Calm, or Insight Timer can help
- **Deep breathing exercises**: Useful before tests or presentations
- **Positive self-talk**: Replace “I’ll fail” with “I’m doing my best and improving”
- **Talk to someone**: Friends, school counsellor, or a mental health professional

5. Academic Support

- Don’t hesitate to ask teachers or tutors for help
- Join study groups (they can reduce workload and offer support)

- Ms. Duvvuru Greeshma, Lecturer of microbiology, School of Allied Health Science, SDUAHER gave vote of thank.

- The resource person was handed over certificate of appreciation.

- Raised for National Anthem.

- **Group Photo**

Name of Event: CBee L.I.V.E.: Learn. Impact. Visualise. Execute.

Name of Department: Medical Students Association of India (MSAI) in collaboration with Institution's Innovation Council, SDUAHER and Research and Innovation Cell, SDUAHER

Date of conduct of the event: 26-07-2025

Sl. No	Event Report
1.	Level of Event – Institutional level
2.	Background / Introduction
CBee LIVE is a capacity-building workshop curated specifically for medical students to equip them with essential soft skills that are often underrepresented in traditional medical education. Recognising that communication, leadership, negotiation, and critical thinking are as vital as clinical expertise, this workshop was designed to foster personal and professional development in a structured and meaningful way. Participants actively engaged in simulations, small group discussions, team-based tasks, and reflective exercises. Each session was designed not just to deliver theoretical concepts, but to translate them into real-world application—fostering both self-confidence and collaborative capability.	
3.	Venue
University Library AV Hall, 1st floor, University Library Learning Resource Centre, SDUAHER	

4.	Sponsors: NIL
5.	Inauguration

In the presence of Dr. Kalyani R., Director - Research and Development Cell, SDUAHER, and Dr. Ashwini, Chief Coordinating Officer, Institution's Innovation Council, Dr. Shobet Saxena (Final year Orthopedic PG,SDUMC) , Dr. Chaitra B A (Vice President for Finances, MSAI) , Mr. Dipak Raj (Regional Director South for Capacity Building, MSAI), and Mr. S. Kaushik (Final year MBBS student , SDUMC) the program was inaugurated by watering of the plant from the dignitaries along with the members of MSAI and students.

6.	Event Proceedings

The workshop began with introductory activities and icebreakers that helped participants connect with facilitators and peers, laying the groundwork for a collaborative learning environment. This was followed by a series of interactive sessions covering essential soft skills:

Effective Communication: Techniques involving verbal and non-verbal communication, active listening, and giving/receiving feedback.

Leadership Development: Understanding leadership roles, styles, and how they differ from other functions within a team.

Gamification in Learning: Exploring how games and simulations can enhance participation, engagement, and leadership development.

Critical Thinking: Strengthening decision-making through structured reasoning and reflective analysis.

Strategic Planning: Learning how to set goals, plan actions, and assess outcomes effectively.

Public Speaking: Developing impactful delivery, structuring content, and engaging with an audience meaningfully.

Negotiation: Understanding negotiation frameworks, practicing scenario-based techniques, and exploring conflict resolution.

Following the sessions, a structured feedback and assessment form was administered to capture insights and areas for improvement. Participants were also provided with post-workshop reading materials to continue their learning journey.

In addition to the high-quality academic experience, participants appreciated the excellent food arrangements provided throughout the day, which contributed to the overall comfort and positive atmosphere of the workshop.

CBee LIVE successfully met its objective of empowering future healthcare professionals with foundational skills that support holistic development. It served

as a platform to inspire leadership, empathy, and innovation within medical communities.

The event proudly aligned with the vision of SDG 4: Quality Education promoting inclusive, equitable, and quality education and lifelong learning opportunities for all. This initiative stands as a significant step in strengthening the future medical workforce by focusing not only on knowledge, but also on the character, skills, and presence required to make a meaningful impact in the field of healthcare.

7.	Participants & Delegates

The one-day workshop was conducted on 26 July 2025 at Sri Devaraj Urs Medical College, Kolar. It welcomed 20 participants, including 10 students from SDUAHER and 10 external delegates from various institutions across South India.

Date of conduct of the event: 25-07-2025

Sl. No	Event Report
1.	Level of Event – Institutional level
2.	Background / Introduction
A guest lecture was organized on 25th July 2025 at 9:30 AM as part of the Ideathon 2025 initiative, featuring an insightful session by Dr. Anand Thirunavukarasou, Head of the Sri Ramachandra Innovation Incubation Centre (SRIIC) at SRIHER (Deemed to be University). The topic of the lecture was "Startup Funding Opportunities and Strategies for Perfect Pitching." Dr. Anand is the founder of B-Aatral Bioscience Pvt. Ltd., a company pioneering PROTAC-based drug discovery for Acute Myeloid Leukemia. Additionally, he established the Empowering Science Foundation, a not-for-profit organization that has trained over 6000 students through skill development programs, internships, and mentorship opportunities in life sciences.	
3.	Venue
R L Jalappa Silver Jubilee Auditorium, 2nd floor, University Library Learning Resource Centre, SDUAHER	

4.	Sponsors: NIL
5.	Inauguration

In the presence of our Honorable Vice Chancellor, SDUAHER DR. B. VENGAMMA, DR. MUNINARAYA. C, Registrar, SDUAHER; Organizing chairman Dr. Kalyani R, Director, R & I Cell, SDUAHER; with organizing secretaries of the event Dr. Ashwini N S, all the members of Institution's Innovation Council, SDUAHER were present along with the faculty and students of SDUAHER. The program was inaugurated by water of the plant from the dignitaries.

6.	Speaker

Dr. Anand holds a Ph.D. in Cancer Stem Cell Biology from Pondicherry Central University and completed his postdoctoral research at the National Institutes of Health (NIH), USA, in the domain of aging and telomere biology. He has served as a scientist at the Tata Institute for Genetics and Society in Bangalore. In addition to his scientific career, he has also earned an MBA in Clinical Research Management.

7.	**Event Proceedings:**

During the session, Dr. Anand elaborated on the various government and private funding channels available for start-ups, practical strategies for crafting compelling pitches, and shared real-world insights into translating innovative ideas into successful entrepreneurial ventures. The session was highly interactive and well-received by aspiring student innovators, equipping them with both inspiration and actionable guidance.

8.	Participants & Delegates

The students of 3rd MBBS, SDUMC; 2nd year UG students from SDUCON and R L Jalappa College of physiotherapy and the students of AHS & BS of SDUAHER along with the faculty members of the SDUAHER attended the event.

9.	Prize Distribution etc....

Dr. Anand Thirunavukarasou was presented with a memento and a certificate of appreciation for conducting the guest lecture from SDUAHER.

10.	Valedictory Ceremony

The event concluded with a vote of thanks from Dr. Ashwini N S, Chief Coordinating Officer, IIC, SDUAHER.

Sir,

Sub: Submission of Cultural Heritage Visit Report – ISKCON Temple (25-07-2025) – reg.

With reference to the above subject I am herewith submitting the report of our Cultural Heritage Visit to the ISKCON Temple, conducted on 25th July 2025. This visit was organized to provide students with an opportunity to explore and understand India's rich cultural, spiritual, and architectural heritage.

The report includes detailed observations, photographs, and reflections on the significance of the temple's cultural and spiritual contributions. It was an enriching experience that allowed us to appreciate the integration of tradition, devotion, and community service promoted by ISKCON.

Thanking you

5	**Any Other Information**
	Cultural Heritage visit Report has been attached below for further Information

On 25th July, 2025, The students of II and VI Semester B.Sc. Clinical Nutrition and Dietetics from Sri Devaraj Urs Academy of Higher Education and Research visited the ISKCON Temple as part of a cultural heritage visit which linked to holistic development or cultural competence. The group was accompanied by faculty members Dr. Satish A and Ms. Priyanga S.

The objective of the visit was to provide students with exposure to India's rich cultural and spiritual heritage and to promote holistic development beyond academics. The ISKCON Temple, known for its spiritual ambiance and architectural beauty, served as a meaningful destination for this purpose.

During the visit, students explored the temple premises, observed traditional rituals, and experienced the peaceful atmosphere. The visit helped them connect with aspects of Indian culture, values, and spirituality. The environment provided an opportunity for students to relax, reflect, and enjoy time away from their regular academic schedules.

Although the visit did not only focus on the academic curriculum, it was an enriching experience that contributed to the overall development of the students. It also strengthened the bonds among peers and between students and faculty in an informal setting.

The students thoroughly enjoyed the trip and expressed appreciation for the initiative. The visit was well-organized and successfully met its objective of cultural exposure.

5	**Any Other Information**
	Industrial visit Report has been attached below for further Information

On 25th July 2025, 2nd Sem and 6th Sem students from the Department of Clinical Nutrition and Dietetics visited the Akshaya Patra Foundation, Bangalore, as part of their academic curriculum in Food Service Management and Institutional Food Administration as shown in figure. accompanied by faculty Dr. Satish A and Ms. Priyanga S.

The visit provided first-hand exposure to large-scale food production, where the foundation prepares 75,000 meals in under four hours using automated cooking vessels, conveyor systems, and stringent hygiene protocols. Students observed GPS-enabled distribution to over 2,000 schools, quality control measures including sterile equipment and staff protective gear, and the implementation of nutritionally balanced, region-specific menus

under the PM POSHAN Scheme. This operational model—serving 2 million+ children daily across 65+ kitchens—demonstrated efficient resource management and scalability.

The experience highlighted critical linkages between nutrition, education, and community development. Students learned how Akshaya Patra's public-private partnership boosts school attendance (particularly for girls), creates 10,000+ livelihoods, and supports local farmers while maintaining Harvard-recognized operational excellence. The visit underscored the transformative role of technology and disciplined processes in humanitarian work, offering invaluable insights into industrial food service management, waste reduction, and nutritional equity. The department expresses gratitude to the university leadership and Akshaya Patra team for this impactful academic opportunity.

Event Report: Soft Skills Development Workshop

Event Name: Soft Skills Development

Resource Person: Mr. Damodar Rao

Purpose: To improve communication, creative thinking, critical thinking, decision-making, emotional intelligence, problem-solving, soft skills, and hand skills

Date: 18th July 2025

Time: 2:00 PM

Venue: Seminar Hall, R.L Jalappa College of Physiotherapy

Attendees: 60 Students of Bachelor of Physiotherapy (BPT)

The Soft Skills Development Workshop was conducted on 18th July 2025, aimed at enhancing various aspects of soft skills for the students of the Bachelor of Physiotherapy program. The workshop, organized by R.L Jalappa College of Physiotherapy, aimed to equip the students with the necessary tools to improve their communication, creative thinking, critical thinking, emotional intelligence, problem-solving abilities, and hand skills, which are essential for both their personal and professional growth.

Resource Person

The session was led by **Mr. Damodar Rao**, an expert in soft skills training, known for his vast experience in helping students and professionals improve their interpersonal skills and decision-making abilities. Mr. Rao engaged the students with insightful examples, interactive activities, and real-world applications, ensuring that the workshop was both practical and engaging.

Workshop Objectives

The key objectives of the workshop were to:

- Improve **communication skills**, focusing on both verbal and non-verbal communication.
- Foster **creative and critical thinking**, enabling students to approach problems in innovative ways.
- Enhance **decision-making abilities**, preparing students for complex scenarios they might face in their careers.
- Develop **emotional intelligence** to better manage interpersonal relationships.
- Strengthen **problem-solving skills** to handle real-life challenges effectively.
- Sharpen **hand skills**, crucial for hands-on practice in physiotherapy.

Session Highlights

- **Introduction to Soft Skills**: The workshop began with an overview of soft skills and their importance in the field of physiotherapy. Mr. Rao emphasized how essential these skills are in patient care and professional interactions.
- **Communication Techniques**: Various communication models were discussed, and the students were involved in role-playing activities that helped improve their listening, speaking, and body language skills.
- **Creative and Critical Thinking**: Students were presented with challenging scenarios where they had to think creatively and critically to arrive at the best solutions. This segment encouraged active participation and deep thought.
- **Emotional Intelligence and Problem-Solving**: Mr. Rao conducted an activity where students were asked to respond to emotionally charged situations, guiding them on how to manage their emotions and make decisions under pressure. This part was followed by a discussion on effective problem-solving techniques.
- **Interactive Activities**: The session included multiple hands-on exercises designed to enhance hand skills and foster teamwork. These exercises encouraged students to think on their feet and collaborate with others.

The workshop successfully met its objectives by engaging students in practical and thought-provoking activities, ensuring that they understood the significance of soft skills in their future careers as physiotherapists. The students left the seminar with valuable insights on improving their communication, decision-making, and problem-solving abilities. Feedback from the attendees indicated a high level of satisfaction, with many expressing that the skills learned would significantly benefit their academic and professional journeys.

Recommendations

It is recommended that the college continues to organize such workshops to further enhance the skills of students, focusing on areas like leadership, stress management, and conflict resolution, which are equally important in the healthcare field.

This event report captures the essence of the Soft Skills Development Workshop, highlighting the main objectives, activities, and outcomes of the session. The students' participation and feedback reflect the

workshop's success in delivering practical, relevant skills that will contribute to their future success in physiotherapy.

	• To understand the manufacturing process of pharmaceutical and healthcare products. • To observe the quality control (QC) and quality assurance (QA) processes in a real-time industrial environment. • To gain insight into Good Manufacturing Practices (GMP) and regulatory compliance. • To observe the packaging and supply chain systems in the pharmaceutical sector. • To connect theoretical learning with practical industry applications.
8	**Preparation and Planning**
	The preparation for the industrial visit began several weeks in advance: 1. **Coordination:** The organizing committee coordinated with Group Pharmaceutical HR Department to arrange the visit, including scheduling and permissions. 2. **Logistics:** Transportation was arranged by SDUAHER, and students were briefed on the schedule, dress code, and behaviour expectations. 3. **Safety Measures:** Safety protocols were established, including emergency contact information and guidelines for the visit.
9	**Departure and Arrival**
	The group departed from College at 9:45 AM and arrived at 10:45 AM. The journey was smooth, And students were eager to explore the industrial environment.

10	**Welcome and Introduction**
	Upon arrival, the group was warmly welcomed by the Head of the HR Department. The visit began with an introductory session in the conference room, where HR provided an overview of the company, its history, and its operations. The presentation included: 1. **Company Background:** A brief history of the company, its mission, and its market position. 2. **Products and Services:** An overview of the products and services offered by the company, including their applications and market reach. 3. **Operational Processes:** A detailed explanation of the key operational processes, emphasizing the technology and techniques used in production.
11	**Area Covered During the Visit**
	After the introductory session, students were divided into smaller groups for a guided tour of the facility. Each group was accompanied by a company representative who provided detailed explanations at various stages of the tour. Students were then guide for the dressing and entry procedure. Key areas visited included: **a) Manufacturing Department:** Students observed the process of manufacturing oral care formulations, including raw material handling, mixing, formulation, filling, and packaging. **b) Quality Control (QC) & Quality Assurance (QA):** The students visited the QC labs where product testing for physical, chemical, and microbiological parameters is performed. The QA team explained documentation practices and regulatory standards. **c) Research & Development (R&D):** the Company's R&D division provided an overview of their role in developing new formulations, improving existing products, and complying with international standards. **d) Packaging Department:** Students observed modern automated packaging technologies ensuring hygienic, accurate, and efficient product packing. **e) Safety & Compliance Practices:** The industry visit emphasized the importance of occupational health, safety standards, and environmental policies followed by Group Pharma.
12	**Interactive Sessions**
	Several interactive sessions were conducted throughout the visit, allowing students to engage with industry professionals and gain deeper insights: 1. **Q&A Session:** Students participated in a question-and-answer session with company executives, where they asked about career opportunities, industry trends, and the challenges faced by the company. 2. **Hands-On Activities:** Some departments provided hands-on activities, allowing students to operate simple machinery or conduct basic tests under supervision. This practical experience was invaluable in reinforcing their theoretical knowledge.
13	**Conclusion**
	The industrial visit to Group Pharmaceuticals Ltd. was highly educational and provided the students with valuable insights into the pharmaceutical industry's operations, manufacturing, quality control, and compliance systems. It bridged the gap between academic learning and industry practices and inspired students to consider diverse career paths within the pharmaceutical sector.

Date of conduct of the event: 14-07-2025

Sl. No	Event Report
1.	Level of Event – Institutional level
2.	Background / Introduction

As part of the institutional initiative to bridge research with innovation, a guest lecture was conducted by Dr. Manesh Thomas, CEO, Manipal-Government of Karnataka Bioincubator.

Dr. Thomas began by outlining the evolving MedTech trends for 2025, highlighting cutting-edge domains such as AI in diagnostics, 3D organ printing, CRISPR, mRNA therapies, smart medical devices, and telehealth innovations. He emphasized the shift from basic research to applied innovation, offering a detailed framework covering idea generation, market validation, prototyping, patenting, and commercialization.

Key takeaways included:

- Importance of self-awareness and team building in entrepreneurship.
- Pathways from problem identification to idea validation using design thinking.

- The role of intellectual property rights, proof-of-concept testing, and regulatory compliance.
- Overview of funding opportunities, including BIRAC, BIG, Seed Fund, and various state and national startup grants.
- Insights into technology business incubation, drawing on the success stories of startups nurtured under Manipal Bioincubator.
- The session concluded with a vibrant Q&A where students and faculty engaged in discussions on innovator mindset, startup sustainability, and navigating funding landscapes. The lecture proved highly insightful for aspiring academic entrepreneurs and innovators in healthcare, biotechnology, and related fields.

5.	Inauguration

In the presence of our Honorable CAO, SDUAHER DR. D.V.L.N Prasad; Organizing chairman Dr. Kalyani R, Director, R & I Cell, SDUAHER; with organizing secretary of the event Dr. Ashwini N S & Mr. Biligiri, Consultant for Incubation Centre along with organizing cosecretaries Dr. Sudarshan K, Dr. Likith Shetty and all the members of Sri R L Jalappa Innovation and Incubation Cell were present along with the faculty and students of SDUAHER. The program was inaugurated by water of the plant from the dignitaries along with the speaker Dr. Manesh Thomas.

6.	Speaker

Currently working as Chief Executive Officer of Manipal-Government of Karnataka Bioincubator, supported by KITS, Department of ITBT, Government of Karnataka, DBT, BIRAC and Manipal Academy of Higher Education (MAHE), Manipal. Dr. Manesh Thomas worked as Project coordinator of Savli Bio-Incubator TBI (Technology Business Incubator) of Department of Science and

Technology, Govt. Of Gujarat with support of BIRAC, DBT, Govt. of India, since 2014 by leading its activities related to technology incubation and development, policymaking, technical consulting in the field of Microbiological and Agriculture applications, facility development, technical mentoring, undertaking outreach activities and public awareness generation. Dr. Thomas previous experience include- Researcher at Directorate of Groundnut Research under Indian Council for Agricultural Research (ICAR) in Application of Microorganisms in Agriculture and allied sector (AMAAS) project which utilizing microbial community for enhancing agriculture implemented by Karnataka Innovation and Technology Society (KITS) Department of Electronics IT, BT and S&T Government of Karnataka for commercializing technologies in life sciences domain.

1	**Name & Level of Event**
	Guest lecture on "Neural plasticity and Brain Repair Mechanisms: New Challenges in Treating Neurological and Psychiatric Disorders"
2	**Background / Introduction**
	The human brain is an extraordinary organ, capable of reorganizing itself in response to injury, learning, and experience — a property known as neural plasticity. Neuroplasticity refers to the brain's capacity to change its structure and function in response to experience, learning, or injury. This adaptability enables the brain to compensate for lost functions or maximize remaining functions in the event of brain injury. Advancements in neuroscience have led to innovative approaches aimed at harnessing neuroplasticity for brain repair. Understanding and enhancing neuroplasticity holds immense promise for improving learning, memory, and recovery from brain injuries. Ongoing research continues to uncover effective strategies to harness this adaptability, offering hope for innovative treatments and improved outcomes in neurological health. Medical and allied health students, psychology, and psychiatry postgraduates, Faculty and researchers and Clinicians interested in brain rehabilitation and neuropsychiatry will benefit by attending this lecture and will gain evidence-based repair strategies post-injury or disability and researchers and tech innovators will gain the latest insights for developing restorative tools and therapies.

SI NO	EVENT REPORT
1.	**NAME AND LEVEL OF EVENT:- REPORT ON CNE PROGRAMME** **Topic: Positive Work Environment for Quality Education and Service**
2.	**BACKGROUND/ INTRODUCTION** The CNE Unit of SDUCON organized a guest lecture for all the teaching faculty on the topic **"Positive Work Environment for Quality Education and Service."** on 12- 07-2025 at Council Hall, SDUCON.
3.	**VENUE:** Council Hall, SDUCON.
4.	**SPONSORS:** SDUCON
5.	**INAUGURATION** The programme commenced at 2:30 PM with an invocation song presented by Aksa and team of IVth year B.Sc (N), SDUCON, setting a respectful tone for the event. This was followed by a warm and gracious welcome address delivered by Dr.G.Vijayalakshmi, Principal who extended heartfelt greetings to the resource person & faculty marking the formal beginning of the program.
6.	**SPEAKERS/ JUDGES/ CHAIRMAN/PANEL TEAM** Dr. Redemma, Nodal Officer, INC, Ph.D. Consortium Bangalore, guest speaker specifically tailored for all the faculty of SDUCON, aiming to foster an understanding of how a supportive work environment directly contributes to excellence in both academic and service domains. The lecture was conducted as an interactive discussion, encouraging active participation and exchange of ideas among the faculty and resource person. The primary objective was to deeply understanding the positive work environment, with a particular focus on the unique challenges and opportunities presented by dual role responsibilities, encompassing both the college and hospital settings. Dr. Redemma initiated the discussion by highlighting the inherent advantages of faculty members fulfilling dual roles within the college and hospital like Enhanced practical exposure for faculty, enriching teaching with real-world scenarios, Improved clinical competency and up-to-date knowledge for patient care & Professional growth and diversification of skills for faculty members. Dr. Redemma also facilitated a discussion on the challenges encountered by faculty in their hospital roles. The core of the discussion revolved around actionable strategies to overcome these challenges and cultivate a thriving work environment.
7.	**PARTICIPANTS & DELEGATES** The programme benefited 35 faculty of SDUCON.

Scanned with OKEN Scanner

8.	**VALEDICTORY** The faculty of SDUCON actively participated in the discussion, sharing their experiences, concerns, and insights. This interactive format allowed for a rich exchange of perspectives, validating common challenges and identifying innovative solutions. Feedback was collected from all the faculty Mrs. Komala Devi R delivered vote of thanks and the programme ended at 4:00pm.
9	**ANY OTHER INFORMATION** Dr. Redemma's guest lecture provided invaluable insights into the intricacies of fostering a positive work environment, especially for faculty managing dual responsibilities. The discussion underscored the critical link between a supportive work culture and the delivery of high-quality education and service. SDUCON faculty benefited greatly from the practical strategies and thought-provoking dialogue.

- The event commenced with a warm welcome by Ms Sri Parvathi ,2nd semester, IMT Student, who expressed the pleasure of hosting the Eight Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Mr. Himanshu Pradhan, RTT 2nd semester student, introduced the chief guest.

Speaker Dr Manjunath GN, Professor & HOD, Department of Radiation Oncology, R L Jalappa Hospital and Research Centre

Topic: Magnitude of Cancer Problems and Strategies for its Presentation.

Rapporteur report:

Dr Manjunath GN, Associate Professor, Department of Radio Oncology, R L Jalappa Hospital and Research Centre, delivered an engaging and insightful talk on the theme.

Cancer is a leading cause of death worldwide. In 2022, there were approximately 20 million new cancer cases and 9.7 million cancer deaths globally. The most common cancers include lung, breast, colorectal, prostate, and stomach cancers. The burden of cancer is projected to increase, with an estimated 35.3 million new cases and 18.5 million deaths by 2050.

Cancer encompasses a group of diseases characterized by uncontrolled cell growth and spread to other parts of the body.

Conventional Treatment Modalities

- **Surgery**: Involves the physical removal of tumors or cancerous tissues.

- **Chemotherapy**: Utilizes drugs to destroy or inhibit the growth of rapidly dividing cancer cells.
- **Radiation Therapy**: Employs high-energy rays to target and kill cancer cells.
- **Hormone Therapy**: Blocks or alters hormones that fuel certain cancers.
- **Stem Cell Transplant**: Replaces damaged bone marrow with healthy stem cells.

Key Risk Factors and Prevention Strategies

- **Tobacco Use:**
  - Responsible for approximately **25% of cancer deaths** globally.
- **Alcohol Consumption:**
  - Linked to **7 types of cancer**, including **oesophagus**, **liver**, **colorectal**, and **breast** cancers.
  - Responsible for **740,000 new cancer cases** annually.
- **Obesity and Physical Inactivity:**
  - Excess body mass is linked to cancers such as **oesophagus**, **colorectal**, **breast**, **endometrial**, and **kidney**.
  - Regular physical activity and maintaining a healthy weight can reduce cancer risk.

- **Infections:**
    - **HPV** and **hepatitis B/C** are major contributors to **cervical** and **liver** cancers, respectively.
    - Human papillomavirus (HPV) is a major cause of several cancers, including cervical, vulvar, vaginal, anal, and oropharyngeal cancers. Vaccination against HPV is highly effective in preventing these cancers and is recommended for both boys and girls. Screening tests like mammograms, Pap smears, and colonoscopies are crucial for early detection and treatment of breast, cervical, and colorectal cancers, respectively.
- **Environmental Exposures:**
    - **Air pollution** and **occupational exposures** (e.g., asbestos, benzene) increase cancer risk

Strategies for Addressing the Cancer Burden

- **Prevention:**
    - Implementing **tobacco control policies**, promoting **healthy diets**, encouraging **physical activity**, and reducing **alcohol consumption**.
- **Early Detection:**
    - Expanding access to **screening programs** for breast, colorectal, and cervical cancers.
- **Treatment Access:**
    - Ensuring **affordable and equitable access** to cancer treatments, especially in low-resource settings.
- **Palliative Care:**
    - Integrating **palliative care services** into health systems to improve the quality of life for patients with advanced cancer.

Certainly! Here's a comprehensive overview of the vaccination schedules and guidelines for **Hepatitis B Virus (HBV)** and **Human Papillomavirus (HPV)** vaccines in India:

- **Hepatitis B Virus (HBV) Vaccine**

Recommended Schedule in India

- **Infants**: Administered as a 3-dose series:
    - **First dose**: Within 24 hours of birth
    - **Second dose**: 1–2 months of age
    - **Third dose**: 6–18 months of age.
- **Catch-up Vaccination**: For individuals who missed the initial doses, a 3-dose series is recommended:
    - **First dose**: As soon as feasible
    - **Second dose**: 1 month after the first

- **Third dose**: 6 months after the first

- **Human Papillomavirus (HPV) Vaccine**
  - **Available Vaccines in India**
    - **CERVAVAC®**: Developed by the Serum Institute of India, this quadrivalent vaccine protects against HPV types 6, 11, 16, and 18.
    - **GARDASIL®**: A quadrivalent vaccine offering protection against HPV types 6, 11, 16, and 18.
    - **GARDASIL® 9**: A nonvalent vaccine that protects against nine HPV types, including 6, 11, 16, 18, 31, 33, 45, 52, and 58.
  - **Vaccination Schedules**
    - **Ages 9–14**:
      - **CERVAVAC®**: 2 doses at 0 and 6 months
      - **GARDASIL® / GARDASIL® 9**: 2 doses at 0 and 6 months.
    - **Ages 15–26**:
      - **CERVAVAC®**: 3 doses at 0, 2, and 6 months

        - **GARDASIL® / GARDASIL® 9**: 3 doses at 0, 2, and 6 months.

- **Importance of Early Vaccination**
    - **Optimal Immune Response**: Younger individuals mount a stronger immune response to the vaccine.
    - **Prevention of HPV-Related Cancers**: Early vaccination helps in the prevention of cancers associated with HPV, including cervical, anal, and oral cancers.
    - **Reduced Number of Doses**: Starting vaccination at ages 9–14 requires only two doses, compared to three doses for those aged 15 and above.

- Dr. Usha G Shenoy, Assistant Professor, School of Allied Health Science, SDUAHER gave vote of thank.

- The resource person was handed over certificate of appreciation.

- Raised for National Anthem.

Name of the event: PhysioFiesta X 2025
Date of the event: 10t/h - 12 t/h July 2025
Name of the Department: R.L. Jalappa college of Physiotherapy, SDUAHER

S. no.	**Event Report**
1.	**Level of Event – Institution/ State/ National/ International**
State Level	
2.	**Background/ Introduction**
The **PHYSIOFIESTA X 2025** event at R.L. Jalappa College of Physiotherapy marked a historic milestone in the institution's journey, hosting its first-ever state-level inter-college sports meet from **10th to 12th July 2025**. The event brought together nine colleges from across Karnataka to compete in a variety of athletic events, showcasing exceptional sportsmanship, team spirit, and skill. Through exciting competitions such as cricket, badminton, futsal, and track events, PHYSIOFIESTA X celebrated the unity, energy, and camaraderie among students and faculty. This initiative not only provided a platform for students to engage in healthy competition but also highlighted the college's commitment to fostering sportsmanship, fitness, and personal growth. The event's success marks the beginning of an annual tradition that will continue to inspire future generations of physiotherapy students.

PHYSIOFIESTA X 2025 – R.L. Jalappa College of Physiotherapy's First State-Level Inter-College Sports Meet

R.L. Jalappa College of Physiotherapy marked a historic moment by hosting its **First Ever State-Level Inter-College Sports Meet – PHYSIOFIESTA X 2025**, from **10th to 12th July 2025**. The event was an

overwhelming success, bringing together 9 dynamic colleges from across Karnataka to participate in an exciting series of athletic competitions.

Grand Banner Release – 9th July 2025

The journey to PHYSIOFIESTA X 2025 began on **9th July 2025** with the grand release of the event banner, which was graced by **Dr. Muninarayana. C**, Registrar of **SDUAHER**, and **Dr. Aravind Natarajan**, Dean of Allied Health Sciences. Their presence marked the start of a new era of sports, spirit, and unity in physiotherapy education, setting the tone for the exciting days ahead.

Day 1: A Power-Packed Start! (10th July 2025)

The first day of the sports meet saw enthusiastic participation from colleges across the state, with thrilling events taking place throughout the day. The event was inaugurated by **Shri Ravishanker**, Additional Superintendent of Police, Kolar, alongside distinguished academic leaders:

- **Dr. Vengamma**, Vice Chancellor, SDUAHER
- **Dr. Muninarayana**, Registrar, SDUAHER
- **Dr. Aravind Natarajan**, Dean of FAH & BS
- **Dr. Senthil Kumar E**, HOD, RLJCOPT
- **Mr. Raja Raman**, CFO, SDUAHER.

Highlights of Day 1:

- **400m, 200m, and 100m Races** (Men & Women)
- **Long Jump** (Men)
- **Shot Put** (Men & Women)
- **Cricket** – 2 thrilling matches completed!

The event was filled with high-energy performances, demonstrating outstanding sportsmanship and setting the stage for more exciting events.

Day 2: Unstoppable Energy and Enthusiasm (11th July 2025)

Day 2 of PHYSIOFIESTA X 2025 brought even more energy to the field with thrilling events across various sports. The day was a true testament to the participants' endurance, skill, and teamwork.

Highlights of Day 2:

- **1500m Run** – A true test of endurance!
- **Cricket** – Action-packed inter-college matches!
- **Badminton** (Men & Women) – A display of incredible skill and finesse.
- **Throwball** – Team spirit and strategy in full action!

The enthusiasm continued to grow as more participants showcased their talent and sportsmanship.

Day 3: A Thrilling Grand Finale (12th July 2025)

The final day of the sports meet was nothing short of exhilarating. The day concluded with an unforgettable grand finale that featured intense competitions and the spirit of unity.

Highlights of Day 3:

- **Futsal** – Intense action with colleges battling it out on the futsal court.
- **Badminton** – Fierce competition with shuttles flying across the court.

- **Faculty Category Badminton** – Faculty members showcased their sporting skills with great enthusiasm and sportsmanship.

The event concluded with a **Valedictory Ceremony** graced by **Dr. DVLN Prasad**, Chief Administrative Officer, SDUAHER, **Dr. Muninarayana**, Registrar, and **Dr. Aravind Natarajan**, Dean of FAH & BS, who presented the awards to the winners.

Overall:

- **Winner** – R.L. Jalappa College of Physiotherapy 🏅
- **Runner-up** – Florence College 🎊

The event not only highlighted the participants' athletic abilities but also fostered a sense of unity, teamwork, and camaraderie among all the colleges. It was a celebration of sportsmanship, fitness, and the spirit of competition.

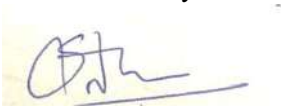

PHYSIOFIESTA X 2025 was a tremendous success, with R.L. Jalappa College of Physiotherapy leading the way. This event will surely be remembered as a historic moment in the college's journey, marking the beginning of an annual tradition that will continue to bring together aspiring athletes, educators, and students from across Karnataka. Here's to building lasting friendships, nurturing fitness, and celebrating sports! 🌟 💪🏽

ABOUT THE SESSION

- Quality assurance in a laboratory is a systematic and comprehensive approach to ensuring the accuracy, reliability and consistency of the test results.
- It encompasses set of processes, standards and practices designed to minimize errors and discrepancies in the work conducted by laboratory personnel.

Seventh Event: Monthly seminar

Date: 30-06-2025

Venue: C.V Raman Auditorium III Floor, SDUAHER.

Time: 11.00 AM to 12 Noon

Resource Person: Dr. Narayana S, Associate Professor, Department of Biochemistry, Padmashree Institute of MLT, Bangalore

Topic: Lab Management and Quality Control ensuring accuracy and reliability

Event: Inaugural function

The following dignitaries presided over the function:

- DR. ARAVIND NATARAJAN, Dean, FAH&BS
- Dr. Narayana S, Associate Professor, Department of Biochemistry, Padmashree Institute of MLT, Bangalore
- Dr. C. D. Dayanand, Professor. & Head, School of Allied Health Science.
- Dr. Usha G Shenoy, Assistant Professor, School of Allied Health Science

Invited Guest:

Dr. Narayana S, Associate Professor, Department of Biochemistry, Padmashree Institute of MLT, Bangalore

Guests of Honour:

- Mr. Franklin John

- The event commenced with a warm welcome by Ms Vaishnavi ,3rd year, CPT Student, who expressed the pleasure of hosting the Seventh Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Ms. Megha Varshini , MLT 6th semester student, introduced the chief guest.

Speaker: Dr. Narayana S, Associate Professor, Department of Biochemistry, Padmashree Institute of MLT, Bangalore

Topic: Lab Management and Quality Control ensuring accuracy and reliability

Rapporteur report:

Dr. Narayana S, delivered an engaging and insightful talk on the theme.

Laboratories play a crucial role in clinical diagnostics, scientific research, pharmaceuticals, and industrial quality assurance. To deliver precise, consistent, and trustworthy results, laboratories must be managed efficiently with a strong foundation in quality control (QC) and quality assurance (QA) systems.

Key Responsibilities in Critical Care:

- **Laboratory Management:** Effective lab management encompasses administrative, operational, and technical aspects of a laboratory. Core elements include:

  - **Organizational Structure:** Defined roles and responsibilities for all staff members.

- **Personnel Training and Competency:** Regular training programs, competency evaluations, and professional development.
- **Infrastructure and Safety:** Adequate facilities, environmental controls, biosafety procedures, and emergency protocols.
- **Inventory and Supply Management:** Monitoring of reagents, media, consumables, and storage conditions.
- **Information Management:** Use of Laboratory Information Management Systems (LIMS) for sample tracking, data entry, and reporting.

An LQMS supports three phases of a full laboratory environment.

- **Pre-analytic phase -** sample preparation and transportation
- **Analytic phase -** activities during operational testing and research
- **Post-analytic phase -** reporting

Quality Control (QC) and Quality Assurance (QA)

- **Quality Control (QC):**

  A set of procedures used to monitor the accuracy and precision of test results.
- **Types of QC:**
  - **Internal Quality Control (IQC):** Routine checks using control samples to detect errors in real time.
  - **External Quality Assessment (EQA):** Participation in proficiency testing (PT) schemes to benchmark performance against other labs.
- **Quality Assurance (QA):**

  Broader system ensuring that all processes are carried out according to predefined standards, including SOPs, documentation, audits, and reviews.

- **Quality Laboratory Processes**
  - **Legal Documents** – government Approvals, Trade license
  - **System Installation** - Inventory policies -instruments & Consumables, human resource
- **Quality Assessment**
  - **Management Requirements** – establishment of quality policies
  - **Technical Requirements** – personal Qualification, Job Description.
- **There are three types**
  - **EQAS** – (3 times in a Year) National ref Labs send the QC material & collect the results.
  - **ILQA-** (Every month) same as EQAS but sample provider is local ref lab.
  - **ILC** – (Once in three months) here sample analyzed in our lab sent to ref lab and both the results are compared.
- **Errors**
  - **Random Errors-** It include Pipetting error, Transcription error, Wrong label, errors in instrument
  - **Systemic errors** – It could be due to wrong Procedures, incorrect Standards, Interference of endogenous Substances like icteric / lipemic/ haemolyzed sample.

- Ms. Nalini H S, Lecturer/Course coordinator of MLT, School of allied health science, SDUAHER gave vote of thank.

- The resource person was handed over certificate of appreciation.
- Raised for National Anthem.

Sl. No.	National Conference Report
1.	**Name of the Event:** National Conference
2.	**Topic:** NutriBodyCon 2025 – Body Composition Analysis Across the Clinical Spectrum
3.	**Background / Introduction:** The Department of Clinical Nutrition and Dietetics organized a National Conference titled *"NutriBodyCon 2025 – Body Composition Analysis Across the Clinical Spectrum"* on 27th June 2025, in association with InBody India. The event was held at the Silver Jubilee Auditorium, SDUAHER, from 9:00 AM to 4:00 PM. The conference aimed to equip healthcare professionals and students with knowledge of the clinical applications of Bioelectrical Impedance (BIA) in Body Composition Analysis (BCA). The conference was inaugurated in the presence of Shri J. Rajendra, Honorable Vice President of SDUET; Dr. B. Vengamma, Hon'ble Vice Chancellor of SDUAHER; Dr. D.V.L.N. Prasad, Chief Administrative Officer; Dr. Muninarayana C, Registrar; Dr. Prabhakar K, Principal and Dean of the Faculty of Medicine, SDUMC, Dr. Arvind Natarajan, Dean of the Faculty of Allied and Healthcare Professions; ; and Dr. Krishnappa J, Medical Superintendent of RLJH&RC, along with faculty members from various disciplines. The inauguration commenced with a traditional lamp-lighting ceremony, symbolizing the enlightening journey of scientific exploration.
4.	**Venue:** Silver Jubilee Auditorium, 2nd Floor, SDUAHER, Kolar
5.	**Participants & Delegates in Number:** Over three hundred delegates participated in the conference, including undergraduate and postgraduate students, research scholars, faculty members, clinical dietitians, physiologists, bariatric specialists, and endocrinologists. The delegates represented institutions such as Jain (Deemed-to-be University), Hillside College of Physiotherapy, SNR Medical College, Padmashree Institute of Management and Sciences, Manipal Hospitals, and various departments of SDUAHER.

Conference Report

"NutriBodyCon 2025 – Body Composition Analysis Across the Clinical Spectrum"

A national conference titled *"NutriBodyCon 2025 – Body Composition Analysis Across the Clinical Spectrum"* was conducted by the Department of Clinical Nutrition and Dietetics on June 27, 2025, from 8:30 a.m. to 4:00 p.m., at the Silver Jubilee Auditorium, SDUAHER. The event commenced with an inauguration ceremony in the esteemed presence of Shri J. Rajendra, Honorable Vice President of SDUET; Dr. B. Vengamma, Hon'ble Vice Chancellor of SDUAHER; Dr. D.V.L.N. Prasad, Chief Administrative Officer, Dr. Muninarayana C, Registrar; Dr. Arvind Natarajan, Dean of the Faculty of Allied and Healthcare Professions; Dr. Prabhakar K, Principal and Dean of the Faculty of Medicine, SDUMC; and Dr. Krishnappa J, Medical Superintendent of RLJH&RC. Following the traditional lamp-lighting ceremony, symbolizing knowledge and enlightenment, the welcome address was delivered by Dr. Shivakumara C.S., I/c HoD, Department of Clinical Nutrition and Dietetics. The dignitaries addressed the audience, emphasizing the evolving role of body composition analysis (BCA) in healthcare, chronic disease management, and personalized nutrition, and encouraged students to engage in innovative, interdisciplinary research.

Lamp Lighting Ceremony

Welcome Address

The conference witnessed the enthusiastic participation of over 300 delegates, including undergraduate and postgraduate students, Ph.D. scholars, faculty members, and practicing dietitians from reputed institutions such as Jain (Deemed-to-be University), Hillside College of Physiotherapy, SNR Medical College, Padmashree Institute of Management and Sciences, Manipal Hospitals,, and various departments of Sri Devaraj Urs Academy of Higher Education and Research. The sessions throughout the day emphasized the scientific basis and clinical

application of Bioelectrical Impedance Analysis (BIA) in metabolic health, bariatric care, endocrinology, and muscle preservation. The conference brought together experts from academia and clinical practice who shared insights on using InBody data for diagnostics, patient monitoring, and nutrition planning. Topics such as body composition in diabetes care, endocrine health, sarcopenia, and personalized diet strategies were explored in depth. Delegates were also given an opportunity to experience hands-on body composition assessments using InBody970 machines. The event concluded with a panel discussion, an InBody Certification Assessment, and a feedback session, where participants expressed appreciation for the academic depth and real-time clinical value the conference offered. Overall, *NutriBodyCon 2025* was a remarkable academic initiative that fostered learning, collaboration, and professional growth in the domain of clinical nutrition and body composition science.

First Speaker

A Token of Appreciation

Mr. Tejas R.S. was the first speaker of the session and delivered a foundational talk on the topic *"Unlocking the Body's Secrets: An Introduction to BIA Technology & Its Principles."* He introduced the key principles of Bioelectrical Impedance Analysis (BIA), emphasizing how modern BIA tools provide insights into vital body metrics beyond conventional BMI. His explanation of segmental analysis and its clinical relevance offered the audience a deeper understanding of its application in healthcare. The session was chaired by Dr. Krishnappa J, Medical Superintendent, RLJH&RC, and successfully set the scientific tone for the rest of the conference.

Second Speaker

A Token of Appreciation

Ms. Sakshi Mhatre presented an engaging session on the topic *"InBody970 Decode: Case Study Analysis, Diet & Treatment."* Through real-life clinical case studies, she illustrated the practical application of InBody970 analytics in developing individualized diet plans based on body composition data. Her talk effectively bridged theory with clinical practice, making Bioelectrical Impedance Analysis (BIA) more accessible and relatable to the audience. Delegates appreciated the valuable insights into dietary modifications guided by BIA results. The session was chaired by Dr. K. Dinesh, Professor of Anesthesiology & Deputy Medical Superintendent-I, RLJH&RC.

Third Speaker

A Token of Appreciation

Dr. Tulip Chamany delivered a focused session on the topic *"Preparing for Success: The Role of BCA in Pre-Bariatric Assessment."* She emphasized the importance of Bioelectrical Impedance Analysis (BCA) in the preoperative evaluation for bariatric surgery, highlighting key parameters such as lean mass, fat distribution, and metabolic indicators that influence surgical planning and outcomes. Her evidence-based approach showcased BCA as a valuable predictive tool in optimizing patient care. The session underscored the critical collaboration between nutrition and surgery. It was chaired by Dr. P.N. Sreeramulu,Dr. K. Krishna Prasad and Professor, Department of General Surgery, SDUMC.

Panel Discussions

A Token of Appreciation

Panelists Ms. Ranjani Raman, Ms. Sakshi Mhatre, and Ms. Nabanita Saha led a dynamic session on the evolving role of body composition as a "vital sign." The panel explored its wide-ranging applications across medical specialties, including internal medicine, endocrinology, and reproductive health. Through real-world case scenarios, they demonstrated how functional BCA metrics can inform both diagnosis and treatment strategies. The engaging discussion encouraged interdisciplinary adoption of Bioelectrical Impedance Analysis (BIA) technology. The session was chaired by Dr. Asna Urooj, Former Professor, University of Mysore.

Fifth Speaker

A Token of Appreciation

Dr. Padmini Vijaykumar delivered an insightful session on the topic *"InBody in Women's Endocrine Health: From PCOS to Menopause."* She highlighted the utility of Bioelectrical Impedance Analysis (BCA) in monitoring hormonal fluctuations throughout different stages of a woman's life. Emphasizing the significance of body fat and lean mass metrics, she demonstrated how BCA supports personalized nutritional interventions in managing conditions like PCOS and menopause. Her clinically rich, female-centric approach was well-received by the delegates. The session was chaired by Dr. Sheela S. R., Professor, Department of Obstetrics & Gynecology, SDUMC.

Sixth Speaker

Dr. Shilpa delivered an informative session on the topic *"Fighting Sarcopenia: The Role of Nutrition and BCA in Muscle Preservation."* She addressed the rising concern of sarcopenia, particularly among the elderly and individuals with chronic illnesses. Emphasizing the role of Bioelectrical Impedance Analysis (BCA) in detecting early muscle loss, she demonstrated how targeted nutritional and lifestyle strategies can support muscle preservation. The session provided practical recommendations and was appreciated for its preventive approach and geriatric focus. It was chaired by Dr. C.D. Dayanand, Professor, Allied Health Sciences, SDUAHER.

Seventh Speaker

A Token of Appreciation

Ms.Vani Krishna delivered an engaging session on the topic *"Personalised Diet Plans Using InBody."* She demonstrated how body composition data, particularly lean mass and metabolic rate, can be used to customise macronutrient distribution for individual patients. Her data-driven approach to nutrition planning resonated strongly with practising dietitians, offering clear clinical applicability. The session was highly interactive and emphasised practical strategies for personalised dietary interventions. It was chaired by Ms. Anjali, Dietitian, Manipal Hospitals.

Eighth Speaker

A Token of Appreciation

Dr. Zishan delivered an impactful session on the topic *"From Muscle to Metabolism: Practical Exercise Strategies for Body Composition."* He shared actionable fitness strategies informed by BCA reports, emphasizing the effectiveness of resistance training in achieving fat loss and lean mass gain. His protocols, grounded in metabolic physiology and exercise science, offered practical insights for incorporating BCA into individualized fitness planning. The session energized participants and highlighted the integration of body composition analysis in exercise routines. It was chaired by Dr. Senthil Kumar Elumala, Professor & HOD, RLJCOP.

Transitioning to the final segment of the event, Dr. Soundariya S, Assistant Professor and Organizing Secretary, delivered the formal vote of thanks with heartfelt appreciation. She extended sincere gratitude to all distinguished speakers, chairpersons, delegates, faculty members, and student participants who contributed to the grand success of *NutriBodyCon 2025*. The session concluded with a feedback interaction, during which participants enthusiastically shared their reflections. Their responses described the conference as thought-provoking, insightful, and practically enriching, offering valuable academic exposure and professional relevance. The Department of Clinical Nutrition and Dietetics reaffirmed its commitment to fostering interdisciplinary learning and innovation in the field of body composition and clinical nutrition.

EVENT REPORT

Name of the Event: **Cataract awareness month (27 June 2025)**

Name of the Department: **Ophthalmology**

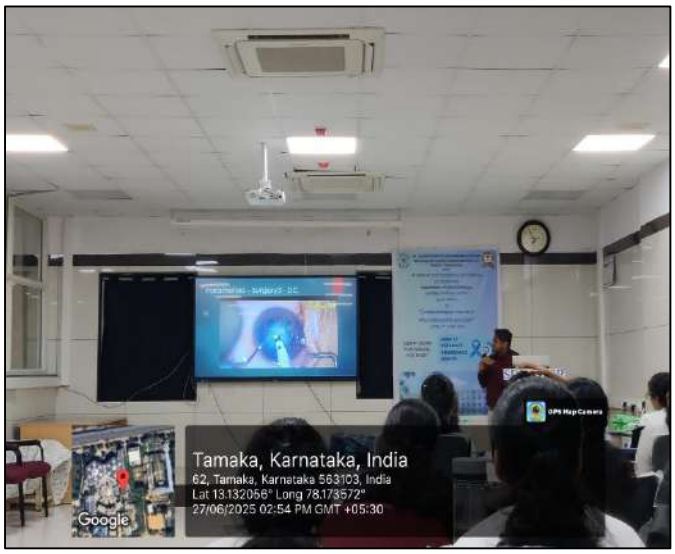

Sl. No.	Event Report- Ophthalmology
1	**Name & Level of Event** – Guest lecture on **"Comprehensive review on Phacodynamics principle"** in view of Cataract awareness month
2	**Background / Introduction**
	Cataract is a leading cause of reversible vision loss and is effectively treated with surgery, involving cataractous lens removal and intraocular lens implantation. June is recognized as Cataract Awareness Month. This month is dedicated to raising awareness about cataracts, a condition where the lens of the eye becomes cloudy, leading to vision loss if left untreated. Organizations and eye care professionals use this time to educate the public about cataracts, their risk factors, symptoms, and available treatment options, emphasizing the importance of early detection and regular eye exams.
3	**Venue –** Center for Clinical Skills and Simulations, SDUAHER.
4	**Sponsors –** SDUAHER, Tamaka, Kolar.
5	**Inauguration**
	Welcome address and introduction by Dr. Om Saipriya, second year resident, department of Ophthalmology, SDUMC.
6	**Speaker**
	Dr. Mukul BM, Director and Chief Ophthalmologist at Manjushree Eye care KGF, Kolar.
7	**Participants & Delegates in Number – 53** [Faculty, residents and Under Graduate students of the academy had participated in this event]
8	**Awards / Prizes -** Certificate of appreciation was awarded to the participating faculty
9	**Valedictory –** NA
	-
10	**Highlights of the events including photos** - ENCLOSED

Dr. Omsaipriya Junior Resident from department of Ophthalmology welcomed the gathering and elaborated on the importance of observing Cataract awareness month

Next the MC introduced the guest speaker **Dr. Mukul BM, Director and Chief Ophthalmologist at Manjushree Eye care KGF, Kolar** and invited to deliver the talk on "***Comprehensive review on Phacodynamics principle".***

The session was attended by postgraduate students, residents, faculty members, and practicing Ophthalmologists. It proved to be highly interactive, with participants engaging in meaningful discussions and clarifying doubts related to phaco techniques and machine handling.

The lecture greatly contributed to enhancing the practical understanding and confidence of the attendees, especially in managing complex surgical cases. The department expresses sincere gratitude to Dr. Mukul B M for sharing valuable clinical expertise and to all the participants for making the event a success.

The session was concluded by felicitating Dr Mukul B M by Dr. Sangeetha T, Professor & HOD and Dr. Rashmi G, Professor & HOU for an enlightening talk followed by vote of thanks delivered by the organising secretary Dr. Apoorva N.

S/N	EVENT REPORT
1	**Name & Level of Event:**
	Awareness Program on International Day Against Drug Abuse and Illicit Trafficking – Institutional Level Event
2	**Background / Introduction:**
	The Department of Psychiatry, Sri Devaraj Urs Medical College, Kolar, in collaboration with the NSS Unit, observed the International Day Against Drug Abuse and Illicit Trafficking on 26th June 2025 at the Silver Jubilee Auditorium, SDUAHER. This observance aligns with the global effort to strengthen action and cooperation in achieving a drug-free world. The theme of this year's campaign focused on promoting respect, empathy, and evidence-based care for individuals affected by substance use, while combating stigma and discrimination. This event was organised as a part of the **Sri R L Jalappa Birth Centenary Year Celebrations**, further highlighting the institution's dedication to social responsibility and public health. The programme aimed to spread awareness, educate students and staff about the legal, psychological, and societal aspects of substance abuse, and inspire a community-level commitment to a drug-free environment. It reflected the institute's ongoing commitment to student mental health, holistic well-being, and community outreach.
3	**Venue**: Silver Jubilee Auditorium, SDUAHER, Tamaka, Kolar
4	**Sponsors**: SDUAHER

5	**Inauguration:** The formal inauguration of the programme was held at 10:30 AM, in the presence of esteemed dignitaries and law enforcement officials. The chief guests for the event were: - Mr. H C Jagadeesha, K.S.P.S., Addl. SP of Police, Kolar - Mr. Rajesh R, K.S.P.S., DySP of Police (Cybercrime, Economic Offences, Narcotics), Kolar The Dignitaries were Dr B Vengamma (Vice chancellor, SDUAHER), Dr Muninarayana (Registrar, SDUAHER), Dr Prabhakar (Principal & Dean FOM, SDUMC), Dr Aravind Natarajan (Dean FAHCP), Dr Krishnappa J (Medical Superintendent, RLJH & RC), Dr Mohan Reddy (Prof & HOD dept of Psychiatry). Their presence underscored the vital role of law enforcement in addressing drug-related issues and enforcing legal frameworks effectively
6	**Speakers / Judges / Chairman / Panel Team**
	The event featured an interdisciplinary panel of experts from Psychiatry, Clinical Psychology, Law Enforcement, and Student Welfare: - Dr. Pradeep T S – "Numbers behind substance abuse in the community – how big is the problem?" - Dr. Rajshekhar Y – "Journey from recreation to rehabilitation" - Mr. H C Jagadeesha – "Legal Aspects of Drug Abuse" - Mr. Rajesh R – "Cybercrime & Online Betting" - Asso. Prof. Damodar Rao – "Psychological Aspects of Drug Abuse & Addiction"
7	**Participants & Delegates in Number:** The programme saw enthusiastic participation from: - Undergraduate and postgraduate students of SDUMC and allied health sciences - Faculty members from various departments - NSS and YRC volunteers - Psychiatry department staff and social workers An estimated 800+ attendees were present for the awareness programme.
8	**Valedictory function:** The event concluded with a Vote of Thanks by Dr. Purushotham A, Assistant Professor, Department of Psychiatry. All participants were appreciated for their active engagement and were encouraged to continue promoting awareness on substance use prevention within their respective communities.
9	**Any other information:** **Highlights of the Event** - Thought-provoking and data-driven presentations from psychiatry and public health experts - Interactive legal and cybercrime discussions by senior police officials - A strong emphasis on mental health, rehabilitation, and compassionate care - Participation from a multidisciplinary audience including students, doctors, and allied professionals - NSS coordination for awareness dissemination and community outreach - The Nasha Mukt Bharat Abhiyaan pledge was administered publicly by the Addl. SP of Police, creating a moment of collective solidarity

Name of the event: World Vitiligo Day
Date of the event: 25 June 2025
Name of the department: Dermatology, Venereology and Leprosy

Sl. No.	Event Report
1	**Level of the event** RLJH & RC (Hospital based Event about Vitiligo Awareness)
2	**Background / Introduction** World Vitiligo Day 2025 was commemorated with great enthusiasm and sensitivity by the Department of Dermatology ,Venereology and Leprosy, RLJH on June 25th, 2025. The event aimed to raise awareness, educate the community, and offer a platform for those affected by vitiligo to share their experiences and challenges. The theme for this year, *"Innovation for Every Skin, Powered by AI"*, was highlighted throughout the Event. **Event Highlights:** *1. Inaugural Session and Faculty Speeches:* The Event began with a warm welcome and introduction to World Vitiligo Day 2025 by Dr. Vaishnavi B V(Assistant Professor of the Department of Dermatology), emphasizing unity in raising awareness and support for vitiligo followed by invocation song. This was followed by insightful speeches by senior faculty members, including: • **Dr. Hanumanthayya K , Professor of Dermatology (retired)** , who spoke about the clinical aspects of vitiligo, the importance of early diagnosis, and emerging treatment options. • **Dr. Rajashekar T S , Head of Department and Professor of Dermatology** highlighted the transformative role of Artificial Intelligence in enhancing early diagnosis, treatment precision, and awareness of vitiligo. • **Dr. Murugesh S B , Professor of Dermatology** emphasized the comprehensive facilities available for vitiligo patients at the hospital, including specialized clinics, counselling services, and advanced treatment options. • **Dr. Krishnappa J, Medical superintendent**, emphasized the social impact of vitiligo and the need for community support and inclusivity. Their speeches reflected a strong commitment to patient care, research, and breaking the stigma surrounding skin conditions. *2. Skit – "Beyond the Skin":* A powerful and emotionally resonant skit titled *"Beyond the Skin"* was performed by medical students. The skit portrayed real-life scenarios of individuals facing discrimination and isolation due to vitiligo. It concluded on a hopeful note, reinforcing the message that vitiligo does not define a person and that society must be educated to see beyond appearances.

Professor & HOD
Dept. of Dermatology
SDUMC, Tamaka, Kolar.

	3. Patient Experience with Vitiligo: One of the most touching parts of the event was a short session where patients with Vitiligo, courageously shared their personal journeys. They spoke about the emotional and psychological difficulties they have faced, including social stigma, loss of confidence, and challenges in education and employment. The audience was visibly moved, and the session helped bridge the gap between medical professionals and the live reality of vitiligo patients.
	4. Vote of Thanks and Educational leaflets Distribution: The Event concluded with a heartfelt vote of thanks by Dr. Madhukiran C, Associate Professor of Dermatology, who acknowledged the efforts of all participants, students, faculty, patients, and supporting staff. Educational leaflets on vitiligo—covering causes, myths, treatment options, and support resources—were distributed among attendees to further raise awareness and encourage community dialogue.
	Outcome: The World Vitiligo Day Event 2025 was a resounding success, combining education, empathy, and empowerment. It provided a meaningful platform for patients to voice their stories and for the medical fraternity to reaffirm their commitment to holistic and stigma-free care.

2	**Background/Introduction-** On the occasion of the 11th International Day of Yoga, a Common Yoga Practice session was conducted on 21st June 2025 by the Department of Integrative Medicine, SDUAHER, at the Government Higher Primary School, Theralli. This session was a continuation of the preparatory yoga training held on 16th and 17th June 2025, aimed at familiarizing students with the Common Yoga Protocol. During the final session, schoolchildren actively participated in performing foundational yoga practices, including loosening exercises, breathing techniques, Pranayama, and mindfulness activities. The initiative successfully reinforced the importance of integrating yoga into daily life and aligned with national efforts to promote holistic health and wellness through yoga.

Event report

Name of the Event: Yoga Samvesh - Jail intimates

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – District
2	**Background/Introduction-** The Yoga Samvesh program was successfully organized at the Sub-jail of Kolar for its inmates by the Department of Integrative Medicine, SDUAHER. The initiative received significant institutional support, with Dr. Muninarayana C, the Registrar of SDUAHER, actively participating in the event. This commendable program was sponsored by the Central Council for Research in Yoga and Naturopathy (CCRYN), Ministry of AYUSH, Government of India. During the session, Dr. Muninarayana C engaged with the inmates, delivering an enlightening address focused on mental health. He meticulously created awareness regarding its crucial importance, delineating various factors that can impact mental well-being. A poignant part of his speech highlighted the critical link between fleeting moments of anger and subsequent acts of crime, often leading to deep feelings of guilt. He emphasized how yoga serves as a powerful tool for cultivating mental fortitude and emotional regulation, enabling individuals to better manage impulsive reactions and negative thoughts. Following this, Dr. Ashween Bilagi (Head, Department of Integrative Medicine) provided a comprehensive introduction to Yoga, elaborating on its foundational principles and myriad benefits for physical and mental health. He also spoke on the importance of the International Day of Yoga. This theoretical introduction seamlessly transitioned into a short and comprehensive yoga practice specifically tailored for the inmates. The practical session saw an impressive participation of approximately 152 inmates, who actively engaged in the yoga practice, demonstrating their receptiveness to the wellness initiative. The program was instrumental in introducing a valuable tool for stress management and self-awareness to the incarcerated population.

	Overall, the Yoga Samvesh program at Kolar Sub-jail was a resounding success, effectively bringing vital mental health awareness and the practice of yoga to a community that stands to benefit immensely from such interventions, contributing positively to their rehabilitation and overall well-being.

2	**Background/Introduction-** The Department of Integrative Medicine, in collaboration with Sri Devaraj Urs Medical College, commemorated the 11th International Day of Yoga by organizing a Common Yoga Protocol session at the Open-Air Auditorium, SDUAHER, in accordance with the guidelines issued by the National Medical Commission (NMC) notification dated 6th June 2025. The event aimed to promote the significance of yoga in medical education and personal well-being among students and faculty members. The program witnessed the enthusiastic participation of approximately 295 students and 5 faculty members. The event commenced with an introductory address by Dr. Vinutha Shankar, Vice Principal of Sri Devaraj Urs Medical College, who emphasized the importance and global relevance of the International Day of Yoga. This was followed by the guided performance of the Common Yoga Protocol, conducted by trained yoga teachers from the Department of Integrative Medicine. The session included structured yoga practices such as breathing techniques, physical postures, and mindfulness exercises. The event concluded with a vote of thanks delivered by Dr. Ashween Bilagi, Head of the Department of Integrative Medicine, who acknowledged the contributions and active involvement of the participants, making the celebration both meaningful and impactful.

Event report

Name of the Event: Yoga Sangam – Common Yoga Protocol Practice (IDY-2025)

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – Institute
2	**Background/Introduction-** The Yoga Sangam 2025, a collaborative effort by the Department of Integrative Medicine and the NSS Unit of SDUAHER, in partnership with Sri Devaraj Urs Medical College (SDUMC), Sri Devaraj Urs College of Nursing (SDUCON), and RL Jalappa College of Pharmacy (RLJCOP), and RL Jalappa Central School (RLJCS) was successfully held, promoting the profound benefits of yoga. The event was proudly sponsored by the Central Council for Research in Yoga and Naturopathy (CCRYN), Ministry of AYUSH, Government of India (GOI). The program commenced with participants attentively listening to inspiring speech from Prime Minister Shri Narendra Modi, setting a motivational tone for the day. This was followed by the rendition of Nadageethe, the state anthem, adding a touch of cultural reverence to the proceedings. Esteemed leaders of the academy, including Dr. B Vengamma (Vice-chancellor, SDUAHER), Dr. Muninarayana C (Registrar, SDUAHER), and Dr. Shashidhar K (Controller of Examinations, SDUAHER), also graced the occasion with their presence and participation. The event officially began at the scheduled time with a warm welcome speech delivered by Dr. Arvind Natarajan (Dean FAHP, SDUAHER). This was followed by a mass demonstration of the common yoga protocol from 7.00am to 7.45am, expertly led by the Department of Integrative Medicine and dedicated volunteers. A total of 220 participants, including students, faculty, and administrators from the university, actively took part, showcasing a collective commitment to wellness Dr. B Vengamma delivered an insightful address, emphasizing the critical importance of yoga in today's world and its significant benefits in managing various non-communicable diseases. As a distinguished neurologist, Dr. Vengamma elaborated on the practical aspects of integrating yoga into one's routine. She recommended practicing yoga for a duration of 45

	to 60 minutes, at least 3 to 4 times a week, to truly reap its transformative benefits. Drawing upon her expertise, she specifically highlighted yoga's relevance to neurological problems, citing its efficacy in managing conditions such as migraine, anxiety, and stress-related disorders. She explained how specific yoga asanas, pranayama techniques, and meditation can help in regulating the nervous system, reducing inflammation, and improving overall brain health, thereby offering a complementary approach to traditional neurological treatments. Dr. Muninarayana C (Registrar, SDUAHER) shared his profound insights into the transformative power of yoga, drawn from his personal journey. He revealed his remarkable dedication to the practice, stating that he has consistently performed 108 SuryaNamaskara daily for over two decades, maintaining this regimen with exceptional regularity. He underscored the paramount importance of mental discipline, asserting that yoga serves as an exceptionally potent method for mind control and management. He expanded on the concept of self-mastery, highlighting that in addition to cultivating mental equanimity, it is crucial to master the art of communication, encompassing not only the content of one's speech but also its delivery and the judicious use of silence. His discourse resonated deeply with the attendees, providing a compelling illustration of yoga's transformative capacity. To commemorate the International Day of Yoga (IDY) 2025, the Department of Integrative Medicine organized a Poster Drawing Competition with the theme "One World, One Health". After the successful completion of the common yoga protocol practice and speeches, the winner's prizes were distributed, facilitated by the esteemed leaders of the academy. The event concluded with a vote of thanks delivered by Dr. Ashween Bilagi (Head, Department of Integrative Medicine), expressing gratitude to all participants, collaborators, and sponsors. The program concluded respectfully with the national anthem. All the SOPs as recommended by AYUSH were followed. Overall, The Yoga Sangam 2025 was a grand success, fostering a greater understanding and appreciation for yoga within the university community and beyond.

Event report

Name of the Event: National Workshop on SAMATVAM 2025

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – Institutional
2	**Background/Introduction** The Department of Integrative Medicine, Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER), in collaboration with the RL Jalappa Institute of Oncology, Sri Devaraj Urs Medical College, Sri Devaraj Urs College of Nursing, and the Research and Development Cell, SDUAHER, organized SAMATVAM 2025, a hybrid workshop held on 20th June 2025 to commemorate the 11th International Day of Yoga. Themed "Integrative Medicine: The Future of Healthcare", the event aimed to highlight the growing relevance of integrative approaches in contemporary medical practice. The workshop was funded by the Central Council for Research in Yoga and Naturopathy (CCRYN), Ministry of AYUSH, Government of India. The program began with a basic introduction to Integrative Medicine delivered by Dr. Ashween Bilagi, Head of the Department of Integrative Medicine. The inaugural session commenced at 10:45 AM, featuring an invocation song and a welcome address by Dr. Arvind Natarajan, Dean, Faculty of Allied Healthcare Professionals, followed by opening remarks from Dr. DVLN Prasad, Chief Administrative Officer, Dr. Muninarayana C, Registrar, and Dr. Vengamma B, Hon'ble Vice Chancellor, SDUAHER. A heartfelt sharing of experiences by cancer survivors added an inspiring dimension to the proceedings. The academic sessions featured expert insights from eminent speakers. Dr. Prabhakar K, Principal, SDUMC, presented on the role of Integrative Medicine in managing diabetes and hypertension. Dr. Manjunath G N, Professor, Department of Radiation Oncology, spoke on its application in end-of-life and palliative care. Dr. Raghavendra Rao, Director of CCRYN, Ministry of AYUSH, Government of India, delivered a comprehensive address on the importance of yoga and research in integrative health. The final session was led by Dr. Purushotham A, Assistant Professor, Department of Psychiatry, who explored the integration of psychiatry with yoga-based interventions. The event concluded with a

	formal vote of thanks by Dr. Ashween Bilagi. The workshop was attended by faculty members, students, and healthcare professionals both in person and virtually, and served as a valuable platform to advance the discourse on holistic and patient-centered healthcare models.

10.	Highlights of events including photos The event commenced with a vibrant **brainstorming session by Dr. Vinutha**, where participants introduced themselves and shared the strengths of their classroom teaching. This interactive activity beautifully highlighted the diverse talents and teaching methodologies of the attendees, setting the tone for an engaging day of learning.Dr. Vinutha continued with an insightful session on

Interactive Teaching-Learning Methods, elaborating on different modalities such as **Conventional, Synchronous, Asynchronous,** and **Blended Learning.** Her talk helped participants explore a spectrum of interactive strategies applicable in modern classrooms.

This was followed by a session on **Case-Based Learning** by **Dr. Bhuvana,** Professor of Pharmacology. She simplified this method, presenting it as an effective tool for implementing **active learning in large-group teaching,** especially for health professional students which was very useful.

The third session featured **Dr. Arvind Natarajan,** Professor of Microbiology and Dean of Allied Health Sciences, who delivered an energetic session on **Objective Triggered Learning.** His structured approach, combined with spontaneous questions and chocolate giveaways, kept the participants thoroughly engaged. Sir simplified his talk by showing the ways it to be implemented in the large group class.

Next, **Dr. Sudha Reddy,** Professor and Head of Pediatrics, presented on the **Jigsaw Method of Teaching.** Her cleverly designed and interactive session captivated the audience, becoming one of the highlights of the day. Madam showed her slides and disused deeply in the understanding manner to the crowd.

An innovative session on **Gamification in Education** was conducted by **Mr. Lokeshwar S.,** Assistant Professor of Speech Pathology & Audiology. He introduced engaging digital tools such as **AhaSlides, Educaplay,** and **Wordwall,** demonstrating how **gamification and game-based learning** can enhance classroom participation.

The Morning session concluded with a **wrap-up and experience-sharing session by Dr. Usha G. Shenoy.** She showcased real-life implementations of **active learning strategies** across both medical and allied health science students, especially in topics often perceived as difficult or unengaging. Her presentation emphasized that, with creativity and planning, even large-group sessions can be made interactive and effective.

Post-Lunch Interactive Session and Closing Remarks

After lunch, the afternoon session commenced with a **hands-on activity.** Participants were divided into groups and asked to **discuss a topic and select an appropriate interactive teaching tool** from those introduced during the morning sessions. They were then guided to **present their chosen method step-by-step** to the audience.

The session was lively and engaging, with enthusiastic discussions within groups and **active participation during the presentations,** showcasing creative

	application of the morning's learning. The day concluded with a **Vote of Thanks**, graciously delivered by **Dr. Vinutha Shankar** , expressing heartfelt appreciation to all speakers, organizers, and participants for making the event a success. **Feedback was then collected** from the attendees, and a few participants voluntarily shared their reflections and appreciation, highlighting the usefulness and practicality of the sessions conducted. Finally, the event came to an end with a group photograph

Academic Year: 2025-2026

Sl. No.	Event Report- Department of Orthopaedics
1	**Name & Level of Event**
	State Level CME and WORKSHOP on "NECK PAIN UNPLUGGED: PRACTICAL GUIDELINES FOR PRACTITIONERS" **On 17/06/2025** **Level of event: State level**
2	**Background / Introduction**
	Neck pain is one of the most common musculoskeletal complaints affecting individuals across all age groups, with significant implications for quality of life and productivity. It can arise from a variety of causes ranging from mechanical strain and postural issues to more serious conditions such as cervical radiculopathy and myelopathy. Understanding and managing neck pain requires a systematic approach that integrates clinical evaluation, imaging interpretation, conservative treatment modalities, and when necessary, surgical intervention. 1. **Anatomical & Clinical Insight**: Knowledge of cervical spine anatomy, biomechanics, and common clinical syndromes is fundamental to accurate diagnosis and treatment planning. 2. **Multimodal Assessment**: Evaluation through clinical examination and appropriate use of imaging—X-rays, CT, and MRI—forms the cornerstone of effective management. 3. **Conservative and Surgical Strategies**: Most cases of neck pain can be managed non-operatively through physiotherapy, medications, and posture correction. However, timely identification of surgical indications is crucial in cases involving neurological compromise. **Early Diagnosis**: Reduces the risk of chronic pain and disability. **Targeted Treatment**: Improves patient outcomes and function. **Evidence-Based Practice**: Enhances practitioner confidence and clinical efficiency. This CME and cadaveric workshop is designed to demystify neck pain by offering a practical, hands-on learning experience for orthopaedic trainees and young surgeons—bridging the gap from outpatient clinics to operative theatres..

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – Institutional
2	**Background/Introduction-** The Department of Integrative Medicine, in collaboration with the Sri Devaraj Urs College of Nursing, organized a Common Yoga Protocol training session to commemorate the 11th International Day of Yoga. The training was conducted over five days, from 16th to 20th June 2025, with the objective of promoting the principles and practices of yoga among nursing students and faculty. This initiative was in line with the broader national effort to encourage the integration of yoga into healthcare education and daily life. The sessions were led by trained yoga instructors from the Department of Integrative Medicine, who guided participants through the Common Yoga Protocol, including foundational yoga postures, breathing techniques, and mindfulness practices. The program witnessed active participation, with approximately 100 students and 5 faculty members attending the sessions. The training not only enhanced awareness about the health benefits of yoga but also encouraged its incorporation into personal and professional wellness routines.

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – Kolar District
2	**Background/Introduction-** To commemorate the 11th International Day of Yoga, an outreach event was organized at Government Higher Primary School, Theralli, Kolar, on 16th and 17th June 2025, from 12:00 PM to 1:00 PM, sponsored by Sri Devaraj Urs Academy of Higher Education and Research (SDUAHER). The program was inaugurated by Dr. Ashween Bilagi, Head, Department of Integrative Medicine, SDUAHER, in the presence of the Headmaster and staff of the school. Conducted in offline mode, the event witnessed the enthusiastic participation of 33 students and 5 faculty members. The initiative aimed to promote awareness about the importance of yoga in daily life and to foster health-oriented educational engagement among schoolchildren. The sessions included a yoga awareness talk delivered by Dr. Ashween Bilagi, Head of the Department of Integrative Medicine, SDUAHER. This was followed by yoga demonstrations and group activities aimed at promoting physical well-being and mindfulness, in alignment with the objectives of the International Day of Yoga. The enthusiastic participation and engagement of the students contributed to making the event both meaningful and impactful. The programme concluded with a vote of thanks presented by the school's science teacher, who acknowledged the valuable support and efforts of SDUAHER and the organizing team. Photographic documentation of the event captured the enthusiasm and active involvement of the participants.

ABOUT THE SESSION

- To sensitize students about substance abuse and its harmful effects
- To increase awareness and understanding methods of prevention
- Government policy on curbing the act of menace of substance abuse

Sixth Event: Monthly seminar

Date: 14-06-2025

Venue: C.V Raman Auditorium III Floor, SDUAHER.

Time: 11.00 AM to 12 Noon

Resource Person: Dr. Ruth Sneha C,

Associate Professor, Department of Psychiatry, R L Jalappa Hospital and Research Centre

Topic: Your future, your choice: Say no before it starts. A talk on substance abuse

Event: Inaugural function

The following dignitaries presided over the function:

- Dr. Ruth Sneha C, Associate Professor, Department of Psychiatry, R L Jalappa Hospital and Research Centre
- Dr. C. D. Dayanand, Professor. & Head, School of Allied Health Science.
- Dr. Deena C Harper, Associate Professor, School of Allied Health Science.
- Dr. Usha G Shenoy, Assistant Professor, School of Allied Health Science

Invited Guest:

Dr. Ruth Sneha C,

Associate Professor, Department of Psychiatry, R L Jalappa Hospital and Research Centre

Guests of Honour:

- The event commenced with a warm welcome by Ms Kezia ,3rd year, CPT Student, who expressed the pleasure of hosting the 6th Monthly Seminar organized by the School of Allied Health Sciences & welcomed all the dignitaries & addressed the gathering.

- Mr. Christy, ATOT 6th semester student, introduced the chief guest.

Speaker: Dr. Ruth Sneha C,

Associate Professor, Department of Psychiatry, R L Jalappa Hospital and Research Centre.

Topic: Your future, your choice: Say no before it starts. A talk on substance abuse.

Rapporteur report:

Dr. Ruth Sneha C, delivered an engaging and insightful talk on the theme of substance abuse prevention, highlighting its harmful effects, underlying psychological issues, and the importance of early intervention. The session emphasized both clinical awareness and government policies regarding substance abuse.

Key Responsibilities in Critical Care:

- **Understanding Substance Abuse**
    - Defined as the harmful or hazardous use of psychoactive substances.
    - Often tied to deeper psychological issues like trauma, anxiety, or peer pressure.

- **Consequences of Abuse**
    - Affects physical health (organ damage, addiction), mental well-being (depression, psychosis), and social life (family, academics, career).
    - Emphasized the long-term consequences on future goals and aspirations.
- **Importance of Early Intervention**
    - Recognizing early signs in oneself and peers can drastically improve outcomes.
    - Discussed referral systems and the role of healthcare professionals in prevention.
- **Government Policies & Support Systems**
    - Overview of national policies like NDPS Act and de-addiction programs.
    - Encouragement to use helplines and community support networks.
- **Psychological Empowerment**
    - Built around the session's theme: "Your future, your choice: Say no before it starts."
    - Urged students to take conscious decisions, resist peer pressure, and foster resilience.
- **Interactive Learning**
    - Open dialogue between students and the speaker encouraged personal reflection.
    - Real-life case discussions added practical understanding.
- **Institutional Role**
    - SDUAHER's commitment to creating responsible, well-informed healthcare professionals.
    - Reinforced the importance of awareness as part of professional integrity and social responsibility.

- **Outcome:**
  - Enhanced student awareness about the psychological and social aspects of substance abuse
  - Encouraged open dialogue and critical thinking.
  - Strengthened institutional commitment to health education and social responsibility

- Mr. K. Naveen, Lecturer/Course coordinator of EMT, School of allied health science, SDUAHER gave vote of thank

- The resource person was handed over certificate of appreciation

- Raised for National Anthem.

Event report

Name of the Event: Advance Yoga Competition

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – Academy
2	**Background/Introduction-** The Advanced Yoga Competition, organized by the Department of Integrative Medicine at Sri Devaraj Urs Academy of Higher Education and Research in association with R L Jalappa Central School, took place on 14th June 2025. Held at the Central Library's AV Hall in SDUAHER, the event welcomed participants between the ages of 10 and 25. A total of 78 students enthusiastically took part in this enriching experience. The competition began at 9:00 am and provided a platform for young yoga practitioners to showcase their skills. The competition concluded with the announcement of winners, with cash prizes of ₹3000, ₹2000, and ₹1000 awarded to the first, second, and third place holders in junior and senior categories respectively, along with certificates. The event was graced by Dr. Aravind Natarajan, Dean, Faculty of Allied Health and Basic Sciences, Mrs. Laxmi Bhat, Principal of R L Jalappa Central School, and Dr. Ashween Bilagi, I/C Head of the Department of Integrative Medicine. The successful execution of the event highlighted the growing emphasis on holistic health practices and youth engagement in wellness activities. Participants, parents, and faculty appreciated the event's organization and the opportunity it offered for young talents to gain recognition and confidence in the field of yoga.

Event Report: Epignosis-08: State Level Biochemistry Quiz Competition- 2025
College: Sri Devaraj Urs Medical College
University: Sri Devaraj Urs Academy of Higher Education and Research
Date: 14.06.2025

Sl. No.	Particulars
1.	**Level of Event**: State Level
2.	**Background / Introduction**: Eighth State-Level Annual Biochemistry Quiz EPIGNOSIS-08",organized for First MBBS students (2024-25batch) in collaboration with the Association of Medical Biochemists Karnataka Chapter(AMBKC) by Department of Biochemistry, Sri Devaraj Urs Medical College, a constituent of Sri Devaraj Urs Academy of Higher Education and Research, Kolar, Karnataka, India on 14.06.2025. This academic event is aimed at fostering excellence in the field of Medical Biochemistry. The quiz offers a vibrant platform for students to showcase their knowledge, apply critical thinking, and participate in healthy academic competition The theme of **Epignosis-08** focused on delving into the intricate aspects of Biochemistry, encompassing **enzymatic functions, metabolic pathways, molecular interactions** and **genetic regulation.** . The quiz content was based on the **first-year MBBS syllabus prescribed by the National Medical Commission (NMC).**
3.	**Venue** **Silver Jubilee Auditorium, Kolar 2nd floor, Library building, SDUMC of SDUAHER** **Registration link:** https://shorturl.at/MH7VZ
4.	**Sponsors**: SDUAHER & AMBKC
5.	**Proceedings:** **Registration:** The event commenced at **8:30 AM** with a smooth and efficient registration process. **with automated ticketing system** for team registrations. Each team received a **unique ticket no. via email**, which significantly streamlined the registration and check-in procedure. Simultaneously, a **breakfast** arranged by the **organizing committee** was served to all participants, marking a warm and welcoming start to the day. **Inauguration:** Following the registration, the **inaugural ceremony** took place from **9:45 AM to 10:50 AM**. The program commenced with a preamble by **Dr. Soumya N**, who invited the dignitaries to the dais. **Dr. Prabhavathi K** then extended a warm welcome to all guests and introduced the **resource persons** for the event.

The ceremony began with an **invocation song** performed by **Ms. Ankita Das**, a first-year MBBS student, followed by the traditional **lamp lighting ceremony**.
The event was graced by the presence of several distinguished dignitaries, including:

- **Dr. Muninarayana C**, Registrar, SDUAHER
- **Dr. Vinuthashankar M**, Vice-Principal, SDUMC
- **Dr. Shashidhar K N**, Professor, Department of Biochemistry
- **Dr. Aliya Nushruth**, Observer from AMBKC and Secretary, AMBKC
- **Quiz Masters**:
  - **Dr. Asha Kiran S**, Principal and Professor & HOD of Biochemistry, HIMS, Haveri
  - **Dr. Shubha Jayaram**, Professor and HOD of Biochemistry, MMCRI, Mysuru

Dr. Muninarayana C and **Dr. Vinuthashankar M**, serving as patrons and guests, along with **Dr. Aliya Nushruth**, addressed the gathering, acknowledging the significance of the event and encouraging the participants

PreliminaryRound:
Following the inauguration, the **Preliminary Round** of the quiz competition was conducted from **11:00 AM to 12:00 PM**. A total of **58 teams**, each comprising **three participants**, took part in this screening round. The format consisted of **60 multiple-choice questions (MCQs)** to be completed in **60 minutes**

The answer scripts were promptly evaluated by the **internal faculty members** of the Department of Biochemistry. Based on the scores, the **top 15 teams** advanced to the second round. In cases where teams had identical scores, **tie-breaking was done** using responses to **star-marked questions**, which carried a higher level of difficulty.

The following teams qualified for the second round:

1. PESU Institute of Medical Sciences and Research (PESUIMSR), Bangalore – 3 teams
2. Shri Atal Bihari Vajpayee Medical College and Research Institute, Bangalore – 3 teams
3. Adichunchanagiri Institute of Medical Sciences – 1 team
4. Mysore Medical College – 1 team
5. Vijayanagara Institute of Medical Sciences (VIMS), Bellary – 1 team
6. Chamundeshwari Institute of Medical Sciences, Channapatna – 1 team
7. Siddaganga Institute of Medical Sciences, Tumkur – 1 team
8. MVJ Medical College & Research Hospital, Bangalore – 1 team
9. Kasturba Medical College (KMC), Mangalore – 2 teams
10. St. John's Medical College, Bangalore – 1 team

These teams demonstrated outstanding performance in the preliminary round and moved forward to compete in the subsequent stages of the quiz.

Semi-final Round (Second Round):

Following the tea break, the **Semi-final Round** began at approximately **12:45 PM**. This round featured a mix of **multiple-choice questions, Tic Toc 20 and sequencing round**, designed to test both depth and application of knowledge.

The round was expertly conducted by **Dr. Shubha Jayaram** and **Dr. Asha Kiran S**, whose combined experience and insightful presentation significantly enriched the quality of **Epignosis-08**. Their role as **Quiz Masters** extended beyond simply testing knowledge—they inspired participants to explore the subject more deeply and appreciate the complexity and beauty of **Biochemistry**.

At the conclusion of this round, **six top-performing teams** were selected to advance to the **Final Round**. Meanwhile, a **lunch** organized by the **organizing committee** was served to all participants, providing them a welcome break and refreshment before the final phase of the competition.

Final Round:

The Final Round of Epignosis-08 commenced post-lunch at around 2:45 PM, conducted by the esteemed resource persons, Dr. Shubha Jayaram and Dr. Asha Kiran S.

This round featured six engaging and intellectually stimulating segments, including:

- Case based Questions
- Objectivity
- A round on "Famous Discoveries and Discoverers", challenging participants to connect landmark biochemical discoveries with the scientists behind them: BBBB; Brain behind Biochemical breakthroughs
- Hidden curriculum
- Problem based learning calculation round
- A fast-paced Rapid-fire Round: Bullet Brain

The Quiz Masters brought energy and enthusiasm to the event, maintaining an engaging rapport with both the participants and the audience. Their balanced approach—marked by fairness, courtesy, and encouragement—ensured that the competition remained both stimulating and enjoyable.

The event concluded with the announcement and recognition of the top-performing teams.

The prestigious **Rolling Shield of AMBKC** was officially handed over from **Bangalore Medical College and Research Institute** to the winners of **Epignosis-08, PESUIMSR, Bangalore**

In essence, **Epignosis-08** was not merely a quiz competition, but a **celebration of scientific curiosity, collaborative learning, and technological innovation** within the academic sphere.

The **resource persons** were felicitated with **mementos and certificates** in appreciation of their

valuable contribution to the event. This was followed by the **prize distribution**, where the **winners received cash prizes, mementos, and certificates**. Additionally, **clinical subject books** were gifted to all finalist teams as a token of encouragement

6. **Conclusive remarks**:
The event concluded with the announcement and recognition of the top-performing teams, celebrating their excellence and dedication in the field of Biochemistry.
The function concluded with a heartfelt **vote of thanks** delivered by **Dr. Soumya N**.

7. **Participants & delegates:**
The competition witnessed enthusiastic participation from **174 students**, forming **58 teams** representing **28 esteemed medical institutions** across **Karnataka**, fostering a vibrant spirit of **intellectual curiosity and academic excellence**.

8. **Prize Distribution**:

Sl. No.	Prize	College name	Students name
1	**1st Prize**	PESU IMSR, Bangalore	Navya Tandon, Rishi KP, Zehrah Faisal
2	**2nd prize**	MVJ Medical College and Research Hospital, Bangalore	Nitheesh Bhoopathy, Prachiti Santosh Jagd Meghana Hegde
3	**3rd prize**	PESU IMSR, Bangalore	Sanjana M, Rakshitha S, Rajalakshmi K S
4	**Consolation Prize**	Siddaganga Medical College and Research Institute, Tumakur	Shashank S Doddamani Ranjith V Sanjay J
5	**Consolation Prize**	Ballari Medical College and Research centre, Ballari	M Abhinav Harshitha N K Yaswanth
6	**Consolation Prize**	Mysore Medical College and Research Institute, Mysuru	Pratham Shekhar C Sheraz Abdullah Shlok A P

9.	**Valedictory Ceremony:** **Valedictory** **Function:** The **Valedictory Ceremony** was gracefully coordinated by **Dr. Soumya N**. The remarkable success of **Epignosis-08** was a testament to the **exemplary leadership** of **Dr. Prabhavathi K**, Professor and Head of the Department of Biochemistry, and **Organizing Chairperson**, along with **Dr. Soumya N**, **Organizing Secretary**, and the **entire Biochemistry team**. Every team member contributed with dedication and enthusiasm, ensuring the seamless execution of the event.
10.	**Highlights of events including photos** Epignosis-08 began at 8:30 AM with a smooth and efficient registration process, aided by an automated ticketing system that issued unique ticket numbers to teams via email. Participants were warmly welcomed. The inaugural ceremony featuring a welcome address, invocation song, and traditional lamp lighting. Esteemed dignitaries shared brief remarks, underscoring the academic value of the event. 58 teams participated in a preliminary round consisting of multiple-choice questions, with the top 15 teams from - institutions across Karnataka advancing to the next stage. The semifinal round began, challenging teams with MCQs, Tic Toc 20, and sequencing tasks. Six teams qualified for the final round, which featured six dynamic segments including case-based questions, a rapid-fire round, and more. The Quiz Masters conducted the session with enthusiasm, making it both rigorous and engaging. PESUIMSR, Bangalore emerged as the champions, receiving the Rolling Shield, cash prizes, mementos, certificates, and clinical books. The event concluded with the felicitation of resource persons, celebrating a successful day of knowledge-sharing, competition, and collaborative learning.

Event report

Name of the Event: Poster Drawing Competition

Name of the Department: **Integrative Medicine**

Sl.no	Event Report
1	Level of Event – Academy
2	**Background/Introduction-** To commemorate the International Day of Yoga 2025, the Department of Integrative Medicine, in association with the Sri Devaraj Urs College of Nursing, organized a Poster Drawing Competition on 12th June 2025 (Thursday). The event was held from 10:00 AM to 1:00 PM at the Recreation Hall, Nursing Hostel, SDUAHER Campus, Tamaka, Kolar. The competition was themed "Yoga for One Earth, One Health", reflecting the holistic vision of yoga in promoting harmony between human health and planetary well-being. The event aimed to inspire creativity while spreading awareness about yoga's role in sustainable living and integrative health. The competition witnessed enthusiastic participation from students of the Pharmacy and Nursing College, BASLP, and RL Jalappa Central School, as well as others across the campus, who translated the theme into thoughtful and visually engaging posters. The artworks highlighted yoga as a bridge between individual wellness and global ecological balance. The event successfully blended the celebration of yoga with artistic expression, reinforcing SDUAHER's commitment to holistic health education and community awareness.

SI NO	EVENT REPORT
1.	**NAME AND LEVEL OF EVENT** Workshop on Quality Assurance in Theory and Practical-Based Assessment & OSCE
2.	**BACKGROUND/ INTRODUCTION** Sri Devaraj Urs College of Nursing in Coordination with IAQC conducted three-day faculty training Programme on **Quality Assurance in Theory and Practical-Based Assessment & OSCE-Workshop** was conducted on 9th 10thand 14th June 2025 at A.V Hall, SDUCON. **The objective of the workshop:** ❖ To enhance the understanding and implementation of quality standards in both theoretical and practical assessment to the faculty members. ❖ To familiarize participants with the structure and format of the OSCE, including station types and timing. ❖ To develop participants' skills in designing clear, objective, and measurable OSCE stations with appropriate scoring criteria. **DAY-1 09/6/2025** On the first day theory class on basics of educational methodology, domains, assessments, Evaluation, how to reorganize curriculum implementation plan, assessment of blue print, draw QP from assessment blue print followed by practical session on assessment process. **DAY-2 10/6/2025** On the second day it was a complete group activity session speciality wise on assessment of blue print, preparation of QP & Question bank. **DAY-3 14/6/2025** On the third day session was on OSCE Preparation theory & practical stations wise
3.	**VENUE:** A.V Hall, SDUCON.
4.	**SPONSORS:** SDUCON
5.	**INAUGURATION** The programme commenced at 9:30 AM with an invocation song presented by the V Sem students of SDUCON, setting a respectful tone for the event. This was followed by a warm and gracious welcome address delivered by Dr.G.Vijayalakshmi, Principal, SDUCON, who extended heartfelt greetings to the dignitaries, participants marking the formal beginning of the program.
6.	**SPEAKERS/ JUDGES/ CHAIRMAN/PANEL TEAM** The sessions were graced by the presence of esteemed chief guest Dr. C. Muninarayan, Registrar, SDUAHER and Mrs. Vinutha Shankar, Director, UCHPE & Vice-Principal, SDUMC, Dr.Muneer

Scanned with OKEN Scanner

	Ahamad, Director RAATI, Bengaluru, resource person & other dignitaries Dr.G.Vijayalakshmi, Principal, Dr.Lavanya Subhashini, Vice principal & Prof. Jairakini Aruna, CNE Coordinator, SDUCON inaugurated the programme. Dr. C. Muninarayan, Registrar, SDUAHER addressed the gathering with his insightful and motivational addresses played a vital role in inspiring the faculty toward adopting best practices in assessment and evaluation.
6.	**PARTICIPANTS & DELEGATES** The programme benefited 22 faculty & 17 PG Students from SDUCON.
7.	**VALEDICTORY** Over the past three days, participants gained significant insights into the interactive sessions, practical demonstrations, and collaborative discussions have equipped us with the tools and confidence to apply these learnings in our respective fields. The expertise, dedication, and engaging teaching style of the resource person have greatly enriched our learning experience. The knowledge and skills shared have not only deepened our understanding but also inspired us to apply these concepts effectively in our professional practice. Pre & post-test was conducted on first & third day of the program The pre-test score was 37% & post-test score was 91% respectively. Feedback was collected from all the participants. The programme ended on 14/6/25 at 4pm
8.	**ANY OTHER INFORMATION** Faculty members from various departments actively participated and appreciated the relevance and applicability of the content. The sessions emphasized aligning assessment methods with learning outcomes and ensuring fairness, transparency, and academic integrity. The workshop concluded with a feedback session, where participants expressed positive reflections and a renewed commitment to implement quality-driven assessment strategies in their academic practices.

No. SDUAHER/KLR/RLJCOP/ 06 /2025-26	DATE: 09-06-2025
Sl. No.	**Event Report**
1	**Title of the Event:** Seminar on: Promoting Menstrual Health: Hygiene Practices and the Management of Irregular Periods Date: 9th June 2025 Time: 10:00 AM onwards Venue: Classroom 1, R. L. Jalappa College of Pharmacy. Organized by: R. L. Jalappa College of Pharmacy, SDUAHER, Tamaka, Kolar-563103 Speaker: Dr. Vimarshitha P, Associate Professor, Dept. of OBG, SDUMC, SDUAHER
2	**Background / Introduction:** Menstrual health is a vital but often overlooked component of women's overall well-being. To address this concern, R. L. Jalappa College of Pharmacy, SDUAHER, organized a seminar on "Promoting Menstrual Health: Hygiene Practices and the Management of Irregular Periods." The objective of the seminar was to raise awareness among students, especially young women, regarding menstrual hygiene, cycle irregularities, and the need for timely medical attention.
3	**Event Overview:** The seminar was conducted on 9th June 2025 at 10:00 AM in Classroom 1 of RLJCOP. The speaker, Dr. Vimarshitha P, Associate Professor, Department of Obstetrics and Gynaecology, SDUMC, delivered an informative and engaging session covering various aspects of menstrual health. The topics discussed included the importance of menstrual hygiene, identifying abnormal menstrual patterns, lifestyle modifications, and when to seek medical help. The session also included Q&A interactions where students clarified their doubts directly with the speaker.
4	**Participants & Delegates in Number** Students – 26 Teaching Faculties – 4 Total –30 Participants
5	**Execution and Participation:** • The seminar was organized by the faculty members of RLJCOP with support from student volunteers.

	• Only female students from R. L. Jalappa College of Pharmacy attended the session, ensuring a comfortable and focused environment for discussion on menstrual health. • The seminar featured a detailed presentation supported by visuals, real-life examples, and practical guidance. • The participants were actively engaged, and the Q&A session encouraged open conversations and addressed personal queries with sensitivity and professionalism.

Photographs of the event:
